

Schedule of voting on company resolutions

The voting records available within this document represent decisions made by Aviva Investors (Aviva Investors Global Services Limited in the UK) on behalf of clients. There are occasions where our clients may wish to adopt a different voting stance in relation to their assets, which we are of course happy to accommodate. To search for a specific company, hold down the Ctrl and F keys on your keyboard, type in all or some of the Company name required and then click "Find Next". Note that meeting dates are updated 3 months in arrears (i.e a meeting held on 1 August 2012 will be displayed on this page on 1 November 2012) in descending date order.

	Resolution 2. Approve Capital Raising	For	
	Resolution 3. Authorize Increase in Capital up to 50 Percent via Issuance of Equity or Equity-Linked Securities without Preemptive Rights	For (Exceptional)	Under normal circumstances, we would have voted against this authority as it would enable the Board to issue the equivalent of 50% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, the Company has provided a clear justification and has also given a soft commitment that current shareholders will not be diluted unwillingly; this means that Hispania will make its best efforts to allocate the new shares, at least, proportionally to the stake held by each investor. Overall, the delegated capital increases is intended to be used only for the execution of the compelling "imminent" transactions; this means, additional capital will be raised if Hispania needs funds to materialize any of these transactions. Hispania's objective is deploying funds in compelling investment opportunities and this is appropriately aligned with the investment manager interests mainly due to the performance fee agreed within the Investment Manager Agreement.

			lack of independence may run the risk of actually increasing management dominance of the board, as Amada faces no legal requirement to appoint outside directors, even if an outside director nominee is voted down. Therefore shareholders are between a rock and a hard place. In order to secure an outsider, even if not independent, we are supporting his election.

	Resolution 8. Approve Continuation of Company as Investment Trust	For (Exceptional)	Under normal circumstances we would have voted against this resolution as the Company's shares are trading at more than a 10% discount to NAV (approximately 12.3% as at 02/12/2014) and the Company has underperformed its benchmark for the year under review. However, The Company reports that it is now 18 months since Henderson Global Investors took over as managers following investor concerns related to poor performance. In this period, the Board has been refreshed, new auditors appointed and in February 2014 an amended investment policy was approved by shareholders. The Company believes that it is now approximately half-way through the restructuring process which it estimates will take another 18 months to complete. Whilst the Company's performance still leaves room for improvement, the Board acknowledges that the Company remains in a period of transition following the appointment of Henderson to manage the Company's portfolio. The Board has also carried out a detailed review of the possible impact of the level of liquidity on the Company's underlying holdings were it to be discontinued. Given the uncertainties and difficulties in undertaking such a realisation exercise and the Directors' belief that the Company will achieve a sustainable performance over the longer term that meets shareholder expectations, the Directors are of the unanimous view that the Company should continue. Given the strong justification provided, we are giving the Company the benefit of the doubt and supporting this continuation vote.

Schedule of voting on company resolutions

			In accordance with the Company's articles of association, a further continuation vote will be put forward at the AGM to be held in respect of the financial year ending 30 September 2017 and at every third AGM thereafter.

	Resolution 5. Re-elect John Watson as Director	For (Exceptional)	As explained by the Company in 2012, John Watson (CEO) became Chairman upon the retirement of Howard Dawe and the appointment of two new Executive Directors at that time. The Board felt it was important that there was a degree of experience and continuity in Board membership in the early years following their appointments. As such, John Watson became Chairman for a period of three years. We abstained on his re-election the last couple of years as whilst we welcomed the explanations and commitments provided, we felt that 3 years was too long. We would have been comfortable with a handover after one year. However, given this should be his final year as chairman, we are exceptionally supporting his re-election at this AGM. Should there not be a change of chair in 2015/16, we will need to review our position.

In assessing independence of directors we acknowledge the AIC's code does not recommend that long serving directors should be prevented from being considered independent, but we believe that lengthy service can compromise the independence of the director. However, following the retirement of a long serving director at the 2013 AGM with the addition of an independent director during the year, the overall board independence has improved. We welcome these board changes but expect to see further ones in 2015, otherwise we will return to voting against the non-independent directors.</p>

Mitigating this, these are promotions but 27% rise for the new CEO (Matt Armitage) from 2013 to 2014 and a future 14% to come for 2014 to 2015 appears steep. They have reduced the maximum bonus opportunity from 125% of salary to 100% of salary with effect from the 2014 financial year. There has been a restatement of targets under the annual bonus to allow for the impact of revised accounting standards which resulted in maximum bonus payouts. Pension at 15% contribution appears reasonable. • The company uses absolute EPS targets for the annual bonus scheme and for 50% of the LTIP awards. Our concern is that the company may meet the EPS targets without</p>

Re-elect Nick Bannerman as Director	For (Exceptional)	Under normal circumstances, we would not have supported the re-election of this director as he is one of three long serving directors on the Board. Whilst we acknowledge the AIC's code does not recommend that long serving directors should be prevented from being considered independent, we believe that lengthy service can compromise the independence of the directors and also believe that typical investments trusts should ideally comprise solely of independent directors (we will accept one exception). However, we did not vote against as we recognise and welcome the appointment of an independent director in July 2014 and that the longest serving director (who is also the chairman) is stepping down at the AGM. As such, we consider that the Company is making adequate steps to ensure the Board is being refreshed to ensure new perspectives are being introduced.

Reappoint PricewaterhouseCoopers LLP as Auditors	For (Exceptional)	PwC and its predecessor firms have been the auditors of the company (or rather the previous holding company of the Group, now a subsidiary of the Company) since before the Company first listed on the London Stock Exchange in 1961. Mandatory auditor rotation (or at least a Tender for audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, the Audit Committee's intention to tender the external audit during 2015/2016 remains the same as last year. In view of this, and as PwC has continued to perform satisfactorily, the Audit Committee did not consider it necessary to conduct a tender process for the appointment of the Company's auditors this year. We are comfortable with this explanation and will review with interest the outcome of the Tender. We also welcome the fact that as the company expected, non-audit fees had come down significantly.

Amlin plc EGM 24/11/2014 UNITED KINGDOM	Resolution 1. Approve Remuneration Policy	For (Exceptional)	<p>Shareholder approval is sought for the reworked remuneration framework following an internal reorganisation. No major concerns have been identified in the proposed remuneration policy but we should monitor the implementation of the policy.. The reason for this is that the performance targets under the proposed PSP at the meeting should be sufficiently robust, given the reworked framework has removed the link to relative TSR. The Company will no longer implement the Profit Commission Scheme going forward, and has confirmed that the current Chief Underwriting Officer will no longer participate in the Plan, instead participating in the Annual Bonus Plan. The maximum opportunity for Underwriting Directors under the Annual Bonus Plan is 400% of salary, which is higher than for other Directors but represents a reduction in the overall quantum when compared with the 600% of salary available under the Profit Commission Scheme. The Committee intends to replace the current LTIP and PSP with a new PSP. The overall quantum of long-term incentive awards will not change. The Company has confirmed that it no longer intends to grant any awards under the</p>

			Capital Builder Plan. On balance the overall arrangements are simpler and there is no increase in quantum (in fact, less for underwriting directors). The only concern is that there is no TSR in the arrangements and there is a slight concern that RONTA (see below) in the PSP is not sufficiently challenging. We note that the DB contribution maximum is 50% of salary but this is historical and DC contribution is 26% of base salary. Other than a blip at the AGM where we voted against the remuneration arrangements and abstained on policy, we have supported Amlin's previous arrangements. We hope this reworking of policy and the new PSP will work in shareholders favour. We are giving the company the benefit of the doubt and support the resolutions but will monitor going forward.
	Resolution 2. Approve Performance Share Plan	For (Exceptional)	Vesting will be dependent on performance against financial measures over five years. Vesting of awards to be granted in 2015 will be dependent on the Groups' average annual post-tax return on consolidated net tangible assets (RONTA). Specific targets are as follows: • 20% of this part of the award will vest for RONTA of 10%, rising on a straight-line basis to 80% vesting for RONTA of 15%, rising on a straight-line basis to vest in full for RONTA of 20%. In addition the Committee is proposing a number of minor changes to the Plan in order to comply with best practice, including the introduction of malus and clawback provisions which will apply in the event of a material misstatement of the Company's audited financial results, material misconduct by a participant, or any act or omission by the participant that the Committee reasonably determines is caused or is reasonably expect to cause a material injury to the business interests or reputation of the Group. We will monitor how the PSP works over time but will support this resolution as this plan replaces other plans and makes the whole remuneration structure simpler and more accountable with clawback and malus.

			existing/non-participating shareholders will suffer dilution from the Share Issuance Programme (37.57% based on the enlarged share capital). However, the reasons for support are: (1) A compelling business case for the Share Issuance Programme has been provided by the company i.e. the company is currently in advanced discussions on investment opportunities amounting to approximately £50 million in value. As a result of this, it is expected that a substantial portion of the Company's Acquisition Facility will be utilised in the near term. In addition to this, TRIG is evaluating a range of opportunities in both onshore wind and solar PV with an estimated value of over £200 million (2) the shares will be issued at a premium to NAV and also as the costs and expenses of any issue of C shares will be paid out of the pool of assets attributable to the C shares, it will not dilute the NAV of the ordinary shares. (3) It will enable the Company to raise additional capital quickly, in order to take advantage of other discrete pipeline investment opportunities and will avoid the costs associated with having to obtain repeated smaller authorities. (4) The shares have performed steadily in the market and have traded at a premium to NAV for over 6 months

			<p>firstly, they have not served materially longer than our preferred term. Secondly, the AR&As state that the Audit Committee is satisfied with the external auditor's performance and independence and therefore does not believe a tender in the near term is appropriate. Consistent with the guidance on transitional arrangements published by the UK Financial Reporting Council, the Committee's current intention is to conduct an audit firm tender for either FY2018 or FY2019. Ideally, this piece of work should take place sooner (i. 2016/2017) but we are mindful that the Company will be demerging its non-core business in 2015 so on balance it is better to wait until this very large demerger of businesses has been completed.</p>

	Resolution 5. Establish Public Policy Board Committee	For (Exceptional)	A vote for this proposal is warranted because: Cisco does not appear to have a board committee with specific responsibility for oversight of public policy issues; The creation of a public policy board committee, as requested, could assist the board in its oversight of a number of public issues that may affect operations, performance, reputation, and shareholder value; and The establishment of such a board committee should not be unduly burdensome and should enhance and complement the company's existing policies and commitments.

	Resolution 7. Authorize Issuance of Equity or Equity-Linked Securities with Preemptive Rights	For (Exceptional)	<p>Under normal circumstances we would have voted against this authority for two reasons. Firstly, the resolution says that the Company can issue shares up to the maximum aggregate permitted in the Company's Memorandum, which implies this is up to 1bn shares. This is over 10x the current issued share capital and there is absolutely no need or reason given to issue this amount of shares/raise capital at this level. Secondly, the wording says that the authority is valid for 5 years, exacerbating our concerns over the aforementioned. However, as one of the Company's largest shareholders, we engaged with the company regarding these concerns which has provided a number of assurances allowing us to support the resolution. Firstly, the Company has no intention to utilise this authority, rather the wording was only used to mirror the text in the M&As. It will convene an EGM if something changes i.e where the company does consider it necessary to issue large amounts of shares. Secondly the company will be reviewing the text of the resolution for next year. We are confident that next year's authority will only be valid for 12 months (and we note that the Company currently puts this authority to shareholders on an annual</p>

The Report states that the Committee has carefully considered the tenure of PwC as the Company's external auditor and has taken into account guidance on the audit tendering process issued by various sources, including the Institutional Investor Committee, and after careful consideration the Committee has concluded that it would not be advisable to put the auditor appointment out to competitive tender at this stage. Reference is made to not putting the external audit contract out to tender for more than ten years as it was the view of the Audit Committee and the Board that it would not be advisable to re-tender the audit contract in a year in which a new Chairman of the Company and a new Chairman-elect of the Audit Committee were recruited. We will accept this reason but will expect more clarity about tendering at next year's AGM.

We consider that in the interests of good governance, the chairman should generally be independent, and in particular not be a controlling shareholder. However, we take comfort from the fact that there is a separate CEO (who is paid much more than the chairman), independent directors represent half of the board and that the chairman's interests should be well aligned with those of shareholders. Underlining this is the company's strong track performance record and there being no other governance issues that make us uncomfortable in supporting this arrangement. Elect Kwon Oh-Nam as Inside Director	For (Exceptional)	<p>The company is seeking shareholders' approval to elect just one inside director (President / CEO) of the company out of four nominees. We are supporting this nominee as they have the most relevant management experience to serve as CEO being former CEO of Grand Korea Leisure. However, with limited disclosure and rationale behind the nomination of each candidate, it is difficult for shareholders to differentiate the strength and impact each nominee would bring to the board. Furthermore, the company's significant equity stake is held by the government, which limits minority shareholders' influence over the</p>

	Resolution 6. Approve Recapitalization Plan for all Stock to Have One-vote per Share	For (Exceptional)	A vote for this proposal is warranted because shareholders would benefit from a one-share, one-vote capital structure in which voting interests are better aligned with economic interests. Furthermore, the Murdoch Family Trust holds approximately 40 percent of the voting power in the company through family trusts. Unaffiliated shareholders may benefit from a capital structure in which the voting power is dispersed in proportion to economic exposure, and less voting power is concentrated among executives who do not have commensurate economic exposure.

None of any annual bonus award is deferred which is not aligned with the long term interests of shareholders. We consider that in the interests of good governance, the chairman should generally be independent, and in particular not be a controlling shareholder. However, we supported his appointment in 2011 when other governance arrangements were strengthened to accommodate the fact he was not independent e.g. appointment of SID. As other governance arrangements appear acceptable (other than the fact they could appoint a woman, there are no women on this board) and there are no serious concerns elsewhere, we are supporting his nomination but we should keep this under watch.

	Resolution 17. Approve Remuneration Policy	For (Exceptional)	None of any annual bonus award is deferred and none of the LTIP award is subject to TSR, neither of which is aligned with the long term interests of shareholders. However, the mitigating factor is that all LTIP awards vest after an additional 2 year holding period beyond the end of the performance period, ensuring that a large part of the remuneration package is sufficiently long term and will effectively be reduced if the shares do not perform. We also note that bonus potential is (at 100% of salary) is lower than most of the company's peers and that the EPS targets that determine higher to maximum vesting under the LTIP are

			exceptionally challenging.

	Resolution 24. Approve Waiver on Tender-Bid Requirement	For (Exceptional)	<p>Under Resolution 23, the Company is seeking shareholder approval to repurchase up to 2.5% of the issued share capital. Under this Resolution, the Company is seeking to waive obligations for Executive Director Will Adderley to make an offer for the outstanding shares in the company under Rule 9 of the Takeover Code if his holding increases as a result of any repurchases. Will Adderley currently holds 30.65% of the issued share capital so if the buy-back authority is exercised in full (and the Executive Deputy Chairman does not participate) his interest in Company shares could increase up to 31.46% of the issued share capital. In addition, Mr Adderley, his parents, Jean and Bill Adderley, and Nadine Adderley, Stoneygate Trust, the Paddocks Trust and WA Capital Limited are considered to be acting in concert for the purposes of Rule 9 of the Takeover Code. The Concert Party holds and/or is deemed to be interested in shares representing 55.13% of the issued share capital of the Company as at 1 October 2014 and following the exercise of the buy back authority, this shareholding may increase to 56.23% of the issued share capital. As such, we would typically vote against such Rule 9 waivers due to concerns about creeping control (although the Adderley family already has control). However, we</p>

			<p>engaged with the Company last year on the matter. The company understands institutional shareholders' concerns, and in response took steps a while ago to remove Will Adderley from share based incentive schemes so as to eliminate an increase in his shareholding through that mechanism. Also, it explained that the Adderley 'concert party' as a whole had reduced its holding from the level immediately post-flotation. Also, significant increases in the concert Party's holding are not considered likely, given that any surplus cash returns to shareholders are made through a mechanism that treats all shareholders the same. Furthermore, we were reassured that the buy back authority is only sought as a mechanism for flexibility in how to service LTIP awards and the Board will only use it for this function and only if it believes the shares are undervalued. Notwithstanding this, it believes the purchase of shares from time to time to satisfy share based incentives may well be in the interests of long term shareholders and, as it is difficult to foresee share price performance, flexibility is desirable. We welcome the fact that the Company has considered this issue carefully and the safeguards certainly make us more comfortable. Because of this, and as the potential increase is minimal (given any share buybacks are being capped at 2.5% of the share capital), and given the concert party effectively already has control) we are comfortable in supporting the Waiver. However, we have made the Company aware that we are unlikely to support this on a continuing basis if the family holding goes up, even if only for the purposes of servicing the LTIP awards. So that the Company can continue having the flexibility to buy back shares but to ensure the concert party's holding remains the same, our suggestion is for the concert party to be encouraged to participate in any such buybacks.</p>

Avnet, Inc. AGM 06/11/2014 UNITED STATES	Resolution 1a. Elect Director William J. Amelio	For (Exceptional)	We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. Avnet is exposed to the risk of breaches of labour standards in its supply chain. We note that the company's code of conduct refers to child labour and forced labour in the context of suppliers but we would like to see a formal policy, covering ILO labour standards, as well as details of the management approach and performance in this area. We are deteriorating our vote this year to reflect our disappointment at the continued lack of disclosure on supply chain labour standards.

	Resolution 5. Adopt Multiple Performance Metrics Under Executive Incentive Plans	For (Exceptional)	A vote for this proposal is warranted. Approval of this proposal would send a strong message to the board to adopt an executive pay program that predominantly utilizes multiple performance metrics over a multi-year period, which would enhance the linkage between executive pay and performance. Further, the top NEOs' pay packages remain predominantly not linked to performance criteria, notwithstanding the inclusion of performance-vesting awards for FY2015.
	Resolution 6. Adopt Specific Performance Standards	For (Exceptional)	A vote for this proposal is warranted. Given the company's extended history of problematic compensation practices, and the lack of responsiveness to last year's failed say-on-pay vote, adoption of this proposal would enhance shareholders' ability to evaluate the rigor and the payout potential for the company's incentive programs before they are implemented.
	Resolution 7. Adopt Proxy Access Right	For (Exceptional)	A vote for this proposal is warranted as the proposed proxy access right would enhance shareholders' rights while providing necessary safeguards to the nomination process.

	Resolution 10. Approve Remuneration Policy	For (Exceptional)	Under normal circumstances we would have voted against the remuneration policy reflecting concerns over the uncapped nature of bonuses and the element of matching shares that can be awarded without being subject to performance conditions on voluntarily deferred bonuses/shares. However, the main mitigating factors are that

Schedule of voting on company resolutions

			uncapped bonuses are a relatively common feature of this sector (investment management) and that executive base salaries remain unchanged at a modest £100k. Thus, this ensures that there is strong alignment between pay and performance. Also, a significant part of bonuses are deferred in shares and/or are subject to the achievement of long term (TSR) performance (although as the starting number of shares subject to deferral and TSR performance could be very high, the value of shares vesting for median TSR performance at 25% of the total award is potentially too generous for this level of performance). We have engaged with the Company on these issues. The company believes that the share matching arrangement is appropriate given they want to encourage voluntary deferral and the length of time the shares are deferred for mitigates the absence of additional performance targets for the matching awards. However, the company is aware that we may not be able to support arrangements going forward if this issue hasn't been addressed to at least some extent.

	Resolution 18. Approve Waiver on Tender-Bid Requirement	For (Exceptional)	Under resolution 17, the Company is seeking shareholder approval to buy back up to 5% of the Company's issued share capital. The Chief

Schedule of voting on company resolutions

			<p>Executive currently holds 40.95% of the issued share capital (ISC) so if the buy-back authority is exercised in full (and the Chief Executive does not participate), his holding will increase to 43.10% of the ISC. Under the Takeover Code he will therefore be required to make a general offer for the shares he currently does not own. Approval is sought to waive this obligation. Previously we have voted against this proposal as this is our protection against creeping control i.e allowing the major shareholder to gain control of the Company without paying a premium to the other shareholders. However, we have exceptionally supported this year as we note that the CEO's shareholding continues to come down (this time last year it was 41.78% of the ISC, in 2012 it was 42.18%). Also, previously the share buyback authority has been equivalent to 10% of the ISC, but this year it is just 5% resulting in a lesser increase in the CEO's holding should he not participate in any share buybacks. We have also engaged with the company over this issue which has clarified that the CEO has habitually donated shares from his holding in Ashmore to charity and his shareholding in Ashmore has therefore steadily fallen since the time of Ashmore's initial public offering (IPO) in Oct 2006 when it was approx 44%. Prior to the IPO it was 58.7%. The Company also states that if this Waiver is not approved then this will be detriment to shareholders as it reduces the range of options to the Company, limiting its flexibility to manage its share capital and cash resources. The company has generally returned capital to shareholders by way of dividends but the full suite of repatriating capital to shareholders also includes the purchase of ordinary shares as the company did in 2009 and the use of a B share scheme. The Company has said that in all likelihood the CEO's holding will continue to reduce. We will review this situation again next year.</p>

However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. DISH Network is exposed to the risk of breaches of supply chain labour standards. We strongly encourage the company to address this issue in future reporting.

City of London Investment Trust PLC AGM 27/10/2014 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	<p>We note that there are no female directors on the board and would typically not support the R&As (and also consider withholding support on the nomination committee chairman) when large companies like this fail to address the issue of diversity in the boardroom, including gender. However, we note that the Company's aim is to have an appropriate level of diversity in the Boardroom and that the Nominations Committee considers diversity generally when making appointments to the Board, taking into account relevant skills, experience, knowledge and gender. Understandably, the Board's prime responsibility, is the strength of the Board and any new appointments must always be to select the best candidate. Given the Company is not currently looking to appoint any directors (as the board is relatively new with 6 years being the longest serving director), we are comfortable with this explanation for now (as change should not be made simply to tick boxes) but when the Board is refreshed we will be expecting gender diversity to be a key</p>

None of any annual bonus award is deferred which is not aligned with the long term and the company applies an internal dilution limit of 7.3% in 10 years for discretionary schemes. However, overall, the company's base pay is at bottom quartile against the FTSE250 and FTSE250 Pharmaceuticals & Biotechnology sector. Pension and multiples are within norms for a company this size although the LTIP award level for Ian Page the CEO is on the high side. The company rebased EPS targets for LTIP awards made in 2012/13 to take into account the disposal of the Company's Services Segment in August 2013. The rebasing followed a consultation exercise with major shareholders and the company says it engaged with c70% of its shareholder base and was considered reasonable. As arrangements are not currently egregious and within norms we are supporting the policy resolution

	Resolution 2. Reappoint KPMG LLP as Auditors	For (Exceptional)	<p>KPMG has been the sole auditor of the Group since 2003, having previously been one of the joint auditors (with PwC) since the creation of the dual-listed structure in 2001. Mandatory auditor rotation (or at least a Tender for audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, we exceptionally supported the reappointment of KPMG as firstly, they have not served materially longer than our preferred term. Secondly, the AR&As state that the Audit Committee is satisfied with the external auditor's performance and independence and therefore does not believe a tender in the near term is appropriate. Consistent with the guidance on transitional arrangements published by the UK</p>

			Financial Reporting Council, the Committee's current intention is to conduct an audit firm tender for either FY2018 or FY2019. Ideally, this piece of work should take place sooner (i. 2016/2017) but we are mindful that the Company will be demerging its non-core business in 2015 so on balance it is better to wait until this very large demerger of businesses has been completed.

Whilst there is sufficient independent representation on the Board, we note that he continues to sit on the remuneration committee which should consist entirely of independent directors. However, as his term in office has only just exceeded the recommended period (for which the company does not believe materially interferes with his ability to act in the best interests of the Group) and as there has been a fair amount of board and committee refreshment (with more to come upon the Demerger of the non-core businesses), we do not consider it necessary to withhold support on his re-election.

Re-elect Patrick Elliott as Director	For (Exceptional)	This Director is the non independent chairman (due to holding options) and there are no independent directors on the board at all (as the other non executive also has options). In addition, this director sits on the audit and remuneration committees which comprises of less than a majority of independent directors. However, this is a very small company with a market cap of only £4.1m. There are only three people on the board the CEO Anthony Kongats and non executives Patrick Elliott (chairman) and Bruce Grey. We sometimes make exceptions for small companies paying with options (as they are short of cash) while they are growing but would expect them to move towards better practice over time.

UNITED STATES			compelling slate of candidates will be also two current incumbents, which will help mitigate the risks of a lack of board continuity. In summary, current management have done a poor job particularly in respect of the sale of the Red Lobster business. Despite the support from 57 percent of outstanding shares for a special meeting to request shareholders be given a vote on such a transaction, the board announced and executed what amounted to a fire sale of the asset, “effectively giving it away.” Given the significant underperformance relative to its closest peers; the apparent continuity of that trend despite two separate strategic plans, the divestiture of Red Lobster, and the exit of the CEO; and the incumbent board’s willingness to ignore a clear mandate from a majority of shareholders, instead selling the company’s largest operating business for net proceeds representing a fraction of that business’ annual EBITDA, there is little doubt that significant board change is warranted.

Electra Private Equity PLC GBP EGM 06/10/2014 UNITED KINGDOM	Resolution 1. Elect Edward Bramson, a Shareholder Nominee to the Board	For (Exceptional)	Sherborne Investors GP LLC, a 19.9% shareholder in the Company, requisitioned a General Meeting to appoint Messrs Bramson (res 1) and Brindle (Res 2) as Directors and to remove Mr Cullinan from the Board (res 3). Sherborne is Edward Bramson's listed investment vehicle, which generally invests in one company at a time. Edward Bramson has a successful track record in operational activism and if the resolutions are approved he will lead a strategic review of Electra. Sherborne considers that the Company's investment performance has been in decline for a number of years with the Company's annualised NAV growth over 10 years to 2013 equating 11.7% compared to that of the FTSE 250 being 30.5%. It states that in the last five years, 67% of private equity funds of similar size dating from 2009 produced better returns than Electra and that the major reason for this underperformance appears to be that as successful investments, made by the Company 15 or more years ago, were disposed of, the investments that replaced them were substantially less attractive. Sherborne believes that, with certain changes in approach, the aggregate value of shareholdings in Electra could be increased by more than £1 billion with lower risks and less volatility than under the current strategy. This equates to a price per share in the region of £60, significantly above current levels. Consequently, it is proposing a strategic review and changes to the Company's Board aimed to bring a fresh perspective. With regard to the proposal to remove Mr Cullinan from the Board, the letter states that as the Chairman of the Management Engagement Committee he is deeply involved with the Investment Manager for a number of years. As such, Sherborne believes that given the scope of the strategic review it would be difficult

			for him to be dispassionate. We are supporting these requisitioned resolutions as we believe that Sherborne has made a convincing case that significant upside in Electra can be delivered by addressing the areas it has identified. Sherborne's strong track record in improving Company performance affirms this view.

	Resolution 2.4. Elect Director Yoshida, Naoki	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Don Quijote is exposed to risks associated with labour standards in the supply chain, climate change and the environment. We would expect this company to publish quantitative data on its environmental and climate change performance, as well as details of its management approach and performance in relation to supply chain labour standards. The Company publishes emissions data from 19 stores under a government-organised initiative, but this disclosure is not sufficient because the scope and timescale of the data is not clear. We would like

			to see environmental data covering all the Company's operations. We would also like to encourage the company to participate in the Carbon Disclosure Project. Under normal circumstances we would be withholding support, however, we would like to give the company more time to improve its disclosure. We look forward to reviewing enhanced reporting next year.

	Resolution 5. Re-elect Kevin Loosemore as Director	For (Exceptional)	Kevin Loosemore is a combined Chairman and CEO. Reference is made to the roles of the Chairman and CEO being combined. Following Nigel Clifford's departure from the Company on 14 April 2011 as Chief Executive, Kevin Loosemore, formerly Non-Executive Chairman, was appointed to the role of Executive Chairman. The Nomination Committee and the Board considered that the combined role is in the interests of shareholders in order to utilise the proven leadership qualities and significant experience of Kevin Loosemore through a challenging period for the Company and to ensure the ongoing commercial success of the Company. In order to mitigate any potential concerns over the combined role, David Maloney was also appointed as Deputy Chairman on 14 April 2011 and continues to perform his role as Senior Independent Director. On 15 April 2014 the Company announced that the Board plans to separate the roles of Chairman and Chief Executive over the coming 12 to 24 months. As a result of this commitment we are supporting his re-election.

			<p>support on director reappointment resolutions. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. Alimentation Couche-Tard is exposed to environmental risks associated with its influence on the environmental attributes of products sold and packaging used. Although we acknowledge that the company includes details of its carbon footprint in the 2014 Annual Report, there is no overall quantitative environmental performance data. The company has not responded to the Carbon Disclosure Project in the past few years. The company is also exposed to risks related to labour standards in its supply chain but there is no disclosure on the company's policy, management systems or performance in this area. We have previously given the company the benefit of the doubt, in the hope that it would improve its reporting. Unfortunately, these improvements have not been forthcoming and so we are deteriorating our vote to an abstain this year.</p>

	Resolution 3.3. Elect Shin Sung-Hwan as Member of Audit Committee	For (Exceptional)	The board is asking shareholder approval to appoint one member of the company's audit committee out of the four nominees. The following are the nominees on ballot: Kim Jong-Rae, Park Chan-Yong, Shin Sung-Hwan, Ha In-Bong. The company has provided limited information on the qualification and experience of the nominees. Based on the limited disclosed information, we have evaluated the qualification and experience of each director nominee and consider that support for Shin Sung-Hwan (Item 3.3) is warranted as he appears to bring financial expertise to the audit committee based on his previous experience as the vice research commissioner of the Korea Institute of Finance as well as his educational background of PhD in Business Administration from MIT.

Wereldhave N.V. EGM 23/09/2014 NETHERLANDS	Resolution 2. Elect Robert Bolier as CFO	For (Exceptional)	The proposed term of office for this director is four years, in line with the recommendations of the Dutch Code. However, we do not generally support proposed terms of office exceeding 3 years as we feel that anything longer reduces director accountability to shareholders. Also, in the UK and some other markets, certain companies are now putting their directors up for re-election on an annual basis. However, we are mindful that the proposed term is just one year over the generally recommended term so as large shareholders we have decided to vote in favour this year and rather engage with the Company on this matter.

Tungsten Corp. Plc AGM 22/09/2014 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Arnold Hoevenaars and Danny Truell are not independent (due to holding LTIP securities and in the case of Danny Truell, also being a relative of executive and having a professional relationship) and independent directors represent less than a third of the board (our minimum expectation for a company of this size) In addition, Arnold Hoevenaars sits on less than majority independent audit and remuneration committees and is not proposed for reelection. However, consideration should be taken in that this is the Company's first year to be trading as a public company. As it's a newly listed company we are accepting the arrangements for now. It is not unusual for newly listed companies to have directors owning shares or options. Also the board directors have had long histories in the City and are likely to be very wealthy. However, these should not continue to be awarded. The biggest change we are likely to ask for over time and as the company grows is for more independence.

Aveng Limited EGM 19/09/2014 SOUTH AFRICA	Resolution 1. Authorise Specific Issue of Shares upon Conversion of the Convertible Bonds	For (Exceptional)	This Director is not independent due to being a shareholder representative and independent directors represent 25% of the board (excluding the chairman) whilst we expect a majority for a company of this size.. However, we are mindful that prior to listing on the LSE this year, the company appointed 4 non-executive directors (including the chairman), 3 of whom are independent. This has resulted in a significant improvement to Board composition and as such, we do not consider it appropriate to oppose the shareholder representatives at this time, but need to see further improvement in the level of independent representation for this to remain the case going forward.

Poundland Group Plc AGM 19/09/2014 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	The Company discloses in the annual report that it will consider the diversity of the Board but it does not provide any information with regard to a formal policy on diversity. However, we are mindful that the Company was only incorporated in Jan 2014 (and admitted to trading on the LSE in March 2014) so we consider it appropriate to give the company another year to address this issue. In addition, we welcome the fact that following the appointment of Teresa Colaanni, the Board now comprises a female Director.
	Resolution 2. Approve Remuneration Report	For (Exceptional)	We note that that Total Shareholder Return (TSR) does not feature as a performance measure in the LTIP and we generally consider that TSR should be at least one of the measures that determines the vesting of LTIP awards as it is the clearest alignment with long term shareholder value. However, we are mindful that the EPS targets under the LTIP (ranging from 19% pa and 30% pa) are sufficiently stretching (even at the lower end of vesting) at that the Remuneration Committee retains discretion to enforce an additional 2 year holding period on PSP awards post vesting, so the alignment with shareholder value is definitely there. As such, and given remuneration policy is otherwise fine, we are comfortable in supporting policy.

	Resolution 9. Elect Paul Best as Director	For (Exceptional)	This Director is not independent due to being a shareholder representative and independent directors represent 25% of the board (excluding the chairman) whilst we expect a majority for a company of this size.. However, we are mindful that prior to listing on the LSE this year, the company appointed 4 non-executive directors (including the chairman), 3 of whom are independent. This has resulted in a significant improvement to Board composition and as such, we do not consider it appropriate to oppose the shareholder representatives at this time, but need to see further improvement in the level of independent representation for this to remain the case going forward.
	Resolution 10. Elect Stephen Coates as Director	For (Exceptional)	This Director is not independent due to being a shareholder representative and independent directors represent 25% of the board (excluding the chairman) whilst we expect a majority for a company of this size.. However, we are mindful that prior to listing on the LSE this year, the company appointed 4 non-executive directors (including the chairman), 3 of whom are independent. 	Resolution 3. Approve Remuneration Policy	For (Exceptional)	None of any annual bonus award is deferred and the shareholding requirement for Executive Directors is just 1x salary with two of the executive directors holding shares worth less than 1x salary. These features of policy are therefore not aligned with the long term interests of shareholders. However, we have made the company aware of these views during the recent consultation on its pay arrangements and will be following up on this matter. Other than this we are comfortable with the Company's pay policy.

He also sits on the audit and remuneration committees which should consist entirely of independent directors. However, given the recent change in chairman (the long serving Jack Cashman retired in Feb 2014 and was succeeded by Bruno Angelici) and as his term in office is not materially long enough to compromise his independence) we do not consider it to be appropriate for a change in SID at this time.

	Resolution 11. Authorise Issue of Equity with Pre-emptive Rights	For	
	Resolution 12. Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	This authority would enable the Board to issue the equivalent of 10% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for authorities without pre-emptive attached to be limited to no more than 5% of the share capital, unless a clear justification and strategic rationale is provided to shareholders. However, we are supportive on an exceptional basis. The Company states that the authority will allow the Directors to, for example, issue shares to allow partners to buy new shares as part of collaboration or licensing deals in a much more timely and cost effective manner than

Schedule of voting on company resolutions

			would be the case if they were required to offer such shares pre-emptively to all shareholders, and therefore incur the significant expense of producing a full Prospectus for such relatively small issues of shares. This was seen previously in the 2006 and 2007 Boehringer Ingelheim International GmbH subscriptions for ordinary shares at a 35% premium to the prevailing share price. More recently, the 10% authority was used in full during the year and as promised in 2013, we take comfort from the fact that the company consulted with us and a number of other shareholders prior to issuing the full allocation of shares (in March 2014). The Company has provided a similar assurance this year and confirmed that it wouldn't issue shares if shareholders expressed concerns with the reasons or terms of the capital raising or transaction. However, we have asked the company to provide such an assurance in the AGM meeting notices going forward to ensure all shareholders are aware of this. We have also asked the company to have another look at whether it needs to continue seeking 10% authorities given its market cap is over £500m and therefore a 5% authority should be enough to raise any immediately required funds. If the Company needs to issue shares equivalent to more than 5% of the existing share capital, it should really be putting together a circular and convening a special general meeting to approve such matters.

Mandatory auditor rotation (or at least a Tender for Audit services) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, we welcome the fact that in light of the requirements of the Code and other changes to the regulatory framework, the committee has commenced a tender for the external audit, which is expected to conclude in late 2014. The current intention is that the new engagement will commence in 2016.

The deferral period shall be for a minimum of 2 years and will be subject to clawback provisions.</p> <p>In all other respects, the rules of the LTIP will not be changed and will remain as adopted in September 2013.</p> <p>There are no significant concerns raised with this proposal as the proposed amendment will help align the long-term interests of the Executive Directors with shareholders and will also potentially increase retention. The introduction of a deferral element will also help mitigate concerns raised by the proposed increase to the maximum award levels of the CEO and the FD under the annual bonus scheme. There is no inner dilution limit (5%) for share scheme awards (the industry-wide guideline for share schemes) and the actual level of dilution is 8.75%. However the amendments to the LTIP is being introduced to facilitate the future payment of deferred bonuses in the form of nil-cost awards so we are supporting.</p>

	Resolution 12. Reappoint Ernst & Young LLP as Auditors	For (Exceptional)	Ernst & Young has served as the Company's auditors since 1997, 17 years ago. Mandatory auditor rotation (or at least a Tender for audit services) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, we note that the Board's current intention is to put the audit of the Group and subsidiary accounts out to tender, with a view to any change taking effect for the 2016/17 statutory accounts, at the end of the current audit partner's five-year term. It is, however, also aware and considering the implications of the transitional provisions in the EU regulation on audit matters, which would allow a further period of seven years before a change of audit firm was required. We will be encouraging the Company to ensure the Tender takes place regardless.

			for NEDs. Meetings also took place which were attended by NEDs, although the Non-Executive Chairman was not able to attend. These meetings enabled the NEDs to discuss matters which they perhaps could not discuss with the Executives and/or the Non-Executive Chairman present. However, being present at only 4 board meetings in a year is a concern in itself given the size of the Company. Furthermore he is an integral part of the business. It is for this reason that we are supporting his re-election and also his exceptional performance over a sustained period. However, this issue is part of the wider concerns we have over the governance of the company which needs to now start acting like a FTSE 100 company. We will be discussing this amongst other concerns with the company.

	Resolution 3. Re-elect Nigel Keen as Director	For (Exceptional)	As chairman, he is technically not independent (having served on the Board for 15 years) and the company has not provided sufficient explanation for not having an independent chairman. In addition, he sits on the remuneration committee which should consist entirely of independent directors. However, over the last couple of years the board composition has significantly improved with two new independent directors joining in 2013 and two long serving non-execs stepping down at the 2013 and 2014 AGMs. In addition, the report states that the Board is in the process of identifying a NED with a strong scientific background to join the Board. Given the steps made to refresh the Board, we do not see the chairman's tenure to be a material governance concern. In addition, we have also had positive dealings with him.

	Resolution 9. Reappoint KPMG LLP as Auditors	For (Exceptional)	The company has retained the same audit firm since it listed in 1983. Mandatory auditor rotation is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, as disclosed in the annual report, the current KPMG audit engagement partner, Simon Haydn-Jones, will rotate off the Oxford Instruments' audit account at the conclusion of the 2014 audit having completed his permitted tenure of five years. It was decided by the Committee that, mindful of the regulatory changes in Europe and the longevity of the KPMG audit tenure, it would be appropriate to put the external audit out to tender aligned to the partner rotation. Oxford Instruments has adopted the policy to tender the external audit at least every ten years, aligned with the audit engagement partner rotation and subject to the FRC's implementation in the UK of the European regulation on statutory audit. As such, KPMG, Deloitte and PricewaterhouseCoopers were approached in January 2014 and a six stage tender process was conducted. Following this process, the Committee recommended to the Board at a Committee meeting convened in April 2014 that KPMG LLP be re-appointed as the Group's external auditors, notwithstanding the longevity of its audit tenure. We welcome the Tender but have spoken to the Company to gain a better understanding as to why the same auditor was selected and given the continuation of the current audit firm, we would expect another Tender to occur much earlier than 10 years.
	Resolution 10. Authorise Board to Fix Remuneration of Auditors	For	
	Resolution 11. Approve Remuneration Policy	For (Exceptional)	None of any annual bonus award is deferred which is arguably not aligned with the long term interests of shareholders. However, as this is the only issue we have with pay policy (and as the company has effectively reduced pay potential significantly following its withdrawal of the one-off award proposals), this is an issue we will be keeping under review rather than something to reflect in negative vote action.

Pets At Home Group Plc AGM 09/09/2014 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	<p>Given the company is newly listed and remuneration practices are mostly in line with best practice recommendations, qualified support for both the remuneration related proposals is warranted for now. The main area of concern is that performance conditions (EPS under Co-investment Plan (CIP)) are not considered challenging. However, the Company noted that the consensus forecast EPS growth is misleading, due to the change in capital structure under which the FY14 accounts were published, versus the current FY15 capital structure. The Company further states that the FY14 EPS was significantly depressed by this differential due to the higher level of debt within the company and resultant interest charges. Therefore the Remuneration Committee intends to adjust the FY14 EPS to reflect a post IPO capital structure, which will change both the interest cost and the share count, and therefore increase the adjusted FY14 EPS. This will ensure the year on year growth that feeds into performance targets is on a like for like basis. Also, we are mindful that the CIP was a one-off arrangement</p>

Schedule of voting on company resolutions

			which also ensured investment by the Executive Directors and their continued employment with the Group for at least two years since Listing. In addition, while the PSP is intended to be the normal annual long-term plan going forward, the Company did not grant any awards during the year, as a result of the CIP awards that were granted instead, and does not intend to make any awards until 2016. On a separate issue, in the next R&As we would expect to see better retrospective disclosure of bonus targets for the bonuses awarded under the relevant financial year .
	Resolution 3. Approve Remuneration Policy	For (Exceptional)	Given the company is newly listed and remuneration policies and practices are mostly in line with best practice recommendations, qualified support for both the remuneration related proposals is warranted for now. A couple of areas of concern are around lack of a bonus deferral and clawback. The Executive Directors current shareholdings however adequately align their interests with those of shareholders.

Infinis Energy Plc AGM 07/08/2014 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Policy	For (Exceptional)	Under normal circumstances we would have voted against the remuneration policy as 66.7% of LTIP awards vests for the achievement of threshold (TSR) performance. This is far too high and can result in awards vesting equivalent to 100% of salary for this level (as awards are capped at 150% of salary). However, the Company has only recently listed and has acknowledged that in its current form the LTIP is not aligned with best practice, and intends to review the LTIP during the forthcoming year, during which period it will consult with shareholders. Given this commitment, we are comfortable in supporting the resolution at this AGM but will not be able to next year if the level of award vesting for threshold performance has not come down significantly (i.e should be no more than 30%).
	Resolution 3. Approve Remuneration Report	For (Exceptional)	Under normal circumstances we would have voted against the remuneration report as 66.7% of LTIP awards vests for the achievement of threshold (TSR) performance. This is far too high and can result in awards vesting equivalent to 100% of salary for this level (as awards granted during the year we at 150% of salary). 			consult with shareholders. Given this commitment, we are comfortable in supporting the resolution at this AGM but will not be able to next year if the level of award vesting for threshold performance has not come down significantly (i.e should be no more than 30%). In addition, we had concerns over the significant consultancy fees (£687k) paid to the chairman for the year under review and the lack of disclosure on such fees. However, we engaged with the company on this issue and it confirmed that Ian's pre-IPO consultancy fee was agreed by the selling shareholder (Terra Firma), not Infinis Energy plc, and related to pre-IPO work in preparing Infinis Energy plc for listing. The consultancy arrangement terminated at IPO. Also, the consultancy fee was effectively paid for by Terra Firma via a reduced dividend pre-IPO. The majority of the fee (approximately £500k) was performance-related and was, on an after tax basis, reinvested in Infinis Energy plc shares at IPO with a two year retention clause. As chairman of Infinis Energy plc, Ian now has no performance related pay, bonuses or consultancy arrangements. We are comfortable with this explanation.

	Resolution 12. Elect Ian Marchant as Director	For (Exceptional)	As chairman, he is technically not independent on appointment as he received £687,000 in consultancy fees prior to the IPO and the company did not provide a sufficient explanation on these fees or for not having an independent chairman. In addition, he sits on the remuneration committee. However, we engaged with the company on this issue, and as provided in more detail in resolution 3, it confirmed that Ian's pre-IPO consultancy fee was agreed by the selling shareholder (Terra Firma), not Infinis Energy plc, and related to pre-IPO work in preparing Infinis Energy plc for listing. As chairman of Infinis Energy plc, Ian now has no performance related pay, bonuses or consultancy arrangements. We are comfortable with this explanation and would conclude that there are no issues impacting his independence

We note that Shell first sold a large block of shares (the largest block trade in Australian history) in 2010 and have publically stated their intention to exit their remaining stake in the company. This created an ongoing uncertainty in the share market as to when there would be a large supply of Woodside shares coming to the market and therefore likely has had the effect of causing the share price to trade below the level at</p>

			which it would trade in the absence of that uncertainty. If the company were to undertake an open access buyback for the same amount of capital then the value of that buyback to some investors, namely domestic charities and superannuation funds, could be higher than it is to Shell (depending on their original purchase price) given the differences in how shareholders can realise value from franking credits. However the removal of the overhang, elimination of management distraction from dealing with it and the setting of future corporate strategy free from considerations of a large strategic shareholder has value to all shareholders. In addition, as non-Australian residents we cannot realise value from the franking credits.

	Resolution 2. Approve Final Dividend	For	
	Resolution 3. Approve Remuneration Report	For (Exceptional)	<p>Under normal circumstances we would have voted against the remuneration report as there is a lack of adequate disclosure of performance targets met for bonus awards made for the year, particularly the disclosure on the personal bonus targets for Ian McAulay and Colin Drummond for the year under review which comprised 65% and 55% of their respective bonuses. However, the disclosure on the annual bonus scheme has improved from the previous year, particularly on the financial targets, and the weighting on the personal objectives will reduce for FY2014/15. In addition, we are mindful that bonus potential (and indeed overall remuneration levels) are modest for the size of the company and in general bonuses paid</p>

			were nowhere near the maximum (of 100% of salary). In addition, we welcome the introduction of clawback and malus provisions to bonus awards granted in 2014/15 onwards.
	Resolution 4. Approve Remuneration Policy	For	
	Resolution 5. Re-elect Kenneth Harvey as Director	For (Exceptional)	This director is a non-independent, non-exec chairman due to tenure being more than 15 years, and independent directors do not represent a majority of the board. However, one of the long serving directors, Gerard Connell was due to retire from the Board at the 2014 AGM which would have resulted in the company having a 50% independent directors. But his departure has been postponed until the 2015 AGM as the Board believes it would be appropriate for him to be re-appointed for a further year due to the planned succession process. We are comfortable with this explanation and with board composition in general.
	Resolution 6. Re-elect Martin Angle as Director	For	
	Resolution 7. Re-elect Gerard Connell as Director	For (Exceptional)	This non-executive director is not independent due to tenure and sits on the audit and remuneration committees. We consider this inappropriate as the committees should consist entirely of independent directors. However, he was due to retire from the Board at the 2014 AGM, but his departure has been postponed. The Company has explained that the deferral of Gerard Connell's retirement relates to a replacement NED not being able to join the Board until after the AGM. The appointment of the NED in question was announced on 17 July 2014. The Board wishes to ensure a suitable handover period. Gerard Connell will retire at the 2015 AGM. We are comfortable with this explanation and with board composition in general.

			<p>provides some information in the remuneration report on the achievements for the year which led to the bonus payments, and the Remuneration Committee will look to disclose targets when they are considered to no longer be commercially sensitive. Indeed we (and other investors) are increasingly expecting a greater level of detail regarding the publication of specific targets. As highlighted last year, FD Andrew Findlay received a 15.9% salary increase. This is justified by the scope and responsibilities of his increased role and is not being raised as a voting issue. However, we note that his bonus is generally paid in cash only. Particularly given his increased salary and relatively low shareholding in the company we would expect him to buy further shares or at least have some of his bonus deferred in shares to align his interests better with shareholders. Lastly, we would have liked to have seen better share price targets in the co-investment plans particularly as absolute share prices may reward for uplift in the market rather than efforts in turning round the company. The targets have effectively been met. However, the mitigating factor here is that Matt Davies put a lot of money into the business and the share price was not likely to rise significantly if his plans do not deliver. Given this is more of a legacy issue, it is not considered appropriate to continue to withhold support on arrangements for this issue.</p>

However, there is a co-investment feature in the long term incentive plan whereby more award is available for the higher the amount of salary that is deferred into shares. Also, the executive all have large shareholdings in the company, so their interests are adequately aligned with shareholders.

	Resolution 17. Approve Remuneration Report	For (Exceptional)	<p>Base pay for the CEO and highest paid director is now £1,150,000 (+3.6%) which is positioned in the upper quartile for the index on a balanced comparison. Whilst we are mindful that salaries were frozen for 2012/13 and 2013/14 and upper quartile salaries are perhaps understandable given the company's size and business, the total package was previously too high for us to be able to support. However, we are supporting arrangements this year because the revised Global Long Term Incentive plan (subject to shareholder approval under Resolution 18) is much improved on the plan it will be replacing including the reduction of the maximum vesting level from three times to two and a half times the target vesting level (effectively reducing the CEO's potential award from 712.5% of salary to 594%). The Company has also introduced a mandatory holding period where 50% of the post-tax shares are released after vesting, a further 25% vest after the first anniversary of vesting, and the remaining 25% will be released after the second anniversary. Another improvement to pay arrangements is the reduction of pension contributions from 30% to 24% of salary (from Nov 2015). Nevertheless, we are mindful that the maximum opportunity for performance related remuneration (at just short of 800% of salary for the CEO) remains substantial and the structure of arrangements means that for a mediocre year/period, a significant amount of money/shares can still be paid out. As such, we will be engaging with the company on this issue to encourage at least a reduction in the amount that vests for median/threshold performance, particularly given the large disposal of the Company's US Group to Verizon (following which the Company will be significantly smaller).</p>
	Resolution 18. Approve Incentive Plan	For (Exceptional)	<p>We note that the maximum opportunity under this plan remains substantial at 594% for the CEO and the structure is relatively complex as it includes a co-investment element and a multiplier (there has been an increasing focus on simplified incentive schemes to provide clearer incentives for management). To receive the full target award, Executive Directors must co-invest up to their annual gross salary. The level of vesting for threshold performance equates to 118.75% of salary if a co-investment of 100% of base salary is made. The level of vesting for</p>

			threshold performance will equate to 68.75% of salary in the absence of any co-investment. However, we are supporting the new Plan as it is much improved on the plan it will be replacing. This includes the reduction of the maximum vesting level from three times to two and a half times the target vesting level (effectively reducing the CEO's potential award from 712.5% of salary to 594%). The Company has also introduced a mandatory holding period where 50% of the post-tax shares are released after vesting, a further 25% vest after the first anniversary of vesting, and the remaining 25% will be released after the second anniversary. We are mindful that the maximum opportunity for performance related remuneration remains substantial and the structure of arrangements means that for a mediocre year/period, a significant amount of money/shares can still be paid out. As such, we will be engaging with the company on this issue to encourage at least a reduction in the amount that vests for median/threshold performance, particularly given the large disposal of the Company's US Group to Verizon (following which the Company will be significantly smaller).
	Resolution 19. Appoint PricewaterhouseCoopers LLP as Auditors	For (Exceptional)	The non-audit consulting fees for the year were significant at £4m even when compared to the audit fees of £9m. The integrity of the auditor's relationship with the company is compromised when a firm is paid excessive consulting fees on top of those paid for auditing services. However, these fees were materially higher than in prior years (i.e 2013: £1m) as Deloitte acted as the Reporting Accountant in relation to a number of shareholder and regulatory filings in connection with the disposal of our interest in Verizon Wireless and the related acquisition of the remaining 23% interest in Vodafone Italy. We are indeed comfortable with this explanation for the increase non-audit fees.

	Resolution 2. Approve Remuneration Policy	For (Exceptional)	TSR not in LTIP at all. However, we were consulted and approved the arrangements. The company has further strengthened its EPS targets this year and these are considered challenging. Pay is not excessive. They have made further changes this year to their arrangements which, on balance, are positive. Over time however we may want TSR to be included as one element of performance once the three year improvement plan is completed this year.

	Resolution 9. Re-elect Philip Rogerson as Director	For (Exceptional)	Philip Rogerson is currently serving as the Executive Chairman of the Board. He is also a member of the Remuneration Committee, which should be wholly independent. However, the Board has stated that Philip Rogerson was appointed Executive Chairman on an interim basis until a new CEO is appointed. Last year we were concerned that Board Chairman Philip Rogerson was also Chairman of two other large UK-listed companies, Bunzl (FTSE 100) and Carillion (FTSE 250). Philip Rogerson has now stepped down from Carillion (May 2014) and he has only two directorships – interim executive chair at De la Rue and NED Chair at Bunzl. Once a CEO is appointed, he should have two NED chairmanships. On this basis we are supporting his re-appointment.

	Resolution 5. Re-elect Michael Turner as Director	For (Exceptional)	<p>This director is a non-independent (non-executive) chairman due to tenure and being a member of one of the founder families. However, we are comfortable with Board arrangements, namely the presence of 2 Fuller family members (one exec & one non exec) and Michael Turner now non-executive Chairman. This is better than previous arrangements as it could be argued that pre July 2013 Michael Turner was effectively the Chairman and CEO. We bought into this company in 2010 (we used to only hold this in index funds), knowing the governance issues that typically come with a family run business.</p>

Schedule of voting on company resolutions

			Indeed the family are the heart of this business so it would be inappropriate to start asking for massive changes. With this said, we have previously asked the Company to improve the level of independent directors on the board (particularly given the additional need for these checks and balances due to family's controlling position) which the Company did in 2011. Also, the Fuller grip loosened to some degree in 2010 when Anthony Fuller (NED) retired at the 2010 AGM after 47 years service. Hence although arrangements are not ideal (as there are still only three independent directors or rather 30% of the board is independent), they are better than before. The only problem is that this is quite a large board (10) including 5 executives as a result of the appointment of two executives to the board in 2012 which further dilutes the independent directors. The company thinks this works well for the company's size and basically they are two MD's (Fuller's Inns and Fuller's Beer Company) reporting in to Simon Emeny, CEO. Although the board confirmed that there are two trading boards so it is not absolutely essential for them to sit on the main board.

Macquarie Group Limited AGM 24/07/2014 AUSTRALIA	Resolution 2. Elect H Kevin McCann as Director	For (Exceptional)	Under normal circumstances we may have withheld support on the re-election of the Chairman as he is technically not independent having served on the board for 17 years, and he ideally should be independent in the interests of maintaining a balanced Board. However, we are comfortable as the large majority of the Board is independent and we also welcome the fact that long serving directors John Niland, Peter Kirby and Helen Nugent will retire from the Board at the end of the 2014 AGM and three new directors (Gary Banks, Patricia Cross and Nicola Evans) have been appointed. Indeed, due to these material changes of the Board, it is important that Mr McCann remains to manage the transition and to ensure some continuity.

Whilst the specific performance targets (TSR and EPS targets are disclosed but not operating profit margins) have not been included in the Annual Report for reasons of commercial sensitivity, the Committee intends to disclose them on release of the awards. For 2014/15, the Committee has awarded a salary increase of 6% to the Chief Financial Officer, whilst the salary of the Chief Executive will remain unchanged. There is a £200,000 per annum cash allowance for the CEO (base salary £498,000) and a 40% of salary cash allowance for the CFO. These are very generous pension allowances. On the other hand, base salaries are significantly below lower quartile against the FTSE 100 (they are at 68) and multiples under the bonus (100% max) and LTIP (0% of salary) is also below the norms. On balance it is just about acceptable but we need to monitor any further pay rise increases and also monitor pay outs versus performance.

	Resolution 2. Approve Remuneration Report	Abstain	<ul style="list-style-type: none"> Undue ratcheting up of pay
	Resolution 3. Approve Remuneration Policy	For (Exceptional)	<p>- The LTIP lacks a traditional upper limit on awards. However, the carphone warehouse share plan is unconventional and is considered as a value creation plan (and rather the total pool for distribution to participants is capped at 4% of the issued share capital and the CEO and CFO allocations of the total pool are 7% and 6% respectively (equates to approx £4.9m for the CEO). Participants share 10% of the incremental value created in the Company in excess of an opening valuation and beyond an annual rate of return of 7% on invested capital. The plan is underpinned by a minimum annual compound TSR growth of 5% and outperformance of the median TSR of the FTSE 250. - The Company has provided limited information regarding the potential performance criteria and targets under the mid-term incentive plan. However this will only be implemented should the merger between Carphone Warehouse and Dixons Retail complete. - None of any annual bonus is deferred and executive shareholding guidelines are not in place although we are mindful that all executive directors are major shareholders in the company. We note that if the merger is completed, the Group's remuneration policy will be changed accordingly. The new policy will be set out in next year's annual report and put to shareholders for approval at next year's AGM. Given the size of our holding we would expect to be consulted on any material changes before the vote.</p>

	Resolution 5. Re-elect Sir Charles Dunstone as Director	For (Exceptional)	<p>This Director is an executive chairman and major shareholder, and also founder of the company and former CEO. The company has not provided sufficient explanation for not having an independent chairman. Furthermore there is a lack of independent representation on the Board. However, as chairman of the new Dixons Carphone plc Board (if the Merger proceeds) it is critical that he remains on the Board to ensure a</p>

	Resolution 9. Re-elect John Gildersleeve as Director	For (Exceptional)	This Director is technically not independent due to tenure and independent directors represent 25% of the board whilst we expect a majority for a company of this size. In addition, this director sits on the audit and remuneration committee. We consider this inappropriate as the committees should consist entirely of independent directors. However, we accept the Company's explanation that his tenure does not affects his independence given that he satisfies all the other tests of independence set out in the UK Corporate Governance Code and that the current Carphone Warehouse is a company completely separate from "Old Carphone" (i.e. the company which existed prior to the demerger of TalkTalk in 2010).

Incentive payments are based on a cash profit pool rather than individual limits. There is no reference to malus or clawback on any of the variable pay arrangements. On the positive side, base pay is below lower quartile for the CEO Christophe Evain and pension entitlements are low at 15%. These arrangements are common in financial firms. Key performance objectives for each Executive Director which determined the size of their individual bonuses have not been disclosed, and there is no intention to disclose these objectives in the future. However, it is recognised that the size of the overall incentive pool is driven by Company performance, and a link between performance and pay for the year under review can be established. 	Resolution 5. Reappoint Deloitte LLP as Auditors	For (Exceptional)	The company has retained the same audit firm in excess of ten years. Mandatory auditor rotation is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. Deloitte LLP has been the Company's external auditor since its commencement of trading. In the annual report, it is stated that the Audit Committee has been monitoring audit regulatory developments determined by the FRC, Competition Commission and the EU. According to the Company's understanding of the legislation the audit will be tendered and rotated to another firm of auditors by the year end of 2020. The Committee has stated that the timing of auditor rotation will be kept under annual review and, if legislation changes, or if the UK determines different rotation rules to the EU regulations, or there are any concerns as to Deloitte's independence, the quality of their audit or the service levels, the audit tender and rotation might be undertaken sooner. 2020 is a long way down the road and we think the company should retender as soon as possible. We will engage with the company and review our voting decision for the next AGM.

	Resolution 7. Re-elect Lord Alliance of Manchester as Director	For (Exceptional)	This Director is not independent due to being significant shareholder and tenure and independent directors represent 43% of the board whilst we expect a majority for a company of this size. However, the lack of compliance on Board balance stems from the retirement at the AGM of one of the independent NEDs and the company has made significant improvement to its board composition over the last couple of years including and the appointment of a new Senior Independent Director. The Company should be given time to make further Board changes to bring its composition into line with the Code and given the board is relatively new, some experience and continuity is necessary in our view.

Mandatory auditor rotation is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. KPMG has been the auditor of the QinetiQ Group since its formation in 2001 as the result of a competitive tender, 13 years ago, and the Company's auditor since its incorporation in 2002. Having reviewed the effectiveness and the independence of the external auditor, the Audit Committee has not considered it necessary to conduct a tender process for the appointment of its auditor. The Company states that in accordance with FRC guidance on transitional arrangements for the implementation of the 2012 version of the UK Code, it is the Company's current intention to align the process for putting the external audit contract out to tender with the conclusion of the five-year tenure of the audit partner in 2017. The Committee will continue, however, with the annual review of the performance of the external auditor and act accordingly.

In addition, this director sits on the audit and remuneration committee. We consider this inappropriate as the committees should consist entirely of independent directors. However, AO World is a newly-listed company and, as such, it is recognised that it may take some time to fully apply the provisions of the UK Corporate Governance Code. The appointment of three new independent NEDs earlier this year is welcomed and marks a serious intention to meet such provisions. In addition, we invested in this company on IPO as this is a great entrepreneurial business and the people on the Board, and their the significant stakes in the business are all part of this.

	Resolution 12. Reappoint Deloitte LLP as Auditors	For (Exceptional)	<p>Deloitte has served as Mothercare's auditors since 2002, 12 years ago. Mandatory auditor rotation (or at least a Tender for audit every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. The Audit Committee is aware of the FRC guidance (and more recently the EU guidance) but the endorsed the judgement reached in FY2013 that a tender of the external audit services at this time would not be in the Group's interests. The Committee has concluded that it does not intend to put the external audit work out to tender until 2017 which is at the time of the next audit partner rotation (the Committee may decide to put the audit out to tender at any time before this date). Given this assurance, together with the fact that Deloitte's have only just served longer than recommended, we are comfortable with them continuing until 2017 but would expect to see at least a Tender at that point.</p>

	Resolution 13. Reappoint KPMG LLP as Auditors	For (Exceptional)	KPMG has served as SSE's auditors since 1999, 15 years ago. Mandatory auditor rotation every 10 years (or at least Tender of audit) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, the Company provides a good explanation on this matter i.e the Audit Committee states that before making a recommendation to the Board on the timing of the external audit tender, it considers: - The quality, stability and continuity provided by the relationship with the current external auditor; - The timing of planned changes to the membership and position of Chair of the Audit Committee; - The changes to auditor tendering requirements and the anticipated mandatory auditor rotation obligation and the impact both have on the timing of a tender; - Management of the audit requirement regarding the change in UK GAAP at subsidiary level; - The lead time to ensure potential audit firms are not restricted in their ability to tender for the external audit contract arising from existing contracts for non-audit work; and - The lead time to tie in with the cycle for the preparation of the Annual Report and AGM documentation. After taking into account all the above matters, upon the recommendation of the Audit Committee, the Board concluded that a tender should not take place at this time. The Audit Committee will continue to keep under review the timing of the tender for the external audit contract and will make recommendations to the Board. However it is likely that a tender process will not be initiated until between summer 2015 and March 2016 at the earliest. We review again in 2015.

However, we continue to like the fact that there are 2 founders on the board (3 up to the 2013 AGM), as their interests are well-aligned to other shareholders, which is also a counter-balance to some of the concerns we normally have about executive chairmen. The company also has a good history of shareholder focus and independence on the board and sub-committees has been strengthened over the last few years.
	Resolution 16. Reappoint Deloitte LLP as Auditors	For (Exceptional)	Deloitte LLP has served as the Company's auditors since 2000, 14 years ago. However, the Company states that the Audit Committee is supportive of the provision in the Code requiring FTSE 350 companies to put the provision of audit

			services out to tender at least every 10 years. The Committee has reviewed the performance of the external auditor and is satisfied that Deloitte provides an appropriate level of service delivered by a team with an in-depth understanding of the business and the broader real estate sector. The Committee's present intention therefore is that they will review the requirement to tender the external audit closer to the time when the audit partner next rotates, namely in 2017. We accept this explanation for now but will review again in 2016.

	Resolution 10. Re-elect Don Robert as Director	For (Exceptional)	<p>Under normal circumstances, we would have not supported the re-election of Don Robert as he is moving from the position of CEO to Non-executive Chairman. We generally consider it inappropriate for the CEO to remain on the board/move to chairman after relinquishing their executive position. However, the company is mindful of the contraventions in good governance that this situation presents and in January 2014 launched a proactive series of meetings with their top 15 shareholders, which we fall into. After careful consideration of the specific qualities of the company and their board, we confirmed we are comfortable with the proposed changes (effective July 2014).</p> <p>Specifically, we feel that the senior independent director (SID) is of a sufficiently high calibre to counter balance the new Chairman and the array of non-executive directors (NEDs) are also very strong. The other mitigating factor is that it's a very complicated business going through a period of significant volatility and the experience of the former CEO, will be invaluable in guiding them through this and ensuring the Company's financial performance remains strong. Of particular importance is the Board's desire to retain his knowledge of the business and his appreciation of its unique culture at a time of major Board change: the departure of the Chairman and the Deputy Chairman at the AGM remove two people who each had 17 years' experience, inclusive of service on the board of GUS prior to the demerger. Given the above mentioned reasons we have exceptionally supported the CEO moving to non-executive chairman.</p>

	Resolution 13. Re-elect Paul Walker as Director	For	
	Resolution 14. Reappoint PricewaterhouseCoopers LLP as Auditors	For (Exceptional)	<p>The non-audit consulting fees for the year were significant at USD 2.8m compared to the audit fees of USD 3.8m. The integrity of the auditor's relationship with the company is compromised when a firm is paid excessive consulting fees on top of those paid for auditing services. This arrangement has the potential to open the auditor process to a wide range of conflicts of interest. Furthermore, there have been 4 consecutive years of substantial non-audit fees. However, upon engagement with the company in 2013 we learnt that it in addition to it having amended its policy in 2009 to cap the payment of non-audit fees to the Company's auditor at 100% of fees for audit, audit-related and other assurance services (in direct response to revised NAPF policy issued in 2009), the Audit Committee does scrutinise these fees on a half-yearly basis and there are items that are in place to mitigate against any potential conflict of interest. The safeguards include the rotation of the lead audit engagement partner and the use of separate teams, where appropriate. There is also a policy in place in respect of the employment of former employees of the external auditor). In addition, the external auditors are specifically prohibited from performing work related to accounting records and financial statements that will ultimately be subject to external audit; management of or significant involvement in internal audit services; any work that could compromise the independence of the external auditors; and any other work that is prohibited by UK ethical guidance. The company also confirmed that "assurance" covers the testing of books and/or records, but would not strictly meet the auditing standards definition of "auditing". It is work that is strongly associated with the audit, but which does not meet the technical definition. The majority of the other assurance fees relate to the review and assurance of the half-yearly financial report and the Company's annual Corporate Responsibility report. Given the detailed explanation and assurances provided in both the accounts and through engagement with the Company we are comfortable with the non-audit fee arrangements.</p>

	Resolution 13. Reappoint KPMG LLP as Auditors	For (Exceptional)	KPMG has been the Company's external auditor since 1999, 15 years ago. Mandatory auditor rotation (or at least a Tender for audit) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, we note that in early 2012, the Audit Committee conducted an external audit tender which led to the re-appointment of KPMG. The Audit Committee policy is to put the external audit contract out to tender at least every ten years in accordance with the 2012 edition of the Code, but given the recent EU directives on auditor rotation and the length of tenure of KPMG we welcome the fact that the Committee plans to undertake another tender during the current financial year to take effect from 2015/16. The Audit Committee will continue to monitor

However, as the plan will not be in place until 2015 the actual targets have not been decided. This is understandable. However, there has been no discussion as to whether shareholders will be consulted prior to establishing these targets. On balance, as the arrangements are better than currently exists we will support the new LTIP and will be careful to be comfortable with the performance targets when we vote next year.

Software Radio Technology plc AGM 15/07/2014 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	There is only one independent NED on a board of five. So there is only 20% independence on the board and the committees are not majority independent. We are concerned about the lack of independence on the board of this company. There is no remuneration vote and in fact, very little information on remuneration at all other than the table stating salary, taxable benefits, pension, bonus and pension contributions leading to a total figure. However, the company only has 46 staff and the numbers are not excessive so we are not raising remuneration as an issue at this stage. As this is such a tiny company with £6.2m revenues and still making a loss, we are supporting all resolutions but will watch developments over time and as the company grows.

Data we have indicates that the pay for them is below market norms and therefore an uplift appears to be justified. In addition to the pay rises the company has improved the structure of the pay plans by introducing a 2 year retention period on the LTIP. Although we are disappointed that TSR is not in the mix in performance conditions, the company responded with a lengthy explanation on why this was the case and they have increased the EPS targets from 12% to 14% per annum at threshold and from 18% to 20% per annum EPS growth at maximum which looks reasonable. In addition, the pension arrangements for both CEO and FD are not overly generous. The package looks reasonable despite the pay increases. Together with the openness of the company in responding to our queries, we will be supporting the remuneration report and policy. However, going forward we would not expect further significant pay increases after next year. The remuneration committee has made a public commitment to retrospective disclosure of bonus targets from next year onwards.</p>

Booker Group PLC AGM 09/07/2014 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Booker Group is exposed to risks associated with supply chain labour standards, climate change and the environment. The environmental risks are related to its control over its supply chain (in relation to agriculture and food production) and its control over consumer behaviour. We are pleased to note that the 2014 Annual Report contains GHG emissions data. With respect to labour standards in the supply chain, we acknowledge that the latest Annual Report includes a brief section on ethical sourcing. We continue to encourage the company to publish a supply chain policy covering ILO labour standards areas, as well as details of its management approach and performance in this area. Under normal circumstances we would be withholding support, however, we acknowledge the improvements made by the company in its recent Annual Report. We look forward to seeing improved reporting on the company's approach to supply chain labour standards next year.

Mandatory auditor rotation (or at least a Tender for audit) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, Richard Hughes, the current audit partner, was appointed in July 2010 and is therefore due to rotate following the conclusion of the audit for 2015. On this basis and in light of regulatory changes referred to above, the Committee has determined that an external tender should commence after the AGM for the 2015/16 audit. Approve Remuneration Report	For (Exceptional)	Based on the chart provided by Meis, the new basic salary for the CEO will be slightly below the median for companies in the FTSE Small Cap index as a whole, although it is noted that it will be above the median for Small Cap companies in the Industrial Transportation sector. Therefore we are accepting this year's 12.5% pay increase for the CEO and FD but we do not consider there is further room for significant pay rises especially as the variable pay includes 100% potential (150% in exceptional circumstances) in the annual bonus, matching awards which could be 100% of pre-tax bonus (not being renewed post July 2014 when it expires) and the 2009 LTIP where awards granted amounted to 90% of basic salary for the CEO and FD (max 100%). Pension max contributions 19%. All in all, while within reasonable norms it's now starting to look on the generous side for a smallcap company.

However, this practice will not continue although the remuneration committee has discretion to award a pro rated bonus, but only for the year worked based on performance in the year. 	Resolution 1f. Elect Director Geraldine T. Elliott	For (Exceptional)	We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. Bed Bath & Beyond is exposed to environmental risks associated with its supply chain, in terms of the environmental attributes of the products sold and packaging used. We note that the company publishes details of environmental initiatives and savings in its 2013 Corporate Responsibility Report but there is no consolidated environmental data on an absolute or normalised basis. The company has not reported publicly to the Carbon Disclosure Project in the past few years. We are deteriorating our vote this year to reflect our disappointment at the lack of improvement in quantitative environmental reporting.

			In addition, this director sits on the remuneration committee which comprises of less than a majority of independent directors. However, we and other large holders were consulted regarding the warrant award and considered this as being appropriate given the exceptional circumstances of the company (these warrants were granted in connection with subscriptions for the Company's fixed rate secured loan note instruments, all of which have now been repaid and this is effectively a turnaround situation). Also, as a 23.6% shareholder in the company, his interests are firmly aligned with ours. With that said, we are looking for the Company to appoint another independent director to the Board which will help improve the balance

However, we and other large holders were consulted regarding his appointment and over the incentive award (which was also discussed and approved by its NOMAD). We consider this as being appropriate given the exceptional circumstances of the company and the candidate (there has been a significant amount of board change over the last few years and this is effectively a turnaround situation). In addition, will be more than happy if the share price targets are met (share price is currently 13p, the top targets is 25p) and given the relatively modest value of the awards. With that said we are still looking for the Company to appoint another independent director to the Board which will help improve the balance.

As for the mechanics of voting this item, each share represents the number of votes equal to the size of the board that will be elected (i.e., since the board will be composed of 11 directors, each company share will represent 11 director votes). These director votes may be apportioned equally among the 13 board candidates or, if a shareholder wishes to exclude some nominees, among the desired candidates that remain. As there is a real lack of independent directors on the current board, we are pooling all our votes in support of just two directors. We are supporting David Benello (res 5.2) because he is the only one among the candidates who does not appear to have any immediate affiliations to the company's shareholders or the state, and therefore this candidate presents the best choice for minority shareholders from among the candidates presented. We are also supporting the CEO, Sergey Kalugin (res 5.5) as it is obviously crucial for the CEO to remain, to run the Company. As such we are voting against this director and all other directors.</p>

	Director		companies, and most firms further complicate the process with contested board seats, offering many more candidates than the size of the board allows. As for the mechanics of voting this item, each share represents the number of votes equal to the size of the board that will be elected (i.e., since the board will be composed of 11 directors, each company share will represent 11 director votes). These director votes may be apportioned equally among the 13 board candidates or, if a shareholder wishes to exclude some nominees, among the desired candidates that remain. As there is a real lack of independent directors on the current board, we are pooling all our votes in support of just two directors. We are supporting David Benello (res 5.2) because he is the only one among the candidates who does not appear to have any immediate affiliations to the company's shareholders or the state, and therefore this candidate presents the best choice for minority shareholders from among the candidates presented. We are also supporting the CEO, Sergey Kalugin (res 5.5) as it is obviously crucial for the CEO to remain, to run the Company. As such we are voting against this director and all other directors.

The integrity of the auditor's relationship with the company is compromised when a firm is paid excessive consulting fees on top of those paid for auditing services. This arrangement has the potential to open the auditor process to a wide range of conflicts of interest. However, the majority of the non-audit services provided in 2013 relate to the separation transaction (separating Asia Resources Minerals plc from the Bakrie Group and Bumi Resources for USD 501 million in cash) and in particular the content of the circular and should be one-off. If we see a repeat next year, we are likely to take vote action on the auditors/ members of the audit committee.

			whereby 2 shares will be combined into one. The proposal is intended to enable the company to comply with a joint plan by Japanese stock exchanges, called the Action Plan for Consolidating Trading Units, which will require firms to standardize trading units at 100 shares per unit and to maintain valuations so the minimum tradable investment would fall in the range from JPY 50,000 to JPY 500,000. Considered together with the reduction in the share trading unit in Item 3, would increase share liquidity.

We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Tokyu Corporation is exposed to the risk of breaches of labour standards in its supply chain. We would expect this company to publish its full supply chain labour standards policy, as well as details of its management approach and performance. We note that the 2014 Fact Book includes details of the CSR Procurement Policy, which refers to some ILO labour standards. Under normal circumstances we would be withholding support, however, we recognise that the company has improved its reporting compared to the 2013 Fact Book. We will continue to offer a vote of support but we look forward to more detailed reporting next year</p>

	Resolution 2.7. Elect Director Watanabe, Isao	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Tokyu Corporation is exposed to the risk of breaches of labour standards in its supply chain. We would expect this company to publish its full supply chain labour standards policy, as well as details of its management approach and performance. We note that the 2014 Fact Book includes details of the CSR Procurement Policy, which refers to some ILO labour standards. Under normal circumstances we would be withholding support, however, we recognise that the company has improved its reporting compared to the 2013 Fact Book. We will continue to offer a vote of support but we look forward to more detailed reporting next year in order to prevent a deterioration in our vote.

			shareholders. However, we are broadly comfortable given the company has presented a good case for the fundraising (i.e will Replenish working capital, lower operational leverage, strengthen ability to repay debt, and enhance competitive advantage) and as the Taiwan Securities Association (TSA) permits the price of not lower than 90 percent of the share's closing price on the date the issue price is set. Also, the issue is not much more than what we would approve for general requests.

Flowgroup plc AGM 26/06/2014 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Henry Cialone and David Grundy are not independent (due to holding options and a professional relationship respectively) and independent directors represent less than a third of the board (our minimum expectation for a company of this size). In addition, they both sit on the audit and remuneration committees which comprises of less than a majority of independent directors. However, on engagement in 2013, we accepted the company's explanation for their roles on the board and, since then, the company has appointed an independent NED. The Board now comprises an Executive Chair, two executives, two non independent NEDs and one independent NED. This is still not ideal but the situation is improving.
	Resolution 2. Re-elect Clare Spottiswoode as Director	For (Exceptional)	This Director is a non independent chairman (due to executive capacity) and independent directors represent less than a third

			of the board (our minimum expectation for a company of this size). We also have concerns over her time commitments. She is currently Chairman of Gas Strategies Group limited, a non executive director of G4S, EnergySolutions Inc and Illika plc. However, this is one less company than before. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. JX Holdings is exposed to the risk of human rights breaches in its operations. We note that the 2013 CSR Report includes the ten UNGC principles and that the company refers to human rights but there is still insufficient disclosure on the company's management approach and performance in this area. We are deteriorating our vote this year to reflect our disappointment at the continued lack of reporting on human rights.

			with the company's supplier code of conduct. The proponents (The Sisters of St. Francis of Philadelphia, and additional co-filers) acknowledge that Kroger has adopted a supplier code of conduct, but note that the company has not adopted a company human rights policy or a supplier human rights code. The filers state that adoption of such a code and policy would be an important start, but that companies must also assess human rights risks to shareholder value in order to implement their human rights principles. Finally, the proponents assert that, with stores in more than 40 states and a complex and global supply chain (including suppliers in Iran, China, and Malaysia), the company's business exposes it to significant human rights risks.
	Resolution 6. Report on Extended Producer Responsibility Policy Position and Assess Alternatives	For (Exceptional)	<p>The proponent is requesting that the company develop a policy position on its responsibility for managing the post-consumer packaging waste of its private label brands, and assess alternative approaches that could yield increased recycling rates. Kroger argues that the company's current waste reduction efforts are sufficient, and that it would be inappropriate and premature to adopt a corporate EPR policy. A vote for this proposal is warranted because:</p> <ul style="list-style-type: none"> • The requested report should serve to complement the company's existing disclosures and initiatives, and has the potential to benefit the company's waste reduction, recycling and cost-savings efforts. • Given the company's existing initiatives on and commitments to recycling and waste reduction, the requested report should not be unduly burdensome for the company to produce.

Schedule of voting on company resolutions

			<p>require cumulative voting for directors at all companies, but most firms further complicate the process with contested board seats, offering many more candidates than the size of the board allows. As for the mechanics of voting this item, each share represents the number of votes equal to the size of the board that will be elected (i.e. since the board will be composed of 11 directors, each company share will represent 11 director votes). These director votes may be apportioned equally among the 12 board candidates or, if a shareholder wishes to exclude some nominees, among the desired candidates that remain. As such we have pooled out votes in support of independent directors, Viktor Blazheev, Igor Ivanov, Mark Mobius, Guglielmo Antonio Claudio Moscato and Ivan Pictet (as we believe that independent directors are most capable of making impartial decisions, taking into consideration first and foremost the rights and value of the company's shareholders). We have also voted in favour of the CEO (Vagit Alekperov) as the CEO is critical in leading the Company. Therefore, we have voted against all other non-independent directors.</p>

We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Marui Group is exposed to the risk of labour standards breaches in its supply chain. We note that the 2013 CSR report refers to supplier visits to check working hours and health & safety conditions. We do, however, encourage the company to expand the scope of its supplier policy to cover ILO labour standards, as well as to publish more information on its management approach and performance in this area. OCI NV is exposed to risks associated with bribery, climate change and the environment. The environmental risks are related to water pollution and waste, as well as indirect impacts in terms of influencing material specifications and product impacts. The company publishes some emissions data in its 2013 Annual Report but we encourage the publication of consolidated emissions data for all operations, as well as other environmental metrics. We also urge the company to respond</p>

			to the Carbon Disclosure Project. With respect to bribery, we note that the company has published its code of conduct and is currently working to embed the code in its organisation. We encourage the company to report details of its management approach and performance in this area next year. Under normal circumstances we would be withholding support, however, in light of recent structural changes at the company, we will offer a vote of support this year. We look forward to improved reporting next year.

	Bangs		given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. SMC Corporation is exposed to environmental risks associated with use of energy, water and air emissions and waste. We would expect this company to publish quantitative environmental performance data but there is none in the public domain. The company has not responded to the Carbon Disclosure Project. We note the company's intention to establish an internal body to specialise in risk management, including that related to environmental measures, but this information alone is insufficient to merit a vote of support.

	Resolution 9.1. Appoint PricewaterhouseCoopers AG as Auditors	For (Exceptional)	PwC has acted as the Group's sole external auditors since 2003. Mandatory auditor rotation is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, we note that the Audit Committee intends to consider whether to put the external auditor contract out to tender in accordance with the UK Corporate Governance Code. Whilst we would have preferred a firmer commitment (and expected Tender date), we are mindful that the current auditors have served only slightly longer than recommended. Also, we are mindful that the Company is newly listed to the FTSE 100 index so are prepared to give it a little more time to firm up its intentions in this area.

Medipal Holdings Corporation AGM 25/06/2014 JAPAN	Resolution 1.1. Elect Director Kumakura, Sadatake	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Medipal Holdings is exposed to environmental risks associated with air and water pollution, water consumption and hazardous waste. Last year, we noted that the environmental performance data on the company's website was out-of-date; we are pleased to see more recent metrics this year. We would, however, encourage the company to clearly state the scope of the data provided. Under normal circumstances we would be withholding support, however, we recognise that the company has published more recent environmental data. We look forward to reviewing improved reporting next year.
	Resolution 1.2. Elect Director Watanabe, Shuuichi	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. Alfresa Holdings is exposed to the risk of bribery in its operations. We would expect this company to publish its anti-bribery policy in full, as well as details of its performance in this area. We acknowledge that the company refers to a code of conduct and includes mention of compliance in its 2013 Annual Report but this disclosure is insufficient to maintain our vote of support. We are deteriorating our vote this year to reflect our disappointment at the company's lack of improvement in anti-bribery reporting.</p>

	Resolution 6. Authorize Share Repurchase of Up To 200 Million Shares in the Coming Year	For (Exceptional)	A vote FOR this proposal is recommended because: The proposed authorization would not bind Japan Tobacco to actually repurchase any shares, and therefore, there are no viable reasons why the request would be disadvantageous to shareholders.
	Resolution 7. Amend Articles to Allow Binding Shareholder Meeting Resolutions on Cancellation of Treasury Shares	For (Exceptional)	A vote FOR this proposal is recommended because: The shareholder proposal would increase shareholder say in the company's capital management.
	Resolution 8. Cancel the Company's Treasury Shares	For (Exceptional)	A vote FOR this proposal is recommended because: Cancellation of shares should not negatively impact JT's equity financing ability for strategic options. The company fails to present any specific plans to use its treasury shares. Cancellation of treasury shares will generally reduce shareholder concern about dilution.

Standard Life Investments Property Income Fund Limited EGM 24/06/2014 GUERNSEY	Resolution 1. Authorise Issue of Equity without Pre-emptive Rights Pursuant to the Initial Placing and Offer for Subscription	For (Exceptional)	<p>The board is proposing the following amount for share issuance pursuant to place up to 35 million new shares with Winterflood Securities Ltd (Initial Placing); and offer a subscription in relation to up to 15 million new shares (subscription). Whilst non-participating shareholders will suffer dilution from the Initial Placing and Offer our reasons for support are: A compelling business case for the Proposal has been provided by the company (i.e the cash proceeds will be used to acquire further UK commercial properties in accordance with the company's investment policy in order to take advantage of the prevailing market conditions and investment opportunities identified by the Investment Manager; Existing shareholders are able to partially participate in the Initial Placing and Offer; The company has provided a commitment that shares would be issued at a premium to the prevailing NAV at the time of issue (the price of the new shares to be issued pursuant to the Initial Placing and Offer will be calculated as a premium of approximately 5% to the Adjusted NAV per Share as at 30 June 2014) and; The high investor demand for the Company's ordinary shares in recent months seeing the Company's shares trading at a premium to their net asset value;</p>

	Resolution 2.1. Elect Director Nakata, Takuya	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Yamaha is exposed to risks of labour standards breaches in its supply chain. We note that the company discloses information on its supply chain surveying and monitoring mechanisms in its 2013 CSR Report and on its website. This now includes reference to monitoring specific ILO labour standards through supplier surveys. We encourage the company to publish a formal copy of its supply chain labour standards policy which includes reference to ILO labour standards, as well as to report on its performance in this area. Under normal circumstances we would be withholding support, however, we recognise that the company's disclosure has improved since last year. We will therefore continue to offer a vote of support but we look forward to continued improvement next year.

Yamato Holdings Co., Ltd. AGM 24/06/2014 JAPAN	Resolution 1.1. Elect Director Seto, Kaoru	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Yamato Holdings is exposed to health & safety risks in its operations. We would expect this company to publish quantitative data on its health & safety performance, such as lost time injury frequency rates. Under normal circumstances we would be withholding support, however, we would like to give the company more time to improve its disclosure. Without

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. We support this proposal

PVH Corp. AGM 19/06/2014 UNITED STATES	Resolution 1.1. Elect Director Mary Baglivo	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. PVH is exposed to environmental risks associated with use of energy, water and air emissions and waste. We acknowledge that the company reports a wider range of environmental performance data in its 2012 CSR Report compared to last year but we urge the company to clarify the global scope of each data set. We would ideally like to see consolidated reporting for all operations. We also encourage the company to respond, preferably publicly, to the Carbon Disclosure Project. Under normal circumstances we would be withholding support, however, we recognise the improvements made in the most recent CSR Report.
