However, we have exceptionally supported his re-election in recognition that in April 2019, the Company announced that Alison Wood and Catherine Krajicek will be appointed to the Board as NEDs effective 1 July 2019. In fact, the Company wrote to us in March 2019 detailing the steps it has taken in addressing the gender imbalance caused by Jackie Sheppard's early departure from the Board. On a separate point we note that in addition to his Chair role at Cairn Energy, Ian Tyler is Non-Executive Chair at Bovis Homes Group plc and a non-executive at BAE Systems plc. He is also chair of a couple of private companies. As these are all relatively large companies we will be seeking assurances from the company that Ian Tyler has the sufficient time to give to Cairn.

	Resolution 6. Report on Impact of Mandatory Arbitration Policies	For (Exceptional)	A shareholder is requesting an evaluation of the risk associated with having a mandatory arbitration policy for sexual harassment claims. Sexual harassment in the workplace is a serious form of employment discrimination with the potential for significant legal, human capital, and reputational costs to a company. Although the company states that employee agreements are a matter for management to decide, recent attention on forced arbitration as a practice that shields serial harassers is causing some companies to reexamine the risk that such a practice poses to their ability to attract and retain the best talent. This resolution warrants support because additional information regarding the risk associated with a mandatory arbitration policy may bring information to light that could result in improved recruitment, development, and retention.

	Resolution 11. Approve Compensation of Isabelle Kocher, CEO	For (Exceptional)	Under normal circumstances we would not support this resolution because we consider the level of disclosure insufficient. For example, we would welcome more disclosure around the specific performance targets for annual bonuses awarded during the year. In addition, Engie still does not disclose caps for each criterion but has disclosed the level of achievement for each criteria. We would also welcome more disclosure around the LTIP awarded and the LTIPs vested. Although these concerns remain, quantum remains reasonable and we are conscious of the role of Isabelle Kocher in Engie's transformation plan and will support the arrangements, and keep under review for next year.

	Resolution 13. Approve Remuneration Policy of the CEO	For (Exceptional)	Under normal circumstances we would not support this resolution because we consider the level of disclosure insufficient. For example, we would welcome more disclosure around the specific performance targets for annual bonuses awarded during the year. In addition, Engie still does not disclose caps for each criterion but has disclosed the level of achievement for each criteria. Whilst targets around the qualitative criteria are not disclosed due to strategic reasons this year, they will be disclosed in 2020. We also have concerns around post-mandate vesting, which is possible via the proposed policy, with no information on prorating the vesting with respect to effective presence. Although these concerns remain, quantum remains reasonable and we are conscious of the role of Isabelle Kocher in Engie's transformation plan and will support the arrangements, and keep under review for next year.

However, and whilst the Company acknowledges that he does not meet the independence criteria set out in the Code, it explains that he nevertheless "acts in an independent manner, and the Board is satisfied that the Chairman performs an independent function and continues to demonstrate objective independent judgement. The Board also believes that the Chairman's experience and expertise in underwriting and risk management is a valuable asset in the performance of its functions, including the oversight of the Group's risk strategy and appetite and risk management framework". We welcome this explanation and have exceptionally supported his re-election to reflect that our view that he has been a strong Chair. Further, upon previous engagement we are mindful that succession arrangements are in place. However, we will be engaging with the company requesting that such succession

Keller Group plc AGM 16/05/2019 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	Under normal circumstances we would have voted against the remuneration report to reflect that Executive Directors have been granted the same LTIP award levels as a percentage of salary (e.g CEO: 150%), despite a material fall in share price. However, we have exceptionally supported given the company's explanation "that, given the 2018 pay outcomes (use of negative discretion to reduce bonus amounts to zero, no salary increases for executive directors and no vesting for the 2016–2018 PSP award) it was appropriate to maintain the same award levels as for 2018 in order to further align the interests of executives with investors. The Committee has additionally set very stretching targets for the 2019 PSP the proposed EPS targets represent growth of between c.12% and c.20% per annum when compared to our 2018 outcome." Our decision to support also reflects the Remuneration Committee's relatively strong track record in terms of applying safeguards to ensure remuneration outcomes are appropriately commensurate with performance in the round. Of course, pay arrangements will warrant further scrutiny going forward.

In addition we have concerns with regards to the service contracts, as under the severance agreement signed with the CEO, Leonardo would have to pay the remainder of remuneration that would have accrued until the term of his mandate. However, as the CEO's mandate expires in 2020, if he were to receive a severance payment, this would be limited to maximum one year of his total compensation. We will keep the remuneration arrangements under review and may revert to a vote against in subsequent years if the company does not continue its trajectory of iterative improvements.

	Resolution 2. Approve Remuneration Report	For (Exceptional)	Under normal circumstances we would have voted against the remuneration report as we continue to have reservations over the lack of adequate disclosure of the personal objectives met for bonus awards. The Company's disclosure on LTIP performance targets also continues to lag behind best market practice. Most LTIP balanced scorecard targets continue to be considered commercially sensitive, thus are not prospectively disclosed. However, we have exceptionally supported to reflect some disclosure improvements (e.g some additional commentary on performance against personal objectives) and as LTIP awards granted are in 2019 are largely dependent on relative TSR performance (75% with balanced scorecard targets determining the remaining 25%), this will in most part, address the disclosure issue. We also welcome that LTIP vesting levels for threshold performance have been reduced from 25% to 20% of maximum. Moreover, pension contributions for any potential newly appointed Executive will be reduced from 25% to 20% of salary: although these are unlikely to be fully in line with pension arrangements for the wider workforce. Given evolving practice in this area, we note that pension benefits will be considered again as part of our review of the Directors' Remuneration Policy during 2019.

Whilst this appointment only returned the number to two (as it followed the resignation of Anne Richards, an executive director), we welcome the announcement on 13 May in respect of another woman appointment (Amy Yip). We also note by October 2019, Paul Manduca will have served on the Board for nine years. He has agreed to remain as Chairman until May 2021 (subject to re-election each year). The Company notes that given the Group's planned demerger of the M&G Prudential business, and in light of the shareholder support received the Board believes it to be in shareholders' best interests for Mr Manduca to continue to serve in the Chair role in order to oversee the Board during this time of change and ensure that the Prudential Group is strongly established in its post-demerger state

			<p>since 1999. Mandatory auditor rotation every 20 years and at least a Tender for Audit services every 10 years is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, we have exceptionally supported their reappointment of KPMG as we are mindful that the Group is undergoing a period of unprecedented change with both the demerger of M&G Prudential from Prudential plc being considered and the new insurance accounting standard (IFRS 17) requiring implementation in 2022. The Committee currently believes any change of auditor should be scheduled to limit operational disruption during such a period of change given the significant volume of work to be delivered by the Group's finance teams in relation to the demerger and preparing to implement the new insurance accounting standard in 2022. The Committee considered its strategy on audit tendering in February 2019, concluding that with the change in implementation date for IFRS 17 that the previously proposed timeline for appointing a new auditor should also be extended by one year to the 2023 year end. In conducting this review, the Committee concluded that it would be appropriate to commence a competitive tender for the 2023 audit in the first half of 2020. We are comfortable with this position.</p>

However, we have exceptionally supported their re-election in recognition that during the year the company appointed another female director (there are now two women representing 25% of the Board). The annual report states that, "the (Nomination) Committee will continue to seek candidates for appointment to our Board that will further strengthen the

			Board in terms of experience, skills, diversity and independence of the Board". We also note that this director's aggregate number of board commitments is in excess of our guidelines. Given the absence of further concerns regarding this director we are supporting their re-election. . Moreover, Paul Edgerley is attested by the Board to be non-independent because he is a representative of funds managed by Bain Capital and sits on the Nomination Committee; the composition of which is not aligned to the UK Code. However, the Board and Committee composition is a significant improvement on the previous year and the Company is seeking additional NED candidates for appointment to the Board.

Following our engagement with Equinor regarding the Great Australian Bight, and noting the response from the board on the fact that "Ecological value and environmental sensitivity are key parameters assessed in the company's process for access, maturation and preparation of exploration activities," we do argue that material concerns persist with regard to Equinor's involvement in the Great Australian Bight particularly as well as Frontier Areas, Immature Areas and Sensitive areas. We note the recent study by BP and Australian universities, the first survey of the Great Australian Bight's deep sea waters, that discovered 400 new species of invertebrates. We also note the challenges of cleaning up oil spills in areas of such rough seas and intense weather conditions. We would expect Equinor to discontinue its exploration drilling in these areas.

	Resolution 4. Report on Implementation of Human Rights Policy	For (Exceptional)	<p>A vote for this shareholder proposal is warranted, as additional information regarding the processes the company uses to assess human rights impacts in its operations and supply chain would allow shareholders to better gauge how well Northrop Grumman is managing human rights related risks, specifically around new technologies. Northrop Grumman discloses its corporate approach to human rights in its Human Rights Policy, its Standards of Business Conduct, and its Supplier Standards of Business Conduct. In its 2017 Corporate Responsibility Report, the company provides some details about the company's human rights values and practices. However, the company does not provide information regarding relevant mechanisms it has implemented to oversee compliance and measure the efficacy of human rights policies in its operations, and at its suppliers. In addition, the company appears to be lagging some companies regarding measures taken to assess, prevent, mitigate, and remedy any adverse human rights impacts resulting from its business operations, specifically those related to facial recognition and other Artificial Intelligence. Despite the board's assertion that the responsibility for ethical use of facial recognition technology lies with the government, the developer of the technology has responsibility to ensure that its technology avoids bias and not used in instances likely to cause overall harm or in a way that contravenes international law and human rights. The company risks lagging some companies in terms of pushing for responsible laws,</p>

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 5. Amend Proxy Access Right	For (Exceptional)	A vote FOR this proposal is warranted, as the proposed amendments would enhance the company's existing right for shareholders.

Tritax Big Box REIT Plc AGM 15/05/2019 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances we would have voted against the Report & Accounts to reflect our concerns over the lack of women on the Board (just one female Director representing 20% of the Board). Further, we note that since the 2018 AGM, there have been two appointments to the Board, both male, and the company's disclosures are silent on whether the search criteria included any preference for improving gender diversity and whether any female directors were shortlisted. However, having engaged with the Company we have exceptionally supported this resolution as we note that the Company intends to add to the Board this year and that improving gender diversity is one of the key factors (amongst other things). As such, we are comfortable in giving the company another year to address this issue and if by then we are still concerned over the lack of progress / disclosures, we are likely to vote against this resolution and the nomination committee chair.

Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. We believe the company could benefit from having an independent chairman.

We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on the most senior board member (excluding CEO) who is up for re-election. However, Keyera Corp. is exposed to environmental risks associated with energy use, water use and emissions. We have no record of 2018 vote for this company. We note

			that the company submits their carbon data to CDP but their score has deteriorated in 2018 in comparison to 2017 (from C to D). The company does not disclose their environmental data performance. We recommend a positive vote this year to reflect the fact that the company has not been voted before and provides some environmental disclosure. The integrity of the auditor's relationship with the company is compromised when a firm is paid excessive fees on top of those paid for auditing services. 	Resolution 17. Authorize Issuance of Equity or Equity-Linked Securities without Preemptive Rights with Binding Priority Right up to Aggregate Nominal Amount of EUR 600,000	For (Exceptional)	Under normal circumstances we would vote against this resolution. The authority would enable the Board to issue the equivalent of 25.62% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 20%, unless a clear justification and strategic rationale is provided to shareholders. Considering the market the company operates in, we are supportive.

	Resolution 11. Re-elect Sir Nigel Rudd as Director	For (Exceptional)	Under normal circumstances we would have voted against the re-election of Sir Nigel Rudd as in addition to him being Chair of BBA Aviation, he is Chair of two other publicly listed companies: Meggitt and Sappi Ltd. He is also Chair of a privately held company. These board commitments raise questions as to whether he is able to devote sufficient time to each of his roles, particularly should any of these companies require more of his time (such as on M&A activity or performance issues). Further, Sir Nigel Rudd's other commitments are not discussed in detail in the annual report, beyond them being listed in the Director bios. However, we have exceptionally supported his re-election as we note that since the 2018 AGM, he has stepped down as Chair (and from the board) of Destiny Pharma, and hence the situation is better than it was. However, Destiny is a small AIM listed company which no doubt represented the least of his time commitments, so concerns remain over him chairing 3 complex FTSE 350 companies. The overriding factor for our support is that both the CEO and FD at BBA are relatively new appointments so the chairman's experience on the Board is important, particularly for continuity. We will be engaging with the Company to establish how many days a week or year Sir Nigel is expected to commit to his role at BBA (to make a more informed view) and whether there is sufficient headroom should he be required to increase his contribution to any of these roles.
	Resolution 12. Re-elect Peter Ventress as Director	For	
	Resolution 13. Reappoint Deloitte LLP as Auditors	For (Exceptional)	Under normal circumstances we would have voted against the reappointment of Deloitte as they have been the company's auditors since 2002. Mandatory auditor rotation every 20 years and at least a Tender for Audit services every 10 years is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, the company retendered the audit in 2014 and the senior statutory auditor is rotated every five years (Andrew Bond became lead audit partner following the completion of the 2017 audit early in the calendar year). As there is no detail as to when the next audit tender will be, we will be engaging with the company asking for a commitment that this will be done in the next couple of years.

ASM Pacific Technology Limited AGM 07/05/2019 CAYMAN ISLANDS	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. However, ASM Pacific Technology Limited is exposed to environmental risks associated with water pollution and waste generation. The company submitted their carbon data to CDP 2018 but neither report nor its score are available. We note that the company published 2017 Sustainability report on 31 May 2018 where it provided environmental performance data for 2016-2017. To reflect such improvement, we recommend a positive vote this year but strongly encourage the company to make their CDP disclosure publicly available and publish environmental performance data for 2018.

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 5. Provide Right to Act by Written Consent	For (Exceptional)	A vote FOR this proposal is warranted given that the ability to act by written consent would afford shareholders an additional means to act between annual meetings, thus enhancing shareholder rights.

Vivo Energy Plc AGM 07/05/2019 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would have withheld support for the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. Vivo Energy Plc is exposed to environmental risks associated with energy and waste. We would expect the company to disclose their environmental performance data, yet their 2018 annual report currently only has GHG emissions data for 2018. Furthermore, the company states that some data has not been available as it relates to sites which are not wholly within the Company's control or it relates to a location where they have not previously been required to report. Given Vivo Energy plc has only been on the Main Market of the London Stock Exchange for a year, we have exceptionally supported this resolution but will not be able to support going forward if the company fails to provide more detailed environmental performance data.

The integrity of the auditor's relationship with the company is compromised when a firm is paid excessive fees on top of those paid for auditing services. This arrangement has the potential to open the auditor process to a wide range of conflicts of interest. We are exceptionally supporting this resolution in acknowledgement of the one-off nature of the majority of the non-audit fees (IPO related).

	Resolution 7. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Reappoint Ernst & Young LLP as Auditors	For (Exceptional)	Under normal circumstances we would not support as Ernst & Young has been auditors of IHG since its listing in April 2003 and of the Group's predecessor businesses dating back to 1988. Mandatory auditor rotation every 20 years and at least a Tender for Audit services every 10 years is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. Pursuant to regulations mandating a tender for the 2021 financial year, the Group plans to run the audit contract tender in 2019. A sub-committee has been established to manage and govern the audit tender process and is accountable to the Audit Committee, who will maintain overall ownership of the tender process and ensure that it is run in a fair and balanced manner. During 2018, tender participants have been selected, and the design of the selection criteria has been established. The audit tender will launch in the second quarter of 2019.

Independent directors represent 30% of the board (we expect a majority for a company of this size). The client relationship suggests a possible conflict of interest. Accordingly, her presence on the Audit and Remuneration Committees is also considered problematic. However, we have exceptionally supported her re-election as the Company has stated that, in designating her as independent, they considered the level of fees and expenses paid to the brokers, which is less than EUR 50,000 per annum. We also note that another non-independent director has will step down at the 2019 AGM so a degree of flexibility is considered warranted.

We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on the most senior board member (excluding CEO) who is up for re-election. However, Pembina Pipeline Corporation is exposed to environmental risks associated with waste generation and efficiency losses in the systems operated. The company has not submitted a public response on its emissions data to the CDP. We are pleased to see that Pembina Pipeline Corporation has published its first sustainability report where it disclosed their environmental performance data for 2015 - 2017. However, it noted that the data does not include data from operations it acquired in 2017. To reflect the improvement we recommend a support vote this year but encourage the company to disclose the quantitative environmental data covering all operations.

We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on the most senior board member (excluding CEO) who is up for re-election. However, Bombardier Inc. (CI B) is exposed to environmental and bribery risks in their operations. Environmental risks are associated with energy use and waste. The company disclosed their environmental performance data on its website, however stated that in some cases, the data does not always add up to the corresponding sub-tools and totals. The company does not submit their carbon data to CDP. With regards to bribery, we would expect the company to publish details of their policies and management performance in the area. We are pleased to see that the company has published their Code of Ethics and Business Conduct, available in different languages. It stated in their 2018 Activity Report that in 2017, more than 5,000 of their management employees received customized training and communications on ethics-related topics, including</p>

Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

	Resolution 2. Approve Remuneration Report	For (Exceptional)	The forward-looking targets under the LTIP are not disclosed. This has been an ongoing concern at the Company and something that is market-lagging in practice. The Remuneration Committee reiterates in the FY2018 annual report that, "targets are not disclosed on a forward-looking basis because they are considered by the Board to be commercially sensitive and will continue to be disclosed retrospectively to ensure transparency." Whilst we will be engaging with the company on this matter, we have exceptionally supported given we are generally comfortable with the pay arrangements and as we are mindful that the company disclosed targets for the LTIP awards made for the year under review. i.e LTIP awards granted in 2018 are subject to the following targets, which appear fine: Absolute growth in TSR performance (determining 50% of the award), ranging from 30% to 60%; EPS (25% of the award) ranging from cumulative EPS growth of 91.5p to 106.7p and; Revenue growth (25% of the award) ranging from 4.6% to 6.7%.

We urge the company to publish relevant information.

There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. We consider this inappropriate as the committee should consist entirely of independent directors. However we note she was appointed to the Board in May 2009 and was first elected at the 2010 AGM. As she is just over the limit and with the board chair due to be replaced over 2019 we will support this year and keep under review.

We will therefore support this year but we will keep under review.

	Resolution 19. Reappoint Deloitte LLP as Auditors	For (Exceptional)	The company has retained the same audit firm since 2006 (i.e. in excess of ten years). Mandatory auditor rotation every 20 years and at least a Tender for Audit services every 10 years is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. The audit was last tendered in 2016 which led to the re-appointment of Deloitte LLP.

	Resolution 2.6. Elect Director Dale Hohm	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on the most senior board member (excluding CEO) who is up for re-election. However, Seven Generations Energy Ltd. Class A is exposed to environmental, climate change and health & safety risks in their operations. We have no record of 2018 vote for this company. The company submitted its carbon data report to CDP 2018 and got awarded a B score. However, it does not provide further details on their environmental performance. In relation to health & safety, the company stated in their 2018 Annual report that it had no lost-time injuries from August to December. However, no health & safety data was provided. We recommend a positive vote this year and encourage the company to disclose data on their environmental and health & safety data. We will consider deteriorating our recommendation if no improvement is made.

Spirent Communications plc AGM 01/05/2019 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would have withheld support on the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. In particular, the Company is exposed to bribery risks in its operations and whilst the 2018 Annual report stipulates that Anti-bribery training is required to be taken by certain employees periodically and will be rolled out to employees again in 2019 , no data is provided. Given the Company is a relatively new constituent of the FTSE 350 we are comfortable in supporting the R&As this year but would strongly encourage the company to publish details of its performance in the area of anti-bribery, such as data on employee training.

However, TechnipFMC Plc was created as a result of merger between French Technip and American FMC Technologies. It is exposed to environmental risks related to its operations. We would therefore expect this company to publish quantitative environmental performance data, but none is available in the public domain. The company submitted carbon data to the CDP in 2018 but it is not publicly available. It is not clear why the company's CDP score dropped from A- in 2017 to D in 2018. 			<p>addition, the non-audit fees for the year were significant at EUR 2,000,000, being half of the total audit related fees and the company did not provide any explanations regarding these fees. The integrity of the auditor's relationship with the company is compromised when a firm is paid excessive fees on top of those paid for auditing services. This arrangement has the potential to open the auditor process to a wide range of conflicts of interest. However, we have exceptionally supported their reappointment as we note that the other auditors, Deloitte are being replaced at this AGM (by PricewaterhouseCoopers0 having also served since 1995. As such, we consider it appropriate that there is some continuity on the audit. A second auditor change at this time would not be appropriate.</p>

Mandatory auditor rotation every 20 years and at least a Tender for Audit services every 10 years is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. The Audit Committee recommended that a tender process for the external audit be carried out in 2019 with the auditor formally appointed at the 2020 AGM.

We consider this inappropriate as the committee should consist entirely of independent directors. However, we have exceptionally supported his re-election in recognition that the board has been refreshed over the year. Specifically, one of the long serving non-executives has been replaced by an independent director.

	Resolution 13. Authorise the Audit Committee to Fix Remuneration of Auditors	For (Exceptional)	The non-audit fees for the year were significant at GBP 1,000,000 and being 142.9% of the audit fees. The integrity of the auditor's relationship with the company can be compromised when a firm is paid excessive fees on top of those paid for auditing services. This arrangement has the potential to open the auditor process to a wide range of conflicts of interest. However, considering this is the first year that non-audit fees exceeded the audit fees paid to the auditor and the Company has explained that a portion of these fees related to the proposed acquisition of intu, a one-off event, we are exceptionally supporting this resolution.

	Resolution 5. Provide Right to Act by Written Consent	For (Exceptional)	A vote FOR this proposal is warranted given that the ability to act by written consent would enhance shareholder rights.
	Resolution 6. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

However, we have exceptionally supported his re-election as we are mindful that he has served on the board only slightly longer than the preferred term (i.e 10 years instead of 9). More importantly, his term has been extended for a further year as the board considers his continued service is in the best interests of the Company because his experience is of particular importance at this time of recent

			change to the composition of the Board. We agree with the Company's position on this, given the significant board changes over the last couple of years (resulting in there being 5 directors who have served on the board 1 year or less), it is prudent to extend Rick Menell's term on the Board to ensure continuity. However, he continues to be a member of the Audit and Remuneration Committees and these committees should be fully independent. We would expect him to stand down from these committees in due course.

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Under this proposal, Denis Kessler would remain as CEO but an independent Chairman would be appointed. We agree with the principle of this proposal to separate the CEO and Chairman role (which Kessler has had since 2002) and therefore increase the oversight role of the board. We are supporting this proposal because of the events that occurred in 2018 which raises significant concerns on the current governance arrangements. We note that in September 2018, Scor disclosed that it had rejected a 43 Eur per share in cash acquisition offer from Covea (who hold 8% of Scor). This initiated a legal battle between Covea and Scor.

Moreover, he sits on the audit and remuneration committees which should consist entirely of independent directors. However, we have exceptionally supported to reflect that Malcolm Cooper will be standing down from the Board in 2019, and an independent NED will be appointed in his place. Approve Amendment of the Remuneration Policy 2018 of Chairman and CEO Re: Exceptional Compensation	For (Exceptional)	Under this resolution and resolution 10, shareholders are essentially being asked to approve the exceptional compensation of EUR 112,500 awarded to Eric Le Gentil (chair/CEO) during FY18 for his work in the sale by Casino Guichard Perrachon, reference shareholder of Mercialis (which now holds 25.16 percent of the company's capital) of a 15-percent stake in the company's capital. The company explains that the sale process was considered as a significant and specific circumstance which required a deep involvement of the chair/CEO and vice-CEO. Under normal circumstances we would have voted against this payment as it can be argued that, although unusual, this is still part of an executive's job. However, given that the amount is not considered excessive and importantly the entire amount is to be paid by Casino Guichard Perrachon, we exceptionally supported the proposals.

	Resolution 19. Reelect Eric Le Gentil as Director	For (Exceptional)	Under normal circumstances we would have voted against this Director as he is the new Board Chair, but the former CEO of the Company. We prefer the CEO not go on to become chairman as firstly our preference is for the Chair to be independent and secondly this creates potential conflict issues in respect of the running of the company. The Company failed to provide sufficient justification for his nomination. Finally, he is currently a member of the remuneration committee which should consist entirely of independent directors. However, we have exceptionally supported the re-election of Eric Le Gentil as we are mindful that this arrangement is better than it was (when he was both CEO and Chair) and we take additional comfort that at least a majority of the Board is independent. But our decision is on the basis that this is a transitional arrangement – we would not be supportive of him being Chair on an ongoing basis.

Shareholders should be able to consider such offers (i.e. by way of a vote at a general meeting) without Board intervention. However, we have exceptionally supported it following an amendment made by the company to the meeting notice, to specify that the use of the authority is excluded during a takeover period.

The company has a combined COE/Chair and we note they do have a lead independent director in place the independence of the board could be improved as they have a number of long serving directors. Adopt Financial Statements and Directors' and Auditors' Reports	For (Exceptional)	<p>Under normal circumstances, we would be withdrawing support for the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. Golden Agri-Resources is exposed to environmental risks. Following the launch of a three year Carbon Footprint Assessment in 2015, the company has now published environmental performance and GHG data for selected palm oil plantations in its most recent 2017 Sustainability Report. The company has also submitted carbon data to the CDP, although it is very limited. The carbon data in CDP 2018 is only limited to Indonesia. As it is not clear what percentage of total operations the Sustainability Report covers and there is no trend data.</p>

	Resolution 5. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director. We also agree with the proponent's comments that the acquisition of Andeavor greatly increased the scope of the company's operations, and that the integration of Andeavor's assets into the company requires the attention of a CEO that is not also encumbered by the requirements placed on the board chairman.

Wilmar International Limited AGM 24/04/2019 SINGAPORE	Resolution 1. Adopt Financial Statements and Directors' and Auditors' Reports	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. However, Wilmar International Limited is exposed to risks associated with climate change. We are pleased to see that 2017 Sustainability report contains environmental data on company's operations and 2018 CDP disclosure provides carbon data from Agriculture/Forestry; Processing/Manufacturing and Distribution operations in Australia, Ghana, Indonesia, Malaysia, Myanmar, New Zealand, and Nigeria. However, the company does not disclose emissions data from consumption as believes that 'the details are not utilised by the company internally in any decision-making process for climate change strategies'. We would like to offer a positive recommendation this year to reflect the improved disclosure but urge the company to provide data covering all operations. We will reverse our recommendations back to negative if no improvement is made next year.

	Resolution 4. Prepare Employment Diversity Report	For (Exceptional)	As You Sow, on behalf of two independent shareholders, has filed a precatory proposal requesting Fastenal to issue a workforce diversity report. Fastenal does discuss its commitment to workforce diversity on its website and communicates its equal employment and affirmative action policy to employees and applicants which includes process improvements and training intended to foster diversity in hiring such as expanded recruiting and training. However, these disclosures do not include diversity-related metrics like the gender and race or ethnic background of its workforce, even though this information is already being reported in the company's EEO-1 report. The company has also faced recent lawsuits related to discriminatory labor practices. We believe the disclosures could be useful to shareholders in assessing Fastenal's oversight of associated risks with little additional cost to the company.

West Fraser Timber Co. Ltd. AGM 23/04/2019 CANADA	Resolution 1.1. Elect Director Henry H. (Hank) Ketcham	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on the most senior board member (excluding CEO) who is up for re-election. However, we have no record of 2018 vote for this company. It is exposed to environmental risks associated with energy use, water use and emissions. The company does not report to CDP. It disclosed its environmental data on the company's website but the coverage is not clear. As West Fraser Timber has not been reported before, we recommend an exceptional for vote this year

	Resolution 6. Ratify Appointment of Ari Kellen as Director	For (Exceptional)	Under normal circumstances we would not have supported this director as the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. 	Resolution 25. Authorize Issuance of Equity or Equity-Linked Securities without Preemptive Rights up to Aggregate Nominal Amount of EUR 400,000	For (Exceptional)	Under normal circumstances, we would not support this resolution because the authority would enable the Board to issue the equivalent of 101.66% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 20%, unless a clear justification and strategic rationale is provided to shareholders. In addition, the issue price has a discount of 20%, being more than the generally accepted level of 5%. However, given the company's size and market environment we are supporting.

	Resolution 1.3. Elect Director Morris A. Davis	For (Exceptional)	Last year's say-on-pay proposal received the support of only 50.4 percent of votes cast. When the proposal receives significant opposition, this warrants shareholder outreach to gain an understanding of shareholders' concerns, together with transparent disclosure of the feedback received and actions taken specifically to address the issues. In response to the low vote, the company reached out to investors representing 80 percent of institutionally-held common stock and 53 percent of common shares outstanding, ultimately having conversations with 48 and 32 percent of these groups, respectively. The company disclosed shareholder feedback in the proxy. This included requests that the company further clarify its peer construction process; allot a greater portion of CEO pay to long-term compensation and that this be performance-based; implement a simplified corporate scorecard used to evaluate NEOs' annual incentive awards; and increase the disclosure regarding, and re-valuation of, the rigor of the company's performance metrics. The compensation committee laid out specific ways in which it seeks to address these concerns, including further information on the company's peer construction process; reallocating \$2.7 million from the CEO's base salary and annual incentive award to performance-based long-term equity awards; simplifying metrics beginning in 2019; and enhancing disclosure on the metrics-setting process and increasing the rigor of certain performance metrics beginning in 2019, with a greater emphasis on financial performance. Given the above, the compensation committee demonstrated adequate responsiveness and therefore

However, we have exceptionally supported this change for essentially two reasons. Firstly, the proposed policy is arguably better than the one it is due to replace as the LTIP's exceptional award limit, equal to 300% of salary, will be removed i.e. the company's concerns about retention and incentivisation issues (detailed under resolution 3) could be deemed justification for making such exceptional awards. Secondly, in our view, the best compromise to address the company's concerns is for the</p>

To reflect our position, we have voted against the remuneration report (resolution 3) to flag our concerns over the significant increases to salaries over two years. We also note that in recognition of the increased LTIP normal potential, the amount of award vesting for threshold performance will be reduced from 25% to 20%, meaning there is not a material increase in payouts for delivering the same threshold performance targets. Finally, we note and welcome that in future Executive Directors will receive pension contributions in line with the majority of the UK workforce which is currently 12% of salary, but the Company is also proposing to amend the level of pension contribution for the current CEO. Contribution will reduce to 25% of salary (currently 30%) in April 2019 with a commitment to reduce it further to 20% in April 2020.</p>

Sembcorp Industries Ltd. AGM 18/04/2019 SINGAPORE	Resolution 1. Adopt Financial Statements and Directors' and Auditors' Reports	For (Exceptional)	<p>This vote reflects our concerns over the lack of Social, Environmental and Ethical (SEE) policy/disclosure at this company. Sembcorp Industries Ltd is exposed to risks associated with human rights and bribery in its operations. We are pleased to note that in 2018, the company undertook a number of initiatives following a group-wide bribery and corruption risk assessment in 2017. Thus, extensive training</p>

			and awareness programmes were conducted globally, including face to face training, train-the-trainers programme, a CoC video and monthly key compliance message communications. With regards to human rights, the company disclosed in their 2018 Annual report that it is committed to uphold and respect the spirit of the UN Universal Declaration of Human Rights and the International Labour Organization's Declaration on Fundamental Principles and Rights at Work. Sembcorp is also guided by the UN Guiding Principles on Business and Human Rights. The company has Human Rights Policy which outlines how it deals with main issues, including forced and child labour, freedom of associations and collective bargaining, equality and non-discrimination. We will continue offering a vote of support this year in recognition of these improvements. However, we would like to see a more detailed reporting on the company's human rights performance next year.

	Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

	Resolution 3. Approve Discharge of Management Board for Fiscal 2018	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the discharge of the Board because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on board discharge. Axel Springer SE is exposed to environmental risks related to air and water emissions and waste generation. We would expect this company to publish quantitative data on its performance in these areas for all operations. The company submits data to the CDP 2018 but received a D- score. Their website contains data on waste and Scope 2 (CO2 emissions from purchased electricity) and Scope 3 (CO2 emissions from services and use of infrastructure) emissions data. Axel Springer noted that CO2 emissions from the combustion of natural gas (Scope 1) were no longer recorded in 2016 and 2017. We encourage the company to provide more comprehensive data on their environmental performance and would consider vote's deterioration next year if no improvements will be made.

	Resolution 3. Approve Allocation of Income and Dividends of EUR 2.67 per Share	For	
	Resolution 4. Reelect Robert Castaigne as Director	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution because this non-executive director is not independent (due to having served on the board for significant amount of time) and sits on the audit committee which should consist entirely of independent directors. In addition, the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, having engaged with the lead independent director, we understand the necessity to restrict turnover, and to ensure transition on the audit committee, especially given the fact the Rene Medori, the new Chair of the audit committee, has only been on the board for a year.
	Resolution 5. Reelect Ana Paula Pessoa as Director	For (Exceptional)	The proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term.

	Resolution 12. Renew Appointment of Deloitte Et Associes as Auditor	For (Exceptional)	Under normal circumstances, we would not support this resolution because the company has retained the same audit firm Deloitte since 1989 (i.e. in excess of twenty years). Mandatory auditor rotation every 20 years and at least a Tender for Audit services every 10 years is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However given the fact that the company is replacing KPMG by PWC at this AGM, the risk is mitigated.

	Resolution 15. Authorize Repurchase of Up to 10 Percent of Issued Share Capital	For	
	Resolution 16. Approve Remuneration Policy for Chairman and CEO	For (Exceptional)	Whilst there are some concerns with the post-mandate vesting in case of the CEO's mandate non-renewal, which would not be pro-rated for the effective presence, we welcome the improved disclosure around these provisions for different scenarios. In a situation where the Board dismisses CEO Xavier Huillard, his vesting rights will be prorated for effective presence during the performance period. We note that Vinci's 2018 remuneration policy resolution received only 54% support, they have made several changes to address the high dissent. The remuneration committee decided to reduce the LTIP cap from 200% to 100% which reduces the risk of having excessive remuneration. We engaged with the company and are satisfied with the alignment of the remuneration plan and performance. We welcome the introduction of environmental criterion within the LTIP. Moreover, while LTIP awards will not be vesting for below median performance under the external criterion it is highlighted that the maximum vesting will occur for TSR

			CAC 40 TSR > 5 percent (vs. 10 percent previously). We are comfortable with this given the maximum potential.
	Resolution 17. Approve Compensation of Xavier Huillard, Chairman and CEO	For (Exceptional)	There are a number of areas that we would encourage enhanced disclosure particularly around specific performance targets connected to qualitative criteria. More specifically, a significant portion of the bonus is awarded under the qualitative portion of the bonus, amounting to approximately 42 percent of the basic salary, with no clear disclosure on the performance achievement. We note however that this year, the company clearly disclosed the nature and performance achievement of the quantitative targets. In addition, Xavier Huillard waived EUR 300,000 due in title of the bonus policy in order for the current quantum to match last year's quantum. Overall, total awards are not excessive and the company can demonstrate strong alignment between executive pay and returns to shareholders.
