#### **Derivative Contracts**

The following summarises investment policy for the use of derivatives:

a) Derivatives will only be used in accordance with guidelines issued by the Financial Services Authority for the purpose of efficient portfolio management or reduction in investment risk. They must not be used for speculative purposes, must be fully covered by the assets of the fund and must not be used to "gear up" a fund.

Counterparty risk - for exchange traded contracts, the exchange must be approved by Aviva Group. For over the counter contracts, transactions must only be made with the approval of the Aviva Group Derivatives Committee.

Controls and monitoring - delegated authorities exist for each member of staff using derivatives. Derivatives transactions are priced, settled and profit and losses reconciled in an area independent of the fund managers involved.

- b) There are no specific guidelines for the use of contracts that were not reasonably likely to be exercised at the start of the contract. The speculative use of derivative contracts is prohibited.
- c) The Company was not party to any arrangements over the financial year which fall into description b) above.
- d) No derivative contracts were held during the financial year, which required a significant provision to be made for them under INSPRU 3.2.17R.
- e) During the financial year the Company granted no rights under derivative contracts for a fixed consideration.

## Additional information as required by rule 9.32A of the Accounts and Statements Rules

It is the Company's policy to review all its reinsurance contracts to ensure that they meet the criteria under International Financial Reporting Standard 4 to be classified as insurance contracts.

In carrying out that review the Company has determined that these criteria have been met and that there are no contracts where:-

- a) the value placed on future payments in respect of the contract in the return for the financial year is not commensurate with the economic value provided by that contract, after taking account of the level of risk transferred; or where
- b) there are terms or foreseeable contingencies (other than the insured event) that have the potential to affect materially the value placed on the contract in the insurer's balance sheet at, or any time after, the end of the financial year.

#### \*0101\* Modifications to the Return

The return has been prepared in accordance with the Accounts and Statements Rules as modified by the following written concession and by the FSA direction described below. The concession was issued as an Order under Section 68 of the Insurance Companies Act 1982 and remains in force by virtue of the transitional provisions of the Supervision Manual:

820 The Treasury, on the application of the group, issued on 12th January 1998 an Order under Section 68 of the Insurance Companies Act 1982. The Order allows the Company to submit abbreviated information with regard to complex reinsurance agreements, thereby avoiding the production of large volumes of data and facilitating the production of meaningful supervisory information.

This return has been prepared in accordance with the Accounts and Statements Rules as modified by a direction made under section 148 of the Financial Services and Markets Act 2000 in June 2010. The effect of this direction was to enable Aviva Insurance UK Limited to provide a group return in respect of itself and its subsidiary firm, London and Edinburgh Insurance Company Limited, both companies having entered into a Mutual Deed of Guarantee.

#### \*0103\* Supplementary Forms 1, 3, 11 and 12

The Forms 1, 3, 11 and 12 for each company in the group as required under a direction made in June 2010 (refer supplementary note 0101 above) are included below on pages 115 to 126.

The Company's management of credit risk is carried out in accordance with Aviva plc group risk processes, which include setting exposure limits and monitoring exposures in accordance with ratings set by credit ratings agencies such as Standard & Poor's. Financial assets are graded according to current credit ratings issued. A credit limit for each counterparty is set based on default probabilities that are in turn based on the rating of the counterparty and the type of exposure concerned. Exposure levels are reported to, and reviewed by, the UK General Insurance Investment Committee ("UKGIIC") within Aviva plc. Where exposures have been in excess of the credit limit, these have been approved by the UKGIIC. There have been no material breaches of credit limits during the year which have not received approval from the UKGIIC.

In addition, the Company manages exposure to reinsurance counterparties in accordance with Aviva plc group policy. Exposure limits are set by the Group Credit Approvals Committee and there is a range of reinsurers that have acceptable credit ratings. Reinsurer exposure and the impact of any reinsurer default are monitored regularly. The Company has a potential significant exposure to its parent company, Aviva International Insurance Limited, arising from a quota share reinsurance agreement entered into from 2001.

#### \*2100\*, \*2300\*, \*2600\* and \*3900\* Forms Omitted

The following forms have been omitted because all entries would be blank:

Form 21 (Category number 709)

Form 23 (Category numbers 003, 600 and 709)

Form 26 (Category number 680)

#### \*2102\* \*2501\* Unearned Premiums

Unearned premiums are computed principally on a daily pro-rata basis, according to the risk profile, which the Company believes most accurately determines the required provision.

### \*2202\* \*2404\* Claims Management Costs

Claims management costs represent indirect overhead costs incurred in respect of maintaining settlement functions. These costs include both charges by third parties and an attribution of the Company's own expenses, such as salaries and related costs of employees. Provision has been made at the year end for all claims management costs to cover the anticipated future costs of negotiating and settling claims which have been incurred, whether reported or not.

#### \*2204\* \*2406\* Acquisition Costs

Acquisition costs represent the fixed and variable costs arising from the conclusion of insurance contracts including direct costs, such as the cost of drawing up the insurance document, and indirect costs, such as advertising costs or the administrative expenses connected with the processing of proposals and the issuing of policies. For business accounted for on an annual basis, a proportion of the related acquisition expenses has been deferred commensurate with the unearned premiums provisions. The acquisition costs deferred have been that proportion of the total acquisition costs, which the unearned premiums provision bears to gross written premiums, by category.

#### \*2205\* \*2502\* Unexpired Risks

Provision is made for unexpired risks when, after taking account of an element of attributable investment income, if necessary, it is anticipated that unearned premiums will be insufficient to cover future claims and expenses on existing contracts. In 2010, no investment income has needed to be taken into account (2009, £414k in reporting category 120 and £515k in reporting category 180).

#### \*2301\* Restatement of amounts brought forward

A prior year adjustment has been required in the 2010 Companies Act accounts of the Company. This arises from the incorrect posting of travel claims payments in the accounts of a parent company, Aviva Insurance Ltd, relating to business underwritten by the Company. Since it only impacts category 113 which is an immaterial class, there is no adjustment on any Form 31.

The following tables show the impact on the Form 23 for category 110, columns 1 and 3. The first two columns of monetary values show how they would have appeared in the 2010 return based on the data in the 2009 return. The next two columns show the adjustments that have been required. The final pair of columns shows how these now appear in the 2010 return.

#### \*2402\* Adoption of Underwriting Year Accounting

Underwriting year accounting has been adopted for reporting categories 330, 340 and 500 and elements of categories 260, 270 and 350. This is due to the longer-term nature of the business written, and the fact that an underwriting result could not be established with sufficient accuracy using the accident year basis.

## \*2407\* Underwriting Year Business

The allocation of business to year is determined by the year in which the risk is incepted, except for certain business in reporting categories 330, 340 and 350 where the basis is the year of signing the policy.

#### \*3001\* \*3003\* Discounting

An adjustment for discounting has been made in the following categories in respect of latent claims: Commercial Liability (270); and Employers Liability denominated in US dollars in the Balance of all treaty reinsurance accepted business category (709). The average interval to the expected claims settlement date is 15 years. This has been estimated by modelling the settlement patterns in the underlying claims.

In addition, an adjustment for discounting has been made in the following categories in respect of structured settlements: Personal Motor (120), Commercial Motor (220) and Employers Liability (271). The Company has entered into an arrangement with Aviva Annuity UK Limited, a fellow Group company, for the reinsurance of 100% of its obligations in respect of structured settlements.

The rate of interest used in the discounting calculations is based on risk-free rates, using applicable swap curves.

The Form 30 contains only those risks which have not been 100% reinsured. Sheet 2 of Form 30 has not been completed because the undiscounted provision for the claims outstanding being discounted does not exceed 25% of the total undiscounted provision.

#### \*3201\* Change in brought forward Vehicle Years

The vehicle years reported in the 2009 Form 32 for each of category numbers 121 and 122 have been restated for the 2009 accident year. In the 2009 return these were reported as 1295 and 24 respectively. In preparing the comparable vehicle years for 2010 the directors have determined that those for the 2009 accident year were not correct and have amended these figures in this return.

This report is made solely to the insurer's directors, in accordance with IPRU(INS) rule 9.35. Our audit work has been undertaken so that we might state to the insurer's directors those matters we are required by the Rules to state to them in an auditor's report and for no other purpose. It is our responsibility to form an independent opinion as to whether the Forms and the statements meet these requirements, and to report our opinion to you. We are also required to report to you if, in our opinion:

- we have not received all the information we require for our examination.

We conducted our work in accordance with Practice Note 20 "The audit of insurers in the United Kingdom (revised)" issued by the Auditing Practices Board. The evidence included that previously obtained by us relating to the audit of the financial statements of the insurer for the financial year on which we reported on 23rd March 2011. It also included an assessment of the significant estimates and judgements made by the insurer in the preparation of the Forms and the statements.
