NOTICE TO SHAREHOLDERS OF AVIVA INVESTORS – GLOBAL CLIMATE EQUITY FUND (THE "SUB-FUND")

Luxembourg, 27 February 2026

Dear Shareholder,

We would like to inform you that the Board of Directors of the Fund (the "**Board**") of the Sub-Fund has decided to amend the climate's sustainable investment objective of the Sub-Fund by adding two Sustainable Developments Goals ("**SDGs**") being SDGs 9 (Industry, Innovation and Infrastructure) and 11 (Sustainable Cities and Communities), in order to strengthen the Investment Manager's qualitative assessment performed prior to investment, ensuring that investee companies align with the SDGs the Sub-Fund focuses on.

Additionally, the Board of Directors has decided to clarify the monitoring process of voluntary Principle Adverse Impact indicators (PAI Indicators).

In accordance with article 4 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial sector (the "SFDR"), financial products must consider 14 mandatory PAI indicators and select at least two voluntary PAI indicators. The PAI indicators are used to measure and inform shareholders of the negative impacts investments have on sustainability factors.

The investment Manager monitors the mandatory PAI indicators on an on-going basis while the voluntary PAI indicators are considered within the investment process of the Sub-fund, but not actively monitored.

As a result, the Sub-Fund's Annex III - Pre-contractual Disclosures of the prospectus of the Fund (the "**Prospectus**") will be amended to clarify that the Investment Manager's DNSH screening rely on the monitoring of mandatory PAI indicators while voluntary PAI Indicators may not be considered in the Investment Manager's assessment.

The changes, as detailed below, will become effective on 1 April 2026 (the "**Effective Date**").

1. Strategy

As from the Effective Date, the description of the Sub-Fund's sustainable investment objective will be amended as follows:

"(...)

*Recognising that responding to climate change is an explicit goal of the UN Sustainable Development Goals ("SDGs"), the Sub-Fund is primarily aligned with the principles of **at least one of the following SDGs**:*

- *SDG 7: Affordable and Clean Energy*
- **SDG 9: Industry, Innovation and Infrastructure**
- **SDG 11: Sustainable Cities and Communities**
- *SDG 13: Climate Action*

(...)"

2. Annex III – Pre-contractual disclosure of the Sub-Fund

As from the Effective Date, the following sections of the Sub-Fund’s Annex III – Pre-contractual disclosures will be amended as follows:

- a) Question “*What is the sustainable investment objective of this financial product?*”

“(…)

The Global Climate Equity Fund (the “Sub-Fund”) is part of Aviva Investors’ Sustainable Outcomes range which aims to support three key sustainable themes – relating to People, Climate and Earth (or Natural Capital) – closely aligned to the principles of the UN Sustainable Development Goals (“SDGs”). Each fund in the range follows a common investment philosophy to avoid significant harm, invest in solutions and back sustainable transition aligned to its particular theme.

This Sub-Fund focusses on “Climate” (primary SDGs: 7 Affordable and Clean Energy,

9 Industry, Innovation and Infrastructure, 11 Sustainable Cities and Communities and 13 Climate Action).
(…)”

- b) Question “*How do sustainable not cause significant harm to any environmental or social sustainable investment objective?*”

“(…)

Fund-level screening based on the indicators for principal adverse impacts (“PAI”) on sustainability factors. Aviva Investors assesses an issuer’s performance against each of the relevant indicators and the sub-fund will not invest where it is considered that an issuer is causing significant harm to an environmental or social objective. Relevant indicators include all the mandatory PAIs ~~as well as those voluntary indicators selected at a firm-level that are relevant to the theme of the Sub-Fund.~~

“(…)

- c) Question “*What are the binding elements of the investment strategy used to select the investments to attain the sustainable investment objective?*”

“(…)

The binding exclusions set out above are applied to the investment universe to ensure that portfolio companies do not cause significant harm to the sustainable investment objective. As also noted above, with respect to the PAIs, Aviva Investors assesses an issuer’s performance against each of the relevant indicators and the sub-fund will not invest where it is considered that an issuer is causing significant harm to an environmental or social objective. Relevant indicators include mandatory PAIs ~~as well as those voluntary indicators selected at a firm-level that are relevant to the theme of the Sub-Fund.~~
