#### NOTES TO THE RETURN

### \*0201\* - Directions modifying the Accounts and Statements Rules

The Financial Services Authority (FSA), on application of the firm, made a direction effective December 2012 under section 148 of the Financial Services and Markets Act 2000 (the Act). The effect of this direction is stated in notes 1322 and 1901. It was impacted by the transfer of business described in note 0212.

The FSA, on the application of the firm, made a direction in October 2008, under section 148 of the Act. The effect of the direction was to allow the firm to:

- i) take full credit when calculating its mathematical reserves in accordance with INSPRU 1.2 for its reinsurance with the intra-group Insurance Special Purpose Vehicle (ISPV), Friends Annuities Limited (FAL), in respect of the In-Force Intra-Group Reassurance Agreement dated 18 December 2007 (as amended), the New Business Intra-Group Reassurance Agreement dated 18 December 2007 (as amended) and, from the date on which it takes effect, the further In-Force Intra- Group Reassurance Agreement; and
- ii) to allow the reinsurance debts owed to the firm by the ISPV to be admissible.

The holding in FAL was transferred under the Part VII transfer described in note 0212.

The FSA, on the application of the firm, made a direction under section 148 of the Act in November 2009. The effect of the direction is to modify the provisions of INSPRU 3.1.35R and IPRU(INS) Appendix 9.3 so that a more appropriate rate of interest is used for assets taken in combination.

In accordance with a Direction dated 24 December 2012, the requirement of IPRU(INS) 9.3(4) that an insurer's financial year must be a 12 month period has been modified to require that the financial year commencing 1 January 2012 shall end on 27 December 2012. The Direction also required the provision of a return for the 12 month period from 1 January 2012 to 31 December 2012 and this return has been prepared for that period.

In accordance with the Direction a separate return has also been provided to the FSA with respect to the period from 1 January 2012 to 27 December 2012.

Financial year ended 31 December 2012

#### NOTES TO THE RETURN

### \*0212\* - Business transfer out

On 28 December 2012, the majority of the business of the Company was transferred to Friends Life Limited ("FLL") via a business transfer scheme under Part VII of the Financial Services and Markets Act 2000 ("FSMA"). The purpose of the Scheme was to align the business with the separate UK and Heritage divisions while removing solvency capital inefficiencies, constraints and taking advantage of cost synergies.

The business transfer scheme resulted in the following business being transferred out of the Company:

- All with-profit fund assets and policies to separate funds within FLL.
- All non-profit business and associated assets with the exception of £587.1m of unit linked pension business to the existing non-profit fund of FLL.
- £751.6m of shareholder fund assets to the FLL shareholder fund.

As a consequence of the transfer, many of the forms within this return are showing nil balances to represent the 31 December 2012 post transfer position. Forms and notes are still included where there are values in the prior year columns.

### \*1304\* & \*1310\* - Amounts set off

Certain amounts shown in Form 13 have been set off to the extent permitted by generally accepted accounting principles.

### \*1305\* & \*1319\* - Maximum counterparty limits

In accordance with the Friends Life Investment Guidelines, the Investment Manager is authorised to select trading counterparties (e.g. banks, brokers) to be used on the Client's account subject to the following requirements:

- All counterparties will have been formally approved by the Investment Manager's principal credit forum prior to a business relationship starting. In the case of the Investment Manager this is the Global Risk Committee.
- Bonds issued other than in the domestic currency (i.e. non Sterling denominated bonds) may be held but must be hedged back to Sterling currency unless the respective fund guidelines indicate that a less stringent position may apply. The hedging range will be 95 % 105%. Any non GBP currency that is over 2% of the portfolio NAV will be alerted to the Clients.
- The minimum credit rating for fixed income securities is BBB-. The rating to consider for each corporate bond is defined as the lowest available of the credit ratings communicated by S&P, Moody's and Fitch. Where a bond is not formally rated the Investment Manager's own equivalent ratings may be used.
- Active positions taken by the Investment Manager relative to the benchmark weight (expressed as a percentage of a fund's total equity value) will not exceed the following limits unless the limits are exceeded as a result of market movements;

Largest 250 FTSE stocks 4.5% + 1.5% = 6%

Other FTSE All Share stocks 4.5% + 1% = 5.5%

Financial year ended 31 December 2012

#### NOTES TO THE RETURN

• The maximum permitted aggregate holding across relevant UK equity funds will not exceed 10% of the free float market capitalisation ("free float"). For those the combined part of the 90:10 with profits funds managed by the Investment Manager the maximum permitted exposure is 7% of the free float.

There are no downside limits with regard to minimum holdings (versus benchmark) of equities that the Investment Manager is required to hold.

The exposure limits will not apply to holdings with "Special Status". Similarly the limits on holdings in collective investment vehicles and investment trusts are excluded from the calculations for the constraints below given the inherent diversification properties of these vehicles.

The maximum permitted aggregate holding across all overseas equity portfolios of any single overseas equity will not exceed 4% of total market capitalisation. (Free float is not used due to there being no systematic way of monitoring this across all stocks in the overseas universe).

Counterparty and concentration limits applicable to cash managed within the AXA IM Cash Sterling Liquidity Fund are authorised by the Friends Life Investment & ALM Team and defined within the cash expertise guidelines

Management of cash on behalf of the portfolios and the funds has been delegated to the Investment Manager via a mutual investment umbrella fund organised under the laws of Luxembourg

The limits are set along two main dimensions: (1) Country Limits; and (2) Individual Name Limits. Investments in financial institutions are permitted into issuers deemed national champions (i.e. likely to be supported by their respective governments in a crisis) as proposed by the Investment Manager (following input from AXA Investment Managers Paris (AXA IMP), investment adviser of the AXA IM Cash Sterling Liquidity.

No maximum exposure limits apply to government and government-related issuers in the United Kingdom.

Investment in corporate institutions are permitted subject to a minimum credit rating of A1/P1/ AA-, a maximum exposure to individual corporate institutions of 2% and a maximum overall exposure to corporate institutions of nil. Investment in corporate institutions is not permitted in the variable NAV fund.

During 2012, there have been no breaches of the equity limits, government and sovereign fixed income assets. There were fixed income breaches, as a result of some bond downgrades.

### \*1306\* & \*1312\* – Exposure at year end to large counterparties

|  | -                            | -    | (651) | (421,987) |

### \*1321\* - Allocation of Assets

Non Profit invested assets are allocated to the correct fund at source. With Profits invested assets are allocated to the With Profits fund however notionally allocated between the Old With Profits and New With Profits sub-funds. This allocation is in accordance with the Scheme Document approved by the High Court in December 2000.

The apportionment of current assets and current liabilities between subfunds is also notional, rather than being allocated to the subfund in which a transaction first gave rise to the asset or liability.

All allocations are carried out by a method which preserves the correct total value of the net assets of each subfund.

# \*1322\* - Direction modifying the Accounts and Statement Rules

The FSA issued to the firm, in December 2012, a direction under section 148 of the Act. The effect of the direction is to allow the firm to include assets available to support the New With-Profits Funds in its realistic balance sheet (at line 27 of Form 19), in accordance with the firm's Reorganisation Scheme. Those assets are comprised of the amount £nil which is included at line 89 and the amount £nil which is included at line 92 of this form.

Financial year ended 31 December 2012

### NOTES TO THE RETURN

Following the five year test performed as at 31 December 2010 consistent with FLC 2000 Court Scheme, the FLC Board subsequently approved a revised support arrangement of up to £406m conditional upon support being required by the Scheme. The shareholder's fund provides support to the extent that the Non Profits Fund is not able to meet support requirements up to £406m. In accordance with the current direction we have only shown the support assets from Non Profit Fund 1 as being available to support the New With Profits Fund. The relevant business was transferred to FLL as detailed in note 0212.

#### \*1323\* - Effect of transfer of business on Form 13

### \*1401\* & \*1501\*- Provision for reasonably foreseeable adverse variations

The Company identified and reviewed all assets which are valued by marking to model, which are subject to restrictions or agreements relating to transactions or which could potentially be subject to less liquid positions. It was determined, following consultation with the investment managers, that none of these assets required an adjustment pursuant to GENPRU 1.3.30R to GENPRU 1.3.33R.

The Company reviewed its investments to identify whether any provisions were required pursuant to INSPRU 3.2.17R and INSPRU 3.2.18R. It was determined that in each case, sufficient cover is held and no such provisions were required.

### \*1402\* & \*1502\* - Long Term and other than long term business assets / liabilities

#### a) Charges on assets

There were no charges on any of the assets of the Company.

### b) Provision for capital gains tax

Current tax of nil (2011: £158.1m) would arise if the insurer disposed of its unit linked assets. In 2011 provision for this amount is included in mathematical reserves because it will be borne by the unit linked funds. In 2012 the liability is nil as the unit linked life funds have transferred to FLL under the Part VII Scheme.

### c) Contingent liabilities

The Company had no contingent liabilities.

Financial year ended 31 December 2012

### NOTES TO THE RETURN

# d) Guarantees, indemnities or other contractual commitments

The Company has provided indemnity to a fellow subsidiary, Friends Life Services Limited (FLS), which acts as a distributor and third party administrator for the Company's products and services. This indemnity is provided in the event of FLS becoming insolvent, to meet and deal with any civil liability which FLS has incurred to investors (i.e. policyholders) in the course of its marketing of investments which the Company is party to. Any liability arising from the indemnity would be met with other than long term fund assets.

#### e) Other uncertainties

Levies are made under the Financial Services Compensation Scheme (FSCS) to compensate consumers in the event of the failure of any firm authorised under the Financial Services and Markets Act 2000. At the end of the financial year, no amounts had been provided for such levies as the proposed levies for insurance firms in 2012 are not significant.

#### NOTES TO THE RETURN

### \*4013\* - Difference in treatment from accounts prepared under Companies Act 2006

Financial Reporting Standard 26 has been adopted in the Insurer's accounts prepared under Companies Act 2006 ('the financial statements'). As a consequence, in the financial statements, direct written contracts which do not transfer significant insurance risk have not been accounted for as insurance contracts and no premiums or claims are recorded in respect of these contracts. However, in accordance with paragraph 8 of Appendix 9.3 of IPRU(INS), for the purpose of these returns these contracts continue to be treated as insurance. Due to this difference in treatment certain items in Form 40, Form 41 and Form 42 will not correspond with the amounts reported in the financial statements.

### \*4201\* - Analysis of Claims

A proportion of the claims reported in Form 42 are paid under reinsurance arrangements to Friends Life Assurance Society Limited (FLAS) which is another insurance company. The analysis of claims shown reflects the nature of the claim from the perspective of the initial insurer.

There has also been an internal fund transfer of £69m from the Friends Life Company non-profit fund 1 (FLC NPF1) to Friends Life Company non-profit fund 2 (FLC NPF2). The Company position will be shown net of this transfer to avoid double counting.

This is due to the reinsurance of annuity reserves to FAL (the intra-group ISPV). The net reserves in FAL (£3,918.5m) are recaptured in Form 60 for the purpose of calculating the reinsurance ratio in accordance with INSPRU 1.1.92A.

### Part VII transfers out of the Company on 28 December 2012

All business (except unit-linked pension policies on the Embassy platform) formerly written by or reinsured to FLC was subject to a Part VII transfer out of the Company as follows:

- business formerly in the FLC Old With Profits Fund was transferred into the FLL FLC Old With Profits Fund
- business formerly in the FLC New With Profits Fund was transferred into the FLL FLC New With Profits Fund
- business formerly in the FLC Non Profit Fund 1 and the FLC Non Profit Fund 2 was transferred into the FLL Non Profit Fund

FLC's shares in FAL were transferred to the FLL Shareholder Fund, making FLL the sole owner of FAL.

The information in this report in respect of the year to 27 December 2012 also relates to business that was subject to the Part VII transfer to FLL on 28 December 2012.

## Internal reinsurance arrangements as at 31 December 2012

There are two reinsurance arrangements that allow access to FLWL and FLL unit-linked funds.

### 1. Valuation date

- (1) The actuarial investigation relates to a valuation date of 31 December 2012.
- (2) The valuation date of the previous investigation was 31 December 2011.
- (3) There was an interim valuation on 27/12/2012 (for the purpose of IPRU(INS) rule 9.4).

### 2. Changes to product range in 2012

There were no changes to product range during the year, but following the Part VII transfer the only products in the company are unit-linked corporate pensions.

## 3. Discretionary charges and benefits

### (1) Application of Market Value Reduction

During 2012, a Market Value Reduction (MVR) was applied on discontinuance (where permitted, and subject to relevant minima) in respect of the following unitised with profits products effected in the policy years set out below.

| <b>Product Description</b> | Period That MVR Applied |            | Policy Dates of Entry |  |
|----------------------------|-------------------------|------------|-----------------------|--|
|                            | From                    | То         |                       |  |
| Dollar offshore bonds      | 01/01/2012              | 27/12/2012 | 2005-2006             |  |
| Euro offshore bonds        | 01/01/2012              | 27/12/2012 | 2001-2002 & 2005      |  |

For Bonds, MVR rates vary by quarter of entry. For some quarters in the above years, MVR adjustments did not apply.

### (2) Changes to premiums on reviewable non-linked protection policies

### **Individual Lifetime Care Plans**

The mathematical reserves, net of reinsurance, held for this business at the 27 December 2012 prior to Part VII to FLL were £194m.

All reviewable contracts that reached a review date in 2012 have been reviewed, this totalled £98m of net mathematical reserves as at 27 December 2012 prior to Part VII to FLL. The reviewability of a policy is determined by the following conditions:

- Contracts written prior to 1 September 1994 may be reviewed at any time.
- For contracts written after 1 September 1994 but before 1 July 1996, the first review will take place after 10 years with subsequent reviews taking place annually;
- For those written after 1 July 1996 but before 1 May 2003, the first review will take place after 10 years with subsequent reviews being 5 yearly;
- For contracts written after 1 May 2003, the reviews will take place every 5 years.
- For single premium contracts written after 19 June 2000 (or with application date after 1 June 2000) but before 1 May 2003, no reviews will take place after age 70;
- For single premium contracts written after 1 May 2003 no reviews will take place after age 85;
- For regular premium contracts written after 19 June 2000 (or with application date after 1 June 2000) no reviews will take place after age 89.

At review policyholders are given, as appropriate, options of amending premium amounts to maintain the current benefit level, or selecting an equivalent amendment to the benefits under the contract. The following tables provide "quoted" premium changes for policies where a policy review initiated during 2012.

### Reviews during 2012

4455 reviews were initiated during 2012.

| 227 of these were "first reviews", typically falling 10 years after a policy was sold. First review results were as follows: |            |                           |  |  |  |
|--|------------|---------------------------|--|--|--|
| Favourable: 1 (0.4%)   | Neutral: 0 | Unfavourable: 226 (99.6%) |  |  |  |
| Largest premium increase: 193% (regular premium), 150% (single premium)  |            |                           |  |  |  |
| Largest premium decrease: 2% (regular premium)   |            |                           |  |  |  |

| 4,228 were "subsequent reviews", as many policies continue to be reviewable after the first review. Results of the subsequent reviews were as follows: |  |  |  |  |  |
|--|--|--|--|--|--|
| Favourable: 1847 (43.7%) Neutral: 2276 (53.8%) Unfavourable: 105 (2.5%)  |  |  |  |  |  |
| Largest premium increase: 47% (regular premium), 34% (single premium)  |  |  |  |  |  |
| Largest premium decrease: 57% (regular premium)  |  |  |  |  |  |

It should be noted that the premium increase option quoted may not have been chosen in all cases.

It is also worth noting that a fairly significant number of contracts were subject to quinquennial reviews after the expiry of their initial 10 year premium/benefit guarantee. Many of these experienced their first "subsequent review" in 2012 having last been reviewed in 2007. The largest increases and decreases at "subsequent review" arise from these quinquennial reviews (i.e. the largest increases and decreases upon "subsequent review" represent 5 years of change, not just 1 year of change).

For neutral or favourable reviews there was often no change to premiums quoted, instead the benefits under the contracts remained the same or increased.

### Individual Critical Illness and Individual Permanent Health Insurance

The premiums for these contracts can be reviewed at any time. However, no reviews took place in 2012 and there is currently no intention to review these products in the future.

The total mathematical reserves for this business as at 27 December 2012 prior to Part VII to FLL were £5.3m.

### **Friends Life Protection Account**

The first review takes place after 5 years. Subsequent reviews then take place annually, unless the premium changes as a result of the review in which case the premium is then guaranteed for a further 5 years.

The outcome of the review is determined by the following conditions:

• If the review shows a premium reduction of more than 10%, the premium is automatically reduced.

- If the review shows a premium increase of more than 10%, the default option is to increase the premium, but the policyholder has the option to reduce the sum assured and keep the premium unchanged.
- If the review outcome would mean that the premium increase/decrease would not exceed 10%, no change is made to the premium.

The mathematical reserves, net of reinsurance, held for this business at the 27 December 2012 prior to Part VII to FLL were  $\pounds(0.1)m$ .

4122 contracts reached a review date in 2012 and the net mathematical reserves for these contracts totalled  $\pounds(0.07)$ m as at 27 December 2012 prior to Part VII to FLL. The premiums on 57 of these policies reduced by an amount in the range 10% to 23%. The premiums on the other 4065 policies did not change because the increase/reduction was within +/- 10% of the current premium.

## (3) Non-profit deposit administration benefits

The average annualised rate of interest added to non-profit deposit administration benefits during 2012 was:

| Period     |            | Rate of Interest |
|------------|------------|------------------|
| From       | То         |                  |
| 01/01/2012 | 27/12/2012 | 1.06%            |

This rate was before deduction of the rate of annual fund management charge relevant to the policy.

### (4) Service charges on linked policies

Service charges for unit-linked policies changed as follows during 2012 or with effect from 1 January 2013:

### No change:

Low-cost Homebuyers Plan Multivestor Unit-linked pensions (except where described below)

Increase of approximately 3.2% (in line with Retail Prices Index to July 2012):

Flexible Pensions (except paid-up pensions) Health Care Income Plan Multiplan

<u>Increase of approximately 2.6% (in line with Retail Prices Index to September 2012):</u>

Flexible Cover Plan Flexible Mortgage Plan

Increase of approximately 3.2% (in line with Retail Prices Index to October 2012):

Individual Lifetime Care Bond

<u>Increase in line with Retail Prices Index dependent on policy anniversary date:</u>

Homebuyers' Investment Plan

<u>Increase of approximately 1.5% (in line with Average Weekly Earnings Index to July 2012):</u>

Private pension funds

### (5) Benefit charges on linked policies

#### Multipension

During 2012, the mortality charges on these policies were reviewed. The total reserves net of reinsurance for these products at the 27 December 2012 prior to Part VII to FLL were £2,472m.

The impact of the review generally resulted in a decrease in mortality charges of 15% for males, although for some males the reduction was less, and for females there was no change at all. Thus for individual policies, charges either remained static or reduced by 15%.

### **Other products**

No other changes to mortality or morbidity charges for unit-linked policies took place during 2012.

### (6) Fund management charges

During 2012, the net annual management charge (the fund charge after rebate) was changed for the following funds:

| Fund            | Net Annual Management<br>Charge |       | Fund size at 27/12/2012 |
|-----------------|---------------------------------|-------|-------------------------|
|                 | Old                             | New   | £000                    |
| Baillie Gifford | 0.40%                           | 0.25% | 17                      |
| Fidelity        | 0.80%                           | 0.40% | 60,000                  |
| Kames           | 1.00%                           | 1.25% | 8,000                   |
| MFS Meridian    | 0.80%                           | 0.85% | 97,000                  |

There are no notional charges to accumulating with profits policies.

### (7) Unit pricing methods

### Funds other than Group Managed Funds and Ex-PPP Lifetime Care Funds

For each fund other than Private Funds, asset prices are normally obtained at 2 pm on each business day. For funds which invest in external OEICs, the assets are valued by the OEIC provider and the latest published prices available are used. Private Funds are valued less frequently – usually monthly or quarterly for large Funds and yearly for small Funds.

The assets are normally valued on a creation basis (i.e. the price at which assets could be bought), unless it is known that there is a net outflow, in which case the assets are normally valued on a cancellation basis (i.e. the price at which assets could be sold). However, judgement is exercised by the Company as to which basis to use, or whether to use an intermediate basis, depending on the expected trend of net inflows and outflows, to ensure fairness to incoming, outgoing and continuing unit holders. In each case allowance is made for dealing costs, accrued income and any tax implications.

The creation or cancellation price, as appropriate, is then calculated by dividing the net asset value by the number of units.

If a creation price basis is being used, the offer price is derived by multiplying the creation price by an offer price factor, with an adjustment for fund management charges. If a cancellation price basis is being used, the offer price is derived by multiplying the cancellation price by an offer price factor, with an adjustment for fund management charges. The bid price is the resulting offer price multiplied by the reciprocal of the offer price factor.

For funds with a 5% bid-offer spread, the offer price factor is 100/95. For funds with no bid-offer spread, the offer price factor is 1.

Except for switches, units are allocated to a policy at offer price and cancelled at bid price.

Normally, for new business and payment of regular premiums for existing business, the price used is on a historic basis, i.e. that derived from the asset valuation at 2 pm on the previous business day. For all other transactions the price used is on a forward basis, i.e. that derived at 2 pm on the same day, except for certain switches, where the price used is that derived at 2 pm on the following day. For Premium Select Bond, all transactions into or out of the externally managed funds are priced on a forward basis.

Notwithstanding the normal rules as described above, the policies give the right in certain circumstances to defer transactions for up to one month (or up to six months for Property Fund units). At the end of such periods of deferral the unit prices used in such deferrals will be those determined immediately following such period.

### **Group Managed Funds**

For each group managed fund, unit prices are calculated once a week (the "dealing" day). Ordinarily the dealing day is on a Thursday, but at month ends it is the last business day of the month whilst at the beginning of April it is on the fifth (or equivalent business day). On the dealing day asset prices are normally obtained at close of business on that day. For each fund unit prices are obtained by dividing the middle market prices of the underlying assets by the number of units, with an adjustment for fund management charges.

All purchases and sales of units (including switches) take place at the unit prices adjusted upwards for the average expenses of purchase or downwards for the average expenses of sale. These expenses are based on actual dealing costs and are regularly reviewed. Adjustment may also be made on account of income accrued but not received and expenses incurred but not paid (including provision for any potential liability for tax or other statutory payments).

# Ex-PPP Lifetime Care Funds

For internal linked funds available to the Individual Lifetime Care Bond and the Money Market Fund available to the Triple Bonus Bond, prices are determined on a daily basis. For the Balanced Fund available to the Special Investment Bond, unit prices are determined on the first working day of the month.

The Money Market Fund and the Long Term Care Deposit Fund are invested in short term deposits and cash. The remainder of the unit funds are directly invested in unit trusts.

The assets are normally valued on a creation basis (i.e. the price at which assets could be bought), unless it is known that there is a net outflow, in which case the assets are normally valued on a cancellation basis (i.e. the price at which assets could be sold). However, judgement is exercised by the Company as to which basis to use, or whether to use an intermediate basis, depending on the expected trend of net inflows and outflows, to ensure fairness to incoming, outgoing and continuing unit holders.

Units are created or cancelled within each fund at the valuation bid price. This price is determined by taking the value of unit trust units and adjusting for any allowance for distributed income notified but not paid, any associated tax credits, and any investment management charges. This total fund value is divided by the number of units.

Units are purchased by the fund from policyholders at the bid price, which is calculated as the valuation bid price rounded to the lower 0.1p. Units are sold to policyholders at the offer price that is calculated as the bid price multiplied by 100/95 and rounded to the higher 0.1p.

The unit trust assets are valued using the creation price or cancellation price set by the underlying unit trust company on the day of valuation. In general these prices are set at or around 12.00 noon. On any given day the Company deals at the internal prices calculated at the next public valuation which is at 5.00pm.

### (8) Tax deductions from unit-linked funds

#### Life Funds

Tax is provided for on realised capital gains at a rate of 20% immediately on realisation. For this purpose, one-seventh of the unrealised gains in the period on collective investment schemes is treated as a realised capital gain. The tax due is withdrawn from the funds annually after the end of the financial accounting period.

Provision is made in the unit pricing for the potential tax liability on unrealised gains (including gains on collective investment schemes that are not treated as realised gains) at a rate of 20% for funds priced on a bid basis and at a discounted rate for some offer basis funds. No money is removed from the funds in respect of these provisions.

Both realised and unrealised capital gains include an allowance for indexation. Tax is provided for in the unit prices on a daily basis.

Tax relief for losses is given if there are sufficient gains within the same investment fund against which to offset the loss. If there are insufficient gains then the losses are carried forward within the same fund to be utilised at a later date. Credit may be given in the unit price for losses (realised and unrealised) carried forward within the funds at rates of up to 10% (dependent on the amount of losses relative to the value of the fund and the pricing basis of the fund).

#### Other Funds

The only other funds are pension business, where no tax on capital gains is payable.

# (9) Tax provisions for unit-linked funds

See section 3.(8).

### (10) Discounts on purchases of units

The arrangements in place with the fund managers allow for unit purchases and sales to be transacted at their creation or cancellation prices respectively. The Company receives no commission payments for unit trust purchases.

An arrangement is in place with certain fund managers whereby Friends Life receives a rebate on the annual management charge levied by the underlying unit trust. Where this is the case, part of the discount received from the fund manager may be retained by the Company. In most other instances, discounts and rebates accrue to the benefit of the policyholders.

Please see the following table for further information on where rebates are allocated:

# 4. Valuation basis (other than for special reserves)

The valuation bases set out in section 4 relate only to business remaining in FLC at 31 December 2012. The valuation task for the other business which transferred out of FLC on 27 December did not deviate materially from that disclosed in the FSA Return at 31 December 2011, other than in respect of changes in economic conditions.

### (1) Valuation methods

General principles and methods used in the valuation

The valuation bases have been determined with regard to the nature and the term of the assets available to meet the liabilities valued.

The reserves were determined on a prudent basis in accordance with actuarial principles, taking account of the underlying nature of the contracts.

Full allowance has been made in the valuation for the effects of the ceding of premiums and risk under the various reinsurance arrangements in place at the valuation date.

A provision has been made to cover the possibility of default by the internal and external reinsurers.

#### **Unit-linked Business**

For each unit-linked policy the gross reserve is the sum of:

- (i) the value of units allocated at the valuation date, discounted, in the case of capital units and certain accumulation units subject to a discontinuance charge, at a rate not exceeding the rate of future annual management charge or other periodic charges; and
- (ii) a non-unit reserve.

For each individual policy the non-unit reserve is determined by discounting the expected future net cash flow determined on a set of assumptions relating to mortality, interest, expenses and future unit prices. Unit prices are assumed to grow from the prices calculated on the valuation date. Regard is had in the calculations to present and future discontinuance values under each policy so that the total reserve for each policy is adequate for the discontinuance value to be met at any time.

A prudent allowance for future voluntary discontinuance has been made.

For classes where it is prudent to do so (some group pensions business), the payment of future premiums is ignored in determining the non-unit reserve.

For Healthcare Income Plans an additional reserve is held for unexpired morbidity charges, for claims assumed to be incurred but not yet reported and for current claims in payment.

#### (2) Valuation interest rates

|   | 31 December 2012<br>% | 31 December 2011 % |

### (3) Risk adjustments to yields

This section is not applicable as cash equivalent investments are used to back the liabilities.

### (4) Mortality

| Product group  | 31 December 2012 |                 | 31 December 2011 |                 |

| Group Pensions | 90.91% AM80 ult  | 90.91% AF80 ult | 90.91% AM80 ult  | 90.91% AF80 ult |

#### (5) Morbidity

This section is not applicable as the only business within the company is pension unit linked business.

## (6) Expenses

Gross annual per policy expense levels assumed for specified products are set out below.

At 31 December 2012, for unit-linked business, the actual unit costs of Friends Life Services Limited (uplifted by 5% (2011 5%) to provide a margin for prudence) have been allocated as 65% (2011 65%) attributable and 35% (2011 35%) non-attributable, with the non-attributable expenses being covered by profits emerging from the unit-linked business.

During 2012 additional fees were charged to the Life Company where Friends Life Services Limited had incurred costs in respect of exceptional projects. Allowance is made in the reserves for future additional fees in respect of the transition of policies off the Embassy system, the migration of IT support services from AXA systems, and future Solvency II implementation costs.

| Product                          | Product | 31 December 2012 31 December |        |
|----------------------------------|---------|------------------------------|--------|
|                                  | codes   | £ p.a.                       | £ p.a. |
| Unit-linked                      |         |                              |        |
| Group pensions (regular premium) | 735     | 130.43                       | 116.24 |
| Group pensions (single premium)  | 735     | 65.22                        | 58.12  |

Where different expense assumptions apply to groups of policies within the above product types, the assumption shown is that relating to the largest group by number of policies at 31 December 2012. Paid-up policies have been treated as single premium, as the expense assumptions are the same for these groups.

The assumed gross investment expenses are the following percentages of fund size:

Pensions business 0.19% p.a.

#### (7) Inflation rate and unit growth rates

The future inflation rate assumed in the valuation is 3.20% per annum.

For expenses excluding Diligenta costs, expense inflation is assumed to be 4.20% per annum. For outsourced administration costs, these rates are reduced by 0.5%.

The unit growth rates assumed in the calculation of non-unit reserves for unit-linked business are:

Pensions business 3.40% p.a.

#### (8) Future bonus rates

This section is not applicable as the only business within the company is pension unit linked business.

#### (9) Lapse, surrender and conversion to paid-up

The following average annual rates of lapse, surrender and conversion to paid-up have been assumed:

| Product                           |           | Average lapse / surrender /paid-up rate for the policy years |                |                 |                 |
|-----------------------------------|-----------|--|----------------|-----------------|-----------------|
|                                   |           | 1-5<br>% p.a.  | 6-10<br>% p.a. | 11-15<br>% p.a. | 16-20<br>% p.a. |
| UL group. pension regular premium | PUP       | 0  | 0              | 0               | 0               |
| UL group pension regular premium  | surrender |  | See n          | ote 1.          |                 |

<sup>1.</sup> The surrender rates used for UL pension products vary between term gone and term-to-go. It is not representative to combine the rates for these different products in the format required.

Where different persistency assumptions apply to groups of policies within the above product types, the assumptions shown relate to a group which represents more than 50% of the total reserves for the product type.

For classes where it is prudent to do so (mainly group pensions business), the payment of future premiums is ignored in determining the non-unit reserve. Other than this, no allowance is made for conversion to paid-up.

#### (10) Other material assumptions

There are no assumptions not stated elsewhere that are considered to be material to the results of the valuation.

#### (11) Derivative contracts

This section is not applicable.

#### (12) Impact of changes in valuation rules effective from 31 December 2006

No additional changes have been made since the previous valuation.

#### 5. **Options and guarantees**

This section is not applicable as no additional explicit reserves are held for options and guarantees.

#### 6. Expense reserves

### (1) Expense loadings

The aggregate amount, grossed up for tax where appropriate, arising during the twelve months after the valuation date from implicit and explicit reserves made in the valuation to meet expenses in fulfilling contracts in force at the valuation date is £1.7m, after allowing for expenses recovered through the internal reinsurance arrangements. The amounts arising from each of the implicit allowances, explicit allowances for investment expenses, explicit allowances for other maintenance expenses and the non-attributable expenses are shown in the table below:

| Homogeneous<br>risk group | Implicit<br>allowances | Explicit allowances (investment) | Explicit<br>allowances<br>(other) | Non-attribut able expenses | Total |
|---------------------------|------------------------|----------------------------------|-----------------------------------|----------------------------|-------|
|                           | £m                     | £m                               | £m                                | £m                         | £m    |
| Unit-linked business      | 0                      | 0.0                              | 1.1                               | 0.6                        | 1.7   |
| Total                     | 0                      | 0.0                              | 1.1                               | 0.6                        | 1.7   |

107

Renewal commission is not included in these amounts.

#### (2) Implicit expense allowances

There are no implicit allowances for expenses.

#### (3) Comparison with Form 43

The introduction of Financial Reporting Standard 26 in 2006 requires initial transaction costs on assets to be shown as investment expenses in the statutory accounts and, these expenses, amounting to £30.4m, have been included in line 14 of Form 43. The valuation implicitly assumes that there will be no future asset turnover, so no allowance is made for expenses of this nature.

During 2012, additional fees of £146.7m were charged to the Life Company where Friends Life Services Limited had incurred costs in respect of exceptional projects.

After allowing for initial transaction costs on assets and project costs, the amount of maintenance expenses (£117.4m) included in line 14 of Form 43 is higher than the expense loadings (£1.7m) disclosed in section **6.(1)** above. The large discrepancy is due to the Part VII transfer of the majority of the business from FLC to FLL on 28 December 2012, however there is a prudent allowance for expenses for the business remaining.

#### (4) New business expense overrun

There is a £6m allowance to cover the potential new business strain of writing new increments into FLC during 2013.

## (5) Maintenance expense overrun

Actual expenses and commission have been estimated for 2014 if the Company ceased to transact new business on 1st January 2014. Estimated expenses in 2014, on this basis, are less than the loadings expected from in-force business in 2014 and therefore no additional reserve is required.

#### (6) Non-attributable expenses

At 31 December 2012, valuation expenses for unit-linked business were split between attributable and non-attributable expenses. The attributable expenses were allowed for in the calculation of the non-unit reserves on unit-linked business. The non-attributable expenses were compared to future profits expected to emerge from the unit-linked business, and no additional reserve was deemed necessary.

All other expenses have been treated as attributable.

## 7. Mismatching reserves

#### (1) Analysis of reserves by currency

The mathematical reserves in respect of liabilities denominated in sterling (other than liabilities for property linked benefits) amount to £18.5m. An analysis by currency of the matching assets is set out in the following table.

| Currency of asset | Value of assets |
|-------------------|-----------------|
|                   | £m              |
| Sterling          | 18.5            |
| Total             | 18.5            |

#### (2) Other currency exposures

There are no mathematical reserves in respect of liabilities denominated in currencies other than sterling.

#### (3) Currency mismatching reserve

There are no mathematical reserves in respect of liabilities denominated in currencies other than sterling.

### (4) The most onerous of the scenarios specified by INSPRU 3.1.16R was:

- a fall in the market value of equities of 10%;
- a fall in real estate values of 20%; and
- a fall in yields on all fixed interest securities of 0.50% p.a.

#### (5) The most onerous of the scenarios specified by INSPRU 3.1.23R was:

There is no territory outside the United Kingdom in which the market value of the assets held exceeds 2.5% of the long-term insurance assets (excluding those held to cover index-linked or property-linked liabilities). Accordingly, the same scenario as in (4) above has been used

#### (6) Amount of resilience capital requirement

- (i) The amount of the resilience capital requirement is £0m.
- (ii) The long term insurance liabilities increased by £0m.

#### (7) Additional reserve arising from INSPRU 1.1.34(2)

Based on an analysis of expected cash inflows from assets held and future regular premiums and expected cash outflows from insurance liabilities as they fall due, it is believed that the assets held to cover the technical provisions and other long-term insurance liabilities are of a sufficient amount, and of an appropriate currency and term, to ensure that the cash inflows will meet the expected cash outflows without requiring any additional reserve.

### 8. Other special reserves

The following special reserves exceed £18,500 (0.01% of total reserves):

#### Reinsurance Default Provision

A provision is held within FLC to cover the risk of default on external reinsurance arrangements. This provision is calculated as a fixed percentage on the external reassurance. The percentage as of 31 December 2012 is 0.2%.

At 31 December 2012, a provision of £605,396 was held in respect of FLC external reinsurance arrangements.

#### Embassy migration costs

A reserve of £5m is held to cover short term costs relating to the Embassy platform.

#### New business strain

A reserve of £6m is held to cover new business strain anticipated in 2013. Any future strain beyond 2013 would be met by FLL

#### 9. Reinsurance

#### (1) Facultative reinsurance to reinsurers not authorised in the UK

During 2012 no reinsurance business was ceded on a facultative basis to reinsurers not authorised to carry on insurance business in the UK.

#### (2) Reinsurance treaties

Details of reinsurance treaties under which the Company is the cedant and either the premiums payable to the reinsurer during 2012 or the reduction in mathematical reserves in respect of the reinsurance exceed £18,500 (0.01% of total reserves) are contained in the following table.

| Reinsurer   | Nature and extent of cover                      | Premiums payable during 2012 £m | Whether treaty<br>closed to new<br>business | Reduction in<br>mathematical<br>reserves<br>£m |
|-------------|---|---------------------------------|---|--|
| Unit        | Linked benefits where the member has chosen to  |                                 | No  |  |
| Reassurance | invest in the funds of the below companies on a |                                 |   |  |
|             | 100% quota share basis:                         |                                 |   |  |
|             | Friends Life WL Limited                         | 92.3                            |   | 400  |
|             | Friends Life Limited                            | 170.5                           |   | 170.5  |

In respect of the above treaties:

- No amounts have been deposited under any deposit back arrangements.
- There are no undischarged obligations of the Company other than outstanding reinsurance premiums.

Friends Life Limited and Friends Life WL Limited are both connected with the Company.

The Company has credit risk exposure to each of the above reinsurers. The exposure does not exceed internal exposure limits, taking account of the rating of each reinsurer. A separate reserve is held in respect of the business reinsured to FLWL of the possibility of default of external FLWL reinsurance counterparties.

There are no legal disputes at the present time in connection with the Company's reinsurance treaties, and it is not believed that these treaties present any material legal risk or other risks.

No provision is made for the liability of the Company to refund any amounts of reinsurance commission in the event of lapse or surrender of contracts, as in each case the amount of such refund is less than the amount of premium refundable, if any, by the reinsurer.

## 10. Regular bonus

This section is not applicable as the only business within the company is pension unit linked business.

## IPRU (INS) RULE 9.29 - STATEMENT ON DERIVATIVE CONTRACTS

## Financial year ended 31 December 2012

#### a) Investment Guidelines

Investment guidelines operated by the Company during 2012 were to use derivative contracts only for the purpose of efficient portfolio management or a reduction in investment risk. Derivatives can only be used to the extent that they are replicating a similar economic effect which would otherwise be achieved by selling existing assets or using cash in the portfolio to fund the purchase of permitted assets.

The guidelines restrict the investment in derivative contracts to specified exchange traded derivatives on a limited number of markets, forward foreign exchange contracts, interest rate swaps, credit derivatives, contracts for differences, over the counter equity options and inflation rate swaps. Derivatives instruments which are not listed above may be entered into on a case by case basis with prior approval from the Company. Derivatives may only be used when the Investment Manager, in consultation with the Company, is satisfied that their usage meets all the necessary regulatory requirements. Where any doubt arises over the proposed use of a derivative, the Chief Investment Officer is contacted and clarification sought prior to executing the proposed derivative contract.

The counterparties through whom such transactions can be made are restricted, as are the counterparty exposures that may be built up using derivatives. Prudent limits have also been set to the extent to which derivatives may be used within a given portfolio. Derivatives must not be used to gear the portfolio.

All derivatives held by the Company were transferred to Friends Life Limited following the Part VII transfer which took place on 28 December 2012. Therefore the Company did not hold any derivative contracts as at 31 December 2012.

## b) Guidelines in respect of derivatives not likely to be exercised

The investment guidelines do not explicitly allow or exclude the use of derivatives which create rights or obligations which are not, at the time the contract is entered into, reasonably likely to be exercised.

## c) Use of derivatives not likely to be exercised

During the year, no contracts were entered into which were not, at the time of entry, reasonably likely to be exercised.

d) No other instrument, whether it be a derivative or an instrument of similar nature was used which required a significant provision under INSPRU 3.2.17R, or where appropriate, did not fall within the definition of a permitted derivative contract.

  - (ii) the reassurance into the OWPF from the New With Profits Fund of FLC (NWPF) of new with profits business written by FLC during the period was performed in accordance with the Scheme.
- (b) The Monitoring Board has reviewed:
  - (i) the investment policy of the OWPF during the period (the equity backing ratio having been above that of the median of the companies which FLC could reasonably determine as 'Peer Companies' as at the end of 2011, the latest available date for information)
  - (ii) the bonus policy of FLC in respect of policies allocated to the OWPF during the period (during which bonus rates, including rates of Reorganisation Bonus, on policies allocated to the OWPF were identical to those on identical policies allocated to the NWPF),
  - (iii) the volumes, mix and terms of new business which was written in or reassured in the OWPF during the period, and
  - (iv) the surrender terms applied in the period to policies allocated to the OWPF

and is satisfied that none of those items have been managed by FLC in a way prejudicial to the reasonable expectations of holders of 'Monitored Policies'.

- 3 Financial Support from the Non Profit Funds (NPF) of FLC
  - (a) The need for financial support for the OWPF and for the NWPF was assessed by FLC at 1 January 2012 in accordance with paragraph 21.3 of the Scheme. No financial support was required by the OWPF or by the NWPF.
  - (b) The solvency on both a regulatory and a realistic basis of the OWPF and of the NWPF were assessed by FLC throughout the period. No financial support was required by the OWPF or by the NWPF.

The Monitoring Board is satisfied that these assessments in paragraphs 3 (a) and 3 (b) were made by FLC in accordance with the provisions of the Scheme.

### Financial Period 1 January 2012 to 27 December 2012

## 4 Basis for the Certificate of the Monitoring Board

In preparing this certificate, the Monitoring Board has, as stated above, been advised by the Monitoring Actuary, and has had full access to documents and reports prepared by FLC and by its With Profits Actuary and Actuarial Function Holder.

Note 1: The 'Scheme' means the transfer of the long term business of Friends AELLAS Limited (formerly AXA Equity & Law Life Assurance Society Plc) to FLC and the subsequent financial reorganisation of the long term business of FLC as approved by the High Court and by the Royal Court of Jersey in December 2000. 'Peer Companies' and 'Monitored Policies' are as defined in the Scheme.

Note 2: On 28 December 2012, certain of the business of FLC, including all of the Monitored Policies, transferred to Friends Life Limited (FLL) under the terms of an insurance business transfer scheme sanctioned by High Court on 4 December 2012 pursuant to Part VII of the Financial Services and Markets Act 2000. From 28 December 2012 the duties of the Monitoring Board, apart from responsibility for this certificate, were assumed by the With Profits Committee of FLL which will be responsible for *inter alia* all future certificates.

- the statement required by IPRU(INS) rule 9.29 ("the statement");
- the valuation report required by IPRU(INS) rule 9.31 ("the valuation report").

We are not required to audit and do not express an opinion on:

- Forms 46, 47, 50 and 53 (including the supplementary notes);
- the statements required by IPRU(INS) rules 9.30 and 9.36;
- the certificate required by IPRU(INS) rule 9.34(1); and
- the certificate of the monitoring board of Friends Life Company Limited.

This report is made solely to the insurer's directors, in accordance with IPRU(INS) rule 9.35. Our audit work has been undertaken so that we might state to the insurer's directors those matters we are required by the Rules to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the insurer for our audit work, for this report, or for the opinions we have formed.

### Respective responsibilities of the insurer and its auditors

The insurer is responsible for the preparation of an annual return (including the Forms, the statement, and the valuation report) under the provisions of the Rules. The requirements of the Rules have been modified by directions issued under section 148 of the Act referred to in supplementary note 0201. Under IPRU(INS) rule 9.11 the Forms, the statement and the valuation report are required to be prepared in the manner specified by the Rules and to state fairly the information provided on the basis required by the Rules. The methods and assumptions determined by the insurer and used to perform the actuarial investigation as set out in the valuation report are required to reflect appropriately the requirements of INSPRU 1.2.

It is our responsibility to form an independent opinion as to whether the Forms, the statement and the valuation report meet these requirements, and to report our opinion to you. We also report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the Forms, the statements and the valuation report are not in agreement with the accounting records and returns; or
- we have not received all the information we require for our audit.

## INDEPENDENT AUDITOR'S REPORT TO THE DIRECTORS PURSUANT TO RULE 9.35 OF THE INTERIM PRUDENTIAL SOURCEBOOK FOR INSURERS

#### Global business

#### Financial year ended 31 December 2012

## **Basis of opinion**

We conducted our work in accordance with Practice Note 20 'The audit of insurers in the United Kingdom (revised)' issued by the Auditing Practices Board. Our work included examination, on a test basis, of evidence relevant to the amounts and disclosures in the Forms, the statement and the valuation report. The evidence included that previously obtained by us relating to the audit of the financial statements of the insurer for the financial year on which we reported on 19 March 2013. It also included an assessment of the significant estimates and judgements made by the insurer in the preparation of the Forms, the statement and the valuation report.

We planned and performed our work so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the Forms, the statement and the valuation report are free from material misstatement, whether caused by fraud or other irregularity or error, and comply with IPRU(INS) rule 9.11.

In accordance with IPRU(INS) rule 9.35(1A), to the extent that any document, Form, statement, analysis or report to be examined under IPRU(INS) rule 9.35(1) contains amounts or information abstracted from the actuarial investigation performed pursuant to IPRU(INS) rule 9.4, we have obtained and paid due regard to advice from a suitably qualified actuary who is independent of the insurer.

## **Opinion**

In our opinion:

- (a) the Forms, the statement and the valuation report fairly state the information provided on the basis required by the Rules as modified and have been properly prepared in accordance with the provisions of those Rules; and
- (b) the methods and assumptions determined by the insurer and used to perform the actuarial investigation as set out in the valuation report appropriately reflect the requirements of INSPRU 1.2.
