	Resolution 1.8. Elect Director Otsubo, Kazuhiko	For	
	Resolution 2.1. Elect Shareholder Director Nominee Onimaru, Kaoru (Who Is Also Nominated by the Company)	For	
	Resolution 2.2. Elect Shareholder Director Nominee Suzuki, Teruo (Who Is Also Nominated by the Company)	For (Exceptional)	<p>We are not supportive of Outside affiliated candidates - Takeuchi, Fukuhara, and Nishiura given their relative lack of independence. While Suzuki is not regarded as independent, his nomination is supported by both parties. We are also not supportive of Seto as CEO. Among its immediate tasks, the reconstituted board should reassess whether Seto performance or behavior provided a legitimate basis for his dismissal; if not, it could consider his potential re-appointment as CEO. Our recommended 10-member board is made up of four candidates originally proposed by the dissident and six proposed by management but most importantly, with a majority of individuals that appear truly independent and capable of challenging management. It is possible that candidates Onimaru and Suzuki might not accept their nominations if elected to a board that includes management nominees. In that case, the eight-member board would still be sufficiently independent, and it could add additional directors if needed. While the management nominees intended to appoint Miura as interim CEO, this might have to be debated with the other board members. Based on these considerations, support is warranted for management nominees Otsubo, Miura, Matsuzaki, Kawahara, Uchibori, and Onimaru, as well as dissident nominees Suzuki, Campbell, Ina, and Hamaguchi.</p>

	Resolution 3.2. Seto is nominating eight directors at the upcoming AGM, the same number the company is nominating. The maximum board size is 16, meaning the all candidates that get a majority of votes could be elected.

	Resolution 4. Report on Gender Pay Gap	For (Exceptional)	<p>Support this shareholder proposal is warranted, as shareholders would benefit from additional information allowing them to measure the progress of the company's diversity and inclusion initiatives. In the supporting statement, the proponent suggests that investors need greater gender and race/ethnicity pay gap disclosure in order to assess company strategy and performance in terms of recruiting and fostering a diverse workforce. The proponent states that the median income for women workers in the U.S. is 80 percent of the median male income. The median for African American women and Latina women is reportedly 60 percent and 55 percent respectively. According to the Congressional Joint Economic Committee, some 40 percent of the wage gap may be attributed to gender discrimination. The Mastercard U.K. gender pay gap report shows a median gender pay gap of 22.5 percent. The company does not report the gender pay gap statistic for its global workforce. The proponent states that women make up 39 percent of the company's global workforce but 30 percent of its senior management. The statement cites research that suggests "gender diverse leadership leads to superior stock price performance and return on equity." In addition to reputational, competitive, and operational risks, the proponent suggests that companies face public policy risk as well, because the U.S. Senate and several states are considering legislation that strengthens pay disparity disclosure.</p>
	Resolution 5. Establish Human Rights Board Committee	For (Exceptional)	<p>Support for this shareholder resolution is warranted due to the following reasons:- The creation of a human rights committee, as requested, should serve to further strengthen Mastercard's commitment to universal human rights as well as augment its existing human rights-</p>

			<p>related oversight mechanisms; and- The establishment of a human rights-focused board committee should not be unduly burdensome and should enhance and complement the company's capacity to manage human rights risks in the long-term, for the ultimate benefit of shareholders. In its supporting statement, the proponent says that Mastercard is exposed to heightened human rights risks as it operates in over 210 countries and territories, some "with a significant risk of human rights violations." The proponent argues that even companies that provide support functions, such as internet infrastructure, can face human rights risks. For example, the proponent notes that GoDaddy, Facebook and PayPal have been criticized for enabling neo-Nazis and other hate groups. Mastercard has also been criticized in the media for reportedly "processing payments to white supremacist groups." The filer refers to two news articles, which point to the card companies and payment processors that hate groups identified by the Southern Poverty Law Center have allegedly used to support their activities. These groups and their use of certain payment processing companies are being traced in the "Blood Money" website. The proponent says that the Blood Money website highlights Mastercard as continuing to process payments for alleged hate groups, the American Border Patrol, League of South, Proud Boys and Stormfront. The filer explains that the United Nations Guiding Principles on Business and Human Rights identifies a business' direct and indirect relationships with other parties as a source of adverse human rights risks. The filer argues that, by not having a specific board committee overseeing human rights issues, Mastercard is not appropriately addressing this risk.</p>

	Resolution 2.8. Elect Director Asanuma, Makoto	For	
	Resolution 2.9. Elect Director Matsuda, Yuzuru	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on the most senior non-executive board member (excluding CEO) who is up for re-election. However, BANDAI NAMCO Holdings Inc. is exposed to the risk of breaches of labour standards in its supply chain. We noted that the 2018 Integrated Report states that before starting a business with a supplier, company's subsidiary, Bandai Namco Entertainment Inc. implements a CSR Procurement Questionnaire related to seven major items – overall CSR, human rights, safety, the environment, fair trade and ethics; quality and safety; and information security. Furthermore, according to the company's website, Bandai Co Ltd (toys business of the Bandai Namco Holdings) conducts factory audits, which combine new plant audits and Code of Conduct audits, at overseas final packaging plants (174 plants in FY 2018) that make Bandai products. Audits are performed with the fundamental policy based on the 'Bandai COC Declaration', which declares compliance with the eight standards, including prohibition of forced labour and child labour. To reflect the improvement, we recommend a support vote this year but encourage the company to disclose more information on their audits, including their number and results.

Elect Director Okajima, Etsuko	For (Exceptional)	<p>Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on the most senior non-executive board member (excluding CEO) who is up for re-election. However, Marui Group is exposed to the risk of breaches of labour standards in its supply chain. The company has procurement policy in place, which was established in April 2016. It contains several ILO labour standards and it also published some supporting information on its work with private brand suppliers on supply chain labour standards. In its 2018 ESG Data Book the company disclosed that 37 suppliers audits were conducted in fiscal 2018. Company's Procurement Policy has been distributed to all business partners involved with their private brand products. Marui Group expects to complete suppliers' audits with all private brand-related suppliers in fiscal 2019. To reflect the improvement, we recommend a positive vote this year but encourage the company to provide more substantial information on the nature of conducted audits</p>

However, Mitsui & Co., Ltd. is exposed to health and safety risks in its operations. We noted that the 2018 Sustainability report contains non-consolidated health & safety data for 2015-2017, including lost time injuries frequency and severity rates and occupational illness frequency rate. It also states that there have been no fatal incidents during 2015-2017. While we are pleased with disclosure which is an improvement in comparison to previous years, we want to see a consolidated data. We are also aware of biodiversity concerns around the company's involvement in the Sakhalin II project and the Goro nickel mine.

	Resolution 5. Adopt a Policy Prohibiting Inequitable Employment Practices	For (Exceptional)	Whilst we welcome the recent changes they have made to their policies we would still push them to go further. Revising the company's human capital management policies could reduce related reputational and financial risks to the company and help shareholders to better understand their approach.
	Resolution 6. Establish Societal Risk Oversight Committee	For (Exceptional)	A vote FOR this proposal is warranted because the existing board structure does not appear to provide adequate oversight on potential risks that the company's existing and emerging technologies present to the company's stakeholders, which, in turn, creates risks for the company in terms of employee retention, regulatory backlash, and reputational damage with users and advertisers.

	Resolution 11. However, this proposal is too perspective and it is best left to the company to decide on the best approach for employee engagement.

	Resolution 13. 	Resolution 14. Report on Human Rights Risk Assessment	For (Exceptional)	Shareholders would benefit from additional information on how the company is assessing human rights risks, including additional information on how it is managing compliance with its policies and related oversight mechanisms.
	Resolution 15. Adopt Compensation Clawback Policy	For (Exceptional)	A vote FOR this proposal is warranted because the proposed clawback policy would expand the company's current recoupment tools, allowing for potential recoupment in circumstances other than a financial restatement. Accordingly, the adoption of such a policy would also benefit shareholders.
	Resolution 16. Report on Policies and Risks Related to Content Governance	For (Exceptional)	A vote FOR this proposal is warranted, because a report on assessing the effectiveness of enforcement of content management policies could help provide shareholders with valuable information on how well the company is assessing and mitigating content-related controversies.

			(excluding CEO) who is up for re-election. However, KDDI Corporation is exposed to the risk of supply chain labour standards being breached within its operations. Company's 2018 Sustainability report contains 'Supply chain management' section which states that KDDI Corporation conducts 'surveys targeting our leading business partners to support their understanding about our responsible procurement initiatives, and to communicate the situation and progress.' Since 2014 the company conducts a survey targeting their leading business partners using a Responsible Procurement Check Sheet. The latter is based on the Supply-Chain CSR Deployment Guidebook (Check Sheet) published by JEITA, consisting of 130 questions related to the seven themes of human rights and labour, safety and health, environment, fair and ethical trade, quality and safety, information security, and contribution to society and others deemed pertinent to the company. In fiscal 2017, KDDI Corporation asked approximately 90% of their key business partners to answer the survey. While we acknowledge company's efforts, we still want to see some auditing data. We recommend a vote of support but urge the company to disclose more supply chain related information (e.g. number of audits; non-compliance data). We may deteriorate our recommendation next year if no improvement is made.

In addition the stock option plan's performance conditions is limited to 2 years (with 3 years presence condition) which is not considered as long term enough. However having engaged with the company we are comfortable that the committee strives to align remuneration with performance (namely stage 3 for their key drug) and are therefore supporting this year.

	Resolution 3. Re-elect Chris Gibson-Smith as Director	For (Exceptional)	<p>Under normal circumstances we would have voted against the nomination committee chair (and chair of the Board) to reflect our concerns over the lack of women on the Board. However we have exceptionally supported given the following explanation from the company which we consider to be satisfactory, although we will not be supportive if progress has not been achieved by the next AGM: The Annual Report notes that, " During the first half of the year the Company worked with the external search firm, Korn Ferry, which resulted in an active engagement with two excellent female candidates who were approached for appointment to the Group and Life Company Boards. A third was identified for appointment later in the year. All three indicated a willingness to seriously consider joining the Group. However, during these discussions the extended period of uncertainty produced by the publication of the PRA s consultation paper CP13/18 created an environment which made it difficult to secure the services of any new Non-Executive Director during the year; a period of uncertainty which only ended on publication of the Policy Statement 31/18 on 10 December 2018. As a result, the Group has not been able to show progress in the last year against the Hampton-Alexander Review s recommendations for FTSE 350 companies to improve the representation of women in leadership positions by 2020. These conversations with candidates are continuing, but will not be satisfactorily resolved in time for year end reporting. Notwithstanding the delay to the process outlined above, the Group is making strenuous efforts to improve and sustain gender diversity in its senior leadership. Just remains committed to achieving the external targets and has set its own internal target of 33% women in senior leadership roles by 2023."</p>

Such a policy and the accompanying disclosure would benefit shareholders.
	Resolution 6. Adjust Executive Compensation Metrics for Share Buybacks	For (Exceptional)	The short- and long-term incentive programs rely significantly on an adjusted EPS metric which is dependent upon the number of shares outstanding. Given that the company does not adequately disclose how its significant share repurchases have impacted EPS results under incentive plans, or whether the board takes into consideration planned buybacks when setting EPS performance targets, shareholders are unable to assess whether buyback activity has been unduly driving EPS performance and resulting incentive compensation payouts. As such, a vote FOR this proposal is warranted.

The company still fails to disclose the weighting of criteria at cap level. 	Resolution 5. Approve Auditors' Special Report on Related-Party Transactions Mentioning the Absence of New Transactions	For (Exceptional)	Under normal circumstances, we would not support this resolution as the transaction has potential for significant conflicts of interest because one of the transactions deals with consulting services provided by HM Conseils, a company managed by Jean-Gerard Galvez. However, the company has ceased this agreement at the end of 2018.
	Resolution 6. Reelect Jean-Gerard Galvez as Director	For (Exceptional)	Under normal circumstances we would not support this Director as he is the non independent Chairman (due to a professional relationship) who ideally should be independent in the interests of maintaining a balanced unitary Board, and independent directors represent less than one third of the Board. Given the size and market environment of the company we are supporting this year and will monitor the board composition closely.

However, as he has been on the board for 10 years and there has been a few new appointments last year we think it is important they have a senior independent director who has experience within the company.

Absa Group Limited AGM 04/06/2019 SOUTH AFRICA	Resolution 1. Reappoint Ernst & Young Inc. as Auditors of the Company with Ernest van Rooyen as the Designated Auditor	For (Exceptional)	The company has retained the same audit firm since 1992 (i.e. in excess of twenty years). Mandatory auditor rotation every 20 years and at least a Tender for Audit services every 10 years is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. Please consider that, with the approval of the Prudential Authority of SARB, E&Y Inc. became the sole auditors of the company. This was preceded by the removal of the proposal for the reappointment of KPMG Inc. as auditors from the 2018 AGM's agenda due to "concerns on alleged inappropriate conduct by KPMG Inc. in relation to audit and advisory services the firm provided to certain of its clients". The company has stated that it will initiate a process towards engaging a second audit firm during the year.

However, we have exceptionally supported his re-election as we are mindful that all of Christopher Legge's directorships are at investment trusts, some of which are very small and one of which is another Sherborne investment vehicle (Sherborne Investors (Guernsey) B Ltd). Event	Resolution	Vote Action	Voting Reason
Metro Bank PLC EGM 03/06/2019 UNITED KINGDOM	Resolution 1. Approve Terms of the Placing	For (Exceptional)	Under normal circumstances, we would have voted against the terms of the Placing, as although it is absolutely key to the group being able to continue as a going concern, we are uncomfortable over the structure of the capital raising. Firstly, it will be highly dilutive to non-participating shareholders - the interests of shareholders who do not participate in the Placing will be diluted by 43.5% as a result of the Placing. We also have concerns over the Placing price - though only c. 6.8% lower than the share price prior to the announcement of the proposal, it is a significant discount to where shares were trading prior to the revelation of the RWA adjustment and the current share price. However, we have exceptionally supported as in addition to the necessity of the proposals, the Company explains that the Board has carefully considered and consulted with a number of the Company's leading shareholders on the best way to structure the proposed equity capital raise. The decision to structure it by way of a non-pre-emptive Placing takes into account a number of factors, including the net proceeds to be raised. The Board has sought to balance the potential for dilution to non-participating shareholders with the benefits to shareholders as a whole of promoting deal certainty and the familiarity of the Placing structure to the Company's shareholder base. Further, the Company intends to respect the principles of pre-emption as far as practicable by extending the offer to a significant majority of shareholders and, as far as practicable, allocating to existing shareholders at least up to what would be their pre-emptive entitlement. There are no further details on how this has been implemented in practice, but we note that the book build has already been completed.

	Resolution 1I. Elect Director Harris H. Simmons	For (Exceptional)	<p>Under normal circumstances, we would have voted against the re-election of this Director as he serves as combined CEO/Chairman, a role we prefer to be split. The Chairman's role on a board is to evaluate and review the performance of management; this role is obviously compromised when the Chairman is also the CEO. Further the lead director is not considered independent (having served on the Board for 17 years and concurrently with the CEO/CH)</p> <p>However, we have exceptionally supported his re-election in recognition that he has been driving the recent changes at the bank, including the introduction of new, outside board members and the overhaul of compensation plans. A disruption by splitting this role at this time or removing Harris would be a deterrent to progress when management is taking active steps to include shareholders in the dialogue and changes going on at the bank.</p>

DP Eurasia NV AGM 29/05/2019 NETHERLANDS	Resolution 3. Adopt Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would consider withdrawing support from this resolution because DP Eurasia is not in line with the recommendations of the 2018 Corporate Governance Code in a number of aspects: directors do not stand for re-election annually, the Board is not at least half independent and the composition of key sub-committees is not considered to be in line with best practice recommendations. Moreover, the Company has not provided a clear commitment that it intends to comply with the recommendations of the 2018 Code in the future. We note that the Company is not yet required to fully report against the 2018 Code: listed companies are expected to report against the recommendations of the new Code from 2020 onwards. We will monitor and reconsider our position next year.

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. Support for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director. This is particularly important to

Schedule of voting on company resolutions

			us given our concerns over the company's response to climate change which the combined CEO/Chair is ultimately responsible for.
	Resolution 5. Amend Bylaws - Call Special Meetings	For (Exceptional)	Support for this proposal is warranted, as the ability of the holders of 10 percent of outstanding shares to call a special meeting would supplement shareholders' existing right under New Jersey law to petition the Superior Court to call a special meeting upon a showing of good cause.
	Resolution 6. Disclose a Board Diversity and Qualifications Matrix	For (Exceptional)	Support for this resolution is warranted as a board matrix would enhance transparency and would provide shareholders with a better tool to assess the quality of Exxon's board and to evaluate its director nominees. We are mindful that the company's board is laudably diverse and comprised of directors with relevant expertise. However, while Exxon provides information regularly provided in a proxy statement regarding the skills, experiences or other attributes of director nominees, it fails to provide a single matrix that lays out each individual director's attributes. As shareholders elect directors individually, not as a slate, they would benefit from more information regarding each individual director's attributes such as operational expertise, scientific/environmental/technical expertise, or financial expertise, to better assess if they effectively fulfill the board's oversight responsibilities. A growing number of large companies, including several of Exxon's peers, are providing a board skills matrix.
	Resolution 7. Establish Environmental/Social Issue Board Committee	For (Exceptional)	Support this proposal is warranted because the creation of a climate change committee, as requested, should serve to further strengthen the company's ability to manage risks related to climate change and sustainability issues in general; and the establishment of a climate change-focused board committee should not be unduly burdensome and would serve to enhance and complement the company's capacity to manage climate change risks in the long-term, for the ultimate benefit of shareholders. This is particularly important to us given our concerns over the company's response to climate change.
	Resolution 8. Report on Risks of Petrochemical Operations in Flood Prone Areas	For (Exceptional)	Support for this resolution is warranted as shareholders would benefit from the requested report by providing them additional information on the public health risks associated with the company's petrochemical operations and enable them to better assess the company's management of related risks.

	Resolution 9. Report on Political Contributions	For (Exceptional)	Support for this resolution is warranted as increased disclosure concerning ExxonMobil's policies and memberships in trade associations and other political organizations would help shareholders assess the company's comprehensive political contribution activities and the company's management of associated risks and benefits.
	Resolution 10. Report on Lobbying Payments and Policy	For (Exceptional)	Support for proposal is warranted, as additional disclosure of the company's lobbying-related expenditures, trade association payments, and board-level oversight mechanisms would help shareholders better assess the risks and benefits associated with the company's participation in the public policy process.

IP Group plc AGM 28/05/2019 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	<p>Under normal circumstances we would have voted against the remuneration report as the Company is technically in breach of UK Listing Rules for making LTIP awards during 2018 under a scheme which had expired in 2017. This was an administrative error and the Company has withdrawn the item to amend the LTIP scheme rules (shareholders approved various amendments to the LTIP in 2011 rather than the LTIP rules being renewed in full. As a result of an administrative error, the LTIP scheme documentation reflected 2011 as its adoption date, rather than as the date on which it was amended). However, we have exceptionally supported as the Company has provided an assurance that no awards will be allowed to vest nor will it make any further grants under the LTIP, until shareholders have formally approved the LTIP until a shareholder approval for the LTIP scheme is sought, which will be no later than the 2020 AGM. We note that the Company has retained the 2019 LTIP award levels at 300% of salary for the CEO and 200% of salary for other Directors which would typically be cause for concerns given the 34% fall in the Company's</p>

			share price since the 2018 LTIP awards were granted. However, we are mindful that these awards are coming off lower quartile salaries. Bonus opportunity (of 100% of salary) is also lower quartile for a company of this size so we are comfortable with these relatively large awards as they will only start paying out for solid long term performance. We also welcome that the amount that vests for meeting threshold performance conditions has been reduced from 30% to 25%.

Specifically in addition to his CEO role at IP Group, he is Chair of two other companies. However, we have exceptionally supported his re-election given it is not considered appropriate to vote against him as CEO at IP Group. Instead, our default position would be to vote against his election as a non-executive at their other companies. Further, we are mindful that his other directorships are at relatively small companies. One of these (Ceres Power Holdings plc) is one of the portfolio companies in which the Group holds a significant interest. As such, he is considered to a representative of the Group's interests, which may relatively involve less of a time commitment as compared to a standard NED seat and is considered to be a part of his executive responsibility.

We also have some reservations over his aggregate board commitments raising questions as to how he is able to devote sufficient time to the Spectris board. In addition to him being Chair of Spectris, he is also the Chair of Imperial Brands and a non-executive director at National Grid - all three on his positions are at very large companies. However, we are mindful that in this case the overall count exceeds our slightly exceeds our guidelines and is due to his two Chair roles, rather than the number of his aggregate positions. Moreover, it is acknowledged that the Board has formally reviewed the Chair's other commitments and noted that as announced on 11 February 2019, Mark Williamson will step down as chair of Imperial Brands plc when a suitable successor has been found.</p>

	Resolution 17. Authorize Issuance of Equity or Equity-Linked Securities without Preemptive Rights up to Aggregate Nominal Amount of EUR 385,000	For (Exceptional)	Under normal circumstances, we would not be supporting this resolution because the authority would enable the Board to issue the equivalent of 50.82% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 20%, unless a clear justification and strategic rationale is provided to shareholders. However given the size and market context of the company we will support.

A vote FOR this resolution is warranted, as reporting of the full set of diversity statistics would allow shareholders to better assess the effectiveness of the company's diversity initiatives and its management of related risks.

Re-elect Jonathan Nicholls as Director	For (Exceptional)	Under normal circumstances we would not have supported this director as in addition to his role as Non-Executive Chair at Ibstock Plc, Jonathan Nicholls is also Non-Executive Chair at Shaftesbury Plc and a non-executive director at DS Smith Plc. In aggregate this raises concerns over how he can properly devote sufficient time to each of his roles (and in this case, his Ibstock role). However, we are mindful that in this case the overall count only slightly exceeds our guidelines, and is due to his two non-executive chair roles. Also, Shaftesbury is a Real Estate Investment Trust, thus not requiring as much time as a typical FTSE 350 company. As such we have exceptionally supported his re-election and will be discussing this issue with the Company.

Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

	Resolution 9. Re-elect Jeremy Tighe as Director	For (Exceptional)	Under normal circumstances we would not have supported this director as they hold the equivalent of more than 4 positions, which is in excess of our guidelines. However, we are mindful that in this case the overall count exceeds our limit by only one position, and this director serves as non-executive chair of at least one of the boards they sit on. Given our lack of further concerns regarding this director we are supporting the re-election.
	Resolution 10. Reappoint PricewaterhouseCoopers LLP as Auditors and Authorise Their Remuneration	For (Exceptional)	Under normal circumstances, we would be voting against this resolution as the company has retained the same audit firm in excess of twenty years. Mandatory auditor rotation every 20 years and at least a Tender for Audit services every 10 years is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. Sabre Insurance Group Plc AGM 23/05/2019 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	<p>Under normal circumstances, we would have voted against the remuneration report given there have been relatively large increases in executive salaries (CEO:+6.3%, CFO+11.1%) and bonus opportunity (from 100% to 125% of salary). However we have exceptionally supported as we are relatively comfortable with the uplift following further explanations provided by the Remuneration committee chair, as follows: Having frozen salaries last year, the Remuneration Committee considered that salary increases above the level offered to the wider employee population should be awarded to the Executive Team to reflect the expansion of their responsibilities and development in role following the transition to public ownership in December 2017, and Sabre's promotion to the FTSE 250 index in December 2018. This includes dealing with external stakeholders, and increased plc governance and reporting requirements. Even after these adjustments, salary levels for the Executive Directors are still modestly positioned at or below lower quartile levels relative to Sabre's peers in the FTSE 250. With regard to the increase in target and maximum bonus opportunities for 2019, the Committee judged that with an appropriate level of stretch in the annual bonus targets, this was a fair and balanced way to reward and incentivise the executive team and to ensure that the company retains the high calibre of executive talent necessary to deliver on its strategy of strong cash generation and providing attractive and sustainable returns to shareholders. We note that the company considers that the new / maximum remuneration package available to executive directors continues to be modest and in the lower quartile bracket relative to the company's FTSE 250 peers. Reappoint Ernst & Young LLP as Auditors	For (Exceptional)	Under normal circumstances, we would have voted against the reappointment of E&Y as they have been the Company's audit firm since 2001 (i.e. in excess of ten years). Mandatory auditor rotation every 20 years and at least a Tender for Audit services every 10 years is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, we are mindful that the transitional rules under the EU legislation require Sabre Insurance Company Limited to run a tender process for the external audit by 2023, after which Sabre Insurance Company Limited will be required to change its external auditors. It is anticipated, given the material nature of Sabre Insurance Company Limited within the Group, that the Directors would tender the

			external audit of the Group at that time. Although we will be seeking clarity on the company's intentions (and will encourage the Group to Tender the audit sooner), we are mindful that a change in 2023 will mean that E&Y will have only just served over 20 years at such time.

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

	Resolution 5. Reduce Ownership Threshold for Shareholders to Call Special Meeting	For (Exceptional)	Supporting this proposal would enhance shareholder rights.
	Resolution 6. Prohibit Sales of Facial Recognition Technology to Government Agencies	For (Exceptional)	This proposal requests that Amazon prohibit sales of facial recognition technology to government agencies unless it is found to not harm civil and human rights. The company does provide information on its processes for identifying and mitigating risks. The full board has authority and the audit committee has oversight over privacy and risks related to its operations. Shareholders would benefit from careful monitoring of Amazon's development of policies and its use of evidence to determine the actual or potential threat that facial recognition technology poses to civil and human rights; and- Adoption of the proposal would result in more robust communication regarding the company's policies and oversight mechanisms, and allow shareholders to better assess the risks related to Amazon's facial recognition development and sales processes.
	Resolution 7. Report on Impact of Government Use of Facial Recognition Technologies	For (Exceptional)	A vote FOR this proposal is warranted, as additional information regarding the processes the company uses to assess human rights impacts in its operations would allow shareholders to better gauge how well Amazon is managing human rights related risks, specifically around new technologies like facial recognition.
	Resolution 8. Report on Products Promoting Hate Speech	For (Exceptional)	A report assessing the adequacy and enforcement of product listing and content policies could help provide shareholders with valuable information on how well the company is assessing and mitigating content-related controversies.
	Resolution 9. Require Independent Board Chairman	For (Exceptional)	We prefer the roles of Chairman and CEO to be split. The Chairman's role on a board is to evaluate and review the performance of management; this role is obviously compromised when the Chairman is also the CEO.

On a separate point we note that in addition to his Chair role at Bovis, Ian Tyler is Non-Executive Chair at Cairn Energy and a non-executive at BAE Systems plc. 			continued underperformance appears to be at least partly linked to shortcomings in the company's capital allocation practices under current management. The ill-conceived merger plan with CA Immo and recent acquisition of a substantial stake in S Immo at a large premium to market price, without having concrete plans on possible cooperation and/or combination, did little to improve management's credibility. In contrast to peers, the company's shares continue to trade at a large discount to NAV. In this context, the payment of a substantial discretionary special bonus to management board members appears troubling. In light of these factors, the dissident has presented a compelling case that additional independent oversight at the board level would be beneficial. Dissident nominee Dagmar Valcarcel appears to have extensive legal experience and brings also operating and finance executive experience from past positions at Barclays and Terra Firma. In addition to M&A and capital markets experience, Valcarcel brings also valuable international experience. Based on the above considerations, the election of the dissident nominee, Dagmar Valcarcel, warrants support. Consequently, a vote against the nominee proposed by the company, Sven Bienert, is warranted.

	Resolution 5. Prepare Employment Diversity Report, Including EEOC Data	For (Exceptional)	<p>This resolution has been Trillium Asset Management. In its supporting statement, the proponent provides evidence that greater gender and racial diversity would be good for the company and that being publicly accountable to diversity goals would help drive progress to greater diversity. Although Travelers says that diversity is essential for the company's success, the company doesn't disclose data to show how diverse the company's workforce is, according to the proponent, and may be lagging behind peers who disclose workforce statistics such as MetLife, Aflac, and Allstate. While Travelers provides some diversity-related disclosure, it does not contain the level of detail in terms of job levels or in terms of minority group that the proponent is seeking or that could allow shareholders to assess progress over time in advancing women and minorities to management or executive levels. Therefore, we are supportive of the proposal as the increased disclosure of the type requested here could be of value to shareholders without causing undue burden to the company, given the fact that the company already collects the EEO-1 data that is being requested.</p>

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

However, we are mindful that the proposed term is just one year over our preferred term. In addition, although during FY18 this director has attended all board meetings she was eligible to participate in, concern is raised with her attendance during FY2017 of only 50%. In addition we are unable to ascertain that she has not had a repeated low attendance for FY16, as the company did not break down attendance levels for each director back in 2016, but only disclosed the overall board attendance (95%). Her board positions are all at very large companies and it is unclear what the time requirements of this advisory role are at Evercore; the Company does not engage on the topic in the annual report (and the role at is not listed in her biographical details provided by the Company). As such, we will be seeking assurances from the company that Dame Alison Carnwath can devote sufficient time to her role at BP and the explanations we receive will ultimately decide how we vote on her re-election going forward.

	Resolution 4. Report on Gender Pay Gap	For (Exceptional)	Support for this shareholder proposal is warranted, as shareholders would benefit from additional information allowing them to measure the progress of the company's diversity and inclusion initiatives. This is increasingly important given the emerging focus on the gender pay gap and the associated reputational, competitive, and operational risks for not addressing inequality issues.
	Resolution 5. Amend Proxy Access Right	For (Exceptional)	<p>This proposal asks the board of directors to amend its proxy access bylaw provisions and any associated documents, to include the following change: A shareholder proxy access director candidate shall not need to obtain a specific percentage vote in order to qualify as a shareholder proxy access director candidate at any future shareholder meeting. The proponent highlights the "importance" of this proposal as a proxy access candidate might not obtain the 20 percent required vote and, thus, be disqualified the following year from being a candidate, even if he or she is a more qualified candidate than certain existing directors. The proponent argues that even qualified proxy access director candidates may not receive 20 percent support because "Shareholders may simply believe that at the time of the annual meeting that the company is not ready for a proxy access candidate and hence may not support the candidate because the timing is not right." However, in the following year, "a majority of shareholders might determine that the timing is right and hence they should be able to vote for such a highly qualified candidate." Support for this shareholder proposal is warranted as prohibiting resubmission of failed nominees in subsequent years unnecessarily restricts shareholders' ability to use proxy access. Removal of this provision would enhance the company's proxy access right for shareholders while maintaining safeguards in the nomination process.</p>

The Chairman's role on a board is to evaluate and review the performance of management, and to ensure there are sufficient checks and balances; this role is obviously compromised when the Chairman is also the CEO. Given the company's size as well as the board size, we will encourage the company to appoint a lead independent director. We note that the audit committee is 100% independent which provides some assurance that there are appropriate checks and balances in place. We will support this year.

Ratify PricewaterhouseCoopers as Auditors for Financial Year 2019	For (Exceptional)	Under normal circumstances we would not support this resolution because the audit firm PricewaterhouseCoopers since 1987 (i.e. in excess of twenty years). Mandatory auditor rotation every 20 years and at least a Tender for Audit services every 10 years is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. They have served as the sole auditor of the Company since 2000 and prior to that served in conjunction with other auditors. However, we note that under Item 14, the board recommends that Deloitte be appointed as the company's independent audit firm for the fiscal year 2020.

	Resolution 12. Reappoint Deloitte LLP as Auditors	For (Exceptional)	Under normal circumstances we would have voted against the reappointment of the Auditors (and the authorisation of their fees) to reflect our concerns that the non-audit fees paid to auditors were 247% of the total audit fees, and being the second consecutive year in which they exceeded the audit fees. However we have exceptionally supported as we are mindful that the majority of fees relate to services provided for the rights issue undertaken in FY2018 (£2m) which was also the case for the previous year. Rights issues are generally considered non-recurrent in nature and, given the timing of the capital raise – announced in February 2018 and completed in April 2018, fees paid to the auditor have been spread across two financial years. We also note that the Audit Committee states that it has "considered the independence of the Deloitte LLP audit team in light of the level of non-audit services provided in the year and have deemed that adequate safeguards have been in place including: separate partners and staff being responsible for the delivery of this work; the non-audit team do not prepare anything which would be relied upon in the Group audit; and the work performed is also subject to an independent Professionals Standards Review and Engagement Quality Control Review process."

In addition to his proposed NED role at Shell, Neil Carson has two other non-executive directorships, both of which are non-executive chairmanship roles. However, on this occasion we do not consider it appropriate to vote against as following extensive consultation with shareholders, the company has made some positive changes to pay arrangements (detailed under resolution 2) including linking pay to energy transition (as part of the company's commitment to help address climate change). As such it is evident the remuneration

			committee is open to dialogue and willing to make certain changes. On a separate issue, we have some reservations over his aggregate time commitments. In addition to his Dep Chair / SID role at Shell, Gerard Kleisterlee has two other non-executive directorships, both of which are chair roles, and at very large companies (Vodafone and ASML). As such we will be engaging with the Company to seek assurances that he is able to devote the necessary time required for a senior role in such a large company. We have recently met with Gerard Kleisterlee in respect of his Chair role at Vodafone and he talked us through his time commitments, and subsequently we are more comfortable on this issue.

Sirius Minerals Plc EGM 21/05/2019 UNITED KINGDOM	Resolution 1. Approve Matters Relating to the Firm Placing and Placing and Open Offer	For (Exceptional)	Under normal circumstances we would have voted against the firm placing and placing and an open offer of new ordinary shares (which will raise net proceeds of £311 million) as we question the structure of the capital raising. As this is not a rights issue, the fundraising will result in dilution of up to 31.2% to non-participating shareholders (this will be reduced to 28.1% if shareholders fully participate in the open offer). Further, shares will be issued at a 13.4% discount to market price. However, we have exceptionally supported as we acknowledge that if the fundraising and the separate new Convertible Bond offering do not proceed, the Company would require approximately an additional £535m to make up the shortfall to have sufficient working capital for at least twelve months from 1 May 2019. If the Board is unable to obtain alternative funding or a merger or acquisition transaction involving the Company (which the Company believes is unlikely to be achieved), it would need to initiate an insolvency process, which could result in Shareholders losing part or all of their investment in the Company. As such, shareholders effectively have no choice to support this proposal.

This includes restructuring of variable incentive targets to align with strategic goals communicated to the market, the removal of vesting for below medium TSR performance, and the introduction of sustainable finance goals. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders.
