	Resolution 5. Re-elect John Bentley as Director	For	
	Resolution 6. Re-elect Roger Witts as Director	For (Exceptional)	Under normal circumstances, we would have voted against this Director as he is not independent (due to being former executive and having served on the board for 10 years) and dependent on one's interpretation of the considerations mentioned below, independent directors represent less than a third of the board (our minimum expectation for a company of this size). He also chairs the audit committee and sits on the remuneration committee which should comprise solely of independent directors. However, we have exceptionally supported his re-election as we note from the annual report that the Nomination Committee has resolved to appoint a further independent NED in 2017 (and has appointed a recruitment specialist to assist in a formal, rigorous and transparent process). In addition, we note that the board would be sufficiently independent should we consider Timothy Read as independent. He received additional fees of £7,000 during the year (for additional time spent on activities which are outside his ordinary duties as a director) and whilst these are noteworthy and should not be a regular arrangement, the amount is not material for us to be concerned over his independence, nor are we overly concerned about the broader objectivity of the non-executive directors, particularly as there will be some board change in due course.

	Resolution 5. Re-elect Leo van Doorne as Director	For (Exceptional)	<p>Under normal circumstances we would have voted against this director as he is technically not independent (due to holding options) and independent directors represent less than a third of the board (our minimum expectation for a company of this size). In addition, this director sits on the audit committee which should comprise entirely of independent directors. However, we have exceptionally supported his re-election to reflect that having engaged with the Company on this issue last year, we received a commitment that non-executives will not receive further grants of options. In terms of the non-executive directors' independence, the Company considers that their interests are closely aligned with those of the broader shareholder base, in that their options carry exercise prices ranging from 60p (the IPO price) to 70p (the pricing of our secondary issuance in 2014, the high watermark for the fundraising), so the directors only benefit proportionately to the benefits enjoyed by the broader investor base. However, as discussed, we welcome that no further options will be granted as otherwise the strike prices may result in non-executives agreeing decisions that may benefit shareholders in the short term, but not in the long term.</p>

	Resolution 2.1. Elect Director Saegusa, Tadashi	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Misumi Group Inc. is exposed to environmental risks relating to water pollution, energy use and water use. We would therefore expect this company to publish raw performance data in these areas, but none is available in the public domain. As this company has not been voted on before, we recommend a vote of support, and encourage MISUMI Group to improve its reporting next year.

We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Weatherford International plc is exposed to the risk of human rights norms being breached within its operations. We would therefore expect this company to publish a human rights policy and report on its systems and performance, but little information is available in the public domain. We note that the Code of Business Conduct contains a general commitment to the UDHR, ILO core labour standards and a non-discrimination statement, but there is no explicit listing of individual labour standards, nor additional information on the</p>

	Resolution 5. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

	Resolution 10. Amend Compensation Clawback Policy	For (Exceptional)	A vote for this proposal is warranted as the company's current clawback policy does not provide for the disclosure of the amounts and circumstances surrounding any recoupments. Such disclosure would benefit shareholders.
	Resolution 11. Require Independent Board Chairman	For (Exceptional)	A vote for this proposal is warranted. While acknowledging that the current chairman is an independent director, the governing documents do not have a permanent policy that the chairman be an independent director. 	Resolution 5.1. Reelect Jesus Martin-Garcia as Director	For (Exceptional)	<p>Under normal circumstances we would have voted against the re-election of this Director as he serves as combined CEO/Chairman, a role we prefer to be split. The Chairman's role on a board is to evaluate and review the performance of management, and to ensure there are sufficient checks and balances; this role is obviously compromised when the Chairman is also the CEO. This concern is exacerbated given independent directors represent less than a third of the board. However, we have exceptionally supported their re-election as we have recently become shareholders in the company and as such, we will instead engage with the company in order to understand the company's views and to give it time to address any issues that we consider we will not be able to support on a continuing basis. Also, there is a separate resolution (number 6) that allows shareholders to decide whether he should remain as chairman. 	Resolution 2. Elect Sarena Cheah Yean Tih as Director	For	
	Resolution 3. Elect Jeffrey Cheah Fook Ling as Director	For (Exceptional)	<p>Under normal circumstances we would have voted against this director as he is Chairman (due to being of executive capacity) who ideally should be independent in the interests of maintaining a balanced unitary Board. In addition, he sits on the remuneration committee which we consider to be inappropriate as the committee should consist entirely of independent / non-executive directors. However, we have exceptionally supported his re-election to reflect our engagement with the company last year on these issues and the mitigating factors. He is the single largest shareholder of Sunway Berhad and his interests are properly aligned with the interests of the rest of the stakeholders. Notwithstanding this, the Board has the intention to increase the number of Independent Directors such that they will comprise the majority of the Board composition (we note that the 4 independent non-execs already represent 50% of the board). We have also been advised that Tan Sri Dr Jeffrey Cheah's membership on the Remuneration Committee is simply to enable him to explain the performances of the other Executive Directors of the Company. When it comes to deliberation on Tan Sri Dr Jeffrey Cheah's remuneration, he leaves the room and abstain from all deliberation and making of decision.</p>

	Resolution 6. Approve Creation of EUR 4.1 Million Pool of Capital without Preemptive Rights	For (Exceptional)	Under normal circumstances, we would have voted against this authority as it would enable the Board to issue the equivalent of 50% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. Further, this authority is valid for 5 years and we believe that authorities of this nature should be put to shareholders on an annual basis, as over the year there may be significant changes in company circumstances or in market conditions. However, we have exceptionally supported following a discussion with the company. This resolution is an important authority that is required in order to facilitate the next development steps of the company. The company explains that if and insofar they should contemplate an offering on a foreign stock exchange (they are listed on Euronext in Amsterdam), they will be at a significant disadvantage as far as executions of transactions are concerned compared to say German subscription rights (and they are the only German AG listed on Euronext). So the approval they are asking for is effectively to ensure a level playing field with their peers and competitors. Also, we can easily and without any legal restrictions participate in any new issues before they are granted to new investors, which will help us protect our large position. Given the size and nature of the business we consider it important for the company to have this flexibility.

Ted Baker PLC AGM 13/06/2017 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances we would have voted against the R&As as there continues to be just one woman on the Board. However, we are relatively comfortable with this given the company's disclosures on diversity and we note that there continue to be more women on the executive committee and as senior managers than men (64 vs 55), and across the organisation. In addition, there have been no board changes during the year so this is something that we will be keeping under review / scrutinising in respect of new appointments to the board.

AA Plc AGM 08/06/2017 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	<p>Under normal circumstances we would have voted against the Report & Accounts to reflect our concerns that there continues to be just one female Director on the Board and as a large FTSE company, we would expect there to be the appropriate diversity mix on the board, including gender. However, we note that the last board appointment was female (replacing another woman who stood down). In addition, the Company's strong disclosures on this issue continue to provide comfort i.e. the Company monitors and seeks to ensure a good balance of male and female employees throughout its Group and continues to build a supportive and flexible culture that enables to develop and retain women in senior positions. Also, that AA supports the recommendations of Sir John Parker's review increasing ethnic diversity at Board level, developing candidates for Board positions and enhancing transparency and disclosure. These changes can only be achieved by either an additional appointment to the Board or replacement when another Director steps down, neither of which was necessary or occurred during the past year, but the Board will actively consider this during the coming year. However, to achieve these targets, the Committee is working closely with the Human Resources Director to develop clear recruitment plans which recognise the need to increase the diversity of the Board,</p>

			while being mindful that appointments are made on merit. Indeed, one of the nomination committee's objectives for the 2018 fy is to Develop diversity action plan – to ideally meet Lord Davies' target of 33% women on the Board by 2020 and the recommendations on ethnic diversity made by Sir John Parker in his 2016 review. We note that women represent 30% of executive management which is pleasing to see given the nature and history of the business

	Resolution 4. Re-elect Bob Mackenzie as Director	For (Exceptional)	Under normal circumstances, a director performing the roles of chairman and CEO would warrant concern and would rarely receive our support. However, shortly after the company's flotation (June 2014), the CEO and CFO left. Martin Clarke has been appointed in the latter role, while Bob Mackenzie now combines the CEO and Chairman roles as Executive Chairman. Withholding support on his re-election is not considered appropriate given the company being relatively newly listed and because there is an ultimate intention to split the roles (expected after 2017). Indeed, the Company indicates that a succession plan will be commenced to find a new CEO for FY2018, after which Bob Mackenzie will assume the role of a non-executive Chair. We are comfortable with this arrangement/explanation but will of course, be keeping the situation under close review.

Vertex Pharmaceuticals Incorporated AGM 08/06/2017 UNITED STATES	Resolution 1.1. Elect Director Alan Garber	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Vertex Pharmaceuticals Incorporated is exposed to environmental risks associated with air and water pollution, water consumption and hazardous waste. We would expect this company to publish environmental performance data, but none is available in the public domain. The company has not submitted a response on its carbon data to the CDP.</p>

			<p>associations in which it participates. However, outside of these disclosures, Devon does not provide information on the company's direct lobbying policies, practices, or board-level oversight mechanisms. In addition, the company does not provide information on its trade association payments or oversight mechanisms. Shareholders would benefit from increased disclosure on these issues, as it would allow them to be better informed of the company's public policy positions and better assess the relative risks and benefits of the company's climate change and energy policy-related lobbying activities, and how the company is managing those activities. Therefore, this proposal merits shareholder support.</p>
	Resolution 8. Annually Assess Portfolio Impacts of Policies to Meet 2 Degree Scenario	For (Exceptional)	<p>Devon provides disclosure on risks related to the potential impacts of climate change regulations on the company's business in its 2016 Form 10-K. The company acknowledges that the adoption of regulations to reduce GHG emissions could result in increased operational costs at the company, and could reduce the demand for the company's product. Devon reports that it is unable to predict the impact of compliance costs due to changes in environmental regulations, but states that its capital expenditures and operating expenses have increased over the years as result of environmental regulations. In its 2016 CDP response, Devon provides information on how it integrates climate change risk into its business strategy, and states that uncertainty about future emissions regulations creates a risk for its business. The company reports its Scope 1 and 2 GHG emissions but does not have a companywide GHG reduction target, though it reports a GHG intensity target for three of its facilities located in Canada. The company also discusses some of its efforts to reduce its emissions through its investment in new technologies in its 2016 CSR Report. While Devon acknowledges that climate change regulations could have an impact on the company, it does not provide details regarding how such regulations will impact the company's portfolio, nor does it discuss how these regulations are accounted for in its current capital-investment decisions. Shareholders would benefit from more comprehensive information about the impact that climate change regulations designed to limit global warming to no more than 2 degrees Celsius over pre-industrial levels might have on</p>

			the company, given its continued significant investments in oil and gas projects. This includes information, supported by scenario analyses, on how Devon considers the impact of climate change laws and regulations on the demand for the company's products. Furthermore, the company does not provide comprehensive information on board or management level oversight of climate change or greenhouse gas emissions-related issues. Such information would allow investors to better assess the risks that climate change regulations may pose to the company and shareholder value, and Devon's management of these risks. This proposal therefore warrants shareholder support.
	Resolution 9. Report on Lobbying Payments and Policy	For (Exceptional)	In its 2016 CSR report, Devon discusses its rationale for engaging in public policy, and states that it participates in industry associations and trade groups that share its views. In its Code of Business Conduct and Ethics, the company notes that the Vice President Public and Government Affairs must grant approval before any employee can represent the company in making contact with a government official for the purpose of influencing legislation, regulation, or any other official action. However, Devon does not provide comprehensive information on the company's public policy priorities, nor any disclosure on its lobbying activities and expenditures. Aside from its mention of management approval for any employee engagement in public policy, Devon does not discuss any oversight mechanisms it may have implemented to oversee its corporate lobbying activities. In addition, the company does not provide information on its trade association activities and related oversight mechanisms. Additional disclosure would allow shareholders to better assess the company's comprehensive lobbying-related activities and management of related risks and opportunities. Therefore, this proposal merits shareholder support.
	Resolution 10. Report on Using Oil and Gas Reserve Metrics for Named Executive's Compensation	For (Exceptional)	A vote for this resolution is warranted as its adoption would incentivize company executives to further manage long-term sustainable value creation and any related risks.

First Pacific Co. Ltd. AGM 07/06/2017 BERMUDA	Resolution 1. Approve Financial Statements and Statutory Reports	For (Exceptional)	<p>This vote reflects our concerns over the lack of Social, Environmental and Ethical (SEE) policy/disclosure at this company. First Pacific Co. Ltd. is exposed to risks associated with human rights, supply chain labour standards, climate change and the environment. The environmental risks are related to energy and water use, water and air emissions, and waste. The company does not report on environmental performance data. We encourage the company to disclose information on their environmental performance data and to submit a response on its carbon data to the CDP. With regards to human rights, we note that Philex Mining Corporation has improved its reporting. With respect to supply chain labour standards, we encourage the company to publish details of its approach and performance on this issue. We will continue to withhold support this year as we would like to encourage the company to improve its disclosure on its social and environmental performance.</p>

Report on Plans to Address Stranded Carbon Asset Risks	For (Exceptional)	Hess acknowledges that shifts in climate change-related trends and regulation pose significant risks to the company. In its 2015 Corporate Sustainability Report, the company discusses its targets and initiatives for reducing emissions, indicating that it seeks to achieve a 25 percent

Schedule of voting on company resolutions

			<p>reduction in GHG emissions intensity by 2020, based on its 2014 baseline. The Report also includes information on carbon asset risk, where Hess indicates that it is factoring carbon prices into evaluation process for new projects, and outlines its emissions reductions initiatives for flaring, natural gas capture, transportation, and other operations. In its 2016 Form 10-K, Hess acknowledges that regulatory efforts to reduce greenhouse gas emissions could result in substantial capital expenditures and severely reduce the value of its business. Further, in its CDP response, the company indicates its Scope 1 and Scope 2 emissions reduction targets, and states that potential carbon asset risks may reduce the company's ability to access debt and equity. Finally, Hess indicates that the environment, health and safety subcommittee of its Audit Committee provides management level oversight for risks and strategies related to its environmental initiatives. While Hess acknowledges that climate change regulations could have an impact on the company, it does not provide details regarding how climate change regulations, consistent with keeping global temperature rise well below 2 degrees Celsius, will impact the company's asset portfolio, nor does it discuss how these regulations are accounted for in its capital investment decisions. A growing number of the company's peers are reporting on the risks that a low-carbon transition poses, and articulating plans to manage those risks. Shareholders would benefit from more comprehensive information about the impact that climate change regulations designed to limit global warming to no more than 2 degrees Celsius over pre-industrial levels might have on the company. Such additional disclosure would allow investors to better assess the related risks posed to the company and shareholder value, and Hess' management of these risks. This proposal therefore warrants shareholder support.</p>

This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Tourmaline Oil Corp. is exposed to risks associated with health & safety, climate change and the environment. 	Resolution 1.2. Elect Director Willard Dere	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. BioMarin Pharmaceutical Inc. is exposed to environmental risks associated with air and water pollution, water consumption and hazardous waste. We would expect this company to publish quantitative environmental performance data but little is available in the public domain. The company has not submitted a response on its carbon data to the CDP. We are moving our vote to an against this year to reflect the continued lack of environmental performance data.</p>

We consider this inappropriate as the committee should consist entirely of independent directors. However, we have exceptionally supported his re-election as his independence has only just become an issue (being tenure only) and as remedial steps are being taken. The Company explains that an extensive search and interview process for potential candidates with mining and technical experience was undertaken (to replace him), but due to the specific knowledge and experience required it proved difficult to find a suitable replacement. As such, the Board confirms that Gavin Beevers' re-election will provide continuity to the Board given his significant knowledge of the business.</p>

There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. 	Resolution 7. Include Diversity as a Performance Metric	For (Exceptional)	A vote for this proposal is warranted because establishing senior executive diversity performance metrics as a broader component of CEO pay setting decision-making would serve to ensure that diversity-related goals are appropriately considered and prioritized. Such goals would enhance the company's ability to attract and retain high quality employees.
	Resolution 8. Report on Pay Disparity	For (Exceptional)	A vote for this resolution is warranted for the following reasons:- Enhanced disclosures of pay disparities between executives and regular employees could allow for more informed and contextual assessments by shareholder of whether executive compensation practices are reasonable and fair; and- Excessive pay disparities between senior executives and rank-and-file employees could pose risks to long-term shareholder value, and impact employee morale as well as a company's standing in the communities in which it operates.
	Resolution 9. Report on Gender, Race, or Ethnicity Pay Gap	For (Exceptional)	A vote for is warranted, as adoption of this proposal should serve to further strengthen the company's existing diversity initiatives. Additionally, given that other companies have shown support for eliminating inequality on pay and achieving pay parity, it should not be prohibitively costly or unduly burdensome for the company to take on similar actions.
	Resolution 10. Report on Net-Zero Greenhouse Gas Emissions	For (Exceptional)	A vote for this proposal is warranted for:- While the existing initiatives the company has in place to harness the opportunities presented by climate change are commendable, the resolution should serve to complement and further the company's greenhouse gas (GHG) emissions reduction goal, energy efficiency- and GHG emissions-related initiatives, management programs, and oversight mechanisms to manage these emissions; and- The requested report should not be

It would also allow shareholders to better understand and assess how the company is comprehensively managing its GHG emissions. We note that the Company received a B score in the CDP questionnaire so there is room for improvement for a fully integrated climate change strategy that is driving reductions in emissions

We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. Wal-Mart Stores, Inc. is exposed to risks associated with supply chain labour standards, as well as bribery and human rights in its own operations. We are aware of allegations in the public domain relating to breaches of international norms by the Company; these include ILO labour standards, the UN Convention against Corruption and international human rights principles. We urge the company to enhance its management systems in these areas and to address these allegations more effectively. In particular, we encourage the company to publish a human rights policy, covering its own operations, and to report on its management approach and performance on this issue. On the basis of the volume of allegations relating to breaches of international norms, we are voting against this year.</p>

	Resolution 7. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

	Resolution 5. Report on Lobbying Payments and Policy	For (Exceptional)	Chevron articulates its rationale for participating in the political process and discusses the public policy issues that are important to the company and its shareholders. The company provides information on its management and board-level oversight mechanisms for managing Chevron's direct and indirect lobbying activities, stating that the Policy, Government and Public Affairs manager provides guidance when engaging in lobbying-related activities, and that the Public Policy Committee annually reviews such expenditures. Chevron discloses some information on its trade association participation, and provides a list of organizations that represent 90 percent of the company's annual membership expenditures. However, the company does not provide comprehensive disclosure of its trade association payments, including payments that are non-tax deductible. Non-tax deductible payments include membership dues and other expenditures that are used for lobbying purposes. Moreover, the company does not provide information regarding its direct or indirect lobbying payments. Incomplete disclosures of lobbying activity and expenditures may leave a gap with respect to shareholders' ability to fully evaluate the risks associated with corporate lobbying efforts, as well as the benefits associated with such activities. Therefore, this proposal merits shareholder support.
	Resolution 6. Report on Risks of Doing Business in Conflict-Affected Areas	For (Exceptional)	A vote for this resolution is warranted given that:- The company has business ties to countries with histories of political instability and human rights issues;- Shareholders would appear to benefit from additional information on the assessment of adopting a policy of not doing business with governments that are complicit in genocide and/or crimes against humanity; and- The additional disclosure would serve to further enhance Chevron's existing human rights policies, aid in reducing

			controversies that may lead to financial liability and reputational damage for the company, and mitigate potential associated operational risks.
	Resolution 8. Assess and Report on Transition to a Low Carbon Economy	For (Exceptional)	<p>Chevron provides disclosure on risks related to the potential impacts of climate change and climate change regulations on the company's business on its website, in its Managing Climate Change Risks: A Perspective For Investors Report, in its 2016 CDP Climate Change Report, in its 2015 Corporate Responsibility Report, and in its 2016 Form 10-K. The company integrates GHG issues, climate change-related risks, and carbon pricing risks into its strategy and business planning process. The company has an Enterprise Risk Management Process that allows it to identify major risks and ensures there are mitigation plans in place. Citing IEA forecasts, Chevron believes demand for fossil fuel-based energy will remain significant even in a carbon-restricted scenario, and that there is minimal risk to its assets and capital investments. The company reports that based on its analysis of a carbon constrained future, one that is consistent with the IEA's 450 Scenario, while certain high-cost assets may be impacted due to reduced demand, its lower-cost assets will remain competitive. The company does acknowledge, however, that regulation of GHG emissions could increase the company's operational costs and reduce demand for its product. The company does not have a GHG emissions reduction goal, and its GHG emissions have varied somewhat, but remained relatively flat for the past four years. Chevron's Public Policy Committee provides oversight of climate change-related issues and the company also discusses some of its research and development initiatives regarding renewable energy. While Chevron provides information regarding its risk management and business planning process and its analysis of a carbon constrained future on its business, the company does not provide comprehensive information on how its portfolio would be positioned under the IEA's 450 Scenario. In its analysis, Chevron does not provide details regarding a business plan, or a portfolio mix, to remain competitive under a 2 degree Celsius scenario. Such information would allow investors to better assess the risks that climate change regulations may pose to the company and shareholder value. This proposal therefore warrants shareholder support.</p>

	Resolution 9. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 10. Require Director Nominee with Environmental Experience	For (Exceptional)	Chevron's Public Policy Committee is responsible for identifying, evaluating, and monitoring environmental issues that could have an impact on the company, and for assisting the board in fulfilling its related oversight duties. Chevron expanded its board membership criteria in 2010 to include environmental expertise as a desirable candidate skill. The company also discusses its environmental policies, programs, and initiatives, its operations in Nigeria and Brazil, and its Ecuadorian litigation. Although the company contends that nine of its current director nominees have environmental experience, it appears that the environmental experience of the board's independent directors was mostly tangential to core responsibilities, and none of the directors have the environmental training or education that would indicate expertise on the subject. A director with environmental expertise would be of value to Chevron in light of ongoing and recent environmental controversies related to the company's operations. Such a director could enhance the board's oversight of environmental risks and concerns in the company's operations. This resolution therefore warrants shareholder support.
	Resolution 11. Amend Articles/Bylaws/Charter -- Call Special Meetings	For (Exceptional)	A vote for this proposal is warranted. Lowering the threshold to call a special meeting and removing the agenda item restrictions would enhance the current shareholder right to call special meetings.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for authorities without pre-emptive or priority rights attached to be limited to no more than 10% of the share capital, unless a clear justification and strategic rationale is provided to shareholders. No such justification has been provided in this case. However we are mindful that this is the level that has previously been granted and given the Company's market cap is only £21m we are comfortable in giving the Board more headroom (as even 20% of £21m will only raise £4.2m). 	Resolution 3. Advisory Vote to Ratify Named Executive Officers' Compensation	Against	<ul style="list-style-type: none"> • Lack of performance related pay • Concerns over generous benefits • Poor disclosure • Lack of retrospective disclosure on bonus awards • Poor performance linkage
	Resolution 4. Advisory Vote on Say on Pay Frequency	For (Exceptional)	In the US, companies are now required to give shareholders a choice of one, two or three years for the preferred frequency of advisory say-on-pay votes. We have voted for our preferred frequency of one year.
	Resolution 5. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 6. Require a Majority Vote for the Election of Directors	For (Exceptional)	A vote for this proposal is warranted as it would give shareholders a more meaningful voice in the election of directors and further enhance the company's corporate governance.
	Resolution 7. Amend Bylaws -- Call Special Meetings	For (Exceptional)	A vote for this proposal is warranted, as the ability of the holders of 15 percent of outstanding shares to call a special meeting would supplement shareholders' existing right under New Jersey law to petition the Superior Court to call a special meeting upon a showing of good cause.
	Resolution 8. Amend Bylaws to Prohibit Precatory Proposals	Against	<ul style="list-style-type: none"> • Proposals do not add any value or strong case not made
	Resolution 9. Disclose Percentage of Females at Each Percentile of Compensation	For (Exceptional)	We agree with the spirit, if not the drafting, of this resolution.
	Resolution 10. Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this proposal is warranted, as additional disclosure of the company's lobbying-related expenditures, trade association payments, and board-level oversight mechanisms would help shareholders better assess the risks and benefits associated with the company's

	Resolution 11. Increase Return of Capital to Shareholders in Light of Climate Change Risks	For (Exceptional)	participation in the public policy process. Determinations as to whether to return capital to shareholders or invest it in the business are ordinarily best left to management, under the oversight of the board. However, we agree with the spirit, if not the drafting, of this resolution.
	Resolution 12. Report on Climate Change Policies	For (Exceptional)	A vote for this proposal is warranted, as shareholders would benefit from additional information about the impact that climate change regulations, including those aimed at limiting global temperature increases to 2 degrees Celsius, might have on the company and its operations. We have pre-declared our support on this resolution.
	Resolution 13. Report on Methane Emissions	For (Exceptional)	A vote for this resolution is warranted, as comprehensive disclosure of the company's methane reduction policies and practices would enable shareholders to better understand how the company is managing its methane emissions and assess the effectiveness of the company's related efforts.

In addition, his proposed term of office for this director is four years reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term. Also, and the main reason for us exceptionally supporting his appointment is because over the last couple of years the Board has significantly improved in terms of independence and skills, and following the departure of some long serving directors. Yue Yuen Industrial (Holdings) Limited AGM 26/05/2017 BERMUDA	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. Yue Yuen Industrial (Holdings) Limited is exposed to risks associated with breaches of labour standards in its supply chain, as well as environmental risks. The environmental risks are related to use of energy, water and air emissions and waste. We note that the company published 2016 ESG Report which contains some environmental performance data. However, the data only covers its footwear

			manufacturing business for international brand customers but not the retail business in China. We encourage the company to clarify the percentage of total global operations covered by this data. We also urge the company to submit a public response on its carbon data to the CDP. With regards to labour standards in the supply chain, we encourage the company to publish a policy which includes ILO labour standards and to report on its performance in this area. We will offer a vote of support this year in recognition of the new ESG Report and we look forward to improved disclosure next year.

	Resolution 6. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Arconic Inc. Proxy Contest 25/05/2017 UNITED STATES	Resolution 1.1. Elect Director Christopher L. Ayers	For (Exceptional)	This is one of the four dissident nominees being proposed by Elliott Management, a 13.2 percent shareholder. Elliott has presented a compelling case for additional board change so we are supporting two of the four dissident nominees, as well as uncontested management nominee Schmidt. We are not supporting all four as we do not want to grant disproportionate influence to the activists. Dissident nominee Ayers' executive experience within Arconic's predecessor company, Alcoa Inc, represents a significant asset, particularly in regard to addressing employee relations following a highly publicized proxy contest. Ayers' long tenure as a manager at Precision Castparts Corp. could also be especially useful in helping the company close the margin gap with its main competitor in the engineered products division
	Resolution 1.2. Elect Director Elmer L. Doty	For (Exceptional)	This is one of the four dissident nominees being proposed by Elliott Management, a 13.2 percent shareholder. Elliott has presented a compelling case for additional board change so we are supporting two of the four dissident nominees, as well as uncontested management nominee Schmidt. We are not supporting all four as we do not want to grant disproportionate influence to the activists. Dissident nominee Doty is among the most compelling candidates on either slate. His CEO experience in the aerospace industry, and evident focus on operational performance appear to be an ideal fit for the board's current needs

	Resolution 1.4. Elect Director Neil W. Flanzraich	Against	<ul style="list-style-type: none"> SEE issues and no vote on ARAs
	Resolution 1.5. Elect Director Robin Hickenlooper	For (Exceptional)	We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Chipotle Mexican Grill is exposed to environmental risks associated primarily with its supply chain, in terms of the level of control over farms and factories, and waste. We moved to a vote of support in 2016 in recognition of some excellent initiatives around animal welfare carried out by the company in the last 18 months. The company still has not yet published consolidated environmental performance data and has not submitted a public response on its carbon data to the CDP. However, we noted that it is planning to publish their first sustainability report in December 2017. In light of the abovementioned we deteriorate our vote to an abstain and urge Chipotle Mexican Grill to disclose their environmental performance data.

	Resolution 15. Reappoint PricewaterhouseCoopers LLP as Auditors	For (Exceptional)	Under normal circumstances, we would have voted against the reappointment of the auditors as the company has retained the same audit firm for 20 years. Mandatory auditor rotation (or at least a Tender for Audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, we have exceptionally support their reappointment given as disclosed in the annual report, the transitional arrangements for mandatory rotation for relationships longer than 20 years mean that the year ending 31 December 2020 would be the last year that PwC are allowed to audit the Group. We welcome that whilst the Audit Committee has previously agreed that PwC will continue through to audit the year ending 31 December 2017 and that the Company will tender the audit the following year.

We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. J Front Retailing is exposed to risks associated with supply chain labour standards. Norwegian Cruise Line Holdings Ltd. AGM 25/05/2017 UNITED STATES	Resolution 1a. Elect Director David M. Abrams	For (Exceptional)	<p>Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions.</p> <p>Norwegian Cruise Line Holdings Ltd. is exposed to health and safety, climate change and environmental risks. Following the merger of Norwegian Cruise Line and Prestige Cruise Holdings in 2014, we are pleased to note that the company published its first Environmental Report in 2016. Although it does not contain raw emissions or health and safety data, the report includes details of environmental initiatives</p>

Mandatory auditor rotation (or at least a Tender for Audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, we have exceptionally support their reappointment as we welcome that in line with the EU Audit Directive and Regulation, it is the intention that the Group audit will be put out for tender in 2019.

	Resolution 5. Report on Pay Disparity	For (Exceptional)	A vote for this resolution is warranted because: - Enhanced disclosures of pay disparities between executives and regular employees could allow for more informed and contextual assessments by shareholder of whether executive compensation practices are reasonable and fair; and- Excessive pay disparities between senior executives and rank-and-file employees could pose risks to long-term shareholder value, and impact employee morale as well as a company's standing in the communities in which it operates.
	Resolution 6. Report on Accident Risk Reduction Efforts	For (Exceptional)	A vote for this resolution is warranted, as additional disclosure related to the company's health and safety policies and initiatives, including facility audits, would allow shareholders to understand the company's management of related risks.

Resolution 7. Reduce Ownership Threshold for Shareholders to Call a Special Meeting	For (Exceptional)	A vote for this proposal is warranted given that lowering the threshold to call a special meeting would enhance the current shareholder right to call special meetings.
Resolution 8. Issue New Series of Preferred Stock with the Right to Elect own Director	Against	<ul style="list-style-type: none"> Proposals do not add any value or strong case not made
Resolution 9. Adopt Holy Land Principles	For (Exceptional)	A vote for this proposal is warranted for the following reasons:- Enhancements to the company's disclosures on the implementation of its fair employment management mechanisms should mitigate potential risks related to its operations and employment practices.- Specifically, shareholders would benefit from additional information on how existing fair employment policies and procedures have resulted in action to address fair employment concerns, particularly in Israel and the Palestinian Territories.- Given the company's existing disclosures and policies on fair employment topics, it should not be unduly burdensome or otherwise disadvantageous for McDonald's to enhance its transparency or implement the fair employment Principles laid out in the proposal.
Resolution 10. Adopt Policy to Ban Non-Therapeutic Use of Antibiotics in Meat Supply Chain	For (Exceptional)	A vote for this proposal is warranted, as shareholders would benefit from additional disclosure regarding the company's implementation of its antibiotic use policies and targets throughout its meat supply chain, given the growing health concerns regarding the non-therapeutic use of antibiotics in animal farming and related industry trends.
Resolution 11. Assess Environmental Impact of Polystyrene Foam Cups	For (Exceptional)	A vote for this resolution is warranted as shareholders would benefit from additional information regarding the environmental and health impacts associated with the company's use of polystyrene-based

	Resolution 6. Report on Sustainability	For (Exceptional)	PayPal provides information on some of its environmental, social, and governance (ESG) practices on its website and in its Code of Business Conduct. However, the company does not provide comprehensive information typically found in a sustainability report, such as the company's sustainability policies, practices, performance metrics and goals related to GHG emissions, water management, waste reduction, energy efficiency, and other relevant environmental and social impacts. Although producing a corporate sustainability report requires an expenditure of company resources, the potential cost and burden may be outweighed by benefits that could be realized through the identification and evaluation of potential risks, liabilities, and opportunities. Such disclosure would also allow shareholders to better assess the company's sustainability performance and its related management mechanisms.
	Resolution 7. Report on Feasibility of Net-Zero GHG Emissions	For (Exceptional)	PayPal asserts in the environmental stewardship section of its Code of Business Conduct and Ethics that it is committed to environmental issues. Furthermore in the board's response to the shareholder proposal, enumerates several environmental initiatives the company has undertaken. However, the company does not provide any information related to its climate change policies or initiatives, or its GHG performance on its website or its report. Furthermore, the company does not provide a response to the CDP's Climate Change questionnaire. Lastly, PayPal risks lagging behind its peers, in addition to the reputational, regulatory and financial risks that climate change risks might pose to the business. Further information of the company's GHG emissions and climate change policies would help shareholders better assess these risks.

	Resolution 2. Approve Value Creation Plan	For (Exceptional)	Under normal circumstances we would have voted against the VCP as by the very nature of this plan, there are no individual caps and this means that awards are potentially very generous. However, we have exceptionally supported as we have had extensive engagement with the company which has made a strong case for the Plan. For this company, at this time, it's appropriate because it's about driving cultural change in a potentially very different business, which the LTIP can't do in its present form. Also, the company will not be making LTIP grants each year and so the VCP is a much cleaner, simpler from of incentivisation. The remuneration committee has also been prudent in its approach to pay over the year, for example using his discretion to not allow LTIP awards to vest (because they did not truly fairly reflect the 3 year performance of the business). The company also provided us with examples of how the potential VCP outcomes may compare with the LTIP which provide comfort that there is a strong link between pay and performance. Finally, as a result of our feedback, the compound annual hurdle rate has been increased in years 1 & 2 to 12% and 10% respectively, in the event of a change of control during that period.

	Resolution 1d. Elect Director Brian P. Anderson	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Stericycle, Inc. is exposed to risks relating to health & safety, bribery, climate change and the environment. The environmental risks are associated with air emissions and biodiversity. We would expect this company to publish quantitative, aggregated data on its environmental performance but this is not available in the public domain. The company has not submitted a response on its carbon data to the CDP. With respect to bribery, the company publishes its Code of Business Conduct but we would like to see information relating to the company's management approach and performance in this area. We also strongly encourage the company to publish quantitative data on its health & safety performance.</p>

	Murley		our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Stericycle, Inc. is exposed to risks relating to health & safety, bribery, climate change and the environment. The environmental risks are associated with air emissions and biodiversity. We would expect this company to publish quantitative, aggregated data on its environmental performance but this is not available in the public domain. The company has not submitted a response on its carbon data to the CDP. With respect to bribery, the company publishes its Code of Business Conduct but we would like to see information relating to the company's management approach and performance in this area. We also strongly encourage the company to publish quantitative data on its health & safety performance.

	Resolution 5. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear

Schedule of voting on company resolutions

			division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 6. Adopt Holy Land Principles	For (Exceptional)	A vote for this proposal is warranted for the following reasons:- Enhancements to the company's disclosures on the implementation of its fair employment management mechanisms should mitigate potential risks related to its operations and employment practices.- Specifically, shareholders would benefit from additional information on how existing fair employment policies and procedures have resulted in action to address fair employment concerns, particularly in Israel and the Palestinian Territories.- Given the company's existing disclosures and policies on fair employment topics, it should not be unduly burdensome or otherwise disadvantageous for Merck to enhance its transparency or implement the fair employment Principles laid out in the proposal.
	Resolution 7. Report on Risks of Doing Business in Conflict-Affected Areas	For (Exceptional)	A vote for this resolution is warranted as:- Merck does not disclose policies governing its decision-making process to invest or operate in politically or socially unstable markets; and- The company has business ties to countries with histories of political instability and human rights issues.
	Resolution 8. Report on Board Oversight of Product Safety and Quality	For (Exceptional)	A vote for this proposal is warranted, as additional information regarding the company's product safety and quality standards would allow shareholders to better assess the company's management of related issues and potential concerns.

	Gas (GHG) Emissions		<p>leadership in the energy transition to a net-zero-emission energy system. Therefore, shareholders request Shell to set and publish targets for reducing greenhouse gas (GHG) emissions that are aligned with the goal of the Paris Climate Agreement to limit global warming to well below 2 C. These GHG emission reduction targets need to cover Shell's operations as well as the usage of its products (scope 1, 2, and 3), they need to include medium-term (2030) and long-term (2050) deadlines, and they need to be company-wide, quantitative, and reviewed regularly. Shareholders request that annual reporting include further information about plans and progress to achieve these targets. We believe that it is the responsibility of the board to ensure the company is well positioned to navigate the company through the transition to a lower- carbon economy. We are strong supporters of the commitments of the Paris Climate Accord and view climate change as a systemic risk that will have severe economic, political and social implications and will have a profound impact on capital markets over the next 30 years. Consequently, we strongly encourage boards to develop a long-term strategy and roadmap which will outline a vision of how the company will look to gradually transition its portfolio consistent with a 2 degree world. We have welcomed the leadership provided to date by the Shell board regarding climate change and are fully aware of the challenges posed by Scope 3 targets and reporting. Consequently, we are pragmatic and realistic with our expectations of what can be reasonably achieved by an individual company in this area. Nevertheless, we believe that the process of setting some form of 2030 and 2050 targets will help guide discussions and thinking both internally and externally to Shell.</p>

			our preferred term. Having discussed this with the company, they say that while this is common in France they do not allow new NEDs to contribute in committees for the first year so they will have little influence on company performance in the first year. Also, being a bank, the business is very complicated and individuals need time to learn the ropes. Also NEDs are appointed in May and first reviewed in December, this means that if it's a 3 year term then the Board will only have had an opportunity to review the performance of the NEDs once before they are up for re-election again. They feel that for a financial services firm there needs to be at least two reviews before directors can be properly assessed. As they have thought about the issue and as we had a very good meeting with them on ESG issues we are giving them the benefit of the doubt. However, we did ask them to be aware of our views and to consider these when appropriate.

	Resolution 6. Adopt Holy Land Principles	For (Exceptional)	A vote for this proposal is warranted for the following reasons:- Enhancements to the company's disclosures on the implementation of its fair employment management mechanisms should mitigate potential risks related to its operations and employment practices.- Specifically, shareholders would benefit from additional information on how existing fair employment policies and procedures have resulted in action to address fair employment concerns, particularly in Israel and the Palestinian Territories.- Given the company's existing disclosures and policies on fair employment topics, it should not be unduly burdensome or otherwise disadvantageous for Xerox to enhance its transparency or implement the fair employment Principles laid out in the proposal.

	Resolution 1.2. Elect Director Laura C. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Targa Resources Corp. is exposed to health and safety, climate change and environmental risks. The environmental risks relate to air and water pollution, water use and waste generation. We would therefore expect this company to publish performance data in these areas, but none is available in the public domain. The company has not submitted carbon data to the CDP. We have no record of 2016 vote for this company but noted that it was added to the MSCI Index in the second half of 2016. As Targa Resources has not been voted on before, we recommended a vote of support in order to allow the company time to improve its disclosure</p>

Macy's is exposed to environmental risks associated with its supply chain, in terms of the environmental attributes of products sold and packaging used. The company publishes details of environmental initiatives and environmental savings in percentage terms. It does not, however, publish sufficient consolidated environmental performance data. The company's 2016 CDP response states that 'given our status as a retailer, not a manufacturer, we have not identified an appropriate model for calculating and reporting our Scope 1 and 2 GHG emissions. We continue to evaluate alternative models for calculating and reporting these emissions.' The company did not submit a response in 2017. We strongly encourage the company to publish comprehensive environmental data on its overall performance.

In this item, the shareholder brings attention to the conduct of the management and supervisory board members between Jan. 2009 and Feb. 2013. Deutsche Bank's participation in the manipulation and influencing of interest rates between 2005 and 2013 has led to fines of approximately USD 2 billion: The Deferred Prosecution Agreement between Deutsche Bank and the US (USD 625 million); payment to the FCA (GBP 226.8 million); order of the Commodity Futures Trading Commission (USD 800 million); Consent Order with the New York State Department of Financial

	Resolution 5. Assess Feasibility of Including Sustainability as a Performance Measure for Senior Executive Compensation	For (Exceptional)	A vote for this proposal is warranted due to the scope of the proposal and the lack of comprehensive disclosure by the company of its environmental and social performance and related management systems and oversight mechanisms.
	Resolution 6. Report on Steps Taken to Increase Board Diversity	For (Exceptional)	A vote for this resolution is warranted because:- The board's composition makes it an outlier among its industry peers; and- Shareholders would benefit additional information about how the company is ensuring that female and minority candidates are included among prospective board nominees.

	Resolution 5. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Martin Marietta Materials, Inc. is exposed to risks associated with health and safety, climate change and the environment. The environmental risks relate to water pollution, waste, water use and air emissions. We are pleased to note that the company now publishes total incident injury rate (TIIR) data on its website. Next plc AGM 18/05/2017 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Policy	For	
	Resolution 3. Approve Remuneration Report	For (Exceptional)	<p>Under normal circumstances we would have voted against the remuneration report to reflect that the Finance Director, Amanda James received a 15.5% salary increase which follows a 19% increase the previous year. However, we have exceptionally supported based on the Company's strong justification for the increase. Namely, the Remuneration Committee's approach is to phase in salary increases over time, depending on individual progression and subject to Group performance, rather than repositioning salaries upon promotion. Amanda James did not receive a salary increase upon her promotion to the FD role in April 2015. The rebased salary rate is considered reasonable for a company of NXT's size and scope. The Company also discloses that consistent with its approach to salary progression for internal promotions, had the Company's performance in the 2016/17 financial year been in line with their expectations at the outset of the year, the Committee would have proposed an increase of around 15%, effective from February 2017, in the base salary of Michael Law and Jane Shields taking their salaries to £475,000. This would have represented the final stage in setting their pay levels at an appropriate level, reflecting the progression in their respective roles since their promotion to the Board in July 2013. Similarly, in the case of the base salary of Amanda James (promoted to the Board in April 2015) the Committee would have recommended an increase of 18%, effective from February 2017, taking her base salary to £425,000. The increase for Amanda James would have been considered a further interim increase reflecting her strong performance in the Group Finance Director role since her promotion to the Board. However, in light of the lower than expected 2016/17 profit and EPS outcome, the Committee decided that it was more appropriate to revise these proposed salary increases downwards. Therefore, although many of the challenges facing NEXT are consistent with the UK fashion retailing sector more generally and the executive directors are all performing and developing</p>

Schedule of voting on company resolutions

			well, the Committee decided to increase the base salaries of Jane Shields and Michael Law by 1% (taking their salaries to £416,200), in line with the wider Company pay award with effect from February 2017. In the case of Amanda James, the Committee agreed a base salary increase of 16% (taking her base salary also to £416,200). More generally, we note that pay levels are relatively low for the size of the company, or rather large amounts are only paid out for very strong performance. We note that given the difficult year for the company, no bonuses were awarded (although this is no surprise).
	Resolution 4. Approve Final Dividend	For	
	Resolution 5. Re-elect John Barton as Director	For (Exceptional)	This non-executive chairman is not independent having served on the board for a significant amount of time and sits on the remuneration committee. We consider this inappropriate as the committee should consist entirely of independent directors. However, John Barton will stand down from the Board on 1 August 2017. Michael Roney, who joined the Board in February 2017 as Chairman Designate, will succeed him.

	Resolution 21. Authorise Off-Market Purchase of Ordinary Shares	For (Exceptional)	The Company is seeking to renew its authority to make contingent purchase contracts with each of Goldman Sachs International, UBS AG, Deutsche Bank AG, HSBC Bank Plc and Barclays Bank Plc. These dealings are in unusual derivatives by which the Company will conditionally repurchase shares at a maximum of 99% of the market price at the point the contract is entered into but with a termination provision whereby if the share price rises to the suspension level, which is set at between 104% and 110% of the share price at the outset, the transaction becomes void and the Company will fail to buy back the shares that were the subject of the conditional contract. The total maximum number of shares which the Company may purchase pursuant to this authority is 3,000,000 shares, representing approximately 2% of issued share capital, at a total cost of £200 million. During the period since the 2016 AGM to 22 March 2017, the Company bought back 3,613,121 shares for cancellation, at a total cost of

Schedule of voting on company resolutions

			£187.6m. No shares were bought back under contingent purchase contracts. The use of contingent purchase contracts could tie the Company into buying back shares at unattractive prices if the market price falls after each contract has been agreed. However, they are intended to give the Company the maximum flexibility regarding the method and timing of share buybacks and certain protections have been built in to the mechanism which limit the downside risk for the Company in the event of a share price fall.
	Resolution 22. Approve Increase in Borrowing Powers	For (Exceptional)	This resolution is to increase the borrowing powers of the Company from the higher of £ 1.5bn or an amount equal to two times adjusted total equity (as defined in the Articles) in the Company to the higher of £2bn, or an amount equal to two times adjusted total equity (as defined in the Articles) of the Company. The Board explains that the Company's current borrowing powers are constricted due to the unchanged fixed limit set in 2006, while at the same time the Company has grown significantly over the last decade in market capitalisation, revenue and profit. The Board believes that an increase will allow the Company greater flexibility and leverage to invest in future growth of its businesses. Additionally, the Board confirms that there are no current plans to materially increase the level of debt, however it believes it to be in the best interests of the Group to give the Company sufficient headroom over the long-term to develop its business.

	Resolution 2. Approve Remuneration Report	For (Exceptional)	Under normal circumstances we would have voted against the remuneration report as we are concerned over the amount of LTIP award that vests for threshold performance, being 25% of the total award. Given the CEO's LTIP award equates to 500% of salary it means that for the achievement of only threshold performance, the CEO would receive awards equivalent to 125% of salary. Although this has effectively reduced (through some of the changes outlined below), this is still far too generous regardless of the size of the company. However, we have exceptionally supported the pay arrangements to

Schedule of voting on company resolutions

			<p>reflect that the Remuneration Committee has, in response to the Company's Remuneration Report being voted down last year, made a number of positive and material changes to executive remuneration, following extensive consultation with shareholders. The matching element under the deferred bonus plan has been removed and the Remuneration Committee has reduced the total long term variable pay opportunity for the CEO and CFO from 700% and 550% of salary respectively to 500% and 450% of salary respectively. Other changes include an increase in the mandatory deferral of annual bonus awards from 33% of award to 50% of award, a reduction in the level of award payable for target performance under the annual bonus from 135% to 112.5% of salary and, under the proposed bonus plan, the provision that maximum payout can only occur when performance exceeds all stretch targets. Finally, the Committee and Executives have decided to introduce post-retirement shareholding requirements of 250% of salary for two years. In respect of the pay outcomes for the year under review, we welcome the Committee's decision to exercise downward discretion across variable remuneration outcomes. Under formulaic outcomes, bonuses would have paid out at 182% of salary and 2014 LTIP awards would have vested at 57% of opportunity. Following the application of discretion, bonuses paid out at 137% of salary and 2014 LTIP awards vested at 40% of salary. We also welcome the decision to extend the vesting period for 2016 matching deferred shares to post-retirement. Although we have supported, we have advised the company that we won't be able to do the same at the 2018 AGM if the company continues to make awards to the CEO at 500% of salary without reducing the amount that vests for threshold performance. In addition, we will be strongly encouraging the Company to ensure that the remuneration policy is underpinned by a corporate strategy that is aligned with a timely low carbon transition. The remuneration policy should in part reward executives for delivering a long-term and resilient strategy aligned with 2°C pathways.</p>

			<p>CEO would receive awards equivalent to 125% of salary. Although this has effectively reduced (through some of the changes outlined below), this is still far too generous regardless of the size of the company. However, we have exceptionally supported the pay policy to reflect that the Remuneration Committee has, in response to the Company's Remuneration Report being voted down last year, made a number of positive and material changes to executive remuneration, following extensive consultation with shareholders. The matching element under the deferred bonus plan has been removed and the Remuneration Committee has reduced the total long term variable pay opportunity for the CEO and CFO from 700% and 550% of salary respectively to 500% and 450% of salary respectively. Other changes include an increase in the mandatory deferral of annual bonus awards from 33% of award to 50% of award, a reduction in the level of award payable for target performance under the annual bonus from 135% to 112.5% of salary and, under the proposed bonus plan, the provision that maximum payout can only occur when performance exceeds all stretch targets. Finally, the Committee and Executives have decided to introduce post-retirement shareholding requirements of 250% of salary for two years. Although we have supported, we have advised the company that we won't be able to do the same at the 2018 AGM if the company continues to make awards to the CEO at 500% of salary without reducing the amount that vests for threshold performance. In addition, we will be strongly encouraging the Company to ensure that the remuneration policy is underpinned by a corporate strategy that is aligned with a timely low carbon transition. The remuneration policy should in part reward executives for delivering a long-term and resilient strategy aligned with 2°C pathways.</p>

Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances we would have voted against the report and accounts to reflect our concerns that there are no women on the board. However, we have exceptionally supported in recognition of the strong disclosures in the R&As regarding the company's approach to diversity. For example, as part of its review of succession planning, the Nomination Committee considered the diversity of the senior management team and is broadly satisfied with the diversity within the Company but aspires to improve the gender balance and ethnic diversity at the senior level. Management has in place a range of measures designed to address this, including coaching, mentoring, development programmes and flexible working, and the Committee will continue to monitor progress on behalf of the Board over the coming year. 	Resolution 5. Authorise Board to Fix Remuneration of Auditors	For (Exceptional)	The company has retained the same audit firm since 2001 (i.e in excess of ten years). Mandatory auditor rotation (or at least a Tender for Audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. The Report states that the Committee is mindful of the requirements of the EU Directive on audit reform, formally implemented in June 2016. Under such Directive's transitional arrangements, the Company will be required to tender the external auditor in 2021. Accordingly, KPMG can continue to act as External Auditor for the period up to 31 December 2023. Having reviewed the effectiveness of KPMG and the recent Merger, the Company concluded that it would not be in the best interests of the Group to undertake an external audit tender at this time, but will continue to monitor the performance of KPMG and a tender will be undertaken when appropriate and, in any event, as required under the current legislation. Given the relatively recent Merger, we are comfortable with the KPMG continuing as the auditors for now but would expect a Tender to occur sooner than 2021.

	Resolution 6. Non-Binding Vote on Compensation of Patrice Caine, CEO and Chairman	For (Exceptional)	Under normal circumstances we would have voted against the CEO's remuneration arrangements for the year under review as there is a lack of disclosure regarding the increase in bonus opportunity from 2015 to 2016 (from EUR 600,000 to EUR 735,000) and also, specific performance targets are not disclosed for the bonus awarded to the CEO for the year under review (EUR 599,900). Also, his service contract provisions exceed 2 times salary on termination of office (i.e. provide up to 12 months' total compensation being fixed + variable, and variable is more than 1x salary). We believe that severance payments should be no greater than 2 times salary. We are also mindful that arrangements are approved by a Remuneration Committee that is less than a majority independent. However, we have exceptionally supported the arrangements as we are mindful that the CEO is underpaid compared to peers (his salary is currently EUR 450,000).

Schedule of voting on company resolutions

			Also, he did not received any long term incentive (LTI) awards so employees within the firm such as executive committee members who do get LTI awards are earning more than him, which doesn't not make sense. The lack of long term awards is being addressed as the company is introducing a LTIP in the CEO/chairman's remuneration for 2017. Whilst we would encourage better disclosure of specific targets that warranted the bonus, we are mindful that the group has recorded a strong performance since Patrice Caine became its CEO/chairman at the end of 2014. We are also comfortable with the severance payments provisions because the positioning of his salary (and bonus) would result in a relatively low pay out in the event of termination.
	Resolution 7. Approve Remuneration Policy of Patrice Caine, CEO and Chairman	For (Exceptional)	Under normal circumstances we would have voted against the CEO's remuneration arrangements as the base salary of the CEO/chairman is being significantly increased (from EUR 450,000 to EUR 700,000 or 55% higher than under the FY16 policy) Also, service contracts provisions exceed 2 times salary on termination of office (i.e. provide up to 12 months' total compensation being fixed + variable, and variable is more than 1x salary). We believe that severance payments should be no greater than 2 times salary. However, we have exceptionally supported the arrangements as we are mindful that the CEO is underpaid compared to peers and these changes also take into account the group's strong performance since the Patrice Caine became its CEO/chairman at the end of 2014. As such there is a real retention risk. Also, whilst we would not be supportive of further large increases, we are mindful that even with the increases (and the bonus cap of EUR 735,000), pay levels are not excessive. We are also comfortable with the severance payments provisions because the positioning of his salary (and bonus) would result in a relatively low pay out in the event of termination.

	Resolution 5. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Evolva Holding SA AGM 16/05/2017 SWITZERLAND	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	<p>Under normal circumstances we would have voted against the remuneration arrangements as performance targets are not attached to the restricted share units (RSUs). However, we have engaged with the company about this and we were advised that as a result of our (and proxy advisors' previous comments) they have made improvements to the company's compensation practices. For instance, the switch from share options to RSUs means vesting can no longer occur before 3 years, hence this better aligns the interests of management with the long term interests of shareholders. We were also informed that the number of RSUs granted depends on the company and individual performance during the previous year (so pre-grant performance) and the future value of the RSU is obviously linked to company performance via the share price. Lastly, the company confirmed that almost half of the outstanding share-linked instruments are held by employees. So having a share-based plan is important for attracting and retaining staff. Not having this instrument would put the company at a serious disadvantage versus competitors such as Novartis or Roche. Given the explanations, we exceptionally supported the pay report on this occasion but we have advised the company of our view that performance targets (post grant) should be attached to RSUs for executives. We accept that the future value is linked to company performance via the share price but if the share price halves, management will still get the free shares (equivalent to half the initial value), yet we lose half the value of our holding. If the company has not introduced performance targets by next year, we will not be able to continue to support.</p>

	Resolution 5.1. Approve CHF 4.1 Million Increase in Pool of Conditional Capital without Preemptive Rights for Financing Purposes	For (Exceptional)	<p>Under normal circumstances we would have voted this authority as it would enable the Board to issue the equivalent of 17.7% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, we have engaged with the company about this and have exceptionally supported given the company's explanations. Specifically, Evolva is in growth mode, and therefore needs flexibility in funding. Resolution 5.1 provides a pool of capital if they decide to issue for instance convertible bonds. Resolution 5.2 would be used if they need to issue straight equity. In both cases the resolutions are asking for an increase, not a new authorisation. The Company's Articles provide the option to exclude pre-emptive rights in the case of small private placements, which require speed of execution and have a limited discount. As shown in 2015, the company does give pre-emptive rights in case of larger issues.</p>

	Resolution 10. Assess Portfolio Impacts of Policies to Meet 2 Degree Scenario	For (Exceptional)	A vote for this proposal is warranted, as shareholders would benefit from additional information about the impact that climate change regulations might have on the company and its operations, and the actions that the company is taking to mitigate these risks.
	Resolution 11. Adopt Simple Majority Vote	For (Exceptional)	A vote for this proposal is warranted given that elimination of the supermajority vote requirements would enhance shareholder rights, and support for both the management and shareholder proposals to eliminate the supermajority requirements would signal to the board that shareholders expect it to keep trying in the event that the management proposal does not pass this year.

	Resolution 5. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 6. Prohibit Accelerated Vesting of Awards to Pursue Government Service	For (Exceptional)	A vote for this proposal is warranted as shareholders should not have to incur the costs associated with an executive's personal decision to enter government service. Further, policies providing for special compensation arrangements to enter into government service are uncommon, and the proposal is sufficiently tailored to address concerns.
	Resolution 7. Clawback Amendment	Against	<ul style="list-style-type: none"> Proposals do not add any value or strong case not made
	Resolution 8. Report on Gender Pay Gap	For (Exceptional)	A vote for this proposal is warranted as its adoption should serve to further strengthen the company's existing diversity initiatives and allow shareholders to better assess the fairness of the company's employee compensation practices and any potential gender pay gap issues. Furthermore, given that other companies have shown support for addressing inequality on pay and achieving gender pay parity, it should not be unduly burdensome for the company to take on similar actions.
	Resolution 9. Provide Vote Counting to Exclude Abstentions	Against	<ul style="list-style-type: none"> Proposals do not add any value or strong case not made
	Resolution 10. Reduce Ownership Threshold for Shareholders to Call a Special Meeting	For (Exceptional)	A vote for this proposal is warranted. The proposed reduction to a 10 percent threshold is more reasonable than the current 20 percent threshold, especially when considering the company's size and ownership structure.

	Resolution 5. Non-Binding Vote on Compensation of Gauthier Louette, Chairman and CEO	For (Exceptional)	Specific performance targets are not disclosed for annual bonuses awarded during the year. Therefore, it is not possible for shareholders to understand the link between pay and performance assessed by the board. The company explained that it is in a delicate position at present with balancing market expectations around external guidance and the potential impact that disclosure of more robust internal management targets might have. The company is keeping this matter under review, and given its short life as a listed company, it is reasonable to allow more time for the relationship with the market to mature before reconsidering the inclusion of explicit bonus targets within the remuneration report.
	Resolution 6. Approve Remuneration Policy of Gauthier Louette, Chairman and CEO	For (Exceptional)	The company discloses the total number of shares granted to Mr Louette in the registration document which equates to 1 times salary every two years. The company is constrained in its ability to issue new shares given the restructuring of the share register. Consequently, share based performance grants have been relatively conservative. The company is reviewing future incentive arrangements and will enhance disclosure in future reports.

The integrity of the auditor's relationship with the company is compromised when a firm is paid excessive fees on top of those paid for auditing services. This arrangement has the potential to open the auditor process to a wide range of conflicts of interest. New auditors from 2017 when KPMG takes over from PwC. Hence the support.

	Resolution 5. Assess Portfolio Impacts of Policies to Meet 2 Degree Scenario	For (Exceptional)	A vote for this proposal is warranted, as shareholders would benefit from additional information about the impact that climate change-related regulations might have on the company and its operations, and the actions that the company is taking to mitigate these risks.
	Resolution 6. Reduce Ownership Threshold for Shareholders to Call Special Meeting	For (Exceptional)	A vote for this proposal is warranted. Lowering the ownership threshold from 25 percent to 15 percent would improve shareholders' ability to use the special meeting right and no single shareholder would be able to act unilaterally to call a special meeting at the proposed threshold.
	Resolution 7. Vulcan Materials is exposed to health and safety, climate change and environmental risks. The environmental risks relate to water pollution, waste, water use and emissions to air. We note that the company publishes health and safety performance charts, but they do not include specific data points. For the past years, the company has stated on its website that it is "in the process of compiling GHG emissions data", but this data has still not been published. The company has not submitted carbon data to the CDP. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Cimarex Energy Co. is exposed to risks associated with health & safety, climate change and the environment. The environmental risks are related to air and water pollution, as well as water use and waste generation. We would expect the company to disclose quantitative data on its health & safety, climate change and environmental performance. We are pleased to note that the company disclosed data on their air emissions for 2015 only. However, we would expect them to provide wider disclosure of environmental data and publish quantitative data on its health and safety. The company has not submitted a response on its carbon data to the CDP. We look forward to reviewing improved environmental and social disclosure next year.</p>

	Resolution 3. Approve Remuneration Policy	For (Exceptional)	Under normal circumstances we would have voted against the proposed remuneration policy as it includes the grant of 'Transition Awards' which are significant in value and subject to continued employment only. However, the Transition Awards were discussed in the Prospectus published at the time of the IPO and were granted on a one-off basis only. Instead, we have reflected our concerns regarding the Transition Awards in the remuneration report (see res 2)
	Resolution 4. Elect Sir Christopher Gent as Director	For (Exceptional)	Under normal circumstances we would have voted against the chairman of the board and the nomination committee to reflect our concerns that there are no women on the board. However, the Company was only admitted to the London Stock Exchange on 31 October 2016 and the Board acknowledges in the annual report that currently there are no female Board members and the Nomination Committee Chairman states that "In the coming year, when reviewing the composition of the Board we will endeavour to achieve appropriate levels of diversity while at the same time ensuring that individuals are appointed on merit and the Board at all times has the relevant skills and expertise to perform effectively." Also, during 2017 the Committee intends to put in place a Board Diversity Policy and objectives for implementing this policy which will be applied when drawing up candidate shortlists.

However, the Company was only admitted to the London Stock Exchange on 31 October 2016 and the Board Chairman has made a commitment in the annual report that the areas of non-compliance will be addressed and the Company intends to be fully compliant with the UK Code over time.

There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to

Hochschild Mining plc AGM 11/05/2017 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We have no record of 2016 vote for this company. It is exposed to risks relating to human rights. The company makes only a limited reference to human rights in its Code of Conduct; we would like to encourage the company to publish a comprehensive human rights policy covering all core ILO labour standard areas. We noted that the company stated in their 2016 Annual report that importance it is placed on human rights is reflected in their training programme which seeks to ensure that all employees are aware of their rights and the Company's commitments. However, we would like to see further details of the company's management approach and performance on this issue.

Pension arrangements (CEO) are considered too generous. However, this tracks back to the time when the CEO was appointed where he would have given up a large pension and pay to join the firm. We accepted the conditions at the time of his appointment.

	Resolution 4. Re-elect Christopher Miller as Director	For (Exceptional)	Under normal circumstances we would have voted against this Director as he is the executive chairman and ideally the chairman should be independent from management. However, we continue to exceptionally support his re-election as he is integral to the business and a significant contributor to the sustained performance. He is one of the founding members of Melrose and his long-standing involvement brings a wealth of experience to the Board. His oversight of corporate governance and compliance matters complements the work of the Group's non-executive Directors. He continues to play an active role in identifying and evaluating new opportunities for the Group. His large shareholding aligns his interests with ours and other shareholders. Another mitigating factor is that all three non-executives are independent.

Melrose Industries PLC EGM 11/05/2017 UNITED KINGDOM	Resolution 1. Amend Articles of Association	For	
	Resolution 2. Approve Creation of and Grant of Options over the 2017 Incentive Shares	For (Exceptional)	<p>Under normal circumstances we would have voted against the grant of Incentive Shares, due to concerns over potential quantum and in particular, the fact that awards are uncapped. That is, if the threshold condition is met (being an overall increase in shareholder value over the Retail Prices Index (RPI) +2%), the value payable to participants under the 2017 Incentive Plan will be 7.5% of any amount in excess of the threshold value. Also we note that participants have been very well rewarded under this scheme previously. However, following extensive engagement with the company and its advisers we are comfortable in supporting the renewal of the Plan for the following reasons: The potential gains are large but this has to be looked at in the context over 5 years. No more awards will be made for another 5 years. The majority of companies grant LTIP awards annually (so one should divide by 5 to ensure a fair comparison). The £200m achieved under the last plan was reflective of the exceptional returns that were generated for shareholders. The company considered reducing the amount participants share from the value created but they had already done this (from 10% to 7.5% for the last scheme, as this was considered more appropriate with the evolving of the company's strategy). No other company has produced the same returns for shareholders over 15 years (for the level of reward paid out) i.e for the last 5 year plan shareholder value increased by £3bn. Also, salaries and bonus</p>

			potential are lower quartile compared to peers, so pay is very much aligned with long term performance. Management have kept all the shares that have vested from previous plans (apart from to meet tax obligations). So they now have big shareholdings and have also self funded acquisitions. We agree that it's not fair to penalise them for doing well in the past, and this is a tried and tested scheme. We are comfortable with what the pay outs will be for threshold / mediocre performance. It is also important to note that participants do not get anything unless the company meets minimum growth threshold, being the initial invested capital increased by RPI + 2% per annum. Once achieved, they can 7.5% of the additional value created %. In summary we are much more comfortable with the renewal of the plan than we were prior to our discussions with the company. The Chair of the Remuneration Committee provided good responses to each of our questions, particularly the confirmation that share gains from the previous schemes have not been sold and that salaries and bonus potential are purposely lower quartile.
	Resolution 3. Approve Remuneration Policy	For (Exceptional)	Under normal circumstances we would have voted against the remuneration policy as long term incentive awards are essentially uncapped. However there are strong mitigating factors that allow us to support this approach (see resolution 2 for details).

	Resolution 5. Re-elect Alastair Barbour as Director	For (Exceptional)	This Director holds 5 other positions which is in excess of our guidelines. However, two of the five external directorships are at closed-end investment funds and thus different to conventional operating companies, and one of the others is at a smaller listed asset manager. We will need to keep his positions under review.
	Resolution 6. Re-elect Ian Cormack as Director	For (Exceptional)	Ian Cormack has been associated with the Company (and its predecessor companies) for more than nine years. He was appointed to the Main Board on 2 September 2009. In accordance with ISS policy, we do not automatically consider NEDs to be non-independent once they have reached nine years since first election (or association), but In this case, it is noted that Ian Cormack has served for only six years concurrently with the Group CEO. Upon engagement, the Company explained that they consider Mr Cormack's tenure as from 2009 for the

Royal Bank of Scotland Group plc AGM 11/05/2017 SCOTLAND	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Policy	For (Exceptional)	<p>Pro-rating of long-term awards will no longer be applied for good leavers. In addition, although further detail on the approach will be outlined in next year's annual report, a new method of assessing long-term performance will be used, with the stated intention of ensuring greater certainty of outcome. This approach will allow for more discretion when assessing performance. An important quid pro quo is that maximum award limits are being considerably reduced. After engagement with the company we are able to support. RBS pay levels is lowest amongst the larger UK banks and they are very constrained by Government holding. This also makes it more difficult for RBS to look forward to set performance conditions for the future. This new arrangements enables the bank to have simpler remuneration arrangements. It is not a structure that we will readily approve for other companies. The company has reassured us that there will be no pay for poor performance. In view of these arrangements we need to</p>

However, a reasonable explanation has been included for the treatment of Mark Allen's 2012 and 2013 LTIP awards. Namely, these would have vested three days after the announcement in any case, and the vest of these awards formed part of an agreement which saw Mark Allen retained during the transition period, facilitating an orderly handover. Resolution 7. In addition, the company's Corporate Governance and Public Policy Committee reviews and advises the board on public policy and social responsibility issues which are relevant to the company.- As a result, it appears the information in the requested report would complement and enhance the company's existing publicly available fair employment material. The report could also help Western Union mitigate any related risks and costs associated with any such legislation in states where the company has employees and it would reinforce the company's existing culture and commitment to fair employment. For these reasons, support for this proposal is warranted.

However, on engagement we were told that while pay has plateau'd and may go up slightly for employees below executive level (so bonus pool might rise), the expectation is that trajectory will continue to go down and Jes Staley and Tushar will not have pay rises for the next three years. We will support this year and see how things develop over the next year.
	Resolution 3. Approve Remuneration Policy	For (Exceptional)	Time pro-rating on termination for eligible leavers under the LTIP will include time served in the year prior to award. It is not clear from Company disclosures how rigorous this performance test will be in practice, and as such it is not considered appropriate that executives should be credited with a year in service ahead of the normal three-year LTIP cycle on this basis. This method of pro-rating for time is non-standard in the UK, and there is no apparent case for this as a result of recent regulatory changes, despite the Company's explanations of same. However, the time pro-rating looks reasonable and they have to consider the year before the 3 year performance period as this is now in EBA guidelines and there is no increase in quantum as a result.

	Resolution 26. Amend Long-Term Incentive Plan	For (Exceptional)	Time pro-rating on termination for eligible leavers under the LTIP will include time served in the year prior to award. It is not clear from Company disclosures how rigorous this performance test will be in practice, and as such it is not considered appropriate that executives should be credited with a year in service ahead of the normal three-year LTIP cycle on this basis. This method of pro-rating for time is non-standard in the UK, and there is no apparent case for this as a result of recent regulatory changes, despite the Company's explanations of same. We have accepted the case for the new pro-rating arrangements.

However, we have exceptionally supported this resolution as we consider that Paul Hermelin's bonus is deserved as he / the business over-achieved on key metrics such as top line margin levels and FCF. With that said, we intend to encourage

	Resolution 7. Elect Patrick Pouyanne as Director	For (Exceptional)	Under normal circumstances we would have voted against this director as their proposed term of office is four years and as we consider that terms in office exceeding 3 years (without the director being re-elected by shareholders) reduces director accountability to shareholders. However, we are mindful that a 4 year term is common practice in France and more importantly, this is a new, independent director with a good level of experience so they should add value to the board.

	Resolution 5. Change Company Name to Dominion Energy, Inc.	For	
	Resolution 6. Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this resolution is warranted as additional information on the company's comprehensive lobbying-related activities would enable shareholders to better assess the company's lobbying activities and management of related risks and opportunities.
	Resolution 7. Require Director Nominee with Environmental Experience	For (Exceptional)	Dominion's proxy statement provides information about the variety of factors considered by the company when evaluating nominees for the board, which include experience in the utility and gas industry, financial or accounting experience, and legislative or regulatory experience. The company's corporate governance guidelines state that candidates who represent a mix of backgrounds and experiences are selected to enhance the quality of the board's deliberations and decisions. The guidelines list business and financial experience and governmental and community service as relevant criteria. Among the twelve director nominees listed in the proxy statement, currently none of them have environmental experience among their core responsibilities in their current or past positions, and none of them appear to have environmental training or education that would indicate expertise on the subject. A director with environmental expertise would be of value to Dominion given the climate risk and other environmental impacts of its current projects. Such a director could enhance the board's oversight of environmental risks and concerns in the company's operations. This resolution therefore warrants shareholder support.
	Resolution 8. Assess Portfolio Impacts of Policies to Meet 2 Degree Scenario	For (Exceptional)	Dominion provides climate-change related disclosure in its 2015-2016 Citizenship Report, its 2014 Greenhouse Gas (GHG) Report, its 2015 Integrated Resource Plan (IRP), and its Form 10-K. The company provides information on its climate change strategy and its initiatives to reduce its carbon intensity. Dominion also provides information on its management and oversight of climate change related risks. In its Form

Schedule of voting on company resolutions

			10-K, the company discusses potential risk resulting from climate change regulations that may be imposed on energy companies mandating limitations on GHG emissions. However, the company does not provide a quantitative analysis of these risks. While in its 2015 IRP, Dominion assesses Clean Power Plan compliant alternative plans to meet future electricity demand, the plans assessed are based on the draft CPP, published in June 2014, and do not appear to be consistent with the 2-degrees Celsius scenario put forth by the Paris Accord in December 2015. Although the company provides extensive information on the steps it is taking to address climate change, such as diversifying its energy portfolio with renewables and natural gas; it does not mention how it has prepared to meet possible challenges from government regulation or the technology sector as a result of commitments to the Paris Accord. Shareholders would benefit from more comprehensive information about the impact that climate change regulations designed to limit global warming to no more than 2 degrees Celsius over pre-industrial levels might have on the company. This includes information, supported by scenario analyses, on how Dominion considers the impact of climate change laws and regulations on the demand for the company's products. Such information would allow investors to better assess the risks that climate change regulations may pose to the company and shareholder value, and Dominion's management of these risks. Therefore, this proposal warrants shareholder support.
	Resolution 9. Report on Methane Emissions Management and Reduction Targets	For (Exceptional)	A vote for this resolution is warranted, as additional information regarding the company's methane emissions, and its related reduction practices and policies, would allow shareholders to better understand the company's management of its methane emissions and any related risks.

	Resolution 5. Advisory Vote on Say on Pay Frequency	For (Exceptional)	In the US, companies are now required to give shareholders a choice of one, two or three years for the preferred frequency of advisory say-on-pay votes. We have voted for our preferred frequency of one year.
	Resolution 6. Provide Right to Act by Written Consent	For (Exceptional)	A vote for this proposal is warranted given that the ability to act by written consent would enhance shareholder rights.
	Resolution 7. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

	Resolution 5.2. Elect Arthur Vy Ty as Director	For (Exceptional)	This Chairman is non independent (due to being from the founding family) who ideally should be independent in the interests of maintaining a balanced unitary Board). However, we take some comfort that at least a third of the Board is independent. Under normal circumstances we would have abstained however this is not a valid vote option, hence we support Mr Ty's re-election but encourage the company to strengthen board independence and consider appointing a lead independent director.

We believe that authorities of this nature should be put to shareholders on an annual basis, as over the year there may be significant changes in company circumstances or in market conditions. However, we have exceptionally supported as the amount sought is within our guidelines for what we would usually support and this REIT is valued at a premium to NAV so an equity raise and acquisition is likely to be a accretive.

	Resolution 15. Reappoint KPMG LLP as Auditors	For (Exceptional)	The company has retained the same audit firm since 2004 (i.e in excess of ten years). Mandatory auditor rotation (or at least a Tender for Audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. The audit role will be retendered in 2023. This will take the tenure of KPMG to near 20 years. We see this as the maximum preferred period and this period is the EU preferred maximum too. Therefore we would expect the auditors to be changed in 2023.

However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Kinder Morgan Inc Class P is exposed to risks associated with bribery and the environment. The environmental risks relate to waste and leakages/efficiency losses in its systems. 	Resolution 3. Adopt Proxy Access Right	For (Exceptional)	A vote for this proposal is warranted, as adoption of proxy access will enhance shareholder rights and the proposal includes appropriate safeguards against abuse of the nomination process.
	Resolution 4. Report on Methane Emissions	For (Exceptional)	KMI made disclosures related to climate change risks in its methane commitment, climate change statement, EHS web page, committee charter, EPA program participation and its 10-K Form. KMI's statement on climate change and methane commitment explain, in general terms, the benefits of natural gas over other sources of energy and the company's climate change priorities. The committee on Environmental, Health and Safety oversees the company's environmental initiatives and challenges, including climate change. The company states that it plans to reduce the intensity of its emissions by 0.31 percent by 2025 as part of its ONE Future Emissions Intensity Commitment, but does not otherwise mention a methane reduction goal. The 10-K Form discusses how existing and additional methane and GHG regulations could lead to increased costs to the company and impact its profitability. KMI does not appear to have a comprehensive plan or policy for managing its methane emissions, nor a reduction goal for overall emissions. KMI lists several technologies it uses to capture and manage methane emissions but does not disclose data on the frequency or extent of natural gas leaks. Such information would allow shareholders to more comprehensively assess the company's approach to managing its emissions and related risks. As a result, shareholder support for this resolution is warranted.
	Resolution 5. Report on Annual Sustainability	For (Exceptional)	While Kinder Morgan does not publish an annual corporate sustainability report, it provides some information commonly included in such a report on its company website. Kinder Morgan discusses its Environmental, Health and Safety policies on its Safety & Environment web page, and outlines its initiatives and awards related to safety, the environment, and the public. The company also says that its Environmental, Health and Safety Committee oversees ESG-related performance, are assesses the effectiveness of these policies,

			<p>programs, procedures and initiatives. The company also discloses an Aboriginal Policy, which outlines its commitments and policies to these communities where it operates. While Kinder Morgan discloses on some of the elements typically outlined in an annual corporate sustainability report on its website, the company could disclose additional ESG-related information, such as metrics and goals regarding water use and air emissions. Similarly, while the company provides a policy regarding aboriginal communities, the outlined principles are brief and are not aligned with international standards, such as the UN Declaration on the Rights of Indigenous Peoples. Although producing a corporate sustainability report requires an expenditure of company resources, the potential cost and burden may be outweighed by benefits that could be realized through the identification and evaluation of potential risks, liabilities, and opportunities. Such disclosure would also allow shareholders to better assess the company's sustainability performance and its related management mechanisms. The proposal therefore warrants shareholder support.</p>
	Resolution 6. Report on Capital Expenditure Strategy with Respect to Climate Change Policy	For (Exceptional)	<p>KMI made disclosures related to climate change risks in its climate change statement, committee charter and its 10-K Form. KMI's statement on climate change explains in general terms the benefits of natural gas over other sources of energy and the company's climate change priorities. The committee on Environmental, Health and Safety oversees the company's environmental initiatives and challenges. The 10-K Form briefly mentions the possibility that capital expenditures or assets might be stranded due to regulation that might render investments unrecoverable if the company is unable to successfully cover its investment from increases in rates paid by electricity consumers in different counties, states or provinces. In KMI's disclosures, the company states that there is a possibility of a demand decrease for its products due to a variety of factors including climate change regulation and preferences for other fuels in a 2 degree scenario. Although the company contends that it incorporates use of different energy sources and regulation to its risk analysis, the company does not provide an analysis of how it has accounted for the Paris</p>

			Agreement's 2 degree scenario in its capital investment decisions. The company indicates in its climate change statement that it already incorporates asset and capital expenditure risk analysis to its business models, however, this analysis is not made publically available. More disclosure of the risks posed by different technologies and regulations could better inform shareholders of the investment risks they are undertaking. For these reasons, the proposal merits shareholder support.

	Resolution 6. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

However, in mitigation, a minimum EPS underpin applies for the three-year vesting period which, if not met, will result in forfeiture of 50% of awards. As major shareholders in the Company, we were consulted extensively on the Management Incentive Plan which was approved in 2014. 			to why it feels that the bonus banking plan is in the best interests of both participants and shareholders. There was a new CEO, a change in strategy , the company is in a cyclical industry and TSR does not mean much to participants. Whilst the plan is based on annual performance, there is a significant amount of deferral and the banked bonus is significantly clawed back if performance is not sustained over the long term. Therefore this is real alignment with shareholders (and also streamlines executive pay arrangements) we continue to be supportive.

			division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 7. Adopt Simple Majority Vote	For (Exceptional)	The elimination of supermajority vote requirements represents an enhancement to shareholder rights. Supermajority provisions violate the principle that a simple majority of voting shares should be all that is necessary to effect change regarding a company and its corporate governance provisions.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. In this case the company explained the importance of certainty of funding when bidding and the risk of being excluded due to</p>

			requirement to go back to shareholders for approval. Given the small size of the company compared to industry peers management deem that 20% flexibility is essential. It should be noted that the company has not used the full authority since 2008 and most recent acquisitions have been debt funded. Management also confirmed that should the company bid for a target which would require significant equity funding, provided the transaction is in the public domain, management would consult with significant shareholders. Given the company's strong track record in delivering value, and the explanation provided regarding the bidding process, we are supportive of the capital authorisation.

Westinghouse Air Brake Technologies Corporation AGM 10/05/2017 UNITED STATES	Resolution 1.1. Elect Director Philippe Alfroid	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. WABTEC is exposed to environmental risks associated with water pollution, energy use and water use. We note that the Sustainability Report dated December 2013 contains environmental performance data for 2011 and 2012 but we would like to see more recent data in the public domain. The company submitted a response to the CDP in 2016 but does not disclose any quantitative data and stated that climate change "is yet to be fully integrated into their decision making". We deteriorate our vote this year to an abstain and recommend the company to disclose data on their environmental performance.</p>

			disclosed in previous remuneration reports. The CEO and CFO received bonuses equal to 40% of salary in respect of 2016. We note that there has been no disclosure regarding the bonus targets for Andrew Scull, the UK-based Director but we are mindful that his bonus was modest at 8% of salary. We have noted the 12% salary increases awarded during the year for the CEO and CFO. The Report states that the increase for the CEO reflects the fact that the Executive Chairman became Non-Executive in September 2015 and the CEO assumed additional duties and responsibilities. With regard to the CFO, the Report states that since his appointment in April 2015 he assumed additional duties and responsibilities. We are comfortable with these explanations and are mindful that overall pay levels are prudent.

	Resolution 4. Reappoint Deloitte LLP as Auditors	For (Exceptional)	Deloitte LLP has served as the Company's auditors since 1998, 19 years ago. Mandatory auditor rotation (or at least a Tender for Audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, this is not a vote against as we note from the annual report that the Company intends to put the audit out to tender at least every ten years as recommended by the Code (the audit was last put out to tender in 2009, so we expect another to be done in 2019 at the latest).

	Resolution 5. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

	Resolution 5. Reappoint KPMG LLP as Auditors	For (Exceptional)	The company has retained the same audit firm since 2000 (i.e in excess of ten years). Mandatory auditor rotation (or at least a Tender for Audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. As KPMG were reappointed in 2013 following a competitive tender process, the Group anticipates that the next requirement to tender its audit will be for the 2023 calendar accounting year. These timeframes will ensure compliance with the provisions of the CMA Statutory Audit Services Order 2014 and EU Audit Directive and Regulation, effective 17 June 2016. We understand the position of the company and as their tenure is less than 20 years we will support. However, we would like to see a change of auditor by

	Resolution 7. Re-elect Scott Forbes as Director	For (Exceptional)	We note that Mr Forbes previously served as the chief executive and consequently is not considered independent. Normally we would encourage companies to transition to an independent chair to ensure a balanced and effective board. In this case we see the merit in Mr Forbes leadership during a period of change in the executive team and do not have particular governance concerns at this time.

William Hill PLC AGM 09/05/2017 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company, especially as William Hill PLC is exposed to risks associated with bribery. However, the company has a Code of Conduct in place which outlines the basics of its approach to bribery, corruption and fraud. It also states that the anti-bribery policy is communicated to employees and reviewed periodically. We would encourage the company to disclose details of their performance in this area (e.g. data on bribery training) and will consider deteriorating the vote next year if no further details will be published.

Mandatory auditor rotation (or at least a Tender for Audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, we have exceptionally supported the reappointment of Deloitte as we note that the Audit Committee has disclosed plans to put the audit out to tender in FY2018.
