| | Resolution 9.1. Reelect Thomas Thune Andersen (Chair) as Director | For (Exceptional) | Women represent less than 33% of the board. It is however noted that three female employee representatives will be appointed to the board at the upcoming AGM. As such, exceptional support is considered warranted for the board and nomination committee chair. |

| | Resolution 9. Re-elect Sam Laidlaw as Director | For | |
| | Resolution 10. Re-elect Simon McKeon as Director | For (Exceptional) | Under normal circumstances we would have voted against the re-election of this director to reflect that material failures in governance, stewardship, risk oversight and fiduciary responsibility were identified by the Royal Commission into Misconduct in the Banking, Superannuation and Financial Services Industry and through various regulatory and class actions at AMP Ltd. Simon McKeon served as a NED for one year and as Chairman for two years at AMP Limited, the Australian financial services company. However, we have exceptionally supported his re-election as a vote against his re-election is not considered to be in the best interests of the company or shareholders at this present time given that a number of changes have taken place in board composition and leadership since the Juukan Gorge destruction in May 2020. Also, we have no material concerns with his performance at Rio Tinto to date (but will be keeping under close review) and note that he has an important role since 2021 as the designated Non-Executive Director for workforce engagement (overseeing the annual programme of engagements and regularly reports back to the Board on the insights gained, to ensure people's voices are heard and acted upon in the boardroom). |

| | Resolution 17. Approve Climate Action Plan | For (Exceptional) | <p>This company has been designated as one of the ?Systematically Important Carbon Emitters? within Aviva Investors? portfolios due to its contribution towards global ?Scope 3? emissions. We expect all high impact companies to fully demonstrate a strategy, with targets, in line with Paris goals of limiting the global temperature rise to 1.5°C. Qualified support is provided for this proposal on this occasion as we note and commend recent steps to evolve and strengthen the company?s climate change disclosure and action. Rio Tinto?s new 2030 Scope 1 and 2 target, strategy and capital allocation commitments are significant. However, in terms of key areas for further improvement, we are looking for the company to: present an enhanced Scope 3 plan by 2023, ideally with quantifiable targets and timelines; strengthen links to specific, quantifiable emissions reduction targets within the climate component of executive remuneration to incentivise robust climate performance; commit to an annual Say on Climate vote; and significantly enhance its positive advocacy (direct and indirect) for Paris-aligned climate change policy internationally.</p> |

Slate 1 Submitted by Allianz Finance II Luxembourg Sarl | For (Exceptional) | <p>This item warrants a vote FOR because: - Shareholders can support only one slate. - All proposed candidates under both slates possess the professional experience to fulfill their role of statutory auditors. - With only two slates presented, candidates are not competing for the same spots on the board of internal auditors. - The second most voted slate will appoint the Chair of the board of internal auditors. As such supporting this slate will increase the chances that the Chair of the board of internal auditors will be elected from Slate 2, presented by a group of institutional investors through Assogestioni. - Supporting this slate would ensure that all statutory auditors are elected through the slate election mechanism, with no uncertainty on the vote outcome.</p> |

A vote FOR this proposal is warranted as shareholders would benefit from the company's more complete commitment with the goals of being a benefit corporation. They would also benefit from an alignment with the environmental and social goals of the Business Roundtable statement on purpose of a corporation. |
| | Resolution 7. SP 2: Advisory Vote on Environmental Policy | For (Exceptional) | A vote FOR this proposal is warranted. Additional information on the company's plan to reduce its GHG emissions would allow investors to better understand how the company is managing its climate change related risks and it would allow shareholders to express their opinions on the climate risk management practices of the company. |

| | Resolution 9. SP 4: Disclosure of the CEO Compensation to Median Worker Pay Ratio | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this resolution is warranted for the following reasons: - Enhanced disclosures of pay disparities between the executive and regular employees could allow for more informed and contextual assessments by shareholder of whether executive compensation practices are reasonable and fair; and - Excessive pay disparities between the CEO and rank-and-file employees could pose risks to long-term shareholder value, and impact employee morale as well as a company's standing in the communities in which it operates. |

| | Resolution 4.1.a. Reelect Paul Bulcke as Director and Board Chairman | For (Exceptional) | Under normal circumstances we would be unable to support as the Chairman is non independent (due to being a former CEO and having served on the board for a significant amount of time) who ideally should be independent in the interests of maintaining a balanced unitary Board. However, we take some comfort that at least a majority of the Board is independent. In addition, Henri de Castries' role as a lead director role with clear responsibilities with shareholder relations, comforts us in the board's oversight capacity. |

| | Resolution 4.1.c. Reelect Henri de Castries as Director | For (Exceptional) | Under normal circumstances we would be unable to support the re-election of Henri de Castries due to him having served on the board for a significant amount of time. However, we recognise the important role Henri de Castries provides as a lead director and note that he has only just exceeded our guideline of a director serving 9 years on the board, we will continue to monitor this situation closely and expect some changes before the next years AGM. |

Elect Jiraphon Kawswat as Director | For (Exceptional) | Under normal circumstances we would have voted against the re-election of this director to reflect our concerns that, in aggregate they have too many board commitments. However, we have exceptionally supported their re-election given they are the CEO/Executive Director of this company. Instead, our default position would be to vote against their election as a non-executive at their other companies. |

| | Resolution 4. SP 1: Update the Bank's Criteria for Sustainable Finance to Preclude Fossil Fuel Activity and Projects Opposing Indigenous Peoples | For (Exceptional) | Support for this proposal is warranted because none of the guidelines or frameworks RBC is party to require the Bank's sustainable financing? be numerically consistent with its net zero emissions reductions targets, nor do they preclude financing of fossil fuel activity. The use of criteria to preclude fossil fuel activity and projects facing significant opposition from Indigenous Peoples for sustainable finance will further strengthen the company's ability to manage sustainability issues and provide more transparency; and - Given that the company has taken into consideration the Indigenous Peoples on previous projects it financed and advise on, additional deliberation would not be unduly burdensome. |

| | Resolution 5. SP 2: Assess and Mitigate the Human Rights and Reputational Risks Involved in the Financialization of Housing | For (Exceptional) | Support for this proposal is warranted, as additional information regarding policies and processes the company has implemented regarding human rights and reputational risks in its operations would allow shareholders to better gauge how well the bank is managing related risks. Canada's population-adjusted housing stock is the lowest in the G7, which is exacerbated by organisations buying up residential properties. The points raised by the proponent are valid we support the spirit resolution, and the proponents aren't asking too much just for them to develop a human rights due diligence framework which should not be too burdensome. |
| | Resolution 6. SP 3: Avoid Bank Participation in Pollution-Intensive Asset Privatizations | Abstain | • Proposals do not add any value or strong case not made |
| | Resolution 7. SP 4: Examine the Possibility of Becoming a Benefit Company | Against | • Proposals do not add any value or strong case not made |
| | Resolution 8. SP 5: Adopt an Annual Advisory Vote Policy on the Bank's Environmental and Climate Change Action Plan and Objectives | For (Exceptional) | Support for this proposal is warranted. Additional information on the company's plan to reduce its GHG emissions would allow investors to better understand how the company is managing its climate change related risks and it would allow shareholders to express their opinions on the climate risk management practices of the company. |
| | Resolution 9. SP 6: Adopt French as the Official Language of the Bank | Against | • Proposals do not add any value or strong case not made |
| | Resolution 10. SP 7: Produce a Report on Loans Made by the Bank in Support of the Circular Economy | For (Exceptional) | Support for this proposal is warranted as shareholders would benefit from additional information regarding the company's sustainability commitments and management of related risks. |

| | Resolution 11. SP 8: Provide a Report to Shareholders and Publicly Disclose the CEO Compensation to Median Worker Pay Ratio | For (Exceptional) | Support for this resolution is warranted as enhanced disclosures of pay disparities between the executive and regular employees could allow for more informed and contextual assessments by shareholder of whether executive compensation practices are reasonable and fair. Also, excessive pay disparities between the CEO and rank-and-file employees could pose risks to long-term shareholder value, and impact employee morale as well as a company's standing in the communities in which it operates. |

| | Resolution 7. Approve Decrease of Share Capital via Reduction of Nominal Value of Shares; Approve Increase in Share Capital via Issuance of E Series Shares without Preemptive Rights; Approve Dematerialization and Listing of New Shares; Amend Statute Accordingly | For (Exceptional) | Under normal circumstances we would not be able to support this resolution as the company is seeking to issue 373,952,165 ordinary shares, which is a dilution of 20 percent, and shall take place without pre-emptive rights. The dilution level is somewhat mitigated by allowing shareholders who possess over 0.10 percent in the company's share capital to subscribe, whilst those minority shareholders who own less than 0.10 percent of share capital will not be able to participate and upon reduction of nominal value of shares proposed under the same item, they will not receive back their contributions in any form. However, PGE have provided sufficient detail on this specific-purpose issuance, which will finance the planned investments in three areas: intensification of the development of renewable energy sources, decarbonization through the development of low-carbon sources, and development of distribution, we believe that this is a climate positive step taken by the company and warrants shareholder support. |

Belen Romana is currently one of the highest-tenured members of the board and a member of the sustainability committee, and is thus held accountable for the lack of science-based emission reduction targets (SBT) validated by the Science-Based Targets Initiative (SBTi) as consistent with a 1.5 C pathway. This is an expectation of the company, given that it is held within the Aviva Investors flagship Climate Transition Franchise (CTF), which will be a crucial lever in helping us deliver on our commitment to align portfolios to net-zero by 2040. This will be achieved by allocating capital towards companies that are providing solutions to climate change, as well as those that are orientating their business models to maximise resilience in the transition to a warmer, low-carbon future. The bank should also evidence an orderly and structured approach towards assessing and reporting on climate-related risks and opportunities by responding to the CDP's annual Climate Change questionnaire, the most complete source of self-reported corporate environmental data in a standardized and comparable format, that is widely used throughout financial markets. At this time, we will support Belen Romana's re-election on an exceptional basis, having noted the following: - The company's CDP score has improved from B to A- from 2020 to 2021. - The company a member of Net Zero Banking Alliance, and have intrinsically committed to 2050 net zero scenario. Add New Article 15 bis and Amend Article 19 of General Meeting Regulations Re: Allow Shareholder Meetings to be Held in Virtual-Only Format | For (Exceptional) | Under normal circumstances we would have opposed the article amendments because the possibility of holding virtual-only meetings may undermine shareholders rights. However, we have exceptionally supported in recognition that additional flexibility is required for companies to hold shareholder meetings exclusively by remote means, for example due to restrictions on free movement or on meetings like those imposed by the authorities in recent months due to the health crisis. In addition, the remote attendance application developed by the Bank, which has been used by the shareholders since the 2005 ordinary general meeting, offers the same opportunities to participate in general meetings as if attending in person, and they can therefore: view the entire meeting during its live broadcast, cast votes, make presentations, make proposals, and send communications to the Notary. Given our preference is for shareholders to be able to attend meetings in normal circumstances, should the board misuse this authority in any way, we will hold the Board to account. |

The dissident argued that both directors' decisions resulted in the board resolution causing KRW 280 billion in financial damages since end of fiscal year 2020. | YES BANK LTD EGM 31/03/2022 India | Resolution 1. Approve Issuance of Debt Securities or Equity / Equity-Linked Securities without Preemptive Rights | For (Exceptional) | The company proposes an enabling resolution to issue securities (to raise funds up to INR 100 billion). Under normal circumstances we would have voted against as the potential dilution to the existing shareholders is high (based on the estimated floor price of INR 12.79 per share and the intended gross proceeds of INR 100 billion, the company could issue up to 7.81 billion new equity shares representing 31.20 percent of its current issued share capital). However, we exceptionally supported as in mitigation, the funds will help improve the bank's stressed financial position and ensure financial viability. |

| | Resolution 3.6. Elect Director Inoue, Yukari | For (Exceptional) | Under normal circumstances we would not have supported this director, as she is a tenured non-executive who may be considered accountable for the company's low scores in independent assessments of its policies and practices relating to Human Rights (amongst other research, we rely on data from the Corporate Human Rights Benchmark (CHRB) and the World Benchmarking Alliance (WBA) Social Transformation baseline assessment). We are supporters of these benchmarks and encourage the company to engage constructively with them, as they allow investors and wider stakeholders to better understand the company's human rights approach and relative positioning compared to industry peers. At this time, it is not considered in best interests to target her as she is a female independent outsider on the board. She is also the only independent outsider who is not an audit committee member, and as such, her independent position on the board may be essential to consider other board responsibilities. Further, we have previously held audit committee members as accountable for such concerns for the past two years, for which more rationale was provided with regards to accountability. |

Elect Lee Sang-hun as Outside Director (Shareholder Proposal) | For (Exceptional) | <p>Teton argued that the board neglected fiduciary duties to the minority shareholders in the process of stake sale between then controlling shareholder, Chairman Chang-geul Cho, and the current largest shareholder, IMM private equity fund. On this basis, the dissident raised concern on the independence of the current board members (mainly invited from the IMM fund) from the controlling shareholders and their ability to perform fiduciary duties. Also, the dissident highlighted that the company's recent distribution of special bonuses despite the deteriorated operating performance goes against serving the best of shareholders' interest. Hanssem distributed KRW 30 billion in special bonuses to executives despite the 26.9 percent decrease in operating profit (compared to the previous fiscal year) and the operating loss of KRW 7.5 billion in the fourth quarter of 2021. The dissident's proposed nominee Mr. Lee brings a legal background to the current board where all board members, including outside directors, come from business and finance industries. Based on the disclosed biographical information, the dissident proposed outside director nominee appears to possess relevant expertise to strengthen board oversight and perform fiduciary duties, as the dissident argues.</p> |

Authorize Issuance of Warrants (BEOCEANE-BSA) up to EUR 30 Million without Preemptive Rights Reserved for Global Tech Opportunities 13 | For (Exceptional) | Under normal circumstances, we would have voted against this resolution as the potential share capital increase is very substantial. However, we have exceptionally supported as it appears necessary considering the financing needs of the company. In fact, this new Amended Issuance Agreement is expected to mitigate the concerns of shareholders regarding such dilutive impact of the Original Agreement by limiting the number of tranches and ending the OCEANE-BSA funding program early in May 2022, while maintaining regular monthly funding for the Company during the period from January through May 2022. |

It reports detailed representation statistics and reports that it has achieved pay equity for similar jobs for gender and race in the U.S. However, support for this shareholder proposal is warranted as although additional information on the company's sexual harassment and discrimination policies and the implementation of these policies would help shareholders better assess how the company is addressing associated risks. |

Adopt a Policy That No Financial Metric Be Adjusted to Exclude Legal or Compliance Costs in Determining Executive Compensation | For (Exceptional) | <p>This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted, in light of the significant shareholder concerns recently raised regarding the company's exclusion of certain litigation-related costs from the executive compensation program, along with the magnitude of the 2020 opioid-related litigation accrual and the continued exclusion of a similar accrual from the 2021 incentive program. Given that the proposal would provide the board with flexibility to adjust the application of the policy in individual circumstances, with an explanation to shareholders, the request is not viewed as overly prescriptive.</p> |

| | Resolution 6. Reduce Ownership Threshold for Shareholders to Call Special Meeting | For (Exceptional) | This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted, as the proposed 10 percent ownership threshold would make the special meeting right more easily exercisable by institutional investors, while still providing protection against abuse. |

A vote FOR this resolution is warranted. | TRANSACTION CAPITAL LTD AGM 10/03/2022 South Africa | Resolution 1. Re-elect Kuben Pillay as Director | For (Exceptional) | Under normal circumstances we would not have supported this director as they hold the equivalent of more than 4 positions, which is in excess of our guidelines. However, we are mindful that in this case the overall count exceeds our limit by only one position; also, the director serves as non-executive chair of both companies where he has external positions, both of which are of a relatively smaller size. Given our lack of further concerns regarding this director we are supporting the re-election. |

| OXFORD BIOMEDICA PLC EGM 08/03/2022 United Kingdom | Resolution 1. Authorise Issue of Equity to Novo Holdings in Connection with the Conditional Placing Shares | For (Exceptional) | A significant shareholder, Novo Holdings, will participate in the Conditional Placing, constituting a related party transaction. It is however acknowledged that the Board and the Company's sponsor is of the opinion that Novo Holdings' participation to the Conditional Placing is fair and reasonable to shareholders. Novo Holdings will not be voting on Item 1. As for the overall equity placing, the proposed authorities are in addition to the general authorities granted at the 2021 AGM, and the dilution to non-participating shareholders due to the Conditional Placing, in aggregate with dilution due to the Company's use of the general authorities and the Firm Placing, exceeds recommended limits. Mitigating factors are that the net proceeds of the Conditional Placing will be used for the Transaction with Homology Medicines Inc, for which the company has provided sufficient rationale. |

He is also a non-executive of IBM and is the Executive Chair of Johnson & Johnson. However, we have exceptionally supported his election as he recently relinquished his CEO role at Johnson & Johnson (J&J) so it is unclear whether his executive role is full-time or not. Also, his experience across the pharmaceutical, medical device, and consumer health sectors will be invaluable as Apple continues its push into the healthcare category. We will however be engaging with the company to clarify his time commitments at J&J and depending on the answer, we may vote against his re-election next year. |

| | Resolution 5. Amend Articles of Incorporation to become a Social Purpose Corporation | For (Exceptional) | <p>The company's response to this shareholder resolution is what we would expect i.e. that to become a Social Purpose Corporation (SPC) is risky / unknown and could be costly, but there are no details to back that up â?? and the company simply says that it already operates in a way that considers the interests of both its stockholders and stakeholders and that changing the form of its incorporation would not change the way it conducts its business.</p> <p>However, Apple continues to face significant controversies related to its alleged anti-competitive behaviour, working conditions, and labour standards in its supply chains, which suggest shareholders would benefit from a more robust commitment by the firm regarding alignment with stated goals of social and environmental responsibility. There is a myth that Public Benefit Corporations (PBCs) or SPCs will be run for the benefit of stakeholders other than shareholders. However, in a PBC or SPC, the directors continue to be elected (and subject to removal) solely by shareholders. Moreover, their legal duties as fiduciaries continue to run only to shareholders. The difference is that in reality shareholders have broader interests than merely desiring that individual companies maximize their own returns.</p> |

| | Resolution 6. Approve Revision of Transparency Reports | For (Exceptional) | <p>This shareholder resolution requests that the Board of Directors revise the Company's Transparency Reports to provide clear explanations of the number and categories of app removals from the app store, in response to or in anticipation of government requests, that may reasonably be expected to limit freedom of expression or access to information. Such revision may exclude proprietary or legally privileged information. Apple says that it provides statistical information on the number of requests received and granted to remove apps from its App Store. It discloses a Human Rights Policy that expresses a clear commitment to respecting freedom of information and expression. However, the Transparency Report does not provide much contextual information about what purpose the removed apps were trying to provide or what law they were in violation of. There have been reports that the company's staff or algorithms have proactively removed many more apps than included in the Transparency Report in anticipation of government requests. The Ranking Digital Rights Corporate Accountability Index found that, although Apple ranked very highly regarding privacy protection, it lacked transparency about its process for removing apps from the App Store for violations to iOS rules. As such, support for this shareholder proposal is warranted, as additional information regarding the company's policies and processes regarding freedom of expression and access to information would help shareholders gauge the company's</p> |

| | Resolution 7. Report on Forced Labor | For (Exceptional) | <p>This shareholder resolution requests that the Board of Directors prepare a report on how well the company's policies and procedures effectively protect workers in its supply chain from forced labour. The company provides extensive disclosures on its policies and procedures on how it aims to prevent forced labour in its supply chain, including a Supplier Code of Conduct as well as statistics on number of independent audits conducted. However, independent human rights investigators have reported that some of the company's suppliers have participated in the Chinese government's forced labour program in the Xinjiang region, bringing into question the effectiveness of these policies and procedures. With laws requiring companies to document the efforts they have taken to minimize the risk of forced labour in their supply chain and Congressional investigations into the issue, it seems likely that the company faces increased regulatory risk related to its Chinese supply chain. As such, support for this shareholder proposal is warranted, as increased transparency on Apple's supply chain policies and processes could help alleviate growing risks related to manufacturing in certain regions.</p> |

| | Resolution 8. Report on Median Gender/Racial Pay Gap | For (Exceptional) | Support for this shareholder proposal is warranted, as shareholders could benefit from the median pay gap statistics that would allow them to compare and measure the progress of the company's diversity and inclusion initiatives. Apple does not publish for its U.S. or global workforce the same gender pay gap statistic as it publishes in the UK. The median pay gap statistic provides benefits such as transparency and comparability across time and organizations and serves as one measure of representation of women and racial and ethnic minorities in senior positions. Because it is expressing a gap, it also carries an implied goal of eliminating the gap. As the company discloses for its UK workforce, investors would benefit from a report concerning the median pay gap data for its U.S. or its global workforce as a means of allowing them to better gauge how well the company is advancing opportunities for women globally and racial and ethnic minorities in the U.S. and mitigating risks relating to increasing public scrutiny on gender and racial/ethnic pay equity issues. |

| | Resolution 10. Report on Concealment Clauses | For (Exceptional) | Support for this shareholder proposal is warranted because more information on the impact that the company's standard arbitration provision has on Apple's employees may bring information to light that could result in improved recruitment, development and retention and could help the company prepare for pending federal legislation on the matter. The proponent notes that in recent years, Pinterest paid \$22.5 million to settle a gender discrimination lawsuit and Alphabet had to pay \$300 million to settle shareholder lawsuits alleging the company created a toxic work environment. Although Apple has not committed to exclude harassment and discrimination from its concealment clauses, some of the company's peers have begun to do so. The proponent says that Alphabet agreed to limit its confidentiality restrictions associated with harassment and discrimination cases as part of a lawsuit settlement. The proponent also highlights that legislation in California prohibits concealment clauses involving recognized forms of discrimination and unlawful activity. The company asserts that it has substantially implemented the proposal because it now includes the language in its code of business conduct that nothing in this Policy should be interpreted as being restrictive of your right to speak freely about your wages, hours, or working conditions. However, that language does not explicitly exclude speech related to harassment and discrimination accusations from non-disclosure or mandatory arbitration agreements. The SEC found that the |

| | Resolution 2. Approve Remuneration Policy | For (Exceptional) | Under normal circumstances, we would not have supported the remuneration policy to reflect that the company has agreed an increase to the CEO's bonus opportunity (from 125% to 150% of salary), in addition to having awarded him a relatively large salary increase. However, given the explanations provided including the strong CEO and company performance (since his appointment in June 2018 when he was paid a below-market base salary), and as the increases are not considered excessive, we are broadly comfortable and have exceptionally supported. In addition, we note that the Committee will take into consideration the higher opportunity when the bonus targets are set for FY 2022 (and is something we will be monitoring closely). |

However, given the explanations provided including the strong CEO and company performance (since his appointment in June 2018 when he was paid a below-market base salary), and as the increases are not considered excessive, we are broadly comfortable and have exceptionally supported. In addition we welcome that in response to investor feedback, the Remuneration committee agreed to stagger the salary increase i.e. his salary was increased by c. 7.7% to Â£520,000 with effect from 1 January 2022 and will be increased by a further 6.7% to Â£555,000 with effect from 1 January 2023. |

| FAWRY FOR BANKING TECHNOLOGY AND ELECTRONIC PAYMENT EGM 03/03/2022 Egypt | Resolution 1. Approve Increase in Authorized Capital from EGP 1 Billion to EGP 3 Billion | For (Exceptional) | This proposal would increase the current authorized capital by 200 percent. Normally, we would not support such a resolution, because if implemented, the company's issued and outstanding share capital would amount to 28.45 percent of authorized capital following the increase. At least 30 percent of the new authorization should be outstanding in order to limit the company's ability to abuse any flexibility to issue shares. However, it is understood that the company plans to carry out further share issuances, as discussed under Item 2, with the primary pretext of raising capital to carry out an additional listing in the US. Given this additional context, support for this resolution is warranted on an exceptional basis. |
| | Resolution 2. Approve Increase in Issued Capital from EGP 853,652,060 to EGP 1,653,652,060 With Preemptive Rights | For (Exceptional) | The general authority sought equates to 93.71% of the company's share capital which exceeds our guidelines of 50% of issued share capital. However, the company has stated that the shares to be issued under this resolution would be in relation to a potential listing in the US. Additionally, the capital increase aims to support the company's expansion plans for financial services, grow its offerings on MyFawry (the company's online payment portal), implement its investment strategy and support the budding ecosystem of startups and fintech. Given this additional context, support is warranted on an exceptional basis. |

| | Resolution 4. Authorize Board to Amend Articles 6 and 7 of Bylaws to Reflect Changes in Capital | For (Exceptional) | This item is to amend the articles to reflect the company's increased share capital following the above share issues under Item 2. We are supporting Item 2 (on an exceptional basis), as the company has stated that the shares to be issued under this resolution would be in relation to a potential listing in the US. Additionally, the capital increase aims to support the company's expansion plans for financial services, grow its offerings on MyFawry (the company's online payment portal), implement its investment strategy and support the budding ecosystem of startups and fintech. Given this additional context, support is warranted on an exceptional basis for this resolution as well. |

| | Resolution 3. Approve Remuneration Policy | For (Exceptional) | Under normal circumstances, we would not be able to support as the policy specifically states that no targets will apply to the annual bonus plan, and as such relies on Remuneration Committee discretion. Furthermore, the shareholding guidelines that that been introduced are only 100% of salary (which is below our expectations (being shares equivalent to 200% of salary)) and the post cessation holding requirements are also problematic as executives only have to hold shares of 100% of salary for the first year after employment (and then 50% of salary the year after that). However, we have exceptionally supported the policy as we are mindful that overall award quantum is modest, given that the company does not operate a long-term incentive plan on the grounds that the company doesn't consider it appropriate for the business model. Furthermore, the bonus opportunity is limited to 100% of salary (which is low for a company of this size and actual bonuses awarded have been well below maximum for a number of years. In fact, bonus are determined on a discretionary basis, taking into account individual performance and the performance of the Company. In terms of shareholding guidelines, current executives are substantial shareholders in the Company, holding a range of 0.2% to 9.7% of issued share capital, ensuring shareholder alignment. |

| | Resolution 7. Approve Implementation Report of the Remuneration Policy | For (Exceptional) | Newly appointed CFO Deepa Sita was granted a 9.09% salary increase and a sign-on award. The sign-on award is subject to a two-year work-back provision, and is delivered in the form of performance shares, there are concerns, as it is not made clear as to how the size of this award was determined and is subject to meeting certain performance criteria which is not disclosed in the annual report. However, as Sita's salary is not excessive also lower at ZAR 6,000,000 than the previous CFO's salary which was ZAR 6,877,238 in 2019, and the sign-on award is subject to a two-year work-back provision exceptional support for this resolution is justified. |

| | Resolution 3. Re-elect Robert Orr as Director | For (Exceptional) | Under normal circumstances we would have voted against the re-election of the Board and Nomination Committee Chair to reflect our concerns over the lack of diversity on the Board (both gender and ethnicity). However, we have exceptionally supported as we are mindful that the board continues to be made up of just 4 directors (one being female), and the Company is externally managed and has no employees. Moreover, as stated in the annual report, the Board is mindful of succession planning and the need to support a growing business now in the FTSE 250 and will shortly be taking steps to begin a search for an additional Non-Executive Director. We will be encouraging the Board to improve diversity as part of that process. |

| | Resolution 3. Report on Sustainable Packaging Efforts | For (Exceptional) | Support for this shareholder proposal is warranted, as additional disclosure on the company's metrics and targets related to the use of plastic packaging would allow shareholders to better assess its management of associated financial, environmental, and reputational risks. Several of the company's large peers have made commitments to reduce the overall use of plastic and material in product packaging. The proponent states that Tyson received a score of F in an As You Sow study that ranked corporate leadership on plastic pollution. The proponent supports its call for greater disclosure by saying that Tyson does not disclose the amount of plastic packaging it uses and has no quantitative target for reducing its use of plastic. We agree that data points that would be meaningful to shareholders in a report would be quantitative time-bound goals for reducing absolute plastic use, reducing virgin plastic use, and increasing post-consumer recycled plastic use, and metrics related to the company's use of plastic. |

Elect Andrew Duff as Director | For (Exceptional) | Under normal circumstances we would have voted against the Nomination Committee Chair and Chair of the Board to reflect our concerns over the lack of women on the Board. However, we have exceptionally supported his re-election in recognition that women previously represented 33% of the Board but recent board changes have meant that this number has fallen below 33%. Further, Andrew Duff has only been on the Board for a few months and the company states that it remains committed to minimising the period for which it does not meet the Hampton-Alexander targets. |

However, we are conscious of the various positive steps that the company has taken to address the issues of remuneration, such as making a commitment to not make special or off-cycle awards to executive officers. They also reduced the CEO's pay ratio from 521:1 in FY20 to 119:1 in FY21 and CEO pay is now 1.18 of median which is an improvement showing better alignment to the wider market.</p> |

We seriously question how full-time executives can devote sufficient time to multiple other boards. However, we have exceptionally supported his re-election as we note that William Eccleshare stepped down from CEO / the operational leadership of Clear Channel Outdoor Holdings Inc but remains as Executive Vice Chairman, effective from 1 January 2022. We are also mindful that Centaur Media is a relatively small company therefore it should not require so much of a non-executive's time). |

However, we are mindful that in this case the overall count exceeds our limit by only one position, and this director serves as non-executive chair of at least one of the boards they sit on. Given our lack of further concerns regarding this director we are supporting the re-election. |

Moreover, directors would be held to account for any potential abuse of this new flexibility. |

| | Resolution 5. Report on GHG Emissions Reduction Targets | For (Exceptional) | Green Century Capital Management has submitted a precatory proposal asking Costco Wholesale Corporation (Costco) to adopt science-based greenhouse gas (GHG) emissions reduction targets for emissions from its full value chain. Support for this shareholder proposal is warranted, as additional information on the company's GHG emissions reduction efforts would allow investors to better understand how the company is managing its transition to a low carbon economy and climate change related risks. We agree with the proponent that Costco's delayed action on setting emissions reduction targets (which is lagging peers) is causing operational, competitive , and reputational risks, and is failing to meet investor expectations for climate risk mitigation. |

| | Resolution 6. Report on Racial Justice and Food Equity | For (Exceptional) | Support for this shareholder resolution is warranted, as the requested report would enable shareholders to better assess the effectiveness of the steps the company is taking to address the issues of food equity and associated racial disparities. The proponents point out that the company's Sustainability Commitment includes a goal to positively contribute to the health of the communities where it does business and to add to economic development in communities of colour. Yet, according to the proponents, Costco does not have explicit goals on increasing access to healthy food in the communities where it operates. The proponents assert that Costco is lagging its peer Walmart in reporting on work it is doing to increase access to healthier and more affordable food. In addition, the company has reportedly faced controversies related to racial equity, including punishing employees for wearing Black Lives Matter clothing and for allegedly racially profiling a couple while they were shopping. According to the proponents, Costco received only 25 out of 100 points in As You Sow's Racial Justice S&P 500 Scorecard. |

| | Resolution 5. Re-elect Douglas Hurt as Director | For (Exceptional) | Under normal circumstances we would not have supported the re-election of Douglas Hurt, Senior Independent Director and a member of the Nomination committee, to reflect the absence of ethnic diversity on the Board. However, we have exceptionally support his re-election having noted that the recommendations of the Parker Review on ethnic minority representation on company boards (for at least one ethnically diverse board director by 2024), will be key areas of focus for the Nomination Committee and Board during the coming year. More broadly, we welcome that the Group's Diversity Equity and Inclusion strategy was recently approved and one of the 4 goals is to attract, develop, diverse talent that broadly reflects the voices and demographics of the communities in which the company operates. Another is to build an inclusive culture that activates and nurtures the diversity in our workforce through belonging, fairness, and valuing differences. Other disclosures are helpful in obtaining a broader sense of the company's approach to diversity. Whilst the company recognises it has more to do to ensure a better gender balance at all levels, we note that two new female members joined the Executive Team this year which now has a 30:70 split, a better gender balance than previously, and for the first time ever, the company has had more female candidates on its graduate/apprenticeship programmes than men. Notwithstanding the progress that has been made we will be engaging with the company on |

| | Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights | For (Exceptional) | Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion. |
