

Environmental, Social and Governance Data

At Aviva we are committed to creating a bright and sustainable future and communicating this to our stakeholders in a clear and meaningful way. As a demonstration of this, within the following pages you will find a summary of environmental, social and governance data from across Aviva's global operations. This brings together key metrics that can be found across our reporting suite, to give our investors the information that matters to them. The content supports information supplied on www.aviva.com/cr and in Aviva's strategic report 2016, which can be found at www.aviva.com/2016ar

2016 data marked with a **AS** has been subject to independent assurance. PwC's assurance report can be found at www.aviva.com/crassurance2016

2016 data marked **AF** has been taken from the audited financial statements of Aviva plc. These statements and the audit report can be found from pg. 128 of the 2016 Aviva annual report and accounts.

Unless otherwise stated, 2015 data includes Friends Life from the date of acquisition. Environmental KPIs include Friends Life data for the whole of 2015.

Aviva's Corporate Responsibility Reporting Criteria can be found at www.aviva.com/crreportingcriteria2016

HOW WE CREATE VALUE FOR SOCIETY – OVERVIEW

METRICS	2016	2015	2014
▶ Operating profit ^{†,1,2}	AF £3,010m	£2,688m	£2,238m
▶ Paid in benefits and claims to customers	£34.4bn	£30.7bn	£24.6bn
▶ Corporation tax paid	AF £647m	£442m	£457m

2 The adverse impact of the change in the Ogden rate of £475 million is an exceptional item and therefore not recognised within operating profit. Please refer to the CFO review in the annual report and accounts for further information.

3 2016 and 2015 exclude the impact from an outward quota share reinsurance agreement written in 2015 and completed in 2016 in Aviva Insurance Limited (AIL).

4 Excludes Friends Life data.

5 £ new investment signed in wind, solar, biomass and energy efficiency by funds managed by Aviva Investors.

6 This includes a range of engagement activity undertaken by our GRI team, fund managers and collaboratively with other investors. Engagement intensity ranges from a single letter to multiple meetings. Please contact gri@avivainvestors.com for further engagement details.

7 When exercising our right to vote in company meetings, we are interested in the principles of good governance and how these are achieved in practice to promote the best long-term prospects for the companies in which we invest. Our approach is set out in detail in our UK Corporate Governance and Corporate Responsibility voting policy, which can be found at <https://www.avivainvestors.com/en-gb/institutional/about-us/responsible-investment.html>

1 Excludes Friends Life data.

2 Based on H2 data, reflecting changes in FCA reporting criteria.

3 Based on closed/decided complaints data.

4 We refined the methodology for calculating employee engagement in 2016. We have therefore restated 2014 and 2015 data to reflect this new methodology.

5 Claudia Arney was appointed to the Board on 8 February 2016.

6 Human rights engagements cover a multitude of topics including child labour, working conditions, minority rights and indigenous peoples' rights. For the year under review we have engaged primarily with companies in the extractive sector and palm oil producers.

ClimateWise Principles score of 80%, in top 4 of responders in our sector.

- 1 We have restated 2015 figures after an overstatement was found in the data reported by one of our markets. This was due to an overstatement within the estimated water calculation identified through our market audit. Before restatement the figure for 2015 was 483,635m³.
- 2 We have restated 2015 figures after an overstatement was found in the data reported by one of our markets. This was due to an overstatement within the estimated waste calculation identified through our market audit. Before restatement the figure for 2015 was 9,564 tonnes.
- 3 We have restated 2015 figures after an underestimate was found in the data reported by one of our markets. Before restatement the figure for 2015 was 72%.

Environmental data covers 100% of Aviva staff including 100% of joint ventures. In 2016 this was 39,868 employees.

2016 HIGHLIGHTS

TOTAL ENERGY USED (MWh)

Carbon emissions

We have a proud history of taking action to reduce the environmental impact of our business, and were the first carbon neutral insurer worldwide in 2006.

To date, this work has achieved an industry leading 46% reduction in CO₂e since 2010 (a 7% reduction from 2015-2016 alone) and in light of our progress in reducing our carbon emissions against our original 2020 target, we have recently set an even higher target of 50% reduction by 2020 and 70% by 2030.

We continue to offset 100% of any remaining carbon emissions and our offsetting projects have helped more than 970,000 people since 2012 live better lives.

ELECTRICITY CONSUMPTION (MWh)

Electrical efficiency

We're committed to reducing our electricity consumption and increase our use of renewable energy. To date, electricity purchased and generated from renewable sources account for 61% of our use across the world. This is great progress towards our target, through the RE100, to purchase 100% renewable electricity globally by 2025.

We have achieved this by, for example, installing solar panels on three of our UK offices that began generating renewable energy in 2016.

We are also working towards meeting our 2015-2020 climate-related investment strategy, which we published an update on this year.
