	Resolution 1j. Elect Director Dominick Zarcone	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. LKQ is exposed to environmental risks associated with water pollution, energy use and water use. We would expect this company to publish absolute or normalised data on its recent environmental performance but this information is not available in the public domain. The company has not provided a response on its carbon data to the CDP. In light of the lack of environmental performance data, we are moving our vote to an abstain this year. We look forward to reviewing improved disclosure next year.</p>

	Resolution 6. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

The Chairman's role on a board is to evaluate and review the performance of management, and to ensure there are sufficient checks and balances; this role is obviously compromised when the Chairman is also the CEO. However, we have exceptionally supported his re-election as there are mitigating factors. Firstly, independent directors represent a majority of the board. Also, there is now an independent

			senior/lead director (Iris Knobloch) who replaced long serving Philippe Citerne in July 2016. However, the other issue with Sebastien Bazin is that he sits on more than one outside board (General Electric and China Lodging Group), raising questions over whether he can devote sufficient time to each of these roles. We will be raising this concern with the company.

	Resolution A. Remove Double-Voting Rights for Long-Term Registered Shareholders and Amend Bylaws Accordingly	For (Exceptional)	<p>We are one of fourteen shareholders representing a total of 2.3% of Accor's share capital who have submitted this proposal, requesting that the Company: Removes the double voting right attached to shares in the Company provided for in Article 25 of the Company's Articles of association; To maintain the double voting right attributed to all fully paid-up shares registered in the name of the same holder for at least two years as at May 5, 2017, in accordance with the provisions of subparagraphs 5 and 7 of Article 25 of the Articles of association modified accordingly. Our reasons for co-filing this resolution is because double voting rights do not provide for a proportionality between capital invested and voting rights. Double voting rights do not particularly favour long-term investment nor does it encourage shareholder loyalty. Rather, double voting rights can be an important tool to investors who are seeking to exercise control over the company. By adopting a single voting right, and with regard to the attendance rate at the general meeting (66 percent for the 2016 AGM), a reference shareholder would ultimately not be able, via the mechanism of double voting rights, to benefit from a blocking minority at the general meeting and simultaneously bypass the obligation to launch a compulsory takeover bid, without having to pay the price. In addition, double voting rights requires the shares to be registered, which results in a significant administrative burden for foreign investors or UCITS (which are often long-term bearer shareholders), and therefore leads to an imbalance in shareholders' rights.</p>

	Resolution 15. Approve Remuneration Policy	For (Exceptional)	Under normal circumstances we would have not supported the pay policy to reflect our concerns over the Committee's decision to retain (under the new policy) the proportion of PSP awards vesting for threshold at 33%. This will result in awards equivalent to 115.5% of salary vesting for threshold performance under the new PSP which is far too generous. Also, when hiring a new Executive, the Committee retains the discretion to award an annual bonus exceeding the limits set out in the Policy Table by a maximum of 50% of salary. However, we are exceptionally supporting the new policy in recognition of the fact that the former Bonus Matching Share, Co-Investment Plan and current PSP are being consolidated into one scheme and the overall impact is a simplification of the package. This will also mean that the long term incentive opportunity will be reduced from 450% to 350% of salary (and from approximately 650% of salary with the removal of the ability to grant exceptional sized awards). In addition, pension provisions for new Directors will reduce from 24% to 10% of salary. The new arrangements also include a holding period for vested LTIP awards.

	Resolution 5. Report on Distributed Renewable Generation Resources	For (Exceptional)	<p>Entergy provides some information on its current renewable-energy power-generating capacity, which includes some wind and hydropower. The company has also recently invested in three solar energy generation projects. The company reports that its clean energy strategy mainly involves capital investments in combined-cycle natural gas and nuclear generation. The company's investments in the past 12 years have resulted in 6,000 MW of additional utility resources, of which approximately 4,458 MW are from combined cycle natural gas generation and 700 MW from non-emitting nuclear generation. Entergy reports that it includes carbon price in investment decisions and that it has a 10-year commitment to stabilize its cumulative CO2 emissions at 20 percent below year 2000 levels through 2020. Entergy states that technological advances such as distributed generation have not impacted the company so far, but further advances have the potential to do so. Entergy also acknowledges that compliance with potential future climate change regulations could negatively impact the company. The company however, does not provide comprehensive information about how the company considers the impact of potential climate change laws and regulations consistent with the 2-degree scenario, on the demand for the company's product. Furthermore, the company states in its 2016 Form 10-K, that increases in capital expenditures in 2016 include a \$114 million investment in transmission lines and a \$95 million investment in fossil fuels and no increases in distributed energy generation or renewable energy. Entergy could provide additional information about policies and relevant oversight mechanisms that the company has implemented to address climate change risk and how that is impacting the company's investments decisions into distributed low-carbon electricity-generation resources. Such information would allow shareholders to better assess the risks that climate change may pose to the company and shareholder value, and Entergy's management of these risks. Therefore, this proposal warrants shareholder support.</p>

	Resolution 1.6. Elect Director David M.B. LeGresley	For (Exceptional)	This vote reflects our concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually withhold support on the Report and Accounts (R&As) but given the R&As are not available to vote on (nor is there a vote on the discharge of the board), we are flagging our concerns by withholding support on all directors up for re-election (except those who have served on the board for less than a year). This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. Pembina Pipeline Corporation is exposed to environmental risks associated with waste generation and efficiency losses in the systems operated. 	Resolution 6. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

	Resolution 5. Assess Portfolio Impacts of Policies to Meet 2 Degree Scenario	For (Exceptional)	DTE Energy provides information on its current renewable energy power generating capacity and its capital investments in wind, solar, and biomass. The company reports that it will meet the Michigan mandated goal of 10 percent renewable generation. In its Form 10-K

Schedule of voting on company resolutions

			<p>the company acknowledges that compliance with potential future legislation requiring reductions in emissions might lead to stranded fossil fuel assets. DTE, however, does not provide comprehensive information about how the company considers the impacts of climate change regulations and how advancements in technology could impact demand for the company's product. Shareholders would benefit from additional information about policies and relevant oversight mechanisms that the company has implemented to address climate change risk and how it has planned for 2 degree scenario compliance. The company's argument that the Paris Accord will not impact its operations because it is a global agreement is unpersuasive since climate change is the collective accumulation of local emissions. DTE is located in the U.S., one of the largest contributors to historic and current CO2 emissions. In the U.S., the electric generation sector remains one the greatest producers of CO2, and as such, there is a possibility the company might have stranded assets as result of the compliance with the two degree scenario. Such information would allow shareholders to better assess the risks that climate change may pose to the company and shareholder value, and DTE Energy's management of these risks. Therefore, this proposal warrants shareholder support.</p>

			<p>response, and its integrated resource plans for the states in which it operates. The company discloses in its 10-K that Duke Energy's profitability might be affected by technological changes, such as advances in battery and solar or regulations that favour net metering and distributed generation. In the company's Sustainability Report, it describes steps that it is taking to reduce the risk of assets being stranded, such as retiring coal-fired facilities, diversifying its energy portfolio to include lower-carbon sources, and choosing not to allocate future capital expenditure into coal energy. While Duke Energy undertakes significant analyses as to the impact that regulation might have on the company's assets or capital investments, these disclosures do not appear to be consistent with the 2 degree scenario. In addition, the scenario analysis conducted by the company's integrated resource plans vary significantly by state. Additional information would allow investors to better assess the risks that climate change regulations based on the 2-degree scenario may pose to the company and shareholder value, and Duke Energy's management of these risks. This proposal therefore warrants shareholder support.</p>
	Resolution 8. Report on the Public Health Risk of Duke Energy's Coal Use	For (Exceptional)	<p>Duke Energy provides information regarding issues related to the company's use of coal, coal ash management, and climate change risk in a number of materials, including the company's website, its 2016 Form 10-K, its 2015 Sustainability Report, its Integrated Resource Plan, and its 2016 CDP Climate Change response. The company discusses its initiatives and plans related to moving towards a lower-carbon future, which includes retiring more coal fired power plants, switching to natural facilities, and investing more in renewable energy. The company discusses its efforts regarding lowering its carbon emissions, SO₂ and NO_x emissions, and mercury emissions. Duke Energy also provides detailed information related to its coal ash management practices, including steps it has taken on ash basin closures, groundwater studies, and its environmental compliance plans. However, apart from stating in its Form 10-K that there could be financial and reputational risks associated with obligations to comply with regulations related to coal ash, Duke Energy does not provide information related to the public health risks associated with the company's coal operations.</p>

Schedule of voting on company resolutions

			Furthermore, the company does not appear to disclose policies, risk assessment reports or risk management procedures related to public health and community impacts of its operations. While the company provides information related to groundwater assessments near its coal ash sites in North Carolina, the company does not provide a broader assessment of the public health impacts resulting from its coal operations on nearby communities. Given the financial and reputational impacts resulting from its recent coal ash spill and regulatory non-compliance, additional information on the community impacts and public health risks associated with the company's coal operations, would allow shareholders the opportunity to evaluate how the company is managing related risks. For the foregoing reasons, shareholder support for this proposal is warranted

	Resolution 3. Advisory Vote on Say on Pay Frequency	For (Exceptional)	In the US, companies are now required to give shareholders a choice of one, two or three years for the preferred frequency of advisory say-on-pay votes. We have voted for our preferred frequency of one year.
	Resolution 4. Approve Omnibus Stock Plan	Against	<ul style="list-style-type: none"> Potentially excessive awards Breaching of dilution limits
	Resolution 5. Ratify Ernst & Young LLP as Auditors	Against	<ul style="list-style-type: none"> Auditor tenure
	Resolution 6. Adopt Quantitative Company-wide GHG Goals	For (Exceptional)	<p>Fluor reports that it has undertaken energy efficiency and various other initiatives to reduce the company's carbon footprint. The company provides quantitative performance data for its Scope 1, Scope 2, and Scope 3 GHG emissions for the period 2012-2014. According to the company's website and its 2015 Sustainability Report, Fluor's overall GHG emissions appear to have stayed relatively flat during that period, although in its 2015 CDP Report, the company reports that its Scope 1 and Scope 2 GHG emissions actually decreased in 2015 from the previous year. The company also reports that when its revenue increases, its emissions increase. Consequently, Fluor provides information on its GHG emissions normalized by revenue for the period 2012-2014. The company reports that its normalized emissions increased between 2014 and 2015 due to a decrease in revenue. Fluor reports that its Vice President of Fluor Enterprises and Sustainability Committee provides oversight of climate change related issues. The company has an HSE Management System and an HSE Policy, and acknowledges that climate change regulations could have a negative impact on the company's business. However, the company does not provide information on board oversight of its GHG emissions management and reduction activities. Additional information related to oversight mechanisms in place to manage reduction of the company's GHG emissions and the adoption of GHG emissions reduction goals would allow shareholders to be able to better evaluate the company's related performance and the effectiveness of mitigation measures the company has implemented to manage these activities. Therefore, this</p>

	Resolution 1.3. Elect Director Lawrence T. Borgard	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Fortis (Canada) is exposed to risks associated with bribery and the environment. The environmental risks are related to waste and efficiency losses in the systems operated. We are pleased to note that the 2017 Environmental Report contains GHG emissions data. With regards to anti-bribery, we noted that the company publishes its Code of Business Conduct and Ethics but we have not seen details of the company's management approach and performance on this issue since last year. In light of the lack of disclosure on the company's anti-bribery performance we are deteriorating our vote this year accordingly. We will, however, expect to see improved disclosure next year.</p>

	Resolution 2. Approve Remuneration Report	For (Exceptional)	Under normal circumstances we would have voted against the remuneration report as we continue to have concerns over the pay levels and structure, particularly given that award multiples are driven off high salaries. However, this vote reflects that whilst the salary for the new CEO, Emma Walmsley has been increased upon her appointment to the CEO role by 18% to £1,003,000, it is 10% lower than that received by Sir Andrew Witty. There are also reductions in her pension contributions and LTIP awards compared to was provided for the former CEO. The Report states that the overall package for Emma Walmsley for 2017 will be approximately 25% less than that received by Sir Andrew Witty. As such, we were comfortable in exceptionally supporting the remuneration report this year to reflect the direction of

			travel. With that said, given the LTIP opportunity (550% of salary for the CEO, but capped at 650%), we are uncomfortable with the level of award that vests for threshold performance (25%). As such, we will again be encouraging the company to reduce the amount vesting for this level of performance. On a separate note, we also welcome the improved bonus disclosure provided in respect of 2016.

Inmarsat plc is exposed to the risk of bribery in its operations. We note that the company publishes a brief Code of Ethics and a summary of its Anti-Corruption and Anti-Bribery Policy. The company's 2016 Annual Report states that the board of directors review UK Bribery Act compliance every first quarter, and that all employees are asked annually to confirm that they understand the restrictions outlined in the company's own Anti-Corruption and Anti-Bribery Policy. The company has a worldwide anonymous telephone service for employees to use if they have any concerns; and it stated that no calls were received by the external provider in 2016. However, it is not clear whether the telephone line covers bribery reporting. We will therefore continue offering a vote of support but encourage the company to make its full</p>

We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Jardine Strategic Holdings is exposed to risks associated with climate change, breaches of human rights norms, and labour standards in the supply chain. We would therefore expect the company to publish details of its policies, management systems and performance in these areas, but little is available in the public domain. In addition, we note the allegations relating to biodiversity against one of the company's subsidiaries in Indonesia. Morgan Sindall Group plc AGM 04/05/2017 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances we would not have supported the R&As as to reflect our concerns over the absence of women on the board. However, we are mindful that the board did have one female director during the year under review but she stands down at the AGM. In addition, the company has strong disclosures on gender diversity about what it is doing to address the industry problem. For example, it says that it is committed to encouraging more women into the construction industry. At 31 December 2016, 21% of their employees were women, almost double the industry average of 12%. Events have been organised as part of the division's ongoing campaign to encourage more women into the industry and gave local women the chance to hear about the experiences of other women working in the industry. Also, the company states that "the Board recognises the importance of diversity at Board level and more broadly throughout the Group and Board believes in the benefits of a greater female presence on the Board.

Reckitt Benckiser Group plc AGM 04/05/2017 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	Under normal circumstances we would have voted against the remuneration report to reflect our ongoing concerns over pay arrangements at the company. However, we have exceptionally supported in recognition that the Remuneration committee has started to properly address shareholder concerns over pay levels and outcomes in a meaningful way, as follows: 1. They have exercised discretion in respect of the HS issue in South Korea - No annual bonus will be paid to the CEO in 2016 (it was going to be £700k) , the LTIP vesting for the three year period to 2016 will be reduced by 50% so the impact on the CEO single figure is a reduction of £14.1m 2. Significant reduction in quantum – partly because of the above, but also as 2017

Schedule of voting on company resolutions

			<p>LTIP awards were significantly down on the previous year. The Remuneration Committee has made a commitment to further reduce the CEO's 2018 LTIP awards (to be made in Dec 2017) by a further 1/3rd from the 2017 levels (resulting in the awards being less than half the 2016 LTIP) 3. Adjustments to be made to the calculation of EPS growth in respect of the proposed MJN acquisition - The Committee and Management have long discussed and understood that an increase in EPS deriving simply from a material gearing of the balance sheet should not be reflected in the incentive plan measure 4. They will exercise discretion on LTIP vesting based on return on capital – their view remains that a single LTIP measure of EPS growth is in the best interests of shareholders generally, provided that it is implemented in such a manner as to continually ensure alignment between management and shareholder interests, as developments in the Group and the environment occur. Senior management have significant share ownership requirements that also ensure an ongoing focus on sustainable creation of shareholder value. However, the Remuneration Committee will exercise discretion on LTIP vesting if the return on capital in respect of the proposed acquisition of MJN does not meet the expectations agreed by the Board, at the time of approval of acquisition. Despite the above changes, we still have reservations over quantum and also as none of the annual bonus award is deferred. As such, we will continue to engage with the company with the expectation that it will continue the positive direction of travel.</p>

Mandatory auditor rotation (or at least a Tender for Audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. We note that subject to the ongoing satisfactory performance of the external auditors, the Audit Committee expects to carry out a tendering process and orderly transition to new auditors no later than 2020. This will comply with the EU/FRC rotation requirements. In view of their commitment to transition no later than 2020 we will support this resolution.

	Resolution 3. Approve Remuneration Report	For (Exceptional)	The executives received bonuses equivalent to 1 time salary despite recording a statutory loss which included a £671m fine for historic cases of bribery. The board decided to remove the fine from the assessment of performance which is reasonable as the entire management team are new and were not implicated in any way. The SFO publicly praised the level of cooperation from the current leadership. The board did apply some discretion and bonus was reduced from 65 to 50% of maximum. Overall the actual pay-outs were broadly justified by the underlying performance of the group which exceeded market expectations.

Santos Limited AGM 04/05/2017 AUSTRALIA	Resolution 2a. Elect Peter Roland Coates as a Director	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Santos Limited is exposed to risks relating to bribery. The company has a Code of Ethical Business Conduct in place and stated that it endorses the Partnering Against Corruption Initiative Principles for Countering Corruption and the group-wide corporate governance program incorporates and adheres to the PACI Principles. We would, however, like to see the details of company's performance in this area (e.g. data on bribery training) but little is available in the public domain.
	Resolution 2b. Elect Guy Michael Cowan as a Director	For (Exceptional)	We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Santos Limited is exposed to risks relating to bribery. The company has a Code of Ethical Business Conduct in place and stated that it endorses the Partnering Against Corruption Initiative Principles for Countering Corruption and the group-wide corporate governance program incorporates and adheres to the PACI Principles. We would, however, like to see the details of company's performance in this area (e.g. data on bribery training) but little is available in the public domain.

	Resolution 3. Advisory Vote to Ratify Named Executive Officers' Compensation	Against	<ul style="list-style-type: none"> Lack of performance related pay
	Resolution 4. Advisory Vote on Say on Pay Frequency	For (Exceptional)	In the US, companies are now required to give shareholders a choice of one, two or three years for the preferred frequency of advisory say-on-pay votes. We have voted for our preferred frequency of one year.
	Resolution 5. Approve Omnibus Stock Plan	For	A vote for this resolution is warranted due to the following reasons:- The creation of a human rights committee, as requested, should serve to further strengthen Verizon's commitment to universal human rights as well as augment its existing human rights-related oversight mechanisms; and- The establishment of a human rights-focused board committee should not be unduly burdensome and should enhance and complement the company's capacity to manage human rights risks in the long-term, for the ultimate benefit of shareholders.
	Resolution 6. Establish Board Committee on Human Rights	For (Exceptional)	A vote for this resolution is warranted for the following reasons:- While the existing initiatives the company has in place to harness the opportunities presented by climate change are commendable, the report sought in the resolution should serve to complement and further the company's greenhouse gas (GHG) emissions reduction goals, energy efficiency- and GHG emissions-related initiatives, management programs, and oversight mechanisms to manage these emissions; and- The requested report should not be duplicative, burdensome or overly costly, but rather, could help preserve and create long-term shareholder value.
	Resolution 7. Report on Feasibility of Adopting GHG Emissions Targets	For (Exceptional)	A vote for this proposal is warranted because a 15-percent demand threshold to call a special meeting is reasonable for a company of this size and ownership structure. This proposal would enhance shareholder

Schedule of voting on company resolutions

			rights by lowering the current threshold for multiple shareholders to call a special meeting.
	Resolution 8. Amend Bylaws - Call Special Meetings	For (Exceptional)	A vote for this proposal is warranted as the company's current clawback policy does not provide for the disclosure of the amounts and circumstances surrounding any recoupments. Such disclosure would benefit shareholders.
	Resolution 9. Amend Clawback Policy	For (Exceptional)	A vote for this proposal is warranted. The CEO beneficially owns a meaningful stake in the company and the NEOs are subject to ownership guidelines. However, this proposal would materially enhance executives' retention of company equity, and shareholders may benefit from implementation of a holding requirement for a reasonable portion of equity-based compensation.
	Resolution 10. Stock Retention/Holding Period	For (Exceptional)	A vote for this proposal is warranted, given that:- the proponent's request is another step that serves to minimize instances of excessive executive pay and pay disparity, which is in shareholders' best interests; and- the proposed limit has the potential to curb excessive cost to shareholders arising from the provision of enhanced retirement benefits to executives.
	Resolution 11. Limit Matching Contributions to Executive Retirement Plans	For (Exceptional)	In the US, companies are now required to give shareholders a choice of one, two or three years for the preferred frequency of advisory say-on-pay votes. We have voted for our preferred frequency of one year.

	Resolution 1i. Elect Director Catherine B. Reynolds	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. General Dynamics Corporation is exposed to environmental risks associated with its strategic influence over direct process impacts, product energy efficiency, material specification and designing for recycling. We would therefore expect this company to publish quantitative performance data, but none is available in the public domain. The company has not submitted carbon data to the CDP. We note that the company previously published a Corporate Sustainability Report, but the latest available report refers to the 2014 data. In light of the lack of disclosure we will move our vote from an abstain to an against again and strongly recommend the company to disclose its environmental data.</p>

	Resolution 1k. Elect Director Peter A. Wall	For (Exceptional)	We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. General Dynamics Corporation is exposed to environmental risks associated with its strategic influence over direct process impacts, product energy efficiency, material specification and designing for recycling. We would therefore expect this company to publish quantitative performance data, but none is available in the public domain. The company has not submitted carbon data to the CDP. We note that the company previously published a Corporate Sustainability Report, but the latest available report refers to the 2014 data. In light of the lack of disclosure we will move our vote from an abstain to an against again and strongly recommend the company to disclose its environmental data.

Approve Remuneration Policy	For (Exceptional)	In the annual report, no explicit statement is provided that the CFO's maximum opportunities for bonuses are being increased from 150% to 200% of salary (on target level) and from 300% to 400% of salary (on maximum level). We understand that this approach was taken as the Remuneration Committee wished to simplify the policy by setting up the

			<p>same maximum level of award for any Executive Director and we note that no increase will be implemented for FY2017. It is noted that over the last three years, the Board has set up the CEO target bonus at 150% of salary rather than using the 200% maximum stated in the operating policy. We have also learnt that the Remuneration committee considers the target level of 200% for all Executive Directors gives useful flexibility to the Board when structuring remuneration, and considers that the bonus targets of 150% for 2017 remains appropriate. Given there are no current plans to increase actual limits and that there is no evidence of past abuses, qualified support is considered warranted. However given variable pay is quite generous, bonus outcomes will be considered under that year's remuneration implementation report. In addition, we welcome that a two-year holding period on vested long-term incentive awards is now being formally included in the remuneration policy and the increased share ownership guidelines for Executive Directors (from 100% to 200% of salary (the CEO's requirement was already at 200%)) further aligns the Company with shareholder interests.</p>

Ocado Group PLC AGM 03/05/2017 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. However, we welcome that Ocado Group PLC released a statement on modern slavery in February 2017, that outlined their approach to supply chain management. According to this statement, all suppliers are required to: comply with all applicable laws, regulations and our Responsible Sourcing Code. Although the Responsible

			Sourcing Code is not publicly available, the statement says that it is based on ILO conventions, requiring working conditions being safe and hygienic, employment being freely chosen and prohibiting the use of child labour. Relevant procurement employees receive training, and all suppliers are audited. Given this material improvement, we have exceptionally supported the R&As but would encourage Ocado Group Plc to make its Responsible Sourcing Code publicly available.

	Resolution 6. Adopt Holy Land Principles	For (Exceptional)	A vote for this proposal is warranted for the following reasons; - Enhancements to the company's disclosures on the implementation of its fair employment management mechanisms should mitigate potential risks related to its operations and employment practices. - Specifically, shareholders would benefit from additional information on how existing fair employment policies and procedures have resulted in action to address fair employment concerns, particularly in Israel and the Palestinian Territories. - Given the company's existing disclosures and policies on fair employment topics, it should not be unduly burdensome or otherwise disadvantageous for PepsiCo to enhance its transparency or implement the fair employment principles laid out in the proposal. In addition, we have written to the company regarding their 2017 Corporate Human Rights Benchmark Results.

	Resolution 8. Participate in OECD Mediation for Human Rights Violations	For (Exceptional)	A vote for this resolution is warranted as there may be benefits to resolving potential human rights violations through mediation proceedings, such as reduced costs and quicker resolution of any human rights incidents or controversies. In addition, a policy to address any potential human rights violations through a credible mediation process would further enhance the company's existing human rights policies and initiatives.

EY, or its predecessor firms, have acted as the Company's auditor for more than 25 years. As such, under the transitional provisions contained within the CMA Order, the deadline for the appointment of a new auditor as a result of a tender process is set as 2021. The Committee members consider that, given the appointment of a new Committee Chairman in 2015 and with a new Chief Financial Officer appointed in 2016, it would be preferable for operational reasons to recommend to shareholders that EY be re-appointed as auditors of the Company at the 2017 AGM. 	Resolution 1g. Elect Director Andrew K. Silvernail	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, Stryker Corporation publicly submitted carbon data to the CDP for the first time in 2016 and as such we have exceptionally supported their re-election. We would encourage the company to provide more expanded disclosure in the future as the current CDP D grade indicates that only 40-74% data is available.

Valero Energy Corporation AGM 03/05/2017 UNITED STATES	Resolution 1a. Elect Director H. Paulett Eberhart	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Valero Energy Corporation is exposed to risks associated with climate change. We would expect this company to publish quantitative performance data on its GHG emissions but, as with last year, the 2016 Social Responsibility Report only contains normalised data on refining total energy use. It also states that the average per-barrel greenhouse gas emissions for 2012-2015 decreased by 15% with no quantitative figures disclosed. The company has not submitted a response on its carbon data to the CDP.</p>

There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

	Named Executive Officers' Compensation		
	Resolution 4. Advisory Vote on Say on Pay Frequency	For (Exceptional)	In the US, companies are now required to give shareholders a choice of one, two or three years for the preferred frequency of advisory say-on-pay votes. We have voted for our preferred frequency of one year.
	Resolution 5. Report on Indirect Political Contributions	For (Exceptional)	A vote for this resolution is warranted because shareholders would benefit from more information regarding the company's trade association participation and payments.
	Resolution 6. Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this proposal is warranted as additional disclosure of the company's lobbying-related policies and oversight mechanisms, along with trade association memberships and payments, would help shareholders better assess the risks and benefits associated with the company's participation in the public policy process.
	Resolution 7. Amend Proxy Access Right	For (Exceptional)	On balance, the proposed amendments would enhance the company's existing right for shareholders while maintaining safeguards on the nomination process. Therefore, a vote for this proposal is warranted.
	Resolution 8. Provide Right to Act by Written Consent	For (Exceptional)	A vote for this proposal is warranted as it would result in an improvement in the company's overall governance practices and could enhance shareholders' rights.

The integrity of the auditor's relationship with the company is compromised when a firm is paid excessive fees on top of those paid for auditing services. This arrangement has the potential to open the auditor process to a wide range of conflicts of interest. Having spoken to the company last year they say that the numbers look high because PwC was doing work for them before becoming the auditors and these numbers are included. The company expects the number to come down over time as PwC extricates itself from these previous non audit jobs. However, depending on the length of these projects it may take some time.</p>

AGM 28/04/2017 UNITED KINGDOM	Resolution 2. Approve Remuneration Report	For (Exceptional)	Laird was demoted to the FTSE SmallCap in October 2016, having issued a profit warning as a result of a sudden downturn in its smartphone components business and pricing pressures. The salary rates for the CEO and CFO are considerably high in comparison to companies within the FTSE SmallCap. However, CEO Tony Quinlan's salary is set c. GBP 50,000 lower than his predecessor's (David Lockwood) salary of GBP 550,000, and Kevin Dangerfield's salary is equal to Tony Quinlan's salary as former CFO for FY2016. For 2016, the Remuneration Committee has taken the decision to reduce the LTIP award for the CEO from 200% to 160% of salary. This is to reflect the impact of the poor share price performance in the latter months of FY2016, which would have implied a large increase in the underlying number of shares if awards were to be maintained as a percentage of salary. This is a positive step, and an indication of the committee taking proactive steps to ensure a positive realignment between management pay and shareholder outcomes.

	Resolution 6. Require Independent Board Chairman	For (Exceptional)	A vote for this proposal is warranted. Given the company's size and complexity, history of material settlements, and significant ongoing litigation, shareholders would benefit from the strongest possible form of independent oversight, which an independent chair could facilitate. Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

However, we are comfortable given the Company is only increasing the normal limits for the sake of flexibility and there is no current intention to use the higher limits i.e the Remuneration Committee has confirmed that FY2017 bonus opportunities and LTIP awards will be maintained at 100% of salary. Also, the Company states that no increases to the awards levels will be made without shareholder consultation. Other changes to the Policy are welcomed including an increase in the shareholding requirement from 100% to 150% of salary, a decrease in the proportion of LTIP award vesting for threshold performance under the TSR element from 35% to 25% and the introduction of a deferral mechanism for bonuses in excess of 100% of salary.

	Resolution 7. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Poste Italiane SpA AGM 27/04/2017 ITALY	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. Poste Italiane SpA is exposed to risks associated with climate change and air pollution through fossil fuel combustion, as well as environmental risks relating to water pollution. Although the company has not published a Sustainability Report since 2012 or submitted carbon data to the CDP, it does participate in the International Post Corporation's (IPC) Environmental Monitoring and Measurement System programme. The IPC produces an overall scorecard for its 20 participants, which provides scope 1 and 2 carbon data going back to 2008, and scope 3 data from 2011. The scorecard also sets emissions targets against an averaged baseline. We noted that the company was added to FTSE Indices in the first half of 2016. In light of this, and the company's IPO in 2015, we recommend a vote of support this year. We encourage Poste Italiane to publicly release its data and respond to the CDP, and look forward to the publication of Sustainability Reports again in the future.

However, we are comfortable given the Company is only increasing the normal limits for the sake of flexibility and there is no current intention to use the higher limits i.e the Remuneration Committee has confirmed that FY2017 bonus opportunities and LTIP awards will be maintained at 100% of salary. Also, the Company states that no increases to the awards levels will be made without shareholder consultation. Other changes to the Policy are welcomed including an increase in the shareholding requirement from 100% to 150% of salary, a decrease in the proportion of LTIP award vesting for threshold performance under the TSR element from 35% to 25% and the introduction of a deferral mechanism for bonuses in excess of 100% of salary.</p>

SCANA Corporation AGM 27/04/2017 UNITED STATES	Resolution 1.1. Elect Director John F.A.V. Cecil	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. SCANA Corporation is exposed to risks associated with climate change and the environment. The environmental risks are related to air pollution, water use and water emissions. Having published its first Environmental Sustainability Report last year, the new Report includes bar charts with explicit numerical values as well as trend data. Although it is unclear what percentage of operations the data covers, it is implied that the charts refer to South Carolina Electric & Gas, which is SCANA's largest subsidiary. In recognition of this, we recommend a vote of support and look forward to a further improvement in reporting next year.

	Resolution 2. Approve Remuneration Policy	For (Exceptional)	<p>A number of changes are introduced in the proposed remuneration policy including an increase in performance related award limits. The maximum award opportunities have been increased for bonuses (from 100% to 125% for CEO and 115% for CFO) and PSP awards (from 125% to 150% for CEO and from 100% to 120% for CFO). The Company reasoned that the increases are proposed to broadly place the executives at the median of lower half FTSE 250 companies. We note that the bonus increase is accompanied by an additional stretch of performance targets (from a maximum of 108% to 110% of budget PBT). Also, the Company has reduced the bonus threshold payment from 20% to nil. There are also more positive features included in the new policy, e.g. post-holding period and increased shareholding requirement. In addition, we welcome the introduction of deferral of some of the bonus (20% for the CEO, 13% for the CFO) and even more of the bonus (up to 50%) may be deferred if shareholding requirements have not been met after three years. Whilst we have reservations over the potential increases in variable pay, particularly as the reasons provided suggest an over reliance on benchmarking (and such increases are likely to lead to other companies increasing their pay levels as a result of benchmarking), we are mindful that the new maxima are not excessive, and the overall remuneration policy is an</p>

			improvement to the current one. We also note that salaries for the Executive Directors remain unchanged during the year under review and have been frozen until at least the end of 2018. As such, we are comfortable in supporting the new remuneration policy. Of course, any concerns we may have over pay outcomes can and will be reflected on the annual pay advisory votes.

	Resolution 2. Approve Remuneration Report	For (Exceptional)	The short term incentive scheme (dividend equivalents of outstanding DFSS awards) allows for unlimited awards to be made. However, the awards made during the year do not appear excessive. There has been a 17% increase in salary for CFO but he was appointed on a low salary and this has been flagged in previous years. Amount is still reasonable. There is no 2 year deferral period for DFSS awards. However, based on reasonable levels of pay we are supporting. The inner dilution limit for share scheme awards is 5% and the actual level of dilution is 8%, which exceeds 5% of the Company's issued share capital the industry-wide guideline for share schemes

			strategy, which appears warranted given the scope and complexity of Bank of America's business and its risk profile. The report could provide investors with more comprehensive and specific disclosures with respect to the firm's efforts to both create and safeguard long-term shareholder value.
	Resolution 7. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 8. Report on Gender Pay Gap	For (Exceptional)	A vote for this proposal is warranted as its adoption should serve to further strengthen the company's existing diversity initiatives and allow shareholders to better assess the fairness of the company's employee compensation practices and any potential gender pay gap issues. Furthermore, given that other companies have shown support for addressing inequality on pay and achieving gender pay parity, it should not be unduly burdensome for the company to take on similar actions.

	Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) in Singapore pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. As such, we are comfortable in voting in favour of this occasion..

We believe that terms in office longer than 3 years reduces director accountability to shareholders. However, the proposed term is just one year more and we are also mindful that this director is independent. Given there are a number of shareholder representatives on the board, the importance of having an additional independent director on the board outweighs our concerns over the term of office.</p>

London Stock Exchange Group plc AGM 26/04/2017 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Women represent less than 25% of the board. The Board supports the Davies Review's conclusion that greater efforts should be made in improving the gender balance of corporate boards and that quotas for female Board representation are not the preferred approach. The Board is also aligned with the proposals of the Hampton Alexander Review to ensure talented women at the top of business are recognised, promoted and rewarded and the value in investing in a pipeline of talent. To that end during 2016, the Company signed the UK Treasury Women in Finance Charter signalling the Group's ongoing commitment to equality in the workplace. By 2020, the Company aims to achieve a stretch target of 40% female representation for senior management and our overall staff numbers. In view of their objectives we are not voting against this resolution

Servelec Group Plc AGM 26/04/2017 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Final Dividend	For	
	Resolution 3. Approve Remuneration Policy	For (Exceptional)	The remuneration policy lags best practice in a number of areas. However, the company has an extremely modest approach towards executive pay and we do not consider this to be a risk at this time.
	Resolution 4. Approve Remuneration Report	For (Exceptional)	The company would benefit from enhancing disclosure of variable incentive arrangements. However, executive pay levels are modest and as such are not a cause for concern.
	Resolution 5. Reappoint Ernst & Young LLP as Auditors	For (Exceptional)	The company has retained the same audit firm in excess of ten years. Mandatory auditor rotation (or at least a Tender for Audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. In this case we have not identified any particular areas of concern and conflicts are management appropriately such as the use of external firms for taxation advisory services. We will keep this matter under review.
	Resolution 6. Authorise the Audit Committee to Fix Remuneration of Auditors	For	This Director holds 6 other positions which may give rise to potential conflicts of time. However, the other board positions are relatively less time consuming and there is no indication that this presents a risk to the effectiveness of Mr Last's contribution to the board.
	Resolution 7. Re-elect Richard Last as Director	For (Exceptional)	The remuneration policy lags best practice in a number of areas. However, the company has an extremely modest approach towards executive pay and we do not consider this to be a risk at this time.

The Company provides an explanation within the annual report which states that the Board was mindful, "given Aidan Heavey's unique role as founder of Tullow Oil and CEO for 31 years, of the need to maintain continuity and stability during the leadership transition, particularly with respect to the extensive network of relationships that Aidan has developed, in Africa and elsewhere, over the past three decades. In discussion with Aidan [Heavey] and Paul [McDade], as prospective CEO, the Committee recommended to the Board that a phased approach be adopted, with Aidan assuming the role of Non-executive Chairman for a transitional period not exceeding two years. The Committee believes that a phased transition is in the best interests of shareholders, host governments and other key stakeholders, but fully recognises the UK Corporate Governance Code implications of the proposed changes and the need to engage with shareholders in order to explain the rationale for this decision". We consider the justification as reasonable and support the transitional arrangements. However, we will monitor progress and expect a new independent chair to be appointed with 2 years.</p>

	Resolution 5. Approve Remuneration Policy for Management Board Members	For (Exceptional)	<p>We continue to have reservations over the following:</p> <ul style="list-style-type: none"> LTIP awards have again been made at the maximum levels (400% of salary for the CEO, 350% for the CFO). In addition to this, there is a share matching plan which allows directors to invest up to 60% of their bonus (note that bonus potential is capped at 200% of salary) and entitles them up to a 1.5 for 1 match subject to the achievement of performance targets. Concerns over the above mentioned issues are compounded by the fact that more or less the same performance measures (underlying sales growth, free cash flow growth and core operating margin improvement) are used across the bonus and both the LTI plans. As such, executives are effectively being paid out 3 times for the same performance. The company hasn't introduced a holding period for the LTIP or removed the matching opportunity under the deferred bonus plan, which many other similar sized companies have done (in order to simplify and align arrangements better with shareholders). However, we have exceptionally supported the new policy as: (Subject to approval of the new Remuneration Policy), a two year post-vesting holding period will be applied to awards made from FY2017 The new MCIP will be the sole long-term incentive as the GSIP is being discontinued Performance measures for the MCIP have been amended (from: sales, margin, cash generation, and TSR; to sales, EPS, ROIC and the Unilever sustainability progress index) Shareholding requirements have increased to 5 x salary for the CEO and 4 x salary for the CFO. Post-employment holding periods have been introduced, requiring 100% of the shareholding requirement to be retained for a year and 50% to be retained for two years, will continue to apply. We welcome another year of salary freezes (eg CEO's salary remains at £1,010,000) The Company has committed to continue to drive simplification in reward arrangements and in 2017 will consult further with investors with a view to further aligning our Executive Directors' reward arrangements to the approach they are already applying to the most senior managers. We will be encouraging the company to introduce out concerns regarding quantum.

Wilmar International Limited AGM 26/04/2017 SINGAPORE	Resolution 1. Adopt Financial Statements and Directors' and Auditors' Reports	For (Exceptional)	<p>This vote reflects our concerns over the lack of Social, Environmental and Ethical (SEE) policy/disclosure at this company. Wilmar International Limited is exposed to risks associated with climate change. The company's 2015 Sustainability Report contains selected GHG emissions data, but it does not cover company's upstream and downstream activities outside of oil palm plantations and mills, including Indonesia and Malaysia. Similarly, the company's 2016 CDP submission acknowledges that there are emissions sources not included in its disclosure. We were going to abstain on the R&As this year (and encourage the company to provide more comprehensive disclosure for next year). However, as an abstention is not a voting option, we have voted against.</p>

	Resolution 1.9. Elect Director Pablo Marcet	For (Exceptional)	We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. We are abstaining again this year based on Acacia Mining's continued limited response to human rights issues. As Barrick Gold is the majority shareholder in Acacia Mining, with an approximately 64% share ownership, we are offering a vote of abstain this year.

			pay votes. We have voted for our preferred frequency of one year.
	Resolution 5. Demonstrate No Gender Pay Gap	For (Exceptional)	A vote for this proposal is warranted as adoption of this proposal should serve to further strengthen the company's existing diversity initiatives and allow shareholders to better assess the fairness of the company's employee compensation practices and any potential gender pay gap issues.. Furthermore, given that other companies have shown support for addressing inequality on pay and achieving gender pay parity, it should not be unduly burdensome for the company to take on similar actions.
	Resolution 6. Appoint a Stockholder Value Committee	For (Exceptional)	A vote for this proposal is warranted as its adoption could provide shareholders with additional oversight mechanisms for evaluating the company's present business strategy, which appears warranted in Citigroup's case given the scope and complexity of its business and existing concerns surrounding the company's long-term relative underperformance. Furthermore, the creation of the requested special purpose committee could provide investors with more comprehensive and specific disclosures with respect to the firm's efforts to both create and safeguard long-term shareholder value.
	Resolution 7. Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this resolution is warranted, as additional information on the company's trade association membership, payments, and executive-level oversight, along with direct lobbying expenditures, would enable shareholders to better assess the company's comprehensive lobbying-related activities and management of related risks and opportunities.
	Resolution 8. Claw-back of Payments under Restatements	Against	Proposals do not add any value or strong case not made
	Resolution 9. Limit/Prohibit Accelerated Vesting of Awards	For (Exceptional)	A vote for this proposal is warranted, as shareholders should not have to incur the costs associated with an executive's personal decision to enter government service. Further, policies providing for special compensation arrangements to enter into government service are uncommon, and the proposal is sufficiently tailored to address concerns.

We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Fastenal Company is exposed to the risk of bribery in its operations, as well as environmental risks. The environmental risks are associated with the supply chain, in terms of the environmental attributes of products sold and packaging used. The company did not provide a public response on its carbon data to the CDP 2017. The company does not publish any other quantitative environmental performance data. With respect to bribery, we strongly encourage the company to publish its code of ethics, as well as to disclose details of its management approach and performance in this area.</p>

GlobalData Plc AGM 25/04/2017 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	The company granted substantial share options to the executive chairman which partially begin vesting after only 2 years. The company could also improve the quality of disclosure of the overall remuneration policy granted to Mr Cragg following his appointment as executive chairman. However, there are a number of positive elements of the plan including the post-acquisition adjustments of earning targets and the vesting of part of the award over a 4 year period. On balance we are supportive of the arrangements but would encourage the company to ensure that shareholders are provided the opportunity to approve the remuneration arrangements on an annual basis.

Golden Agri-Resources Ltd AGM 25/04/2017 MAURITIUS	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	<p>Under normal circumstances we would have voted against the R&As to reflect our concerns over the lack of Social, Environmental and Ethical (SEE) policy/disclosure at this company. However, we note that following the launch of a three year Carbon Footprint Assessment in 2015, the company has now published environmental performance and GHG data for selected palm oil plantations in its most recent Sustainability Report. The company has also submitted carbon data to the CDP, although it acknowledges that there are emissions sources not included in its disclosure. As there is not yet any trend data, and as it is not clear what percentage of total operations the Sustainability Report covers, we were going to abstain on the R&As this year (and encourage the company to provide more comprehensive disclosure in the following year). However, as an abstention is not a voting option, we have exceptionally supported this year. This support vote also reflects</p>

	Resolution 9. Reelect Jean-Pascal Tricoire as Director	For (Exceptional)	Under normal circumstances we would not have supported the re-election of this director as he serves as combined CEO/Chairman, roles that should be split. The Chairman's role on a board is to evaluate and review the performance of management, and to ensure there are sufficient checks and balances; this role is obviously compromised when the Chairman is also the CEO. However, we have exceptionally supported his re-election as we have recently discussed this issue with the company and acknowledge that there are mitigating mechanisms guaranteeing adequate oversight of the management. For example, the company has made a concerted effort to improve the quality of the board which has now been reduced in size to 13, independent directors and women represent 67% and 42% of the board respectively. The company also stressed that the most important issue for the board is the balance of power and oversight which they feel can be achieved through the lead director position. The company provided detailed disclosure of the role of the lead director which was reasonable and confirmed that he spends 30% of his time in the role compared to 15% for the other NEDs. The board also continues to review the combined CEO/Chair role on an annual basis and have regular board evaluations including external. Further, the Vice-Chairman Lead Independent Director convenes executive sessions held without the presence of the executive members of the Board and also has direct interactions with shareholders and reports thereon to the Governance Committee and further to the Board.

		high positioned based pay. However, we welcome that to address shareholder concerns raised last year, the Remuneration committee has decided to reduce the PSP grant to 575% of salary to both Directors. This compares to PSP award levels of 725% of salary granted to the CEO in 2016 and 672% of salary for the CFO, whilst the maximum PSP limit is 840% of salary. We also note that a large proportion of the awards is in the forms of SARs which means that the share price has to increase before awards are worth anything. Whilst the performance measures will remain unchanged, the Committee has decided to increase the performance target ranges under both the product sales and Non GAAP EBITDA elements. In addition, the Committee has introduced a sliding scale ROIC underpin for the three-year performance period. The underpin has been set such that a maximum of 25% of the total award payable following the assessment against the product sales and Non GAAP EBITDA measures would be able to vest for average ROIC performance over the period of 7.5% rising on a straight-line basis to 100% of the award being available for vesting for average ROIC performance over the period of 8.5%. We are also mindful that the base salary of the CEO, remained unchanged at US\$1,688,000 from 2015, following the 25% salary increase awarded to Dr. Ornskov during 2015. The Committee has committed to freezing his salary at this level for the next three years until July 2018. We shall continue to keep remuneration levels and performance targets under review.

	Resolution 6. Provide for Cumulative Voting	Against	Proposals do not add any value or strong case not made
	Resolution 7. Report on Divesting Non-Core Business	For (Exceptional)	A vote for this proposal is warranted, as its adoption could enhance shareholders' ability in evaluating the company's present business strategy, which appears warranted given the scope and complexity of Wells Fargo's business and its risk profile. The report could provide investors with more comprehensive and specific disclosures with respect to the firm's efforts to both create and safeguard long-term shareholder value.
	Resolution 8. Report on Gender Pay Gap	For (Exceptional)	A vote for this proposal is warranted because it would allow shareholders to better assess the fairness of the company's employee compensation practices and failure to effectively address gender pay gap issues could put the company at a competitive disadvantage in the recruitment of candidates and retention of employees. Furthermore, given that other companies have shown support for addressing inequality on pay and achieving gender pay parity, it should not be unduly burdensome for the company to take on similar actions.
	Resolution 9. Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this proposal is warranted because additional disclosure of the company's trade association memberships and expenditures would help shareholders better assess the company's comprehensive public policy activities, as well as the risks and benefits associated with the company's participation in the public policy process.
	Resolution 10. Adopt Global Policy Regarding the Rights of Indigenous People	For (Exceptional)	A vote for this proposal is warranted, as shareholders would benefit from additional information regarding its policies, due diligence processes and oversight of indigenous rights-related risks, given the negative financial and reputational impact of the Dakota Access Pipeline controversy.

	Resolution 5. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 6. Political Lobbying Disclosure	For (Exceptional)	A vote for this resolution is warranted, as additional information regarding the company's trade association activities and lobbying-related expenditures would be a benefit to shareholders.

Hutchison Port Holdings Trust AGM 24/04/2017 SINGAPORE	Resolution 1. Adopt Report of Trustee-Manager, Statement by Trustee-Manager, Audited Financial Statements, and Auditor's Report	For (Exceptional)	This vote reflects our concerns over the lack of Social, Environmental and Ethical (SEE) policy/disclosure at this company. Hutchison Port Holdings Trust is exposed to environmental risks associated with water pollution and waste management. The company has disclosed in their 2016 Annual report that its clean terminal campaign in September - December 2016 resulted in waste reduction. We would expect this company to publish quantitative environmental performance data but little is available in the public domain. Under normal circumstances we would have abstained but this is not a valid vote option so we have exceptionally supported this year to reflect that there has been some (improved) disclosure.

			pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, we are mindful that this company and other Real Estate Investment Trusts (REITs) in Singapore are required to distribute at least 90 percent of distributable income to unitholders. Given the required percentage of distribution, a limit of 10 percent is deemed to be too restrictive which may impede the REITs' growth in terms of acquisition of properties. As such we are comfortable in supporting on this occasion.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. Further, the CEO pursues a solid financial strategy and has a long standing track record in the listed real estate markets. We expect him / the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

However, the company has provided clear rationale for its proposal. The increase is because the chairman has relinquished his role as CEO and that the disclosed future remuneration of the executive chairman Ernst Tanner is similar to the level of pay for other executive chairmen in the Swiss market, would represent a 46 percent pay cut in comparison with the granted remuneration he received as</p>

We are mindful that independent directors represent the majority of the Board and that Stephen Hemsley has a strong track record and a wealth of experience in what is a fast growing international business. Also, it would appear necessary for him to remain on the Board to ensure some continuity and stability given there has been significant board change over the last couple of years, including a change of CEO, the departure of not one but three FDs and a number of non-executive director changes. However, last year we abstained on his re-election as the number of FD changes were somewhat concerning. Also, he is chairman of the nomination committee and we were concerned that

			despite being a large FTSE Company, there was just one female director on the board (with all three of the last appointments being male directors). Our decision to support his re-election at the 2017 AGM reflects that we welcome the appointment of an additional female director during the year, especially as she, Rachel Osbourne is an executive appointment (the new CFO). Further, the other female, Helen Keays was appointed as Senior Independent Director (SID) with effect from 20 April 2016.

However, GEA Group Aktiengesellschaft is exposed to environmental risks associated with water pollution, energy use and water use. The company provided a response on its carbon data to the CDP 2016 but the response is not public. However, we noted that the company disclosed data on direct and indirect greenhouse gas emissions for its operations in the 2016 annual report. We would like to offer the support vote for this company this year in acknowledgment of its increased disclosure. However, we would expect the company to publish more quantitative environmental performance data for its global operations next year.

We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Intuitive Surgical is exposed to environmental risks related to water pollution and waste generation. We would therefore expect this company to disclose environmental performance data, but none is available in the public domain. The company has not submitted a response on its carbon data to the CDP.</p>

	Resolution 11. Re-elect Fiona MacLeod as Director	For (Exceptional)	Under normal circumstances we would have withheld support on Fiona MacLeod's re-election due to concerns over her poor attendance record. Specifically, she missed six out of a total of twenty-three meetings. We note that where meetings were missed ('due to unavoidable commitments'), full Board packs were distributed and separate discussions were held with the Chairman on all matters of relevance. But of course, it is not ideal her missing a number of opportunities to discuss the issues as a Board. Further, in her new capacity as Senior Independent Director, her attendance at meetings will assume additional importance. Upon engagement with the company we were advised that she was unavoidably absent on two meeting dates in the year, due to unforeseen changes in her commitments. Although unfortunate, this was very much a one-off and the Company does not expect a similar trend going forward. Also, Fiona MacLeod circulated a list of all her questions/concerns and feedback to the Board, following her review of the papers, prior to these meetings. In addition she actively mentors the senior executive team outside of formal Board meetings so there is ongoing dialogue and regularly

Given our concerns about directors effectively being rewarded for failure, we believe that severance payments should be no greater than 2 times salary only. However, we have exceptionally supported this resolution as we have noted that their severance payment is reduced by half if the departure takes place the last year of his mandate, and as his mandate will end following the 2018 AGM. In addition, arrangements are generally in line with the code AFEP MEDEF and the remuneration levels are not problematic. Kraft Heinz Company AGM 19/04/2017 UNITED STATES	Resolution 1a. Elect Director Gregory E. Abel	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, Kraft Heinz Company has been created as a result of the merger of Kraft Food Group and Heinz in 2015 and Kraft Heinz is planning to release its first CSR report in 2017. In light of this, and the fact that the company submitted carbon data to the CDP in 2016, we have exceptionally supported the re-election of this director.

However, Kraft Heinz Company has been created as a result of the merger of Kraft Food Group and Heinz in 2015 and Kraft Heinz is planning to release its first CSR report in 2017. In light of this, and the fact that the company submitted carbon data to the CDP in 2016, we have exceptionally supported the re-election of this director.

Schedule of voting on company resolutions

	Resolution 1j. Elect Director John C. Pope	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, Kraft Heinz Company has been created as a result of the merger of Kraft Food Group and Heinz in 2015 and Kraft Heinz is planning to release its first CSR report in 2017. Sembcorp Industries Ltd is exposed to risks associated with human rights and bribery in its operations. We are pleased to note that the company has published its Code of Business Conduct and that it provides some information on employee training on the Code in the 2016 Sustainability Report. The company also disclosed that in 2016 it launched the pilot programme which consists of training sessions in anti-bribery and corruption. We also note that the company has extended the remit of its human rights policy by becoming a UN Global Compact signatory. We will offer a vote of support this year in</p>

			(R&A)s or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Lennar Corporation Class A is exposed to risks associated with health and safety, climate change and the environment. The environmental risks are related to water pollution and waste, as well as indirect impacts including material specifications and product impact. We would expect this company to publish quantitative data on its performance in these areas but little information is available in the public domain. The company has not disclosed carbon data to the CDP. In light of the lack of improvement in public disclosure on these issues since last year, we continue offering an against vote.

	Resolution 5. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Ferrari NV AGM 14/04/2017 NETHERLANDS	Resolution 2.e. Adopt Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. However, Ferrari NV is exposed to climate change and environmental risks associated with GHG emissions, energy use, water and air emissions, water use and waste. The company discusses environmental issues in its 2016 annual report and sets targets for CO2 emissions' reductions. However, it does not disclose quantitative data on its environmental performance. We will continue to offer a vote of support this year in acknowledgment of the demerger that occurred in January 2016. We look forward to improved disclosure next year and expect Ferrari to submit a public response on its carbon data to the CDP.

	Resolution 3. Approve Remuneration Policy	For (Exceptional)	<p>Support for the remuneration policy is warranted to reflect that the company has improved its remuneration policies in response to the concerns we raised last year and which led to the policy being defeated. Arrangements are on the whole, now aligned with good European executive remuneration practice, with a significant improvement in disclosures. However, there are some outstanding issues which we have been engaging with the company on: Service contracts exceed 2 times salary. We believe that severance payments should be no greater than 2 times salary. Furthermore, the CEO has a EUR 1 million non-compete allowance in favour of the current CEO remains in place in case his current directorship mandate is not renewed in 2019. But we acknowledge that the total compensation is relatively low compared to peers and also when considering the performance of the company. Also, 2 years' salary is normal practice in Italy, as is a non-compete agreement for a high-level manager or CEO. If the CEO went to work</p>

			for one of the company's competitors, it would be a big concern for Cerved and its shareholders, and therefore this non-compete clause (confirmed by the company as 3 years) provides some protection. The other issue we will be engaging with the company on is that it does not provide details about the performance measures for executive bonuses other than the CEO (although bonus potential is relative modest at between 50% and 80% of salary). The company provides, as example, a list of non-exhaustive KPIs. The key financial performance indicator used for executive officers is the Organic EBITDA (weighs 50% on total bonus).

However, we have exceptionally supported the new policy as we welcome that the company has introduced a two-year post-vesting holding period for LTIP awards made from FY2017 onwards. The other mitigating factor is that bonus potential is relatively low, as are remuneration levels generally.

	Resolution 17. Reappoint PricewaterhouseCoopers LLP as Auditors	For (Exceptional)	The company has retained the same audit firm since 1995 (i.e well in excess of ten years). Mandatory auditor rotation (or at least a Tender for Audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. We note that subject to the ongoing satisfactory performance of the external auditors, the Audit Committee expects to carry out a tendering process and orderly transition to new auditors no later than 2020. This will comply with the EU/FRC rotation requirements. In view of their commitment to transition no later than 2020 we will support this resolution.

	Resolution 6. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted, as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

However, upon engagement with the Company we were advised that there have been some recent board changes, specifically the appointment of an additional independent non-executive on 26 Feb 2017 (Police General Suwat Chanitthikul) who replaced non-independent (executive) director Mr.Somyos Chiamchirungkorn on the audit committee on January 2,2017. Also, an executive director appears to have stepped down, leaving three executive directors. We welcome the changes and as such, there are now 3 independent directors representing a third of the board which now allows us to support the re-election of this director (although we will continue to keep the board composition under review)

Schlumberger NV AGM 05/04/2017 UNITED STATES	Resolution 1a. Elect Director Peter L.S. Currie	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, Schlumberger is exposed to the risk of bribery in its operations. We note that the company's code of conduct is public and that it has published its Global Stewardship Report where ethics approach is outlined. In recognition of this improvement in disclosure, we will continue to offer a vote of support. We would, however, like to see details of the company's performance in this area next year, such as details on employee training or code violations.

Re-elect Jimmy West as Director	For (Exceptional)	Under normal circumstances we would have voted against the re-election of this director as he has served on the board for over 20 years, and there are also another two directors on the board who has served longer than 9 years. Contrary to the AIC code we believe that lengthy service does compromise the independence of directors. Also, investment trust boards should ideally comprise of independent directors only. Last year we engaged with the Company to say that following the appointment of an independent director in 2015 we would expect one of the long serving directors to step down in due course and if such change hasn't occurred by next AGM, we are likely to vote against all of them at this AGM. However, we have exceptionally supported their re-election as we are mindful that Jimmy West and one of the other long serving directorx will retire from the Board if Shareholders of both AUKT and the Company approve the proposed merger with Aberdeen UK Tracker Fund (which is likely).

Dentsu Inc. AGM 30/03/2017 JAPAN	Resolution 1.1. Elect Director Yamamoto, Toshihiro	For (Exceptional)	During the fiscal year under review, two incidents arose for Dentsu, attracting a great deal of public attention; one is the company's working conditions in the wake of a 24-year-old female employee's suicide induced by overwork, and the other is inappropriate operations in its digital advertising services business. On January 22, President Tadashi Ishii stepped down from the president post to take responsibility for the issue, and was replaced by Toshihiro Yamamoto. Yamamoto is a newly appointed director who is working towards changing the company's culture. For this reason we are supporting his election.

			<p>Hellbom at the 2016 AGM. With the aim of fostering management and board accountability, we support a strict one-share, one-vote policy. As a result, we favour proposals to unify share capital structures, regardless of whether they are submitted by the company's management or by shareholders. Shareholders voting rights should accrue in direct proportion to their equity capital commitment to the company. Dual-class capital structures entrench certain shareholders and management, insulating them from possible takeovers or other external influence or action.</p>

	Resolution 2.4. Elect Director Nagasaka, Atsushi	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Nippon Paint Holdings is exposed to the risk of bribery in its operations. Although we note the company's disclosure on compliance, we urge the company to expand its 'Code of Behavior' to include issues such as bribery. We also encourage the company to publish details of its anti-bribery performance, such as data on employee training. We are continuing to offer the abstain vote this year to reflect the continued lack of sufficient reporting on this issue.</p>

	Resolution 4.1. Reelect Pedro Guerrero Guerrero as Director	Abstain	<ul style="list-style-type: none"> Proposed term in office is too long Non-independent Chairman
	Resolution 4.2. Reelect Rafael Mateu de Ros Cerezo as Director	For (Exceptional)	The proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term and Bankinter was one of the first banks to reduce terms from 6 years to 4 years. In recognition of their leadership we are supporting this re-election.

	Resolution 5. Authorize Increase in Capital up to 10 Percent via Issuance of Equity or Equity-Linked Securities without Preemptive Rights	For (Exceptional)	This authority is valid for 5 years. We believe that authorities of this nature should be put to shareholders on an annual basis, as over the year there may be significant changes in company circumstances or in market conditions. Bankinter limits the potential dilution from any share issuance without preemptive rights at 10 percent of its share capital (Item 5), which stands out in a market where generic non-rights issuance requests usually entail potential dilution of up to 20 percent over issued capital. In view of this better practice, we are supportive.

	Resolution 8. Re-elect Jimmy West as Director	For (Exceptional)	Under normal circumstances we would have voted against the re-election of this director as he has served on the board for over 20 years, and there are also another two directors on the board who has served longer than 9 years. Contrary to the AIC code we believe that lengthy service does compromise the independence of directors. Also, investment trust boards should ideally comprise of independent directors only. Last year we engaged with the Company to say that following the appointment of an independent director in 2015 we would expect one of the long serving directors to step down in due course and if such change hasn't occurred by next AGM, we are likely to vote against all of them at this AGM. However, we have exceptionally supported their re-election as we are mindful that Jimmy West and one of the other long serving directorx will retire from the Board if Shareholders of both AUKT and the Company approve the proposed merger with Aberdeen UK Tracker Fund (which is likely).
	Resolution 9. Contrary to the AIC code we believe that lengthy service does compromise the independence of directors. Also, investment trust boards should ideally comprise of independent directors only. Re-elect Vivian Bazalgette as Director	For (Exceptional)	<p>Whilst we acknowledge the AIC's code does not recommend that long serving directors should be prevented from being considered independent, we believe that lengthy service can compromise the independence of the director. Also, we believe that investments trusts should ideally comprise solely of independent directors (we will accept one exception). As this director has served on the board since 2004, and the board comprises more than one non-independent director, we would typically not support their re-election. However, we have exceptionally supported as we welcome the fact that at the 2016 AGM, long serving chairman Keith Percy stood down from the Board (and was replaced by independent NED Carolan Dobson). As such, Vivian Bazalgette is the only director who has served on the board for over 9 years and we would expect her to step down in due course/upon the appointment of a new director.</p>

UNITED KINGDOM	Resolution 3. Re-elect William Rucker as Director	For (Exceptional)	This Director is a non independent chairman (due to connections with financial advisor Lazard) The overall balance of the Board is not consistent with the provisions of the UK Corporate Governance Code given the number of Executive Directors vis- -vis independent non-executives. As Board Chairman, it is William Rucker's responsibility to ensure that the Company's corporate governance structures are in line with recognised good practice. The main reason for support is: The Company is seeking to appoint a new NED in due course; and while the Board Chairman was not independent upon appointment, he does not sit on any of the key Board Committees, the composition of which remains compliant with the UK Code.

Dentsu Inc. AGM 30/03/2017 JAPAN	Resolution 1.1. Elect Director Yamamoto, Toshihiro	For (Exceptional)	During the fiscal year under review, two incidents arose for Dentsu, attracting a great deal of public attention; one is the company's working conditions in the wake of a 24-year-old female employee's suicide induced by overwork, and the other is inappropriate operations in its digital advertising services business. On January 22, President Tadashi Ishii stepped down from the president post to take responsibility for the issue, and was replaced by Toshihiro Yamamoto. Yamamoto is a newly appointed director who is working towards changing the company's culture. For this reason we are supporting his election.

	Conversion Rights		warrants constitute an integral part of Genmab's share-based remuneration and are vital to Genmab's ability to attract and retain employees at all management layers. The majority of the warrants issued under this authorization would be issued to employees in Genmab and its subsidiaries, not to executive managers. Indeed the company proposes that board members and consultants may no longer be granted warrants. Also, we welcome that future warrant grants will be subject to three years vesting periods.

IDIS Holdings Co., Ltd. AGM 24/03/2017 SOUTH KOREA	Resolution 1. Approve Financial Statements and Allocation of Income	For (Exceptional)	At the time of analysis, the Company failed to disclose its Annual Report and Accounts. We feel the Company should disclose such vital information in a timely manner so shareholders can make an informed decision on voting matters ahead of the AGM. The company did not provide an auditor's report with its meeting circular, consistent with general market practice in Korea. However, the company stated on its proxy circular that the auditor's report is scheduled to be disclosed on March 16, 2017, eight days ahead of the meeting date.

An identical proposal was submitted by Einar Hellbom at the 2016 AGM. With the aim of fostering management and board accountability, we support a strict one-share, one-vote policy. As a result, we favour proposals to unify share capital structures, regardless of whether they are submitted by the company's management or by shareholders. Shareholders voting rights should accrue in direct proportion to their equity capital commitment to the company. Dual-class capital structures entrench certain shareholders and management, insulating them from possible takeovers or other external influence or action.</p>

However, we met with the company where they explained the following: Remuneration for board of directors has slightly increased compared to last year from 9 to 25 Bn Korean won. However this is because of two things. Firstly pay was for 3 directors and it is now for 4 and secondly the three year vesting is divided into three segments 25%, 25% and 50%. Last year the 25% of the award was paid out but this year its 50% so numbers will look larger.

			Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Shimano is exposed to environmental risks associated with use of energy, water and air emissions and waste. We would expect this company to publish aggregated environmental performance data but this is not available in the public domain. We note that the Social Activity Report 2015 contains details of environmental initiatives and resultant emissions savings but we would like to see aggregated environmental performance data. We also encourage the company to submit carbon data to the CDP.

	Resolution 21i. Instruct the Board to Perform an Investigation of the Consequences of an Abolishment of the Differentiated Voting Powers at SEB; Submit Proposal for Actions and Report it on AGM	For (Exceptional)	<p>Retail shareholder Thorwald Arvidsson has submitted the proposals outlined in the table below. Arvidsson is a regular proponent at the AGMs of major Swedish companies, and many of the following proposals have previously been proposed at other Swedish AGMs. In Sweden, only one share is required in order to submit a shareholder proposal to a general meeting of shareholders. Instruct the Board to Perform an Investigation of the Consequences of an Abolishment of the Differentiated Voting Powers at SEB; Submit Proposal for Actions and Report it on AGM We understand that the proposal does not specify the procedure for granting all shares equal voting rights; it is merely a proposal that the board until the next AGM (or EGM) evaluate the consequences of eliminating supervoting shares. The shareholder does not, by himself, present any suggestions of the procedure, or if compensation in any way should be attributed to shareholders for their loss of voting power. As the resolution gives the board discretion over the terms and in view of the importance of the one share one vote principle we will support this shareholder resolution.</p>

Valspar Corporation AGM 24/03/2017 UNITED STATES	Resolution 1a. Elect Director John M. Ballbach	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. Valspar Corporation is exposed to environmental risks associated with climate change, air and water pollution, water consumption and waste generation. It is also exposed to health & safety risks due to its operations in chemicals sector. We would expect this company to publish quantitative performance data but none is available in the public domain. The company did not provide a public response on its carbon data to the CDP 2016. The company has not been voted on before and therefore we would like to offer an exceptional for vote this year in acknowledgement that it has joined FTSE Index within the last year. We expect the company to provide quantitative performance data next year.

	Resolution 1.2. Approve Allocation of Income	For (Exceptional)	There are two competing proposals for dividends at this meeting. New York based SC Fundamental has filed this shareholder proposal to seek shareholder approval for an annual dividend of KRW 8,000 per share. The management proposes to distribute KRW 7,000 per share under resolution 1.1. Upon review and analysis of the rationale provided by both sides, we are supportive of this shareholder proposal (and have therefore have voted against the management proposal under resolution 1.1). This is because this proposal, to return 46.2 percent of net income does not appear to pose a liquidity risk to this company; given the current balance sheet, the management's stated

			goals of maintaining a 40 percent payout ratio may not be as attuned with shareholder interest compared to a clearer strategy on capital efficiency; and the company would still have ample cash to finance any future investment projects despite the higher dividend payout. In summary we are supportive as we would like the Company to maximise their dividend payment. KRW 8,000 is only a starting point however.

			draw distinctions between executive or non-executive directors. Toll Brothers is exposed to risks associated with health & safety, climate change and the environment. The environmental risks are related to water pollution, waste and indirect impacts associated with material specification and product impact. We would expect the company to publish quantitative data on its environmental and health & safety performance but little is available in the public domain. The company has not submitted a public response containing carbon data to the CDP.

Hologic, Inc. AGM 08/03/2017 UNITED STATES	Resolution 1.1. Elect Director Christopher J. Coughlin	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically

			flag our concerns by withholding support on director reappointment resolutions. Hologic, Inc. is exposed to environmental risks associated with use of energy, water and air emissions and waste. We are pleased to see the improvement in environmental reporting. The Company disclosed data on Scope 1 and 2 GHG emissions from global manufacturing and key office locations. As a result we would like to offer an 'exceptional for' vote this year, an improvement from the abstention in 2016. To maintain the vote of support next year we expect this company to disclose the percentage coverage of the data provided.

			shareholders. However, we have exceptionally supported as the company states that its long-term objective is for the board to consist of eight shareholder-elected members. On this basis, the company has included this item on the agenda to allow shareholders to vote ahead of time on any candidates that may be submitted by the nominating committee before the meeting. Should the nominating committee decide to recommend additional members before the annual general meeting, it will submit revised recommendations to shareholders.

Sage Group plc AGM 28/02/2017 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances we would not have supported the report and accounts and the chairman of the nomination committee as after this AGM, there will only be one female director (representing less than 25% of the board). However, this is only because two of the female directors step down at this AGM. We welcome that another woman (Soni Jiandani) joins the board from the conclusion of this AGM. Also, the company has strong disclosures on diversity and on gender in particular. For instance, 32% of the Senior Management Team is now female, up from 25% in the prior year and increasing women in technology and leadership roles is a particular focus with a target of 35% female representation in the Senior Management Team by FY18. The company will continue to hire people to support the growth plans whilst at the same time driving for productivity, efficiency, high performance and inclusion.

In addition, he sits on the audit and remuneration committees which comprises of less than a majority of independent directors. However, we have exceptionally supported his re-election as we note that one of the non-executive directors has ceased his consultancy services with effect from 1 October 2016 (see res 8), therefore, his independence is no longer being compromised and independent directors do now represent a third of the board. 	Resolution 1i. Elect Director Jonathan Sokoloff	For (Exceptional)	<p>We were initially going to vote against the re-election of Jonathan Sokoloff given it appeared that he attended less than 75% of the board and committee meetings that were scheduled over the past year without a valid explanation. However, on Feb. 3, 2017, the company filed a Form DEFA14A indicating that for FY2016 and going forward, the company will count board meetings held over successive days as one board meeting and count all committee meetings, including those dealing with administrative tasks. For FY2016, application of these principles results in one less board meeting and two additional compensation committee meetings than were included in the company's prior disclosure. As a result, according to the company, no director attended fewer than 75% of the meetings of the board (and any committees thereof) that he or she was required to attend during FY2016. In light of the company's updated disclosure and methodology, we have exceptionally supported the re-election of Jonathan Sokoloff (but will have no hesitation to vote against any directors with poor attendance records going forward unless there is an exceptional explanation).</p>

	Resolution 6. Report on Food Waste Management	For (Exceptional)	A vote for this resolution is warranted, as a report on the company's efforts to reduce food waste would allow shareholders to assess the effectiveness of the company's food waste programs, as well as provide a better understanding of the company's food waste reduction strategy. In addition, a number of the company's peers have set goals to reduce the amount of food waste that is sent to landfills.

easyJet plc AGM 09/02/2017 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	<p>Under normal circumstances, we may have withheld support on the R&As to reflect that the two women on the board represent less than 25% of the total number of directors. However, easyJet's CEO is Carolyn McCall, one of only a few women to run a FTSE 100 company. Further, the Group had three female Directors between 1 January 2016 and 30 September 2016, until Chris Browne stepped down from Board to join the Executive Management Team as COO from 1 October 2016. As at 14 November 2016 55.6% (five out of nine) of easyJet's Executive Management Team were women and we note the Group's commitment to ensuring there is a pipeline of women coming up through the organisation. As such, easyJet is head and shoulders above its peers in terms of gender diversity across senior executive positions.</p>

	Resolution 2. Approve Remuneration Report	For (Exceptional)	We considered withholding support on the remuneration report to reflect that LTIP grant levels have been maintained at the same level as a percentage of salary (i.e 250% for the CEO, 200% for other execs), despite a c. 40% share price fall over the year. However, this is the first time in recent times that share price has reduced significantly in a particular year and we note that the company has to date, taken a prudent approach to remuneration. Instead we have put the company on notice that maximum awards should not be regarded as expected awards and should be scaled back if the environment warrants such.

	Resolution 5. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted, as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

	Resolution 11. Reappoint Deloitte LLP as Auditors	For (Exceptional)	The company has retained the same audit firm since 2002 (i.e in excess of ten years). Mandatory auditor rotation (or at least a Tender for Audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, we note that the Audit Committee has considered the Competition and Markets Authority (CMA) and EU requirements for mandatory tendering and rotation of the audit firm. As previously stated, the Committee had previously intended to initiate a re-tendering process during 2017/18 in line with the previous audit partner's rotation. However, as Brewin Dolphin changed the audit partner during the year, the Committee does not believe that a re-tendering process would be beneficial during 2017/18. The current intention is therefore to re-tender prior to the end of the new audit partner's five year term. This will be kept under review and the Committee will use its regular reviews of auditor effectiveness to assess the most appropriate time for re-tendering during that period. We are comfortable with this explanation for now.

	Resolution 20. Approve Waiver on Tender-Bid Requirement	For (Exceptional)	Under Resolution 19, approval is sought for an authority to purchase up to 10% of the issued share capital. As a result of the buy-back, the holding of DMGZL could increase from its current holding of 31.3% of issued share capital to 34.8% of issued share capital. Consequently, the Board is seeking shareholder approval to waive the requirement of the Concert Party to make a general offer to all shareholders, as a result of market purchases by the Company pursuant to the authority granted under that Resolution. We are relatively comfortable at this stage to waive the obligation as there is still a long way to go before the concert party gets control via not participating in share buybacks, but we may not be able to support future Rule 9 waivers if their holding creeps up to the high 30s. Ideally, we would like an assurance from the concert party that they will participate in any share buy backs to maintain their percentage stake.

Contrary to the AIC's code which does not recommend that long serving directors should be prevented from being considered independent, we believe that lengthy service can compromise the judgement and perspective of directors. However, we have exceptionally supported his re-election to reflect the positive board refreshment over the last couple of years. Three independent directors have replaced two other long serving directors. As such, we are mindful that there needs to be some continuity (of experience directors) on the board, but we would expect one of the longer serving directors to have stood down by next year.

We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election and we are not applying our vote on SEE disclosure to this director. The Company is exposed to environmental risks associated with its use of energy, water and air emissions and waste. The company does not publish environmental performance data in the public domain and does not submit carbon data to the CDP. The company spun off from Energizer in June 2015. Costco Wholesale Corporation AGM 26/01/2017 UNITED STATES	Resolution 1.1. Elect Director Susan L. Decker	For (Exceptional)	Under normal circumstances we would have voted against this director as she is technically not independent (having served on the board for 12 years) and there is a lack of two-thirds majority independence on the Board (our guideline for US companies). In addition, she sits on key board committees which should comprise

			independent directors only. However, we have exceptionally supported her re-election to reflect our view that her 12 years on the board is not sufficiently material to compromise her independence, nor is her tenure as significant an issue as it is for the five other long serving directors (who have been on the board from 14 to 34 years).

Countryside Properties Plc AGM 26/01/2017 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. The Company is exposed to climate change and environmental risks associated with energy use, water consumption, air emissions and waste. Although the company publishes quantitative environmental performance data, it only covers company offices and not their construction sides. The company has not submitted a public response on its carbon data to CDP. The company has not been voted on before as it was added to EIRIS universe in 2016 and therefore we recommend the 'exceptional for' vote this year. We would encourage company to improve their

However, we have exceptionally supported their re-election to reflect that there have been improvements to board composition over the last couple of years and independent directors now represent almost the majority (i.e 43%). Also, there is not much we can do about the two shareholder representatives of Oaktree as so long as Oaktree maintains a stake of 25% or more in the company, it has a right to make such appointments as set out in the Relationship Agreement. This reduces to one Director if their holding falls below 25% (or to zero if the holding falls below 10%).

	Resolution 11. Appoint PricewaterhouseCoopers LLP as Auditors	For (Exceptional)	ex for: PwC has served as CSP's auditors since incorporation in November 2015, but more importantly PwC has been the Group's auditor for more than 20 years. Mandatory auditor rotation (or at least a Tender for Audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, we are mindful that the audit was last tendered in 2016 (which led to PwC's reappointment). As Deloitte are engaged to provide internal audit services, they were excluded from the tender, with Ernst & Young, KPMG and PwC responding to the tender request. Following the tender process, the Committee decided to re-appoint PwC as the Company's auditor. . As this is the AGM of the company since re-listing on the London Stock Exchange in February 2016, we will be engaging with the company on this issue.

	Report		
	Resolution 4. Approve Remuneration Policy	For (Exceptional)	Under normal circumstances we would not have supported the new policy as it includes the 2020 Awards scheme which will be one-off awards to Executive Directors subject to the achievement of sales and revenue targets by 2020, in addition to the normal LTIP awards. However, we have exceptionally supported as the Company wrote to us and other investors in August 2016 seeking our views on these proposals to better align executive pay with its 2020 strategy and with the rest of the business (similar awards which have already been made to store managers and the leadership team). The awards are the equivalent to 100% of salary and will vest subject to 'all or nothing' targets of sales of £300m and Adjusted PBT of £38m (both have to be achieved in the financial period ending 3 October 2020 for the awards to vest). We responded to say that we are comfortable with the proposal as the targets are stretching and the current assessment of max remuneration looks reasonable (i.e they could have increased the annual LTIP grant maximums which are relatively low at 100% of salary but chose not to). We are also mindful that none of any annual bonus award is deferred, nor is there any holding requirement for normal LTIP awards that vest. However, the mitigating factors are: (1) shareholding requirements will increase with effect from the 2017 AGM and both executives have decent sized shareholdings and; (2) Executive Directors will be required to retain 50% of the net of tax shares vesting under the award until January 2022 (the fifth anniversary of grant). These factors ensure their interests are aligned with shareholders (over the long term).

In light of the December 2014 merger, and the publication of the first CSR report covering the combined entity, we will continue to vote in support this year. We will, however, consider deteriorating our vote next year if there is no improvement in quantitative environmental disclosure. We urge the company to publish its carbon data submission to the CDP.

	Resolution 5. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Diploma PLC AGM 18/01/2017 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances we would have voted against the Report & Accounts (and perhaps even the chair of the nomination committee, who in this instance is also the chairman of the board) as only one of the directors is female, representing less than 25% of the board. However, we have exceptionally supported the resolution(s) as we are mindful that the last and relatively recent appointment to the board (in September 2015) was a female director who effectively replaced

			another female who retired. Also, for now, we are comfortable with the Board's statement that it has considered setting objectives in relation to diversity, but does not believe that such objectives are appropriate at this juncture, given the relatively small Board (just 6 directors). Further, we recognise that women represent 23% of the senior managers and 37% of employees, The Board will however keep this matter under review, particularly in light of Board succession and development and so will we.

Under normal circumstances, we would register our concerns by voting on the Report and Accounts but given this is not available to vote on; we

UNITED STATES			have flagged our concerns by withholding support on director reappointment resolutions. This is on the basis that we hold all directors collectively responsible (excluding new directors that have not previously been part of the board and decision-making) and do not draw distinctions between executive or non-executive directors. Acuity Brands is exposed to environmental risks associated with climate change, water consumption and waste. We would expect this company to publish quantitative environmental performance data but none is available in the public domain. The company has not submitted a public response on its carbon data to CDP. The company has not been voted on before and therefore we will vote in support this year. We look forward to improved disclosure next year.
