	Resolution 17. Approve Change of Corporate Form to Societas Europaea (SE)	For (Exceptional)	<p>Under this resolution, the company proposes to change its legal form from a French Société Anonyme to a European Company (Societas Europaea). The SE corporate structure was created by European legislation with the aim of facilitating cross-border integration between companies incorporated in the European Union's member states. The company provides the following rationale: "Schneider Electric has experienced major changes in the last few years. The considerable development and geographical diversification of the company's activities have raised Schneider Electric to the rank of a fully global group. In light of the foregoing, Europe, which has become an integrated economic area, has confirmed itself as one of the company's major markets, as well as a significant base for its technological innovation and human capital. Your Board of Directors is therefore submitting for your approval a proposal to change the legal statute of Schneider Electric from that of a French public limited liability company (Société Anonyme, SA) to that of a European Company (Societas Europaea, SE). The Board of Directors has arrived at the conclusion that this international statute under French and European law, promulgated by the legislative branch almost a decade ago and increasingly adopted by businesses in Europe, best reflects the European and international dimension of Schneider Electric. This statute would enable Schneider Electric to project to all." Schneider Electric states that: Its registered office and head offices will be located in France; The company will maintain its unitary board structure; The transformation will not cause dissolution, or creation of a new entity; Its share capital, number of shares, and par value will be unchanged. Under its European form, the company will still be ruled by French laws applicable to public limited-liability companies with a board of directors, in compliance with rules for Societas Europaea; Directors' term of mandate will remain the same; The governance structure with several committees and a vice-chairman/lead independent director will remain the same; Audit firm will remain in position, with the same conditions. The one negative is that the transformation has a direct effect on shareholders' votes: the abstention is no longer considered as a negative vote but is not taken into account in the calculation of the quorum.</p>

Berkshire Hathaway Inc. Class B AGM 03/05/2014 UNITED STATES	Remuneration		
	Resolution 1.1. Elect Director Warren E. Buffett	For (Exceptional)	This Director serves as combined CEO/Chairman, a role we prefer to be split. The Chairman's role on a board is to evaluate and review the performance of management; this role is obviously compromised when the Chairman is also the CEO. In addition, this Director is an executive on a board with less than two-thirds majority independence on the Board (our guideline for US companies).
	Resolution 1.2. Elect Director Charles T. Munger	For (Exceptional)	This Director is an executive on a board with less than two-thirds majority independence on the Board (our guideline for US companies). However, Warren Buffett has run his funds for the benefit of shareholders for many years and we do not currently have a worry that this will change. More importantly is the matter of succession for Warren Buffett and his partner Charles Munger.
	Resolution 1.3. Elect Director Howard G. Buffett	For (Exceptional)	This Director is not independent (due to being a relative of an employee) and there is a lack of two-thirds majority independence on the Board (our guideline for US companies). However, this board has been shareholder friendly and returned significant shareholder value over some years. We believe it is the leadership of Warren Buffett and his partner Charles Munger and their perspectives of what is right for the company. When these individuals are no longer on the board we will need to review the appropriateness of the individuals on the board.
	Resolution 1.4. Elect Director Stephen B. Burke	For	
	Resolution 1.5. Elect Director Susan L. Decker	For (Exceptional)	This Director sits on the Audit Committee which has allowed poor audit practices. However, this board has been shareholder friendly and returned significant shareholder value over some years. We believe it is the leadership of Warren Buffett and his partner Charles Munger and their perspectives of what is right for the company. When these individuals are no longer on the board we will need to review the

We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. Archer Daniels Midland is exposed to climate change and environmental risks. The environmental risks relate to energy use, water use and pollution. We acknowledge that the company's 2013 Corporate Responsibility Report indicates percentage changes, and progress against targets, on a normalised basis for a couple of environmental indicators. We would, however, like to see absolute or normalised data. The company has not yet responded to the Carbon Disclosure Project (CDP) 2013, although it responded for the first time in 2012. As the company does not report absolute or normalised data, and has not yet responded to the CDP</p>

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. Without doubt, there should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. We support this proposal seeking the adoption of a policy that requires the board's chairman be an independent director.

However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. EOG Resources is exposed to risks associated with health & safety and the environment. Its environmental risks are related to air and water pollution, as well as water use and waste generation. In 2013, the company publicly reported to the Carbon Disclosure Project (CDP) for the first time in a few years. Although we welcome this public reporting, we encourage the company to increase the depth of its response and to provide more comprehensive trend data on its environmental performance. With respect to health & safety, the company's quantitative disclosure in the public domain remains the same as last year. We encourage the company to publish more recent data, and to expand its quantitative health & safety reporting. Under normal circumstances we would be withholding support, however, in light of the company's public reporting to the CDP 2013, we will continue to offer a vote of support. 	Resolution 15. Approve Remuneration Report	For (Exceptional)	Whilst arrangements are generally fine, pension arrangements are considered very generous. Directors receive a supplementary cash allowance of up to 40% of the difference between their individual pensionable salary and base salary. However, upon engagement with the Company last year, we were advised that as part of its remuneration review, the Company recognised that legacy pension arrangements were generous and that it is why (1) it capped pension arrangements for new directors at 25% of salary and (2) it did not increase bonus potential which at 110% of salary is lower than the company's FTSE 100 peers. Furthermore, the company's has been very prudent regarding bonus awards even despite the low cap For example, the actual awards for the year ranged from 74.9% to 86.8% of salary and were much lower the year before. Also, overall remuneration levels are fine and salaries are slightly below median. As such, we were able to support the remuneration report at the Company's 2013 AGM but said that pension arrangements will become a concern if there are significant increases to base pay without a reduction in pension contributions.

Kansas City Southern AGM 01/05/2014 UNITED STATES	Resolution 1.1. Elect Director Henry R. Davis	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Kansas City Southern is exposed to risks relating to climate change and the environment. Its environmental risks are associated with air pollution. We would expect this company to publish quantitative environmental performance data but none is available in the public domain. We strongly encourage the company to publish such data in order to maintain a vote of support. The company has not responded to the Carbon Disclosure Project.

	Resolution 4. Pro-rata Vesting of Equity Awards	For (Exceptional)	A vote for this proposal is warranted, as pro rata vesting of equity would further align the interests of executives with those of shareholders.
	Resolution 5. Adopt Quantitative GHG Goals for Products and Operations	For (Exceptional)	We welcome the fact that the company responded to the Carbon Disclosure Project in 2013 for the first time since 2009. We have been encouraging a response for a number of years. However, a vote for this resolution is warranted, as adopting and disclosing GHG emissions reduction goals would aid shareholders in assessing the company's related performance and management against its GHG reduction policy.
	Resolution 6. Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this resolution is warranted, as additional information about policies and procedures that Valero may have instituted to govern its lobbying activities and trade association memberships would aid shareholders in assessing the company's management of its comprehensive political activities.

	Resolution 6. Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this resolution is warranted as increased disclosure of policies and oversight mechanisms enacted to manage the company's lobbying activities and trade association memberships would allow shareholders to better assess the company's management of related risks and opportunities.
	Resolution 7. Submit Severance Agreement (Change-in-Control) to Shareholder Vote	For (Exceptional)	A vote for this item is warranted because shareholders would benefit from broadening the definition of "severance benefits" subject to a shareholder vote to include equity vesting that results in payouts exceeding the best practice limit of three times cash pay.
	Resolution 8. Amend Articles/Bylaws/Charter -- Call Special Meetings	For (Exceptional)	A vote for this proposal is warranted because a 15 percent threshold to call a special meeting is reasonable for a company of this size and ownership structure. This proposal would enhance shareholder rights by lowering the current threshold for multiple shareholders to call a special meeting.
	Resolution 9. Provide Right to Act by Written Consent	For (Exceptional)	A vote for this proposal is warranted given that the ability to act by written consent would enhance shareholder rights.

Darden Restaurants, Inc. Proxy Contest 30/04/2014 UNITED STATES	Resolution 1. Consent to Request Special Meeting	For (Exceptional)	<p>Starboard Value Fund, a 5.5% shareholder which believes the company's announced plan to sell or spin off its Red Lobster business would destroy much greater strategic opportunities to unlock shareholder value, is seeking written consent to call a special meeting. The proposal requires support from 50 percent of outstanding shares. If a special meeting is called, Starboard intends to submit a non-binding proposal asking the board not to execute a sale or spin of the Red Lobster business prior to the 2014 annual meeting without first receiving approval from shareholders. Calling a special meeting is not a free option: it will incur costs and divert a certain amount of management and board resources even as the company is focused on exploring strategic alternatives for Red Lobster and improving the performance of Olive Garden and the company's other restaurant concepts. However, as the questions surrounding the several strategic alternatives appear sufficiently weighty – particularly in the context of an irreversible strategic decision – our consent FOR the proposal to call a special meeting is warranted. Specifically, Starboard estimates that the spin or sale of Red Lobster, by contrast, could trap \$850 million in real estate value. Starboard argues Red Lobster's real estate is worth more to a real estate owner rather than "trapped" in the new Red Lobster. To illustrate this, Starboard assumes the new Red Lobster would trade at 6.5x EBITDA, and thus be worth roughly \$1.5 billion as a separate entity. By contrast, Starboard claims Red Lobster's real estate alone—</p>

			with estimated rent of \$106 million, at a valuation multiple of 14.6x—is worth \$1.5 billion to a real estate owner. Consent for the proposal to call a special meeting will help ensure shareholders have the opportunity to ratify or reject a potentially significant and irreversible strategic action about which there is currently significant uncertainty.

They say that he has been an extremely effective and valuable contributor to the company's development. Ron is also Chairman of CSR Plc and has an exceptional track record in the technology industry. The Board has also concluded that Ron's independence in every regard is in no way compromised by his length of service. Indeed, his depth of understanding of the business resulting from his 9 years with the company is extremely valuable in aiding his Board level contributions and decision-making and is not easily replaced. 			Board that having only just served 9 years will not impact his independence. We are also aware that the Company appointed Mark Foster as NED in 2012, and another independent director (John Worby) will be appointed at the 2014 AGM and will replace Philip Hardaker who will be retiring from the Board and as Chairman of the Audit Committee in July 2014. We acknowledge that the company reported its emissions to the Carbon Disclosure Project (CDP) 2013. We strongly urge the company to set a reduction target for GHG emissions. In the CDP 2013 response, the company states that during 2013, it is evaluating the GHG emissions reduction target to work towards for the Jubilee field from 2014. The Jubilee field represents 90% of group GHG emissions. In light of this forthcoming target, we will continue to offer a vote of support. We will, however, be scrutinising the company's reporting next year for details of the Jubilee field emissions target.

Ultra Electronics Holdings plc AGM 30/04/2014 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	<p>As of 1 January 2014, the CEO received a salary increase of 3% taking his salary to £474,000; the FD received a salary increase of 9.8% taking her salary to £302,000; and, the Marketing Director received a salary increase of 10% taking his salary to £225,000. The Finance Director's salary was increased to bring her salary in line with median salaries for that role. The Group Marketing Director's salary was increased to bring it towards median levels, and the Report states that the Committee recognises that his salary is still below median levels and will address this going forward in line with its Remuneration Policy. The salaries still look to be below median so we are accepting the increases. Also the</p>

			<p>increases were flagged last year. However, we note the pension for the CEO is generous at 1/30 after 20 years. In view of this, the company would need to justify further increases (if above inflation or employees) for the CEO. Actual performance during the year was £116.8m PBT and £79.1m operating cash flow. No bonus was payable during the year as the operating cash flow was negatively adjusted to reflect working capital performance throughout the year, and in order for bonus to be payable both profit and cash flow criteria are required to be met. The operation of the bonus plan will remain unchanged in 2014. The Report states that the Committee believes the specific annual bonus targets to be commercially sensitive, they will be retrospectively disclosed in the following year's Annual Report. • The performance criteria for the LTIP were altered during the year; the comparator group was changed to the FTSE 250 (excluding investment trusts) and the EPS underpin was reduced from 7% to 5%. Additionally, the maximum grant under the LTIP available to the Chief Executive was increased to 125% from 100%, which was approved by shareholders at last year's AGM, and the shareholding guideline was also increased from 100% to 125% for the CEO in line with the augmented LTIP award potential. The current consensus estimates of EPS growth from ThomsonONE are: FY2014, 1.87%; FY2015, 4.79%; FY2016, 0.57%. Pension: The Chief Executive is a member of the defined benefit pension scheme which provides for a pension equal to two-thirds of salary at the normal retirement age of 63 years and at least 20 years of pensionable service. Where pensionable service is less than 20 years, the pension is calculated at 1/30th of final salary for each year of service. Pensions are reduced in the event of early retirement. This is generous.</p>
	Resolution 3. Approve Remuneration Policy	For (Exceptional)	<p>We note that bonuses and LTIP have no deferral periods which is now becoming best practice. We should encourage the company to defer bonuses. There are clawback arrangements in place for the bonus for material misstatements of its audited accounts but doesn't look like clawback applies to the LTIP. As overall pay is not egregious we will accept this policy and ask for changes in 2015 when the new Corporate Governance Code is likely to require companies to look to the longer</p>

The Committee considered the audit tendering provisions in the Code and considers that for a Company of the size and complexity of the Group, an external audit tender must be well planned to ensure that the Group receives a high quality, efficient and effective external audit service. On this basis, the Committee intends to put the external audit to tender at the end of the current senior audit partner's tenure. The current audit partner's tenure commenced in 2011.

Cobalt International Energy, Inc. AGM 29/04/2014 UNITED STATES	Resolution 1.1. Elect Director Kenneth W. Moore	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Cobalt International Energy is exposed to risks associated with bribery, climate change and the environment. The environmental risks are related to energy use, water use, air emissions, water emissions and waste. We would expect this company to publish quantitative environmental performance data but there is none in the public domain. The company has not responded to the Carbon Disclosure Project. With respect to bribery, we note that the company publishes its Code of Business Conduct and Ethics but we encourage the company to disclose further details of its management approach and performance in relation to anti-bribery. Under normal circumstances we would be withholding support, however, we will give the company time to improve its public disclosure as

	Resolution 4. Pro-rata Vesting of Equity Awards	For (Exceptional)	A vote for this proposal is warranted. Although the company has adopted a "double-trigger" vesting approach, in which awards will only be accelerated if not assumed or replaced, the request for pro rata vesting of equity awards could be beneficial for shareholders.
	Resolution 5. Stock Retention/Holding Period	For (Exceptional)	A vote for this proposal is warranted as the more rigorous guidelines recommended by the proponent may better address concerns about creating a strong link between the interests of top executives and long-term shareholder value. Although we note that Board's view that this is not appropriate given the CEO already has to hold shares equal to 6x salary (3x salary for other executives), we are supportive of the proponent's aim which is to ensure senior executives hold a significant portion of stock obtained through executive pay plans after employment termination which would focus executives on the company's long-term success. Particularly given the amount of awards they receive through the LTIP.

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. Without doubt, there should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. We support this proposal seeking the adoption of a policy that

			requires the board's chairman be an independent director.
	Resolution 5. Review Fair Housing and Fair Lending Compliance	For (Exceptional)	A vote for this proposal is warranted because the company could provide additional information on its fair housing and fair lending policies and oversight mechanisms to better enable shareholders to assess the company's management of these issues and their related risks. Furthermore, the company has been recently involved in a fair lending controversy.

However, variable remuneration (bonus and LTIPs) is capped at 60% of salary which is modest relative to the sector. In addition, under the deferred remuneration scheme, which operates as a cash-based, long-term incentive plan, thus far, no payment has been made. On a separate note, the Company has hired its external auditor to analyze its executive remuneration policy which really should have been given to another independent consultant.

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. Without doubt, there should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. We support this proposal seeking the adoption of a policy that requires the board's chairman be an independent director.
	Resolution 5. Provide Right to Act by Written Consent	For (Exceptional)	Adoption of this proposal would provide shareholders with the ability to act by written consent. Hence, a vote for this proposal is warranted.
	Resolution 6. Pro-rata Vesting of Equity Awards	For (Exceptional)	A vote for this proposal is warranted. Although the company has recently adopted a "double-trigger" vesting approach for equity awards granted after the 2014 annual meeting, a policy requiring pro rata vesting of equity awards upon a termination following a change in control could be beneficial for shareholders.
	Resolution 7. Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this resolution is warranted based on the benefit for shareholders of additional information regarding the company's trade association activities and lobbying-related expenditures.

	Resolution 26. Reduce Term from Four Years to Two Years for Registered Shareholders to Obtain Double Voting Rights and Amend Article 11 of Bylaws Accordingly	For (Exceptional)	The Company is proposing to reduce the term from 4 years to 2 years for Registered shareholders to obtain Double Voting rights. We would typically vote against as the proposed amendments continue to undermine the one share, one vote principle i.e undue influence to some shareholders at the expense of others. However, if the resolution was a simple choice of double voting rights or not, we would have voted against, but it is not. The reduction from 4 to 2 years is a result of recent changes in the French legal framework where, double-voting rights for shares held in registered form for more than two years will be standard provision at all French listed companies. These new legal provisions are not binding, and French issuers having the choice to opt out of these provisions in their bylaws. Arguably this a better arrangement than before (and perhaps also part of an agreement between DF/French State and the Peugeot family to maintain its influence on the Company) but something we will keep under review.

	Resolution 12. Reappoint Deloitte LLP as Auditors	For (Exceptional)	Deloitte LLP has been the Company's auditor since 2000. The Committee notes that current FRC transitional guidance and Competition Commission rules which will come into force from 1 October 2014 indicate that the Company should tender the audit, at the latest, at the time of the next audit partner rotation currently scheduled for 2019. The Committee also notes the latest EU proposals under which it is likely that audit firms in the UK will need to rotate every twenty years with a tender after ten years. The Company may put the audit out to tender at any time; however, it will not be tendered in 2014 and the matter will be reviewed on an annual basis. The level of non audit fees are within our guidelines.
	Resolution 13. Authorise Board to Fix Remuneration of Auditors	For (Exceptional)	The company has retained the same audit firm in excess of ten years. Mandatory auditor rotation is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, it is the Committee's current policy to put the external audit contract out to tender at least every ten years. The next tender will be no later than the planned rotation of the current audit partner in 2016. There are no contractual obligations that restrict the Committee's choice of auditor.
	Resolution 14. Authorise Board to Fix Remuneration of Auditors	For (Exceptional)	The company has retained the same audit firm in excess of ten years. 	Resolution 5. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. Without doubt, there should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. We support this proposal seeking the adoption of a policy that requires the board's chairman be an independent director.
	Resolution 6. Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this resolution is warranted as additional information about any policies or procedures Ameren may have instituted to govern its lobbying activities and trade association memberships would allow shareholders to better assess the company's management of its comprehensive political activities.
	Resolution 7. Report on Adoption of Policies to Meet National GHG Reduction Goal	For (Exceptional)	While the company's current efforts to reduce greenhouse gas (GHG) emissions and harness the opportunities presented by climate change are commendable, the adoption of this proposal would merely serve to complement and enhance Ameren's initiatives to lower its GHG emissions. The disclosure is useful for shareholders in effectively evaluating the company's potential exposure to GHG emissions-related regulatory, legal, and reputational risk. A vote for this proposal is warranted. Note: The proponent withdrew this resolution after reaching an agreement with the company. However, the proposal is still a voting item on the company's proxy ballot at the time of this analysis.

Azimut Holding S.p.A. AGM 24/04/2014 ITALY	Resolution 1. Approve Financial Statements, Statutory Reports, and Allocation of Income	For	
	Resolution 2. Increase Number of Directors on the Board; Elect Paolo Martini as Director	For (Exceptional)	Our original decision was to vote against because this Director is not independent (due to executive capacity) and there are less than two independent directors on the Board (our minimum expectation for companies outside the local market main index). The election of a further executive director on to the board will further lessen the strength of the non executive directors. However, on engagement, we have agreed to vote in favour as they have confirmed that 1/ there is no increase in board size so no change in balance between executives and non executives 2/ they are looking for new independent directors 3/in Italy the board is elected every 3 years so they will be making the changes in 2016.
	Resolution 3. Approve Incentive Plan for Financial Advisers	For (Exceptional)	Under this item, the board proposes to establish a share-based incentive plan for financial advisers who are starting in the period between Jan. 1, 2014, and April 30, 2015. The plan will

			<p>measure financial advisers' performance and the level of contracts sold in a two-year period. If at the end of the two-year period the targets are achieved, beneficiaries will receive cash. However, the incentive plan requires that the beneficiaries will have to use 50 percent of the cash received to buy Azimut shares on the market. Furthermore, the beneficiaries of the plan will have to subscribe to the shareholder's agreement. The 75 percent of the shares, included in the shareholder's agreement, is locked for six years. After this period, the lockup requirements will go down to 66 percent. The lockup requirement will only end if the shareholder's agreement is discontinued. It seems this is common practice in the industry in Italy. As the plan obliges financial advisers to invest in the company's shares and hold on to them for six years, this is likely to be a sufficient safeguard to unethical sales practices. On this basis we are supporting the resolution.</p>
	Resolution 4. Authorize Share Repurchase Program and Reissuance of Repurchased Shares	For (Exceptional)	<p>This authority equates to 19.55% of the Company's issued share capital which exceeds the industry-wide guideline of 15 percent. The maximum purchase price is EUR 50 which equates to a premium of 93% based on current share price, exceeding our guideline (for such authorities) of 10%. Existing shareholders may potentially be disadvantaged. On engagement, the company has given us an assurance that they will not go beyond 5% to 10% premium to share price. Therefore we are supporting the resolution.</p>
	Resolution 5. Approve Remuneration Report	For (Exceptional)	<p>Executive remuneration does not include any form of variable remuneration. As a consequence, the remuneration practice of</p>

		<p>the company appears leaning to the short-term focus, avoiding balancing the short- and long-term compensation elements. However, the company explains that pursuit of long-term results is assured by the executive holdings in the company. In fact, all directors (except for the two independent directors) are shareholders of the company and their shares are blocked by the shareholder syndicate (see company update section);</p> <ul style="list-style-type: none"> Chairman/CEO Giuliani sits on the remuneration committee. However, this concern is somehow offset by the fact that the company does not have variable remuneration and the board remuneration is approved by shareholders. However, we should ask the company whether they have any retention problems without variable incentives for the executives. <p>Item 6: Deliberations on Possible Legal Action Against Directors if Presented by Shareholders AGAINST The company has added Item 6 to the proxy card in case any shareholders requested to approve legal actions against directors. The right to propose legal actions is allowed by the Italian civil code. During the discussion regarding the approval of financial statements, any shareholder can propose to approve legal actions against directors. As no specific proposal on legal actions has been made at the time of writing this report, we are unable to assess the content of such a possible deliberation, therefore we are unable to support the proposal because of the lack of disclosure. On engagement, the company said that Azimut is quite a peculiar company because we come from a Management Buy-out back in 2002, where employees, financial advisors and top management bought the company</p>

			from an Italian bank, and decided to create a very strong shareholders pact where nobody can sell their shares until reaching retirement age (65yrs old), even if they leave the Company. They therefore have a very long term approach as they own the company (hence no need for variable pay). On this basis we are supporting the remuneration report.

	Resolution 4. Adopt Share Retention Policy For Senior Executives	For (Exceptional)	Support for the say-on-pay proposal is warranted. The company made several improvements to its compensation program after receiving relatively low support at the 2013 annual meeting. In addition, the company's incentive programs are based on reasonably rigorous performance goals and 78 percent of equity is performance-based. More rigorous stock retention guidelines may create a stronger link between the interests of top executives and long-term shareholder value. The proposal to submit future SERP arrangements to shareholder vote warrants support as the company's SERP confers extraordinary benefits not included in employee-wide plans.
	Resolution 5. Submit SERP to Shareholder Vote	For (Exceptional)	A vote for this item is warranted because the company's SERP confers extraordinary benefits not included in employee-wide plans. Further, the board is able to implement this policy in a manner that does not violate any existing employment agreement or vested pension benefit.

Distribuidora Internacional de Alimentacion SA AGM 24/04/2014 SPAIN	Resolution 1.1. Approve Consolidated and Standalone Financial Statements	For (Exceptional)	This vote reflects our concerns over the lack of Social, Environmental and Ethical (SEE) policy/disclosure at this company. DIA is exposed to the risk of labour standards violations in its supply chain. We strongly encourage the company to publish its supply chain labour standards policy, as well as details of its management approach and performance in this area. Under normal circumstances we would be withholding support, however, we would like to give the company time to improve its disclosure since its spin-off from its former parent in 2011.

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. Without doubt, there should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. This proposal seeking the adoption of a policy that requires the board's chairman be an independent director merits support.

Claw-back of Payments under Restatements	For (Exceptional)	A vote for this proposal is warranted because the proposed changes should further strengthen the company's existing clawback policy and inform shareholders about whether the policy has been invoked outside of events that require disclosure to the SEC. Further, the proposal affords the board sufficient latitude in exercising its judgment when drafting a policy that takes privacy concerns into account.

Approve Remuneration Report	For (Exceptional)	<p>David Newnes (Executive Director) received a 20% basic salary increase; • The new CEO was appointed on a 36% higher basic salary than his predecessor; • 35% of the relative TSR portion of the LTIP award (30% of the overall award) vests for median performance, in excess of the recommended 25%; • The EPS targets do not stand out as being particularly challenging. The main reasons for support are: • The increased basic salaries remain below the median for FTSE SmallCap companies. In addition, pension arrangements are relatively modest and the overall package is not excessive; • In the case of David Newnes, the Company has also provided an explanation for his basic salary increase, which was due to the significant change in his responsibility levels during the year; • The remainder of the LTIP (70%) is based on EPS and has a threshold vesting level of 25%. Whilst we think that EPS targets could be more challenging, we note that the specific targets have been increased to reflect the better outlook. For awards to be granted in 2014, 25% of the EPS measure will vest for an</p>

UNITED STATES			given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. SCANA is exposed to risks relating to climate change and the environment. The environmental risks are associated with air emissions, water emissions, water use and waste. The company's 2013 Environmental Sustainability Report provides bar graphs demonstrating environmental performance in areas including air emissions. We encourage the company to improve the scope of its environmental reporting to cover more of its operations, as well as to add numerical values to its graphs. The company has not responded to the Carbon Disclosure Project in the past few years.

Adopt Financial Statements and Directors' and Auditors' Reports	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. Sembcorp Industries is exposed to risks associated with bribery and human rights. The company refers to its Code of Conduct, fraud and whistleblowing in its 2013 Annual Report but it does not publish the full text of the Code in the public domain. We strongly encourage the company to publish this Code on its website, and to report details of its performance in its anti-bribery efforts. With respect to human rights, the company refers to some core ILO labour standards in its 2013 Annual

			Report and on its website. We encourage the company, however, to increase the scope of its human rights commitments to include all core ILO labour standards, and to publish details of its management approach and performance in relation to human rights. Under normal circumstances we would be withholding support, however, given recent controversies in the sector, we are looking to the company to demonstrate robust anti-bribery policies and processes. We will give the company time to improve its disclosure before deteriorating our vote.

However, we have engaged with the company on this issue and in practice they only intend to buy back the shares they need to service share plans or if shares are considered cheap. Also, the fact is that French Law requires the Company to put a maximum price and the price they have determined is not as high as some French companies request but it does give them some flexibility if the share price significantly increases. We have encouraged the company to also provide an intention going forward that shares will not be bought back at more than a 10% premium, and we intend to review whether they have done this.

	Resolution 9. Reelect Antoine Frerot as Director	For (Exceptional)	<p>Under normal circumstances, we would vote against this resolution as Antoine Frerot serves as combined CEO/Chairman, a role we prefer to be split. The Chairman's role on a board is to evaluate and review the performance of management, and to ensure there are sufficient checks and balances; this role is obviously compromised when the Chairman is also the CEO. In addition, the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term. However, we decided to support, which should not be interpreted as support for the joint role but rather it is specific to the current circumstances of the company. The company is part way through a significant new strategic plan for 2012-2015, being driven by the current</p>

			<p>chairman/CEO Antoine Frérot. This new strategy was announced by Frérot in 2011 shortly after his appointment as chairman, which followed a number of years of shareholder concerns about the company's previous strategy and performance under the previous chairman. Although the board reconfirmed its support for Frérot on Feb. 26, 2014, there is evidence of significant fighting behind the scenes, between at least some of the non-independent directors and the independents on the board, with the non-independent directors apparently opposing Frérot's leadership, and one affiliated shareholder now publicly opposing Frérot's election. If Frérot were to be removed from the board under these circumstances, it is not clear from current opposition what alternative to the current strategy would be proposed, nor who would potentially lead the company going forward. Under such circumstances, we and other minority shareholders could be in a position of considerable uncertainty and risk. With the current strategy appearing widely considered to be on a successful track (although noting that some shareholders may have wished for quicker progress) we consider that these circumstances at Veolia indicate a significant risk to shareholders of instability and uncertainty should chairman/CEO Frérot be removed from the board at this time.</p>

	Resolution 5. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. Without doubt, there should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. We support this proposal seeking the adoption of a policy that requires the board's chairman be an independent director.

Given that the company already addresses certain aspects of its herbicide use and weed resistance management, it should not be prohibitively costly or unduly burdensome for the company to further extend this already existing reporting infrastructure to address the concerns articulated in this proposal.

We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. Energen is exposed to risks relating to health & safety, climate change and the environment. The company's environmental risks are associated with air and water pollution, water use and waste generation. However, as the company is not in the FTSE350 it is not mandatory. The current external auditor was appointed in 2001 and the company will continue to give consideration to the timing of a formal tender in the light of the regulatory regime, its assessment of the independence of the current auditor and any future changes in regulations. Report on Political Contributions	For (Exceptional)	<p>The New York State Common Retirement Fund is requesting that Newmont publish a report on its political contributions policies, procedures, and activities. Newmont asserts that it is committed to political spending transparency and that the information requested by the proponent is unnecessary because much of it is already publicly available, that if the information was provided as requested it would be misleading, and that the company has already approved and made a political contributions policy publicly available. While the company has discussed its rationale for participating in the political process and has provided information on management and board level oversight of political contributions, the comprehensiveness of the firm's disclosures, including membership in trade associations, appear to fall short with respect to the proponents' request. We note that, for example, Newmont discloses only the trade associations where the portion of the company's dues that were used for political activities were more than</p>

			<p>\$50,000. However, a vote for this proposal is warranted because:</p> <ul style="list-style-type: none"> • Implementation of this request will enhance shareholders' ability to assess whether the rationale driving the company's contributions, any trade association activities, and other politically-affiliated activities comports with the company's strategic interests. Incomplete disclosures regarding political contributions often represent a considerable gap with respect to shareholders' ability to fully and fairly evaluate the risks associated with corporate efforts to influence regulatory and legislative processes, as well as the benefits associated with such political activities • Given the company's current level of disclosure on relevant policies and oversight mechanisms regarding its political contributions, providing the additional disclosure requested by this proposal should not be inimical to the company or prove to be prohibitively costly, unduly burdensome, or competitively disadvantageous.

The Committee determined that given the developing nature of the regulations relating to audit tendering provisions from the Competition Commission and the EU, and that there are no contractual obligations that restrict the Company's current choice of external auditor, it would not be appropriate to instigate a tender process at the present time. This is something we should engage with them on. However, as the new CEO has only just started and there have been a number of acquisitions, we will review this arrangement again next year.

We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. MDU Resources Group is exposed to risks relating to climate change and the environment. The environmental risks are associated with energy use, water pollution, waste, water use and emissions to air. The company publishes some quantitative environmental performance data in its 2013 Sustainability Report but we would like to see aggregated data covering all of the company's operations. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Noble Energy is exposed to the risk of breaches of human rights norms. We acknowledge that the company publishes a CSR Policy which includes reference to all core ILO areas, and that its 2012 Sustainability Report includes the following statement: 'We are in the process of evaluating various human rights standards and procedures as we prepare to formulate our human rights commitment and the policies that will support it'. We would, however, like to encourage the company to report on its management approach and performance in this area. We will look for improved disclosure next year; without such an improvement, we will consider deteriorating our vote in future.

	Resolution 7. Approve Issuance of Equity or Equity-Linked Securities without Preemptive Rights	For (Exceptional)	Under normal circumstances, the authority would enable the Board to issue the equivalent of 15.53% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities which do not apply pre-emption or priority rights to be limited to no more than 5% or 10% in this case as its an AIM listed company, unless a clear justification and strategic rationale is provided to shareholders. However, upon our engagement with the Company seeking an explanation for the size of this authority, the Company confirmed that the main reason behind the disapplication of pre-emption rights is to ensure that the company minimises additional costs on any future fundraise (such as the one they carried out in 2013 to fund important acquisition opportunities) when marketing to institutional investors. Their stated strategy is very clearly to seek to continue to build the business through both organic and acquisitive growth and access to funding is an important element of that. The key point they have clarified is that any fundraise, even within the 15% disapplied limit, would be discussed with all major shareholders, including ourselves, at the time, and this is borne out by the Company's history in this area. As an aside, the Company calculates the percentage of the ISC over which they seek authority to disapply pre-emption rights by reference to the fully diluted share capital having taken into account the potential exercise of the outstanding warrants (equivalent to c. 35.4m shares) and, on that basis, the authority that they are seeking is in relation to just under 15%.

For (Exceptional)	<ul style="list-style-type: none"> Executive Chairman Lack of independence on Board Material governance concerns <p>This Director serves as combined CEO/Chairman, a role we prefer to be split. (Officially, the role is split with Arnold Donald as the CEO but as Arison picked Donald himself without a proper nominations process, our belief is that Micky Arison is still making the major decisions with Donald likely to be just a figurehead. The Chairman's role on a board is to evaluate and review the performance of management; this role is obviously compromised in this situation. In addition, this Director is an executive on a board with less than two-thirds majority independence on the Board (our guideline for US companies). 			<p>will take the total number of outstanding options to 13.06% (or 11.55% fully diluted) which exceeds the industry-wide guideline for share schemes (10%). However, we continue to engage with the Company on this issue and continue to be relatively comfortable for the following reasons</p> <ul style="list-style-type: none"> • The number of options outstanding is a legacy issue which investors were aware of at the time of the company's public listing (and when they bought into the company). This percentage has come down significantly (was 16.8%). • The Plan is reserved to YOOX's employees (not to Directors, not to the CEO) • It serves as an important tool to attract new talents, as well as retaining existing ones. Attracting new talents is a very important factor at YOOX, especially given the difficulty of finding talented people with e-commerce and technology skills in a market that is still relatively immature, such as Italy • This is not a new Stock Option plan: as a result of the lapse of 10,946 options corresponding to 569,192 ordinary shares relating to the "2009-2014 Stock Option Plan" approved by shareholders back in 2009, YOOX is proposing to allocate a number of options corresponding to 500,000 shares to the Plan (a lower number of shares than those resulting from the lapsed options). Given this, the Plan will not result in any further dilution compared with the situation at 31 December 2013 (i.e., before the options were considered lapsed by the Board). • All the Company's existing stock option plans are fully allocated at today's date (i.e., there are no options remaining that can still be granted) and 33% of outstanding options is related to options granted between 2000 and 2009. • The awards are market price (meaning the share price has to increase before awards are worth anything) • Vesting period: 3 years • 2 performance criteria attached to the plan, with clearly stated vesting thresholds and minimum achievement levels, below which no options vest
	Resolution 4. Authorize Share Repurchase Program and Reissuance of Repurchased Shares	For (Exceptional)	<p>Under normal circumstances we would have voted against this authority as the purchase premium can be up to 15% exceeding our guideline (for such authorities) of 10%. However, we have engaged with the company on this issue and it has provided some very useful data on the Company's historic practice of share buy backs which provides comfort and which has allowed us to support this authority. For instance, the</p>

			buy back price has never exceeded our threshold of 10% and in most cases the shares have been bought back at a discount to market price. In the few instances where a premium has been paid, the highest premium paid has been 2.8%. We have encouraged the Company to set a cap of 10% on future authorities of this nature.
	Resolution 1. Approve Capital Increase to Service Stock Option Plan	For (Exceptional)	Under normal circumstances we would have voted against this authority as the amount of options proposed equate to 0.85% of the share capital which will take the total number of outstanding options to 13.06% (or 11.55% fully diluted) which exceeds the industry-wide guideline for share schemes (10%). However, we continue to engage with the Company on this issue and continue to be relatively comfortable following its justifications (see res 3).

Reappoint PricewaterhouseCoopers LLP as Auditors and Authorise Their Remuneration	For (Exceptional)	The company has retained the same audit firm PWC in excess of ten years (since the Company's formation in 1989). Mandatory auditor rotation is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, we note that in order to prepare for a tender of the audit contract, the Company will offer small pieces of non-audit work to other firms in order to test the quality of each firm and its people. The Audit Committee plans to put the audit out to tender no later than 2018 when the new partner's five-year engagement cycle will be in its final year. We are comfortable with this explanation.

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. Without doubt, there should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. Request Board to Review How Shares are to be Given Equal Voting Rights and to Present a Proposal to That Effect at the 2015 AGM	For (Exceptional)	<p>Shareholder Einar Hellbom proposes that the general meeting require the board of directors to explore how Class A and Class B shares can be given equal voting rights and to propose a plan for achieving this to the next AGM. As we are supportive of the principle of one share one vote, we are supporting his proposal. Ericsson currently has a dual share capital structure. Class A shares carry one vote each, while Class B shares carry one-tenth of a vote each. Both share classes carry equal dividend rights, and there is no preference in terms of liquidation. Currently, B shares account for 92.1 percent of Ericsson's share capital but carry a disproportionately small portion of the voting rights (53.8 percent).</p>

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. Without doubt, there should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. However, it is not considered appropriate to oppose her re-election in order to ensure some stability/continuity following the significant board changes being made at the AGM including a change of chairman and the retirement of 2 non-executives, one of whom was another long serving non-executive. Indeed, the Company explains in the annual report that the Board believes that the skills, diversity and experience that Pamela Kirby brings to the Board with her in-depth knowledge of the Company are important for continuity in this time of transition. Also, her length of service is not sufficiently long enough to warrant any concerns. However, we do expect her to stand down from the Remuneration committee in due course.
	Resolution 11. Re-elect Brian Larcombe as Director	For (Exceptional)	Brian Larcombe is technically not independent as he has served on the Board for 12 years. Furthermore, he is going to be the new Senior Independent Director (SID) following the AGM and so by the very nature of the role, it should be performed by an independent director. Also, he sits on the audit and remuneration committees which should consist entirely of independent directors. However, it is not considered appropriate to oppose his re-election in order to ensure some

In particular, the Company explains in the annual report that Brian Larcombe is being appointed as SID to ensure a smooth transition between Chairmen and that the Board believes that the skills, diversity and experience that Brian Larcombe and Pamela Kirby (another non-executive who has served for 12 years) bring to the Board with their in-depth knowledge of the Company are important for continuity in this time of transition. Also, his length of service is not sufficiently long enough to warrant any concerns. However, we do expect him to stand down from the Remuneration and audit committees in due course. We note that the Nomination & Governance Committee has continued its search for additional NEDs, focusing, in particular, on the skills, experience, independence and diversity each candidate brings to the Board. The Committee looks for candidates who will support the strategic priorities identified by the Board and in 2014 will continue to look for NEDs with experience within emerging markets or within the US and European healthcare systems</p>

			<p>We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Lennar is exposed to risks relating to health & safety, climate change and the environment. Its environmental risks are associated with water pollution and waste, as well as indirect environmental impacts, such as material specifications. We would expect this company to publish quantitative data on its health & safety and environmental performance but none is available in the public domain. The company declined to participate in the Carbon Disclosure Project. Under normal circumstances we would be withholding support, however, we acknowledge that we voted on the company for the first time last year. We will continue to offer a vote of support but we strongly urge the company to publish quantitative data on its health & safety and environmental performance; without such reporting improvements, we will consider deteriorating our vote next year.</p>

Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. Without doubt, there should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a

All deferred bonuses and LTIP awards made to Brian McArthur-Muscroft remain outstanding subject to the applicable performance conditions and time pro-rated for actual service during the performance period. The award granted in 2013 under the Company's LTIP was not preserved and lapsed on 31 January 2014. We are not objecting to the acceleration of payment in lieu of notice period in this case as there was very little overpayment (£30,000 for settlement of any statutory claims</p>

Additionally, TSR is the sole performance measure for the Share Option Plan 2012 and there is no financial underpin. No minimum shareholding guidelines for directors have been disclosed (but the directors hold. There is no evidence of clawback arrangements being in place. However, as this is a smallcap company and pay is exceptionally low, we are giving the company the benefit of the doubt and supporting the pay arrangements. However, we will need to follow the progress of pay at this company to ensure it remains acceptable.</p>

Domino's Pizza Group plc AGM 02/04/2014 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Reappoint Ernst & Young LLP as Auditors	For (Exceptional)	The company has retained the same audit firm in excess of ten years i.e. since 1997. Mandatory auditor rotation is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, the Company has disclosed that the Audit Committee considered whether to tender audit services during 2013 for the 2014 audit for the first time as a public company. However, with the change of CFO and the need to appoint a new CEO in 2014, the Committee wanted to preserve continuity and will reconsider putting audit services out to tender during 2014. Consequently, we are comfortable in supporting the re-appointment of E&Y as auditors of the Company. In addition, we take comfort from the fact that there was no non-audit work carried out by the external auditors in the year under review and there is a formal policy governing the conduct of non-audit work by the auditors in line with the Auditing Practice Board's Ethical Standards.
	Resolution 3. Authorise Board to Fix Remuneration of Auditors	For	
	Resolution 4. Approve Final Dividend	For	
	Resolution 5. Re-elect Stephen Hemsley as Director	For (Exceptional)	He is the non-independent chairman (due to tenure and various former executive roles). However, we continue to be relatively comfortable with this arrangement, given his track record and wealth of experience in what is a fast growing international business. Also we want him to remain chairman to ensuring some continuity and stability given there has been significant board change over the year, including the

			departure of its CEO who has taken up the position of CEO of Saga and the retirement of the CFO at the 2014 AGM. Also, we take comfort from the fact that board is a majority independent.

Under normal circumstances as this director's term in office has only just exceeded 9 years, we would normally abstain on their re-election. 	Resolution 2.1. Elect Director Sawada, Michitaka	For (Exceptional)	<p>Under normal circumstances, we would have voted against the re-election of Sawada, Michitaka to reflect our concerns over the product recall incident at subsidiary Kanebo Cosmetics raising significant concerns over the lack of internal controls at the Company and on the board. Sawada who has been the president since June 2012. However, given all the incumbent inside directors except President Michitaka Sawada are stepping down from the board at the close of this meeting, if Sawada is voted down, the board will have no incumbent inside director, posing a threat to management continuity. This could be particularly imprudent when the company is faced with challenges dealing with the still-unfolding response to the complex events that led to the product recall at Kanebo Cosmetics. Therefore, voting down Sawada would carry unacceptable risk to management continuity for Kao and its shareholders. Moreover, Sawada deserves credit for reforms moving the firm toward more independent board oversight. As such, support is warranted this time.</p>

Korea Electric Power Corporation AGM 28/03/2014 SOUTH KOREA	Resolution 1. Approve Financial Statements, Allocation of Income, and Dividend of KRW 90 per Share	For (Exceptional)	At the time of analysis (14 March), the Company failed to disclose its Annual Report and Accounts. We feel the Company should disclose such vital information in a timely manner so shareholders can make an informed decision on voting matters ahead of the AGM. Normally we would vote against to reflect these concerns. However, the problem is that this resolution to approve the report and accounts is bundled with the approval of the dividend. Given we want the dividend to be approved (particularly as the company didn't pay one last year) we decided to exceptionally support this resolution.

Renewables Infrastructure Group Limited GBP Red.Shs EGM 28/03/2014 GUERNSEY	Resolution 1. Approve Capital Raising	For (Exceptional)	<p>Shareholder approval is being sought for the issuance of up to 120 million C Shares by way of a Placing, Open Offer and Offer for Subscription of C Shares. The Company is seeking to raise £85 million (before expenses) through the Placing, Open Offer and Offer for Subscription of C Shares. The Directors have also reserved the right to increase the size of the Issue to a maximum of £120 million to the extent that additional investments have been identified prior to the Placing Date and overall demand for C Shares exceeds the target amount. The Company acknowledges that, although the inclusion of the Open Offer ensures that a significant proportion of the C Shares will be exclusively available in the first instance to existing shareholders, the Capital Raising is not fully pre-emptive. Non-participating shareholders will see their shareholding diluted as a proportion of existing capital through the Open Offer, Placing and Offer for Subscription. However, in addition to a compelling business case for the Placing has been provided by the company, the Open Offer represents approximately 65% of the proposed Capital Raising, and therefore represents a substantial majority of the total capital raised. Moreover, we note that the use of a C Share structure in the raising of additional capital ensures that existing shareholders are not diluted on an NAV basis and this structure also ensures that the full costs of the Capital Raising will be paid by the C Share subscribers. We note that as the Company is Guernsey incorporated, the issuance resolution is not proposed as a Special Resolution (therefore only requiring a 50% majority to pass). Should the Company propose share issue authorities of this nature going forward, we would expect it to table them as special resolutions.</p>

	Resolution 8. Amend Articles Re: General Meeting Regulations and Special Agreements	For (Exceptional)	<p>The Company is proposing to increase the approval threshold for certain voting matters so that a three-fourths voting majority requirement will be required for the approval of any structural modification of the company, including mergers, spinoffs, and termination of its integrated model. Whilst this may be uncommon in this market, we agree with the Board's rationale that such changes/proposals constitute some of the company's most important decisions and thus should also require the higher consensus among all types of shareholders. Majorities of 75% are common for the approval of structural changes of a company by the Shareholders' Meeting in some of the most developed company jurisdictions —such as the UK and Germany. Any majority below that figure, for example, the two-thirds (2/3) contemplated under Spanish law, would be insufficient for such purpose. For example, based on previous voting levels and the structure of ownership (between significant shareholders and free float shareholders), it is possible that if as much as 90% of the Company's foreign institutional shareholders represented at the AGM opposed a structural change, the change would still be approved. Also, Repsol's AGM has already established 75% majorities in their bylaws for certain</p>

			relevant resolutions, such as the authorization of related party transactions and releasing Directors from their non-compete obligations. Any concern with providing significant shareholders with a veto to block a resolution is clearly misplaced. The Company has articulated that in fact it is the opposite: that the shareholders directly represented on the board would have a decisive influence on the outcome of an AGM without the 75% majority and that consequently, it is only the free float that would benefit for it. In addition, the Company say are no relationships whatsoever among Repsol's current significant shareholders that could give rise to such a concern.

	Resolution 2. Approve Remuneration Report	For (Exceptional)	<p>At the 2012 and 2013 AGMs we voted against the remuneration report to reflect concerns over continued salary increases (which followed special retention and turnaround awards in prior year). In addition, EPS performance conditions were not disclosed for the 2005 PSP to be used in 2012/13 and the scheme dilution limit of 12.5% exceeds 10% of the Company's issued, the industry-wide shareholder guideline for share schemes. However, we are now supporting as in 2013 we engaged with the company and it provided good explanations on these issues and there are also a number of improvements. The company has provided the expected disclosure regarding performance targets and we are comfortable with the company's explanations around dilution limit (partly a legacy issue which the company expects to be operating within 10%, although for the time being it needs additional flexibility due to the number of international employees). The current dilution level is 7.7%. Also, we really welcomed the introduction of a two year holding period under the PSP and the deferral of a proportion of the bonus into shares. However, we still have some reservations over the positioning of base salaries (CEO's salary has been increased from £407k to £420k with effect from April 2014) which are higher than peers (although we except the company is a truly international company making it more complex to run than some of its UK peers). We will be</p>

Twenty-First Century Fox, Inc. Class A EGM 21/03/2014 UNITED STATES	Resolution 1. Approve Delisting of Shares from Stock Exchange	For (Exceptional)	<p>The Company is proposing to remove its listing from the ASX (Australian stock exchange) which will aim to simplify the company's capital structure and consolidate trading on a single exchange (US). Following delisting from the ASX, current holders of ASXlisted CDIs will have the opportunity to sell into a voluntary share sale facility – if they don't exercise this option, their interests will be converted into NASDAQ-listed common stock on a 1-for-1 basis. Whilst we are not able to properly assess the costs and benefits of the proposed delisting (as the company does not provide any quantitative evaluation of the effect that the selloff of a significant number of Australian shares may have on the company's stock price), we believe that the simpler structure and cost savings of the delisting will be positive changes in the long run and increase the liquidity of the stock.</p>

Crest Nicholson Holdings Plc AGM 20/03/2014 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. Crest Nicholson Holdings is exposed to environmental risks associated with water pollution and waste, as well as indirect risks related to material specification and the environmental impact of its products. The company discloses environmental performance data in its Sustainability Report 2012 and in its 2013 Carbon Disclosure Project response but it does not cover site performance. In its Sustainability Report 2012, however, the company commits to establishing a baseline for site energy and water use. Under normal circumstances we would be withholding support, however, we acknowledge that the company is a recent addition to the FTSE250 index, and also that the company has committed to expanding the scope of its environmental performance data.

Without doubt, there should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

We disapprove in principle of bundling together proposals that could be presented as separate voting items because bundled resolutions leave us with an all-or-nothing choice, and making the directors less accountable to shareholders. However, we take comfort in this case that a majority of the board is independent. Note that under normal circumstances we would have abstained on this resolution to reflect our concerns over bundling but this is not a valid voting option, hence a vote against was not considered appropriate given the strong level of

	Resolution 12. Approve Remuneration Report	For (Exceptional)	<p>Although the new CFO was appointed on a basic salary higher than his predecessor and, upon recruitment, received an additional PSPS award equal to 100% of his basic salary, and CEO pay was increased by 8%, base pay levels are conservative, between lower quartile and median. Bonus payments appear reasonable compared with profits earned by Sage vs their peers. The scheme dilution limit of 7.5% exceeds 5% of the Company's issued share capital for this executive scheme, the</p>

			<p>industry-wide guideline for share schemes. There are no clawback or malus provisions included within the short- or long-term incentive plans. Executive Directors are required to build and maintain 150% of their annual base salary in the Company's shares. Until this requirement is met, Executive Directors must defer 20% of any payable bonus into shares and to retain up to 50% of shares received from any deferred bonus, PSP or option awards. At the year end, Guy Berruyer met the requirement (he holds 323% of salary in company shares) The Company pays up to 25% of annual base salary as a pension. The Company operates a defined contributions scheme but individuals may elect to receive some or all of their pension contribution as a cash allowance. In summary, there is no problem with quantum, in fact, they appear very conservative compared to FTSE100 Software & Computer Services Sector. The concern is structural e.g. the scheme dilution limit of 7.5%, no clawback or malus provision and low deferral of bonus (20% until shareholding requirements are met) and no deferral in LTIPs. In view of general acceptability of pay arrangements, we will speak to the company and let them know of our concerns as this may affect future voting decisions.</p>
	Resolution 13. Approve Remuneration Policy	For (Exceptional)	<p>As this is the first year of this binding resolution, it's not unexpected that disclosure can be improved. Areas for improvement include: Base salary: Indication of general positioning of pay e.g. at median Benefits: Some indication of maxima would be helpful. Annual Bonus: Would be helpful to have more detailed retrospective disclosure of bonus targets. Scenario chart: Would be helpful if used actual money rather than percentages. Discretion: Interestingly ISS say none specified but IVIS is concerned that the Committee has discretionary powers to award payments outside the policy if it deems this necessary in order to attract the right individual, although this is limited to 500% for variable pay. The company has the ability to use S9.4.2. of the Listing Rules to facilitate, in exceptional circumstances, the recruitment of a director.</p>

We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. Hologic is exposed to environmental risks associated with use of energy, water and air emissions and waste. Thomas Cook Group plc AGM 20/02/2014 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Policy	For (Exceptional)	<p>We welcome a number of improvements in pay arrangements (more appropriate positioning and alignment of pay including a higher deferral of bonus, the introduction of shareholding guidelines and the removal of rolling re-testing of performance under the LTIP), and our support for this resolution is largely reflective of this (note that we have voted against the remuneration report for a number of years). However, we have raised a couple of issues with the company: The main issue is that the Company's policy on contract buy-outs appears to leave the remuneration committee with too much discretion. i.e. there is no statement that the new joiner will receive no more than what they would have received at their former company. We note that there is a cap of 500% of salary but this does not apply to buy-outs so technically, buy out situations could result in the new recruit being paid more than they are giving up which we would have concerns over. For instance if the company pays sign-on awards to compensate for a loss at a previous employer other than forfeited awards of variable pay (i.e. the example provided by the Company was buying out a 2 year contract), we would want the company to explain why they have paid this additional amount and what it is for. Also, if we consider the buyout amount as too much e.g. it costs £2m to buy out the contract and/or this amount is not subject to performance conditions, we may still vote against the implementation. On a separate issue, the lowering of the amount of LTIP award for threshold performance (currently 30%) would provide further comfort.</p>

Avon Rubber p.l.c. AGM 06/02/2014 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	Base pay is well below lower quartile and even with the big pay increases (18% for CEO) for 2014, this is still lower quartile. In view of the continuing positioning at the lower end of the pay against peers, we are supporting the increase. Also base pay will be frozen now until 2016. The scheme dilution limit of 10% exceeds 5 percent of the Company's issued share capital for this executive scheme, the industry-wide guideline for share schemes. Disclosure of pay is fairly good. Multiples for bonus and incentive schemes has also increased but this has been accompanied with more challenging performance conditions. On balance, we are supportive as we believe they have taken a responsible position.

Mandatory auditor rotation is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, the Audit Committee states that the re-appointment of Ernst & Young as the Group's external auditor was reviewed during the year. The audit was put out to tender during 2012, with Ernst & Young chosen to continue with the audit services and KPMG appointed for taxation services, and the Group intends to put the audit out to tender at least every 10 years as required by the UK Corporate Governance Code. The Audit Committee has assessed the performance and independence of the external auditor which underpins its recommendation to the Board to propose to shareholders the re-appointment of Ernst & Young as auditor until the conclusion of the AGM in 2015. In addition, the Audit Committee has adopted a policy on the engagement of external auditors for the provision of non-audit services and reviews this annually

The integrity of the auditor's relationship with the company is compromised when a firm is paid excessive consulting fees on top of those paid for auditing services. This arrangement has the potential to open the auditor process to a wide range of conflicts of interest. However, we are mindful that the majority of these fees were 'Transaction Related Fees' which included £850,000 in respect of aircraft orders with Boeing and £420,000 which relates to the implementation of the COSO framework in the German businesses. We believe these events warrant these one-off fees.

Numis Corporation Plc AGM 04/02/2014 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	As the company has not put its remuneration report to the shareholder vote, we were going to vote against this resolution to reflect on-going concerns over pay arrangements (i.e no performance conditions apply to long term incentive schemes and vesting from the first anniversary of grant for some schemes). However, upon engagement with the Company we were advised that it has been looking at alternative scheme structures with external advisors but this has been delayed as a result of all the change going on in the market generally around remuneration, bonus caps, code staff definitions etc. The Company wants to ensure that what it puts in place addresses the new regulation, which is yet to be finalised in some respects, and also assesses developing market practice. Because of this, the Company confirmed that there were no grants of new share awards to the executive directors during 2013. Indeed there is only one executive (Lorna Tilbian) who has unvested shares – these being under the LTIP scheme. The company also confirmed that LTIP scheme typically vests in thirds on the 3rd, 4th and 5th anniversary of the grant date. It has a Restricted Share Unit (RSU) which vests in thirds on the 1st, 2nd and 3rd anniversary of the grant date but this is more of a deferred bonus scheme where the payment is in equity and deferred accordingly. We are comfortable with these clarifications and reassurances and said we would be happy to provide views on the new arrangements if required. Will keep under review.

Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. UDG Healthcare is exposed to environmental risks associated with its supply chain, through its moderate influence on the environmental attributes of products sold and packaging used. We would expect this company to publish quantitative environmental performance data but none is available in the public domain. The company responded to the Carbon Disclosure Project in 2013 but the response is not public. Under normal circumstances we would be withholding support, however, we would like to give the Company further opportunity to improve its quantitative reporting. We look forward

	Resolution 13. Appoint KPMG LLP as Auditors	For (Exceptional)	The company has retained the same audit firm in excess of ten years. Mandatory auditor rotation is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. the external audit contract out to tender despite KPMG being Auditor since 1993. However, the Annual Report notes that the Audit Committee considered the length of KPMG's tenure during the year and the results of the detailed questionnaire when assessing their continued effectiveness, independence and re-appointment. The Committee continues to consider KPMG to be independent and when considering the most suitable timing for a future audit tender, took account of FRC guidance concerning the alignment of the tender date with the rotation of the audit partner and the report from the Competition Commission, which is expected to result in mandatory tendering at least every 10 years. As a new audit partner was introduced in 2013, the Committee has provided the Board with its recommendation to the shareholders to re-appoint KPMG as external auditor for the year ending 30 September 2014. This will continue to be assessed on an annual basis considering the provisions outlined in the revised UK Corporate Governance code in respect of external audit tendering and the recent changes resulting from the Competition Review. We are comfortable with this arrangement for now but would expect the Company to put the audit out to tender next year.

Rock-Tenn Company Class A AGM 31/01/2014 UNITED STATES	Resolution 1.1. Elect Director Jenny A. Hourihan	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. Rock-Tenn is exposed to environmental risks including energy, water use and emissions, and supply chain impacts related to the sourcing of raw or post-consumer fibres. We note that since last year, the company has not published an updated Sustainability Report, and, as last year, the 2013 Carbon Disclosure Project response is not published. In light of this lack of improvement, we would normally abstain again this year. We encourage the company to improve its performance next year.</p>

Mitchells & Butlers plc AGM 30/01/2014 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	<p>Whilst we would like to see the Company disclose its policy on Board diversity (particularly on gender) and provide more detail regarding its nomination process, we welcome the fact that during the year the Board appointed 3 independent directors (which appear to have the appropriate skills and experience), one of whom is a female (representing 11% women on the board). This marks a significant improvement to last year, where there were no independent directors and no women. Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Mitchells & Butlers is exposed to environmental risks associated with resource use and waste generation, as well as the indirect impacts of the supply chain. We note that the company publishes details of environmental initiatives in its 2013 Annual Report and Social Responsibility Review 2012, but there is no absolute quantitative data on environmental performance. The company publicly reported emissions data to the Carbon Disclosure Project in 2012, but declined to respond in 2013. Under normal circumstances we would be withholding support, however, we would like to give the company the opportunity to improve its disclosure of quantitative environmental performance data. We look forward to enhanced reporting next year.</p>

	Resolution 2. Approve Remuneration Report	For (Exceptional)	Arrangements are generally fine and the new LTIP (adopted last year) is a marked improvement on the previous LTIP arrangements. The main issue we will be keeping an eye on are the award levels which are 200% of salary for the CEO and 140% for other executives. However, the mitigating factors are the stretching performance targets (TSR and EPS) with an additional underpin on the TSR measure whereby in order for this element of the award to vest, the Company's share price at vesting must be greater than that at grant over the six months after the vesting date. Thee deferred bonus plan which was also approved at the 2013 AGM also has an increased maximum in annual award to 200% of basic salary or rather gives the company flexibility to award matching shares for any deferred bonuses .However, the Company has given a commitment that in practice the limit will not be increased from its currently level of 100% of salary and it is not the company's current intention to grant matching shares. The Company's commitment to not increase the annual bonus award limit is considered appropriate given that companies are encouraged to exercise restraint at this time. We certainly wouldn't be supportive of matching shares.

	Resolution 7. Re-elect Eddie Irwin as Director	For (Exceptional)	Under normal circumstances we would have not supported this re-election of this director and he is not independent (due to being a shareholder representative) and independent directors represent 38% of the board whilst we expect a majority for a company of this size. In addition, this director sits on the audit and remuneration committees which should consist entirely of independent directors. However, we welcome the fact that during the year the Board appointed 3 independent directors. This marks a significant improvement to last

			year, where there were no independent directors, although we expect the company to continue to work towards appointing further independent NEDs to achieve Code compliance.
	Resolution 8. Re-elect Bob Ivell as Director	For (Exceptional)	Non-executive Chairman Bob Ivell is not independent (on appointment) as he is a former CEO of the company. We do not generally support former CEOs becoming chairmen, and the company has not provided a sufficient explanation or justification. As such, under normal circumstances we would have not supported this re-election particularly as independent directors represent 38% of the board whilst we expect a majority for a company of this size. However, we welcome the fact that during the year the Board appointed 3 independent directors. This marks a significant improvement to last year, where there were no independent directors, although we expect the company to continue to work towards appointing further independent NEDs to achieve Code compliance. He also relinquished his role as executive chairman in Nov 2012 so this is a better arrangement that it was and also given the difficulties the company has faced over the last few years, this is arguably a sensible arrangement to ensure continuation and stability.
	Resolution 9. Re-elect Tim Jones as Director	For	
	Resolution 10. Re-elect Douglas McMahon as Director	For (Exceptional)	Under normal circumstances we would have not supported this re-election of this director and he is not independent (due to being a shareholder representative) and independent directors represent 38% of the board whilst we expect a majority for a company of this size. This marks a significant improvement to last year, where there were no independent directors, although we expect the company to continue to work towards appointing further independent NEDs to achieve Code compliance.
	Resolution 11. Re-elect Ron Robson as Director	For (Exceptional)	Under normal circumstances we would have not supported this re-election of this director and he is not independent (due to being a shareholder representative) and independent directors represent 38% of the board whilst we expect a majority for a company of this size. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. We support this proposal seeking the adoption of a policy that requires the board's chairman be an independent director.

Jacobs Engineering Group Inc. AGM 23/01/2014 UNITED STATES	Resolution 1a. Elect Director Juan José Suárez Coppel	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. Jacobs Engineering Group is exposed to risks related to climate change and the environment. The environmental impacts are associated with water pollution, waste, and energy use. We would expect the company to publish comprehensive environmental performance data in the public domain. The company reports its UK emissions to the Carbon Disclosure Project 2013 but the UK accounts for under 16% of the company's revenues. We are pleased that the company provided a water response to the Carbon Disclosure Project for the first time in 2013 but we note that it related to UK operations only. As last year, we encourage the company to increase the scope of its data coverage.</p>

	Resolution 17. Elect Akira Suzuki as Director	For (Exceptional)	Akira Suzuki has replaced Kenichi Miyanaga (who resigned from the Board on 29 August 2013) as shareholder representative of Mitsubishi UFJ Trust & Banking Corp. The Board does not comprise sufficient independent NEDs to meet the Code's requirements (i.e. 43% of the Board). However, this is largely due to the high number of executive directors on the board (6) and we welcome that fact that the balance of the Board has improved significantly over the last few years (i.e. the Company has provided good disclosure about its commitment on succession planning in which it has replaced long-serving non-executives since 2009). The Board states that it intends to appoint a further independent non-executive director in 2014 and, to enable a smooth transition and transfer of knowledge, Anita Frew has been asked to continue as a director until 30 September 2014. As such, the

			presence of this non-independent director on the Board is not as issue for us. In addition, we take comfort that Mr Suzuki does not sit on the Committees which are reserved for independent NEDs.

	Resolution 12. Approve Remuneration Policy	For (Exceptional)	Concerns remain on threshold vesting under the LTIP, specifically the fact that 30% of the award vests for threshold performance (which is usually 25%) and is an issue exacerbated as there are two long term incentive arrangements (LTIP and share matching plan) effectively paying out for the achievement of the same performance targets. We have seen that a few companies have moved away from share matching schemes altogether but the bigger issue is the amount vesting for threshold performance given the existence of 2 schemes. On more of a policy related issue we note the flexibility for the Remuneration committee to go outside the standard approach in exceptional circumstances without notable constraints or limits. We see that the

Schedule of voting on company resolutions

			<p>Committee will not exercise discretion to reward failure, and any use of this discretion will be reported. Lastly, there is potential for dividends to accrue on vested shares from the period between vesting and exercise. We encouraged the Company to review this currently under review. However, there are no material issues and Remuneration Committee will be doing a review of remuneration arrangements this year and upon engagement with the Company we were informed that this will include further consideration to the matters we have identified. This review of remuneration arrangements was postponed from FY2013 in light of the substantial refreshment of the Board undertaken during FY2013, the appointment in June 2013 of a new Chairman of Remuneration Committee and the substantial work necessary to implement the Government's new regulations on Directors' remuneration. The Company accepts that with hindsight and in light of recent developments, it has probably got the balance slightly wrong on Committee discretion and should have included more constraints/limits on its operation in addition to acting only in the best interests of the Company; this is a difficult and developing area as the December year ends prepare their Remuneration Policies. The Company confirmed that there is no current intention to make payments in excess of any caps disclosed in the policy table and pointed out that its track record over the past ten years would show that the Remuneration Committee has never exercised its discretion to make payments outside of the stated policy. Nevertheless, the Company confirmed that it will tighten this wording up next year in light of market practice.</p>
