	Resolution 3. Approve Remuneration Policy	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the Company is proposing an increase of EDs' pension entitlements from 15% to 20% of salary in order to align with the UK workforce (62% benefit from the level of 20%). This is a concern because increases to pension run contrary to trends across several years, and because current pension arrangements (i.e. 15% of salary) do not lag the market. In addition, any increase to fixed pay in the current climate, given cost-of-living pressures, is questionable. However, the increased entitlement is in line with the wider UK workforce and therefore technically does not deviate from the UK Code.

	Resolution 4. Re-elect Helge Lund as Director	For (Exceptional)	Under normal circumstances, the paring back of BP's 2030 targets would warrant a vote 'against' the Board Chair re-election. However, support has been granted: Firstly, it is important to acknowledge the complexities of the energy transition and challenges presented by the broader operating environment, particularly the shifting balance of the energy trilemma, following a tumultuous year in the energy markets driven by Russia's invasion of Ukraine. Secondly, we still consider BP to be ahead of its peers in a number of areas. It boasts ambitious 2030 goals (e.g. 20% + oil and gas output reduction), 50GW of renewable electricity FID, and has devoted 25% of capital spending to low-carbon businesses. Thirdly, we note that BP's transition journey has continued to take steps forward this year, building on its proven track record responding to our engagement. This spans committing to spend an additional \$8bn in low-carbon areas, to disclosing scope 3 emissions for traded oil and gas sales for the first time. Continuing support, however, is conditional on receiving reassurance: Firstly, more robust evidence that its upstream strategy is consistent with a meaningful 1.5oC glide path supported by independent verification. Secondly, in light of changing economics around hydrocarbon assets and low carbon projects, that BP looks to systematically re-position excess capital towards areas identified as strategic and material to its business strategy (hydrogen, biofuels).

Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

While the company's current severance arrangements are within market practice, the implementation of a policy like the one described in the proposal would meaningfully mitigate the risk of cash severance payments that are excessive or not in line with market norms. Further, the proposal applies only to new or renewed severance arrangements.

However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 3. Approve Remuneration Report	For (Exceptional)	Under normal circumstances we would have voted against the remuneration report as under the LTIP, the achievement of threshold performance (only) results in vesting of 25% of the award potential, and this level of vesting represents approximately 75% of salary (based on grants of 300% of salary). We consider this to be excessive for this level of performance. However, we exceptionally supported as this is really the only issue, actual LTIP targets appear stretching, and there is no disconnect between pay and performance.

	Resolution 22. Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 5. Submit Severance Agreement (Change-in-Control) to Shareholder Vote	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted given that the request applies only to future severance arrangements, the current agreements will not be affected, the request offers flexibility as to when the board may seek shareholder approval of a new or renewed severance arrangement, such as at the next annual meeting, and it is positive for shareholders to have the ability to vote on severance amounts that exceed market norms.
	Resolution 6. Require Independent Board Chair	For (Exceptional)	We prefer the roles of CEO and Chair to be split. The Chairman's role on a board is to evaluate and review the performance of management; this role is obviously compromised when the Chairman is also the CEO. While the company does have a lead director they have now been on the board for 9 years and will begin to question their independence.

	Resolution 7. Report on Feasibility of Intellectual Property Transfer to Boost Covid-19 Vaccine Production	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. The company has faced recent criticism for its role in global COVID-19 vaccine inequity and additional information would allow shareholders to understand how the company is managing related risks.
	Resolution 8. Report on Impact of Extended Patent Exclusivities on Product Access	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. Shareholders would benefit from more robust disclosure of the company's processes and oversight mechanisms for managing risks related to anticompetitive practices.
	Resolution 9. Report on Political Expenditures Congruence	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. This would enable shareholders to have a more comprehensive understanding of how the company oversees and manages risks related to its political partnerships.

Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 10. Renew Appointment of Ernst & Young et Autres as Auditor	For (Exceptional)	Under normal circumstances we would have voted against the reappointment of the Ernst & Young, as they have been the company's audit firm since 1999. Mandatory auditor rotation every 20 years is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, we have exceptionally supported as following a Tender, the company approved the renewal of Ernst & Young for the year ended December 31, 2022; and the appointment of Deloitte & AssociÃ©s to replace KPMG SA whose term of office will expire in 2025 at the general meeting called to approve the financial statements for the year ended December 31, 2024 and which may not be renewed given the achievement of the maximum term of office defined by the regulations in force. In the frame of the next appointment of Deloitte & AssociÃ©s, the renewal of the term of office of Ernst & Young et Autres at the 2023 General Shareholders' meeting will ensure the accounts and audit committee's objective of audit continuity.

<b>27/04/2023</b> <b>United Kingdom</b>	Resolution 2. Approve Remuneration Report	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution for the following reasons: - We have concerns over the CEO: Employee pay ratio which is more than 50:1 and has increased by over 20% from the previous year. In this context, the Company has likely benefited from windfall gains when exceptional gain materialised upon vesting of award due to the recovery of the company's share price from the COVID-19 pandemic. However, we positively noted that the Company has announced that a 15% reduction should apply to the second tranche of the 2020 RSP award which mirrors the downward discretion utilised by the remuneration committee during FY2021 for the first tranche. - Company is not an accredited Living Wage Employer. Upon a review of the annual report, however, we acknowledge that the company in 2022, the company completed a global audit of our minimum rates of pay to ensure compliance with any statutory requirements in the 50+ countries in which it has employees, with no remedial actions identified. In 2023, the company intends to extend this further by assessing rates of pay globally against local living wage equivalents, where available. While this leads us to express some concern on the level of increases to EDs' salaries (with two increases of 6% granted in a row over the past two years), we do not believe that remuneration is out of line with performance. We will engage with the company to note that further increases will be scrutinised, if without compelling rationale.

<b>ASSICURAZIONI GENERALI SPA</b> <b>AGM</b> <b>26/04/2023</b> <b>Italy</b>	Resolution 1a. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we wouldn't be able to support this resolution as we raise concerns with the fact that the AGM will not be broadcasted, and shareholders will only be entitled to attend and vote via the company-designated proxyholder. In practice, shareholders will not be able to actively participate in the AGM and interact with the management during the meeting. We acknowledge that this does not stand out of normal market practice, and will no longer be an issue in July 2023.

	Resolution 4b. Approve Second Section of the Remuneration Report	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as there is insufficient ex-post information provided on the co-investment plan for the CEO, which partly vested in 2022 and had a pay outcome to the CEO equivalent to EUR 3.7 million. We also note that the LTI 2020-2022, which vested in 2022, allowed for vesting below median which reflects misalignment of management remuneration and company performance. However, actual performance was slightly above median and the new 2022-2024 plan does not allow vesting below median any longer. Given the balance of remuneration actions taken, and particularly having noted that the LTIP structure will improve for the new cycle and will stand out as better market practice for not allowing vesting below median, exceptional support is considered warranted.

However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. 	Resolution 2. Approve Remuneration Policy	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the Company is proposing an increase of 25% to each of the maximum annual bonus and LTIP award opportunities. In addition, the annual bonus awards may be made up to 200% of salary in exceptional circumstances. The company's rationale, noting the increase in its size and complexity (now a FTSE 50 company), is acknowledged. The resulting incentive opportunities are not considered excessive for a company of this size. The additional annual bonus headroom of 200% of salary will only be used in exceptional recruitment circumstances. It is further noted that the proposed policy confirms that the NEDs are not eligible to participate in any incentive arrangements and that they have no entitlement to contractual termination payments.

Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 2. Approve Remuneration Report	For (Exceptional)	<p>Under normal circumstances, we would not be able to support this resolution as base pay for the CEO and highest paid director is in the upper quartile for the index on a balanced comparison. Additionally, the salary for both the EDs is being further supplemented by an annual increase, albeit less than that awarded to the wider workforce. We however acknowledge the following: - Group performance has been positive overall. The headline loss is because of a non cash goodwill impairment on their talc business so underlying operating profit moved forwards significantly +14% year-on-year. Share price hit by macro fears / weakness in the talc business but with talc earnings now rebased, chromium sold, the outlook for earnings in the year ahead is favourable. - The level of concerns has reduced from last year, when we voted against due to the fact that bonus awards were near maximum despite the fact that government support was sought last year. - Concerns over pay between the CEO and the wider workforce are limited, noted by relatively low pay ratios in the past two years. We will engage with the company to state that we expect the company to limit salary increases ahead of the next year, as year-on-year marginal increases are not considered in line with best market practice, when salaries already stand above upper quartile.</p>

	Resolution A. Elect Lucie Muniesa as Director	Abstain	<ul style="list-style-type: none"> <li>• Proposals do not add any value or strong case not made</li> </ul>

	Resolution B. Amend Articles 21 and 24 of Bylaws Re: Climate Strategy	For (Exceptional)	Engie has been designated as one of the "Systematically Important Carbon Emitters" within Aviva Investors' portfolios due to its contribution towards global 'Scope 3' emissions. We commend that Engie has improved its level of disclosure in recent years and submitted a vote on its climate strategy in 2022. However, support for the proposed amendments is warranted on this occasion as they will ultimately provide additional information to shareholders to better understand the company's climate related risks and management strategy. We will continue to engage to strengthen action specifically on the following aspects: Its global scope 3 ambitions to ensure full coverage of activities, the degree to which CEO remuneration is conditioned to its GHG reduction objectives, the climate sensitivity of its accounting and auditing practices, and to disclose a more detailed transition strategy. This means providing greater visibility over its commitment to decarbonise capital expenditures, including a more detailed forward-looking breakdown of future investments to allow investors to test the alignment of existing and planned assets against a 1.5°C pathway, as well as planned CCS contribution for its 2025 and 2030 targets' We also seek more detailed guidance on its gas strategy, regarding liquefied natural gas import contracts, the share of gas capacity conversion to renewable gas expected in 2045, and the trajectory to reach 100% decarbonized gas by the same date.

However, we have exceptionally supported as in this case, the resolution indicates explicitly that the buyback program cannot be continued during a takeover bid, except to allow the company to satisfy prior commitments relative to the grant of shares to employees or executives (options, stock grants, or participation to the expansion of the company), or if the repurchase program is realized under a prevailing independent share purchase mandate.

	Resolution 5. Report on Lobbying Payments and Policy	For (Exceptional)	Support for this proposal is warranted, as additional disclosure of the company's direct and indirect lobbying payments would help shareholders better assess the risks and benefits associated with the company's participation in the public policy process.
	Resolution 6. Require Independent Board Chair	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. As such, support for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

	Resolution 9. Adopt Time-Bound Policy to Phase Out Underwriting and Lending for New Fossil Fuel Development	For (Exceptional)	A vote FOR this proposal is warranted, as it would help shareholders better evaluate the company's management of climate risks from its lending and underwriting activities. Additionally, shareholders would benefit from a stronger alignment between the company's stated goals, its fossil fuel policy, and its actions regarding corporate responsibility.
	Resolution 10. Disclose 2030 Absolute GHG Reduction Targets Associated with Lending and Underwriting	For (Exceptional)	Support for this proposal is warranted as setting an absolute emission reduction target aligned with a science-based emission reduction pathway would further the company's decarbonization strategy.
	Resolution 11. Report on Climate Transition Plan Describing Efforts to Align Financing Activities with GHG Targets	For (Exceptional)	Support for this resolution is warranted. Additional disclosure about the company's climate transition plan would help shareholders better evaluate the company's strategy for implementing its commitments to advance a low-carbon economy and the company's management of related risks and opportunities.
	Resolution 12. Report on Median Gender/Racial Pay Gap	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted, as shareholders could benefit from the adjusted and unadjusted median pay gap statistics that would allow them to compare and measure the progress of the company's diversity and inclusion initiatives.

We also note that Televisa and Brazil's TV Globo was testified to have taken part in a USD 15 million-bribe of a FIFA executive to secure media rights to the 2026 and 2030 World Cup tournaments. The company denied any wrongdoing and has not been in the U.S. case. Multiple executives currently serve on Televisa's board of directors, including its two Co-CEOs. The company was subject to a class action lawsuit in relation to the alleged bribes related to securing media rights to world cup tournaments. 	Resolution 10.2. Elect and/or Ratify Alfonso de Angoitia Noriega of Executive Committee	For (Exceptional)	<p>Under normal circumstances we would have voted against the re-election of this director to reflect our concerns that, in aggregate they have too many board commitments. However, we have exceptionally supported their re-election given they are the CEO of this company. Instead, our default position would be to vote against their election as a non-executive at their other companies. We also note that Televisa and Brazil's TV Globo was testified to have taken part in a USD 15 million-bribe of a FIFA executive to secure media rights to the 2026 and 2030 World Cup tournaments. The company denied any wrongdoing and has not been in the U.S. case. Multiple executives currently serve on Televisa's board of directors, including its two Co-CEOs. The company was subject to a class action lawsuit in relation to the alleged bribes related to securing media rights to world cup tournaments. Televisa reached a USD 95 million investor settlement to resolve the class action lawsuit. In the settlement, the company denied wrongdoing. Mitigating, Televisa has implemented a whistleblower system, annual ethics policies, and anti-corruption and anti-bribery training programs. This board nominee was appointed prior to 2019 and corruption allegations related to the period between 2017-2018.</p>

<b>MARATHON PETROLEUM CORP AGM</b>	Resolution 1.1. Elect Director J. Michael Stice	For	

<b>26/04/2023</b> <b>United States</b>	Resolution 1.2. Elect Director John P. Surma	For (Exceptional)	<p>We are exceptionally supporting the election of the Chair. Although female board representation is less, it has improved from 17% in 2022 to 25%. Furthermore, we note steps to strengthen Marathon's climate change disclosure and action over 2022. This includes setting a new absolute scope 3 – category 11 emissions reduction and long-term methane emissions reduction targets, disclosing its first dedicated Just Transition report and providing more detailed analyses of its business strategies against future scenarios from the IEA. Nevertheless, we are looking for the company to scale its climate ambition to provide the market with greater reassurance in its intentions to collaborate with industry associations on a consistent and Paris-focussed basis. This includes disclosing a clearer and more detailed framework for assessing alignment, a time-bound escalation strategy and evidencing specific action to address misalignment and resulting outcome(s).</p> <p>Under normal circumstances we would have also voted against as well as Marathon has not yet had its climate targets validated by the SBTi. However, we recognise that the SBTi is currently developing a new methodology for companies in the oil and gas sector.</p>

	Resolution 5. Eliminate Supermajority Vote Requirement	For	
	Resolution 6. Approve Increase in Size of Board	For	
	Resolution 7. Adopt Simple Majority Vote	For (Exceptional)	A vote FOR this proposal is warranted. The elimination of supermajority vote requirements would improve shareholder rights and approval of this non-binding item may convey to the board that shareholders may wish for it to take additional steps to ensure they are removed.
	Resolution 8. Amend Compensation Clawback Policy	For (Exceptional)	A vote FOR this proposal is warranted as the addition of reputational or other financial harm as a recoupment scenario would expand the board's ability to recoup incentive pay and the increased disclosure requirements would also better serve shareholders' informational needs. We believe that this addition will bring the company's remuneration structure in line with best market practice, which sees the inclusion of multiple risks that are relevant to the sector into remuneration considerations.

	Resolution 9. Report on Just Transition	For (Exceptional)	The company is being asked to report on it's efforts to address impacts on workers and communities in relation to its climate change strategy, consistent with the ILO's Guidelines for a Just Transition. Support for this proposal is warranted on this occasion. We note and commend the fact that Marathon has recently published a just transition report, a welcome indicator of it's commitment to engagement and collaboration to address potential impacts as the energy transition progresses. However, its current report does not appear to demonstrate a comprehensive enterprise-wide policy (and evidence implementation) to ensure a just transition on a mid- or long-term time horizon, and lacks full alignment with the guiding principles of the ILO's Guidelines for a just transition. As the transition to a low-carbon economy will have a material impact on the allocation of workers, production, and skills within the energy industry, additional information on Marathon's approach, including clear measurable, time-bound metrics (aligned with those recommended by the World Benchmarking Alliance Just Transition methodology), will help shareholders better understand and measure the success of the company's strategy in managing just transition-related risks and opportunities. We particularly seek further disclosure around workforce development, community investment, and freedom of association/collective bargaining.

	Resolution 20. Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 3. Advisory Vote on Say on Pay Frequency	For (Exceptional)	In the US, companies are now required to give shareholders a choice of one, two or three years for the preferred frequency of advisory say-on-pay votes. We have voted for our preferred frequency of one year.

	Resolution 5. Amend Omnibus Stock Plan	Against	<ul style="list-style-type: none"> <li>• Potentially excessive awards</li> </ul>
	Resolution 6. Require Independent Board Chair	For (Exceptional)	Support for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

	Resolution 7. Submit Severance Agreement (Change-in-Control) to Shareholder Vote	For (Exceptional)	Support this proposal is warranted given that the request applies only to future severance arrangements, the current agreements will not be affected, the request offers flexibility as to when the board may seek shareholder approval of a new or renewed severance arrangement, such as at the next annual meeting, and it is positive for shareholders to have the ability to vote on severance amounts that exceed market norms.
	Resolution 8. Disclose 2030 Absolute GHG Reduction Targets Associated with Lending and Underwriting	For (Exceptional)	Support for this proposal is warranted given increased disclosure provides further clarity and the opportunity for shareholders to evaluate the company's targets. The proponents acknowledge Bank of America's climate commitments for 2050, but ask for a change in strategy, such as adopting an absolute target in alignment with the Science Based Targets initiative (SBTi) for 2030.
	Resolution 9. Report on Climate Transition Plan Describing Efforts to Align Financing Activities with GHG Targets	For (Exceptional)	Support for this resolution is warranted. Additional disclosure about the company's climate transition plan would help shareholders better evaluate the company's strategy for implementing its commitments to advance a low-carbon economy and the company's management of related risks and opportunities. The proponent notes that, while Bank of America has committed to align its financing with the goals of the Paris Agreement by achieving net-zero by 2050, BAC continues to finance new fossil fuel projects. The proponent continues by stating that BAC is reportedly the world's fourth-largest funder of fossil fuels, citing a study showing that BAC provided \$232 billion in lending and underwriting to fossil fuel companies between 2016-2021.

	Resolution 10. Adopt Time-Bound Policy to Phase Out Underwriting and Lending for New Fossil Fuel Development	For (Exceptional)	Support for this proposal is warranted, as it would help shareholders better evaluate the company's management of climate risks from its lending and underwriting activities. Additionally, shareholders would benefit from a stronger alignment between the company's stated goals, its fossil fuel policy, and its actions regarding corporate responsibility. The proponent notes that, while Bank of America has committed to align its financing with the goals of the Paris Agreement by achieving net-zero by 2050, BAC continues to finance new fossil fuel projects. The proponent continues by stating that BAC is reportedly the world's fourth-largest funder of fossil fuels, citing a study showing that BAC provided \$232 billion in lending and underwriting to fossil fuel companies between 2016-2021. The company is unlikely to achieve its climate goal without limiting financing.
	Resolution 11. Commission Third Party Racial Equity Audit	For (Exceptional)	Support for this resolution is warranted, as a racial equity audit would benefit shareholders by providing them additional means to assess the effectiveness of the company's diversity and inclusion initiatives. We note that the company committed in 2022 to perform an independent assessment of its commitment to advance racial equality and economic opportunity and its Community Homeownership Commitment. However, there are questions over whether this will be an independent assessment and there are enough issues presented by the proponent that makes us feel that a third party audit is required.

<b>BEAZLEY PLC</b> <b>AGM</b> <b>25/04/2023</b> <b>United Kingdom</b>	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	<p>Under normal circumstances, we would have voted against the remuneration report in recognition of the 19% increase to the CEO's salary awarded at a time when companies should be exercising restraint due to the current inflationary and cost of living crisis environment in the UK, acknowledging the broader stakeholder experience. However, we have exceptionally supported following extensive engagement with the company on this matter. The CEO's increased salary (£625k) remains at lower quartile against most comparators. Beazley's market capitalisation has grown more than 300% since 2017 and the number of Company employees has increased two-fold to c.1,900. In terms of the cost-of-living crisis and the increasing financial burden on employees, the company has already supported employees by making a one-off payment of up to £3,000 (or equivalent currency) to eligible staff in June of this year. It also recognises that inflation and the cost-of-living will continue to impact staff, and in response to this unique situation, the overall budget for 2023 salary increases (c.5%) will be supplemented by a further 2% that will be targeted at colleagues who earn less than £75,000 (more than half the workforce). Nevertheless, we have informed the company that we will continue to assess annual pay outcomes and as the CEO's total earning opportunity will be significantly more going forward, the outcomes will require additional scrutiny.</p>

	Resolution 8. Re-elect Nicola Hodson as Director	For (Exceptional)	Under normal circumstances, we would have voted against the re-election of this non-executive director to reflect our concerns that they are a full-time executive of another Company (a divisional CEO of IBM), yet this isn't the only other Board they sit on (she is also a non-exec of Drax). We have reservations over how full-time executives can devote sufficient time to multiple other boards. However, we have exceptionally supported in recognition of the company's disclosures and will be engaging on the matter further. The company states that "Since the year end, Nicola Hodson has been appointed Chief Executive of IBM in the UK and Ireland and has joined their UK subsidiary Boards. Nicola previously held a senior global leadership role at Microsoft, and was able to balance well the commitments of this role to her responsibilities as a non-executive director of Beazley. The nomination committee believes that this ability does not change with Nicola's new executive role, and is happy to support her proposed re-election as a Beazley non-executive director. However, the committee will keep the situation under close review to ensure that Nicola remains able to commit the time and dedication required as a director of Beazley."

	Resolution 5. Advisory Vote on Say on Pay Frequency	For (Exceptional)	In the US, companies are now required to give shareholders a choice of one, two or three years for the preferred frequency of advisory say-on-pay votes. We have voted for our preferred frequency of one year.
	Resolution 6. Submit Severance Agreement (Change-in-Control) to Shareholder Vote	For (Exceptional)	Support for this proposal is warranted as the board's current policy that requires shareholder approval of certain change of control severance payments lacks key disclosures for shareholders. Without more specific information on the existing policy, shareholders do not have adequate assurances that the policy safeguards against excessive severance payments.
	Resolution 7. Require Independent Board Chair	Abstain	• Supportive of resolution but company has made progress

	Resolution 8. Report on Respecting Indigenous Peoples' Rights	For (Exceptional)	<p>The proponents are requesting a report on how effective Citigroup's policies, practices, and performance indicators are in respecting Indigenous Peoples' rights in its existing and future general corporate and project financing.. They state that violations of these rights present risks for Citi that can adversely affect shareholder value, including reputational damage, project disruptions, and civil and criminal liability. The proponents state that Citi has a history of financing projects that violate Indigenous rights, including the Dakota Access pipeline in 2016. They claim that Citi provided over \$5 billion in financing for the Enbridge Line 3 and 5 tar sands pipeline reroutes. They state that Citi is failing to meet international standards of free, prior, and informed consent (FPIC) with affected tribes. The filers conclude that Citi's existing policies do not clearly define FPIC and do not include guidance on how it addresses companies that violate Indigenous rights, creating material risks for the company. While Citi has not provided project-related financing to Line 3, Enbridge operates Line 3 and is a client of Citi, and there have been human rights/indigenous peoples' rights controversies and FPIC concerns associated. As such, shareholders are likely to benefit from increased disclosure that evaluates the effectiveness of the Citi's due diligence process around Indigenous Peoples' rights for project-related financing and client portfolios.</p>

	Resolution 9. Adopt Time-Bound Policy to Phase Out Underwriting and Lending for New Fossil Fuel Development	For (Exceptional)	The proponent is requesting that Citigroup adopt a policy to phase out financing for new fossil fuel supplies. It believes that by not committing to end financing of new fossil fuel projects, the company is not doing enough to meet its net zero commitments and is exposing itself to heightened regulatory, reputational, and market risks. The company has committed to the Paris Agreement and has a goal of being net zero by 2050. The company has set 2030 emission reduction goals for six sectors, and is working toward setting them in five more sectors. It reports that it has provided \$226.1 billion in financing toward its \$1 trillion commitment to sustainable finance, which includes a focus on the low-carbon transition. The company has banned financing of Arctic drilling, direct financing of new coal-fired power plants, and new thermal coal mines. However, Citi is reportedly the world's second-largest funder of fossil fuels, providing \$285 billion in lending and underwriting to fossil fuel companies between 2016-2021, which includes \$104bn to companies engaged in developing new fossil fuel supplies. Also, Citi's 2030 absolute emissions reduction target for the energy sector still allows it to finance new fossil fuel supplies, meaning it's unlikely to meet its climate commitments. On balance, we consider that support for this proposal is warranted, as it would help shareholders better evaluate the company's management of climate risks from its lending and underwriting activities.

	Resolution 5. Report on Third-Party Civil Rights Audit	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this resolution is warranted, as an independent civil rights audit would help shareholders better assess the effectiveness of Coca-Cola's efforts to address the issue of any inequality in its workforce and its management of related risks.
	Resolution 6. Issue Transparency Report on Global Public Policy and Political Influence	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this resolution is warranted, as increased global transparency and disclosure around the company's memberships in political organizations and lobbying expenditures, as well as the firm's management- and board-level oversight of spending would help shareholders evaluate the company's management of related risks and benefits more comprehensively.

	Resolution 7. Report on Congruency of Political Spending with Company Values and Priorities	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted, as a report on the congruence of the company's political expenditures with its stated values would enable shareholders to have a more comprehensive understanding of how the company oversees and manages risks related to its political spending.
	Resolution 8. Require Independent Board Chair	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 9. Report on Risk Due to Restrictions on Reproductive Rights	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this resolution is warranted, as additional information on the potential risks and costs associated with proposed or enacted state policies that restrict reproductive healthcare would allow shareholders to better assess how the company is managing such associated risks.

He is being held accountable on account of being the only member of the nomination committee on agenda this year. There is some merit in exceptionally supporting his election at this time, as it is the company's first AGM after its IPO last February 1. 2022. 	Resolution 15. Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

	Resolution 4. Advisory Vote on Say on Pay Frequency	For (Exceptional)	In the US, companies are now required to give shareholders a choice of one, two or three years for the preferred frequency of advisory say-on-pay votes. We have voted for our preferred frequency of one year.

	Resolution 5. Require Independent Board Chair	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 6. Report on Lobbying Payments and Policy	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted, as additional disclosure of the company's direct and indirect lobbying-related expenditures would help shareholders better assess the risks and benefits associated with the company's participation in the public policy process.
	Resolution 7. Report on Risks Related to Operations in China	Against	<ul style="list-style-type: none"> <li>Proposals do not add any value or strong case not made</li> </ul>
	Resolution 8. Report on Efforts to Prevent Harassment and Discrimination in the Workplace	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted. Shareholders would benefit from increased disclosure due to the ongoing scrutiny over the company's harassment and discrimination issues involving protected classes of employees. Increased transparency would help shareholders to fully assess how the company is managing associated risks.

	Resolution 4. Advisory Vote on Say on Pay Frequency	For (Exceptional)	In the US, companies are now required to give shareholders a choice of one, two or three years for the preferred frequency of advisory say-on-pay votes. We have voted for our preferred frequency of one year.
	Resolution 5. Require Independent Board Chair	For (Exceptional)	Support for this proposal is warranted as shareholders would benefit from a policy requiring more independent oversight of management in the form of an independent board chair. Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders.

	Resolution 5. Adopt Simple Majority Vote	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted given that a reduction in certain vote requirements would be beneficial for shareholders.
	Resolution 6. Report on Political Expenditures Congruence	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted, as a report on the company's congruence of political expenditures with stated values would enable shareholders to have a more comprehensive understanding of how the company oversees and manages risks related to its political partnerships.
	Resolution 7. Report on Climate Lobbying	For (Exceptional)	Support for this proposal is warranted. The company and its shareholders are likely to benefit from a review of how the company's and its trade associations' lobbying positions align with its climate goals.

	Resolution 8. Report on Climate Transition Plan Describing Efforts to Align Financing Activities with GHG Targets	For (Exceptional)	Support for this resolution is warranted. Additional disclosure about the company's climate transition plan would help shareholders better evaluate the company's strategy around the transition to a low-carbon economy and the company's management of related risks and opportunities. We note that the company is a member of the NZBA, has disclosed 2030 intensity targets to reduce its financed emissions for the oil and gas and power sectors, and integrated climate into its risk management framework, and by 2030 aims to provide \$500 billion in sustainable financing. The company has banned project financing for most new coal-fired power plants, and new or expansions of thermal coal mines. However, the issue is that the company is the third-largest global lender and underwriter of fossil fuels, providing more than \$272 billion in fossil fuel financing between 2016-2021. Out of the top three fossil fuel financiers, Wells Fargo is reportedly the only company that increased its funding above 2019 levels. The company does not disclose transparent metrics and timelines around aspects of its decarbonization strategy, such as its absolute financed emissions after its 2019 baseline and processes to assess and ensure clients' strategies are in alignment with its targets'.
--	---	----------------------	---

	Resolution 9. Adopt Time-Bound Policy to Phase Out Underwriting and Lending for New Fossil Fuel Development	For (Exceptional)	Support for this proposal is warranted, as it would help shareholders better evaluate the company's management of climate risks from its lending and underwriting activities. Additionally, shareholders would benefit from a stronger alignment between the company's stated goals, its fossil fuel policy, and its actions regarding corporate responsibility. The company is unlikely to achieve its climate goal without limiting financing.
	Resolution 10. Report on Prevention of Workplace Harassment and Discrimination	For (Exceptional)	Support for this resolution is warranted, as the company has faced recent attention for allegations of discrimination in the workplace, and increased transparency would help shareholders assess how the company is managing associated risks.
	Resolution 11. Adopt Policy on Freedom of Association and Collective Bargaining	For (Exceptional)	Support for this proposal is warranted, as this policy may benefit shareholders by improving the company's management of related risks and put the company more in line with peer disclosures.

However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. 	Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

	Resolution 1g. Elect Director Theodore F. Pound	For (Exceptional)	This Director is the Chair of the remuneration committee and we have had significant concerns over remuneration arrangements for a number of years that have not been satisfactorily addressed. In an effort to address shareholders' concerns and feedback, the proxy discloses that the compensation committee has committed to not make one-time equity awards absent extraordinary circumstances, except in connection with new hires or promotions. If one-time awards are deemed necessary, the proxy states awards will be primarily performance-based and subject to a three-year vesting period (except in the case of new hires or promotions). In addition, the committee has adopted executive severance guidelines setting forth limits on any severance payments to NEOs, and provided improved disclosures around the metrics utilized under the annual and long-term incentive programs, including forward-looking performance targets for relative TSR and adjusted EPS. This is considered a positive and proactive reaction to shareholder dissent. We continue to have concerns on pay package, however, due to excessive benefit payments. We will scale the vote back to exceptional support at this time for the action taken towards pay dissent.

	Resolution 5. Disclose Scope 3 Emissions and Setting Scope 3 Emission Targets	For (Exceptional)	A vote FOR this proposal is warranted, as disclosing the company's Scope 3 emissions and setting Scope 3 emission targets would provide assurance to shareholders that the company is managing climate related risks and reputational risks appropriately. Other US-based natural gas providers have begun setting scope 3 targets; hence, the company can begin the process of doing the same.

<b>HUNTSMAN CORP</b> <b>AGM</b> <b>21/04/2023</b> <b>United States</b>	Resolution 1a. Elect Director Peter R. Huntsman	For (Exceptional)	Under normal circumstances we would not support this director as this Director serves as combined CEO/Chair, a role we prefer to be split. However, due to a number of safeguards in place we are comfortable to support.
	Resolution 1b. Elect Director Cynthia L. Egan	For (Exceptional)	Under normal circumstances we would not have supported this director as we are concerned with the number of board positions they hold and we would question their ability to devote sufficient time to the role. However, we are mindful that this exceeds our guidelines by only one and we do not have further concerns regarding this director. We are supporting the re-election but we will however be keeping this under review.

	Resolution 6. Submit Severance Agreement (Change-in-Control) to Shareholder Vote	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted given that the request applies only to future severance arrangements, the current agreements will not be affected, the request offers flexibility as to when the board may seek shareholder approval of a new or renewed severance arrangement, such as at the next annual meeting, and it is positive for shareholders to have the ability to vote on severance amounts that exceed market norms.

	Resolution 4. Elect Ian Roderick Mackie as Director	For (Exceptional)	Under normal circumstances we would have voted against the re-election of the Nomination Committee Chair to reflect our concerns that there is currently just one female director, representing less than 20% of the Board. However, we have exceptionally supported his re-election as for many years / up until recently, women represented a third or close to a third of the Board so the Company is not considered a laggard on this issue. However, if we don't see gender diversity addressed by next AGM, we will vote against the re-election of the relevant directors.
	Resolution 5. Elect Christina Tan as Director	For	

	Resolution 6. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

Support for this proposal is warranted as we think it is important for shareholders to be able to express their opinions (through regular votes) on the climate risk management practices of the company. Equally, additional information on the company's environmental policies would allow investors to better understand how the company is managing its climate related risks.

<b>SENIOR PLC</b> <b>AGM</b> <b>21/04/2023</b> <b>United Kingdom</b>	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution for two key reasons: the company is not living wage accredited. In conjunction, we have concerns on some pay related decisions taken for the ensuing year, including using the exceptional award limit of 200% of salary for FY2023 "to drive material outperformance through the next stage of the recovery". Mitigating, following two years of nil vesting outcomes, the targets set for the FY2023 awards can be considered sufficiently stretching and reflective of the Company's business expectations. We also acknowledge that the company's pay ratio is low, at 44:1 (FY2021: 49:1), indicating limited concerns between pay disparity of the execs vs employees. It is recognised that the company took some actions to account for the cost-of-living crisis: off-cycle wage increases or lump sum inflation payments, new incentive opportunities such as sign-on bonuses; promoting opportunities for flexible work arrangements; implementing additional employee engagement actions and expanding in-house training programmes. The company is also in talks to increase the pension contribution rate for the wider workforce, in response to shareholder dissent at the last policy vote in 2021.

	Resolution 14. Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 5. Submit Severance Agreement (Change-in-Control) to Shareholder Vote	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A vote FOR this proposal is warranted given that the request applies only to future severance arrangements, the current agreements will not be affected, the request offers flexibility as to when the board may seek shareholder approval of a new or renewed severance arrangement, such as at the next annual meeting, and it is positive for shareholders to have the ability to vote on severance amounts that exceed market norms.

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

<b>RELX PLC</b> <b>AGM</b> <b>20/04/2023</b> <b>United Kingdom</b>	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Policy	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as up to 90% of salary can vests for median/threshold performance under the LTIP which is too generous. Further, target bonus as a percentage of maximum is more than 50%. We however positively acknowledge that the company has reduced the threshold vesting opportunity for the LTIP, which may potentially help reduce quantum.

	Resolution 3. Approve Remuneration Report	For (Exceptional)	<p>Normally, we would not be able to support this resolution due to a few concerns: - The CEO: Employee pay ratio is more than 100:1 and is considered excessive. - Under the LTIP, meeting threshold performance conditions will result in vesting of 25% of the award potential (20% from 2023), and this level of vesting represents approximately 112.5% of salary (90% of salary from 2023). - Base pay for the CEO, the highest paid director is in the upper quartile for the index on a balanced comparison which is not justified by either performance or size of the company. We acknowledge a few positives: - The pay ratio has reduced considerably between 2021 and 2022 (from 150+ to 120+:1), which is largely due to a reduction in CEO pension allocation. Engstrom was a member of the legacy UK defined benefit pension plan until 31 March 2022. For the remainder of FY2022 he received cash in lieu of pension of 14% of his base salary. The figure above represents exclusively the cash in lieu pension paid for the remaining three quarters of the financial year. We will engage to let them know that pay ratio is a key area of focus for us and will be the case ahead of the 2024 AGM. From 1 January 2023, the CEO's and CFO's cash in lieu of pension was reduced to 11% of base salary, in line with the regular defined contribution plans (currently capped at 11% in the UK). - As noted in the vote for the remuneration policy, the threshold vesting opportunity under the LTIP has been reduced, which is a win from an engagement perspective.</p>

However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. 	Resolution 2. Approve Ernst & Young LLP as Auditors and Authorize Board to Fix Their Remuneration	For	

	Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

	Resolution 6. SP 3: Advisory Vote on Environmental Policies	For (Exceptional)	We are supportive of the proponent's request for the bank to provide shareholders with an annual advisory vote regarding its environmental and climate change objectives and action plan. Additional information on the company's plan to reduce its GHG emissions would allow investors to better understand how the company is managing its climate change related risks and a regular vote would allow shareholders to express their opinions on the climate risk management practices of the company.
	Resolution 7. SP 4: Invest in and Finance the Canadian Oil and Gas Sector	Against	<ul style="list-style-type: none"> <li>Proposals do not add any value or strong case not made</li> </ul>
	Resolution 8. SP 5: Disclose the CEO Compensation to Median Worker Pay Ratio on an Annual Basis	For (Exceptional)	Support for this resolution is warranted for the following reasons: - Enhanced disclosures of pay disparities between the executive and regular employees could allow for more informed and contextual assessments by shareholder of whether executive compensation practices are reasonable and fair; and - Excessive pay disparities between the CEO and rank-and-file employees could pose risks to long-term shareholder value, and impact employee morale as well as a company's standing in the communities in which it operates. Unlike the US, it is not mandatory for publicly listed companies in Canada to provide CEO to median worker pay ratio disclosures. This is not a big ask as the Global Reporting Institute reporting standards, which RBC already utilizes, provide a well-recognized framework for computing this ratio. It is critical to recognize that the focus is about the trend of the ratio over time

	Resolution 9. SP 6: Disclose Transition Plan Towards 2030 Emission Reduction Goals	For (Exceptional)	Support for this proposal is warranted as adoption of interim absolute GHG emissions reduction goals and reporting on plans to achieve such goals would better inform shareholders to the specific policies, practices, or systems the company may implement to manage its GHG emissions. Creating and reporting absolute goals would also allow shareholders to better evaluate the company's related emissions performance and the effectiveness of any mitigation measures the company may implement to manage these activities. We also note that the company has not yet set science based targets.

	Resolution 2. Approve KPMG LLP as Auditors and Authorize Board to Fix Their Remuneration	For	

	Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

This concern is highlighted under Item 6 instead; at this time, we will support on a qualified basis, having noted that downward discretion has been applied in other pay elements (bonus). We also have concerns as the service cost for the CEO pension amounted to EUR 835,000 (last year: EUR 954,000), which is approximately 2.3 times the average service cost for lead executives at peer companies. However, we note that this is due to the CEO's legacy pension plan.

Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

However, we note that the Board intends to look for an additional Non-Executive Director, preferably from a non-white minority ethnic background, at some point in 2024 in order to meet the Parker Review target by December 2024. We however acknowledge that the company only entered the FTSE 250 index in March 2023, and the Parker review expectations are extended towards FTSE 250 companies primarily. The recent appointments to the board have been female directors, indicating that overall board diversity is on the company's agenda. We will engage with the company to encourage them to meet the Parker review earlier than their current commitment.

	Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. 	Resolution 6. Submit Severance Agreement (Change-in-Control) to Shareholder Vote	For (Exceptional)	<p>The proponent argues that, while generous performance-based pay can sometimes be justified, requiring shareholder ratification of severance packages exceeding 2.99 times an executive's base salary and target bonus better aligns management pay with shareholder interests. The proponent cit's one unnamed company without such a policy where the CEO would qualify to receive over 10 times his base salary plus bonus in termination pay, and \$124 million in accelerated equity vesting in the event of a change in control, even if he remains with the company. The board believes that the proposal is unnecessary, as the company already has a policy that requires shareholder approval for any severance benefits that exceed 2.99 times the sum of the executives' base salary and target bonus. The policy was adopted in July 2010, following 77.8 percent shareholder support for a similar proposal. However, the company's policy does not include equity awards in the severance calculations and these typically make up the majority of the severance payments and as such, support for this proposal is considered warranted. Also, the request applies only to future severance arrangements, the current agreements will not be affected, the request offers flexibility as to when the board may seek shareholder approval of a new or renewed severance arrangement, such as at the next annual meeting, and it is positive for shareholders to have the ability to vote on severance amounts that exceed market norms.</p>

	Resolution 5. Approve the Conditional Spill Resolution	For (Exceptional)	<p>At the company's previous AGM held on 3 May 2022, more than 25 percent of the votes cast on the resolution relating to the adoption of the remuneration report for the year ended 31 December 2022 were against the adoption of the report. At least 25 percent against votes against the remuneration report (res 3) at AGM will constitute a second strike for the company. As we continue to vote against the remuneration report and as in our view, the issues have not been addressed, support for the Spill resolution is considered warranted.</p>

	Resolution 6a. Approve the Amendments to the Company's Constitution	For (Exceptional)	Under normal circumstances we wouldn't support the request to amend the company's constitution as it's potentially broad and there is no regulatory framework to oversee shareholder proposals. However, we have exceptionally support in view of our strong support for shareholder resolution 6b. The proponents state that: the Constitution of Santos is not conducive to the right of shareholders to place advisory resolutions on the agenda of a shareholder meeting.
	Resolution 6b. Approve Capital Protection	For (Exceptional)	Support for this proposal is considered warranted, as shareholders would benefit from greater transparency about the impact that climate change might have on the company and its operations, and the actions that the company is taking to mitigate associated risks. In particular, information that demonstrates how the company's capital allocation to oil and gas assets will align with a scenario in which global energy emissions reach net zero by 2050, facilitating the efficient managing down of these assets would be very useful. Further, concerns are raised over the absence of clear shorter-term scope 1 and 2 and tangible Scope 3 targets which we regard as a material deficiency, especially given that the company is proposing new oil and gas development. The company has only set GHG Scope 1 and 2 targets to be net zero by 2040.

	Resolution A. SP 1: Amend the Bank's Policy Guidelines for Sensitive Sectors and Activities	Abstain	• Supportive of resolution but company has made progress

	Resolution B. SP 2: Revise the Bank's Human Rights Position Statement	For (Exceptional)	Support for this proposal is warranted as it would serve to further enhance the company's stated commitment to recognize and integrate human and indigenous people's rights in its business operations as well as affirm its corporate social responsibility practices. RBC's Human Rights Position Statement invokes the United Nations Guiding Principles on Business and Human Rights (UNGPs) and states that RBC will take action to mitigate adverse human rights impacts, including by leveraging its business relationships. RBC has also disclosed ways in which it honours Call to Action #92. We believe further action is required to operationalize FPIC and Call to Action #92 into RBC's corporate policies and activities. An explicit reference to operationalizing free, prior and informed consent (FPIC) will help mitigate human rights risk while giving RBC additional leverage to effect meaningful and necessary change on the path towards reconciliation. We note that the bank's review of its Human Rights Statement is underway, and this review will include consulting with a range of internal and external stakeholders, including obtaining diverse Indigenous input and knowledge on FPIC, to better understand its meaning from multiple Indigenous perspectives.
--	---	-------------------	---

	Resolution C. SP 3: Publish a Third-Party Racial Equity Audit	For (Exceptional)	Support for this resolution is warranted, it would strengthen the bank's commitment towards addressing diversity, equity, and inclusion efforts in its business operations and across the venture capital industry. In addition, it would allow shareholders to better assess the effectiveness of the bank's diversity initiatives and its management of related risks. Whilst the bank not does appear to be involved in any unaddressed severe controversy related to human and labour rights, the conclusions of the Financial Consumer Agency of Canada (FCAC) mystery shopping exercise at major Canadian banks in 2019 suggest there could be room for improvement regarding the equal treatment of customers from racialized or Indigenous communities. Amongst peers, the bank is one of three major Canadian banks that has no standing commitment to produce a racial equity audit.
	Resolution D. SP 4: Report on 2030 Absolute Greenhouse Gas Reduction Goals	Abstain	<ul style="list-style-type: none"> <li>• Supportive of resolution but company has made progress</li> </ul>
	Resolution E. SP 5: Adopt a Policy for a Time-Bound Phaseout of the Bank's Lending and Underwriting for Projects and Companies Engaging in Fossil Fuel Exploration	For (Exceptional)	Support for this proposal is considered warranted, as it would help shareholders better evaluate the company's management of climate risks from its lending and underwriting activities. Additionally, shareholders would benefit from a stronger alignment between the company's stated goals, its fossil fuel policy, and its actions regarding corporate responsibility.

	Resolution F. SP 6: Disclose the CEO Compensation to Median Worker Pay Ratio on an Annual Basis	For (Exceptional)	Support for this resolution is warranted for the following reasons: - Enhanced disclosures of pay disparities between the executive and regular employees could allow for more informed and contextual assessments by shareholder of whether executive compensation practices are reasonable and fair; and - Excessive pay disparities between the CEO and rank-and-file employees could pose risks to long-term shareholder value, and impact employee morale as well as a company's standing in the communities in which it operates. Unlike the US, it is not mandatory for publicly listed companies in Canada to provide CEO to median worker pay ratio disclosures. This is not a big ask as the Global Reporting Institute reporting standards, which RBC already utilizes, provide a well-recognized framework for computing this ratio. It is critical to recognize that the focus is about the trend of the ratio over time.
	Resolution G. SP 7: Advisory Vote on Environmental Policies	For (Exceptional)	We are supportive of the proponent's request for the bank to provide shareholders with an annual advisory vote regarding its environmental and climate change objectives and action plan. Additional information on the company's plan to reduce its GHG emissions would allow investors to better understand how the company is managing its climate change related risks and a regular vote would allow shareholders to express their opinions on the climate risk management practices of the company. Also, note that the bank's CDP climate disclosure score has slid in the past two years (2022 score was C, B in 2021, A- in 2020).

Specifically we would welcome, in fact require additional disclosure that articulates the bank's expectations for net-zero transition plans of high-GHG emitting clients, and how it assesses the sufficiency of those transition plans year over time in relation to the bank's 2030 emissions reduction and net zero goals.

	Resolution 4. SP 1: Disclose the CEO Compensation to Median Worker Pay Ratio on an Annual Basis	For (Exceptional)	<p>Support for this resolution is warranted as enhanced disclosures of pay disparities between the executive and regular employees could allow for more informed and contextual assessments by shareholder of whether executive compensation practices are reasonable and fair. Also, excessive pay disparities between the CEO and rank-and-file employees could pose risks to long-term shareholder value, and impact employee morale as well as a company's standing in the communities in which it operates. Unlike the US, it is not mandatory for publicly listed companies in Canada to provide CEO to median worker pay ratio disclosures. This is not a big ask as the Global Reporting Institute reporting standards, which CIBC already utilizes, provide a well-recognized framework for computing this ratio. It is critical to recognise that the focus is about the trend of the ratio over time.</p>

	Resolution 17.b. Approve SEB Share Deferral Program 2023 for Group Executive Committee, Senior Managers and Key Employees	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as specific performance targets have not been disclosed for the proposed Share Deferral Program 2023. We are uncomfortable in supporting awards where it is impossible to assess whether they are subject to sufficiently challenging performance conditions. However, we acknowledge that this plan is essentially a bonus deferral plan which employs one-year targets. We don't often see companies disclosing bonus targets in advance in any case; further, the company has disclosed examples of performance conditions that they will assess: Examples on Group level are the financial targets return on equity (RoE) and return on business equity (RoBE) as well as cost development. Examples of non-financial targets are, customer satisfaction and parameters such as compliance, employee engagement, SEB's corporate sustainability development and risk management. The targets are evaluated from a multi-year perspective including both absolute and relative performance, as applicable, and taking SEB's three-year business plan into account. In the round, this can be supported.

	Resolution 4. Authorise Issue of Equity without Pre-emptive Rights (Additional Authority)	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 17. Authorise Issue of Equity without Pre-emptive Rights in Connection with an Acquisition or Other Capital Investment	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

<b>SGS SA</b> <b>AGM</b> <b>28/03/2023</b> <b>Switzerland</b>	Resolution 1.1. Accept Financial Statements and Statutory Reports	For	
	Resolution 1.2. Approve Remuneration Report (Non-Binding)	For (Exceptional)	Under normal circumstances we would have voted against the remuneration report as specific performance targets (net working capital and profit metrics for COOs and EVPs) are not disclosed for annual bonuses awarded during the year. Also some specific performance targets (20% of award) are not disclosed for long term incentive awards. However, we have exceptionally supported as for the year in review, however, the level of ex-post disclosure has significantly improved compared to previous years. Distinct targets, actual achievement, and payout percentages are clearly disclosed for each of the four group financial metrics for the bonus. While specific details underlying the achievements within the leadership multiplier remain vague, the additional financial goal disclosure is viewed as a positive development. Overall, the company provides a good level of transparency in the context of local market practice and overall pay levels are not considered excessive.

Korea (South) Republic of	Resolution 2.1. Elect Jeong Mong-won as Inside Director	For (Exceptional)	Under normal circumstances we would have voted against the re-election of this director to reflect our concerns that, in aggregate they have too many board commitments. However, we have exceptionally supported their re-election given they are the Executive Director of this company. Instead, our default position would be to vote against their election as a non-executive at their other companies. Additionally, in 2013, the chairman of Halla Group was highly criticized for making personal use of subsidiary Mando (current Halla Holdings) to participate in a capital raise of another subsidiary, Meister, for the purpose of supporting financially troubled Halla Corporation. While the chairman was released without indictment for the accused charge of violating the Commercial Act (prohibition of credit grant), investors community has consistently raised governance concerns since. In 2017, Mr. Jeong returned to the board. In 2019, the National Tax Service fined Halla Corp. with penalty of KRW 32.9 billion for accounting irregularities that occurred throughout 2010 to 2017. While Mr. Jeong was not called forward, the court ruled six executives guilty of fraudulent accounting and false disclosures. Mr. Jeong has not been legally charged for these events. However, the repeated governance concerns raised on Halla Group and the lack of evidence in alleviating these concerns lead us to flag cautionary warning on the person in charge.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 8. Commission Third Party Assessment on Company's Commitment to Freedom of Association and Collective Bargaining Rights	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. A third-party assessment would help shareholders better evaluate various allegations related to freedom of association and collective bargaining and the company's management of any associated risks.
	Resolution 9. Establish Committee on Corporate Sustainability	For (Exceptional)	Whilst the company's existing board framework should be adequate to allow for robust oversight of issues related to corporate sustainability issues (and boards should generally be given latitude to determine committee structures), on this occasion we are supportive of a separate sustainability committee, primarily due to better oversight of labour issues and sustainability being considered a more competitive advantage in the sector.

Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 5.a. Reelect Martin Blessing as Director	For (Exceptional)	This company is held within Aviva Investors flagship Climate Transition Franchise (CTF), which will be a crucial lever in helping us deliver on our commitment to align portfolios to net-zero by 2040. This will be achieved by allocating capital towards companies that are providing solutions to climate change, as well as those that are orientating their business models to maximise resilience in the transition to a warmer, low-carbon future. We expect all companies in the Franchise to set out science-based emission reduction targets (SBT) validated by the Science-Based Targets Initiative (SBTi) as consistent with a 1.5 C pathway. They should also evidence an orderly, structured approach towards assessing and reporting on climate-related risks and opportunities by responding to the CDP's annual Climate Change questionnaire, the most complete source of self-reported corporate environmental data in a standardized and comparable format, that is widely used throughout financial markets. Normally, we would not be able to support this resolution as this company is yet to fully demonstrate sufficient action to meet these key measures of climate ambition and risk management at this point in time; however, we acknowledge that the company has indeed committed to setting near-term and net zero targets against SBTi standards as recently as in 2023, which demonstrates recent progress against the asks of the CTF engagement programme. We will monitor the company's targets' progress ahead of the next AGM.

We support because there is some comfort in the fact that the company specifically refers to the following situations under which it would be more likely to hold a virtual meeting: The company states that the amendment is intended to facilitate the holding general meetings virtually among others in situations like pandemics or other unforeseen or exceptional circumstances, however not limited to these situations. This is more assurance than provided by other companies.

<b>CHEMRING GROUP PLC AGM</b>	Resolution 1. Accept Financial Statements and Statutory Reports	For	

<b>15/03/2023</b> <b>United Kingdom</b>	Resolution 2. Approve Remuneration Report	For (Exceptional)	<p>Normally, we would not have been able to support this resolution. The Company is not an accredited Living Wage Employer. Furthermore, the CFO and the Group Legal Director &amp; Company Secretary received a cost-of-living related salary increase of 5% of salary. We appreciate that Directors' salaries at this company are on the relatively conservative side in comparison to peers within the FTSE 250 and compared to peers. We also note that the CEO to employee pay ratio has decreased, now at 47:1, which is not a concerning figure. We engaged with the company to understand how the wider workforce's pay is being bolstered in light of the cost-of-living crisis, to which the company explained that recognising the exceptionally high levels of inflation, especially in the UK and the US, it took a range of actions to support employees in 2022 and through to 2023. Some average annual salary increases within the workforce have been as much as 8.5%, whilst in other businesses the company has introduced one off winter fuel payments of up to £1500 for all employees earning lower than £50k pa. with a sliding scale for those earning between £50-60k pa. Other measures include subsidised canteens and transport. They have put in place a free and confidential Employee Assistance Programme which offers guidance and support on subjects including financial matters and welfare. Given the company's response, we feel comfortable to support the pay report at this time, which does not suggest lack of alignment between pay and performance.</p>
	Resolution 3. Approve Final Dividend	For	

	Resolution 4. Re-elect Carl-Peter Forster as Director	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the vote on the nomination committee Chair reflects our concerns that there is no ethnic diversity on the board. However, we note that the Company has stated in the annual report that it has begun the search for an additional NED to further increase diversity on the Board. While the company is late in doing so, during engagement, it has been mentioned that the firm has recently appointed a consultant to undertake a search for suitable candidates that will bring further diversity to the board. This will be kept under very strict review ahead of the next AGM, when an against will be considered appropriate if no movement. A further concern was identified in that the company's CDP score is weak, at a D. We however acknowledge that this is the first year when the company has responded, and would like to promote further and improved survey responses. Chemring's CDP score will be kept under review.

Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as in total, the proposed authorities would enable the Board to issue the equivalent of 20% of issued share capital without pre-emptive rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, our preference is for such authorities to be limited to 10% of the share capital. However, we have exceptionally supported as we are mindful that the proposed authorities are in line with the Pre-emption group's revised guidelines and instead we intend to monitor what companies actually do in practice. Where we have concerns with how a company has used these authorities we would consider not supporting the authorities in future years or vote against the relevant non-executive directors.

	Resolution 2. Approve Remuneration Report	For (Exceptional)	Under normal circumstances, we would have voted against the remuneration report to reflect ongoing concerns over quantum and a significant disconnect between executive and employee pay. For example, the CEO to employee pay ratio of 313:1 is very high. However, we have exceptionally supported as we are mindful that the CEO's total remuneration for FY22 is largely due to the vesting of the 2017 and 2020 LTIPs and company performance has been really strong. The pay ratio is also considerably less than FY2021 (656:1). We are also mindful of the low positioning of fixed pay so overall, arrangements are in keeping with our principle of pay for long-term performance. Further, given the scrutiny the company and shareholders should expect for approving significant executive pay outcomes, it is important to see that the company has laid out how other staff are incentivised and rewarded, including higher than normal salary increases for FY22 and the financial support provided to staff during the cost of living crisis. All staff and paid above the over-23 National Living Wage rate, regardless of their age. However, we have asked the company to pay all staff and contractors the real living wage.

All companies should enhance human and labour rights oversight. This is particularly true for supply chain oversight, where long supply chains like agricultural ones require comprehensive Human Right Due Diligence processes that not only address already existing human/labour right cases but which actively identify areas of risk and implement measures to prevent them (with both operational and financial repercussions). Further, we believe these disclosures should not be oriented to regulators alone, but also to investors with justifiable concerns over sustainability.

A vote for this proposal is warranted given that the request applies only to future severance arrangements, the current agreements will not be affected, the request offers flexibility as to when the board may seek shareholder approval of a new or renewed severance arrangement, such as at the next annual meeting, and it is positive for shareholders to have the ability to vote on severance amounts that exceed market norms.

	Resolution 5. Reduce Ownership Threshold for Shareholders to Call Special Meeting	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. The proposed 10% ownership threshold for shareholders to call a special meeting would enhance shareholders' ability to make use of the right, and the likelihood of abuse of the right is considered small given the company's size and the composition of its shareholder base.

	Resolution 6. Improve Executive Compensation Program and Policy	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. 	Resolution 6. Reelect Cornelis de Jong (Chair) as Director	For (Exceptional)	Under normal circumstances, we would not be able to support the Chair's re-election to hold him accountable for the insufficient gender representation on board, as women represent less than 33% of the board. We however recognise that the percentage of female representation on the board has increased since 2021 from 18% to 37% to 30% ahead of the upcoming AGM. While the progress in the most recent year is due to the departure of a male director (former chair), we believe there is room for some flexibility ahead of this year's vote. We will engage with the company on this matter, and have a stricter approach next year if statistics do not improve.

We however acknowledge that the total pay quantum does not stand out as excessive for a company of its size, and the pay ratio is relatively limited in comparison to other US-based companies.

	Resolution 1D. Elect Director Joanne M. Maguire	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution. This director is the nomination committee chair, and there are significant concerns on board composition. The Board Chair and CEO role is combined, and the lead independent director on board is not considered independent due to his tenure on board (15 years). We will support on a qualified basis at this time, given this is only the second year for voting on the company. We will engage to communicate our concerns, and look into escalated voting action ahead of the next year if board composition does not improve.

<b>AGM</b> <b>23/02/2023</b> <b>United Kingdom</b>	Resolution 2. Such discretionary payments may impair non-executive director independence (particularly if these are regular and / or significant). However, we have exceptionally supported as we have recently become shareholders in Foresight Sustainable Forestry Co. and consider it appropriate to engage with the Company on the issue first.
	Resolution 3. Approve Remuneration Report	For (Exceptional)	Under normal circumstances we would have not supported the remuneration report as non-executive directors received additional remuneration for the work done in relation to the company's IPO and the placing programme conducted in June 2022. As detailed under resolution 2, non-executives are entitled to receive additional discretionary payments for their services outside of the normal scope of the ordinary duties of a Director and such discretionary payments may impair non-executive director independence (particularly if regular and / or significant). Additionally, the company's current credit rating is CRISIL AA+/Stable/A1+, which denotes high degree of safety regarding timely servicing of financial obligations. As of the latest financial year end (FY2022), the company has a capital adequacy ratio (CAR) of 22.97 percent, which is well above the required CAR set by the Reserve Bank of India of 15 percent. In financial services companies, overall leverage is generally reined in by capital adequacy requirements. Given the company's rationale, credit rating and financial position, we exceptionally support this resolution.

	Resolution 5. Ratify KPMG AG as Auditors for Fiscal Year 2023 and for the Review of Interim Financial Reports for the First Half of Fiscal Year 2023	For (Exceptional)	Under normal circumstances we would be unable to support as the company has retained the same audit firm since 2000 (i.e. in excess of twenty years). However, the company has committed to rotate their auditor in the next 2 years. We will therefore support this year but we will keep under review.

	Resolution 6.1. Elect Herbert Diess to the Supervisory Board	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we have exceptionally supported their appointment as we are mindful that the proposed term is just one year above our guidelines and that we have no concerns regarding this director, who is considered independent, and in fact improves the composition of the board.
	Resolution 6.2. <b>SPAR GROUP LTD</b> <b>AGM</b> <b>14/02/2023</b> <b>South Africa</b>	Resolution 1. Elect Mike Bosman as Director	For (Exceptional)	Under normal circumstances we would have voted against the re-election of this director to reflect our concerns that, in aggregate they have too many board commitments. Subsequent to the CEO's early retirement on 31 January 2023, Mike Bosman assumed the Executive Chair role until a permanent CEO is appointed. The Company expects to recruit a successor within three months, after which Mr Bosman will revert to his non-executive role. However, we have exceptionally supported their re-election given they are the CEO/Executive Director of this company. We also take into account the irregular circumstances under which Bosman is being appointed into this role. Instead, our default position would be to vote against their election as a non-executive at their other companies.

Approve Virtual-Only Shareholder Meetings Until 2025	For (Exceptional)	<p>Under normal circumstances, we would not be able to support this resolution as the proposed amendments can potentially undermine shareholders rights because they appear to provide the possibility for virtual-only shareholder meetings. Upon engagement, the company has elaborated on the circumstances under which virtual-only meetings would be held, and we consider the following factors as mitigating:</p> <ul style="list-style-type: none"> <li>- The company needs to change its articles of association to the new German law regarding AGMs. According to the new law the company would ask for a five-year duration, but instead they are only asking for two years as they intend to "learn together with our shareholders with regard to the new format, collect feedback after the 2023 AGM and in case if need be, also adjust our articles after two years";</li> <li>- The changes would foresee the possibility to choose between different formats of future AGMs (physical, virtual, also hybrid)</li> <li>- No decision has been made in the format for the AGM 2024 and 2025</li> <li>- The decision will be made case by case and aspects like safeguard of shareholder rights, health and safety of participants, sustainability and cost will have an influence. We will look for the company to publish its findings based on shareholder feedback on meeting format over the next few years.</li> </ul>

Re-elect Richard Huntingford as Director	For (Exceptional)	Under normal circumstances we would not support as there is lack of ethnic diversity on the board however they have a current targets to address this by 2024. In addition both the CEO and the CFO at this company are female and we have no issues with diversity overall. In addition, the company has not responded to the CDP's annual Climate Change questionnaire, the most complete source of self-reported corporate environmental data in a standardized and comparable format, that is widely used throughout financial markets. While we flag this as a concern we note the company has done their TCFD reporting for the first time this year and appears to be early in their journey. We will support this year but expect the company to complete the questionnaire this year.

	Resolution 6. Re-elect Zillah Byng-Thorne as Director	For (Exceptional)	Under normal circumstances we would have voted against the re-election of this director to reflect our concerns that, in aggregate she has too many board commitments (in addition to her role as CEO she holds two non-executive director roles). However, we have exceptionally supported their re-election given they are the CEO of this company. <b>SAGE GROUP PLC</b> <b>AGM</b> <b>02/02/2023</b> <b>United Kingdom</b>	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	<p>Normally, we would not be able to support this resolution as the CFO's 2023 PSP grant level will be increased from 200% to 225% of salary, signalling increased quantum which is not ideal in the current economic environment. On balance, we note that the resulting award level remains below that of the CEO (250% of salary) and within the existing policy limit (300% of salary). The Company explains that this increase is to appropriately reflect his experience and importance to Sage and to ensure he is paid fairly for his contribution to long-term growth. The CFO's shareholding requirement will increase from 250% to 275% of salary. We do not have significant concerns on this change, and neither on the company's general pay ratio profile, which appears to be on a relatively low level. We were consulted on other changes which involves increasing the weighting of the ESG measures from 15% to 20% and such measures will comprise new metrics linked to the company's progress in reducing carbon emissions against a SBTi-approved NZ Plan, development of products to enable SMBs to address their own sustainability goals, and key diversity, equity, and inclusion metrics. The Company is also proposing to give greater emphasis to underlying measures. To align Executives incentives to key performance indicators, metrics in incentive plans for FY23 will also be measured on an underlying basis. This is being applied on absolute growth, cloud native ARR growth and ROCE underpins in the FY23 PSP.</p>

They are an executive in another Company, yet this isn't the only other Board they sit on. However, this director's role at Standard Chartered Plc (as an executive officer) is part-time and advisory in nature, with no executive or management responsibilities.
	Resolution 9. Re-elect Annette Court as Director	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as this NED holds 2 Chair and 1 NED position. While we acknowledge the number and/or nature of their other board positions is high, which could raise questions over whether they can contribute fully to their role(s), the overall positions are just within our guidelines and we do not have any further concerns regarding this director. We are supporting the re-election but we will however be keeping this under review.

<b>WAREHOUSES DE PAUW NV</b> <b>EGM</b> <b>02/02/2023</b> <b>Belgium</b>	Resolution A.2.I. Authorize Increase in Share Capital of up to 50 Percent of Authorized Capital With Preemptive Rights by Cash Contributions	Against	<ul style="list-style-type: none"> <li>• Duration of authority too long</li> </ul>

	Resolution A2II. Authorize Increase in Share Capital of up to 50 Percent of Authorized Capital by Optional Dividend	For (Exceptional)	Under normal circumstances we would have voted against this authority as it is valid for 5 years. We believe that authorities of this nature should be put to shareholders on an annual basis, as over the year there may be significant changes in company circumstances or in market conditions. However, we have exceptionally supported as the proposed authority can only be used in connection with the company issuing shares to grant stock dividend to existing shareholders who choose to receive stock dividend. As such it would not be in shareholders' best interests to oppose this proposal .

	Resolution 1d. Elect Director Gilles C. Pelisson	For (Exceptional)	Under normal circumstances we would not have supported the re-election of the Lead Independent Director as he is technically not independent (having served on the Board for 10 years) and he sits on key board committees( i.e. the governance committee) which should comprise independent directors only. However, we have exceptionally supported as we are mindful that his board term only just exceeds our recommended term and we are comfortable with Board composition more broadly i.e all of the other non-executives are independent.

	Resolution 1g. Elect Director Arun Sarin	For	
	Resolution 1h. Elect Director Julie Sweet	For (Exceptional)	Under normal circumstances we would not have supported this director as she serves as both the CEO and Chair, roles we think should be split - the Chair's role on a board is to evaluate and review the performance of management. However, we have exceptionally supported due to a number of safeguards in place such as there being a Lead Independent Director (albeit they have now served on the Board for 10 years), and all other non-executives are independent.

<b>CAPRICORN ENERGY PLC</b> <b>EGM</b> <b>01/02/2023</b> <b>United Kingdom</b>	Resolution 8. Elect Hesham Mekawi, a Shareholder Nominee to the Board	For (Exceptional)	<p>It is noted that despite billions in investments and divestments over a decade, there is no evidence that Capricorn created any meaningful value for shareholders. Additionally, based on public information, neither the Tullow deal nor the NewMed combination appear to provide a more compelling alternative to the standalone case. And given the pervasive loss of faith in the company's leadership, and considering that partial change is unlikely to generate sufficient investor trust in a reconstituted board (particularly in the absence of more granular disclosure around key decisions), there appears to be merit to the dissident's call for a majority change at board level. The suggested candidates appear to have oil and gas industry experience, which may benefit Capricorn Energy. As such, we support this resolution.</p>

<b>27/01/2023</b> <b>United Kingdom</b>	Resolution 2. Approve Remuneration Report	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as an above-inflationary increase was implemented for Daemmon Reeve's FY2023 base salary, representing the second and last phase of his two-year salary adjustment. The Remuneration Committee implemented the second phase of the CEO's planned salary increases despite decline in some of the financial KPIs, raising concerns on whether it is justified. Moreover, bonus payouts resulted solely from non-financial achievements; financial targets were not met, and the link of pay and performance is not clearly established. Mitigating, bonus amounts are not excessive and were reduced to reflect market context and time served. In addition, FY2023 LTIP award levels are reduced, in light of disappointing impact on profits as stated by the company, mitigating increase in total CEO remuneration as a result of the salary increases.

A vote FOR this resolution is warranted because shareholders would benefit from increased disclosure regarding the company's policies and practices related to the sale of tobacco products and its risk oversight mechanisms for continued in-store tobacco sales.
	Resolution 5. Require Independent Board Chair	For (Exceptional)	This item is not contentious and is in the best interest of shareholders. It is however noted that some measures have been taken this year to alleviate concerns previously expressed on pay and performance alignment.

	Resolution 3. Advisory Vote to Ratify Named Executive Officers' Compensation	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the CEO: Employee pay ratio is more than 200:1 and is considered excessive. We understand that the pay ratio has reduced significantly in the year under review (from 1288:1 to 732:1 in 2022), notably due a nil option grant in the year under review. The compensation committee adequately responded to shareholder concerns following last year's low say-on-pay vote result. The proxy provides clearly outlined shareholder feedback and concerns, and commensurate actions taken by the committee to increase the performance component of the LTI plan as well as plans to enhance disclosure under the STI plan relating to individual performance. Concerns regarding the misalignment between CEO pay and company performance are also sufficiently mitigated for the year under review. Financial measures comprise 80 percent of the STI and all measures had targets set above the prior year's actual results. The CEO's equity mix is also 75-percent performance-contingent, tied to multi-year, pre-set objectives.

	Resolution 4. Ratify KPMG LLP as Auditors	For	
	Resolution 5. Require Independent Board Chair	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chair to be an independent director. While the pending change to board composition and the separation of CEO and Chair roles is acknowledged positively, we support this resolution on the principle that the roles should always remain separated, in the interests of maintaining best market practice.

<b>BIOCON LTD</b> <b>EGM</b> <b>21/01/2023</b> <b>India</b>	Resolution 1. Elect Peter Bains as Director	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we have exceptionally supported their appointment as we are mindful that the proposed term is just one year above our guidelines and that we have no concerns regarding this director, who is considered independent, and in fact improves the composition of the board.

The proposed transaction entails purchase of capital equipment - solar trackers - and is within the ordinary course of the company's business, and will be conducted at arm's-length. Moreover, the authority is valid for a period of one year, after which, shareholders will have the opportunity to review these transactions. Given the latter reasons, we support this resolution on an exceptional basis.

	Resolution 3. Advisory Vote to Ratify Named Executive Officers' Compensation	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the CEO: Employee pay ratio is more than 200:1 and is considered excessive. The pay ratio rose from 193 to 218:1 in 2022. It is however acknowledged that pay has risen alongside performance in FY2022. Furthermore, the company disclosed the median compensation of all employees to be \$45,450, which is generally higher than what is offered by peers. A further factor to take into consideration is that the company employs an LTIP which is 100% performance based, which is a positive. While the performance period is not sufficient (one-year, with vesting taking place annually at 20% over five years), this is still a relatively favourable structure, given the full emphasis on performance conditions.
	Resolution 4. Advisory Vote on Say on Pay Frequency	For (Exceptional)	In the US, companies are now required to give shareholders a choice of one, two or three years for the preferred frequency of advisory say-on-pay votes. We have voted for our preferred frequency of one year.

	Resolution 5. Report on Risk Due to Restrictions on Reproductive Rights	For (Exceptional)	A vote FOR this resolution is warranted, as additional information on the potential risks and costs associated with proposed or enacted state policies that restrict reproductive healthcare would allow shareholders to better assess how the company is managing such associated risks. Additional factors that help us support this resolution is the large size of the company and labour force, signalling the large level of impact of the requested report.

	Resolution 12. Approve Remuneration Report	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as the CEO: Employee pay ratio is more than 100:1 and is considered excessive. It is however acknowledged that the pay ratio has reduced considerably from the previous year (from 180 to 129:1). Another concern noted is that base pay for the CEO and highest paid director is in the upper quartile for the index on a balanced comparison which is not justified by either the performance or size of the company. Furthermore, the new CFO's salary is considerably higher than that of his predecessor (c.23% difference). This is however partially explained by reference to the company's increased size and complexity, and also because Chris Davies is an experienced CFO. It is noted that his salary at National Express was GBP 425,000, and therefore, on a par with the salary at Diploma. A further concern is that none of the annual bonus award is deferred which is not aligned with the long term interests of shareholders. This is because he has already exceeded his shareholding guideline, and now holds c. 5x salary in shares. While it is preferred to have deferral apply regardless of the shareholding or bonus size, some consideration can be given to his current shareholding size to reduce concern on this topic. Lastly, the current dilution information is not disclosed. This is something that will be communicated to the company.
	Resolution 13. Approve Remuneration Policy	Abstain	<ul style="list-style-type: none"> <li>• Excessive pay levels</li> <li>• Insufficient post employment shareholding requirement</li> <li>• Lack of bonus deferral</li> </ul>

	Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

	Resolution 3. Approve Remuneration Report	For (Exceptional)	<p>Under normal circumstances, we would not be able to support this resolution due to two key reasons: - The CEO's salary is positioned generously against peers and is c13% higher than his predecessor's. - The company has amended the weighting for the FY2023 bonus and revised weightings (which are different from the ones disclosed in the annual report) are provided in a notice on the company's website. The main thrust of the alteration is the enhanced emphasis on cash, and the reduced focus on revenue. A retrospective change in general is not favourable. We do however acknowledge that the company's profit expectations have been downgraded materially, and there have been concerns over balance sheet strength. Investor focus is on cash generation, and so the change to the FY2023 bonus framework can be supported. Target strength will be assessed ahead of the next AGM to ensure that they are considerably stretching, given the current performance's context. The CEO's salary can also be considered justified, in the interest of creating an incentivising position.</p>

	Resolution 4. Re-elect Jorgen Lindemann as Director	For (Exceptional)	Under normal circumstances, we would not be able to support this resolution as there is no ethnic diversity on the board. However, the Committee targets to have 15% ethnic minority representation across combined leadership population by the end of FY23. We also have concerns over the lack of women on the Board. Although, the Company recently announced that Wei Gao will join the Board as a NED in February 2023. Her appointment will improve the gender diversity profile. Board composition will be kept under review ahead of the next AGM, when a more stringent stance will be taken if diversity targets are not met.
