	Resolution 3. Authority to Issue Shares w/ Preemptive Rights	For	

	Resolution 4. Authority to Issue Shares w/o Preemptive Rights	For (Exceptional)	Under normal circumstances, we would have voted against this authority as it will enable the Board to issue the equivalent of 33% of issued share capital without pre-emptive rights without further referral to shareholders for approval. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for authorities without pre-emptive or priority rights attached to be limited to no more than 20% of the share capital, unless a clear justification and strategic rationale is provided to shareholders. However, we have exceptionally supported as we are mindful that this authority will allow additional flexibility for the Board to take advantage of any possible funding opportunities which the directors continue to explore. The company certainly needs the additional authority as a standard authority will be insufficient to raise enough cash given its dwindling market cap (now only £2m).

	Resolution 3. Authority to Repurchase Shares	For	
	Resolution 4. Amendments to Audit Committee Charter	For (Exceptional)	Under normal circumstances we would have voted against this resolution as the company will delete Article 26, which provides the AGM's right to appoint the Company's audit committee which may be considered a reduction in shareholder rights. However, we have exceptionally supported as we note that it is in compliance with Article 51 of the amended Saudi Corporate Governance Code, which now allows the Company's board to form the audit committee so this aligns the company's practices with current regulations. In practice, this is what most companies across all markets do.

However, we have exceptionally supported their re-election given they are an executive director of this company. Instead, our default position would be to vote against their election as a non-executive at their other companies.

LONDONMETRIC PROPERTY PLC EGM 18/12/2023 United Kingdom	Resolution 1. Remuneration Policy	For (Exceptional)	Under normal circumstances, we would have not supported the new pay policy as the bonus deferral mechanism will continue to only apply if a director's shareholding falls below the shareholding requirement. We think that some deferral of any bonus better aligns the interests of management with shareholders, and also makes it easier to apply malus and clawback should that be necessary. However, we have exceptionally supported as we are mindful that the shareholding requirements are very high (700% of salary for incumbent directors and 400% of salary for new directors), and in fact, the incumbent Executive Directors already hold a large number of shares. So these factors ensure there is indeed strong alignment with shareholders.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

<b>AGM</b> <b>13/12/2023</b> <b>United Kingdom</b>	Resolution 2. Remuneration Report	For (Exceptional)	Under normal circumstances, we would have voted against the remuneration report as the company is not accredited with the Living Wage Foundation and therefore there is no guarantee that the company pays / will continue to pay the Real Living Wage. However, this is not a vote against as no concerns have been identified with regards to executive pay in general, especially within the context of the CEO to employee pay ratio. We further note that relatively large increases are planned for the ensuing year for executives. The company has given a rationale to justify this with reference to the growth of the company. We acknowledge this at this point; future increases will be kept under close review. In the round, exceptional support is warranted.

	Resolution 6. Elect Eric Sanderson	For (Exceptional)	Under normal circumstances, we would have voted against the re-election of this director, as he is technically not independent (due to having served on the Board for over 10 years) and serves as Chair of the Board. He is also a member of the audit committee. Ideally the Chair should be independent without question and the audit committee fully independent. However, we have exceptionally supported his re-election as we are mindful that there will be some recent Board refreshment at this AGM (including one of the other long-serving directors stepping down), which we welcome

	Resolution 15. Authority to Issue Shares w/o Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 8. Increase Authorised Capital as a Takeover Defense	For (Exceptional)	Under normal circumstances, we would have voted against this takeover defence authority as we believe that such authorities are generally not conducive to good corporate governance and can reduce management accountability by substantially limiting opportunities for corporate takeovers. However, we have exceptionally supported in the context of the proposed Demerger. We agree with the Company in that stability over an initial, transitional period will foster favourable circumstances allowing the Company to focus on its strategy, achieve its financial objectives and deliver value to all stakeholders. The Board's objective is to mitigate potential for short-term opportunism, in particular in times of unfavourable market conditions, and, if need be, to use these authorizations to maximize any proposal and act in the interest of all stakeholders. Further safeguards have been introduced whereby the implementation would require the approval by a majority of three-quarters of each companies' respective boards. Also, it will only apply for a transitional period of two years, following which the Company does not intend to renew such authorisations.

	Resolution 17. Authority to Issue Shares w/o Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

However, we exceptionally supported as we are mindful that HK Acquisition Corporation is a special purpose acquisition company (SPAC) which does not have significant operations. As positions at a SPAC are not generally as time intensive as a similar position at an operating company, we do not believe that these outside commitments preclude director Tsang from dedicating the time necessary to effectively perform her role at this investment trust. Further, we note that this is an externally managed investment trust with no operational capacity.

Authority to Issue Shares w/o Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 14. Authority to Issue Shares w/o Preemptive Rights (Additional 10%)	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. 	Resolution 5. Elect John Scott	For (Exceptional)	Under normal circumstances, we would have voted against the Board Chair as he is technically not independent (due to having served for 10 years) and he is a member of the audit committee which should be comprised solely of independent directors. However, we have exceptionally supported as we are mindful that he has only just served longer than recommended, and that his experience of the Trust is important, particularly given the other directors have only served on the Board from 1-4 years. We would expect him to step down from the audit committee in due course.

	Resolution 12. Continuation of Investment Trust	For (Exceptional)	Under normal circumstances, we would have voted against the continuation as the Company's shares are trading at more than a 10% discount to NAV and the discount to NAV has widened since last year. Therefore, typically it would be in shareholders' best interests for the Trust to be wound up so shareholders are returned cash equivalent to or close to the NAV per share. However, we have exceptionally supported as we agree with the Board that the Trust has met or exceeded all of the objectives of its original and subsequent prospectuses, producing sector-leading returns for investors, while assisting with the decarbonisation of the economy. The Board is confident that the Company is well placed to continue investing in renewable electricity and thereby delivering value for shareholders.
	Resolution 13. Authority to Issue Shares w/ Preemptive Rights	Against	<ul style="list-style-type: none"> <li>• Duration of authority too long</li> <li>• Exceeds investor guidelines without sufficient justification</li> </ul>

	Resolution 14. Authority to Issue Shares w/o Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. <b>METRO BANK PLC</b> <b>EGM</b> <b>27/11/2023</b>	Resolution 1. Firm Placing	For	
	Resolution 2. Issuance of Shares w/ Preemptive Rights (Firm Placing)	For	

United Kingdom	Resolution 3. Disapplication of Preemptive Rights (Firm Placing)	For (Exceptional)	Under normal circumstances we would have voted against this authority as the percentage of shares issuable without pre-emptive rights will be significantly dilutive to our shareholding. However, we have exceptionally supported as the authority is being sought to address a material risk. The Company (on a consolidated basis) and Metro Bank (on a solo basis) did not meet the combined buffer requirement (which comprises the countercyclical buffer of 2% of risk weighted assets (RWAs) and the capital conservation buffer which is 2.5% of RWAs, the Combined Buffer Requirement) above eligible liabilities. Given the Company's current capital position, the upcoming maturity of the existing MREL notes and following appropriate regulatory engagement, the directors believe it is necessary to strengthen the Company's balance sheet as soon as possible. The board believes the capital package proposed in the form of the Transactions (defined below) would significantly strengthen the Company's CET1 ratio and restore compliance with the Combined Buffer Requirement and would achieve a debt capital structure with longer maturity and a greater quantum of debt capital. In the absence of alternative options, we are reluctantly having to support this proposal.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

<b>QUBE HOLDINGS LTD</b> <b>AGM</b> <b>23/11/2023</b> <b>Australia</b>	Resolution 1. Re-elect Jacqueline (Jackie) McArthur	For (Exceptional)	In normal circumstances we would be unable to support the re-election of this Director as she is the nomination committee Chair and we have concerns over the lack of women on the Board. However, we have exceptionally supported her re-election as currently she is the only female on the Board (and in fact, the only director up for re-election), and so it would be counter productive to vote against her re-election.

	Resolution NB.11. Approve Remuneration Policy	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution, as the pay package comprises a Single Incentive Plan. This consolidates short-term and long-term awards, the latter delivered through deferred awards. The scheme in essence lacks a long-term forward-looking performance assessment, and there is only a single performance period of one year. During the year under review, however, the remuneration committee took on board shareholder concerns on the above, and have stated that ROE, which has a weighting of 15% amongst all performance conditions, will be measured using the average of FY2022 and FY2023 for the FY2023 SIP; using the average of FY2022, FY2023 and FY2024 for the FY2024 SIP; and will be a three-year average rolling measure from FY2024 onwards. This eases our apprehensions to some extent, and we also don't have major concerns on pay and performance alignment.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

<b>AGM</b> <b>16/11/2023</b> <b>United Kingdom</b>	Resolution 2. Remuneration Report	For (Exceptional)	<p>Under normal circumstances we would not have supported the remuneration due to the 5% salary increase for the CEO and the CEO : Employee pay ratio which has increased from 39:1 to 92:1 from the previous year. There are also some concerns regarding the structure of the LTIP as the achievement of threshold performance conditions result in vesting of 25% of the award potential, and given the CEO's recent and pending share grants are valued at 300% of salary +. this level of vesting represents at least 75% of salary which is generous (for this level of performance). However, we have exceptionally supported as in terms of salary increases we noted that in 2022, management elected to focus a greater proportion of the salary increase budget on employees who were more significantly affected by inflationary pressures. This resulted in a below-market salary increase of 2.5% for Paul Keel (and Clare Scherrer, CFO did not receive a salary increase in October 2022). For 2023, the salary increase budget is aligned across all employees in the wider UK workforce and the increases of 5% for both Paul Keel and Clare Scherrer reflect this. Regarding the higher single figure amount for the CEO (£4,285,000) and the impact this has had on the pay ratio, we have noted the strong business performance for the year under review which has resulted in a bonus between target and maximum for the CEO. Also, FY2023 is the first time the LTIP has vested for the CEO since the date of his appointment.</p>
	Resolution 3. Final Dividend	For	

	Resolution 4. Elect Steven W. Williams	For (Exceptional)	Under normal circumstances we would not have supported the election of this director due to some reservations over his total Board positions - he holds one non-executive position and two non-executive chairmanship positions which raises questions as to how he will be able to contribute to the Smiths Board effectively. However, we are mindful that this exceeds our guidelines by only one and we do not have further concerns regarding this director. We are supporting his election but we will however be keeping this under review.

	Resolution 13. Elect Noel N. Tata	For (Exceptional)	Under normal circumstances, we would not support the re-election of this director as he holds a number of other board positions (including Chair roles) which is in excess of our guidelines and which raises questions as to how he is able to contribute to the Smiths Board effectively. However, we have exceptionally supported based on the company's explanation in that all of his other board-level positions are at Tata Group companies (which we think does make a difference to the total commitment involved.) The Board reaffirmed that Noel's other commitments do not prevent him from committing sufficient time to his work as a Director, as evidenced by his attendance and effective participation at all Board and Committee meetings and ad hoc Board update calls. As a current executive with contacts in higher-growth countries which are a strategic focus for Smiths, he brings valuable and distinct experience to our Board discussions. We consider this to be really important particularly given the change in Chair at this AGM and then a change of Senior Independent Director in May 2024.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 1c. Elect Spencer C. Fleischer	Against	<ul style="list-style-type: none"> <li>• Poor handling of Board/sub-committee responsibilities</li> </ul>
	Resolution 1d. Elect Esther S. Lee	For (Exceptional)	Under normal circumstances we would be unable to support as this individual has been on the board for over 9 years and sits on certain committees. We note however she has only been on the board for 10 years and does not sit on the audit or remuneration committees and the overall board independence is good. We will therefore support and keep under review.

	Resolution 1g. Elect Stephanie Plaines	For	
	Resolution 1h. Elect Linda Rendle	For	

	Resolution 1i. Elect Matthew J. Shattock	For (Exceptional)	Under normal circumstances we would not have supported this director as we are concerned that in addition to his role of chair at Clorox, he holds a further chair role and non-executive roles at other companies. However, we are mindful that this exceeds our guidelines by only one and we do not have further concerns regarding this director. We are supporting the re-election but we will however be keeping this under review.

<b>AGM</b> <b>15/11/2023</b> <b>United Kingdom</b>	Resolution 2. Remuneration Report	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the company has not disclosed FY2024 LTIP targets, as they are not yet determined. They will be published ahead of the forthcoming AGM. While not ideal, this alone would not qualify as a reason to vote against, as we haven't had concerns on target-setting for the current year. We will keep this under review. Separately, we note that the company is not Living Wage accredited. We will engage with the company to express that this is one of our expectations of it, given its size. We acknowledge that ED salaries were not increased for FY2024, which was a concern we had ahead of the previous year. Further, the pay ratio does not raise significant concern at this point, signalling that we can keep this under review ahead of the next AGM.

<b>PETRA DIAMONDS LTD</b> <b>AGM</b> <b>14/11/2023</b> <b>Bermuda</b>	Resolution 1. Accounts and Reports	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the auditor has emphasised a matter in its opinion statement. We acknowledge the reason for this, as it is based on an Indian diamond import moratorium. This matter will be kept under review.

	Resolution 2. Remuneration Policy	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the maximum LTIP opportunity is being increased. The Company is proposing the introduction of an additional outperformance grant of 50% of salary for FY2024 so that it may provide increased flexibility to utilise the maximum 200% of salary that already exists in the Company's long-term incentive plan. The additional 50% of salary element will be subject to "every" stretching price targets, which will require a quadrupling of the share price (from c. GBP 0.70 to c. GBP 2.80), adding an additional GBP 400m to the market capitalisation. A maximum of 200% of salary is relatively significant for the company's size; however, the required increased stretch is positively acknowledged. As such, we support on an exceptional basis.

This director holds 1 positions as a non-executive chair and 3 positions as a non-executive non-chair directorship. However, we are mindful that this is just within our guidelines and we do not have further concerns regarding this director. As such, we have supported their re-election but we will be keeping this under review.

Johns (Goodman Limited)	For (Exceptional)	Under normal circumstances we would have voted against the Board and Nomination committee Chair to reflect concerns that women continue to represent less than 33% of the board. However, we have exceptionally supported as we are mindful that three of the four most recent appointments (i.e. over the last year) are female directors and women represent 27% of the Board (was 30% in FY22).
	Resolution 2B. Re-elect Stephen P. Johns (Goodman Logistics (HK) Limited)	For (Exceptional)	Under normal circumstances we would have voted against the Board and Nomination committee Chair to reflect concerns that women continue to represent less than 33% of the board. However, we have exceptionally supported as we are mindful that since the last AGM, this HK Board has appointed its first female director. We are also mindful that three of the four most recent appointments (i.e. over the last year) on the other Goodman Group Board are female directors and women represent 27% of the Board (was 30% in FY22).

	Resolution 1c. Elect Marguerite N. Woung-Chapman	For	
	Resolution 2. Advisory Vote on Executive Compensation	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as less than 2/3 of LTIP awards are performance based (50.00%), therefore pay arrangements are not appropriately aligned with performance. We however acknowledge that the company shifted from LTIs consisting of wholly time-based awards to a mix of 50% performance-based and 50% time-based awards. This is a significant improvement in pay mix, and we expect further improvements to take place.
	Resolution 3. Ratification of Auditor	For	
	Resolution 4. Shareholder Proposal Regarding Right to Call Special Meeting	For (Exceptional)	The Company could reasonably adopt a 25% special meeting threshold. Although a smaller percentage requirement is desired, this resolution will bring the company closer to best practice.
	Resolution 5. Shareholder Proposal Regarding Independent Chair	Against	• Proposals do not add any value or strong case not made
	Resolution 6. Shareholder Proposal Regarding Retention of Shares	Against	• Proposals do not add any value or strong case not made

	Resolution 7. Shareholder Proposal Regarding Right to Act by Written Consent	For (Exceptional)	Companies can implement procedural safeguards similar to those used to allow shareholders to call a special meeting. In addition, there are certain inherent aspects of action by written consent that would prevent abuse of the right harming shareholder value.
	Resolution 8. Shareholder Proposal Regarding Resolutions to Increase Authorized Shares	Against	• Proposals do not add any value or strong case not made
	Resolution 9. Shareholder Proposal Regarding Severance Pay Approval	For (Exceptional)	In essence, the shareholder asks that severance payments be limited to one times basic compensation, which is in line with best practice.

	Resolution 3.2. Elect Michal Halperin	For	
	Resolution 3.3. Elect Michal Kremer	For	
	Resolution 4.1. Elect Israel Trau	For (Exceptional)	Under this proposal (4), two candidates, Israel Trau (incumbent), and first-time nominee Mohammad Sayed Ahmad, are up for one position as non-external director. As such, there are more candidates than seats. Because of the regulations in this market regarding the independence requirements of external directors, average director tenure at non-controlled banks is typically low which is also the case here (i.e 3 years).. In this case, considering the core industry and business experience of the incumbent nominee Israel Trau, and in view of the low average director tenure, the continued service of Mr. Israel Trau is the key factor in supporting his nomination instead of Mohammad Sayed Ahmad. This is particularly important given the numerous, material governance failings of the Bank over a long period.

	Resolution 3D. Elect Andrew Formica	For (Exceptional)	Under normal circumstances we would have voted against the appointment of Andrew Formica as he is currently an executive director and sits on both the audit and remuneration committees which we consider to be inappropriate - these committee should consist entirely of independent directors. However, we have exceptionally supported his appointment as we are mindful that Andrew Formica was initially appointed as a non-executive director (July 26, 2023) and he was subsequently appointed Chair on August 18, 2023. But on October 25, MFG announced that MD/CEO David George would immediately step down and that Andrew Formica will take on the role of Executive Chairman while it undertakes a search for a new CEO. It is anticipated that Andrew Formica will return to his non-executive Chair role following the appointment of a new CEO. As such we are comfortable that this is a temporary situation.

REMUNERATION REPORT	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution, as the Company's remuneration policies and practices appear to have a larger focus on STI than LTI. Whilst 40% of the STI is deferred into equity for one, two and three years, we note that it will vest after one year, which may be too short a period to impact share price prior to vesting. Nevertheless, We do not have overriding concerns on pay outcomes during the year under review.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

However, we have exceptionally supported as we welcome a number of positive changes since the last policy (last approved 2020). These include the introduction of an aggregate cap in variable remuneration (£20m for all directors - previous the bonus was uncapped), the introduction of a separate LTIP, an increase in bonus deferral level, and the removal of the share matching plan which allowed for half of matching shares to vest without any reference to performance conditions. In addition, we have been comfortable with pay outcomes over the last few years.

	Resolution 18. Authority to Repurchase Shares	For	

	Resolution 19. Waiver of Mandatory Takeover Requirement	For (Exceptional)	Under normal circumstances we would have voted against this proposal as this is our protection against creeping control i.e allowing the major shareholder to gain control of the Company without paying a premium to the other shareholders. The CEO's shareholding was 31.37% of the issued share capital (ISC) as at 11 Sept 2023 so if the buy-back authority proposed under resolution 18 is exercised in full (and the CEO does not participate), his holding could increase to 33.02% of the ISC. Under the Takeover Code he will therefore be required to make a general offer for the shares he currently does not own. Approval is sought to waive this obligation. However, we have exceptionally supported this year, as we have done in previous years for the following reasons: The CEO has habitually donated shares from his holding in Ashmore to charity and his shareholding in Ashmore has therefore steadily fallen since the time of Ashmore's initial public offering (IPO) in Oct 2006 when it was approx. 44%. Hence, this is evidence that the CEO is not trying to get control of the company on the cheap. Further, Mark Coombs has made a public commitment to reduce his shareholding by 4% per year to a more appropriate level below the 30% shareholding limit that triggers the requirement to seek a Rule 9 waiver. Consistent with the above commitment, the CEO's shareholding has indeed gradually reduced from 34.7% in 2020 to 31.37%

Authority to Issue Shares w/o Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

18/10/2023 Australia	Resolution 3. REMUNERATION REPORT	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution. Due to the conditional proposal from a consortium consisting of Brookfield and MidOcean Energy to acquire all of the company's shares, the remuneration committee decided to pay the deferred component of the STI in cash, make LTIP awards in deferred cash instead of equity (PSP and restricted shares), and not apply a regular hurdle for LTIP awards, given that the company is under certain restrictions in respect of issuing new shares. While we still have structural reservations, such as inadequate disclosure of award targets, we note that the LTIP opportunity has been reduced to 75% of the current opportunity level, subject to financial and non-financial underpin conditions. In the round, exceptional support is considered warranted at this time.

	Resolution 1l. Elect Marc Rowan	For	

	Resolution 1m. Elect David Simon	For (Exceptional)	Under normal circumstances, we would not be able to support the re-election of this non-executive director to reflect our concerns that they are a full-time executive of another Company, yet this is not the only other Board they sit on. The company however explains that Simon Property Group (where he holds an executive position) holds a significant stake in Klepierre (where he serves as Chair), which makes his role there somewhat complementary with the responsibilities as an executive of Simon Property Group. His external positions will be kept under review.

<b>BABCOCK INTERNATIONAL GROUP PLC</b>	Resolution 1. Accounts and Reports	For	

<p><b>AGM</b>  <b>28/09/2023</b>  <b>United Kingdom</b></p>	<p>Resolution 2. Remuneration Policy</p>	<p>For (Exceptional)</p>	<p>Under normal circumstances, we would not be able to support this resolution as a key change in policy is the increase in LTIP opportunity from 200% to 250% of salary, effective immediately for the CEO, and in the ensuing year for the CFO. An increase in quantum to awards in the current economic climate is difficult to support, particularly when many stakeholders of the company are still undergoing difficulties in maintaining basic payments in the rise of the cost of living crisis. We however acknowledge the company's explanation, as the Committee resolved to upweight the emphasis in the CEO's package on long-term performance to reflect these considerations and further strengthen the alignment of incentive outcomes with shareholders' longer-term interests through the delivery of the business reset. The CEO is regarded as a turnaround specialist and is expected to deliver improved shareholder returns. As such, we support on an exceptional basis.</p>
---	--	------------------------------	--

	Resolution 3. Remuneration Report	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution for a couple reasons: - The company decided to adjust free cash flow outturn in the vested 2020 LTIP to exclude the flow impact of certain items, namely: voluntary excess pension deficit payments, the Italy fine, operating model restructuring costs and the cash flow lost as a result of executive the disposal program. The Italy fine amounted to €51 million and was related to certain anti-trust violations by the company's subsidiary, Babcock Mission Critical Services Italia S.p.A (BMCS Italy), dating back to 2001. We note that the current CEO and CFO were not involved with the Company when the anti-trust violation claims took place. As for other adjustments, these were as a result of positive performance largely which motivated the company to voluntarily pay out excess pension deficit, and otherwise were pertaining to a business reset strategy that should deliver positive shareholder returns. Overall, pay outcomes are not out of line with group performance. Company is not an accredited Living Wage Employer. The company however is cognisant of bolstering pay for employees who are not regarded as the highest earners. We will ask the company about its intention to become Living Wage accredited. Overall, we don't have significant concerns over the CEO to median employee pay ratio.
	Resolution 4. Elect Ruth Cairnie	Against	<ul style="list-style-type: none"> <li>• Ethnic diversity issues</li> </ul>

	Resolution 5. Elect Carl-Peter Forster	For (Exceptional)	Under normal circumstances, we would not be able to support this director as he holds two chair positions at external companies (one of them is a new position, at Vesuvius plc), in addition to his role as NED at the company. We have some comfort in the fact that overall, his mandates are at three companies which does not exceed our guidelines. We will seek assurances from the company that his time mandates are managed appropriately. We also acknowledge that the company has improved disclosures regarding climate after the last AGM, which gives us comfort to support this director's election.

However, we have exceptionally supported her re-election as she has reduced her number of roles in recent years and there continue to be no issues with her attendance of board and committee meetings, or any impact on her role.

PETRONET LNG LTD AGM 28/09/2023 India	Resolution 1. Accounts and Reports	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the auditor has emphasised a matter in its opinion statement. The reason for this is that there is balance payment due against income towards 'use or pay charges' for FY22022 and FY2021, on account of lower capacity utilisation by customers. We understand that the auditor has not qualified the company's financial statements, having recognised that the pending payment is due as it is a contractual obligation. This will be kept under review ahead of the next year.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 11. Continuation of Investment Trust	For (Exceptional)	Under normal circumstances we would have voted against the continuation of this investment trust as the shares are currently trading at a significant discount to NAV (approx. 30.4%. However, we have exceptionally supported as when the company's shares started trading in May 2018, it was the first listed company offering access to energy storage. Five years later, the Company has built an internationally diversified portfolio of 1.17 GW and delivered a NAV total return of 48%, including 29p of dividends paid to Shareholders. Despite the macro conditions, the fundamental growth drivers for energy storage remain strong, driven by the worldwide transition to low-carbon energy generation and further reinforced by the global concern over energy security. Also, we note that as the company's funds are fully committed to the build-out of the portfolio assets, and the healthy returns available, it does not believe share buybacks to be the optimal course of action (but will be monitoring the performance of the share price and retains the ability to employ appropriate discount control mechanisms if deemed necessary).

	Resolution 13. Authority to Issue Shares w/ Preemptive Rights (Additional 10%)	For	

	Resolution 14. Authority to Issue Shares w/o Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 6. Authority to Issue Shares w/o Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 3. Remuneration Policy	For (Exceptional)	Under normal circumstances we would have voted against the new policy as we have reservations over the company maintaining the Sustained Performance Plan (SPP), which is single pay plan combining short and long term incentivisation. Awards have primarily been based on annual performance and the remainder based on trailing three-year performance. However, we have exceptionally supported as we welcome that the operation of the plan has been amended as part of the new policy which includes the introduction of a long-term award component; and the introduction of a revenue diversification measure into the annual performance metrics. The introduction of the long-term award component has been achieved by the replacement of the retrospective three-year relative TSR performance measurement with a more traditional prospective measurement of the same. We have had ongoing concerns over actual outcomes under this Plan (which we think have been more generous than what would be the case under separate bonus and LTIP plans for the same performance) so it is too early to determine whether these changes will address that issue. Our views on this will be reflected on the subsequent remuneration reports.

<b>BEGBIES TRAYNOR GROUP PLC AGM 19/09/2023 United Kingdom</b>	Resolution 1. Accounts and Reports	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution because the roles of CEO and Chair are combined, which is a role we prefer to be split. The Chair's role on a board is to evaluate and review the performance of management, and to ensure there are sufficient checks and balances; this role is compromised when the Chair is also the CEO. We however acknowledge that a major improvement to board composition, as a female director has been appointed. This signals a step in a positive direction; hence we will exceptionally support this resolution at this time.

Authority to Issue Shares w/o Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 4C. Elect Anne Nolan	For	

	Resolution 4D. Elect Stan McCarthy	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as he is a non-executive chair due to holding of options, and because there was insufficient response to shareholder dissent to director elections of Michael Cawley and Howard Millar, both of whom have served as deputy CEO of the board at least five years ago. At this time, we will consider a softer stance to honour a slight improvement in board composition (as he serves as nomination committee chair): even though there is insufficient independence, the board has appointed two new independent NEDs (they appointed an independent NED last year as well), and one of the new NEDs is female, improving overall board independence and gender diversity levels. We expect more improvement on board in coming years, through more independence and inclusion of ethnic diversity on board.
	Resolution 4E. Elect Louise Phelan	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as this Director is not independent due to historically receiving performance based remuneration and independent directors represent 33% of the board whilst we expect a majority for a company of this size. Further, this director's tenure is 11 years on the board; they are no longer classified as independent. We however acknowledge the following: -Board independence has increased overall due to the addition of new (female) NEDs in comparison to the previous year; - As noted in the annual report, the lead independent director has been asked to stay on the board for an additional year to facilitate experienced management.

JUST EAT plc AGM 13/09/2023 Netherlands	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 3. Approve Remuneration Policy	For (Exceptional)	This is the company's first Remuneration Policy since IPO. A PSP will operate from 2015 under the new Policy, based on EPS and TSR performance. EPS targets for 2015 are just about acceptable. None of any annual bonus award is deferred which is not aligned with the long term interests of shareholders. However, base pay is well below lower quartile at the moment and is a newly listed company so we are not taking voting action this year. We should ask for deferral of bonus for the future.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. <b>DE LA RUE PLC</b> <b>AGM</b> <b>07/09/2023</b> <b>United Kingdom</b>	Resolution 1. Accounts and Reports	For	
	Resolution 2. Remuneration Policy	For (Exceptional)	<p>Under normal circumstances, we would not be able to support this resolution. The company is introducing an Investor Return Plan, which will be an LTIP that will grant share options that will vest subject to employment and a relative TSR underpin. This will be granted in addition to the normal LTIP. While there is a keen preference to see LTIP awards that are subject to pre-determined performance targets, we acknowledge that total award quantum is relatively low. A further concern however is that altogether, the bonus opportunity is higher than the opportunity under the LTIP. The company explains that this change is being propositioned due to the challenges encountered in the past two years, largely attributed to the impact of Covid-19 on the market, leading to unsatisfactory share price performance. To support these changes, the company cit's the need for a long-term focus on improving the share price, which would be the main driver behind modifying the remuneration focus. Overall, exceptional support is warranted at this time, as safeguards are in place to control overall quantum, and a satisfactory vesting period for all long-term incentives.</p>

	Resolution 3. Remuneration Report	For (Exceptional)	<p>Under normal circumstances, we would not be able to clearly support this resolution. The company has experienced a significant share price drop, c. 51%. To acknowledge this and any potential windfall gains on vesting outcomes of LTIP awards granted in FY2023, the company has reduced the grant sized by 20% of salary. Notwithstanding this action, the number of shares granted has still increased considerably (by 90% for the CEO). The company has not committed to making any further adjustments at vesting point, should this be warranted based on share price performance. A further concern is that the company is introducing an award vehicle that will grant share options that would only vest based on share price appreciation, which can give rise to a significant vesting outcome in two-three years from now. We will take stronger voting action when the FY2023 LTIP is scheduled to vest, should this be necessary. A further mitigating factor is that the target range of the FY23 awards have been increased relative to those set for the FY22 awards. Accordingly, exceptional support is warranted at this time.</p>
--	-----------------------------------	----------------------	--

	Resolution 4. Elect Nicholas Bray	For (Exceptional)	Under normal circumstances, we would not be able to support the re-election of Nick Bray, the most tenured member of the nomination committee (as the chair of the nomination committee is being appointed for the first time this year). We have concerns over the lack of women on the Board. However, it only recently fell from 43% in the previous AGM. The Nomination Committee intends to review its diversity, equity and inclusion policy early in FY24 to take into account the policy and reporting requirements of the new Listing Rules. Board diversity will be kept under review.
	Resolution 5. Elect Ruth Euling	For	
	Resolution 6. Elect Mark Hoad	For	
	Resolution 7. Elect Dean Moore	For (Exceptional)	Under normal circumstances we would have voted against the re-election of this director to reflect our concerns that, in aggregate they have too many board commitments. However, we have exceptionally supported their re-election given they are the Executive Director of this company. Instead, our default position would be to vote against their election as a non-executive at their other companies.

	Resolution 14. Authority to Issue Shares w/o Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

<b>07/09/2023</b> <b>United Kingdom</b>	Resolution 3. Elect Philip Meeson	For (Exceptional)	<p>Normally we would not have supported the re-election of the Exec Chair for several reasons. Firstly, we prefer an independent Board Chair so they can perform effective oversight of management unconflicted. Secondly, he sits on the remuneration committee which should be comprised solely of independent directors. Lastly, there is a lack of gender diversity on the Board and there is no formal nomination committee. However, we have exceptionally supported Mr Meeson's re-election in recognition that on 6 July 2023, the Company announced that he intends to step down from the Board. He will move to Non-Executive Chair during this year and remain in that role until a successor is appointed. As a member of the remuneration committee, the Company explains that this reflects the insight that he is able to bring regarding engagement and reward of the top talent within the business from being the founder of the Group. He does not receive a bonus or share award and abstains from any discussion about his own remuneration at these meetings, and therefore the Board does not consider that his membership compromises the effectiveness of the Committee's work. Regarding the lack of women on the Board, we are pleased to see that the Company has recently appointed a female director and although this is not considered substantial progress, we are also mindful that the Board composition has improved more broadly, with there being two more independent directors now than there were at the 2022 AGM.</p>

However, we have exceptionally supported as we are mindful that three of her roles are at investment companies (including this one) which typically do not require too many meetings per year and the other companies are AIM listed, with less regulatory burden than a premium listing on the Main Market. As such, we are relatively comfortable that she does have sufficient time to devote to each of her roles, although we will be keeping the situation under review. <p><b>SPEEDY HIRE PLC</b>  <b>AGM</b>  <b>07/09/2023</b>  <b>United Kingdom</b></p>	<p>Resolution 01. Accounts and Reports</p>	<p>For (Exceptional)</p>	<p>Under normal circumstances, we would not be able to support this resolution as the Company identified a shortfall in the quantity of non-itemised assets of c. GBP 20.4m and the Board instigated an external investigation into the issue. The annual report notes that investigation concluded that the issue had resulted from problems with the company's controls and accounting procedures for non-itemised assets over a number of years, and in particular the reconciliation of such counts to the group's fixed asset register. In addition to corrective actions and new controls implemented by management, the Board has agreed a remedial plan to further strengthen the financial control environment for managing non-itemised assets and to provide assurance for the relevant accounting values, which remains in progress. Investigations remain ongoing, hence exceptional support is considered warranted at this time.</p>
---	--	------------------------------	---

	Resolution 02. Remuneration Report	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the CEO has received a 10% salary increase from GBP 450,000 to GBP 495,000, which is higher than that of his predecessor, despite limited experience in senior board roles. In addition the salary increase to the wider workforce has not been disclosed. However, the new CEO is an internal hire and therefore did not receive any additional recruitment incentives, such as buyout awards and the new salary level in line with the revised level the Remuneration Committee had intended to grant to the former CEO for FY2023/24, as communicated in last year's report. The resulting salary does not stand out as excessive for a company of this size. Additionally, the newly appointed permanent CFO's salary is also yet to be disclosed, which will be kept under review. As such, qualified support is considered warranted.
--	------------------------------------	----------------------	--

	Resolution 03. Remuneration Policy	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as deferral arrangements can be stronger. The change to this policy is that for the maximum bonus potential at 100% of salary - 50% of any annual bonus paid in excess of 75% of salary will be compulsorily deferred into shares for two years. If the maximum opportunity is 125% of salary, then at least 20% of the entire annual bonus award would be deferred into shares for two years. It is preferable to have a specified absolute percentage of annual bonus pay-outs to be deferred, irrespective of shareholding guidelines. We however acknowledge that the deferral policy is a positive amendment to the policy. We will let the company know of our expectations for better practice going ahead.

Mitigating, the size of the companies of his total mandates are relatively small, which reduce our concerns on the gravity of his total external commitments. Notwithstanding the ongoing investigations into non-itemised assets, which may require further scrutiny from the board, exceptional support is considered warranted at this time.

	Resolution 16. Authority to Issue Shares w/o Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption Groups revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

<b>ASHTeAD GROUP PLC AGM</b>	Resolution 1. Accept Financial Statements and Statutory Reports	For	

<b>06/09/2023</b> <b>United Kingdom</b>	Resolution 2. Approve Remuneration Report	For (Exceptional)	<p>Normally, we would not be able to support this resolution. Firstly, in FY2022, the company granted one-off grants under the Strategic Plan Awards, which increased maximum overall variable pay quantum to 900% of salary for the CEO. The LTIP maximum opportunities were also increased significantly for EDs. These decisions led to significant dissent at previous 2 AGMs. The Company acknowledged dissent and has agreed that policy to be tabled at the 2024 AGM will not contain the option of granting a one-off award to executive directors. The Remuneration Committee will review the LTIP performance measures and plans to include an ESG target and review vesting levels, which currently offers excessive pay. These are positive indications that will be kept under review. The remuneration gap between the Company and US-listed peers was stated to be significant and the Remuneration Committee intends to address this. The pay ratio is excessive (has been increasing over last 4 years); largely due to a larger bonus outcome in the year under review but is supported by positive performance in FY2022, hence will not be raised as a voting concern. Ashtead is not an accredited Living Wage Employer as a whole. Sunbelt UK is an accredited Living Wage Employer and in North America it has adopted a Leading Wage approach to ensure all employees are paid an hourly rate more than the state and federal recommended rates and competitive to the market. This requires further engagement.</p>

<b>AGM</b> <b>06/09/2023</b> <b>United Kingdom</b>	Resolution 2. Remuneration Report	For	
	Resolution 3. Remuneration Policy	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution. The company will shift from a traditional LTIP to a restricted share plan; however, a proper 50% discount to the 'normal' award level for the FD and the Managing Director of JSSL is not being applied. Mitigating, the resulting grant size of 50% of salary as RSPs is a relatively small award size. Further, the Company is also proposing to increase the maximum annual bonus opportunity from 100% to 125% of base salary. Mitigating, the Company has provided sufficient rationale for the annual bonus opportunity increase, which, is calculated by reference to a relatively modest salary and does not raise any major concerns comparative to other FTSE SmallCap constituents.
	Resolution 4. Amendment to Performance Share Plan	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as one of the changes to the award plan rules is the removal of a rule that states that awards may only vest after a minimum three-year period. The company explains that this will be reserved for specific circumstances, such as when awards are granted later than would be the ordinary case. While this explanation is noted, this represents excessive flexibility than desired. Awards will already be subject to no performance conditions; and so we expect other minimum requirements (such as a sufficient vesting period) to be in place. We will closely monitor the usage of this provision.

	Resolution 4. Approve Remuneration Report	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution. The primary reason is because upon his appointment as the FD, Richard Pike's remuneration package consists of base salary set at GBP 550,000. Notably, his salary level is set at a c.4% premium to Adrian Marsh's base salary in FY2022/23, and set c.58.4% higher than his previous salary at Biffa Plc. Nonetheless, the resulting salary appears in line with the median salary of FDs in FTSE 100 companies. A further concern is that the Company is not an accredited Living Wage Employer, slightly accelerated as the CEO to median employee pay ratio exceeds 100 marginally. This will be communicated to the company, to gain an understanding of how pay for the wider workforce is being bolstered. In the round, exceptional support is warranted at this time.

	Resolution NB.8. Approve Remuneration Policy	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution, because the conversion and incorporation of the service-based bonus into salary results in an increased salary reference to variable pay award to Executives. We however acknowledge that this results in the entire variable pay component now being performance based and STI and LTI maximum opportunities have been reduced following the incorporation of the December bonus into the basic salary, in order to maintain the total pay to Executives. While quantum tends to be a concern at this company, we prefer the straight-forward remuneration approach. Implementation of this new policy will be kept under review.
--	--	-------------------	---

	Resolution NB.9. Approve Remuneration Implementation Report	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution for a number of reasons. There is slight inconsistency in the disclosure of targets that applied to the FY2023 LTIP, and the threshold and Stretch 1 and Stretch 2 performance targets of the revised measures have not been specified. This may raise concerns on whether the targets are sufficiently stretching, which may also exacerbate existing concerns on the Directors' pay levels. It is further highlighted that the FY2023 LTIP awards were granted at a time of relatively low trading performance, thereby increasing the underlying shares available to LTIP awards during the year. We however can appreciate that the majority of targets are disclosed. We further note that EDs received above-inflation salary increases for the year under review. It is, however, recognised that the maximum opportunity of variable pay awards have been reduced, reducing overall concerns on quantum.

We recognise though that the company has the highest credit rating (AAA) from multiple rating agencies. The company states, [...] in line with the past practice, the interest rate on the proposed borrowings is also envisaged to be comparable to the interest rates of prevailing interest rates of AAA rated PSU corporate bonds. <b>INFO EDGE INDIA LTD</b> <b>AGM</b> <b>25/08/2023</b> <b>India</b>	Resolution 1. <b>LARSEN AND TOUBRO LTD</b> <b>EGM</b> <b>25/08/2023</b> <b>India</b>	Resolution 1. Approve Buyback of Equity Shares	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution, as the purchase price equates to a premium of 17 percent over the closing price of shares on Bombay Stock Exchange (BSE) and the National Stock Exchange of India (NSE) on the date of the board meeting (July 25, 2023) each and premium of 28 percent over the volume weighted average price of shares on BSE and NSE each, for three months prior to the board meeting, exceeding our guideline (for such authorities) of 10%. We however acknowledge that the company is not likely to carry out the buyback over a single transaction, and instead will use this authority over a gradual time frame. Further, this authority will enable to the company to return cash via dividends and buybacks, in order to increase shareholder value in the longer term and improve ROE, as the company cit's as its objective from this transaction. We thus support this resolution on an exceptional basis.

Re-elect Hendrik J. du Toit	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as this director is a full-time executive of another Company, yet this isn't the only other Board they sit on. We seriously question how full-time executives can devote sufficient time to multiple other boards. We are however cognisant that his external mandate is at Prosus NV, a company with which the company has a significant cross-shareholding. This shareholding is contested to be removed as widely reported. Having noted the nature of his external mandate, a softer voting stance is being assumed at this time.

	Resolution 5. Authorize Issuance of Debt Instruments	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the board seeks shareholder approval for the issuance of non-convertible debentures or other debt securities up to an aggregate amount of INR 25 billion via private placement. This authority is valid for a period of one year from the date of approval by shareholders. It is noted that the company has total deposits and total borrowings of INR 2,175.02 billion and INR 774.52 billion, respectively and the proposal has the potential of raising the company's gearing to 200.91 percent. We however acknowledge that the company's credit rating as on January 31, 2023, stood at IND A-/ Stable which implies adequate degree of safety regarding timely servicing of financial obligations. Having noted this, there are no significant concerns with the nature of the request.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 1.5. Elect Director Michael E. Martino	For (Exceptional)	Under normal circumstances, we would have voted against the re-election of this Director as he is not independent (due to having a professional relationship with the company and having served on the board for a significant amount of time) and sits on key board committees which should comprise independent directors only. However, we have exceptionally supported as we have recently invested in the Company (so will be engaging on the issue) and have no broader concerns over Board composition. In fact, we welcome that the roles of CEO and Chair are held by different people and all other non-executive directors are independent. Also, gender diversity has recently improved.
	Resolution 1.6. Elect Director David L. McAusland	For (Exceptional)	Under normal circumstances, we would have voted against the re-election of the Board and Nomination committee Chair to reflect our concerns that there is no ethnic diversity on the board. However, we have exceptionally supported as we have recently invested in the Company (so will be engaging on the issue) and have no broader concerns over Board composition. 	Resolution 4. Advisory Vote on Executive Compensation Approach	For (Exceptional)	Under normal circumstances, we would have voted against the advisory vote on Executive pay as less than 2/3 of LTIP awards are performance based, therefore pay arrangements may not be appropriately aligned with performance. In addition, the targets, thresholds, and actual results used to determine the vesting of the CEO's long-term incentive awards have not been disclosed for the most recent fiscal year. However, we have exceptionally supported as there is no disconnect between pay and performance for the year under review. Also, we have recently invested in the Company (so will be engaging on the issues instead).

<b>AU SMALL FINANCE BANK LTD</b> <b>AGM</b> <b>10/08/2023</b> <b>India</b>	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would have voted against the AR&As (noting that there are no non-execs / members of the Nomination committee up for re-election) to reflect concerns over the lack of women in senior leadership positions. However, we have exceptionally supported as we welcome that since the last AGM, another female director has been appointed to the Board (women now represent 20% of the Board - previously 10%) which partly addresses our concerns over the lack of gender diversity (as we hope that this will have a knock on effect on diversity in management).

<b>10/08/2023</b> <b>Guernsey</b> <b>Channel Islands</b>	Resolution 2. Approve Remuneration Report	For (Exceptional)	Under normal circumstances, we would have voted against the remuneration report to reflect concerns over salary positioning and salary increases. The CEO's salary is positioned in the upper quartile for the index on a balanced comparison and the CFO's salary has been increased by 59% to £350,000. However, we have exceptionally supported as we are mindful that neither director currently receives any bonus or long-term incentive award (both are major shareholders), nor pension contributions, and they will continue to not participate in variable incentive arrangements for FY2024. In respect of the CFO, the Company states that his remuneration is significantly below market and it is also noted that he also fulfils the role of COO.
	Resolution 3. Approve Final Dividend	For	

	Resolution 4. Re-elect Bernard Fairman as Director	For (Exceptional)	Under normal circumstances, we would have voted against the re-election of Bernard Fairman as he is both Chair and CEO. Governance issues may arise when these roles are undertaken by one individual. An independent chair should be responsible for the leadership of the Board and oversight on management. The CEO is responsible for the day-to-day operations and formulating strategy. However, we have exceptionally supported as we are mindful of the company's explanations: The Nomination Committee and the Board continue to consider that, in the company's specific case and circumstances, the role of an Executive Chairman is in the interest of Shareholders in order to utilise the proven leadership qualities and significant experience of Bernard Fairman to ensure the ongoing commercial success of the Group. Furthermore, Bernard Fairman was one of the founders of the Company in 1984 and can therefore provide stability and continuity through his detailed understanding of the group's operations, both past and present, and the markets in which it operates. These qualities are considered to be of particular importance given the company's growth ambitions and relatively recent listing. It is also noted that the SID undertakes certain responsibilities normally assigned to a non- executive chair Moreover, we note that the Board continues to review its succession planning regularly, and that in due course, when Bernard Fairman retires, the Chair role will become independent.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 13. Authorise Issue of Equity without Pre-emptive Rights in Connection with an Acquisition or Other Capital Investment	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

TELECOM PLUS PLC AGM	Resolution 1. Accept Financial Statements and Statutory Reports	For	

<b>04/08/2023</b> <b>United Kingdom</b>	Resolution 2. Approve Remuneration Report	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as there are no ESG metrics in pay plans. While Emissions reductions Scope 1 and 2 emissions will be added to the LTI in the ensuing year, it will only be an additional performance underpin rather than a defined metric of the plan. Furthermore, the Company is not an accredited Living Wage Employer. This year, the abovementioned concerns are not so severe as to warrant an against vote - the CEO to median employee pay ratio is not so significant, and the existence of an ESG-based underpin is acknowledged in the pay structure.

Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

Large fees paid for such work may undermine their independence. However, we have exceptionally supported as similar proposals have been approved previously, and there is no evidence of the non-execs having provided consultancy work at a level which would potentially impact their independence in previous years. Also, the overall level and structure of fees do not appear excessive for a bank of this size.

	Resolution 4. Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

Electra Private Equity PLC GBP AGM 31/07/2023 United Kingdom	Resolution 1. Re-elect Neil Johnson as Director	For (Exceptional)	Under normal circumstances we would have voted against the re-election of Neil Johnson to reflect overboarding concerns. In addition to him being Chair of Unbound, he continues to serve as a Non-Executive Chair at Qinetiq and is also Chair of Dialight plc. A separate issue is that as a former Executive Chair of the company, he cannot be considered an independent Chair. However, we have exceptionally supported in recognition that following the termination of the formal sale process in the absence of potential offers for the sale of the Company, Unbound has recently suspended trading on AIM and is now reviewing the options available to the Company.

Advisory Vote to Ratify Named Executive Officers' Compensation	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as less than 2/3 of LTIP awards are performance based. The proportion of performance-related awards is however only less than 2/3 by a small margin. We also see evidence of the significance of performance targets, such as under the bonus where no awards paid out due to under-performance under the elements of safety and diversity/inclusion (even though EBITDA and revenue targets were met). We will engage with the company to encourage them to increase this element of the performance-based LTIP proportion, and take stricter voting action ahead of the next AGM if no meaningful change is made or initiated.

<b>AXIS BANK LTD</b> <b>AGM</b> <b>28/07/2023</b> <b>India</b>	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as women represent less than 20% of the board (13%). However, it only recently fell from 23% in the previous AGM. This will be kept under review ahead of the next AGM; we will exceptionally support this resolution at this time.

We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we have exceptionally supported their appointment as we are mindful that the proposed term is just one year above our guidelines and that we have no concerns regarding this director, who is considered independent, and in fact improves the composition of the board.

Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

<b>NORCROS PLC</b> <b>AGM</b> <b>26/07/2023</b> <b>United Kingdom</b>	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Final Dividend	For	
	Resolution 3. Approve Remuneration Report	For (Exceptional)	<p>Under normal circumstances, we would not be able to support this resolution due to the dissent that the company's remuneration practices has received for two years in a row. Last year's remuneration report received just 80.2% support, with serious questions raised over the CEO and CFO salary increases. The CFO received a salary increase of 11.1% for FY2023, and 10.3% for FY2024, to GBP 320,000, as part of a two-phased increase. This is significantly above the wider workforce increase of 6%. Mitigating, the intention to make such an increase, in two tranches, was communicated at the time of the 2022 AGM. Further, the CFO's salary level does not raise significant concern. We acknowledge that a new CEO has been appointed, that too at a salary lower than his predecessor's by 12%. The new remuneration policy will see an increase in the LTIP opportunity, with effect from FY2025. Salary increases alongside will be scrutinised for appropriateness, and this will be communicated to the company.</p>

	Resolution 4. Approve Remuneration Policy	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as LTIP award opportunity is being increased somewhat significantly, by 50% of salary (up to 150% of salary). Mitigating, the increased limit won't be utilised for FY2024, and that shareholding requirements may be increased if it is. The increased award opportunity does not raise concern given the size of the company and its peers; however, the circumstances wherein the increased headroom is considered warranted will be assessed for appropriateness.
	Resolution 5. Re-elect Alison Littlely as Director	For (Exceptional)	Under normal circumstances, we would not be able to support the nomination committee Chair to reflects our concerns over the lack of women in senior leadership positions. However, we are mindful that having a sufficient number of women represented on the Board might be critical for improving gender diversity throughout the organisation; as such, a negative vote on this director is not considered to be in shareholder interests at this time. We will engage with the company to emphasise the importance of appointing greater diversity on board before the 2024 AGM.

	Resolution 17. Approve Increase in Limit on the Aggregate Amount of Fees Payable to Directors	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the proposed increase to the maximum aggregate annual limit on Directors fees is significant. We do acknowledge that the increase proposed is to the fees ceiling; actual increases will be implemented in line with the remuneration policy, and will be assessed under the remit of future remuneration report resolutions. As such, exceptional support is considered warranted.

Further he is effectively performing the roles of both CEO and Board Chair. However, we have exceptionally supported as we are mindful that the Board has been completely overhauled in less than a year. 	Resolution 3. Approve Remuneration Report	For (Exceptional)	Under normal circumstances, we would have voted against the remuneration report as the company is not accredited with the Living Wage Foundation and therefore there is no guarantee that the company pays / will continue to pay the Real Living Wage. The company has noted that the group's Human Rights Policy includes a commitment to pay wages at rates that are meaningfully ahead of minimum statutory rates. As part of its annual review of pay and working conditions, the Remuneration Committee received updates on pay rises being given to our colleagues globally, how they compared to local rates of inflation and how they compared to local minimum wage requirements. As no significant concerns are raised in relation to the gap between executive and median employee pay, and in the absence of any other overriding remuneration concerns, exceptional support is considered warranted at this time.

	Resolution 3. Advisory Vote to Ratify Named Executive Officers' Compensation	For (Exceptional)	Under normal circumstances we would have voted against the remuneration arrangements as we continue to have concerns over the high CEO: Employee pay ratio and that less than 2/3 of LTIP awards are performance based. Also, for the performance-related awards, the relative TSR measure targets median performance only and no cap is disclosed for negative absolute results. However, we have exceptionally supported as we are mindful that the new CEO's total compensation is significantly lower than his predecessor. For example, the total pay for new CEO Sanjiv Lamba was \$USD 16.4m compared to \$USD 35.5m in the previous year for Steve Angel. Both the new salary and variable maximum opportunity (and target amounts) for the new CEO are considerably lower. His FY22 equity award was valued by ISS at \$10.3 million for FY22 (\$8.5 million based on the company's valuation), compared to the \$19.9 million award granted to former CEO Angel in FY21. Benefits are down too. In terms of annual bonuses, the CEO's annual incentive paid out at 145.7 percent of target, or \$2.6 million in FY22, compared to the \$5.3 million for the former CEO in FY21 (which paid out at 185 percent of target). As such, this has resulted in the CEO: median employee pay ratio coming down from 773:1 in FY21 to 326:1 in FY22. In addition, more of the long-term incentive awards are performance based (42% compared to 37.5% in FY21 for the former CEO).

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. 	Resolution 2. Approve Final Dividend	For	

	Resolution 3. Approve Remuneration Report	For (Exceptional)	Normally, we would not be able to support this resolution because Executives have received bonus awards, based on non-financial metrics. Pay outcomes can be scrutinised against the wider context of UK water services' performance in recent years, and their contribution to river pollution. The bonus awards are notably reduced comparative to the previous year. In addition, the Executive Directors have waived a portion of their bonus that was attributable to the company's Better River commitments, which is measured as a percentage of 2022/203 programme milestones delivered. Elements of the 2020 vested LTIP that pertained to water clarity (sewer flooding incidents, 5% weighting, pollution incidents with 5% weighting, treatment works compliance with 5% weighting, leakage with 5% weighting, and the Environmental Agency's EPA rating with a 5% weighting), have all been waived. There is concern regarding the stretch of certain targets. For example, the C-MeX contractor and perception raking out of 17 water companies target, which is a measure created by Ofwat to incentivise companies to provide positive customer experience for customers, was set for 5th as the position that would yield the maximum under this element. The company was positioned 5th this year, 7th last year, 5th the previous year, and 4th in the year preceding that (2020). The level of stretch can be questioned, which we will communicate through engagement. In the round, qualified support is warranted at this time.

	Resolution 17. Authorise Issue of Equity without Pre-emptive Rights in Connection with an Acquisition or Other Capital Investment	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 8. Re-elect Nicholas Vetch as Director	For (Exceptional)	Under normal circumstances we would have voted against the re-election of Nicholas Vetch as he is the executive chairman and has served on the Board for 24 years raising questions over the checks and balances on the Board. Further, there is no clear succession plan for this role. However, we continue to support his re-election as while having an executive chairman is not our preferred governance structure, over a number of years we have benefitted from strong performance and a significant alignment with the management team who all have significant stakes in the business (Nicholas Vetch is one of the co-founder of the company and has the largest stake but the others have significantly alignment with other shareholders too). Further, the company has maintained a strong balance of independence on the board, and continues to make positive improvements in diversity. In terms of succession, the company explains that contingency plans in place in the event one of the Executive Directors cannot fulfil their responsibilities, with a matrix of who would step in to cover their roles.

We question how full-time executives can contribute sufficient time to multiple other boards. However, we have exceptionally supported his re-election after having engaged with the Company - we received assurances that the issue is currently under review and to date he has been very engaged with the business. We have made it clear to the Company however, that we would not be able to continue supporting the status quo.

	Resolution 2. Approve PricewaterhouseCoopers LLP as Auditors and Authorize Manager to Fix Their Remuneration	For	
	Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 3. Approve Remuneration Policy	For (Exceptional)	Under normal circumstances, we would have voted against the new pay policy as both bonus and LTIP maximum opportunities are being materially increased. The Company is increasing the bonus maximum opportunity by 25% of salary, from 125% of salary to 150%, while LTIP limits are being increased by 50% of salary for both EDs, from 150% of salary to 200%. However, we have exceptionally supported as the amendments revert the policy limits to pre-pandemic levels, and these are not considered out of line with market peers (i.e in 2020 the company took the usual but welcomed step to reduce pay opportunity). Further, fixed pay is positioned below median of the company's peers. We also positively note that there are new improvements to the policy with the introduction of a post-employment shareholding guideline.

<p><b>20/07/2023</b> <b>United Kingdom</b></p>	<p>Resolution 2. Approve Remuneration Report</p>	<p>For (Exceptional)</p>	<p>Under normal circumstances, we would not be able to support this resolution as the Company is not an accredited Living Wage Employer. We however acknowledge that there are no significant concerns from the perspective of pay comparisons between executives and median employees. Further, the company has, in recognition of the cost of living challenge, made a significant investment in a range of improvements to reward and benefits. This extensive package included increases to salaries, commitment to deliver above the real living wage, and creation of the QinetiQ Hardship Fund. The company is in the process of seeking accreditation from the Real Living Wage Foundation, which would also apply to the company's supply chain.</p>
--	--	------------------------------	---

	Resolution 3. Approve Remuneration Policy	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution because the maximum long-term incentives will increase from 125% of salary to 250% of salary under the proposed Long-term Performance Award Plan (LPA). Mitigating, the revised LTI will be subject to a three-year performance period and time pro-rating in the event of a change in control. The company is moving away from a complex bonus banking plan to a relatively traditional pay structure, whereby each type of variable award will be subject to performance conditions, and the stretch of these conditions' targets will be assessed annually. In addition, the new maximum award opportunity is in line with market norms for a company of this size. A further outstanding concern is that the post-cessation shareholding requirement of retaining shares equivalent to 100% of salary for the first year, 50% of salary for the second year after cessation, is considered insufficient against market standards (i.e 200% of salary for two years). We have engaged with the company and the main mitigating factor appears to be that unvested share awards at the time of departure would normally continue to vest (subject to pro-rating and application of the performance conditions) on their normal schedule for good leavers and therefore their interests will continue to be aligned with shareholders. However, this is unlikely to be any different from practice at other companies so is not considered a sufficiently mitigating factor to be below market practice.

	Resolution 7. Re-elect Shonaid Jemmett-Page as Director	For	
	Resolution 8. Re-elect Neil Johnson as Director	For (Exceptional)	Under normal circumstances, we would not be able to support this director's election as he has assumed a new chair position at a listed company after the previous AGM, bringing his total external mandates above guidelines. However, we have exceptionally supported because the company has justified his positions, stating that his commitment to his role at QinetiQ is a priority in terms of time commitments. It is further acknowledged that the size of his external mandate companies is relatively small. A further concern is the lack of ethnic diversity on board; the company has however given a commitment to achieving the target of the Parker Review by the end of the year.

	Resolution 17. Approve Long-Term Performance Award Plan	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the maximum long-term incentives will increase from 125% of salary to 250% of salary under the proposed Long-term Performance Award Plan (LPA). Mitigating, the LPA brings the incentive framework into line with current market standards. While the current long-term incentive framework is essentially based on yearly performance, LPA awards will be subject to a three-year performance period and time pro-rating in the event of a change in control. Even though quantum has increased, it is not out of line by what is offered by peers.

This brings total quantum at a higher level, the need for which may be questioned. At this time, total pay outcomes do not raise significant concern, having noted company performance. 	Resolution 14. Re-elect Mike Rogers as Director	For (Exceptional)	Under normal circumstances, we would not be able to support his re-election as we have identified concerns on pay consistently over a number of years. We have abstained on his re-election in a previous year due to insufficient action taken towards improving remuneration structures. We acknowledge that total pay outcomes in the year under review have reduced which indicates the existence of target stretch to an extent within pay frameworks. We will focus on using engagement to escalate our concerns on pay structures.

	Resolution 18. Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

<b>13/07/2023</b> <b>United Kingdom</b>	Resolution 2. Approve Remuneration Report	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as salary increases for the CEO is in line with that granted to the wider workforce at 8% with limited rationale associated with the increase. The salary level however does not raise significant concern, and neither does the CEO to median employee pay ratio. Further, there remains scope for further disclosure under the personal objectives portion of the annual bonus, which holds a 25% weighting of the total award and there appears to be scope for further stretch under the financial metrics, given the repeated full pay-out under these metrics. This will be communicated through engagement. There is no apparent disconnect between pay and performance at this time.
	Resolution 3. Approve Remuneration Policy	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as target bonus as a percentage of maximum is more than 50%. It however only exceeds this threshold by 3%. Furthermore, pension contributions for Executive Directors are set in line with the local workforce where the Executives are based. Such an approach may lead to the possibility of an unrepresentative pension rate comparative to the majority of the workforce. At this time, pension contribution is aligned with Dutch practice, which represents the majority of the workforce. This will be kept under review.

	Resolution 2. Approve Remuneration Policy	For (Exceptional)	Under normal circumstances we would be unable to support as the bonus deferral only applies as long as shareholding guidelines have not been met, which we do not view as sufficient. In addition, we have had concerns with the level of awards under their share plan. However, we are pleased for the incoming CFO her awards will be at a lower level and her salary is below her predecessor. Approve Adjustment of Matters Related to Employee Share Purchase Plan	For (Exceptional)	Under normal circumstances, we would have voted against the amendments to the company's employee stock purchase plan (ESPP) due to some concerns over the performance targets i.e the performance hurdles were proposed in the second half of the year which also took into consideration of the company's performance from the first half of the same year. However, we have exceptionally supported as the disclosure / inclusion of performance targets and a three year vesting period is better than what we have seen at many other Chinese companies proposing such schemes. Also, up to 530 employees will be participating. Although it is unclear as to the split (i.e the proportion of total shares that will be awarded to the top executives), in principle we are supportive of a large number of employees being incentivised to grow revenue

Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

<p><b>SAFESTORE HOLDINGS PLC</b>  <b>EGM</b>  <b>12/07/2023</b>  <b>United Kingdom</b></p>	<p>Resolution 1. Approve Remuneration Policy</p>	<p>For (Exceptional)</p>	<p>Under normal circumstances, we would have voted against the new Remuneration policy given that the maximum LTIP opportunity is being significantly increased from 200% to 480% of salary for the CEO and 344% of salary for other Directors. We questioned the need for such increases, particularly as substantial LTIP awards vested in FY21 and FY22 which should go some way in terms of management retention and motivation. However, we have exceptionally supported as we are comfortable in principle with significantly increasing LTIP potential given the low positioning of fixed pay i.e. this is in keeping with our principle of pay for (long-term) performance. Also, total LTIP award levels will be reduced annually during the remuneration policy period, accompanied by phased increases in salary which is essentially future-proofing the policy. Overall, the proposed LTIP is a considerable improvement against previous arrangements i.e much smaller and the max pay-out, with the x1.6 multiplier, requires upper decile TSR performance (previously upper quartile performance was required). Finally, the proposed remuneration framework reflects some of the feedback that we and other shareholders provided during the consultation process - both the maximum LTIP opportunity and the level of the 2023 base salary increase for Directors were reduced.</p>

	Resolution 2. Amend 2020 Long Term Incentive Plan	For (Exceptional)	Under normal circumstances, we would have voted against the new Remuneration policy in recognition that the maximum LTIP opportunity is being significantly increased from 200% to 480% of salary for the CEO and 344% of salary for other Directors. However, we have exceptionally supported as we are comfortable in principle with significantly increasing LTIP potential given the low positioning of fixed pay (eg. the CEO's salary of £482k is below lower quartile -i.e. this is in keeping with our principle of pay for strong (long-term) performance. Also, total LTIP award levels will be reduced annually during the remuneration policy period, accompanied by phased increases in salary - which is essentially future-proofing the policy.

The change in CFO pay arrangements will result in a variable pay framework that is more leveraged towards long-term performance. While we can't fully support the remuneration policy for other reasons (lack of sufficient deferral policy for bonus awards), the change proposed under the new LTIP in isolation is not considered contentious for a company of its size.

	Resolution 9. Elect Bpifrance Investissement as Director	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we have exceptionally supported their appointment as we are mindful that the proposed term is just one year above our guidelines and that we have no concerns regarding this director, who is considered independent, and in fact improves the composition of the board.
	Resolution 10. Approve Remuneration Policy of Chairman and CEO	For (Exceptional)	Under normal circumstances, we would have voted against this remuneration-related resolution as severance arrangements are equal to 18 months of base salary plus variable compensation. However, as French companies used to have separate proposals to approve the severance package, and as there are no other concerns identified and no severance was paid during the year, we have exceptionally supported.

While the additional positions are numerous, we acknowledge that the breadth of his experience in clean technology is valuable to National Grid. 	Resolution 17. Approve Remuneration Report	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution. Two fatalities took place during the year under review, one of them which may be attributed to work safety conditions. We however acknowledge that some remedial action was taken to reduce the bonus outcome in light of these events, as the original formulaic outcome of c. 88% of opportunity was lowered to reflect the fatality in Massachusetts. At the discretion of the Committee, the outcome of the operational element was halved, from 67% to 33%. On safety, the Company comments: we have extensively focused on safety improvements this year and changed our Group-wide approach to safety through our Stand up for Safety campaign. In other areas of focus, we highlight that the pay ratio is slightly excessive and increased from last year (2022: 111:1; 2021: 105:1). This is largely due to a bigger pay-out under vested LTIPs, as group value growth and RoE performance was relatively favourable this year. Otherwise, salaries have been increased, the appropriateness may be questioned, given that executives receive relatively more than the median of the index. We do acknowledge though that fixed pay has reduced in pensions (down from 20-23.4% of salary to 12% of salary with effect from 1 April 2022).

	Resolution 4. Re-elect Richard Laing as Director	For (Exceptional)	Richard Laing, the Nomination Committee Chair, has been flagged as there is no ethnic diversity on the board. However, this is not an issue (for now) given this is an externally managed investment trust which has no employees. Also, there are no concerns over diversity more broadly. Further, as stated in the annual report, the Company is committed to promoting greater diversity on the Board. The Board has achieved the FTSE Women Leaders Review target of having 40% of FTSE 350 board roles filled by women by 2025, but is still working towards the Parker Review target of having at least one board member from an ethnic minority background by 2024. The limited diverse candidate pool for Jersey-resident directors and the ongoing issues on overboarding present a challenging and sometimes conflicting set of requirements. The Board has previously stated that it would consider redomiciling the Company to the UK under a proposed UK Corporate Redomiciliation regime, which would allow any future directors to be sought from a much wider candidate pool. Despite the challenges, diversity remains a critical consideration in the Board's succession planning processes.

Re-elect Paul Masterton as Director	For (Exceptional)	Under normal circumstances, we would have voted against the re-election of this non-executive director as he is technically not independent due to having served on the board for a significant amount of time, and sits on the audit and the remuneration committee which should consist entirely of independent directors. However, we have exceptionally supported his re-election as we are mindful that this director's term in office has only just exceeded 9 years. Further, we note that the Company has asked Paul Masterton, who is a Jersey-resident Director, to stay on the Board for an additional year while awaiting the outcome of the UK Government's consultation on UK Corporate Redomiciliation. The Board has concluded that Paul Masterton remains an independent director and is recruiting a successor for him.

	Resolution 5. Re-elect Ed Smith as Director	For (Exceptional)	Under normal circumstances, we would have voted against the re-election of the Board and Nomination committee Chair to reflect concerns that there is no ethnic diversity on the board. However, we have exceptionally supported given that the Board Chair states that the company is building a pipeline of ethnically diverse Board talent and in May 2022 they invited an ethnically diverse Board fellow to sit on the Board pro bono for one year to gain first-hand experience of a FTSE 250 Board and receive mentoring. They have been making valuable contribution to Board discussions, particularly around technology and ESG and it has been agreed to extend their fellowship until the end of September 23 and they then hope to invite a new fellow to join the Board. This initiative was disclosed to shareholders last year and we welcome the approach, particularly as we are also mindful that the Company has very few employees (87). The annual report confirms that the Board has set itself a target of having at least one Board member with an ethnically diverse background by December 2024 in accordance with the recommendations of the Parker review and progress towards this target will be published in next year's annual report.

	Resolution 2. Approve Remuneration Report	For (Exceptional)	Under normal circumstances we would have contemplated support for this resolution, given the scrutiny on pay in the water sector in light of recent criticism of sewage contamination of rivers. Some considerations are however given to the remedial action the company has taken since these issues have come to light, and their general performance: The total pay package has reduced in comparison to previous financial year, including a reduction in bonus outcomes by c. 51%. The pay package to some extent is commensurate with overall company performance. The company has increased the weightage of the bonus performance framework that can be attributed to maintaining sound river health. They have increased the weighting of the river health assessment (including Reasons for Not Achieving Good Status, RNAGS), from 8% to 12% for FY2023, and they have incorporated an Environmental Performance Assessment (EPA) rating metric with 5% weighting. The increased accountability to river health is an expectation of the company that they are taking steps towards fulfilling. The company has acknowledged its failings, and is committed to improving river health indicators. Ofwat has determined the company to be a market leader in 2022. Such government assessments will be kept under close review going forward.

However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

However, we have exceptionally supported as we are mindful that three of her roles are at investment companies (including this one) which the company states typically have only 4-5 meetings a year and the other companies are AIM listed, with less regulatory burden than a premium listing on the Main Market. As such, we are relatively comfortable that she does have sufficient time to devote to each of her roles, although we will be keeping the situation under review.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 4. Approve Formation of Holding Company	For	
	Resolution 5. Approve Additional Special Dividend of JPY 62	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this shareholder proposal is recommended because: - The bank fails to present a convincing rationale why the proposed additional dividend payment, resulting in a payout ratio of 55 percent, cannot be possible.

	Resolution 6. Initiate Share Repurchase Program	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this shareholder proposal is warranted because: - The proposed authorization would not bind the bank to actually repurchase any shares; therefore, there are no viable reasons why the request would be disadvantageous to shareholders.

	Resolution 11. Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 3. Amend Articles to Disclose Transition Plan to Align Lending and Investment Portfolios with Goals of Paris Agreement	For (Exceptional)	Support for this shareholder proposal is warranted because adoption of this proposal should serve to enhance the company's current commitments to net zero activities and help ensure stronger alignment between the company's net zero goals and its policies and actions. It would also provide shareholders with a better understanding of the company's management and oversight of related risks. Although it is noted that the bank has set targets for five different sectors (lending activity), the company has not set or disclosed sufficient targets or investment and financing policies in carbon intensive sectors consistent with a 2050 net zero emissions pathway. Further, the asset coverage regarding the oil and gas target (the heaviest sector in terms of GHG emissions within MUFG's loan portfolio) focuses only on the upstream business excluding significant midstream and downstream emissions. Furthermore, although the company recognizes the negative impacts associated with high emitting activities, the policies that support a decarbonization pathway through financing and investments are arguably insufficiently rigorous, including its targets for the coal mining sector. Concerns are also identified regarding the escalation engagement framework that does not provide clear expectations for clients' transition plans such as timelines, metrics, targets, and feasibility evaluation making it difficult to assess the effectiveness of the framework.

	Resolution 4. Approve Restricted Stock Plan	For (Exceptional)	Under normal circumstances we would be unable to support as there is a lack of suitable or stretching performance targets for incentive schemes but awards cannot be exercised before retirement. Furthermore, the company notes that performance hurdles will be based on the company's achievement of ESG indicators, which is appreciated.
	Resolution 5. Initiate Share Repurchase Program	For (Exceptional)	The passage of this item would not require the company to actually repurchase any shares, but only set forth the maximum number of shares the company is allowed to repurchase within the proposed maximum cash outlay (10 million shares, c. 17.5% of issued share capital, c. JPY 1 billion). The final decision as to whether the company actually proceeds with share repurchases will be left to the board's discretion. Moreover, the company's articles of incorporation already allow the board to conduct share repurchases at its discretion. Therefore, the vote on this item is rather symbolic, and can be used as a tool to raise concerns over capital efficiency, which we employ and hence support this resolution.
	Resolution 6. Amend Articles to Remove All Provisions on Director Indemnification	Against	<ul style="list-style-type: none"> <li>Proposals do not add any value or strong case not made</li> </ul>
	Resolution 7. Amend Articles to Disclose Weighted Average Cost of Capital in Corporate Governance Report	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this shareholder proposal is warranted because: - This proposal will help management pay more attention to capital policy, with an opportunity to improve the company's market valuation.

	Resolution 8. Amend Articles to Realize Zero Carbon Emissions	For (Exceptional)	The shareholder requests that for long-term success, the Company shall announce initiatives in line with the Paris Agreement, considering risks and business opportunities associated with climate change, and implement them seriously. While we acknowledge that the company has already announced some climate initiatives, we note that the shareholder has not provided a time limit for this request. As such, supporting this resolution will help the company be in a better position to assess the assess all possible initiatives towards achieving carbon neutrality, some which may be in greater detail than current provisions, which it can propose at its own pace. As such, the passing of this resolution will be considered a positive motivator.

	Resolution 2.1. Elect Director Akiya, Fumio	For	
	Resolution 2.2. Elect Director Saito, Yasuhiko	For (Exceptional)	Under normal circumstances, we would not be able to support this director's election as women are not sufficiently represented on the board. We however recognise that the company has appointed a female director on board ahead of the upcoming AGM (Mariko Hasegawa) who is also an independent outsider. This is one of the company's first female director appointments on the board. This is positive progress; we will however vote against directors ahead of the next AGM if gender diversity is not improved further.

	Resolution 3.1. Appoint Statutory Auditor Onezawa, Hidenori	For	
	Resolution 3.2. Appoint Statutory Auditor Kaneko, Hiroko	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the outside statutory auditor nominee's professional ties could compromise independence. Upon engagement with the company, it is understood that the professional ties relate to past tenure as an employee at ShinNihon LLC (now E&Y ShinNihon LLC), which serves as the company's accounting auditor. The company has clarified that 5.5 years have passed since her time at ShinNihon LLC, and she did not at this time have any involvement in the management or financial policies of ShinNihon LLC. She also did not provide any audit services while at the audit firm. Her independence will be kept under review going forward; at this time, we are sufficiently satisfied of her independence levels.

	Resolution 4. Approve Stock Option Plan	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as there is a lack of suitable or stretching performance targets for incentive schemes. We however note that the shares are made available to the wider workforce, and not just executive directorship. In the round, exceptional support is considered warranted.

Amend Articles to Disclose Transition Plan to Align Lending and Investment Portfolios with Goals of Paris Agreement	For (Exceptional)	Support for this shareholder proposal is warranted because it should serve to enhance the company's current commitments to net zero activities and help ensure stronger alignment between the company's net zero goals and its policies and actions. It would also provide shareholders with a better understanding of the company's management and oversight of related risks. Although it is noted that the bank has set targets for three different sectors (lending activity) and the company has committed to enhance disclosure by next year and release new lending interim targets in view of its reduction targets, the company has not set or disclosed sufficient targets or investment and financing policies in carbon intensive sectors consistent with a 2050 net zero emissions pathway.

<b>VR EDUCATION HOLDINGS PLC AGM 29/06/2023 Ireland</b>	Resolution 1. Accept Financial Statements and Statutory Reports	Against	• Remuneration concerns and no Rem Report vote
	Resolution 2. Re-elect Richard Cooper as Director	For (Exceptional)	Under normal circumstances we would be unable to support as this director is technically non-independent, due to holding 1,000,000 outstanding share options in the company with a face value of £117,500, and sits on the audit committee. However, we note these are legacy awards and not sufficiently material to impact his independence. In addition as well as this role he holds a further NED role and an executive role at other companies. However, all these roles are a small companies and the company confirm his time commitments which appear to be manageable.

	Resolution 5. Re-elect Seamus Larrissey as Director	For	

	Resolution 6. Re-elect Kenny Jacobs as Director	For	
	Resolution 7. Re-elect Praveen Gupta as Director	For (Exceptional)	Under normal circumstances we would be unable to support this proposal as this Director is not independent due to being a shareholder representative and sits on the audit committee and we consider this inappropriate as the committee should consist entirely of independent directors. However, the company has confirmed they will step down from this committee.

	Resolution 9. Authorise Board to Fix Remuneration of Auditors	For	
	Resolution 10. Approve Remuneration of Directors	For	
	Resolution 11. Authorise Issue of Equity	For	

	Resolution 12. Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 3. Amend Articles to Disclose Business Plan through 2050 Aligned with Goals of Paris Agreement	For (Exceptional)	A vote for is warranted. It is in investors' interest to better understand how the company intends to remain viable in the long term, with the help of critical climate information and currently there is no measurable and tangible actions that provide some comfort about the possible success of the company's path to net zero GHG emissions by 2050, which is Japan's national target. The proposed contents do not appear to be unduly burdensome or overly prescriptive.
	Resolution 4. Amend Articles to Disclose How Executive Compensation Policy Contributes to Achievement of Greenhouse Gas Emission Reduction Target	For (Exceptional)	It will be in the interests of shareholders to know how or whether the company's executive compensation policy is linked to achievement of GHG emission targets, particularly in light of the company's already high GHG emissions and the lack of a concrete plan to retire old coal power facilities, and its stranded asset risk. The request does not appear overly prescriptive, and shareholders should benefit from the proposed disclosures.

	Resolution 4. Amend Articles to Keep Shareholder Meeting Minutes and Disclose Them to Public	Against	• Proposals do not add any value or strong case not made

	Resolution 5. Amend Articles to Add Provisions Concerning Management Based on CSR (Information Disclosure and Dialogue)	For (Exceptional)	A vote FOR this shareholder proposal is warranted because: - The added disclosure would be beneficial for shareholder awareness.
	Resolution 6. Amend Articles to Add Provisions Concerning Management Based on CSR (Facility Safety Enhancement)	Against	• Proposals do not add any value or strong case not made
	Resolution 7. Amend Articles to Add Provisions Concerning Management Based on CSR (Withdrawal from Coal-Fired Power Generation Business)	Against	• Proposals do not add any value or strong case not made
	Resolution 8. Amend Articles to Add Provisions Concerning Management Based on CSR (Gender Diversity)	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this shareholder proposal is warranted because: - The additional diversity-related disclosure would allow shareholders to better assess the effectiveness of the company's diversity and inclusion efforts and its management of related risks

	Resolution 9. Remove Incumbent Director Mori, Nozomu	For (Exceptional)	A vote FOR this resolution is warranted: There are serious concerns over the utility's compliance practices (i.e., allegations over the antitrust violations and unauthorized access of customer information). Accordingly, support for Nozomu Mori's reappointment is not warranted in Item 2.9. Meanwhile, this shareholder resolution is valid only until the close of this shareholder meeting. So, some shareholders may think that this is practically meaningless, as shareholders who have concerns about Mori can simply vote against his re-election. Nonetheless, given the serious concerns about the company's compliance practices, it would still make sense to support this resolution, as doing so would serve to send a message to the board about shareholder concerns.
	Resolution 10. Remove Incumbent Director Sasaki, Shigeo	Against	<ul style="list-style-type: none"> <li>Proposals do not add any value or strong case not made</li> </ul>
	Resolution 11. Amend Articles to Require Individual Compensation Disclosure for Directors, Executive Officers, and Advisors	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this shareholder proposal is recommended because: - The proposed disclosure would promote accountability and help shareholders make better-informed decisions. - While the company discloses individual compensation in its proxy circular, that is a voluntary move, and the passage of this proposal would make sure that this practice continues going forward.
	Resolution 12. Amend Articles to Establish Industry Organization to Cope with Changing Management Environment	Against	<ul style="list-style-type: none"> <li>Proposals do not add any value or strong case not made</li> </ul>

	Resolution 13. Amend Articles to Launch Study Group on Evacuation Plan in the Event of Nuclear Accident	Against	• Proposals do not add any value or strong case not made

	Resolution 17. Amend Articles to Promote Maximum Disclosure to Gain Trust from Society	Against	• Proposals do not add any value or strong case not made
	Resolution 18. Amend Articles to Encourage Dispersed Renewable Energy	Against	• Proposals do not add any value or strong case not made
	Resolution 19. Amend Articles to Develop Alternative Energy Sources in place of Nuclear Power to Stabilize Electricity Rate	Against	• Proposals do not add any value or strong case not made
	Resolution 20. Amend Articles to Realize Zero Carbon Emissions by 2050	Against	• Proposals do not add any value or strong case not made

	Resolution 21. Amend Articles to Require Individual Compensation Disclosure for Directors and Executive Officers, Including Those Who Retire During Tenure, as well as Individual Disclosure Concerning Advisory Contracts with Retired Directors and Executive Officers	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this shareholder proposal is recommended because: - The proposed disclosure would promote accountability and help shareholders make better-informed decisions.
	Resolution 22. Amend Articles to Demolish All Nuclear Power Plants	Against	• Proposals do not add any value or strong case not made
	Resolution 23. Amend Articles to Establish Work Environment where Employees Think About Safety of Nuclear Power Generation	Against	• Proposals do not add any value or strong case not made
	Resolution 24. Amend Articles to Ban Hiring or Service on the Board or at the Company by Former Government Officials	Against	• Proposals do not add any value or strong case not made
	Resolution 25. Amend Articles to Reduce Maximum Board Size and Require Majority Outsider Board	Against	• Proposals do not add any value or strong case not made
	Resolution 26. Amend Articles to Establish Electricity Supply System Based on Renewable Energies	Against	• Proposals do not add any value or strong case not made
	Resolution 27. Amend Articles to Ban Conclusion of Agreements to Purchase Coal Power Generated Electricity	Against	• Proposals do not add any value or strong case not made

	Resolution 28. Amend Articles to Disclose Transition Plan through 2050 Aligned with Goals of Paris Agreement	For (Exceptional)	The resolution has the following asks: 1. The Company shall conduct a scenario analysis up to 2050, which aligns with the long-term goals of the Paris Agreement, and disclose the transition plan; and 2. The Company shall disclose the risks and opportunities related to the medium- to long-term climate based on the scenario analysis under the preceding paragraph. The value of the utility in the long term would largely depend on the success of its path to net zero GHG emissions by 2050, which is Japan's national target, and critical climate information needed for shareholders to monitor the process would better become available with the proposed article amendments.
