Tung, with Shareholder No. 00057522, as Non-independent Director | For (Exceptional) | Under normal circumstances we would have voted against the re-election of this director to reflect our concerns that, in aggregate they have too many board commitments. However, we have exceptionally supported their re-election given they are the Executive Director of this company. Instead, our default position would be to vote against their election as a non-executive at their other companies. |

| | Resolution 2.1. Elect C. Lin, with Shareholder No. E100689XXX, as Independent Director | For (Exceptional) | Under normal circumstances we would not have supported this director as we are concerned with the number of board positions they hold and we would question their ability to devote sufficient time to the role. However, we are mindful that this exceeds our guidelines by only one and we do not have further concerns regarding this director. We are supporting the re-election but we will however be keeping this under review. |

| | Resolution 4. Report on Business Strategy in the Face of Labor Market Pressure | For (Exceptional) | In their supporting statement, the proponents state that as countries recover from the Covid-19 pandemic, labor force participation in Canada and the U.S. remains low, causing a record number of job vacancies. They state that according to experts, "employment conditions, including low wages and benefits, are key factors driving the increase of job vacancies." The proponents say that food services are among the sectors that have recorded the largest increase in job openings, and the fast-food industry has an average turnover rate of 150 percent in the U.S. They add that research shows that high turnover rates may increase labor expenses. The proponents assert that RBI has "a recruitment and retention problem." They state, "in contrast with many employers that decided to improve wages and benefits to attract and retain a skilled workforce, RBI has not explained how its business strategy enables franchisors to compete effectively in a constricted labour market." They argue that the inability of franchisors to successfully attract and retain employees may hurt their financial objectives and may negatively impact RBI's long-term shareholder value. Support for this proposal is warranted as enhanced disclosure would provide shareholders with valuable information that would allow them to better assess the efficacy of the company's human capital policies and practices and management of risks related to its franchised business model. |

We note that in 2022, the company is planning on obtaining more data for Scope 1 and 2 emissions, prioritizing the collection of ?relevant? Scope 3 emissions data, publishing its 2022 Sustainability Report, and working to reduce the weight of packaging. The company also has responded to the CDP questionnaire on climate. The response for 2021 earned a C score from CDP. |

| PLDT INC AGM 14/06/2022 Philippines | Resolution 1. Approve the Audited Financial Statements for the Fiscal Year Ending December 31, 2021 Contained in the Company's 2021 Annual Report | For | |
| | Resolution 2.1. Elect Bernido H. Liu as Director | For (Exceptional) | Under normal circumstances we would not have supported the re-election of this director as they serve on the audit committee and the company does not put an auditor resolution for shareholders' approval at the AGM. The absence of an auditor resolution at the AGM significantly reduces the accountability of auditors to shareholders and their say on audit issues. However, we have exceptionally supported as we note that he remains one of only a couple of independent directors on the board and we have not identified any other concerns. |

| | Resolution 1e. Elect Director Joseph Jimenez | For (Exceptional) | Under normal circumstances we would not have supported this director as they hold the equivalent of more than 4 positions, which is in excess of our guidelines. However, we are mindful that in this case the overall count exceeds our limit by only one position, and this director serves as non-executive chair of at least one of the boards they sit on. Given our lack of further concerns regarding this director we are supporting the re-election. |

| | Resolution 2. Advisory Vote to Ratify Named Executive Officers' Compensation | For (Exceptional) | Under normal circumstances, we would not be able to support this resolution as the company provided an inordinate amount of personal use of aircraft perquisites to the CEO. Further, the pay ratio of the CEO's remuneration versus that of the median employee is relatively large (420:1 in the latest financial year). With regards to the benefits, the company provided a large corporate aircraft perquisite to the CEO. The value of this perquisite, which in 2021 was provided by only 42 percent of companies in the S&P 500 Index, significantly exceeded the index median. The company states that due to security reasons identified by an independent third-party security consultant, company policy prohibits the CEO from using commercial air travel for business or personal use. At this time, we do not believe that these concerns are enough to warrant a vote against the vote report. During engagement, the company had expressed mindfulness on pay ratios. Annual incentives are primarily based on objective financial metrics, while a majority of equity awards are performance-based and utilize a multi-year measurement period. Pay outcomes will be kept under review going forward. |

| | | | |
|--|-----------------------------------------------------------------------------------|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | Resolution 4. Reduce Ownership Threshold for Shareholders to Call Special Meeting | For (Exceptional) | A vote FOR this proposal is warranted, as the proposed 10 percent ownership threshold for shareholders to call a special meeting would enhance shareholders' ability to make use of the right, and the likelihood of abuse of the right is considered small given the company's size and the composition of its shareholder base. |
| | Resolution 5. Require Independent Board Chair | For (Exceptional) | Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chair to be an independent director. |

| | Resolution 6. Report on the Use of Child Labor in Connection with Electric Vehicles | For (Exceptional) | A vote FOR this proposal is warranted, as additional information on the company's efforts to eliminate child labour from its supply chain would allow investors to better understand how the company is managing human rights-related risks in its supply chain. While the company does disclose that child labour is not a part of its supply chain, further disclosure in this area may be warranted, particularly owing to allegations the company has faced otherwise in relation to supply chain operations. It is anticipated that through supporting this resolution, the company may disclose whether salaries in the cobalt and other minerals support minimum living standards, and disclose efforts to engage with suppliers to include labour and human rights guarantees in future contracts. |

| | Resolution 4. SP 1: Set Emission Reduction Targets | For (Exceptional) | Support for this proposal is warranted as it would serve to enhance the company's current commitments to net zero and facilitate stronger alignment between the company's emissions reduction goals and its policies and actions. Adoption of the resolution would also provide shareholders with a better understanding of the company's management and oversight of related risks. We note that Brookfield Asset Management faced public controversies in 2021 arising out of its claim of having reached net-zero status, a claim which later had to be walked back. The controversy surrounded Brookfield including avoided emissions in net zero calculations, a practice which deducts from an organization's total emissions the emissions that are claimed to have been avoided by not using more polluting forms of energy generation, such as coal. While Brookfield has committed to science-based approaches and standardized methodologies for determining emissions, according to the Science Based Targets initiative, avoided emissions do not count toward science-based targets. We also note that the company has disclosed that it is in the process of submitting its 2030 net zero interim target, which will be disclosed in the publication of NZAM's next progress report in the coming weeks and posted on their website at www.netzeroassetmanagers.org . |

| | Resolution 5. Elect Lord Charles Allen as Director | For (Exceptional) | Under normal circumstances, a vote against the new Board Chair would be appropriate to reflect our concerns over his aggregate time commitments. He is also Chair at Balfour Beatty, Advisory Chair at Moelis & Co, and he has Chair and non-executive roles at a number of private companies. This raises questions over how he can contribute the necessary time to his role at THG especially given the challenges the company is experiencing. However, we have exceptionally supported his appointment as the company has responded to our / other shareholder concerns and split the roles of Chair and CEO (Matthew Moulding is now only the CEO), which should improve the checks and balances on the Board. Further, Charles Allen has extensive boardroom experience across a range of sectors, and chaired many similar large, successful, dynamic companies, so his appointment will enable the CEO to focus his attention on delivering the Group's plans for growth. Nevertheless, we will be seeking assurances from the company about his time commitments. |

| | Resolution 9. Re-elect Zillah Byng-Thorne as Director | For (Exceptional) | Under normal circumstances we would have voted against this non-executive director to reflect our concerns that they are a full-time executive of another Company (CEO of Future plc), yet THG isn't the only other Board she sits on - she is also a non-executive of Flutter Entertainment plc. We question how full-time executives can devote sufficient time to multiple other boards. However, we have exceptionally supported her election as in addition to having engaged with the Company on this issue which provided assurances that she has sufficient time to devote to her role as Senior Independent Director (SID), we note that she stood down as Chair of the Audit Committee (but remained a member), thereby streamlining the scope of her chair responsibilities in a manner deemed appropriate. Further, we note (and welcome) that on 22 Feb 2002, Flutter announced that she will be stepping down from that role in 2023. |

| | Resolution 7. Re-elect Tony Rice as Director | For (Exceptional) | Under normal circumstances, we would have voted against the re-election of Tony Rice, the Board and Nomination committee Chair to reflect ongoing concerns over the lack of gender diversity on the Board (women represent 29%, being below our minimum expectation of one-third of the Board for large companies). However, it is not considered appropriate to vote against the re-election of Tony Rice at this time, given that the Company may shortly be taken over by Cobham. The Company has committed to addressing this shortfall should the acquisition not proceed. Specifically, the annual report comments: In our 2020 Annual Report and Accounts we reported that we would take the Hampton? Alexander target of a minimum 33% female representation on the Board into account while searching for at least one further Non- Executive Director in 2021. That search was paused once the Acquisition was announced. Should the Acquisition not complete by the long stop date of 5 August 2022, we will re-activate the search and will work towards meeting that target during the remainder of 2022. On a separate issue, we expect all companies to evidence an orderly and structured approach towards assessing and reporting on climate-related risks and opportunities. This includes, and is not limited to, responding to the Carbon Disclosure Project?s (CDP?s) annual Climate Change questionnaire, the most complete source of self-reported corporate environmental data in a standardized and comparable format, that is widely used |

| | Resolution 4. Reduce Ownership Threshold for Shareholders to Call Special Meeting | For (Exceptional) | On June 4, 2021, the company amended its certificate of incorporation and bylaws to provide that shareholders owning at least 25 percent of the company's outstanding common shares can act by written consent. These amendments were made following the majority shareholder support for the management proposal to provide this right at the 2021 annual shareholder meeting. Support is considered warranted for this resolution, as further lowering the ownership threshold from 25 percent to 10 percent would improve shareholders' ability to use the special meeting right. |
| | Resolution 5. Report on Climate Change Performance Metrics Into Executive Compensation Program | For (Exceptional) | A vote FOR this proposal is warranted. Incorporating climate-related performance measures as a broader component of senior executive pay setting decision-making would serve to incentivize executives to ensure that company performance on environmental, social and sustainability considerations, alongside financial factors, is appropriately aligned with management's interests, the firm's stated commitments to climate, sustainability, and long-term corporate strategy. |

| DIAMONDBACK ENERGY INC AGM 09/06/2022 United States | Resolution 1.1. Elect Director Travis D. Stice | For (Exceptional) | Under normal circumstances we would not support this director as this Director serves as combined CEO/Chair, a role we prefer to be split. However, due to a number of safeguards in place we are comfortable to support. Under normal circumstances we would have voted against the re-election of this director to reflect our concerns that, in aggregate they have too many board commitments. However, we have exceptionally supported their re-election given they are the CEO/Executive Director of this company. Instead, our default position would be to vote against their election as a non-executive at their other companies. |

| | Resolution 6. Require Independent Board Chair | For (Exceptional) | Support for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director. Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. |

| | Resolution 7. Oversee and Report a Racial Equity Audit | For (Exceptional) | The proponent is requesting that Salesforce oversee and report on an independent racial equity audit analyzing the impact of Salesforce's policies, services, and products on civil rights, equity, diversity, and inclusion. The proponent would like to see input from civil rights organizations, employees, and customers. Salesforce discusses a number of initiatives in its Equality Updates to increase diverse hiring and to promote an inclusive culture, including initiatives to specifically create an equitable and inclusive culture for Black women. The company has also established 2023 goals to increase representation in its workforce. It discloses racial and ethnic statistics on its U.S. workforce by leadership, tech, and non-tech roles and identifies areas for improvement, including LatinX representation. The company has established a Racial Equality and Justice Task Force focused on People, Purchasing, Philanthropy and Policy. The company appears to be making substantial efforts to promote an inclusive and diverse culture and address inequity in society, and to disclose its efforts to shareholders. However, in February 2021, the company received some negative publicity after two Black women at the company resigned citing allegations of microaggressions and gaslighting. The company disclosed in August 2021 that it was focused on creating an inclusive culture for Black women and announced plans to institute company-wide training to address microaggressions. The company's 2022 Annual Equality Update suggests it is continuing to identify |

| | Resolution 4. Report on Long-Term Greenhouse Gas Targets Aligned with Paris Agreement | For (Exceptional) | The proponent is seeking disclosure interim and long term GHG targets aligned with the Paris Agreement, including Scope 1, 2, and 3 targets. Support for this proposal is warranted, as additional information on the company's efforts to reduce its carbon footprint and align its operations with Paris Agreement goals would allow investors to better understand how the company is managing its transition to a low carbon economy and climate change related risks. |
| | Resolution 5. Report on Lobbying Payments and Policy | For (Exceptional) | Support for this proposal is warranted, as additional disclosure of the company's direct and indirect lobbying and board oversight would help shareholders better assess the risks and benefits associated with the company's participation in the public policy process. |

| | Resolution 6. Report on Risks of Doing Business in Conflict-Affected Areas | For (Exceptional) | <p>In the supporting statement, the proponent states that despite the company's stated policies on human rights and conflict minerals there is documentation of its equipment being used in violations of international humanitarian and human rights law in CAHRA (e.g., forced displacement, demolition of civilian homes and infrastructure, unlawful resource exploitation), including Myanmar, Occupied Palestinian Territory; and Western Sahara as well as the company having value chain relationships with rights-violating governments (e.g., Belarus). The proponent also states that the company's exclusive wholesaler for Caterpillar-branded retail clothing has links to garment manufacturers reportedly involved in the Chinese government's forced labor program in Xinjiang Uyghur Autonomous Region. The proponent argues that this creates reputational, legal, and financial risks to the company and seeks a report on these risks and how the company is mitigating these risks. Support for this proposal is warranted because shareholders would benefit from additional disclosure to supplement the company's human rights policy to avoid causing or contributing to human rights violations, aid in minimizing controversies that may lead to financial liability and reputational damage for the company and mitigate the company's exposure to the potential associated operational risks.</p> |

| | Resolution 7. Reduce Ownership Threshold for Shareholders to Call Special Meeting | For (Exceptional) | Support for this proposal is warranted as decreasing the ownership threshold for shareholders to exercise the right to call a special meeting from 25 percent to 10 percent would enhance shareholder rights. There also appears to be minimal risk at present that the proposed right would be abused based on the company's shareholder base (the top shareholders are non-activist institutional investors). |

A vote FOR this shareholder proposal is warranted at this time. Although the company follows the OECD Guidelines for Multinational Enterprises, which state that companies should respect the right of workers to establish or join trade unions and representative organizations of their own choosing, it is worth noting that other leading competitors in the industry such as Loblaw, Metro and Canadian Tire all have vendor/supplier codes of conduct that require that suppliers allow their employees the lawful right to free association / collective bargaining. Shareholders may benefit from the company complying with this industry standard. |

| QUALYS INC COM AGM 08/06/2022 United States | Resolution 1.1. Elect Director Sandra E. Bergeron | For (Exceptional) | Under normal circumstances we would have voted against the re-election of the Chair, Sandra Bergeron as she is technically not independent (due to having served on the board for a significant amount of time) and there is a lack of two-thirds majority independence on the Board (our guideline for US companies with one executive on the board). Also a vote against the Board Chair would normally be warranted to reflect our concerns over the continuation of a plurality vote standard and the lack of director accountability to shareholders. However, we have exceptionally supported the re-election of Sandra Bergeron to reflect that in 2021 the Board split the roles of CEO and Chair and so despite the independence concerns, this is a better arrangement than it was. However, we do expect to see some Board refreshment ahead of next year's AGM and would also like the company to introduce a majority vote standard. |

| | Resolution 1e. Elect Director Brian C. Cornell | For (Exceptional) | Under normal circumstances we would not support this director as this Director serves as combined CEO/Chair, a role we prefer to be split. However, due to a number of safeguards in place, in the form of a lead independent director who is not yet heavily tenured. As such, we are comfortable to support. Further, we would have voted against the re-election of this director to reflect our concerns that, in aggregate they have too many board commitments. However, we have exceptionally supported their re-election given they are the CEO of this company. Instead, our default position would be to vote against their election as a non-executive at their other companies. |

| 07/06/2022 United Kingdom | Resolution 2. Approve Remuneration Report | For (Exceptional) | Under normal circumstances, we would not be able to support this resolution as the Company has used the maximum headroom available under the inflight policy to grant the 2021 LTIP to the CEO at 300% of salary. However, the Company has not provided a compelling rationale for increasing the quantum from 250% of salary, which has been the historical level of grant in recent years. Further, no commitment to reduce vested awards that may benefit from 'windfall gains' following a share price recovery has been provided in the annual report. It is however acknowledged that the company is aiming to reduce overall quantum through proposing a restricted share plan, separately assessed under Item 3. While we have some concerns on the structure of the new RSP, the objective of quantum reduction is appreciated, particularly as the current variable pay opportunities are relative high. Further, the CEO has not received a bonus award in the past two years, indicating that some restraint has been applied with regards to overall pay. Vesting outcomes if current LTIP awards will be kept under strict review. |

| | Resolution 1.2. Elect Director John Hakopian | For | |
| | Resolution 1.3. Elect Director Scott F. Kavanaugh | For (Exceptional) | Under normal circumstances we would have voted against the re-election of this director to reflect our concerns that, in aggregate they have too many board commitments. However, we have exceptionally supported their re-election given they are the CEO of this company. Instead, our default position would be to vote against their election as a non-executive at their other companies |

| ALLEGION PLC AGM 02/06/2022 Ireland | Resolution 1a. Elect Director Kirk S. Hachigian | For (Exceptional) | Under normal circumstances, we would have voted against the Lead Independent Director to reflect concerns over the lack of gender diversity on the Board - women represent less than 33% of the board (25%). However, we have exceptionally supported in recognition of another female appointment since the 2021 AGM. On a separate issue, we note that the company has not set / committed to science-based emission reduction targets (SBTs) to be consistent with a 1.5 C pathway. However, we note that the company has submitted Climate responses in 2022 to Cardon Disclosure Project (CDP) - we won't know the results of the surveys until later in the year to know if progress (on disclosures and risk management) has been made on that ask. We will be letting the company know that we will be holding the relevant directors to account next year if insufficient progress has been made. |

However, due to a number of safeguards in place we are comfortable to support. Additionally, he will retire from this position effective July 11, 2022, and will continue to serve as Executive Chairman of the Board until his retirement from the company, which is planned to occur by Jan. 2, 2023. |

We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term. Further, the addition of this independent NED to the Board is considered a positive change. |

| | Resolution 7. Approve Compensation of Pierre-Andre de Chalendar, Chairman and CEO Until 30 June 2021 | For (Exceptional) | Under normal circumstances, we would not be able to support this resolution as, in the context of the COVID-19 health crisis, the board decided to modify the ROCE performance criteria for 2020 attached to the 2017, 2018 and 2019 performance shares plans, for all beneficiaries. Some consideration is however given to the Company's explanation, which is that the derogation only applies to the S1 2020 operating result, keeping a performance requirement on S2 2020. The company now discloses the exact impact of the derogation on the achievement rate of the 2020 ROCE objective: the use of discretion brings the achievement of the criterion from 66.7% to 100% and of the total plan from 53.3% to 75%. Considering the improved disclosure and relatively limited impact of the discretion (21.7% of the performance shares plan), as well as the balances cited above, this will be supported on an exceptional basis for now. Any further usage of discretion will be kept under strict review. |

Payments by Alphabet used for (a) direct or indirect lobbying or (b) grassroots lobbying communications, in each case including the amount of the payment and the recipient. 3. Description of management's and the Board's decision-making process and oversight for making payments described in sections 2 above. Alphabet's disclosures do not include payments to trade association memberships or the amount of its dues to third-party organizations that may be used for lobbying purposes. The company states that it prohibits third parties from using its funds for political expenditures, but does not clarify that lobbying expenses are included in that prohibition. Additional disclosure around its indirect lobbying activities and expenditures would allow shareholders to better assess Alphabet's use of corporate funds for lobbying and its management of related risks. We are supporting this resolution, as additional reporting on the company's lobbying-related practices and policies, such as its trade association memberships and payments, would benefit shareholders in assessing its management of related risks.</p> |

| | Resolution 6. Report on Climate Lobbying | For (Exceptional) | Alphabet is a member of several trade associations that are considered to be obstructing climate policy. We are supporting this resolution to review how the company's and its trade associations' lobbying positions align with Paris Agreement, in light of risks to the company caused by climate change and the company's public position. |
| | Resolution 7. Report on Physical Risks of Climate Change | For (Exceptional) | We are supporting this shareholder resolution. Whilst the company provides some information about steps it has taken to make its headquarters more resilient to flooding and extreme heat, we believe additional disclosure regarding specific risk mitigation efforts in terms of its physical assets would be welcome. This would help to comprehensively assess how the company is addressing climate change risks. |
| | Resolution 8. Report on Metrics and Efforts to Reduce Water Related Risk | For (Exceptional) | This resolution was filed by As You Sow requesting Alphabet to prepare a report on location-specific water risk management and metrics. We are supporting, as would appreciate more transparency on location-specific mitigation efforts, particularly in water-stressed areas. |

| | Resolution 9. Oversee and Report a Third-Party Racial Equity Audit | For (Exceptional) | Alphabet's transparency around Diversity and Inclusion data is above peers. However progress in improving representation in management and technical roles has been slow. The resolution asks for a third-party independent racial equity audit analysing Alphabet's adverse impacts on BIPOC communities. We note there are several controversies on discriminatory practices ongoing and that 5 US Senators sent a letter to Alphabet urging it to conduct a racial equity audit. Concerns include potential AI biases. We are therefore supporting this resolution. |
| | Resolution 10. Report on Risks Associated with Use of Concealment Clauses | For (Exceptional) | A vote FOR this proposal is warranted as it may bring additional information to light that could result in improved recruitment, development and retention. It would also allow the company to address any potential gaps or ambiguity in its existing policies and enable shareholders to better assess the board's oversight of associated risks. |
| | Resolution 11. Approve Recapitalization Plan for all Stock to Have One-vote per Share | For (Exceptional) | We are supportive of the concept of one-share-one vote and as such we are supporting this proposal. |
| | Resolution 12. Report on Government Takedown Requests | Against | <ul style="list-style-type: none"> Proposals do not add any value or strong case not made |
| | Resolution 13. Report on Risks of Doing Business in Countries with Significant Human Rights Concerns | For (Exceptional) | We would be in favour of the company conducting a due diligence process regarding its operations in high risk areas. Whilst we observe Alphabet's ban of Russian media propaganda outlets from generating ad revenue on its platforms and services, we would like to better understand how the company manages human rights related risks in its value chain. |

| | | | |

| | Resolution 14. Report on Managing Risks Related to Data Collection, Privacy and Security | For (Exceptional) | A vote FOR this proposal is warranted as enhanced disclosure on the topic would enable shareholders to better assess how the company is managing data privacy related risks. |
| | Resolution 15. Disclose More Quantitative and Qualitative Information on Algorithmic Systems | For (Exceptional) | Given the sensitivity and the potential societal and discriminatory impacts of algorithms on society, we are supporting this resolution. We are in favour of additional transparency in algorithmic systems to better understand how the company manages key risks. |
| | Resolution 16. Commission Third Party Assessment of Company's Management of Misinformation and Disinformation Across Platforms | For (Exceptional) | This is a key issue for the company. This shareholder resolution is asking for an independent third party human rights assessment to evaluate the efficacy of Alphabet's existing policies and practices to address the human rights impacts of its content management policies to address misinformation and disinformation across its platforms. We are supporting this resolution. |
| | Resolution 17. Report on External Costs of Misinformation and Impact on Diversified Shareholders | For (Exceptional) | We are supporting this resolution as it will help better understand how the company's current practices may impact long-term shareholder value. Increased disclosure would provide shareholders with valuable information on how well the company is assessing and mitigating content-related controversies. |

| | Resolution 18. Report on Steps to Improve Racial and Gender Board Diversity | For (Exceptional) | Shareholders request that Alphabet report annually on its policies and practices to help ensure its elected Board of Directors attains racial and gender representation that is better aligned with the demographics of its customers and/or regions in which it operates. A vote FOR this proposal is warranted as adoption of this proposal would allow shareholders to better assess the effectiveness of the company's efforts towards improving gender and racial representation on the board and management of related risks. |

| | Resolution 19. Establish an Environmental Sustainability Board Committee | For (Exceptional) | We are supporting this proposal because the creation of a committee on environmental sustainability should serve to further strengthen the company's ability to manage risks related to climate change and sustainability issues in general. |
| | Resolution 20. Adopt a Policy to Include Non-Management Employees as Prospective Director Candidates | For (Exceptional) | This shareholder proposal asks the company's board to adopt a policy to include non-management employees as prospective director candidates. We are supporting this resolution because the addition of a non-management employee representative director on the board would enable more robust oversight of issues related to the company's employees and their concerns and is also a step towards further enhancing board diversity. |
| | Resolution 21. Report on Policies Regarding Military and Militarized Policing Agencies | For (Exceptional) | A vote FOR this proposal is warranted as the requested risk assessment of military and militarized policing agency contracts may enhance and complement the company's existing human rights policies, disclosures, and oversight mechanisms. |

| | Resolution 5. Oversee and Report a Racial Equity Audit | For (Exceptional) | <p>The proponent is requesting that Comcast oversee and report on an independent racial equity audit analyzing Comcast's adverse impacts on non-white stakeholders and communities of colour. The proponent would like to see input from civil rights organizations, employees, and customers. The proponent expresses appreciation for the company's commitment to support programs aimed at addressing inequality but says a third-party racial equity audit remains necessary. The memo highlights several situations that the filer believes are examples of where the company is not doing enough to eradicate unfair treatment, including a low percentage of Black executives, an accusation of pay discrimination against minority employees, a lawsuit with a Black TV producer who charged the company with discrimination, and support of politicians who did not vote to certify the 2020 election and who supported policies that make it harder for minorities to vote. We consider support for this proposal is warranted, as it would strengthen the company's commitment towards addressing diversity, equity, and inclusion efforts in its business operations and ventures. In addition, it would allow shareholders to better assess the effectiveness of the company's diversity initiatives and its management of related risks.</p> |

| | Resolution 9. Approve Remuneration Policy of Vice-CEO | For (Exceptional) | We have a number of concerns with the policy: The bonus is not subject to any cap and may reward underperformance. It is impossible to ascertain whether potential severance agreement concluded under his employment contract respects recommended guidelines regarding maximum volume and performance conditions. Discretionary payments can be made (exceptional remuneration set at EUR 110,000). We are typically opposed to such discretionary payments if these are without proper justification by the Company. We are supporting because in practice the remuneration remains limited. |

| | Resolution 10. Elect Gregoire Ferre as Director | For (Exceptional) | Under normal circumstances we would not have supported this director as the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term. Given our lack of concerns regarding the board we are supporting this director's re-election. |

| JTC PLC AGM 31/05/2022 Jersey Channel Islands | Resolution 1. Accept Financial Statements and Statutory Reports | For | |
| | Resolution 2. Approve Remuneration Report | For (Exceptional) | Under normal circumstances, we would not have supported the remuneration report to reflect that no deferral has been applied to the annual bonus awards for the year under review. However, we have exceptionally supported as we note and welcome that for 2021, the Executive Directors elected to cap their respective maximum bonus opportunities to 40% of salary (instead of 100%), to promote a shared alignment with the remuneration framework in place for the wider Group. Deferral would have been applied if the bonus was over a 50% of salary (i.e 50%). Further, it is acknowledged that the incumbent Executive Directors hold substantial shareholdings in the Company so their interests are well aligned with other shareholders and overall pay is positioned conservatively. |

| | Resolution 3. Approve Remuneration Policy | For (Exceptional) | Under normal circumstances, we would not have supported the remuneration policy as bonus deferral only applies when the bonus is over a certain percentage of salary (i.e 50%) and Executive Directors are only required to build up a shareholding of 150% of salary (we typically expect this to be at least 200% of salary). However, we have exceptionally supported as we note and welcome that the incumbent Executive Directors hold substantial shareholdings in the Company so their interests are well aligned with other shareholders. In addition, a post-cessation shareholding requirement is being introduced which will mandate the EDs to maintain specified levels of shareholding for a period of two years post-employment. Further, overall pay is positioned conservatively. For example, for FY21 the Executive Directors elected to cap their respective maximum bonus opportunities to 40% of salary (instead of 100%), to promote a shared alignment with the remuneration framework in place for the wider Group. |

Approve Remuneration Report | For (Exceptional) | Under normal circumstances, we would not be able to support this resolution as the Remuneration Committee has used its discretion in granting a FY2021 bonus to the incoming CFO, which was not fully pro-rated. It is however considered that some level of pro-rating was applied. Further, the need to recruit a new CFO in light of the recent events surrounding the departure of the previous CFO is acknowledged. Elect Zhang Minggui as Director | For (Exceptional) | Under normal circumstances we would have voted against the re-election of this director to reflect our concerns that, in aggregate they have too many board commitments. However, we have exceptionally supported their re-election given they are the CEO of this company. Instead, our default position would be to vote against their election as a non-executive at their other companies. |

| | Resolution 9. Re-elect Angela Seymour-Jackson as Director | For (Exceptional) | Under normal circumstances we would have voted against the re-election of the Chair of the Board and Nomination committee to reflect ongoing concerns over the absence of ethnic diversity on the Board. However, we have exceptionally supported her re-election as we are mindful that although Angela Seymour-Jackson was already a member of the Nomination committee, she has only just become Chair of that committee and the Board. Further, the Company has committed to appointing a person of colour in line with the Parker Review and the roadmap to achieve compliance will be considered by the Committee in connection with its succession planning and in particular in the context of vacancies on the Board that arise before the end of 2024. The Board intends to have made this appointment by the end of 2024. We will be asking the Company to move more quickly on the issue. Another mitigating factor for support is that the company has established a Shadow Executive Board which works directly with the Executive Board to scrutinise their agenda and offer a different viewpoint from a more diverse group of people, with the aim of influencing the strategic direction of the business. The Shadow Board covers different regions, ethnicities, ages, gender, LGBTQ+ and tenure within PageGroup and will rotate every 12 months. Finally, our support is in recognition that we have no other concerns about diversity. Women represent 50% of the Board and in fact, the AR&As state that Angela Seymour-Jackson's |

| | Resolution 3.2. Reappoint PricewaterhouseCoopers Inc as Auditors with Gino Fraser as the Designated Registered Audit Partner | For (Exceptional) | Under normal circumstances we would be unable to support as the company has retained the same audit firm since 1962 (i.e. in excess of twenty years). However, the company has committed to rotate their auditor in the next years, and PwC will remain as a joint auditor until the finalisation of the 2025 financial year. We will therefore support this year but we will keep under review. |

| | Resolution 4. Require Independent Board Chair | For (Exceptional) | Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director. |

However, we are exceptionally supporting because the Company has stated that it has begun a process to appoint an additional independent NED by summer of 2022. |

A vote FOR this proposal is warranted. This shareholder proposal includes a 15 percent ownership threshold which we view as a more reasonable threshold than the 25 percent threshold proposed by management. This proposal would also represent an enhancement to shareholder rights, as shareholders do not currently have the right to call special meetings. |

| | Resolution 4. Reduce Ownership Threshold for Shareholders to Call Special Meeting | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted as it would further enhance the existing shareholder right to call special meetings. |
| | Resolution 5. Report on Efforts to Reduce Plastic Use | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted, as shareholders would benefit from additional information on how the company intends to reduce plastic in its business. |
| | Resolution 6. Report on Public Health Costs of Antibiotic Use and Impact on Diversified Shareholders | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted for the following reasons: - Additional disclosure would benefit shareholders by increasing transparency regarding the company's efforts to address the risks related the use of antibiotics; and - Disclosure of the requested information would serve to provide greater assurance to shareholders that the firm's initiatives and practices sufficiently guard against potential financial, litigation and operational risks to the firm. |
| | Resolution 7. Report on Use of Gestation Stalls in Pork Supply Chain | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this resolution is warranted shareholders may benefit from additional information from the company on its policies and practices relating to animal welfare in its direct operations as well as in its supply chain. |

| | Resolution 8. Report on Third-Party Civil Rights Audit | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this resolution is warranted, as an independent civil rights audit would help shareholders better assess the effectiveness of McDonald's efforts to address the issue of any inequality in its workforce and its management of related risks. |

| | Resolution 4. Adopt Fossil Fuel Lending and Underwriting Policy Consistent with IEA's Net Zero 2050 Scenario | For (Exceptional) | The proponent is requesting that Morgan Stanley adopt a policy to cease financing new fossil fuel supplies. It believes that the company is not doing enough to meet its net zero commitments and believes the company is increasing its regulatory, reputation, and litigation risks by not committing to end financing of new fossil fuel projects. The company has committed to the Paris Agreement, has committed to achieve carbon-neutrality in its operations by the end of 2022, has set emissions reductions goals for some priority industries in its portfolio and has committed to financing \$750 billion by 2030 to accelerate the transition to a low-carbon economy. It is a member of PCAF and NZBA and reports its climate-related governance, strategy, risk management, and metrics and targets according to the TCFD framework. The company has put restrictions on financing to new coal-fired power generation, where the use of proceeds would be directed toward mountaintop removal mining, to new thermal coal mine development, and to direct financing of new oil and gas exploration and development in the Arctic, including the Arctic National Wildlife Refuge (ANWR). However, the proponent points out that other banks have successfully adopted policies ensuring their lending and financing does not contribute to new fossil fuel development. As such, support for this proposal is warranted, as it should serve to enhance the company's current commitments to net zero activities and help ensure stronger alignment between the company's net |

Approve Remuneration Report | For (Exceptional) | Under normal circumstances, we would not be able to support this resolution as new CFO Mark George will be joining the Company from The Gym Group plc where he has been CFO since 2018. It is highlighted that his salary upon joining the Board of Wickes as CFO will be GBP 375,000 which is higher than Julie Wirth's salary by 7.1%. While the resultant salary is higher than median level, it does not raise significant concern given the company's size and index. Any further salary increases will be kept under strict review. |

Approve Remuneration Policy of Corporate Officers | For (Exceptional) | Under normal circumstances, we would have voted against this remuneration-related resolution as severance arrangements are equal to 21 months fixed pay plus variable compensation. We believe that severance payments should be no greater than 2 times base salary. However, as French companies used to have separate proposals to approve the severance package, and as there are no other concerns identified and no severance was paid during the year, we have exceptionally supported. |

| | Resolution 6. Commission Third Party Report Assessing Company's Human Rights Due Diligence Process | For (Exceptional) | This shareholder resolution asks Amazon to disclose a third-party report on the company's customer due diligence sales of mass surveillance and AI/ML technologies to government agencies that may contribute to human rights violations. Whilst we acknowledge the moratorium on Rekognition for criminal investigations, and Amazon's acceptable use policy, we believe greater transparency on human rights-related risks would be in the best interest of shareholders. We have engaged on this topic with the company. Similar proposals received high level of support last year (around 35%) and this is an important issue, especially as Amazon still sells their technologies to law enforcement agencies. |
| | Resolution 7. Adopt a Policy to Include Non-Management Employees as Prospective Director Candidates | For (Exceptional) | This shareholder proposal asks the company's board to adopt a policy to include non-management employees as prospective director candidates. Given the significant controversies related to employees treatment and health and safety concerns, we are supporting this resolution. The board has been unable to demonstrate how it fulfils its fiduciary duty on overseeing this risk. Adopting a policy to include non-management employees on the board could help the company resolve worker grievances and address shareholder concerns. |

| | Resolution 8. Report on Efforts to Reduce Plastic Use | For (Exceptional) | Plastic use has been a key engagement topic with Amazon. We have not received sufficient reassurance that the company is setting itself absolute targets to reduce its use of virgin plastics and limit its environmental footprint globally. A shareholder has filed a precatory proposal requesting that Amazon issue an annual report on plastic packaging pollution, including an assessment of its efforts to reduce the impacts on the environment. We are therefore supporting this resolution as it is in line with our concerns around plastic waste. |
| | Resolution 9. Report on Worker Health and Safety Disparities | For (Exceptional) | This shareholder resolution is requesting a report on whether Amazon's health and safety practices give rise to any racial and gender disparities in workplace injury rates among its warehouse workers and the impact of any such disparities on the long-term earnings and career advancement potential of female and minority warehouse workers. There have been significant controversies around health and safety within Amazon warehouses. Whilst Amazon is now disclosing key safety performance indicators such as Recordable Incident Rates (RIR) and Lost Time Incident Rates (LTIR), we would benefit from safety data broken down by race, gender, and ethnicity, as requested by the proposal. We are therefore supporting. |

| | Resolution 10. Report on Risks Associated with Use of Concealment Clauses | For (Exceptional) | This shareholder resolution is an assessment of the risks to the company associated with the use of concealment clauses such as non-disclosure agreements and mandatory arbitration agreements. The proponent specifically is looking for information on the risk of using such employee agreements in the context of accusations of harassment and discrimination. We are supporting this resolution as information on the impact that the company's standard arbitration provision has on Amazon's employees may bring information to light that could result in improved recruitment, development and retention. |
| | Resolution 11. Report on Charitable Contributions | Against | <ul style="list-style-type: none"> Proposals do not add any value or strong case not made |
| | Resolution 12. Publish a Tax Transparency Report | For (Exceptional) | This shareholder resolution is requesting that Amazon report its tax payments in accordance with the GRI Tax Standard. We are supporting this resolution as it would enable shareholders to better assess the company's tax practices in non-US markets and its management of risks related to taxation reforms. |

| | | | |
|--|----------------------------------------------------------------------------------------------------|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | Resolution 13. Report on Protecting the Rights of Freedom of Association and Collective Bargaining | For (Exceptional) | This shareholder resolution asks for Amazon to produce a report analysing how Amazon's current human rights policies and practices protect the rightful application of the fundamental rights of freedom of association and collective bargaining as guaranteed by the ILO Declaration on Fundamental Principles and Rights at Work and the UN Universal Declaration of Human Rights. The report should include information on whether, and if so how, input from affected stakeholders was taken into account. We have been engaging with Amazon on freedom of association and collective bargaining for several years, encouraging for the commitment to neutrality. Whilst the company has disclosed a blog post on the topic, we are supporting this resolution to reflect on the importance of Amazon understanding how it is understanding impacts on human rights. |
| | Resolution 14. Report on Lobbying Payments and Policy | For (Exceptional) | We are supporting this resolution because greater transparency would be beneficial. Additional disclosure of the company's state level lobbying, indirect lobbying-related expenditures and board oversight mechanisms would help shareholders better assess the risks and benefits associated with the company's participation in the public policy process. Amazon reports that in 2021, it paid an aggregate amount of approximately \$19.32 million on federal lobbying activities, and \$10.43 million on government relations efforts at the state-level. However, we find Amazon's disclosure is insufficient. It does not break out payments by organisation, or its gross amounts of trade association and 501(c)4 payments. |

| | Resolution 16. Commission a Third Party Audit on Working Conditions | For (Exceptional) | This shareholder proposal asks Amazon to conduct a third-party audit and disclose a report on warehouse working conditions. We are in favour of this resolution because of the concerns that have been raised around warehouse working conditions following several controversies. Amazon is under significant scrutiny for its practices and how it enforces its human rights policies. |
| | Resolution 17. Report on Median Gender/Racial Pay Gap | For (Exceptional) | We are supporting this proposal, as shareholders would benefit from additional information allowing them to better measure the progress of the company's diversity and inclusion initiatives and its management of related risks. |
| | Resolution 19. Commission Third Party Study and Report on Risks Associated with Use of Rekognition | For (Exceptional) | We are supporting this resolution as shareholders would benefit from increased transparency and disclosure on how the company is managing human rights-related risks, especially privacy and civil rights. |

However, we have exceptionally supported their re-election given they are an Executive Director of this company. Instead, our default position would be to vote against their election as a non-executive at their other companies. |

| | Resolution 5. Adopt Medium and Long-Term GHG Emissions Reduction Targets | For (Exceptional) | The company is being asked to address the risks and opportunities presented by the global transition towards a lower emissions energy system by setting emission reduction targets covering the greenhouse gas (GHG) emissions of the company's operations as well as its energy products (Scope 1, 2, and 3). A vote for this proposal is warranted on this occasion for the reasons specified under item 1i. Additional information on efforts to reduce its carbon footprint and align its operations with Paris Agreement goals would allow investors to better understand how Chevron is managing its transition to a low carbon economy and climate change related risks. |

| | Resolution 6. Issue Audited Net-Zero Scenario Analysis Report | For (Exceptional) | <p>The company is being asked to provide an audited report on the financial impacts of a significant reduction in fossil fuel demand, as envisioned in the IEA Net Zero 2050 scenario. In particular, the proposal is asking the company to specifically consider long-term commodity and carbon prices, remaining asset lives, existing and future asset retirement obligations, capital expenditures, and asset valuations. For example, the scenario assumes that no new fossil fuel development is needed and projects an oil price as low as \$35/barrel in 2030 and \$24/barrel in 2050. A vote for this proposal is warranted on this occasion as shareholders would benefit from greater disclosure about Chevron's risk of stranded assets, given its planned spending plan and business strategy and because current reporting lags several peers who have released more transparent climate disclosures in their audited financial statements. Although the company's scenario planning includes several IEA scenarios and displays some of the assumptions of a range of lower carbon emissions scenarios, it is not transparent about its future price assumptions for oil and natural gas, nor does it provide information about how demand and price assumptions such as in the IEA NZE would impact its existing oil and gas assets or on its investments. More broadly, Chevron's business strategy is aligned with the belief that demand for oil and gas will continue to grow, even though the IEA has emphasized that to reach net zero by 2050, demand for hydrocarbons will need to fall</p> |

| | Resolution 7. Oversee and Report on Reliability of Methane Emission Disclosures | For (Exceptional) | The company is being asked to produce a report on its efforts to directly measure methane emissions and assess the degree to which actual methane emissions may differ from estimated and reported emissions. A vote for this resolution is warranted on this occasion in view of the much higher warming potential of leaked methane and the conclusions of independent evaluations that more attention needs to be paid to the accuracy of methane emissions measurement. |

| | Resolution 8. Report on Business with Conflict-Complicit Governments | For (Exceptional) | <p>The company is being asked to report on the feasibility of ceasing business with conflict-complicit governments. Specifically, the proposal requests ?the Board to publish a report six months following the 2022 annual general meeting, omitting proprietary information, and prepared at reasonable cost, evaluating the feasibility of adopting a policy of not doing business with governments that are complicit in genocide and/or crimes against humanity as defined in international law.? A vote for this proposal is warranted on this occasion as whilst the company does publicly disclose information on its policies, processes, and oversight mechanisms related to managing and mitigating human rights related risks in its operations and business activities, current policies and/or disclosure on prior or ongoing due diligence on the risks - moral, legal, financial, reputational, and operational - posed by doing business with governments engaged in genocide and/or crimes against humanity is insufficient. Additional reporting will allow shareholders to better assess Chevron's management of operational and financial risks posed by operating in politically volatile countries where significant human rights abuses are prevalent. It will also help evidence the company's commitment to and respect for the preservation and protection of human rights and minimize exposure to these aforementioned risks.</p> |

| | Resolution 9. Oversee and Report a Racial Equity Audit | For (Exceptional) | The company is being asked to oversee and report on a third-party racial equity audit of the company's policies and practices. The report should clearly identify, and recommend steps to eliminate, business activities that further systemic racism, environmental injustice, threaten civil rights, or present barriers to diversity, equity, and inclusion (DEI). Input from impacted workers, community members, customers, or other relevant stakeholders should inform the audit and report. The report should exclude confidential and proprietary information, as well as information relevant to any pending legal proceeding or threatened proceeding of which Chevron has notice. A vote for this proposal is warranted on this occasion as a racial equity audit would allow shareholders to better evaluate the company's management of potential racial equity or human rights concerns, including from pollution or GHG emissions, that are associated with its operations. This is material in view of growing reputational risks and environmental justice legislation over the impact of climate change/pollution on disadvantaged communities, including communities of colour. |
| | Resolution 10. Reduce Ownership Threshold for Shareholders to Call Special Meeting | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted. Lowering the threshold to call a special meeting and removing the agenda item restrictions would enhance the current shareholder right to call special meetings. |

| Germany | Resolution 3. Approve Discharge of Management Board for Fiscal Year 2021 | For (Exceptional) | Under normal circumstances, we would not be able to support this resolution. This company is held within Aviva Investors flagship Climate Transition Franchise (CTF), which will be a crucial lever in helping us deliver on our commitment to align portfolios to net-zero by 2040. This will be achieved by allocating capital towards companies that are providing solutions to climate change, as well as those that are orientating their business models to maximise resilience in the transition to a warmer, low-carbon future. We expect all companies in the Franchise to set out science-based emission reduction targets (SBT) validated by the Science-Based Targets Initiative (SBTi) as consistent with a 1.5 C pathway. They should also evidence an orderly and structured approach towards assessing and reporting on climate-related risks and opportunities by responding to the CDP's annual Climate Change questionnaire, the most complete source of self-reported corporate environmental data in a standardized and comparable format, that is widely used throughout financial markets. It is however acknowledged that the company has committed to set near-term SBTi targets, as approved by the organisation, and has scored relatively well in the 2021 CDP survey. This will be kept under review. |

| | Resolution 1.11. Elect Director Darren W. Woods | For (Exceptional) | Under normal circumstances we would have voted against this director as well as CEO/Chair of the company as ExxonMobil has not yet had its climate targets validated by the Science-Based Targets Initiative (SBTi) as consistent with a 1.5 C pathway. However, we recognise that the SBTi is currently developing a new methodology for companies in the oil and gas sector to set science-based targets. It is unable to accept commitments or validate targets for companies in the oil and gas or fossil fuels sectors. To this end, we will continue to review progress against the company's transition pathway and any further commitments ahead of the next AGM. |

While the aggregated costs of NEO perquisites are not excessive, they represent a non-performance-based benefit that is not generally available to the broader employee population. Such perquisites are not considered to be a best practice and their elimination would be considered a pay program improvement. |

| | Resolution 6. Set GHG Emissions Reduction targets Consistent With Paris Agreement Goal | For (Exceptional) | <p>This company has been designated as one of the ?Systematically Important Carbon Emitters? within Aviva Investors? portfolios due to its contribution towards global ?Scope 3? emissions. We expect all high impact companies to fully demonstrate a strategy, with targets, in line with Paris goals of limiting the global temperature rise to 1.5°C. We note and commend recent steps to evolve and strengthen ExxonMobil?s climate change disclosure and action. In 2021 the company declared a target to be net zero in its operational emissions by 2050 and has set interim emissions intensity targets for its Scope 1 and Scope 2 emissions. The company has also announced plans to spend \$15 billion on GHG emission reduction projects through 2027. Progress notwithstanding, we lack conviction that ExxonMobil?s current targets and strategy are aligned with meeting the goal of limiting global warming to 1.5°C, particularly benchmarked to certain peers. For this reason, support is warranted for this proposal as a signal to the board that stronger independent oversight and board management of climate risks at the company is necessary. Additional information on the company?s efforts to reduce its carbon footprint and align its operations with Paris Agreement goals would allow investors to better understand how the company is managing its transition to a low carbon economy and climate change related risks. In terms of key areas to see improvement, we are looking for the company to: - Adopt absolute Scope 3 GHG emissions</p> |

| | Resolution 8. Report on Scenario Analysis Consistent with International Energy Agency's Net Zero by 2050 | For (Exceptional) | <p>The company is being asked to provide an audited report on the financial impacts of a significant reduction in fossil fuel demand, as envisioned in the IEA Net Zero 2050 scenario. In particular, the proposal is asking the company to specifically consider long-term commodity and carbon prices, remaining asset lives, existing and future asset retirement obligations, capital expenditures, and asset valuations. For example, the scenario assumes that no new fossil fuel development is needed and projects an oil price as low as \$35/barrel in 2030 and \$24/barrel in 2050. A vote for this proposal is warranted on this occasion as shareholders would benefit from greater disclosure about Exxon's risk of stranded assets, given its planned spending plan and business strategy and because current reporting lags several peers who have released more transparent climate disclosures in their audited financial statements. Although the company's scenario planning includes several IEA scenarios and displays some of the assumptions of a range of lower carbon emissions scenarios, it is not transparent about its future price assumptions for oil and natural gas, nor does it provide information about how demand and price assumptions such as in the IEA NZE would impact its existing oil and gas assets or on its investments. The company has also not set long-term targets related to emissions of its sold products. More broadly, Exxon's business strategy is aligned with the belief that demand for oil and gas will continue to grow, even though the IEA has</p> |

| | Resolution 9. Report on Reducing Plastic Pollution | For (Exceptional) | <p>The company is being asked to report on how it could shift its plastic resin business model from virgin to recycled polymer production to reduce risks of stranding virgin polymer production assets as regulations and changes in customer sentiment move away from single-use plastics. In particular, issue an audited report addressing whether and how a significant reduction in virgin plastic demand, as set forth in Breaking the Plastic Wave's System Change Scenario to reduce ocean plastic pollution, would affect the company's financial position and assumptions underlying its financial statements. The report should be at reasonable cost and omit proprietary information. A vote for this proposal is warranted on this occasion. Whilst ExxonMobil is researching advanced recycling technologies and plastic materials that could result in more recyclable products and has funded organizations that are dedicated to increasing recycled waste, it does not yet provide quantifiable metrics to contribute to a goal of increasing re-usability, recyclability or rate of plastics recovery. This is important data in view of the increased regulatory oversight and potential costs related to plastic, as well as reputational risks for the company in not having a more comprehensive corporate strategy for transitioning away from virgin polymer production. For this reason, additional disclosure on metrics and targets related to the ability of the company to transition from virgin polymer production would allow shareholders to better assess the company's management</p> |

| | Resolution 10. Report on Political Contributions and Expenditures | For (Exceptional) | A vote for this resolution is warranted as additional disclosure concerning ExxonMobil's policies and memberships in trade associations and other political organizations would help shareholders assess the company's comprehensive political contribution activities and the company's management of associated risks and benefits. |

| | Resolution 4. Require Independent Board Chair | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director. Moreover, there are ongoing concerns regarding the company's compensation practices and the board's responsiveness to shareholder concerns, which suggests that shareholders would benefit from the most robust form of independent oversight in the form of an independent board chair. |

| | Resolution 4. Approve Recapitalization Plan for all Stock to Have One-vote per Share | For (Exceptional) | We are supportive of the principle of one-share-one vote. Providing equal voting rights would represent an improvement in shareholders' rights and raise board accountability. We are therefore supportive of this proposal. |

| | Resolution 5. Require Independent Board Chair | For (Exceptional) | Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders We co-filed this resolution as given CEO Mark Zuckerberg's controlling stake, the board (even with a lead director who we don't consider as independent) has only limited ability to check Zuckerberg's power. As such, we believe this leadership structure weakens the company's governance and oversight of management. Selecting an independent chair would free the CEO to focus on managing the company and enable the chairperson to focus on oversight and strategic guidance. Also, we consider that the lack of an independent board Chair and oversight has contributed to a pattern of governance failings, including Facebook missing or mishandling a myriad of severe controversies, increasing risk exposure and costs to shareholders. This proposal has received significant support from independent shareholders over the last three years. |

| | Resolution 6. Report on Risks Associated with Use of Concealment Clauses | For (Exceptional) | Support for this proposal is warranted because more information on the impact that the company's use of concealment clauses has on its employees may bring information to light that could result in improved employee recruitment, development and retention. The company states that it does not require its employees to enter into employment agreements that include non-disparagement clauses that would prevent them from discussing unlawful workplace conduct. However, as argued by the proponent, while Meta ceased requiring employees to use arbitration in sexual harassment claims, it may still be requiring it for race discrimination cases and other harassment cases that are not sexual in nature. Furthermore, the company has not stated that it does not use non[1]disclosure agreements. |

| | Resolution 7. Report on External Costs of Misinformation and Impact on Diversified Shareholders | For (Exceptional) | <p>The proponent asserts that the company prioritizes financial returns over societal costs, such as mental health, violence around the globe, climate change, vaccine utility, and social stability, among other systemic issues. The proponent cites the company's unparalleled reach of over 3.5 billion regular users, which not only provides extremely remunerative business opportunities, but also enormous responsibility and potential for serious harm, including genocide, criminal enterprise, false content, and undermining civil society. The proponent also provides examples of how the company is failing to address harmful content, including misinformation and criminality, in order to preserve user engagement. Whilst Meta states that the requested report is overly broad in scope, we consider that support for this proposal is warranted, as the increased disclosure would provide shareholders with valuable information on how well the company is assessing and mitigating content-related controversies on its platform, especially given the ongoing negative media attention and controversy regarding misinformation and other issues on its platforms.</p> |
|--|-------------------------------------------------------------------------------------------------|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|--|--------------------------------------------------------------------------|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | Resolution 8. Report on Community Standards Enforcement | For (Exceptional) | The proponent is requesting a report analyzing why the enforcement of 'Community Standards' as described in the 'Transparency Center' has proven ineffective at controlling the dissemination of user content that contains or promotes hate speech, disinformation, or content that incites violence and/or harm to public health or personal safety. Though the company provides disclosures around community standards and enforcement, the company is also involved in ongoing negative media attention and controversy regarding misinformation, harmful content, and other issues on its platforms. According to internal research, the company concedes that its platforms harm some of its consumer segments. As such, support for this proposal is warranted, as shareholders would benefit from increased transparency and disclosure on how the company is managing material risks related to misinformation and harmful content. |
| | Resolution 9. Report on User Risk and Advisory Vote on Metaverse Project | For (Exceptional) | This shareholder resolution is requesting that Meta discloses an independent report on and advisory vote on the Metaverse. Specifically, the third-party assessment would examine potential psychological and civil and human rights harms to users that may be caused by the use and abuse of the platform, as well as whether harms can be mitigated or avoided, or are unavoidable risks inherent in the technology. We are supporting this resolution as we have concerns around Meta's track record on human rights risks management. We would therefore benefit from a due diligence process on Metaverse, which carries important societal implications. |

| | Resolution 10. Publish Third Party Human Rights Impact Assessment | For (Exceptional) | Meta reports that it will be undertaking a "salient risk assessment" to ensure the company identifies its biggest risks, including those related to human rights. While this appears to be a positive step towards formalizing its due diligence approach, the company may benefit from an impact assessment specifically focused on its targeted advertising. Facebook has received substantial media backlash over the use of its targeted advertising to discriminate against marginalized groups. Although the company has recently tightened its restrictions for targeting options, it still appears to be facing scrutiny on the topic. It has faced a number of legal risks due to lawsuits from the ACLU, HUD, FTC, and others. Given the large amount of company revenue that comes from advertisements, a third-party human rights impact assessment on the company's policies and practices related to targeted advertising could help shareholders assess Meta's management of human rights related risks. Therefore, shareholder support for this proposal is warranted. |
| | Resolution 11. Report on Child Sexual Exploitation Online | For (Exceptional) | Support for this proposal is warranted, as additional information on risks related to potential sexual exploitation of children through the company's platforms would give shareholders more information on how well the company is managing related risks. |
| | Resolution 12. Commission a Workplace Non-Discrimination Audit | Against | <ul style="list-style-type: none"> Proposals do not add any value or strong case not made |

| | | | |
|--|----------------------------------------------------------------------------|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | Resolution 13. Report on Lobbying Payments and Policy | For (Exceptional) | Support for this resolution is warranted, as additional reporting on the company's direct and indirect lobbying practices, policies, and expenditures would benefit shareholders in assessing its management of related risks. |
| | Resolution 14. Commission Assessment of Audit and Risk Oversight Committee | For (Exceptional) | Support for this proposal is warranted, because an assessment of the Audit & Risk Oversight Committee's effectiveness in content management oversight could help provide shareholders with valuable information on how well the company is managing civil and human rights-related controversies. |
| | Resolution 15. Report on Charitable Contributions | For (Exceptional) | Support for this proposal is warranted because the company provides no information regarding its policies nor the recipients of its charitable contributions. |

| | Resolution 10. Re-elect Jeremy Wilson as Director | For (Exceptional) | Under normal circumstances we would have voted against the longest serving nomination committee member to reflect our concerns over the lack of women on the Board. However, we have exceptionally supported their re-election in recognition that women previously represented 33% of the Board but recent board changes have meant that this number has recently fallen below 33%. The company states that following the resignation of Dorothy Thompson from the Board on 31 December 2021, the Board is no longer composed of at least 33% women. However it is pleased that, following [Phuthuma Nhleko] appointment, the Board has increased its diversity of nationalities and is more representative of our assets' geographic footprint. The Committee will continue to review the diversity of skills and experience at the Board and the need for gender diversity remains a priority. |

| BIOMARIN PHARMACEUTICAL INC. AGM 24/05/2022 United States | Resolution 1.1. Elect Director Mark J. Alles | For (Exceptional) | Under normal circumstances we would not have supported this director as we are concerned with the number of board positions they hold and we would question their ability to devote sufficient time to the role. However, we are mindful that this exceeds our guidelines by only one and we do not have further concerns regarding this director. We are supporting the re-election but we will however be keeping this under review. |

The company provided the following rationale justifying this transaction: the company being the leading financier in France of the agro and agri sectors, has decided to make use of the specific expertise, skills and know-how of the FNSEA, France's leading agricultural union. We have exceptionally supported as the rationale and details surrounding this transaction are limited. |

| | Resolution 29. Authorize Board to Set Issue Price for 10 Percent Per Year of Issued Capital Pursuant to Issue Authority without Preemptive Rights | For (Exceptional) | Under normal circumstances we would have voted against as the issue price has a maximum discount of 50%, being more than the generally accepted level of 10 %. However, we have exceptionally supported as there are limited circumstances under which this discount could be used. The company specifies that Item 29 would be used in case of issuance of ordinary shares in connection with the redemption of contingent capital instruments (CoCos) and that said issuance of ordinary shares will not entail a reduction of the voting rights in the company held by SAS Rue La Boétie to less than 50 percent plus one vote. Item 29 could exclusively be used in the scope of Items 25 and 26, which limits the consequent dilution to 10 percent in total. Financial institutions are required by law to maintain a sufficient level of tier 1 capital to enable loss absorption in the context of ongoing operations. CoCos are additional Tier 1 instruments intended for loss absorption. This type of instrument is used to enable business continuity of financial institutions in a weakened context by the automatic conversion into equity in cases where the Tier 1 capital ratio falls below a certain threshold. This conversion mechanism allows for a transformation of debt instruments into equity, thereby reinforcing the bank's capacity to reach the regulatory ratio without having reference to the market. As any similar conversion would take place in a context of losses, a significant discount is to be expected compared to the market price at issuance of CoCos. The proposed |

| | Resolution 10. Re-elect Tertius Zongo as Director | For (Exceptional) | Under normal circumstances we would have voted against the nomination committee Chair to reflect our concerns over the lack of women on the Board. However, we have exceptionally supported their re-election in recognition that women previously represented 33% of the Board but recent board changes have meant that this number has fallen below 33%. The company notes that this will be a key area of attention for the board; hence, board composition will be kept under review ahead of the next AGM. |

Reappoint BDO LLP as Auditors | For (Exceptional) | Under normal circumstances we would be unable to support due to the level of non-audit fees, which equates to 68.2% of audit fees paid. These fees will be assumed as one-off in nature. Future non-audit fees will be kept under review. |

| 24/05/2022 United Kingdom | Resolution 2. Approve Remuneration Report | For | |
| | Resolution 3. Approve Remuneration Policy | For (Exceptional) | Under normal circumstances, we would not be able to support this resolution as the bonus opportunity has been increased from 125% to 150% of salary. Further, the deferral only applies when the bonus is over a certain percentage of salary, which we do not view as sufficient. Lastly, the policy provides for flexibility to make potentially additional sign on payments on recruitment with no limits. Mitigating factors are that the overall bonus opportunity does not stand out for the company, given its size, and there is an improvement in the bonus deferral provision, which was previously non-existent. Other improvements have been made to the policy, and some pre-existing policy provisions are reiterated, such as the low vesting opportunity at threshold for the LTIP (10% of maximum, equivalent to 17.5% of salary). |

However, the company has made a commitment to rotate the auditors in the next 2 years, so that a new auditor is in place by the 2024 audit. |

| | Resolution 21. Request Shell to Set and Publish Targets for Greenhouse Gas (GHG) Emissions | For (Exceptional) | <p>A vote For this resolution is warranted given the rationale we have provided under Item 20 in respect of why we have voted Against Shell's own resolution. We note and commend recent steps to evolve and strengthen Shell's climate change disclosure and action, as noted in its ESG Update released on 10 May 2022. The company has responded to feedback and quantified the decarbonisation levers for scope 1 and 2 emissions reduction from now until 2030. We also acknowledge increased activity in renewable electricity, biofuels and hydrogen production through acquisitions and partnerships. However, we lack conviction at this point in time that current disclosure of targets and emissions meet the goal of limiting global warming to 1.5 degrees, particularly benchmarked to certain peers. In terms of key areas of improvement to add credibility to its 2050 net-zero strategy, we are looking for Shell to: ? Firstly, present a clear target to reduce absolute emissions in scope 3 emissions from FY22-30. ? Secondly, set out a clearer road map on how it plans to directly reduce absolute emissions outside of divestment and the use of nascent technologies to achieve its 2050 net zero goal. We seek more detail on how targeted change will be delivered particularly post 2030. ? Thirdly, provide sufficient reassurance that any form of divestment will be conducted responsibly and contribute to a real-economy reduction in emissions or fossil fuel production. ? Fourthly, strengthen Paris-alignment of capital allocation to evidence consistency with ?net zero?</p> |

| | Resolution 3. Re-elect Susan van der Merwe as Director | For (Exceptional) | In normal circumstances we would be unable to support as this individual is a nomination committee member and we have concerns over the lack of women on the Board and in senior leadership positions. However as she is one of the females on the board, it would be counter-productive to vote against her re-election. We note that the female participation of 31%, albeit lower than desired, is relatively close to the threshold. This will be kept under close review going ahead, when a stricter stance may be applied if no change. |

| | Resolution 2. Authorize Issuance of Convertible Bonds (OCA) without Preemptive Rights Reserved for Winance | For (Exceptional) | Under normal circumstances, we would not be able to support this resolution, as it entails a highly impactful transaction. The company is proposing the implementation of a new financing line with Winance of a maximum of 15 financing tranches of ?2 million each, i.e. up to ?30 million. 3,210,000,000 shares with a par value of 0.01 euro for the conversion of the OCAs and 1,200,000,000 ordinary shares with a par value of 0.01 euro for the conversion of the warrants, which represents an increase of 6492%. Despite the extremely dilutive impact of this operation, the issuance appears necessary to finance the continuity of the company (as confirmed by the going concern observation in the report of the auditors for the financial statements 2021). |
