Strategic report

The directors present their strategic report for the Company for the year ended 31 December 2025.

Review of the Company's business

Principal activities

The Company is a limited company, incorporated under the laws of England and Wales. The principal activity of the Company is the provision of lifetime mortgages. The product's aim to fulfil the demand for additional personal finance in an environment of lower pensions provision and increased equity values tied up in property. The Directors consider that this strategy will continue unchanged into the foreseeable future.

The Company has continued to generate sales of lifetime mortgages through independent financial advisers, an in-house advisory function and positions on referral panels run by distribution networks. Activity in the Equity Release market increased in 2025 by 11% although remains smaller than pre-2022. This is due to continued pressure from macroeconomic factors on the interest rates and maximum loan sizes that providers can offer to customers. Overall sales in the market were £2.6 billion *(2024: £2.3 billion)*. Aviva's market share increased from the previous year. Aviva advanced £371 million of loans in 2025 *(2024: £304 million).*

Significant events

On 16 December 2025, a cash dividend of £30 million was paid from the Company up to its parent entity, Aviva Life & Pensions UK Limited (UKLAP).

Financial position and performance

The financial position of the Company at 31 December 2025 is shown in the statement of financial position on page 20, with the results shown in the income statement on page 18 and the statement of cash flows on page 21.

Profit for the year is £25.9 million *(2024: Profit £42.6 million)*.

Shareholders' equity has decreased by £4.1 million (*2024: increased by £22.6 million)*, reflecting the profit for the year less dividend paid.

Section 172(1) Statement and our Stakeholders

We report here on how our Directors have discharged their duties under Section 172 (s.172) of the Companies Act 2006. S.172 sets out a series of matters to which the directors must have regard to in performing their duty to promote the success of the Company for the benefit of its shareholders, which includes having regard to other stakeholders.

Our Board considers it crucial that the Company maintains a reputation for high standards of business conduct. The Board is responsible for monitoring and upholding the culture, values, standards, ethics and reputation of the Company to ensure that our obligations to our stakeholders are met. The Board monitors adherence to our policies and compliance with local corporate governance requirements and is committed to acting where our businesses fall short of the standards we expect.

The company is a wholly owned subsidiary of Aviva plc. The Aviva Group Annual Report and Accounts 2025 includes the activities of the company and provides the information required by the Non-financial and Sustainability Information Statement for the Group as a whole. Further information on the Group's climate-related financial disclosures can be found on the Sustainability section of the Group's website.

The Company's culture

Our culture is shaped, in conjunction with the wider Aviva Group, by our clearly defined purpose – with you today for a better tomorrow. As the provider of financial services to millions of customers, Aviva seeks to earn their trust by acting with integrity and a sense of responsibility at all times. We look to build relationships with all our stakeholders based on openness and transparency and we value diversity and inclusivity in our workforce and beyond.

Key Strategic decisions in 2025

For each matter that comes before the Board, the Board considers the likely consequences of any decision in the long term, identifies stakeholders who may be affected, and carefully considers their interests and any potential impact as part of the decision-making process.

Our Stakeholders

This section provides insight into how the Board engages with our stakeholders. The Board recognises that stakeholders have diverse interests and that these interests need to be heard. Engaging with our stakeholders is essential to understand what matters most to them and the likely impact of any key decisions.

The Board receives updates from the Executive Directors which details any substantial engagement with its stakeholders. There are also regular agenda items to ensure that the Board receives relevant updates on all of our key stakeholders, such as reports from our people function, customer service and our business functions.

The Board carefully considered the likely consequences of its long-term decisions as part of its consideration of Aviva's strategy. The Board held a strategy day in June 2025 to consider the long-term strategic direction of the legal entity in line with its parent company and Group. As part of these strategic discussions, the Board considered the industry and market and the potential impact to stakeholders.

The Company Board is autonomous and legally accountable for the business of the Company, but it recognises that the Company is part of the Aviva Group. As such, it regularly engages with its parent entity to ensure good governance and adherence to various Group standards, policies, and best practice as set by Aviva plc, some of which is described in the tables below. Aviva plc sets the overall strategic direction of the Group, of which the Company's business is a contributor. Our section 172(1) Statement sets out our approach on how our directors have performed their duty. Our Board's activities section provides further information on key decisions taken in 2025, including how stakeholder views and inputs have been factored into the Board's decision making.

Details of how we engaged with our different groups of stakeholders during 2025 can be found on the following pages. The Board regularly reviews its engagement mechanisms with stakeholders to ensure they remain effective.

Strategic report (continued)

Our people

Our people's wellbeing and commitment to serving our customers are the foundation of our performance.

How we have engaged

- The Company has no employees. The majority of staff engaged in the activities of the Company are employed by fellow subsidiary undertakings of Aviva plc. As part of the Aviva Group, these staff enjoy the benefit of the Aviva Group policies and benefits made available to them.
- Colleague engagement is supported through Group-wide engagement mechanisms, and the Board is kept informed of workforce-related matters through reporting and governance processes.
- The Board always aims to provide an inclusive working environment where talent is developed, performance is rewarded, support is provided and our differences are valued.
- Our people have the opportunity to share in the business's success as shareholders through membership of our global share plans. All employees are eligible for our global share plans.

- The Board focused on culture, conduct and capability themes identified through reporting, including insights from colleague surveys, regulatory feedback and risk updates. These inputs enabled the Board to consider whether people related factors could impact the delivery of the Company's objectives.

Outcomes and actions during the year

- No material people-related issues were identified during the year, and engagement indicators remained consistent with expectations.
- The Board received the Diversity, Equity and Inclusion Statement to reflect its commitment to diversity and inclusion initiatives.
- The Group-wide Voice of Aviva 2025 survey engagement was the highest it has ever been at 92%.
- Our employee-shareholders were given the opportunity to meet the Aviva plc Board and submit questions at the Annual General Meeting (AGM) in Bristol.

Customers

Understanding what's important to our customers is key to our long-term success.

How we have engaged

- The Board received regular reporting on customer outcomes and strategic customer initiatives, including reporting on customer journeys, service performance and customer insights.
- The Board engages closely with management to monitor customer metrics, assess customer feedback, review complaint themes, and ensure that customer interests are appropriately represented in decision-making.

- The Board has focused on the implementation and ongoing compliance with the FCA's Consumer Duty, ensuring customer needs, fair value and good outcomes remain central to governance and product oversight.

Outcomes and actions during the year

- The Board focused on our digital customer journeys, making it easier and more convenient for customers to interact with us.
- Insights from regular updates informed the Board's oversight of product governance, conduct risk and operational performance during the year.

Strategic report (continued)

Shareholders

Our retail and institutional shareholders are the ultimate owners of the Company.

How we have engaged

- The Company's ultimate shareholder is Aviva plc and there is ongoing communication and engagement with the Aviva plc Board through its parent, Aviva Life & Pensions UK Ltd through established governance and escalation channels. Any matters requiring escalation are escalated by the Board through the Chair to its parent. Additionally, members of the Aviva plc board can attend the Company's Board, supporting strategic alignment and transparent dialogue.
- At Aviva Group level, a shareholder newsletter was published on aviva.com each quarter and provided shareholders with information including on matters such as governance, strategy and performance.
- The 2025 Aviva plc AGM took place in Bristol which gave the Aviva plc Board an opportunity to meet local and retail shareholders.

Outcomes and actions during the year

- The Board monitored the relevant regulatory and market developments during the year and considered their implications for the shareholder, ensuring that decision -making remained aligned with expectations.
- The Board focused on safeguarding and enhancing shareholder value through strong financial stewardship, prudent capital management, and ongoing regulatory compliance, ensuring alignment with Group-wide Governance frameworks.
- The Board monitored macroeconomics and regulatory developments and responded where appropriate to protect shareholder interests.
- As a result of positive feedback received from shareholders regarding hosting the Aviva plc AGM outside of London, the Aviva plc Board decided to hold the 2026 AGM in York, providing another opportunity to meet local and retail shareholders.

Regulators

As a regulated company, we are subject to financial services regulation and approvals in all the markets we operate in.

How we have engaged

- The Company maintains a constructive and open relationship with its regulators through regular engagement involving Board members, senior management, and relevant risk, audit or compliance functions.
- Regulatory updates received by the Board included developments relating to Consumer Duty, prudential requirements, product governance and relevant thematic reviews.

Outcomes and actions during the year

- Continued focus on implementation and oversight of Consumer Duty, including embedding fair value assessments, product governance expectations and customer outcome monitoring.
- The Board received regular updates on regulatory developments, including Consumer Duty, product governance, regulatory feedback and areas requiring further assurance or oversight. The updates enabled the Board to consider regulatory expectations as part of its oversight of risk, strategy and governance.

Communities

We recognise the importance of contributing to our communities through volunteering, community investment, and long term partnerships.

How we have engaged

- The Company supports Aviva Group's community and sustainability initiatives, including the Aviva Community Fund and volunteering programme, which enable colleagues across the Group to participate in socially valuable projects.

- The Board considered Group policies and initiatives relating to sustainability, responsible business and community engagement, ensuring continued alignment with Aviva's expectations in these areas when making decisions.

Outcomes and actions during the year

- Employees across the Aviva Group are offered the opportunity to volunteer their time to support charities and organisations.
- Aviva has simplified its charitable activity by bringing together the Aviva Community Fund and its previous grant-making programme, the Foundation, into a single integrated offering.
- Aviva has committed over £11m to Citizen's Advice since 2022, including £4m pledged in 2025 to meet unprecedented demand. The Group has also committed over £4.5m to the Money Advice Trust since 2022, including a new pledge of £2.5m during the year.

Strategic report (continued)

Suppliers

We operate in conjunction with a wide range of suppliers to deliver services to our customers. It is vital that we build strong working relationships with our intermediaries.

How we have engaged	Outcomes and actions during the year
• The Company relies on Group-wide procurement and supplier management processes, which include due diligence, performance monitoring and oversight of key third-party providers. • The Board receives updates, where relevant, on material supplier matters through reporting, enabling the directors to consider supplier impacts when making decisions. • The Board delegates day-to-day engagement with suppliers and oversight of supplier relationships to senior management, supported by established governance frameworks. All supplier-related activity is conducted in line with the Aviva Group Procurement & Outsourcing Business Standard, ensuring supplier risk is managed appropriately in relation to customer outcomes, data security, corporate responsibility, and financial, operational and contractual matters.	• The Board received assurance during the year that key third-party providers continued to deliver services effectively, with no material disruptions identified that affected the Company's operations. • The Board reviewed the Company's connection to the wider supply chain through its annual approval of the Aviva Group Modern Slavery Act Statement. • Aviva continued to hold its Net Zero Supplier summit. • Aviva remains a signatory to the Prompt Payment Code.

Future outlook

Strategies for the Group as a whole are determined by the Board of Aviva plc and these are shown in the Group 2025 Annual Report and Accounts. The Company will work with the Group to support the implementation of these strategies.

The strategic direction of the Company is set by the directors of the Company. The directors consider that the Company's principal activities will continue unchanged for the foreseeable future.

The Company is well positioned to compete in its key markets by leveraging the power of Aviva's breadth of offering within the UK to deliver compelling propositions to meet our customer needs, alongside driving digitisation through customer services, propositions and ensuring we are easy for customers to do business with, however they chose.

The Directors expect market growth in 2026 driven by anticipated greater customer demand for later life lending. As ever competitiveness in the market is expected to continue to be strong.

Principal risks and uncertainties

A description of the principal risks and uncertainties facing the Company and Company's risk management policies are set out in note 23 to the financial statements.

Risk factors beyond the Company's control that could cause actual results to differ materially from those estimated include, but are not limited to:

- Market risk is the risk of loss or adverse change in the financial situation (including the value of assets, liabilities and income) resulting, directly or indirectly, from fluctuations in the level or the volatility of market variables, such as interest rates and property prices.
- Credit risk is the risk of adverse financial impact resulting from fluctuations in credit quality of third parties including default, rating transition and credit spread movements.
- Liquidity risk is the risk that liabilities cannot be met in a timely and cost-effective manner as they fall due.
- Improvements in longevity result in loans remaining in force for a longer period, increasing the likelihood that the mortgage loans will exceed the proceeds of the property sale at the date of redemption.
- Operational risk is the risk of loss arising from inadequate or failed internal processes, personnel or systems, or from external events.
- The Company operates in a complex legislative environment and may be impacted by changes in legislation.

The company uses a number of metrics to identify, measure, manage, monitor and report risks and a fuller explanation of these risks other than operational risk may be found in note 23 to the financial statements. Also refer to Accounting Policy (B) - Critical accounting policies and use of estimates.

Strategic report (continued)

Key performance indicators

The directors consider that the Company's key performance indicators (KPIs) that communicate the financial performance are as follows:

Measure	**2025**	2024
	£m	£m
Income	**143.4**	157.9
Profit for the year	**25.9**	42.6
New mortgage lending	**370.7**	304.0

By order of the Board on 23 April 2026

Company Secretary

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

Directors' report

In accordance with Section 415 of the Companies Act 2006 (the Act), the directors present their report for the year ended 31 December 2025.

Directors

The names of the current directors of the Company are shown on page 3.

Details of Board appointments and resignations during the year and since the year end are shown below:

M A Murphy (independent non-executive director)	Appointed 6 February 2025
M R McGill	Resigned 27 April 2025
S J Layden	Appointed 21 August 2025
A P D Larkin	Resigned 19 September 2025
A M Dinwiddie	Appointed 20 September 2025
A M Dinwiddie	Resigned 6 October 2025
C B Billington	Appointed 7 October 2025

Company Secretary

Aviva Company Secretarial Services Limited is appointed as the Company Secretary.

Dividends

There was a dividend of £30 million paid in 2025 *(2024: £20 million)*. The directors do not recommend a final dividend on the Company's ordinary shares for the year ended 31 December 2025 (*2024: £nil*).

Going concern

The Company's business activities, together with the factors likely to affect its future development, performance and position are set out in the strategic report, which includes a section describing the principal risks and uncertainties on page 7. In addition, the financial statements include notes on: the Company's borrowings (note 17); its contingent liabilities and other risk factors (note 19); its capital structure (note 22); management of its risks including market, credit and liquidity risk (note 23); and derivative financial instruments and hedging (note 24).

The Company and its ultimate holding company, Aviva plc, have considerable financial resources together with a diversified business model, with a spread of businesses and geographical reach. The directors believe that the Company is well placed to manage its business risks successfully.

After making an assessment, the directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for a period of at least twelve months from the date of approval of the financial statements to 23 April 2027. For this reason, they continue to adopt, and to consider appropriate, the going concern basis in preparing the financial statements.

Future outlook

Likely future developments in the business of the Company are discussed in the strategic report (page 4).

Stakeholder engagement

Our statements summarising our employee engagement, and our engagement with suppliers, customers and our other stakeholders are included in our Strategic report.

Political Donations

The Company did not make any political donations during the year (*2024: £nil*).

Financial instruments

The Company uses financial instruments to manage certain types of risks, including those relating to credit, cash flow, liquidity, interest rates and property prices. Details of the objectives and management of these instruments are contained in note 23 on risk management.

Employees

The Company has no employees (*2024: nil*). The majority of employees engaged in the activities of the Company are employed by a fellow subsidiary undertaking of Aviva plc, Aviva Employment Services Limited. Disclosures relating to employee remuneration and the average number of persons employed are made in the financial statements of Aviva Employment Services Limited. The Company is recharged with the costs of the staff provided.

Disclosure of information to the auditors

In accordance with section 418 of the Companies Act 2006, the directors in office at the date of approval of this report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's External Auditor, Ernst & Young LLP, is unaware and each director has taken all steps that ought to have been taken as a director in order to make themselves aware of any relevant audit information and to establish that Ernst & Young LLP is aware of that information.

Independent auditors

It is the intention of the directors to reappoint the auditors, Ernst & Young LLP, under the deemed appointment rules of section 487 of the Companies Act 2006.

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

Directors' report (continued)

Qualifying indemnity provisions

Aviva plc, the Company's ultimate parent, granted in 2004 an indemnity to the directors against liability in respect of proceedings brought by third parties, subject to the conditions set out in the Companies Act 1985, which continue to apply in relation to any provision made before 1 October 2007. This indemnity is a "qualifying third party indemnity" for the purposes of section 309A to section 309C of the Companies Act 1985. These qualifying third party indemnity provisions were in force throughout the year and at the date of approving the Directors' Report by virtue of paragraph 15, Schedule 3 of The Companies Act 2006 (Commencement No. 3, Consequential Amendments, Transitional Provisions and Savings) Order 2007.

The directors also have the benefit of the indemnity provision contained in the Company's articles of association, subject to the conditions set out in the Companies Act 2006. This is a "qualifying third party indemnity" provision as defined by section 234 of the Companies Act 2006.

Statement of directors' responsibilities in respect of the financial statements

The directors are responsible for preparing the strategic report, directors' report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with UK-adopted international accounting standards.

Under company law, directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make reasonable and prudent judgements and accounting estimates;
- state whether applicable UK-adopted international accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The financial statements on pages 14 to 42 were approved by order of the Board on 23 April 2026:

Independent auditor's report to the members of Aviva Equity Release UK Limited

Opinion

We have audited the financial statements of Aviva Equity Release UK Limited for the year ended 31 December 2025 which comprise income statement, the statement of changes in equity, the statement of financial position, the statement of cash flows and the related notes 1 to 26, including material accounting policy information. The financial reporting framework that has been applied in their preparation is applicable law and UK adopted international accounting standards (UK IAS).

In our opinion, the financial statements:

- give a true and fair view of the company's affairs as at 31 December 2025 and of its profit for the year then ended;
- have been properly prepared in accordance with UK adopted international accounting standards; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the directors' assessment of the company's ability to continue to adopt the going concern basis of accounting included:

- confirming our understanding of management's going concern assessment process and obtained management's assessment which covers the period to 23 April 2027 ;
- Evaluating the reasonableness of management's forecasts by testing data, key assumptions, and verifying the mathematical accuracy of the underlying models;
- assessing management's consideration of how liquidity and solvency has been managed in response to the current economic environment and evaluating the liquidity and solvency position of the Company by reviewing base case and downside liquidity and solvency projections that incorporate an estimated view of potential future economic downturn
- Performing enquiries of management and those charged with governance to identify risks or events that may impact the Company's ability to continue as a going concern; and
- assessing the appropriateness of the going concern disclosures included in the annual report for conformity with the accounting standards.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern up to 23 April 2027, being for a period to 12 months from the date of approval of the accounts, when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

Independent auditor's report to the members of Aviva Equity Release UK Limited (continued)

- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit

Responsibilities of directors

As explained more fully in the directors' responsibilities statement set out on page 10, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the entity and management.

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the company and determined that the most significant relevant laws and regulations related to elements of company law and tax legislation and the financial reporting framework (UK IAS).
- We understood how the Company is complying with those frameworks by making enquiries of management, internal audit and those responsible for legal and compliance matters. We also reviewed correspondence between the Company and regulatory bodies; reviewed minutes of the Board Committees; and gained an understanding of the Company's governance.
- We assessed the susceptibility of the Company's financial statements to material misstatement, including how fraud might occur by considering the controls that the Company has established to address risks identified by the Company, or that otherwise seek to prevent, deter or detect fraud. Our procedures over significant accounting estimates included challenging management on the assumptions and judgements made in determining these estimates.
- Based on this understanding we designed our audit procedures to identify noncompliance with such laws and regulations. Our procedures involved making enquiries of those charged with governance, internal audit and senior management for their awareness of any non-compliance of laws or regulations, enquiring about the policies that have been established to prevent non-compliance with laws and regulations by officers and employees, enquiring about the Company's methods of enforcing and monitoring compliance with such policies, and inspecting significant correspondence with the regulator.
- We also considered there to be a higher fraud risk specifically related to actuarial assumptions, which affect the valuation of the Equity Release Mortgages. We considered management override risk to be higher in this area due to significant judgements and estimates involved. To address the pervasive risk as it relates to management override, we also performed procedures including:
  - Identified journal entries based on risk criteria and comparing the identified entries to supporting documentation;
  - Journal entry testing included consideration of the presumptive fraud risk in respect of revenue recognition; and
  - Assessed significant accounting estimates for bias.
- The Company operates in the insurance industry which is a highly regulated environment. As such, the Senior Statutory Auditor considered the experience and expertise of the audit engagement team and the component teams to ensure that the team had the appropriate competence and capabilities, which included the use of specialists where appropriate.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Accounting policies

The Company, a limited company incorporated and domiciled in the United Kingdom (UK), is a provider of lifetime mortgage products.

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

(A) Basis of preparation

The financial statements of the Company have been prepared and approved by the directors in accordance with UK-adopted international accounting standards (IFRS) and the legal requirements of the Companies Act 2006.

The financial statements have been prepared under the historical cost convention, except for mortgage loans and those financial instruments and financial liabilities (including derivative instruments) at fair value through profit and loss.

The financial statements have been prepared on the going concern basis as explained in the Directors' report on page 9.

The Company is exempt from preparing group financial statements by virtue of section 400 of the Companies Act 2006, as it is a subsidiary of a UK parent and is included in the consolidated financial statements for the Group, i.e. the ultimate parent company, Aviva plc, and its subsidiaries, joint ventures and associates, at the same date. These financial statements therefore present information about the Company as an individual entity.

The Company's financial statements are stated in pounds sterling, which is the Company's functional and presentational currency. Unless otherwise noted, the amounts shown in these financial statements are in millions of pounds sterling ("£m").

New standards, interpretations and amendments to published standards that have been issued and endorsed by the UK and adopted by the Company

The Company has adopted Amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates: Lack of Exchangeability which became effective for the annual reporting period beginning on 1 January 2025. The amendments do not have a significant impact on the Company's financial statements.

Standards, interpretations and amendments to published standards that are not yet effective and have not been adopted by the Company

The following standards and amendments to existing standards have been issued, are not yet effective for the Company, and have not been adopted early by the Company.

(i) IFRS 18: Presentation and Disclosure in Financial Statements
In April 2024, the IASB published IFRS 18, which aims to improve how companies communicate in their financial statements by:

- Requiring additional defined subtotals in the statement of profit or loss;
- Requiring disclosures about management-defined performance measures; and
- Adding new principles for grouping of information.

IFRS 18 is effective for annual reporting beginning on or after 1 January 2027 and has been endorsed by the UK. The standard is expected to result in presentational changes to the Company's income statement, and new disclosures of management-defined performance measures will be required in the notes to the financial statements. The Company is in the process of implementation, and no financial impacts are expected as a result of adoption.

(ii) IFRS 19: Subsidiaries without Public Accountability: Disclosures and Amendments to IFRS 19: Subsidiaries without Public Accountability: Disclosures
Published by the IASB in May 2024 and August 2025. IFRS 19 and the amendments to IFRS 19 are effective for annual reporting beginning on or after 1 January 2027 and have yet to be endorsed by the UK.

The following new standards and amendments to existing standards have been issued, are not yet effective and have not been adopted early for the Company and are not expected to have a significant impact on the Company's financial statements:

(i) Amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures: Amendments to the Classification and Measurement of Financial Instruments
Published by the IASB in May 2024. The amendments are effective for annual reporting beginning on or after 1 January 2026 and have been endorsed by the UK.

(ii) Annual improvements to IFRS Accounting Standards – Volume 11: Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10 and IAS 7
Published by the IASB in July 2024. The amendments are effective for annual reporting beginning on or after 1 January 2026 and have been endorsed by the UK.

(iii) Amendments to IFRS 9 and IFRS 7 – Contracts Referencing Nature-dependent Electricity
Published by the IASB in December 2024. The amendments are effective for annual reporting beginning on or after 1 January 2026 and have been endorsed by the UK.

(iv) Amendments to IAS 21: Translation to a Hyperinflationary Presentation Currency
Published by the IASB in November 2025. The amendments are effective for annual reporting beginning on or after 1 January 2027 and have yet to be endorsed by the UK.

(B) Critical accounting policies and use of estimates

The preparation of the Company's financial statements in accordance with IFRS requires management to make judgements, estimates and assumptions in applying the accounting policies that affect the reported amounts of assets, liabilities, income and expenses.

The major area of judgement is derecognition of financial assets and liabilities (set out in policy G).

The major area of estimation is fair valuation of loan assets, derivatives, borrowings, fees earned on the sale of lifetime mortgages and amounts owed to credit institutions (set out in policies J, I, O, E, Q and notes 10, 24, 17, 2 and 18).

All estimates are based on management's knowledge of current facts and circumstances, assumptions based on that knowledge and their predictions of future events and actions. Actual results may differ from those estimates, possibly significantly. The list below sets out those estimates considered particularly susceptible to changes in assumptions, that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year, and the relevant accounting policy and note disclosures.

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

Accounting policies (continued)

(i) *Financial investments (set out in policy H and note 12)*

(ii) *Derivative financial instruments (set out in policy I, note 9 and note 24)*

(iii) *Loans (set out in policy J and note 10)*

(iv) *Borrowings (set* out in policy O and note 17)

(v) *Payables and other financial liabilities (set out in policy Q and note 18)*

The sensitivity of fair value of these items to the most significant unobservable inputs is disclosed in note 9.

(C) Subsidiaries

Subsidiaries are those entities over which the Company has control. The Company controls an investee if, and only if, the Company has all of the following;

- power over the investee;
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

The Company considers all relevant facts and circumstances in assessing whether it has power over an investee including the purpose and design of an investee, relevant activities, substantive and protective rights, and voting rights and potential voting rights. The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Investments in subsidiaries are recognised at cost less impairment. The carrying value of the Company's investments in subsidiaries is £nil, (2024 £nil).

(D) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. This presumes that the transaction takes place in the principal (or most advantageous) market under current market conditions. Fair value is a market-based measure and in the absence of observable market prices in an active market, it is measured using the assumptions that market participants would use when pricing the asset or liability.

The best evidence of the fair value of a financial instrument at initial recognition is normally the transaction price i.e. the fair value of the consideration given or received. In certain circumstances, the fair value at initial recognition may differ from the transaction price. If the fair value is not evidenced by comparison with other observable current market transactions in the same instrument (i.e. without modification or repackaging), or is based on a valuation technique whose variables include only data from observable markets, then the difference between the fair value at initial recognition and the transaction price is not recognised immediately in the income statement but deferred and recognised in the income statement on an appropriate basis over the life of the instrument but no later than when the valuation is supported wholly by observable market data or the transaction is closed out or otherwise matured.

(E) Fee, commission and other income

Lifetime mortgage customers are charged fees for property valuation, the administration of applications and early repayments. Fees are also charged to the special purpose securitisation companies, Aviva Life & Pensions UK Limited (UKLAP) and to other third parties for the administration of the mortgages that have been securitised or sold. These fees are recognised as revenue as the services are provided. In most cases this revenue is recognised in the same period in which the fees are collected, unless they relate to services to be provided in future periods. If the fees are for services to be provided in future periods, then they are deferred and recognised as the service is provided.

The Company also earns an upfront fee from UKLAP and other third parties in respect of the new business lending funded by UKLAP and other third parties which is linked to the value of the lifetime mortgages. The fee is recognised as revenue in the period in which the policy is sold and is settled periodically.

(F) Net investment income

Investment income consists of interest receivable for the year, realised gains and losses, and unrealised gains and losses on financial assets and liabilities at fair value (as defined in policy H). Interest income is recognised as it accrues, taking into account the effective yield on the investment. Interest on lifetime mortgages is accrued and payment of interest is not received until the mortgage is redeemed.

(G) Derecognition and offset of financial assets and financial liabilities

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised where:

- the rights to receive cash flows from the asset have expired;
- the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- the Company has transferred its rights to receive cash flows from the asset and has either transferred substantially all the risks and rewards of the asset, or has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

If the Company has neither transferred nor retained substantially all the risks and rewards of ownership of the financial asset, but has retained control, it shall continue to recognise the financial asset to the extent of its continuing involvement in the financial asset.

The transfer of risks and rewards is evaluated by comparing the Company's exposure, before and after transfer, with the variability in the amounts and timing of the net cash flows of the transferred asset and associated liability.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a currently enforceable legal right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

Accounting policies (continued)

(H) Financial instruments

The Company classifies the lifetime mortgages and the associated liabilities, derivative financial instruments, subordinated loans and early redemption charges due from fellow subsidiaries at fair value through profit or loss (FVTPL), since they are managed as a portfolio on a fair value basis. Presentation at fair value provides more relevant information and ensures that any accounting mismatch is eliminated.

Financial assets within this portfolio are classified as mandatorily held at FVTPL, based on a business model assessment. Derivative financial instruments and liabilities that are associated with partially derecognised mortgages are also classified as mandatorily held at FVTPL. Other financial liabilities in this portfolio are designated at FVTPL. Changes in the fair value of these instruments are included in the income statement in the period in which they arise. To avoid an accounting mismatch all gains or losses on financial liabilities designated at FVTPL are presented in profit or loss, including the amount of the change in fair value that is attributable to changes in the credit risk of that liability.

Instruments carried at fair value are presented using a fair value hierarchy, described in note 9.

(I) Derivative financial instruments

Derivative financial instruments include interest rate swaps, interest rate options and other financial instruments that derive their value mainly from underlying interest rates. All derivatives are initially recognised in the statement of financial position at their fair value, which usually represents their cost. They are subsequently re-measured at their fair value with fair value gains and losses recognised immediately in net investment income. The fair values are obtained from quoted market prices or, if these are not available, by using valuation techniques such as discounted cash flow models or option pricing models. All derivatives are carried as assets when the fair values are positive and as liabilities when the fair values are negative. Premiums paid for derivatives are recorded as an asset on the statement of financial position at the date of purchase, representing their fair value at that date.

Derivative contracts are traded over-the-counter (OTC). OTC derivative contracts are individually negotiated between contracting parties and include options, swaps, caps and floors. Derivatives are subject to various risks including market, liquidity and credit risk, similar to those related to the underlying financial instruments. OTC transactions are contracted and documented under ISDA (International Swaps and Derivatives Association) master agreements or their equivalent, which is designed to provide legally enforceable set-off in the event of default, reducing the Group's exposure to credit risk.

The Company has collateral agreements in place between relevant counterparties. Accounting policy K below covers collateral pledged in respect of these derivatives.

The notional or contractual amounts associated with derivative financial instruments are not recorded as assets or liabilities on the statement of financial position as they do not represent the fair value of these transactions. These amounts are disclosed in note 24.

Interest rate swaps

Interest rate swaps are contractual agreements between two parties to exchange periodic payments in the same currency, each of which is computed on a different interest rate basis, on a specified notional amount. Most interest rate swaps involve the net exchange of payments calculated as the difference between the fixed and floating rate interest payments. Exposure to gain or loss on swap contracts will increase or decrease over their respective lives as a function of maturity dates, interest rates, and the timing of payments.

Interest rate option contracts

Interest rate options, which consist primarily of caps and floors, are interest rate protection instruments that involve the obligation of the seller to pay the buyer an interest rate differential in exchange for a premium paid by the buyer. This differential represents the difference between current rate and an agreed rate applied to a notional amount. Exposure to gain or loss on all interest rate options contracts will increase or decrease over their respective lives as interest rates fluctuate.

(J) Loans

The Company classifies the lifetime mortgages and the associated liabilities, derivative financial instruments, subordinated loans and early redemption charges due from fellow subsidiaries (the latter being included within receivables and other financial assets) at FVTPL, since they are managed as a portfolio on a fair value basis. Presentation at fair value provides more relevant information and ensures that any accounting mismatch is eliminated. The fair values are estimated using discounted cash flow models, as described in note 9.

The Company has transferred the beneficial interest in certain portfolios of lifetime mortgages to various UK building societies, retaining a proportion of the interest earned. The transfers qualify for partial de-recognition and, as such, the interest receivable on the mortgages is recognised as an asset, carried at fair value, with a corresponding liability recognising the fair value of future interest payable to the building societies.

(K) Collateral

The Company pledges collateral in the form of non-cash assets in respect of certain derivative contracts and loans, in order to reduce the credit risk of these transactions.

Non-cash collateral pledged is not derecognised from the statement of financial position unless the Company defaults on its obligations under the relevant agreement, and therefore continues to be recognised on the statement of financial position within the appropriate asset classification.

(L) Statement of cash flows

Cash and cash equivalents

Cash and cash equivalents consist of cash at banks and in hand, deposits held on call with banks and treasury bills that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value. Such investments are those with less than three months' maturity from the date of acquisition, or which are redeemable on demand with only an insignificant change in their fair values.

Operating cash flows

Purchases and sales of loans and financial instruments are included within operating cash flows as they represent the operating activities of the Company.

(M) Contingent liabilities

Contingent liabilities are disclosed if there is a possible future obligation as a result of a past event, or if there is a present obligation as a result of a past event but either a payment is not probable or the amount cannot be reasonably estimated.

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

Accounting policies (continued)

(N) Income taxes

The current tax expense is based on the taxable profits for the year, after any adjustments in respect of prior years. Tax, including tax relief for losses if applicable, is allocated over profits before taxation and amounts charged or credited to components of other comprehensive income and equity as appropriate.

Provision is made for deferred tax liabilities, or credit taken for deferred tax assets, using the liability method, on all material temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

The rates enacted or substantively enacted at the statement of financial position date are used to value the deferred tax assets and liabilities.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. Where there is a history of tax losses, deferred tax assets are only recognised in excess of deferred tax liabilities if there is convincing evidence that future profits will be available.

Deferred tax is provided on any temporary differences arising from investments in subsidiaries, associates and joint ventures, except where the timing of the reversal of the temporary difference can be controlled and it is probable that the difference will not reverse in the foreseeable future.

Deferred taxes are not provided in respect of any temporary differences arising from the initial recognition of goodwill, or from the initial recognition of an asset or liability in a transaction which is not a business combination and affects neither accounting profit nor taxable profit or loss at the time of the transaction.

Current and deferred tax relating to items recognised in other comprehensive income and directly in equity are similarly recognised in other comprehensive income and directly in equity respectively, except for the tax consequences of distributions from certain equity instruments, to be recognised in the income statement.

Deferred tax related to any fair value re-measurement of investments, held at fair value through other comprehensive income, owner-occupied properties, pensions and other post-retirement obligations and other amounts charged or credited directly to other comprehensive income is recognised in the statement of financial position as a deferred tax asset or liability.

(O) Borrowings

The Company classifies the borrowings, lifetime mortgages, derivative financial instruments, subordinated loans at FVTPL, since they are managed as a portfolio on a fair value basis. Presentation at fair value provides more relevant information and ensures that any accounting mismatch is eliminated.

The fair values are estimated using discounted cash flows models, as described in note 9.

All borrowing costs are expensed as they are incurred.

(P) Share capital

Equity instruments

An equity instrument is a contract that evidences a residual interest in the assets of an entity after deducting all its liabilities. Accordingly, a financial instrument is treated as equity if:

(i) there is no contractual obligation to deliver cash or other financial assets or to exchange financial assets or liabilities on terms that may be unfavourable; and

(ii) the instrument will not be settled by delivery of a variable number of shares or is a derivative that can be settled other than for a fixed amount of cash, shares or other financial assets.

Dividends

Interim dividends on ordinary shares are recognised in equity in the period in which they are paid. Final dividends on these shares are recognised when they have been approved by shareholders.

(Q) Receivables, payables and other financial liabilities

The Company classifies amounts owed to credit institutions, derivative financial instruments, subordinated loans, early repayment charges due from fellow subsidiaries, lifetime mortgages and the associated liabilities at FVTPL, since they are managed as a portfolio on a fair value basis. Presentation at fair value provides more relevant information and ensures that any accounting mismatch is eliminated.

The fair values are estimated using discounted cash flow models, as described in note 9.

All other receivables and financial liabilities are initially recognised at cost, being fair value. Subsequent to initial measurement they are measured at amortised cost which, given the short term nature of these items, is considered a reasonable approximation to fair value.

Payables include indemnities on securitised mortgages for Equity Release Funding (No.1) plc (ERF1) and Equity Release Funding (No.2) plc (ERF2) for any losses they may suffer should its customers set off any shortfall in their annuities purchased from another Aviva Group company against amounts they owe to those companies, and any shortfall due to negative equity not insured elsewhere as detailed in note 10.

Other financial liabilities include the Company's exposure to contractual commitments for mortgage advances, net of the expected funding from UKLAP. It has been recognised in the statement of financial position as described in notes 18 and 20.

5. Directors' remuneration

Mr Billington, Mr Elliot, Mr Larkin, Ms Layden and Mr McGill were remunerated during the period by Aviva Employment Services Limited, a fellow subsidiary of the Group.

Mr Dinwiddie was remunerated for his services to the Group as a whole. Mr Dinwiddie was not remunerated for his services as a director of the Company and the amount of his time spent performing his duties was incidental to his role across the Group.

Mr Billington, Mr Elliot, Mr Larkin, Ms Layden and Mr McGill's remuneration are also disclosed within the aggregate of the key management compensation in note 26.

The fees for Mr Murphy were paid for and borne by the Company.

The remuneration in respect of Mr Billington, Mr Elliot, Mr McGill, Mr Larkin and Ms Layden and Mr Murphy is shown in the table below:

	2025	2024
	£'000	£'000
Aggregate remuneration	**1,450**	1,639
Company pension contributions to a money purchase scheme	**89**	96
	1,539	1,735

During the year one (*2024: one*) director exercised share options and four (*2024: three*) directors received shares under long term incentive scheme in relation to shares of the Company's ultimate parent company, Aviva plc.

The details of the highest paid director are as follows:

	2025	2024
	£'000	£'000
Aggregate remuneration	**898**	955
Company pension contributions to a money purchase scheme	**46**	46
	944	1,001

During the year, the highest paid director was granted share options under long-term incentive scheme in relation to shares of the Company's ultimate parent company, Aviva plc..

6. Auditors' remuneration

The total remuneration payable by the Company, excluding VAT, to its auditors, Ernst & Young LLP is as follows:

	2025	2024
	£'000	£'000
Fees payable to Ernst & Young LLP for the statutory audit of the Company's financial statements	**111.5**	125.0
	111.5	125.0

The Company is exempt under SI 2008/489 from the obligation to disclose fees in respect of 'Other services' as the Company is a subsidiary of Aviva plc, which prepares consolidated financial statements. Fees paid to the Company's auditors, Ernst & Young LLP and its associates for services other than the statutory audit of the Company and other Group undertakings are disclosed in the consolidated financial statements of Aviva plc.

Audit fees are payable by Aviva Central Services UK Limited, a fellow Group company, and recharged as appropriate to the Company and fellow Group companies.

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

7. Tax charge / (credit)

(a) Tax charged / (credited) to the income statement

(i) The total tax charge / (credit) comprises:

	2025 £m	2024 £m
Current tax		
For this period	**7.4**	11.3
Total current tax	**7.4**	11.3
Deferred tax		
Origination and reversal of temporary differences	**1.2**	2.9
Total deferred tax	**1.2**	2.9
Total tax charged to the income statement	**8.6**	14.2

(ii) Deferred tax charged / (credited) to the income statement represents movements on the following items:

	2025 £m	2024 £m
Provisions and other temporary differences	**1.2**	2.9
Total deferred tax charged to the income statement	**1.2**	2.9

(b) Tax reconciliation

The tax on the Company's profit / (loss) before tax is the same as (*2024: is the same as)* the theoretical amount that would arise using the tax rate in the United Kingdom as follows:

	2025 £m	2024 £m
Total profit before tax	**34.5**	56.8
Tax calculated at standard UK corporation tax rate of 25% (2024: 25%)	**8.6**	14.2
Total tax charged to the income statement	**8.6**	14.2

The Company (as part of the Aviva Group) is subject to the reform of the international tax system proposed by The Organisation for Economic Co-operation and Development (OECD) which introduces a global minimum effective rate of corporation tax of 15% and took effect in 2024. No current tax charge is included in respect of these provisions.

8. Investments in subsidiaries

The following entities are controlled by the Company and are classed as subsidiaries. The Company does not own the share capital of any of these entities.

Company	Address	Incorporated in
Equity Release Funding (No.1) plc	c/o Wilmington Trust SP Services (London), Third Floor 1 King's Arms Yard London EC2R 7AF	England and Wales
Equity Release Funding (No.2) plc	c/o Wilmington Trust SP Services (London), Third Floor 1 King's Arms Yard London EC2R 7AF	England and Wales

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

Company	Address	Incorporated in
Equity Release Funding (No.3) plc	c/o Wilmington Trust SP Services (London), Third Floor 1 King's Arms Yard London EC2R 7AF	England and Wales
Equity Release Funding (No.4) plc	c/o Wilmington Trust SP Services (London), Third Floor 1 King's Arms Yard London EC2R 7AF	England and Wales
Equity Release Funding (No.5) plc	c/o Wilmington Trust SP Services (London), Third Floor 1 King's Arms Yard London EC2R 7AF	England and Wales

The carrying value of the investment in the above entities is £nil *(2024: £nil).* For further information on the Company's interest in these entities see note 11.

9. Fair value methodology

(a) Basis for determining fair value hierarchy of financial instruments

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the 'fair value hierarchy' described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Quoted market prices in active markets - ("Level 1")

Inputs to Level 1 fair values are quoted prices (unadjusted) in active markets for identical assets and liabilities that the entity can access at the measurement date. Level 1 inputs already reflect market participant views of climate change impacts and no further adjustments are made to these values..

Modelled with significant observable market inputs - ("Level 2")

Inputs to Level 2 fair values are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the instrument. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets and liabilities in markets that are not active, the prices are not current, or price quotations vary substantially either over time or among market makers, or in which little information is released publicly;
- Inputs other than quoted prices that are observable for the asset or liability (for example, interest rates and yield curves observable at commonly quoted intervals, implied volatilities, and credit spreads);
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means (market-corroborated inputs).

Modelled with significant unobservable market inputs - ("Level 3")

Inputs to Level 3 fair values are unobservable inputs for the asset or liability. Unobservable inputs may have been used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date.

However, the fair value measurement objective remains the same, i.e. an exit price at the measurement date from the perspective of a market participant that holds the asset or owes the liability. Therefore, unobservable inputs reflect the assumptions the business unit considers that market participants would use in pricing the asset or liability. Examples are partially de-recognised and non-securitised mortgage loans.

Changes to valuation techniques:

There were no changes in the valuation techniques during the year compared to those applied in the 2024 financial statements.

Comparison of the carrying amount and fair values of financial instruments:

Fair value of the following assets and liabilities carried at amortised cost approximate to their carrying amounts:

- Receivables
- Loans
- Cash and cash equivalents
- Payables and other financial liabilities

There were no assets held at amortised cost where the fair value did not approximate to the carrying amount.

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

Fair value hierarchy

An analysis of assets and liabilities measured at fair value categorised by fair value hierarchy is given below:

	Level 2 £m	Level 3 £m	2025 Total £m
Recurring fair value measurements			
Financial investments and loans			
Loans	**—**	**501.2**	**501.2**
Debt securities	**—**	**27.1**	**27.1**
Derivative financial instruments	**13.3**	**0.8**	**14.1**
Early repayment charges due from fellow subsidiaries	**—**	**0.2**	**0.2**
Total	**13.3**	**529.3**	**542.6**
Financial liabilities			
Borrowings	**—**	**123.1**	**123.1**
Amounts owed to credit institutions	**—**	**281.8**	**281.8**
Derivative liabilities	**—**	**2.4**	**2.4**
Other liabilities	**—**	**2.2**	**2.2**
Total	**—**	**409.5**	**409.5**

	Level 2 £m	Level 3 £m	2024 Total £m
Recurring fair value measurements			
Financial investments and loans

(b) Further information on Level 3 financial instruments

The table below shows movements in the Level 3 assets and liabilities measured at fair value:

	Loans	Debt securities	Other receivables	Derivative assets	Borrowings	Amounts owed to credit	Derivative liabilities	Other financial liabilities
	£m	£m	£m	£m	£m	£m	£m	£m
Balance at 1 January 2025	**493.1**	**30.9**	**0.2**	**1.0**	**(133.3)**	**(279.7)**	**(1.4)**	**(2.8)**
Increases	**53.5**	**2.1**	**—**		**(7.6)**	**(33.8)**		
Redemptions	**(56.5)**	**(4.8)**	**—**		**15.4**	**28.5**		
Unrealised gains / (unrealised losses) recognised in the income statement	**11.1**	**(1.1)**	**—**	**(0.2)**	**2.4**	**3.2**	**(1.0)**	**0.6**
Balance at 31 December 2025	**501.2**	**27.1**	**0.2**	**0.8**	**(123.1)**	**(281.8)**	**(2.4)**	**(2.2)**

	Loans	Debt securities	Other receivables	Derivative assets	Borrowings	Amounts owed to credit	Derivative liabilities	Other financial liabilities
	£m	£m	£m	£m	£m	£m	£m	£m
Balance at 1 January 2024	488.7	29.9	0.8	0.5	(150.0)	(270.5)	(1.7)	(10.6)
Increases	51.8	2.2	—	—	(8.0)	(32.0)	—	—
Redemptions	(66.3)	—	—	—	15.5	27.4	—	—
(Unrealised losses) / unrealised gains recognised in the income statement	18.9	(1.2)	(0.6)	0.5	9.2	(4.6)	0.3	7.8
Balance at 31 December 2024	493.1	30.9	0.2	1.0	(133.3)	(279.7)	(1.4)	(2.8)

The Company assesses the fair value hierarchy of its financial investments annually at 31 December and transfers between fair value hierarchy levels are deemed to have occurred at the assessment date.

The assets and liabilities classified as Level 3 are valued using an internal model. The valuation of the equity release mortgages is dependent on the term of the mortgage (primarily determined by the customer's longevity) and the movement in property valuations over this term. The internal model calculates a credit risk adjusted value for the mortgages. Cash flows are adjusted for credit risk (the no negative equity guarantee) and discounted using a yield curve and portfolio-wide assumptions for liquidity premium. The model uses best estimate assumptions to derive the modelled future property growth scenarios and explicitly calculates the additional return that would be expected by investors due to uncertainties in the asset cash flows. The primary inputs to the model are:

– The base property growth rate assumption which is RPI + 0.75% pa *(2024: RPI + 0.75% pa).* The growth rates include a deduction for the potential impact of climate change actions. The base property growth rate assumption equates to a long-term average growth rate of 3.8% pa at 31 December 2025 *(2024: 3.7% pa)* over a twenty year projection. After applying the cost of capital charge, dilapidations and the stochastic distribution, the effective net long-term growth rate equates to 1.4% pa *(2024: 1.5% pa)* over a twenty year projection.

– The net long-term rate which represents an average of a range of possible future scenarios. Best estimate calculations of the value of the no negative equity guarantee in respect of these loans are derived from a stochastic model and are predominantly driven by scenarios where the growth rate is lower than the average position quoted above. The no negative equity guarantee ensures that the customer or their estate are never required to pay back more than the realised value of the property, as long as it is sold for the best price reasonably obtainable. Property valuations at the reporting date are obtained by taking the most recent valuation for the property and indexing using a historical house price model based on Land Registry and ONS data.

– An illiquidity premium added to the risk-free discount rate to reflect the illiquidity of the equity release mortgage portfolio. The premium used in the discount rate was 195bps at 31 December 2025 (2024: 185bps). The liquidity premium is the excess margin over risk-free rates after allowing for the no negative equity guarantee, the cost of capital and future loan administration expenses that is obtainable in the market on new equity release mortgages.

The table below shows the sensitivity of the fair value of Level 3 investments at 31 December to changes in unobservable inputs to a reasonable alternative.

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

	2025		Change in fair value	
	Fair value £m	Most significant unobservable inputs	Positive impact £m	Negative impact £m
Equity release mortgages	**454.2**	Current property market values - 10%	**25.1**	**(30.5)**
		Base property growth rate - 50bps p.a.	**11.0**	**(11.2)**
Subordinated loans	**47.0**	Credit spreads - 50bps	**2.4**	**(2.3)**
Debt securities	**27.1**	Credit spreads - 50bps	**0.5**	**(0.5)**
Borrowings	**(123.1)**	Credit spreads - 50bps	**3.4**	**(3.6)**
Amount owed to credit institutions	**(281.8)**	Credit spreads - 50bps	**11.7**	**(12.4)**
Financial liabilities	**(2.2)**	Current property market values - 10%	**0.6**	**(0.9)**

	2024		Change in fair value	
	Fair value £m	Most significant unobservable inputs	Positive impact £m	Negative impact £m
Equity release mortgages	459.4	Current property market values - 10%	25.5	(30.6)
		Base property growth rate - 50bps p.a.	15.1	(15.0)
Subordinated loans	33.7	Credit spreads - 50bps	2.4	(2.2)
Debt securities	30.9	Credit spreads - 50bps	0.8	(0.8)
Borrowings	(133.3)	Credit spreads - 50bps	4.0	(4.2)
Amount owed to credit institutions	(279.7)	Credit spreads - 50bps	12.4	(13.2)
Financial liabilities	(2.8)	Current property market values - 10%	0.8	(1.1)

Any change in fair value of the equity release mortgage loans would be substantially offset by a change in fair value of the borrowings and amounts owed to credit institutions. Any change in fair value of the continued involvement in securitised mortgage loans would be matched by a change in the fair value of other liabilities, as disclosed in note 10(c).

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

10. Loans

(a) Carrying amounts

The carrying amounts of loans at 31 December 2025 and 2024 were as follows:

	2025 £m	2024 £m
Mandatorily held at FVTPL:		
Continued involvement in securitised mortgage loans	**1.4**	2.0
Continued involvement in other partially derecognised mortgage loans	**314.8**	314.7
Non-securitised mortgage loans	**138.0**	142.7
Other loans	**47.0**	33.7
	501.2	493.1

	2025 £m	2024 £m
Expected to be recovered in less than one year	**51.8**	46.7
Expected to be recovered in more than one year	**449.4**	446.4
	501.2	493.1

(b) Collateral

The Company holds collateral in respect of all mortgage loans, in order to reduce the risk of non-recovery. This collateral generally takes the form of liens or charges over properties. As security for the lifetime mortgage and any other money owing from the customer, the property is charged to the Company by way of a legal mortgage with full title guarantee.

(c) Securitisations and other structured transactions

The Company enters into transactions in the normal course of business by which it transfers recognised financial assets directly to third parties or to special purpose entities. These transfers may give rise to the full or partial derecognition, with continuing involvement, of the financial assets concerned (as described in accounting policy (G).

The following tables analyse the carrying amount of financial instruments at 31 December to the extent of the Company's continuing involvement that qualified for derecognised with continuing involvement during the year, and their associated liabilities.

(i) Carrying amounts and associated liabilities- Securitisations

	2025 £m	2024 £m
Carrying amount of mortgages (currently recognised)	**1.4**	2.0
Carrying amount of associated liability	**2.2**	2.8
Current fair value of original assets	**1,440.2**	1,524.2

The beneficial interest in five portfolios of lifetime mortgages have been transferred to five special purpose securitisation companies: Equity Release Funding (No.1) plc (ERF1), Equity Release Funding (No.2) plc (ERF2), Equity Release Funding (No.3) plc (ERF3), ERF Trustee (No.4) Limited (ERF4T) held on trust for the benefit of Equity Release Funding (No.4) plc (ERF4), and ERF Trustee (No.5) Limited (ERF5T) held on trust for the benefit of Equity Release Funding (No.5) plc (ERF5), (together "the ERF companies"), in return for initial consideration and, at later dates, deferred consideration.

The deferred consideration represents receipts accrued within the ERF companies after meeting all their obligations to the note holders, loan providers and other third parties in the priority of payments. Deferred consideration of £6.8 million was received during the year (*2024: £3.4 million*) and recognised as income.

No gain or loss was recognised on the transfers to ERF1, ERF3 and ERF5T and gains of £5.2 million and £9.1 million were recognised on 11 June 2002 and 30 July 2004 respectively, on the transfers to ERF2 and ERF4T. The purchases of the mortgages were funded by the issue of fixed rate, floating rate and index-linked notes by the ERF companies. The proceeds of the securitisation were used to settle the funding liability to Aviva Life & Pensions UK Limited, the original mortgage funder.

The legal parent of ERF1, ERF2 and ERF3 is Equity Release Holdings Limited, whose shares are held on trust. The legal parent of ERF4T and ERF4 is Equity Release Holdings (Jersey) Limited, whose shares are also held on trust. The legal parent of ERF5T and ERF5 is Equity Release Holdings (No.5) Limited, whose shares are also held on trust.

Although the Company does not own, directly or indirectly, any of the share capital of the ERF companies or their parent companies, the Company is deemed to control the ERF companies and they have been treated as subsidiaries in the Company's financial statements.

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

The Company has no obligation to repurchase the benefit of any of the securitised mortgage loans, other than in certain circumstances where the Company is in breach of warranty or loans are substituted in order to effect a further advance.

The Company has indemnified ERF1 and ERF2 for any losses they may suffer should its customers set off any shortfall in their annuities purchased from another Aviva Group company against amounts they owe to those companies, and any shortfall due to negative equity not insured elsewhere. The Company's liability under these indemnities, estimated as £2.2 million *(2024: £2.8 million),* is included in other financial liabilities in the statement of financial position, and loans have been increased by the same amount, reflecting the Company's continued involvement in the securitised mortgage loans.

The Company purchased £12.5 million of subordinated fixed rate M notes in ERF1 in March 2001, which are repayable in 2031, included in debt securities within financial investments in the statement of financial position. In addition, it purchased a £14.0 million floating rate subordinated loan from ERF3, which was repaid in 2024, and a £20.0 million floating rate subordinated loan from ERF5. The ERF5 subordinated loan is included in other loans in the statement of financial position.

The Company receives payments from the ERF companies in respect of fees for loan administration and cash handling purposes. Income of £4.6 million *(2024: £5.0 million)* has been included in fee and commission income, relating to the securitised mortgage portfolios. A balance of £4.1 million *(2024: £4.1 million),* included within receivables, is outstanding at year end in relation to the services provided to the ERF companies.

In all of the above transactions, the Company is not obliged to support any losses that may be suffered by the note holders and does not intend to provide such support. The notes were issued on the basis that note holders are only entitled to obtain payment, of both principal and interest, to the extent that the available resources of the respective special purpose securitisation companies, including funds due from customers in respect of the securitised loans, are sufficient. Note holders have no recourse whatsoever to other companies in the Aviva Group.

(ii) Carrying amounts and associated liabilities- Other partially derecognised mortgages

	2025	2024
	£m	£m
Carrying amount of mortgages (currently recognised)	**314.8**	314.7
Carrying amount of associated liability	**281.8**	279.7
Current fair value of original assets	**380.3**	384.8

Mortgages that qualify for partial derecognition include blocks of business purchased by a building society or under a joint product structure with a building society. All new lending in 2025 was funded by UKLAP and other third parties, however as there is no continuing involvement in these mortgages they qualified for full derecognition. It is anticipated that all new lending in 2026 will be under similar terms.

For the mortgages that qualify for partial derecognition, the Company generally retained longevity risk in new funding arrangements and transferred property risks to the purchaser of the assets. The extent of the risk that remains with the Company depends on the exact terms negotiated for each asset sale. The Company retains a proportion of interest earned.

The Company has limited its exposure to negative equity losses by transferring the majority of property risk onto third parties. The current fair value of loans where the Company retains the property risk is £138.0 million *(2024: £142.7 million).*

11. Interest in structured entities

A structured entity is defined as an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only, or when the relevant activities are directed by means of contractual arrangements.

As permitted under IAS 27 and under Section 400 of the Companies Act 2006, the Company has elected not to present consolidated financial statements and as such all holdings in structured entities are unconsolidated.

The Company holds the following interests in unconsolidated structured entities:

- Loans with a fair value of £47.0 million *(2024: £33.7 million)* provided to a securitisation vehicle (ERF5) (see note 10)
- Continued involvement in securitised mortgage loans of £1.4 million *(2024: £2.0 million)*, included within Loans (see note 10)
- Investment in debt securities of £27.1 million *(2024: £30.9 million)* issued by a securitisation vehicle (ERF1), included within Financial Investments (see note 12 and note 10).

The above interests are held in special purpose securitisation companies which have purchased the beneficial interests in five portfolios of mortgages from the Company. Further information about the securitisations is provided in note 10.

The maximum exposure to loss to the interests presented above is the carrying amount of the investments.

In relation to risk management, disclosures on debt securities and investment vehicles are given in note 23.

The Company has not provided any other financial or other support in addition to that described above as at the reporting date. The Company has indemnified ERF1 and ERF2 for any losses they may suffer should its customers set off any shortfall in their annuities purchased from another Aviva Group company against amounts they owe to those companies, and any shortfall due to negative equity not insured elsewhere (see note 10).

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

12. Financial investments

Carrying amount

	2025 £m	2024 £m
Mandatorily held at FVTPL		
Debt securities	**27.1**	30.9
Derivative financial instruments	**14.1**	16.0
	41.2	46.9

All of the above is expected to be recovered more than one year after the statement of financial position date.

13. Receivables and other financial assets

	2025 £m	2024 £m
Mandatorily held at FVTPL:		
Early repayment charges due from subsidiaries	**0.2**	0.2
Held at amortised cost:		
Amounts due from parent company	**10.6**	8.7
Amounts due from subsidiaries	**21.5**	12.8
Other receivables	**6.0**	—
Total as at 31 December	**38.3**	21.7
Expected to be recovered in less than one year	**38.1**	21.5
Expected to be recovered in more than one year	**0.2**	0.2
	38.3	21.7

The Company's rights to early repayment charges on the lifetime mortgages held by Equity Release Funding Trustee (No 5) Limited have been pledged as security for interest rate swaps.

14. Ordinary share capital

	2025 £m	2024 £m
Allotted, called up and fully paid		
66,700,000 (2024: 66,700,000) ordinary shares of £1 each	**66.7**	66.7

Ordinary shares in issue in the Company rank pari passu. All the ordinary shares in issue carry the same right to receive all dividends and other distributions declared, made or paid by the Company.

15. Retained earnings

	2025 £m	2024 £m
Balance at 1 January	**161.5**	138.9
Profit for the year	**25.9**	42.6
Dividends - 44.978 pence per share (2024: 29.985 pence per share)	**(30.0)**	(20.0)
Balance at 31 December	**157.4**	161.5

The Company is required to hold sufficient capital to meet acceptable solvency levels based on rules applicable to regulated companies imposed by the Financial Conduct Authority (FCA). Its ability to transfer retained earnings to its parent company is therefore restricted to the extent these earnings form part of regulatory capital.

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

16. Tax assets and liabilities

(a) Current tax

Current tax assets recoverable and liabilities payable in more than one year are £nil and £nil (*2024: £nil and £3 million*), respectively.

(b) Deferred tax

(i) The net deferred tax asset/(liability) arises on the following items:

	2025 £m	2024 £m
Provisions and other temporary differences	**(0.9)**	0.3
Net deferred tax asset/(liability)	**(0.9)**	0.3

(ii) The movement in the net deferred tax asset/(liability) was as follows:

	2025 £m	2024 £m
Net deferred tax asset at 1 January	**0.3**	3.2
Amounts charged to income statement	**(1.2)**	(2.9)
Net deferred tax asset/(liability) at 31 December	**(0.9)**	0.3

17. Borrowings

	2025 £m	2024 £m
Designated at FVTPL:		
Amounts due to parent	**123.1**	133.3

There were no defaults or breaches of loan agreements on loans payable during the year (2024: £nil).

Maturity analysis of borrowings is given in note 23(e).

The amount of change in fair value of borrowings during the year attributable to a change in credit risk was a £2.7 million loss *(2024: £5.4 million loss)*. The cumulative change attributable to changes in credit risk to 31 December 2025 was a £6.9 million loss *(2024: £4.2 million loss)*.

18. Payables and other financial liabilities

	2025 £m	2024 £m
Mandatorily held at FVTPL:		
Amounts owed to credit institutions	**281.8**	279.7
Derivative financial instruments	**2.4**	1.4
Designated at FVTPL:		
Indemnities on securitised mortgages	**2.2**	2.8
Held at amortised cost:		
Amounts due to fellow subsidiaries	**1.5**	—
Amounts due to subsidiaries	**0.6**	0.6
Other financial liabilities	**35.6**	17.3
Total as at 31 December	**324.1**	301.8
Expected to be paid in less than one year	**37.8**	17.9
Expected to be paid in more than one year	**286.3**	283.9
	324.1	301.8

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

Maturity analysis of payables and financial liabilities is given in note 23(e). The amounts owed to credit institutions have no contractual maturity date and are linked to the maturity of underlying equity release mortgages.

The above liabilities stated at fair value have been calculated in a consistent manner with the assets stated at fair value. Further details of the fair value methodology are included in note 9.

19. Contingent liabilities and other risk factors

(a) Regulatory compliance

The FCA regulates the Company's mortgage lending and monitors the financial resources and organisation of the Company as a whole. The FCA has broad powers including the authority to grant, vary the terms of, or cancel a regulated firm's authorisation; to investigate marketing and sales practices; and to require the maintenance of adequate financial resources.

The Directors believe that the Company dedicates appropriate resources to its compliance programme, endeavours to respond to regulatory enquiries in a constructive way, and takes corrective action when warranted. However, all regulated financial services companies face the risk that their regulator could find that they have failed to comply with applicable regulations or have not undertaken corrective action as required.

The impact of any such finding could have a negative impact on the Company's reported results or on its relations with current and potential customers. Regulatory action against a member of the Aviva Group could result in adverse publicity for, or negative perceptions regarding the Group, or could have a material adverse effect on the business of the Group, its results of operations and/or financial condition and divert management's attention from the day-to-day management of the business.

20. Commitments

(a) Capital commitments

Contractual commitments for mortgage advances were as follows:

	2025	2024
	£m	£m
Mortgage loans	**1,047.4**	1,110.6

The Company's exposure to these commitments, net of the expected funding from UKLAP and other third parties, is recognised in the statement of financial position and is included within payables and other financial liabilities in note 18. The amount of this as at 31 December 2025 is £nil *(2024: £nil)*.

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

21. Statement of cash flows

(a) The reconciliation of profit / (loss) before tax to the net cash generated from operating activities:

The cash flows presented in this statement cover all the Company's activities and include flows from both policyholder and shareholder activities. Operating cash flows reflect the movement in both policyholder and shareholder controlled cash and cash equivalent balances.

	2025 £m	2024 £m
Profit before tax	**34.5**	56.8
Adjustments for:		
Fair value losses / (gains) on:		
Investments	**(14.5)**	(26.1)
Other assets	**—**	0.6
Other liabilities	**1.0**	(6.0)
Interest (income) / expense on:		
M notes and subordinated loans	**(4.8)**	(5.2)
Mortgages	**(49.2)**	(46.2)
Payables	**41.4**	40.0
Changes in working capital:		
Increase in receivables	**(16.6)**	(4.3)
Increase in prepayments and accrued income	**—**	(0.1)
Increase in payables and other financial liabilities	**23.8**	5.3
New mortgage funding drawdown	**322.1**	310.5
Repayment of mortgage funding	**(327.6)**	(317.6)
Interest paid on mortgage funding	**(35.9)**	(33.1)
Net sales / (purchases) of operating assets:		
Financial investments	**6.5**	(0.9)
Loan advanced	**(265.4)**	(247.9)
Proceeds from sale of loan	**320.6**	311.6
Total cash generated from operating activities	**35.9**	37.4

Purchases and sales of loans and financial instruments are included within operating cash flows as they represent the operating activities of the Company.

(b) Cash and cash equivalents in the statement of cash flows and in the statement of financial position at 31 December comprised:

	2025 £m	2024 £m
Cash at bank and in hand	**109.6**	103.7

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

22. Capital structure

The Company maintains an efficient capital structure from equity shareholders' funds, consistent with the Company's overall risk profile and the regulatory and market requirements of the business. This note describes the way the Company manages capital and shows how this is structured.

(a) General

IFRS underpins the Company's capital structure and accordingly the capital structure is analysed on this basis. The Company measures its capital requirements under the MIPRU (Prudential Sourcebook for Mortgage and Home Finance Firms and Insurance Intermediaries) rulebook.

(b) Capital Management

In managing its capital, the Company seeks to:

(i) match the profile of its assets and liabilities, taking account of the risks inherent in the business;

(ii) maintain financial strength to support new business growth and satisfy the requirements of its policyholders and regulator;

(iii) retain financial flexibility by maintaining strong liquidity; and

(iv) allocate capital efficiently to support growth and repatriate excess capital where appropriate.

(c) Different measures of capital

The Company measures its capital on a number of different bases. These include measures which comply with the regulatory regime within which the Company operates and those which the directors consider appropriate for the management of the business. The measures which the Company uses are:

(i) Accounting basis

The Company is required to report its results on an IFRS basis.

(ii) Regulatory basis

Relevant capital and solvency regulations are used to measure and report the Company's financial strength. These measures are based on the Company being authorised and regulated by the Financial Conduct Authority (FCA) as a MIPRU (Prudential Sourcebook for Mortgage and Home Finance Firms and Insurance Intermediaries) license firm. The Company fully complied with the relevant regulatory requirements during the year.

The reconciliation below is between total IFRS funds and total own funds under MIPRU.

	2025	2024
	£m	£m
Total IFRS shareholders' funds	**224.1**	228.2
Adjustments onto a regulatory basis:		
Profit for the year	**(25.9)**	(42.6)
Total own funds	**198.2**	185.6

Further details on risk and capital management are given in note 23 .

23. Risk management

(a) Risk management framework

The Company operates a risk management framework (RMF) that forms an integral part of the management and Board processes and decision-making framework, aligned to the Aviva Group risk management framework. The key elements of the risk management framework comprise risk appetite; risk governance, including risk policies and business standards, risk oversight committees and roles and responsibilities; and the processes the Company uses to identify, measure, manage, monitor and report ("IMMMR") risks, including the use of risk models and stress and scenario testing.

The RMF has been adopted by the boards of the legal entities within the business collectively referred to as "Insurance, Wealth & Retirement (IWR)" (including this Company).

For the purposes of risk identification and measurement, and aligned to the Company's risk policies, risks are usually grouped by risk type: credit, market, liquidity, life insurance (including long-term health), and operational risk. Risks falling within these types may affect a number of metrics including those relating to statement of financial position strength, liquidity and profit. They may also affect the performance of the products the Company delivers to its customers and the service to its customers and distributors, which can be categorised as risks to brand and reputation or as conduct risk.

To promote a consistent and rigorous approach to risk management across the business, the Company has a set of risk policies and business standards which set out the risk strategy, appetite, framework and minimum requirements for the Company's operations. The IWR Chief Executive Officer makes an annual declaration that the system of governance and internal controls was effective and fit for purpose for their business throughout the year; this declaration is supported by an opinion from the IWR Chief Risk Officer. Any material weaknesses in subsidiary companies are considered as part of this overall process.

The Risk Appetite Framework was refreshed during the year, with revised risk appetites considered and approved by the Board. Since 2021, climate-related risks have been integrated and defined within the risk appetite framework as part of the use in risk-based decision-making.

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

A regular top-down key risk identification and assessment process is carried out by the risk function. This includes the consideration of emerging risks and is supported by deeper thematic reviews. The Company also operates a risk and control self-assessment process. The risk assessment processes are used to generate risk reports which are shared with the Board.

Risk models are an important tool in the measurement of risks and are used to support the monitoring and reporting of the risk profile and in the consideration of the risk management actions available. The Company carries out a range of stress tests (where one risk factor, such as equity returns, is assumed to vary) and scenario tests (where combinations of risk factors are assumed to vary) to evaluate their impact on the business and the management actions available to respond to the conditions envisaged. For those risk types managed through the holding of capital, being the Company's principal risk types except for liquidity risk, the Company measures and monitors its risk profile on an equivalent basis to the Solvency II solvency capital requirement (SCR).

Roles and responsibilities for risk management in the Company are based around the 'three lines of defence model' where ownership for risk is taken at all levels. Line management in the business is accountable for risk management, including the implementation of the risk management framework and embedding of the risk culture. The risk function is accountable for quantitative and qualitative oversight and challenge of the IMMMR processes and for developing the risk management framework. Internal Audit provides an independent assessment of the risk management framework and internal control processes.

Board oversight of risk and risk management across the Company is maintained on a regular basis.

(b) Market risk

Market risk is the risk of loss or adverse change in the financial situation (including the value of assets, liabilities and income) resulting, directly or indirectly, from fluctuations in the level or the volatility of market variables, such as interest rates, foreign exchange rates and property prices.

For each of the major components of market risk, described in more detail below, the Company has put in place procedures to set out how each risk should be managed and monitored, and the approach to setting an appropriate risk appetite.

The Company manages market risks within the asset/liability management (ALM) framework and within regulatory constraints. The Company is also constrained by the requirement to meet policyholders' reasonable expectations and to minimise or avoid market risk in a number of areas.

The financial impact of market risk (such as changes in interest rates and house prices) is examined through stress tests which consider the impact on capital from variations in financial circumstances on either a remote scenario or to changes from the central operating scenario. Management actions that may be taken in mitigation of the change in circumstances are also considered.

The Financial Risk Policy sets out the minimum principles and framework for setting an ALM and investment strategy, the approaches to be taken when liabilities cannot be matched and the monitoring and reporting processes that are required. Appropriate matching techniques are applied to assets and liabilities for all classes of business in order to manage the financial risk from the mismatching of assets and liabilities when investment markets change. The Company monitors adherence to this policy through the UK IWR Asset & Liability Committee (ALCO).

(i) Property price risk

Property price risk arises from sustained underperformance in house price inflation or a sharp fall in property values, with the resultant increase in the likelihood that the mortgage debt will exceed the proceeds of the property sale at the date of redemption. The Company has transferred the property risk on mortgages that are sold onto or funded by building societies when the beneficial interest is transferred.

The current fair value of on balance sheet loans where the Company retains the property risk is £138.0 million (2024: £142.7 million). The Company is also exposed to property price risk at point of sale on its contractual commitments for mortgage advances (see note 20). Where property price risk remains there would need to be a significant decrease in house price values or future house price growth, in excess of that allowed for in the valuation of the loans, for significant losses to be recognised. If this were coupled with an unexpected fall in short term mortality and morbidity rates this would increase the risk of the Company experiencing losses due to negative equity.

Exposure to property risk on equity release mortgages from sustained underperformance in the UK House Price Index (HPI) is mitigated by capping loan to value on origination are at low levels for the majority of the book and regularly monitoring the performance of the mortgage portfolio.

Sensitivity tests have been performed for the impact of changes in property valuations on equity release mortgage loans and financial liabilities (see note 9).

(ii) Interest rate risk

Interest rate risk arises primarily from fluctuations in the value of lifetime mortgage assets and their related funding and derivatives. Interest rate risk is controlled through the close matching of the duration and value of mortgages and mortgage funding and the use of a variety of derivative instruments. As at 31 December 2025, the Company had entered into a number of interest rate swaps and options to mitigate the effects of potential adverse interest rate movements.

The Company has also entered into a derivative to transfer the interest rate risk through variability in the redemption profile of lifetime mortgages sold to ERF5.

The impact of exposure to sustained adverse interest rates is regularly monitored.

Sensitivity to changes in interest rates is given in section (f) below.

(iii) Derivative risk

Derivatives are used to a limited extent, within policy guidelines agreed by the Board of Directors and overseen by Group Financial Risk which monitors implementation of the policy, exposure levels and supports large or complex transactions. Derivatives are used for risk hedging purposes or to structure specific lifetime mortgage products.

Speculative activity is prohibited. Over the counter derivative contracts are entered into only with approved counterparties, in accordance with IWR policies, thereby reducing the risk of credit loss. The Company's senior management and UK Life apply strict requirements to the administration and valuation processes it uses, and has a control framework in place.

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

(iv) Correlation risk

Early voluntary redemptions and HPI are sensitive to, and interdependent with, interest rates.

(c) Credit risk

Credit risk is the risk of adverse financial impact resulting from fluctuations in credit quality of third parties including default, rating transition and credit spread movements. The Company's management of credit risk under the oversight of ALCO, includes the articulation of risk appetite, exposure limit frameworks and investment and lending criteria within credit risk policies and management agreements.

The approach to managing credit risk recognises that there is a risk of adverse financial impact resulting from fluctuations in credit quality of third parties including default, rating transition and credit spread movements. Credit risk categories include spread risk, default risk and rating migration risk:

- Spread risk arises from changes in level of volatility of third party credit spreads over risk-free interest rates, that can be caused by credit concerns (improving or worsening) on the issuer, or from market factors, such as risk appetite and liquidity within the market;
- Default risk is the risk that a counterparty is unable or unwilling to meet its financial obligations when they fall due, and includes delays in repayments, restructuring or repayments/interest schedule and bankruptcy;
- Rating migration risk is the risk that a change in external credit rating of counterparty adversely impacts Aviva.

The following table provides information regarding the credit risk exposure of the Company at 31 December.

	2025	2024
	Not Rated	Not Rated
	£m	£m
Debt securities	**27.1**	30.9
Derivatives	**14.1**	16.0
Loans	**501.2**	493.1
Total	**542.4**	540.0

The carrying amount of assets included on the statement of financial position represents the maximum credit exposure of the company as at the statement of financial position date.

Concentrations of credit risk

The Company is generally not exposed to significant concentrations of credit risk due to internal credit risk management practices and limits, such as monitoring and limiting of exposures by region. Exposure is spread across a large number of loans, and individual loans represent little credit risk as the debt is ultimately repayable from the proceeds of the sale of the property on death of the mortgagee or on their transfer to long-term care.

The impact of collateral held on the net credit exposure is shown below.

			2025
	Carrying value in the statement of financial position	**Collateral held**	**Net credit exposure**
	£m	**£m**	**£m**
Debt securities	**27.1**	**—**	**27.1**
Derivatives	**14.1**	**—**	**14.1**
Loans	**501.2**	**453.7**	**47.5**
Total	**542.4**	**453.7**	**88.7**

			2024
	Carrying value in the statement of financial position	Collateral held	Net credit exposure
	£m	£m	£m
Debt securities	30.9	—	30.9
Derivatives	16.0	—	16.0
Loans	493.1	459.4	33.7
Total	540.0	459.4	80.6

Additional information in respect to collateral is provided in note 10(b).

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

To the extent that collateral held is greater than the amount receivable that it is securing, the table above shows only an amount equal to the latter. In the event of default, any over-collateralised security would be returned to the relevant counterparty.

Derivative credit exposures

The Company is exposed to counterparty credit risk through derivative trades. The Company operates strict standards around collateral management and controls including the requirement that all “over the counter” derivatives are supported by credit support annexes and ISDAs.

Calculation of expected credit losses

Expected credit losses on material trade receivables and other assets held at amortised cost are calculated with reference to the Company's historical experience of losses, along with an analysis of payment terms. The Company does not hold any financial assets which are deemed to be credit-impaired at the reporting date.

The Company makes use of the simplified approach when calculating expected credit losses on trade receivables which don't include a significant financing component, and therefore calculates expected credit losses over the lifetime of the instrument in question. As at the reporting date, no lifetime expected credit losses have been recognised in relation to trade receivables.

The Company has not purchased or originated any credit-impaired financial assets as at the reporting date.

(d) Life insurance risk

Life insurance risk includes longevity risk, to which the Company is exposed. Improvements in longevity, relating to both mortality and morbidity rates, result in the loans remaining in force for a longer period, increasing the likelihood that the mortgage loans will exceed the proceeds of the property sale at the date of redemption. The Company retains the longevity risk on all loans recognised on balance sheet, including those that have been partially derecognised.

Longevity risk is carefully assessed against the latest available internal and external industry data and emerging trends. Exposure is monitored through the modelling of asset values, the ALM framework, profit reporting under IFRS, stress and scenario analysis and the Solvency II internal model process.

To mitigate the risk, the loan to value ratios at origination of the loans are capped at levels to reflect the desired risk appetite.

(e) Liquidity risk

UK IWR ALCO seeks to determine that the Company has sufficient financial resources to meet its obligations as they fall due. The following table provides an analysis of financial liabilities based on the remaining period at the statement of financial position date to their contractual maturities:

				2025
	Within 1 year	**1-5 years**	**Over 5 years**	**No contractual maturity**
	£m	**£m**	**£m**	**£m**
Liabilities				
Borrowings	**—**	**—**	**—**	**123.1**
Payables and other financial liabilities	**37.8**	**—**	**2.4**	**283.9**

				2024
	Within 1 year	1-5 years	Over 5 years	No contractual maturity
	£m	£m	£m	£m
Liabilities				
Borrowings	—	—	—	133.3
Payables and other financial liabilities	18.0	—	1.4	282.5

The borrowings and payables and other financial liabilities figures include £407.0 million *(2024: £415.8 million)* which has no contractual maturity, as it is only payable on receipt of mortgage redemption proceeds, which is how the company manages liquidity. It is estimated that £42.9 million of this will be payable within one year *(2024: £39.1 million)*.

The undiscounted value of borrowings without a contractual maturity is £181.4 million *(2024: £202.5 million)*. The undiscounted value of the payables and other financial liabilities without a contractual maturity is £532.5 million *(2024: £550.3 million)*. Further information on borrowings is included in note 17.

Contractual commitments for mortgage advances were £1,047.4 million (2024*: £1,110.6 million).* Further information on contractual commitments is provided in note 20.

(f) Risk and capital management

UK IWR uses a number of sensitivity test-based risk management tools to understand the volatility of earnings, the volatility of its capital requirements, and to manage its capital more efficiently. Sensitivities to economic and operating experience are regularly produced on all of the Company’s financial performance measurements to inform the Company’s decision making and planning processes, and as part of the framework for identifying and quantifying the risks to which the Company is exposed.

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

(i) Results of sensitivity analysis

The results of sensitivity testing are set out below. For each sensitivity test only the impact of the discount rate change is shown, with other assumptions left unchanged. This discount rate change can be a combination of changes in the swap rate and changes in credit spreads.

	2025	2024
	£m	£m
Impact on profit before tax and pre-tax equity:		
Discount rates + 1%	**(5.5)**	(8.1)
Discount rates - 1%	**5.6**	7.5

Sensitivities are outlined in note 9.

The calculation of the fair value of equity release mortgages and related liabilities depends on the level of swap rates and allowances for property and liquidity risk.

(ii) Limitations of sensitivity analysis

The table above shows discount rate sensitivity - which includes swap rate changes, but also changes in the credit spreads (per the narrative). In reality, such an occurrence is remote due to correlations between the assumptions and other factors. Swap rates are a key driver of profitability, however, should they change this would impact other factors such as voluntary repayments, due to their correlation with swap rates. It should also be noted that these sensitivities are non-linear, and larger or smaller impacts should not be interpolated or extrapolated from these results.

Other limitations in the above sensitivity analyses include the use of hypothetical market movements to demonstrate potential risk that only represent the Company's senior management's view of possible near-term changes that cannot be predicted with any certainty; and the assumption that all interest rates move in an identical fashion.

(g) Operational risk

Increased geo-political tensions have heightened the risk of cyber security attacks on the Aviva Group or its suppliers, with the potential to cause business service interruption and/or data or intellectual property theft. In response the Aviva Group continues to actively monitor the threat environment and enhance its IT infrastructure and Cyber controls to identify, detect and prevent attacks. Aviva's Cyber defences are regularly tested using our own 'ethical hacking' team and the Aviva Group has engaged with suppliers to put in place all reasonable measures so that services to Aviva and its customers are protected.

The Aviva Group actively monitors social and other media in order to manage misinformation about our business, products, colleagues and customers should we be targeted by a hostile actor in the context of the situation in Ukraine or elsewhere, taking active media action if necessary.

24. Derivative financial instruments and hedging

The Company uses derivatives to mitigate risk, as detailed below:

	2025			2024		
	Contract/ notional amount	**Fair value asset**	**Fair value liability**	Contract/ notional amount	Fair value asset	Fair value liability
	£m	**£m**	**£m**	£m	£m	£m
Interest rate contracts						
Interest swaps	**153.0**	**13.3**	**(2.4)**	154.8	15.0	(1.4)
Options	**148.6**	**0.8**	**—**	151.7	1.0	—
Total as at 31 December	**301.6**	**14.1**	**(2.4)**	306.5	16.0	(1.4)

The notional amounts above reflect the aggregate of individual derivative positions on a gross basis and so give an indication of the overall scale of the derivative transaction. They do not reflect the current market values of the open positions.

Interest swaps

During 2005 the Company entered into a derivative to transfer the interest rate risk through variability in the redemption profile of lifetime mortgages sold to ERF5. The notional amount outstanding at 31 December 2025 was £82.0 million *(2024: £83.8 million).* The swap has an expiry date of April 2037. Under the terms of the swap the Company pays Compounded Daily SONIA plus 0.1193% Spread and receives 5% of the difference between the notional amount and the expected notional amount.

On 31 January 2003 and 30 January 2007 the Company entered into two interest rate swap agreements to protect the Company from interest rate risk arising from the sale of lifetime mortgages to other credit institutions. During 2019 the Company novated the interest rate swap liabilities, (facing a banking counterparty) to Aviva UK Life & Pensions Limited. In return for assuming the swap liabilities, the Company paid Aviva UK Life & Pensions Limited a cash amount equal to the fair value of the liability at transfer date. Five of the money interest rate swaps were transacted between the Company and Aviva UK Life & Pensions Limited resulting in the Company's interest rate exposure remaining materially unchanged. The swaps expire in September 2029, September 2034, September 2039 and September 2044.

The contractual undiscounted cash flows in respect of the interest rate swap agreements have the following maturities:

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

	2025 £m	2024 £m
Within 1 year	**(1.0)**	(0.5)
Between 1 and 5 years	**(1.6)**	(1.6)
After 5 years	**0.2**	0.7
	(2.4)	(1.4)

Options

The interest swap exposes the Company to movements in interest rates through changes in the redemption profiles of the lifetime mortgages in ERF5. The swap hedges the exposure from receiving any early repayment charges on the lifetime mortgages in ERF5, and is combined with an option and a cap. The notional amounts at 31 December 2025 were £82.0 million *(2024: £83.8 million)* and £66.6 million *(2024: £67.8 million),* with termination dates of April 2032 and April 2033 respectively.

Derivative assets are recognised as derivative financial instruments in note 9. Derivative liabilities are recognised as derivative financial instruments in note 18.

25. Financial assets and liabilities subject to offsetting, enforceable master netting arrangements and similar agreements

(a) Offsetting financial assets and liabilities and related net exposures

Financial assets and liabilities are offset in the statement of financial position when the Company has a currently enforceable legal right to offset and has the intention to settle the asset and liability on a net basis, or to realise the asset and settle the liability simultaneously.

The Company mitigates credit risk in derivative contracts by entering into collateral agreements, where practical, and in International Swaps and Derivatives Association (ISDA) master netting agreements to facilitate the Company's right to offset credit risk exposure. The credit support agreement will normally dictate the threshold over which collateral needs to be pledged by the Company or its counterparty.

Derivative transactions requiring the Company or its counterparty to post collateral are typically the result of over-the-counter derivative trades, comprised mostly of interest rate swaps, currency swaps and credit swaps. These transactions are conducted under terms that are usual and customary to standard long-term borrowing, derivative, securities lending and securities borrowing activities. The early repayment charges as disclosed in note 13 are pledged as collateral.

Further information in relation to lifetime mortgage collateral is set out in note 23(c).

	Gross amounts £m	Net amounts presented in the statement of financial position £m	2025 Net amount £m

26. Related party transactions

The members of the Board of Directors are listed on page 3 of these financial statements.

Under a management agreement UKLS supplies and makes charges for the provision of operational assets and staff to the Company. The agreement specifies the amounts payable to UKLS in respect of acquisition costs and administrative expenses. The amount of this recharge is £47.2m million *(2024: £46.0 million).*

(a) Income receivable from related parties

	2025 income earned in year	2024 income earned in year
	£m	£m
Parent	**41.6**	46.2
Fellow subsidiaries	**10.3**	9.7
Subsidiaries	**32.4**	32.0
	84.3	87.9

Majority of new business lending was funded by UKLAP. The transaction is at arm's length and the Company receives a fee on the sale of lifetime mortgages to UKLAP, included in the above.

Income from related parties includes deferred consideration income, fair value gain on UKLAP money swaps, interest on subordinated loans and fees received for the administration of mortgages sold to related parties.

(b) Expenses payable to related parties

	2025 Expenses incurred in year	2024 Expenses incurred in year
	£m	£m
Parent	**10.4**	10.8
Fellow subsidiaries	**47.2**	46.0
Subsidiaries	**—**	4.5
	57.6	61.3

(c) Receivable at year end

	2025	2024
	£m	£m
Parent	**10.6**	8.7
Fellow subsidiaries	**17.5**	19.9
Subsidiaries	**78.5**	68.7
	106.6	97.3

The related parties' receivables are not secured and no guarantees were received in respect thereof.

The parent balance includes the amount due from parent company and loan to parent. The fair value of the UKLAP money swaps is £13.3 million (note 24) *(2024: £15.0 million*).

The subsidiary balance includes the M notes in ERF1, early repayment charge assets due from ERF5, and subordinated debt in ERF5. The M notes are due for repayment in 2031, and the early repayment charges and subordinated debt have no contractual maturity dates.

(d) Payable at year end

Related party payables are disclosed in notes 18.

The related parties' payables are not secured and no guarantees were issued in respect thereof.

Docusign Envelope ID: 67E96641-F04B-8568-8211-E51431460B03

(e) Key management compensation

The total compensation to those employees classified as key management, being those having authority and responsibility for planning, directing and controlling the activities of the Company, including the directors, is as follows:

	2025	2024
	£'000	£'000
Short-term employee benefits	**5,844**	5,934
Other long-term benefits	**376**	367
	6,220	6,301

There are no amounts receivable from, or payments due to, key management.

As a result of a process refinement, the amounts presented for 2025 exclude short-term employee benefits for directors where their time spent on duties of the Company is incidental to their broader role across the Group. Details of directors' remuneration are given in note 5

a. Parent entity

The immediate parent undertaking is Aviva Life and Pensions UK Limited, a company registered in England.

b. Ultimate controlling entity

The ultimate controlling entity, and parent of the largest and smallest groups which consolidate the results of the Company, is Aviva plc. Its Group Financial Statements are available on application to the Group Company Secretary, Aviva plc, 80 Fenchurch Street, London, EC3M 4AE, and on the Aviva plc website at www.aviva.com.
