| | Resolution 7. Reelect Annette Winkler as Director | For (Exceptional) | Under normal circumstances we would not have supported this director as the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term. Given our lack of concerns regarding the board we are supporting this director's re-election. |

| | Resolution 4. Require Independent Board Chair | For (Exceptional) | <p>This item is not contentious and is in the best interest of shareholders. Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.</p> |

| | Resolution 5. Report on Global Public Policy and Political Influence | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this resolution is warranted, as increased global transparency and disclosure around the company's memberships in political organizations and lobbying expenditures, as well as the firm's management- and board-level oversight of spending would help shareholders evaluate the company's management of related risks and benefits more comprehensively. |

| | Resolution 6. Report on Public Health Costs of Food and Beverages Products | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted for the following reasons: - Additional disclosure would benefit shareholders by increasing transparency regarding the company's management of external public health costs; and - Disclosure of the requested information would serve to provide greater assurance to shareholders that the firm's initiatives and practices sufficiently guard against potential financial, litigation, and operational risks to the firm. |

| | Resolution 32. Approve Shareholder Requisition Resolution | For (Exceptional) | Support for this shareholder proposal is warranted, as it should serve to enhance the company's current commitments to net zero activities and help ensure stronger alignment between the company's net zero goals and its policies and actions. In addition, the requested progress report would also provide shareholders with a better understanding of the company's management and oversight of related risks. As noted under resolution 31, we are not supportive of / comfortable with the company's own net zero pathway. Indeed, this shareholder resolution reflects our concerns as it requests that Standard Chartered: Set, disclose (including reporting annually on progress) and implement a strategy to manage its Fossil Fuel exposure in accordance with a scenario in which global emissions reach net zero by 2050, including: a. A commitment to no longer provide Financing where proceeds would be used for new or expanded Fossil Fuel projects; and b. Short-, medium-, and long-term targets to reduce fossil fuel exposure consistent with the goal of net zero by 2050, avoiding overreliance on negative emissions technologies. |

Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director. |

It is expected to see this ratio improve, and as such, this will be kept under close review going forward. |

When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. As such, a vote FOR this proposal is warranted. |

Lowering the ownership threshold from 15 percent to 10 percent would improve shareholders' ability to use the special meeting right and no single shareholder would be able to act unilaterally to call a special meeting at the proposed threshold. |
| | Resolution 5. Require Independent Board Chair | For (Exceptional) | Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chair to be an independent director. |

However, we have exceptionally supported his re-election as it is noted that the percentage of women had been over that threshold at the 2021 AGM (36%) but only recently dropped (to 31%) as a result of a board appointment. Before that, female directors represented the previous two appointments so we are relatively comfortable with the Board's progress on diversity. |

| | Resolution 7. Reelect Gilles Schnepf as Director | For (Exceptional) | Under normal circumstances we would have voted against the re-election of this director to reflect our concerns that the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term. Further, Gilles Schnepf is an independent director with limited tenure (two years). We also have concerns over their aggregate board commitments. However, it is noted that he will not stand for re-election at one of his external mandates, Legrand. |

| | Resolution 8a. Approve the Amendments to the Company's Constitution | For (Exceptional) | Under normal circumstances, we would not support this resolution as the request to amend the company's constitution is potentially broad with no regulatory framework to oversee shareholder proposals. The Board states that Santos regularly engages with its shareholders and wider stakeholder groups on the company's strategy, operations and activities, and performance and through this process, the company receives and takes into account feedback on its strategy, outlook and reporting to shareholders and other stakeholders. While this is acknowledged, we support the objective of giving shareholders more ease in order to requisition a resolution on the company's ballot. |

| | Resolution 8b. Approve Capital Protection | For (Exceptional) | A vote FOR this proposal is considered warranted, as shareholders would benefit from additional information and greater transparency about the impact that climate change might have on the company and its operations, and the actions that the company is taking to mitigate associated risks. |

| | Resolution 8d. Approve Decommissioning | For (Exceptional) | A vote FOR this proposal is warranted, as additional information would allow shareholders and investors to better understand how the company is managing decommissioning obligations and how the company is managing related risks. |

| | Resolution 2. Advisory Vote to Ratify Named Executive Officers' Compensation | For (Exceptional) | Under normal circumstances we would have voted against this resolution to reflect our concern that the CEO: Employee pay ratio is more than 200:1 and is considered excessive. It is however noted that this is the only concern, and the pay ratio has fallen by 5%. Overall, the company's TSR outperformed its GICS peers and the broader S&P 500 Index over one-, three- and five-year periods. Financial performance was mixed, with revenue and EBITDA increasing while net income, EPS and most profitability measures decreased year-over-year. The CEO's total compensation decreased 14.8 percent from \$22.4 million in FY20 to \$19.1 million in FY21, primarily due to a smaller increase in pension benefits value. |

| | Resolution 7. Require Independent Board Chair | For (Exceptional) | Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director. |
| | Resolution 8. Report on Lobbying Payments and Policy | For (Exceptional) | A vote FOR this proposal is warranted, as additional disclosure of the company's direct and indirect lobbying-related expenditures would help shareholders better assess the risks and benefits associated with the company's participation in the public policy process. |
| | Resolution 9. Publish Third-Party Review of Alignment of Company's Lobbying Activities with its Public Statements | For (Exceptional) | A vote FOR this resolution is warranted, as more comprehensive information comparing Eli Lilly's public policy statements and lobbying efforts would benefit shareholders in assessing its management of related risks. |
| | Resolution 10. Report on Board Oversight of Risks Related to Anticompetitive Pricing Strategies | For (Exceptional) | A vote FOR this proposal is warranted as the company faces substantial controversies over anticompetitive practices and the requested proposal may provide shareholders with valuable information and help the company address these risks. |

| | Resolution 8. Report on Net Zero Indicator | For (Exceptional) | Support for this shareholder proposal which management are also supporting, is warranted as the company and its shareholders are likely to benefit from increased transparency regarding alignment with the Paris Agreement through compliance with Net Zero Indicator criteria. Specifically, the proponent is requesting a report on whether Boeing meets the criteria for the first Climate Action 100+ Net-Zero Company Benchmark Indicator, which is whether the company has set a net-zero GHG emissions by 2050 ambition and whether the company intends to revise its policies to be in alignment with the Paris Agreement. Boeing asserts that it has engaged with industry associations to make progress on scope 3 use of product emissions. However, the company itself has not set a scope 3 net zero ambition and has also not set long-term GHG emissions reduction targets. |

| | Resolution 9. Amend Articles Re: Climate Change Strategy and Disclosures | For (Exceptional) | The proponents are requesting that Credit Suisse Group AG adopt an additional article within its articles of association to improve the company's reporting on climate risks, such as disclosure of additional information on the strategy set to align the financing activities with the Paris agreement as well as the reduction of exposure to coal, oil, and gas assets. Support for this proposal is warranted as shareholders would benefit from additional disclosure with respect to the company's strategy set to align the financing activities with the Paris agreement as well as the reduction of exposure to coal, oil, and gas assets. This additional disclosure will allow shareholders to better assess the company's management of climate-related risk and should serve to further align the company's disclosures with its stated policies and commitments. We note that Credit Suisse recently published a new energy target and new disclosures in its TCFD report. However, the metric used by Credit Suisse to model its lending activities underplays transition risk and financial support to fossil fuel companies, as it is based on drawn amounts. Credit Suisse's disclosures and targets also do not include capital markets activities, despite these representing ~77% of its financing to top oil and gas expanders between 2016 & 2021. The bank does not currently have plans to expand the scope of its targets and disclosures as opposed to some of its peers (e.g. HSBC). Also there are concerns as to how it assesses clients transition plans. This includes providing further information on how it |

| | Resolution 4k. Re-elect Mark Tucker as Director | For (Exceptional) | Under normal circumstances we would have voted against the nomination committee Chair and Chair of the Board to reflect our concerns over the lack of women on the Board. However, we have exceptionally supported his re-election in recognition that women previously represented 33% of the Board but recent board changes have meant that this number has fallen below 33%. Further, the company announced on 20 Apr 2022 that Doctor Geraldine Buckingham will join the Board with effect from 1 May 2022. |

Elect Dame Courtice to the Supervisory Board | For (Exceptional) | Under normal circumstance we would not be able to support this resolution as the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term. In addition, we note that is Courtice is an ESG expert being the Founder and Director of the University of Cambridge Institute for Sustainability Leadership and would therefore be an asset to the board in helping to achieve their decarbonization strategy. |

| OWENS & MINOR INC AGM 29/04/2022 United States | Resolution 1.1. Elect Director Mark A. Beck | For (Exceptional) | In normal circumstances we would be unable to support as women represent less than 20% of the board (14%). However, it is noted that the threshold only recently fell from 25% in the last AGM. Given that this is a smaller company, some latitude is considered warranted. If this does not change ahead of the next AGM, a stricter stance may be assumed. As the board chair, he is being targeted. |

We question how full-time executives can devote sufficient time to multiple other boards. However, we have exceptionally supported as firstly, this appointment has improved the gender diversity of the Board and secondly, Shenzhen Investment Limited / Shum Yip Group Limited is a shareholder in the Company so there are less concerns over the time the role will take up. |

| | Resolution 2. Approve Remuneration Report | For (Exceptional) | Under normal circumstances we would have voted against this resolution to reflect our concerns that the CEO: Employee pay ratio is more than 100:1 (FY2021: 168:1, FY2020: 30:1; FY2019: 101:1) and is considered excessive. It is however acknowledged that there were not any controversial pay decisions taken during FY2021, nor do pay outcomes appear out of step of performance. Further salary changes will be kept under close review, particularly as CEO salary exceeds median level for FTSE 250 CEOs. |

| | Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights | For (Exceptional) | Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion. |

| | Resolution 26. Amend Article 10 of Bylaws Re: Directors Length of Term | For (Exceptional) | Under normal circumstances, we would have voted against the changes to its Articles as the changes do not include confirmation that double voting rights are prohibited and as we don't want to see the continuation of double voting rights. In March 2014, the Loi Florange (The Florange law) introduced a double voting right for shares registered for at least 2 years (the holding period starting April 2014) as a default standard provision for French companies, but the Florange law may be overridden with a one share one vote system set by the company if a proposal is tabled and approved by two-thirds of shareholders at the AGM. However, we have exceptionally supported as one of the key changes to the Articles is with regards to Director terms which should improve their accountability to shareholders. Specifically, whilst directors can continue to be elected for four years, an exception to this rule (to ensure a progressive renewal of directors) is that a director can be elected or re-elected for one, two or three years. |

The Company states: The Board is fully committed to enhancing its gender balance so that women represent at least 33% of the Board prior to the Company's following AGM in 2023. The Nominations Committee will be actively progressing its Non-Executive Director succession planning to meet this objective, supported by the Board Diversity Policy. |

Re-elect David Abery as Director | For (Exceptional) | <p>Under normal circumstances we would have voted against the re-election of this director to reflect our concerns that the board has insufficient female participation (only 17% of directors are female). As the chair of the nomination committee, he would be held accountable for this concern. Further, the director has attended fewer than 75% of meetings in the year (attended 72%), and this is not accompanied with sufficient explanation. It is however acknowledged that the board recently appointed a new female NED in September 2021, and further, the company's index changed from FTSE Fledgling to FTSE SmallCap under the year under review. This company will be held accountable to the wider FTSE index's standards ahead of the next AGM, when a stricter voting stance will be assumed if no improvement is seen. With regards to attendance, this is the first year wherein attendance has been a concern for this director.</p> |

| | Resolution 5. Re-elect Michael Rawlinson as Director | For (Exceptional) | Under normal circumstances we would have voted against the re-election of this director to reflect our concerns that this NED holds excessive external board mandates (one Chair and 3 NED positions). While we acknowledge the number and / or nature of their other board positions is high, which could raise questions over whether they can contribute fully to their role(s), the overall positions are just within our guidelines and we do not have any further concerns regarding this director. |

| | Resolution 5. Require Independent Board Chair | For (Exceptional) | Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. Support for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director. |

| | Resolution 6. Adopt a Financing Policy Consistent with IEA's Net Zero Emissions by 2050 Scenario | For (Exceptional) | The proponent is requesting that the company adopt a policy by the end of 2022, committing to credible net zero commitments by prohibiting the lending and underwriting of new fossil fuel development. The company has committed to the Paris Agreement and has made a net zero by 2050 commitment. As part of its commitment to the Net-Zero Banking Alliance, it has disclosed initial 2030 targets for the most GHG-intensive sectors within its portfolios ? intensity reduction targets for the oil & gas, power, and auto manufacturing sectors. The company has also banned direct financing of: new upstream Arctic oil exploration or development; new thermal coal mine development or any mountaintop removal mining; and new coal fired power generation, unless fitted with carbon capture and storage technologies However, support for this proposal is warranted, as it should serve to enhance the company's current commitments to net zero activities and help ensure stronger alignment between the company's net zero goals and its policies and actions. Adoption of the resolution would also provide shareholders with a better understanding of the company's management and oversight of related risks. Some of Goldman Sachs' peers appear to be moving more quickly to disclose financed emissions and set emissions reductions targets. Our view is that GS needs to adopt policies that eliminate financing of new fossil fuel exploration and development to ensure the financial industry?s alignment with a 1.5°C scenario. Otherwise, as |

However, we are mindful that in this case the overall count exceeds our limit by only one position, and this director serves as non-executive chair of at least one of the boards they sit on. Given our lack of further concerns regarding this director we are supporting the re-election. |

| | Resolution 6. Approve Remuneration Report | For (Exceptional) | Under normal circumstances we would have not supported the remuneration report as no part of the annual bonus is deferred and maximum bonuses were awarded for the year under review. Further, bonus opportunity is being increased (from 120% to 150% of salary for the CEO). However, we have exceptionally supported as management is required to apply 30% of annual bonus (after statutory deductions) for the purchase of shares in the Group until his/her shareholding is equivalent to at least 200% of basic salary. This is not currently required as management are currently in significant excess of the required position with the CEO currently holding almost 5x salary and the CFO holding c.3.5x salary, so their interests are already well aligned with shareholders. Nevertheless, we have informed the company that as part of the next policy review in 2023, we would like to see deferral formally introduced into the annual bonus, or rather that some of any bonus is deferred. This will further align management interests with shareholders. If this isn't done, then it is unlikely we will be able to support the new policy. |

| 28/04/2022 United Kingdom | Resolution 2. Approve Remuneration Report | For (Exceptional) | <p>Under normal circumstances we would have voted against the remuneration report to reflect concerns that each of the Directors again received £10,000 as an additional discretionary payment on top of their standard fees in relation to work incurred in connection with the share placings in February and November 2021. Additional discretionary payments to non-executives may potentially impair the independent judgement on non-executives particularly if the payments become more regular. However, we have exceptionally supported the remuneration report as neither their base fees or the additional fees are considered excessive, especially for an investment trust of this size and nature. In addition, there is merit in the explanation provided by the company, in that the Board takes the view that making discretionary payments to Directors for the extra work involved when equity raisings are required is better for shareholders than a permanent increase in the level of Directors' base fees. Nevertheless we will be engaging with the company on this issue, as firstly, we note that with effect from 1 January 2021, the basic fee for NEDs increased by £5,000 per annum (i.e more competitive fees goes against the reasoning provided for the one-off fees) and secondly, the company's explanation doesn't address the point about the independence of directors potentially becoming impaired by ad-hoc fees.</p> |

However, we have exceptionally supported their re-election given they are the Executive Director of this company. Instead, our default position would be to vote against their election as a non-executive at their other companies. |

| | Resolution 7. Oversee and Report a Racial Equity Audit | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this resolution is warranted, as an independent racial equity audit would help shareholders better assess the effectiveness of Johnson & Johnson's efforts to address the issue of racial inequality for its stakeholders and its management of related risks. |
| | Resolution 8. Report on Government Financial Support and Access to COVID-19 Vaccines and Therapeutics | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted, as reporting on the impact of public funding on the company's pricing and access plans would allow shareholders to better assess the company's management of related risks throughout the expected lifetime of the vaccine. |

| | Resolution 9. Report on Public Health Costs of Limited Sharing of Vaccine Technology | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted as shareholders would benefit from more information about company decisions impacting access to the COVID-19 products and how it is managing related risks. |
| | Resolution 10. Discontinue Global Sales of Baby Powder Containing Talc | Against | <ul style="list-style-type: none"> Proposals do not add any value or strong case not made |
| | Resolution 11. Report on Charitable Contributions | For (Exceptional) | A vote FOR this resolution is warranted, as the company's disclosure on philanthropic contributions could be made in a more streamlined fashion. |
| | Resolution 12. Publish Third-Party Review of Alignment of Company's Lobbying Activities with its Public Statements | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this resolution is warranted, as more comprehensive information comparing Johnson & Johnson's public policy statement on Universal Health Coverage and its political contributions and lobbying efforts would benefit shareholders in assessing its management of related risks. |
| | Resolution 13. Adopt Policy to Include Legal and Compliance Costs in Incentive Compensation Metrics | For (Exceptional) | A vote FOR this proposal is warranted in light of the significant shareholder concerns recently raised regarding the company's exclusion of certain litigation-related costs from the executive compensation program, along with the magnitude of recent litigation expenses and the continued exclusion of a similar expense from the 2021 incentive program. Given that the proposal would provide the board with flexibility to adjust the application of the policy in individual circumstances, with an explanation to shareholders, the request is not viewed as overly prescriptive. |

| | Resolution 14. Consider Pay Disparity Between Executives and Other Employees | For (Exceptional) | A vote FOR this proposal is warranted for the following reasons: - Consideration of pay grades and/or salary ranges of all classification of company employees when setting target amounts for CEO compensation would serve to further eliminate excessive pay disparities; and - Excessive pay disparities could pose risks to long-term shareholder value, and impact employee morale as well as a company's standing in the communities in which it operates. |

| | Resolution 28. Approve Climate Strategy | For (Exceptional) | Under normal circumstances we would not have supported this resolution on the company's climate strategy as the decision to provide a one-off vote on the disclosures prior to publication of the transition plan (and the Company has not committed to providing shareholders with a further opportunity to vote on the climate strategy) reduces the value of the shareholder vote. However, we have exceptionally supported as the Company has committed to publish the transition plan and to publish annual progress. If there are concerns (and no subsequent vote) on the company's progress, voting action will be taken against the relevant directors. In terms of the company's current climate strategy, while the Company does not have SBTi approved targets, it has submitted its 2030 sector emissions reduction estimates to SBTi for validation. The Company states that to support our commitments to the Net Zero Banking Alliance, we will align to the Science Based Targets initiative's (SBTi) definition and account for the wider value chain, including suppliers, for our own operational footprint. The Company's climate ambition includes alignment with the Paris Agreement and short, mid and long-term targets are in place |

| | Resolution 10. Re-elect Caroline Johnstone as Director | For (Exceptional) | Under normal circumstances we would have voted against the re-election of this director to reflect our concerns that she is the nomination committee Chair, who would be held accountable for the lack of women in senior leadership positions. However, this is not a vote against as we are mindful that having a sufficient number of women represented on the Board might be critical for improving gender diversity throughout the organisation. Female participation in senior leadership will be kept under close review. |

| | Resolution 1g. Elect Director Michael D. Hsu | For (Exceptional) | Under normal circumstance we would not be able to support the election of this director as this non-executive director is considered appropriate to reflect our concerns that they are a full-time executive of another Company, yet this isn't the only other Board they sit on. We have concerns about how full-time executives can devote sufficient time to multiple other boards. However, we are mindful that in this case the overall count exceeds our limit by only one position, and this director serves as non-executive chair of at least one of the boards they sit on. Given our lack of further concerns regarding this director we are supporting the re-election. |

| | Resolution 4. Management Advisory Vote on Climate Change | For (Exceptional) | <p>Under normal circumstances, we would have not supported this advisory vote on the company's strategy with regarding to reducing its carbon emissions ? this is because the company hasn't committed to net-zero by 2050. However, we have exceptionally supported as the company has established 2 science-based emission reduction targets for 2030 and expanded its sustainability reporting practices aligning with TCFD recommendations. In particular, it has set locomotive emissions reduction target which addresses 80% of total carbon footprint in 2019 (baseline year) which is approved by the SBTi i.e Reduce Scope 1, 2 and 3 locomotive well-to-wheel GHG emissions by 38.3% per revenue ton-mile by 2030 from a 2019 base year. Nevertheless, we will be encouraging the company to set SBT's across all of its activities and that its transition plan should be focusing on more than just energy efficiency improvement (fuel optimisation) such as electrification, which is what a successful transition would look like. In addition a transition plan should be more than just decarbonisation steps and include a focus on transitioning revenue streams away from fossil fuel (e.g. coal) .</p> |

| 27/04/2022 United Kingdom | Resolution 2. Approve Remuneration Report | For (Exceptional) | Under normal circumstances we would have voted against this resolution as we have concerns over the CEO: Employee pay ratio, and because the base salaries of the CEO and the CFO are proposed to be increased by 11.4% and 8.7% respectively, effective from April 2022. We will support exceptionally at this time, given that pay is not out of line with performance, and the resultant salary levels do not raise significant concern. |

Re-elect Nicola Hodson as Director | For (Exceptional) | Under normal circumstances we would have voted against the re-election of this director, to reflect our concerns that they are a full-time executive of another Company, yet this isn't the only other Board they sit on. We seriously question how full-time executives can devote sufficient time to multiple other boards. It is however taken into consideration that her aggregate positions are at three companies in total, which is not considered excessive. This will be kept under review going forward. |

| | Resolution 3. Approve Remuneration Report | For (Exceptional) | Under normal circumstances we would have voted against the remuneration report as under the LTIP, the achievement of threshold performance (only) results in vesting of 25% of the award potential, and this level of vesting represents approximately 75% of salary (based on grants of 300% of salary). We consider this to be excessive for this level of performance. However, we exceptionally supported as this is really the only issue, actual LTIP targets appear stretching, and there is no disconnect between pay and performance. |

| | Resolution 8. Amend Compensation Clawback Policy | For (Exceptional) | A vote in support of this proposal is warranted on this occasion as the addition of reputational or other financial harm as a recoupment scenario would expand the board's ability to recoup incentive pay and the increased disclosure requirements would also better serve shareholders' informational needs. |
| | Resolution 9. Report on Climate Strategy Consistent with ILO's Just Transition Guidelines | For (Exceptional) | The company is being asked to report on its approach to a just transition in relation to its climate change strategy. A vote in support of this proposal is warranted on this occasion as to demonstrate sufficient ambition or measures to achieve the level of change required for a low-carbon transition in line with a 1.5°C scenario, Marathon Petroleum should take additional steps that would be constructive regarding net-zero transition targets including setting absolute GHG emissions reductions targets, Scope 3 emissions targets and providing more robust disclosure. Shareholders would also benefit from explicit disclosure on the potential social impacts that transitioning to a low carbon economy may have on the company and its operations. Such information would allow shareholders to better assess the company's efforts to manage and mitigate those risks. |

We seriously question how full-time executives can devote sufficient time to multiple other boards. However, we have exceptionally supported her re-election as we are mindful that she is one of only a few independent directors on the Board and one of only two female directors. NB. | | Resolution 6. Adopt Fossil Fuel Lending Policy Consistent with IEA's Net Zero 2050 Scenario | For (Exceptional) | Support for this proposal is warranted, as it should serve to enhance the company's current commitments to net zero activities and help ensure stronger alignment between the company's net zero goals and its policies and actions. Adoption of the resolution would also provide shareholders with a better understanding of the company's management and oversight of related risks. In its opposing statement (page 94), the board states that the proposal is unnecessary due to its current commitments and risk management programs and policies. The company states it has a goal of achieving net zero emissions from its operations, supply chain and financing activities before 2050 and is committed to climate science and the Paris Agreement. The company helped launch the Net-Zero Banking Alliance (NZBA) and has joined the Partnership for Carbon Accounting Financials (PCAF) as a member of the Global Core Team. As part of its commitment to the Net-Zero Banking Alliance, it has committed to disclosing its significant Scope 3 financed emissions and targets to reduce those emissions by October 2022. The company has banned financing of Arctic drilling, direct financing of new coal-fired power plants, and new thermal coal mines. The company is expected to begin disclosing financed emissions no later than 2023 and expected to set 2030 emission reduction targets in 2024. It is also partnering with clients in fossil fuel sectors to help to encourage and influence them to consider their role in the transition to a low-carbon economy. However, according to |

However, we are mindful that this exceeds our guidelines by only one and we do not have further concerns regarding this director. We are supporting the re-election but we will however be keeping this under review. |

| | Resolution 3. Report on Lobbying Payments and Policy | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this resolution is warranted, as additional reporting on the company's lobbying practices and policies, including its trade association memberships and payments, would benefit shareholders in assessing its management of related risks. |
| | Resolution 4. Require Independent Board Chair | For (Exceptional) | Support for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director. Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders |
| | Resolution 5. Report on Congruency of Political Spending with Company Values and Priorities | For (Exceptional) | Support for this proposal is warranted, as more comprehensive information regarding the company's political contribution spending and non-profit organization participation would enable shareholders to have a more comprehensive understanding of how the company oversees and manages risks related to its political partnerships. In particular, there appear to be inconsistencies between the company's stated values (inc. social and environmental welfare) and its political contributions. |

| | Resolution 6. Disclose Climate Action Plan and GHG Emissions Reduction Targets | For (Exceptional) | Support for this proposal is warranted, as additional information on the company's GHG emissions reduction goals aligned with Paris Agreement goals, would allow shareholders to better assess how the company is mitigating climate change related risks. Charter discloses that it has set a goal to be carbon neutral in its operations (Scope 1 and 2 emissions) by 2035, including purchased offsets. The company discloses its 2019, 2020 and 2021 Scope 1, 2 and 3 emissions. The company discusses its efforts and plans to reduce its operational GHG emissions by focusing on electric energy efficiency, purchasing renewable energy, and fleet fuel efficiency and to reduce its Scope 3 emissions through energy efficiency initiatives related to its Set-Top Boxes and its Small Network Equipment. However, the company has not set any short or medium GHG emissions reduction targets. It is not clear how it intends to meet its carbon neutrality goal without resorting to significant amounts of offsetting. This would limit the company's ability to significantly GHG emissions reductions and mitigate climate related regulatory risks. |

| | Resolution 8. Adopt a Financing Policy Consistent with IEA's Net Zero Emissions by 2050 Scenario | For (Exceptional) | The proponent is requesting that Citigroup adopt a policy to cease financing new fossil fuel supplies. It believes that by not committing to end financing of new fossil fuel projects, the company is not doing enough to meet its net zero commitments. The company has committed to the Paris Agreement and has a goal of being net zero by 2050. The company has a \$500 billion environmental finance goal, which is a part of its \$1 trillion commitment to sustainable finance, which includes a focus on the low[1]carbon transition. As part of its commitment to the Net-Zero Banking Alliance, it has committed to disclosing its significant Scope 3 financed emissions and targets to reduce those emissions. It has published a net zero by 2050 plan, including 2030 emissions targets for its Energy and Power loan portfolio. The company has banned financing of Arctic drilling, direct financing of new coal-fired power plants, and new thermal coal mines. However, our support for this resolution is due to our concerns regarding the pace of its phase out of financing new fossil fuel developments. Also the company has not set science based targets. According to the 2022 Banking on Climate Chaos Report, the company has financed over \$285 billion in financing to a group of 2,700 companies active in industries across the fossil fuel life cycle from 2016-2021. The company also financed over \$104 billion to a group of 100 key oil, gas, and coal companies expanding fossil fuels over the same period. This makes the company the second largest fossil fuel funder in |

| | Resolution 4. Report on External Public Health Costs | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted for the following reasons: - Additional disclosure would benefit shareholders by increasing transparency regarding the company's management of external public health costs; and - Disclosure of the requested information would serve to provide greater assurance to its shareholders that the firm's initiatives and practices sufficiently guard against potential financial, litigation, and operational risks to the firm. |
| | Resolution 5. Report on Global Public Policy and Political Influence | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this resolution is warranted, as increased global transparency and disclosure around the company's memberships in political organizations and lobbying expenditures, as well as the firm's management- and board-level oversight of spending would help shareholders evaluate the company's management of related risks and benefits more comprehensively. |

| HUTCHISON PORT HOLDINGS TRUST AGM 26/04/2022 Singapore | Resolution 1. Adopt Trustee's Report, Statement by the Manager, Audited Financial Statements and Auditors' Report | Against | • Gender diversity concerns in leadership positions |
| | Resolution 2. Approve PricewaterhouseCoopers LLP as Auditors and Authorize Directors of Trustee Manager to Fix Their Remuneration | For | |

| | Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights | For (Exceptional) | According to the most recent trust deed made available to the public, the trust has self-imposed restrictions structured in a way similar to what is observed in REITs. Currently, the trust's distribution policy is to distribute 100 percent of its distributable income. Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion. |

| | Resolution 5. Require Independent Board Chair | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director. |
| | Resolution 6. Report on Concealment Clauses | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted because more information would help shareholders understand how the company is assessing and managing the risks of using of concealment clauses, particularly risks pertaining to age discrimination claims that have been pursued through arbitration and the related controversies. |

| 26/04/2022 United Kingdom | Resolution 2. Approve Remuneration Report | For (Exceptional) | Under normal circumstances we would have voted against this resolution to reflect our concerns that the FD has received a second above-inflationary salary increase, as her salary was increased by 10.7% for FY2022, in addition to the 12% salary increase granted to her in FY2021. It is however noted that the resultant salary does not raise significant concern in comparison to the median pay for SmallCap FDs. Further, the company notes that the FD was internally promoted and it was stated that there may be increases to her salary at a rate higher than general awards for employees. This increase brings her in line with internal peers and closer to the market median for organisations of a comparable size and or sector. Any further increases may be scrutinised. |

| | Resolution 8. Re-elect Kenneth Lever as Director | For (Exceptional) | Under normal circumstances we would have voted against the re-election of this director to reflect our concerns that this NED holds 2 Chair and 2 NED positions, including positions at an AIM company and an investment trust. While we acknowledge the number and / or nature of their other board positions is high, which could raise questions over whether they can contribute fully to their role(s), we acknowledge that he stepped down from one board during the year under review and we do not have any further concerns regarding this director. |

We are supporting the re-election but we will however be keeping this under review. |

| | Resolution 1o. Elect Director William H. Rogers, Jr. | For (Exceptional) | Under normal circumstances we would have voted against the re-election of this Director as he serves as combined CEO/Chair, a role we prefer to be split. The Chair's role on a board is to evaluate and review the performance of management; this role is obviously compromised when the Chair is also the CEO. However, we exceptionally supported his re-election as on April 14, 2022, the company filed a Form 8-K disclosing that the board and CEO and Chairman William H. Rogers, Jr. agreed to terminate certain governance provisions that were effective following the merger of equals between BB&T Corporation and SunTrust Banks, Inc. In particular, Rogers waived his right to serve as board chair through the remainder of his employment term and that any resulting change in his title and position will not constitute a basis for Good Reason Termination. Additionally, the board approved a bylaw amendment such that removal of Rogers as board chair will not require the affirmative vote of at least 75 percent of the board. |

| | Resolution 6. Require Independent Board Chair | For (Exceptional) | Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director. While the elimination of the contractually guaranteed chairman role is a positive change to the board leadership structure (see res 1o), we continue to support this shareholder resolution. There is benefit from the strongest form of independent board oversight, which an independent chair could provide. |

Mandatory auditor rotation every 20 years is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. It is however acknowledged that this company will shortly delist, when auditor ratification will no longer be a key concern. |

| | Resolution 5. Adopt Management Pay Clawback Authorization Policy | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR the proposal is warranted, as its adoption would provide shareholders with confirmation of whether the company's clawback policy is being used to hold executives accountable for significant financial or reputational harm caused by misconduct, or failure to properly monitor or oversee risks leading to misconduct. Enhanced transparency regarding the circumstances of recoupment for executive officers would benefit shareholders. |
| | Resolution 6. Report on Incentive-Based Compensation and Risks of Material Losses | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted, as shareholders would benefit from additional disclosure surrounding broad-based incentive compensation programs that could lead to material losses due to excessive risk taking, given that broad-based employee incentive structures played a key role in recent high-profile controversies that caused financial and reputational harm at the company. |

| | Resolution 9. Adopt a Financing Policy Consistent with IEA's Net Zero Emissions by 2050 Scenario | For (Exceptional) | Support for this proposal is warranted, as it should serve to enhance the company's current commitments to net zero activities and help ensure stronger alignment between the company's net zero goals and its policies and actions. Adoption of the resolution would also provide shareholders with a better understanding of the company's management and oversight of related risks. Wells Fargo has taken some positive steps to address climate-related risks and oversight. It has committed to net zero financed emissions by 2050, to commit \$500 billion to sustainable projects by 2030, and to set and disclose interim targets for the oil and gas sectors and the power sector by the end of 2022. It discloses its climate risks and opportunities adequately according to the TCFD framework. However, the bank could take some additional steps that would be constructive regarding climate risk mitigation, including following through on its pledge to disclose its methodology for measuring financed emissions, setting near-term transition targets, and setting targets to reduce financed GHG emissions. Further, a number of Wells Fargo's peers are moving more quickly to disclose financed emissions and set emissions reductions targets. The proponent points out that other banks have successfully adopted policies ensuring their lending and financing does not contribute to new fossil fuel development, however none of the examples that were given are close to a policy that fully prohibits financing that would contribute to new fossil fuel supplies. |
| | Resolution 10. Oversee and Report a Racial Equity Audit | For (Exceptional) | Support for this resolution is warranted, as an independent racial equity audit would help shareholders better assess the effectiveness of Wells Fargo's efforts to address the issue of racial inequality for its stakeholders and its management of related risks. |

Approve Remuneration Report | For (Exceptional) | Under normal circumstances we would have voted against this resolution as remuneration arrangements are too complex, having noted the operation of the Executive Incentive Plan. Further, salaries for both the CEO and Vice Chair has been increased by 3.5% for FY2022 as a result of a benchmarking exercise. The level of increase is however in line with the wider workforce. Further, with regards to the EIP, performance targets for the financial element of the framework are sufficiently stretching, and no concerns have been identified with the overall bonus outcome, for FY2021. Broadly, pay appears to be aligned with the underlying business/financial performance of the Company. |

| | Resolution 6. Re-elect Giacomo Baizini as Director | For (Exceptional) | Under normal circumstances we would have voted against the longest serving nomination committee member to reflects our concerns over the lack of women on the Board. However, we have exceptionally supported their re-election in recognition that women previously represented 33% of the Board but recent board changes have meant that this number has fallen below 33%. New directors were appointed to the board under extraordinary circumstances and under sever time pressure. As such, stringent voting sanctions would not serve best interests at this time. This matter will be kept under close review. |
| | Resolution 7. Elect Janat Berdalina as Director | For (Exceptional) | Under normal circumstances, we would have voted against the election of this director as the background against which these new directors was recruited is a matter of inherent concern. At this time, no affiliations have been observed that would lead to their classification as non-independent. Further, the directors' experience and qualifications are noted. Collectively, they have extensive experience in the sphere of banking and investment; and it would not serve shareholders' interests for the Board to be depleted at this time. |

Baiget to Supervisory Board | For (Exceptional) | Under normal circumstances, we would not support the election of this director, as the proposed term of office for this director is four years. However, we are mindful that the proposed term is just one year over our preferred term. |
| | Resolution 7.b. Elect H. van Bylen to Supervisory Board | For (Exceptional) | Under normal circumstances, we would not support the election of this director, as the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term. We also have concerns over their aggregate board commitments; however, it is noted that his external relative mandates only exceed our guidelines by one point. Further, he has positions on three other companies, one of which is a board chair position. |

| | Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights | For (Exceptional) | Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion. |

| | Resolution 37. Approve Issuance of Super-Subordinated Contingent Convertible Bonds without Preemptive Rights for Private Placements, up to 10 Percent of Issued Capital | For (Exceptional) | Under normal circumstances, we would have voted against the re-election of this director to reflect our concerns that the authority would allow the issuance of shares at a discount of 30% to the market price. This exceeds the market norm for discount level. Further, the authority would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. Support is considered warranted, having noted that this item covers the issuance of super-subordinated convertible bonds in cases of very specific situations (eligible own funds below requirements, solvency capital requirement not respected over a defined period). |

| | Resolution 4. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights | For (Exceptional) | Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion. |

A vote FOR this proposal is warranted given that the request applies only to future severance arrangements, the current agreements will not be affected, the request offers flexibility as to when the board may seek shareholder approval of a new or renewed severance arrangement, such as at the next annual meeting, and it is positive for shareholders to have the ability to vote on severance amounts that exceed market norms. |

| | Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights | For (Exceptional) | Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion. |

We seriously question how full-time executives can devote sufficient time to multiple other boards. In addition, the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term and that Albioma SA has communicated that Mrs. Daveu has resigned from her mandate at the board with effect on July 31st, 2022. |

We believe that severance payments should be no greater than 2 times base salary. However, as French companies used to have separate proposals to approve the severance package, and as there are no other concerns identified and no severance was paid during the year, we have exceptionally supported. |

| 21/04/2022 United Kingdom | Resolution 2. Approve Remuneration Report | For (Exceptional) | Under normal circumstances we would have voted against the re-election of this director to reflect our concerns that EDs' pay package will be bolstered considerably in the ensuing year. This is because EDs' salaries will have increased by 9% for both EDs in FY2022, and an exceptional LTIP grant of 200% of base salary is intended for FY2022. We are however relatively comfortable with the salary increases given the explanations provided particularly that upon appointment, both Executive Director's pay packages were set at the lower end of the market to reflect their experience at the time, and their positive performance since. With regards to the LTIP opportunity, we note that the company has taken feedback onboard to scrap the original proposition of granting restricted stock on a one-off basis, and instead increasing the LTIP opportunity for one year, attached to targets that aim for delivery of a new strategy. Future pay increases will be kept under more stringent review. |

| WOLTERS KLUWER NV AGM 21/04/2022 Netherlands | Resolution 2.c. Approve Remuneration Report | For (Exceptional) | Under normal circumstances we would have voted against the pay report to reflect concerns over quantum. Whilst the company states that the CEO's target remuneration is positioned in line with the median of the pay peer group, in practice and as a result of strong performance, the CEO's annual single figure /total compensation has ranged between EUR 12m and EUR 15m for a number of years (inc EUR 15m for FY21). This can be regarded as excessive relative to peers. However, following the 2020 AGM the company engaged with us and other investors and has made some positive changes which addressed some of our concerns. The company agreed to reduce the amount of the LTIP that vests for both target performance and at maximum, reducing the LTIP opportunity from 427% of salary down to 360% of salary in 2022. This change will take place in two steps (LTIP opportunity at grant being 265% for 2021 and 240% for 2022) and will effectively reduce the CEO's target remuneration by about 10%. As such unless there is even stronger share price performance, we should expect these pay levels to fall in future years. Nevertheless, we will be scrutinising the performance targets against the outcomes, particularly the EPS and ROIC targets which are not disclosed up front. If we have any concerns that pay is not an appropriate reflection of performance, we will revert to voting against the pay report and engaging with the company on such issues. |

| | Resolution 6. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights | For (Exceptional) | Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion. |

Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights | For (Exceptional) | <p>Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.</p> |

| | Resolution 1.3. Elect Director Steven J. Gilbert | For (Exceptional) | Under normal circumstances we would not have supported this director as we are concerned with the number of board positions they hold and we would question their ability to devote sufficient time to the role. However, we are mindful that this exceeds our guidelines by only one and we do not have further concerns regarding this director. We are supporting the re-election but we will however be keeping this under review. |

| | Resolution 19. Approve Climate Change Report | For (Exceptional) | This company has been designated as one of the ?Systematically Important Carbon Emitters? within Aviva Investors? portfolios due to its contribution towards global ?Scope 3? emissions. We expect all high impact companies to fully demonstrate a strategy, with targets, in line with Paris goals of limiting the global temperature rise to 1.5°C. Whilst there are areas for further improvement particularly around increasing the rigor of its ambition around Scope 3 emissions, support is granted for this proposal on this occasion as we note and commend recent steps to evolve and strengthen the company?s climate change disclosure and action. Anglo American is targeting net zero carbon emissions by 2040, an expedited timeline ahead of most peers, with an ambition to reduce its Scope 3 emissions by 50% in the same time period. The company also meets expectations in terms of disclosure and governance surrounding climate change. |

Support is warranted as additional information on the company's plan to reduce its GHG emissions would allow investors to better understand how the company is managing its climate change related risks. Such information would also allow shareholders to express their opinions on the climate risk management practices of the company (and as detailed in resolution 4, there is still much more progress that needs to be made). |

Pay ratios are provided in other markets such as the UK and are useful (particularly now companies have a number of years' worth of data), as part of our broader assessments around executive pay and culture. |

SP 4: Adopt a Policy to Ensure the Bank's Financing is Consistent with IEA's Net Zero Emissions by 2050 Scenario | For (Exceptional) | Support for this proposal is warranted, as it should serve to enhance the company's current commitments to net zero activities and help ensure stronger alignment between the company's net zero goals and its policies and actions. Adoption of the resolution would also provide shareholders with a better understanding of the company's management and oversight of related risks. We welcome BMO's target of net zero emissions by 2050 as well as joining the Partnership for Carbon Accounting Financials and the Net-Zero Banking Alliance (NZBA). BMO has also pledged to mobilize \$300 billion in sustainable finance by 2025. At the same time however, BMO is heavily exposed to fossil fuels. The global Banking on Climate Chaos report ranks BMO 16th in the world for fossil fuel lending since the Paris Agreement at a figure of US\$97 billion, including US\$43 billion into fossil fuel expansion. On the investment side, researchers found that from 2015 to 2020, BMO held between CAD\$13.3 billion and CAD\$24 billion in oil and gas investments and between CAD\$3 and CAD\$4 billion in coal investments. The bank stated, "Our 2021 lending to carbon-related assets was approximately \$8.9 billion, representing 1.9% of our total lending portfolio", down from 3% in 2020 and 3.3% in 2019. In the 2021 Climate Report released in February 2022, BMO added the financed emission footprint and interim targets for 4 priority sectors. They are upstream oil and gas, power generation, personal motor vehicles lending, and residential mortgage lending (building |

We consider this inappropriate as the committee should consist entirely of independent directors. However, we are exceptionally supporting his re-election on this occasion because we don't have any concerns with remuneration and taking into account his intention to retire once his succession is agreed and at least one new Director has been appointed. This will be reviewed at the next AGM. |

| | Resolution 4.8. Reelect Catherine Guillouard as Non-Executive Director | For (Exceptional) | Under normal circumstances we would not have supported this director. We expect all high impact companies to evidence an orderly and structured approach towards assessing and reporting on climate-related risks and opportunities. This includes, and is not limited to, setting out science-based emission reduction targets (SBT) validated by the Science-Based Targets Initiative (SBTi) as consistent with a 1.5 C pathway and to evidence an orderly and structured approach towards assessing and reporting on climate-related risks and opportunities, aligned with the recommendations of the Taskforce on Climate-related Financial Disclosures (TCFD). This director would be held accountable if the company has not demonstrated sufficient action to meet these key measures of climate ambition and risk management at this point in time, given that she is currently one of the longest-tenured director on agenda, as well a member of the ethics, compliance, and sustainability committee. Airbus has only recently expressed a near-term commitment to science-based target setting (under the SBTi framework), and this is reflected on the SBTi website accordingly. Further, the Company has garnered a score of A- for CDP reporting under climate change for 2021. |

| | Resolution 13.2. Resolve Management Board to Develop New Version of Remuneration Policy | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR the proposed resolution is warranted, because: - Current remuneration policy (accounting for the edits proposed under Item 13.1) will include no mid- or long-term incentive plan tailored to the performance of the company or its group. As such, the shareholder proposal is supported by a compelling rationale. - The proposal suggests a reasonable course of actions and acceptable timeframe. - The suggested changes are unlikely to result in significant changes in the structure of the remuneration policy, since it already allows for development of additional mid- and long-term incentive plans. |
