Q&A

Appendix – Basis of Preparation of UK Life Expenses / AuA

The peer group is composed of the UK Life businesses of L&G, Standard Life, Prudential and AEGON. All figures have been taken from 2013 annual report and accounts unless otherwise stated.

1. The peer group does not include LBG (Scottish Widows),
2. Operating expenses for all companies exclude debt costs and identifiable project/development and non-recurring costs, whilst include corporate centre costs allocated on a pro rata basis according to segmental operating profit contribution. These adjustments are necessary to provide a like-for-like benchmark
3. Aviva's AuA has been sourced from its July 2014 capital markets day presentation
4. Friends Life figures exclude OLAB as it is an international business, and therefore align to the originally reported 2013 results, rather than those restated for the transfer of OLAB into the Heritage division
5. Standard Life operating expense includes the sum of UK acquisition and maintenance expenses. AuA excludes UK institutional pensions and unallocated assets not backing products
6. Prudential operating expense includes the sum of UK acquisition costs, UK admin expenses and UK DAC adjustment, plus Group salary expense (inc. social security) allocated pro rata, plus Group auditors' remuneration allocated pro rata on a segmental operating profit basis
7. L&G UK Life expenses and AuA are calculated as the sum of LGAS and LGR segments. Operating expense therefore excludes LGIM and LGC operating costs which are directly sourced from the reported accounts, and includes the sum of Group acquisition costs allocated pro rata on a segmental operating profit basis (for LGAS, LGR and LGA only), plus salary expense (inc. social security) allocated pro rata, plus lease rentals allocated pro rata, plus auditors' remuneration allocated pro rata on a segmental operating profit basis. AuA includes LGAS AuA plus £34m managed by LGIM on behalf of LGR
8. AEGON's UK AuA includes the total of the figures shown in its September 2014 analyst presentation
9. The combination of Aviva and Friends Life is shown with the benefit of the disclosed run-rate synergies. The synergies relate to the UK Life operations plus pro-forma PLC overhead synergies allocated based on operating profit (pre synergies). For the purposes of Rule 28 of the Takeover Code, quantified financial benefits statements contained in this presentation are the responsibility of Aviva and the Aviva Directors. Investors should refer to the full Quantified Financial Benefits Statement in the Rule 2.7 announcement for the bases of belief, principal assumptions and sources of information used in order to prepare the statement
