PROSPECTUS

This Prospectus is dated 2 October 2023

The Directors of **Aviva Investors Liquidity Funds plc** whose names appear in **Part 2** accept responsibility for the information contained in this Prospectus. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

Aviva Investors Liquidity Funds plc

(the “Fund”)

The value of and income from Shares in the Fund may go up or down and you may not get back the amount you have invested in the Fund. Please see the risk factors described under the heading “Risk Factors” below.

The difference at any one time between the sale and redemption price of Shares means that the investment should be viewed as medium to long term.

If you are in any doubt about the contents of this Prospectus you should consult your stockbroker, bank manager, solicitor, accountant or other financial adviser.

Retail investors must subscribe for or redeem Shares through an independent financial adviser or other intermediary. However, this should not result in such investors paying more fees than otherwise would have been paid for a direct investment.

Certain of the Short Term Money Market Sub-Funds have availed of the derogation provided for under Regulation 17 (7) of the Money Market Fund Regulation and may, in accordance with the principle risk-spreading, up to 100% of its assets in different money market instruments issued or guaranteed separately or jointly by the European Union, the national, regional and local administrations or their central banks, the European Central Bank, the European Investment Bank, the European Investment Fund, the European Stability Mechanism, the European Financial Stability Facility, a central authority or central bank of a third country, the International Monetary Fund, the International Bank for Reconstruction and Development, the Council of Europe Development Bank, the European Bank for Reconstruction and Development, the Bank for International Settlements, or any other relevant international financial institution or organisation to which one or more Member States belong.

The Fund is an umbrella open-ended investment company with segregated liability between sub-funds and with variable capital incorporated on 10 May, 2002 and is authorised in Ireland as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 as amended. Accordingly, the Fund is supervised by the Central Bank of Ireland. This, however, does not constitute a warranty by the Central Bank as to the performance of the Fund and the Central Bank shall not be responsible for the performance or default of the Fund. Authorisation of the Fund is not an endorsement or guarantee of the Fund by the Central Bank nor is the Central Bank responsible for the contents of the Prospectus.

The Fund has segregated liability between its Sub-Funds and accordingly any liability incurred on behalf of or attributable to any Sub-Fund shall be discharged solely out of the assets of that Sub-Fund.

The Fund is authorised as a recognised scheme for the purposes of Section 264 of the Financial Services and Markets Act 2000.

Shareholders in the United Kingdom shall have no right (under the United Kingdom Financial

Services Authority's New Conduct of Business sourcebook, Chapter 15) to cancel the investment agreement constituted by the acceptance by or on behalf of the Fund of an application for Shares. In addition, most if not all of the protections provided under the United Kingdom regulatory system will not apply to investment in the Fund. The rights of Shareholders may not be protected by the investors compensation scheme in the United Kingdom.

Distribution of this Prospectus is not authorised in any jurisdiction unless accompanied by a copy of the then latest published annual report and unaudited accounts. Such reports and this Prospectus together form the prospectus for the issue of Shares in the Fund.

This Prospectus may not be used for the purpose of an offer or solicitation in any jurisdiction or in any circumstances in which such offer or solicitation is unlawful or not authorised. In particular, the Shares have not been and will not be registered under the Securities Act of 1933 or the securities laws of the United States. The Shares may not be offered or sold directly or indirectly in the United States or to or for the account or benefit of any U.S. Person or in a transaction not subject to the regulatory requirements of, the Securities Act of 1933 and any applicable state securities laws. Any re-offer or resale of Shares in the United States or to U.S. Persons may constitute a violation of U.S. law. The Fund has not been and will not be registered under the Investment Company Act of 1940 and investors will not be entitled to the benefit of registration.

The Shares have not been approved or disapproved by the U.S. Securities and Exchange Commission, any state securities commission or other regulatory authority, nor have any of the foregoing authorities passed upon or endorsed the merits of this offering or the accuracy or adequacy of these offering materials. Any representation to the contrary is unlawful. The Shares are subject to restrictions on transferability and resale and may not be transferred or resold in the United States except as permitted under the Securities Act of 1933 and applicable state securities laws, pursuant to registration or exemption therefrom.

In order to ensure compliance with the restrictions referred to above, the Fund is, accordingly, not open for investment by any U.S. Persons or ERISA Plans (pursuant to the Employee Retirement Income Security Act of 1974, as amended) except in exceptional circumstances and then only with the prior consent of the Fund. A prospective investor may be required at the time of acquiring Shares to represent that such investor is a qualified investor and not a U.S. Person or acquiring Shares for the account or benefit, directly or indirectly, of a U.S. Person or with the assets of an ERISA Plan. The granting of prior consent by the Fund to an investment does not confer on the investor a right to acquire Shares in respect of any future or subsequent application.

The Articles of Association of the Fund give powers to the Directors to impose restrictions on the holding of Shares by (and consequently to redeem Shares held by), or the transfer of Shares to, any U.S. Persons (unless permitted under certain exceptions under the laws of the United States) or by any person who appears to be in breach of any law or requirement of any country or government authority or by virtue of which such person is not qualified to hold such Shares or by any person or persons in circumstances (whether directly or indirectly affecting such person or persons, and whether taken alone or in conjunction with any other person or persons, connected or not, or any other circumstances appearing to the Directors to be relevant) which, in the opinion of the Directors, might result in the Fund incurring any liability to taxation or suffering any other pecuniary legal or administrative disadvantages or being in breach of any law or regulation which the Fund might not otherwise have incurred, suffered or breached.

Where Taxable Irish Persons acquire and hold Shares, the Fund shall, where necessary for the collection of Irish tax, redeem and cancel Shares held by a person who is or is deemed to be or is acting on behalf of a Taxable Irish Person on the occurrence of a chargeable event for Irish taxation purposes and pay the proceeds thereof to the Irish Revenue Commissioners.

This Prospectus may be translated into other languages. Any such translation shall only contain the same information and have the same meanings as this English language document. To the extent that there is any inconsistency between this English language document and the document in another language, this English language document shall prevail except to the extent (but only to the extent) required by the laws of any jurisdiction where the Shares are sold so that in an action based upon disclosure in a document of a language other than English, the language of the document on which such action is based shall prevail.

Potential subscribers and purchasers of Shares should inform themselves as to (a) the possible tax consequences, (b) the legal requirements, (c) any foreign exchange restrictions or exchange control requirements and (d) any other requisite governmental or other consents or formalities which they might encounter under the laws of the countries of their incorporation, citizenship, residence or domicile and which might be relevant to the subscription, purchase, holding or disposal of Shares.

Any information given, or representations made, by any dealer, salesman or other person which are not contained in this Prospectus or in any reports and accounts of the Fund forming part hereof must be regarded as unauthorised and accordingly must not be relied upon. Neither the delivery of this Prospectus nor the offer, issue or sale of Shares shall under any circumstances constitute a representation that the information contained in this Prospectus is correct as of any time subsequent to the date of this Prospectus. This Prospectus may from time to time be updated and intending subscribers should enquire of the Manager, the Investment Manager or the Administrator as to the issue of any later Prospectus or as to the issue of any reports and accounts of the Fund.

All Shareholders are entitled to the benefit of, are bound by and are deemed to have notice of the provisions of the Memorandum and Articles of Association of the Fund, copies of which are available as mentioned herein.

This Prospectus shall be governed by and construed in accordance with Irish Law.

Defined terms used in this Prospectus shall have the meanings attributed to them in the Definitions section below.

INTRODUCTION

The Fund is structured as an open-ended umbrella investment company in that Shares representing interests in different Sub-Funds may be issued from time to time by the Directors. Shares of more than one class may be issued in relation to a Sub-Fund. All Shares of each class will rank *pari passu* save as otherwise provided for in the relevant section of Part 1 for the relevant Sub-Fund. On the introduction of any new Sub-Fund (for which the prior approval of the Central Bank is required) or any new class of Shares (which must be issued in accordance with the requirements of the Central Bank), the Fund will prepare and the Directors will issue a supplement setting out the relevant details of each such Sub-Fund or new class of Shares. A separate portfolio of assets will be maintained for each Sub-Fund (and accordingly not for each class of Shares) and will be invested in accordance with the investment objective and policies applicable to such Sub-Fund.

Particulars relating to the Sub-Funds of the Fund and the classes of Shares available therein are set out herein in Part 1.

Aviva Investors Global Services Limited (the ‘Investment Manager’) serves as investment manager of the Fund and as a distributor of its Shares.

The Fund may decline any application for Shares in whole or in part without assigning any reason therefor.

After the initial issue of Shares at the Initial Issue Price, Shares will be issued and redeemed at the Net Asset Value per Share in accordance with the provisions summarised under ‘Issue and Redemption Prices / Calculation of Net Asset Value / Valuation of Assets’ in Part 2. A currency conversion will take place at the prevailing exchange rates on the issue, redemption and exchange of Shares or on distribution where applicable.

Details of Dealing Days in respect of each Sub-Fund appear in Part 1.

Information in this introduction and Part 1 is selective and should be read in conjunction with Part 2 of the Prospectus.

PART 1

AVIVA INVESTORS STERLING LIQUIDITY FUND

Investment Objective and Policies

The investment objective of the Sub-Fund is to offer returns in line with money market rates and to preserve the value of the investment.

The Sub-Fund is actively managed and will endeavour to achieve its objective by investing in a diversified portfolio of high grade Sterling denominated short term debt and debt related instruments described below which are traded on the Markets listed in Appendix II of the Prospectus or which are to be traded on such Markets within a year of being issued.

The Sub-Fund is a LVNAV Short Term Money Market Fund and its investments will include fixed or floating rate instruments including but not limited to commercial paper, term deposits, floating rate notes, certificates of deposit, freely transferable promissory notes, debentures, asset-backed securities and bonds. The investments shall be denominated in Sterling but may also be denominated in other currencies and hedged back to Sterling, and may be issued or guaranteed as to principal or interest by sovereign governments, their agencies and instrumentalities, supranational entities and EU and non-EU corporations and financial institutions who are incorporated or domiciled in, or listed or dealt on a Market located in those jurisdictions listed in Appendix II hereto or in securities of issuers that, while not located in those jurisdictions, conduct substantial business in them as determined by the Investment Manager, including (i) companies which have substantial assets in those jurisdictions or (ii) companies which derive a substantial portion of their total revenues from either goods and services produced in, or sales made in, those jurisdictions.

The Investment Manager intends to manage the Sub-Fund according to its classification as a Short Term Money Market Fund and the restrictions imposed by recognised rating agencies in order to maintain an overall credit rating of Aaa which may include where applicable ensuring that the Sub-Fund's investments have such ratings as may be required from time to time by the relevant rating agency to maintain the credit rating.

The Investment Manager intends to manage the Sub-Fund in accordance with the ESG Considerations as detailed further below. The Sub-Fund seeks to promote, among other characteristics, environmental or social characteristics in line with Article 8 of Regulation (EU) 2019/2088, the Sustainable Finance Disclosure Regulation (the “SFDR”).

In accordance with Regulation 17 (7) of the Money Market Fund Regulation, the Sub-Fund may invest up to 100% of its assets in different money market instruments issued or guaranteed separately or jointly by the European Union, the national, regional and local administrations or their central banks, the European Central Bank, the European Investment Bank, the European Investment Fund, the European Stability Mechanism, the European Financial Stability Facility, a central authority or central bank of a third country, the International Monetary Fund, the International Bank for Reconstruction and Development, the Council of Europe Development Bank, the European Bank for Reconstruction and Development, the Bank for International

Settlements, or any other relevant international financial institution or organisation to which one or more Member States belong.

The Sub-Fund may invest up to 10% of its Net Asset Value in other Short Term Money Market Funds.

The weighted average maturity of the Sub-Fund's investments will not exceed 60 days and in any event the Sub-Fund's investments will have a residual maturity until the legal redemption date not exceeding 397 days. When calculating the weighted average maturity of investments, the maturity of a floating rate instrument shall be deemed to be its next interest readjustment date. The weighted average life of the Sub-Fund's investments will not exceed 120 days. The Sub-Fund may also hold ancillary liquid assets such as bank deposits.

The Sub-Fund is subject to and managed in accordance with the portfolio rules of Article 24 of the Money Market Fund Regulation.

Investment Restrictions

The investment restrictions are as prescribed in the Money Market Fund Regulation as set out in Appendix IV of the Prospectus.

The Sub-Fund may not invest more than 10% of its Net Asset Value in other Short Term Money Market Funds and no more than 5% of its Net Asset Value may be invested in the units or shares of any single Short Term Money Market Fund.

The Directors may from time to time impose such further investment restrictions as shall be compatible with or in the interests of Shareholders, in order to comply with the laws and regulations of the countries where Shareholders are located. In such instances an updated prospectus will be issued, in accordance with the requirements of the Central Bank.

Borrowing Limits

The Sub-Fund may not borrow cash. The Sub-Fund may not lend to, or act as guarantor on behalf of third parties.

Efficient Portfolio Management

Subject to the Regulations and to the conditions within the limits laid down by the Central Bank from time to time, the Sub-Fund may invest in financial derivative instruments dealt in on a Market listed in Appendix II of the Prospectus and/or over the counter derivatives "OTCs" which will be used solely for the purposes of hedging interest rate or exchange rate risks inherent in other investments of the Sub-Fund. The underlying of such derivative instruments will be interest rates, foreign exchange rates, currencies or indices representing one of those categories. Use of financial derivative instruments is subject to the conditions and limits laid down by the Central Bank and the requirements of the MMFR.

Before utilising financial derivative instruments, the Fund on behalf of the Sub-Fund shall file with the Central Bank a risk management process report. The Fund will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the

risk and yield characteristics of the main categories of investments in financial derivative instruments.

Under the Regulations, the Sub-Fund may utilise financial derivative instruments subject to the following terms and conditions:-

1. The global exposure of the Sub-Fund relating to financial derivative instruments must not exceed its total net asset value;
2. The position exposure to the underlying assets of financial derivative instruments including embedded financial derivative instruments in transferable securities or money market instruments when combined where relevant with positions resulting from direct instruments must not exceed the investment limits specified under the heading Investment Restrictions above.
3. Investments in OTCs may be made provided that the counterparties to OTCs are institutions subject to prudential supervision and belonging to categories approved by the Central Bank.

The Sub-Fund may also utilise repurchase agreements and reverse repurchase agreements, that fulfil the conditions of Article 14 and Article 15 respectively of the Money Market Fund Regulation respectively.

Further information on the use of financial derivatives instruments, reverse repurchase agreements and repurchase agreements is set out in Part 2 of the Prospectus.

Sustainability Disclosures

This Sub-Fund promotes environmental and social characteristics however does not have a sustainable investment objective.

To be eligible for investment, all investments that are selected as part of the Investment Manager's ESG analysis must follow good governance practices and not be excluded by the Investment Manager's ESG Baseline Exclusions Policy or other issuer screening criteria. It may however not be possible to perform ESG analysis on investments used for hedging and efficient portfolio management purposes.

The Investment Manager actively engages with companies and use voting rights with the aim of positively influencing company behaviour and helping to generate competitive returns. The Investment Manager integrates qualitative and quantitative data on adverse sustainability impacts into its investment processes.

The ESG analysis and considerations described are incorporated into the investment process but may not always have a material impact on investments in the Sub-Fund.

Further information regarding how the Investment Manager integrates ESG into its investment approach (including information on its ESG Baseline Exclusions Policy) and how it engages with companies is available in the Responsible Investment Philosophy section of the Prospectus and on the Manager's website at <https://www.avivainvestors.com/en-gb/about/responsible-investment/policies-and-documents/>.

Rating Award

The Fund has obtained an “Aaa-mf” money market rating from Moody’s Investors Service (“Moody’s”) and an AAAM rating from Standard & Poor’s (“S&P”) for the Sub-Fund. When awarding this rating Moody’s and S&P take into account, inter alia, the Sub-Fund's portfolio quality, its counterparties and management, operating procedures and controls, regulatory compliance and market price risk relative to the Sub-Fund's published objectives. The Directors intend to operate the Sub-Fund in accordance with Moody's and S&P's requirements to maintain the rating awards. The rating was solicited or financed by the Sub-Fund or its Investment Manager.

Liquidity Management Procedures

The Sub-Fund will be managed in accordance with the Liquidity Management Procedures for LVNAV Short Term Money Market Funds as described in Part 2 of the Prospectus.

Profile of Typical Investor

A typical investor is an institutional investor looking for a low risk return based upon UK money market instruments. The Sub-Fund is suited to short-term cash investors who are looking for a highly liquid fund. Through its daily liquidity facility, the Sub-Fund is structured to give investors easy access to their cash whenever required.

The level of an investment will determine the class of Shares an investor may subscribe for. Classes 4 and 9 are only available to Shareholders that have a separate mandate with the Investment Manager or its affiliates.

Risk Factors

The general risk factors as set out in Part 2 of the Prospectus shall apply. In addition to the general risk factors outlined in Part 2 of the Prospectus, investors should also note that the Sub-Fund is not a guaranteed investment. A subscription for Shares of the Sub Fund is not the same as placing funds on deposit with a bank or other deposit-taking body and the principal invested in the Sub-Fund is capable of fluctuation. The Sub-Fund does not rely on external support for guaranteeing the liquidity of the Sub-Fund or stabilising the NAV per share. The risk of loss of the principal shall be borne by the Shareholder. The value of the Sub Fund may be affected by the creditworthiness of issuers of the Sub Fund's investments and, notwithstanding the policy of the Sub Fund of investing in short term instruments, may also be affected by substantial adverse movements in interest rates.

Dividend Policy for Class 1-9 Shares and Class W (Distributing) Shares

The Directors intend to declare all or substantially all of the net income of the Sub-Fund attributable to the Shares on each Dealing Day as a dividend to Shareholders of the Shares on the register of members as at the close of business on the relevant Dealing Day. Dividends of the Sub-Fund’s net income attributable to those Shares will be declared daily and payable monthly on or about the first Business Day of each following month. For this purpose, net income (from the time immediately preceding determination thereof) shall consist of interest and dividends earned by the Sub-Fund. The Directors may at their discretion adjust dividends

to take account of realised and unrealised profits on the disposal / valuation of investments as may be lawfully distributed less realised/ unrealised losses (including fees and expenses) of the Sub-Fund. No dividends shall be paid out of the capital of the Sub-Fund.

Notwithstanding the above, the Directors may, at their discretion and if they consider it to be in the best interests of Shareholders of the Sub-Fund or relevant class of Shares, determine not to declare all or substantially all of the net income of the Sub Fund attributable to the Shares on a Dealing Day as a dividend to Shareholders of the Shares. In the event that the Directors determine not to declare all or substantially all of the net income of the Sub Fund attributable to the Shares on a Dealing Day as a dividend to Shareholders of the Shares, any distributable net income not declared will remain in the Sub-Fund's assets and will be reflected in the Net Asset Value of the Shares.

Dividends payable to Shareholders of distributing Shares will be re-invested each month by subscription for additional Shares in the Sub-Fund unless Shareholders specifically request that dividends be paid by telegraphic transfer. Additional Shares will be issued to Shareholders at a price calculated in the same way as for other issues of the Shares on the same date. There is no minimum of such further Shares which may be so subscribed.

In the case of Shareholders who request the redemption of part of their Shares, the payment to them of accrued dividends on those Shares will, if the date of redemption is other than the first Business Day of any month, be made (together with the dividend entitlement on the balance of the Shareholder's holding of Shares) on the second Business Day of the next month following the redemption. In the case of Shareholders who request the redemption of all of their Shares and the payment to them of accrued dividends, such dividends will be paid at the time of such redemption.

Dividend Policy for Class 10-14 and Class W (Accumulating) Shares

Dividends will not be paid on Classes 10 – 14 or Class W (Accumulating) as such classes are accumulating share classes. The net income (if any) attributable to the Class 10 – 14 and Class W (Accumulating) Shares shall be retained within the Sub-Fund and the value of the Shares will vary accordingly.

The Investment Manager reserves the right to advance the time of the Dealing Deadline on any Business Day such as a Business Day when the principal bond markets close early in advance of a holiday customarily observed by participants in such markets or in the case of the happening of an event outside the control of the Fund which precipitates the early closing of the principal bond markets. Prior notification of the revised Dealing Deadline will be sent by email or by post to Shareholders unless it is not possible to do so in the case of the happening of an event outside the control of the Fund.

The Investment Manager reserves the right to alter the Dealing Deadline. Prior notification of the revised Dealing Deadline shall be sent by email or by post to Shareholders in the event that the revised Dealing Deadline is in place on a temporary basis. If introduced on a permanent basis, the Prospectus will be updated and Shareholders will be notified in advance of such changes.

Interim Dealing Cycles

Subject to the section of the Prospectus entitled “Interim Dealing Cycles – Money Market Funds”, the Aviva Investors Sterling Liquidity Fund intends to run one or more Interim Dealing Cycles on a Dealing Day as the Manager may from time to time determine.

Issue Price for Class 1-9 Shares

Net Asset Value per Share of the relevant Class on the relevant Dealing Day.

Issue Price for Class 10-14 Shares and Class W (Accumulating) Shares

The Issue Price per Share of the relevant Class shall be £1,000.0000 during the Initial Offer

Period and thereafter the Net Asset Value per Share of the relevant Class on the relevant Dealing Day.

Issue Price for Class W (Distributing) Shares

The Issue Price per Share of the Class W (Distributing) Shares shall be £1.0000 during the Initial Offer Period and thereafter the Net Asset Value per Share of the relevant Class on the relevant Dealing Day.

Offer Period for Class 1-9 Shares

Shares are continuously available for subscriptions on any Dealing Day.

Offer Period for Class 10-14 Shares

The Initial Offer Period for each of Class 10-14 Shares will run from 9.00 am (Irish Time) on 17 August 2021 to 5.00 pm (Irish Time) on 3 April 2024 or such a shorter or longer period for each Class as the Directors may determine on behalf of the Sub-Fund (in accordance with the requirements of the Central Bank) and notify to the Administrator for a class. Where the offer period is shortened or extended, the Fund will notify the Central Bank, where required, in accordance with the Central Banks requirements. After the Initial Offer Period, shares will be continuously available for subscriptions on any dealing day.

Offer Period for Class W (Accumulating) and Class W (Distributing) Shares

The Initial Offer Period for Class W (Accumulating) and Class W (Distributing) Shares will run from 9.00 am (Irish Time) on 3 October 2023 to 5.00 pm (Irish Time) on 3 April 2024 or such a shorter or longer period for each Class as the Directors may determine on behalf of the Sub-Fund (in accordance with the requirements of the Central Bank) and notify to the Administrator for a class. Where the offer period is shortened or extended, the Fund will notify the Central Bank, where required, in accordance with the Central Banks requirements. After the Initial Offer Period, shares will be continuously available for subscriptions on any dealing day.

Minimum Fund Size

£10,000,000.

Minimum Initial Subscription and Minimum Holding

The Minimum Initial Subscription and Minimum Holding in respect of each class of Shares shall be as set out above, or such lower amount as the Directors may from time to time determine.

Settlement Date for Class 1-14 Shares

In the case of subscription(s), a completed Subscription Form (and in the case of an initial investment, a completed Application Form) must have been received and accepted by the Fund care of the Administrator before the Dealing Deadline for the relevant Dealing Day unless otherwise approved by the Directors and provided the completed Subscription Form is received

before the relevant Valuation Point. Cleared funds must be received by the Fund's close of bank business on the Dealing Day. If cleared funds are not received by the Fund's close of bank business on the Dealing Day, then any interest costs and/or directly related charges will be reimbursed by the subscriber unless otherwise agreed by the Directors at their absolute discretion.

In the case of redemptions, proceeds will usually be paid by telegraphic transfer to a specified account at the Shareholder's risk on the same Dealing Day (and in any event no later than 10 Business Days) after the receipt of the relevant duly signed redemption documentation.

Valuation Point

1.00 p.m. (Irish time) on the Business Day prior to the relevant Dealing Day. The Valuation Point may change if, on or prior to the Dealing Deadline on a Dealing Day, the Manager or its delegate determines that there has been a Valuation Deviation. In such circumstances, Shareholders and applicants for Shares should note that the Valuation Point for the purposes of requests to issue or redeem Shares received on or before the Dealing Deadline on that Dealing Day shall be 1.00 p.m. (Irish time) on the same Dealing Day. Furthermore, on the Dealing Day immediately following any day on which there has been a Valuation Deviation the Valuation Point shall also be 1.00 p.m. (Irish time) on the same Dealing Day.

Fees and Expenses

The Manager shall be entitled to receive out of the assets of the Sub-Fund different fees for each class of Shares as set out below.

Class of Shares	Annual Charges and Expenses
Class 1	0.20% of the Net Asset Value of the Class 1 Shares
Class 2	0.15% of the Net Asset Value of the Class 2 Shares
Class 3	0.10% of the Net Asset Value of the Class 3 Shares
Class 4	None
Class 9	None

Class 10	0.20% of the Net Asset Value of the Class 10 Shares
Class 11	0.15% of the Net Asset Value of the Class 11 Shares
Class 12	0.10% of the Net Asset Value of the Class 12 Shares
Class 13	None
Class 14	None
Class W (Accumulating)	0.50% of the Net Asset Value of the Class W (Accumulating) Shares
Class W (Distributing)	0.50% of the Net Asset Value of the Class W (Distributing) Shares

The fees payable to the Depositary, the Administrator, the Investment Manager and the Distributor shall be paid by the Manager out of its fee.

The total fees and expenses of the Sub-Fund to be borne by each class of Share will currently be limited by the Manager to an amount equivalent to the fees payable to the Manager as set out above (the “Fixed Rate”). The Manager will absorb (directly by first the waiver of its fees and to the extent necessary reimbursing the other operating costs of each class of Shares), any additional fees, ordinary costs or expenses over the Fixed Rate that may arise in respect of the actual cost of management and operation of the Sub-Fund attributable to each class of Share. The Manager may from time to time elect to increase the Fixed Rate of any class of Shares (provided that it may not increase the aggregate fees payable to itself and the Investment Manager as set out above without prior Shareholder approval) by notice to the Fund, and the Fund will notify the holders of the relevant class of Shares if the Fixed Rate is to be increased and the increase shall take effect 90 days after such notice has been given by the Fund.

Fees will be accrued on each Dealing Day, be payable monthly in arrears and be calculated with reference to the average net assets of the Sub-Fund on a monthly basis (i.e. which equals the aggregate of the net assets of the Sub-Fund on each Dealing Day during a calendar month divided by the number of Dealing Days in that calendar month). The Manager and the Investment Manager shall also be entitled to be repaid all of its reasonable costs and out of pocket expenses out of the assets of the Sub-Fund. No performance fees will be payable by the Sub-Fund to the Manager or the Investment Manager.

The Fixed Rate covers all other fees, costs and expenses connected with the management and operation of the Sub-Fund including, but not limited to, investment management, administration, registration, transfer agency, custody, sub-custody (which fees will be at normal commercial rates) and transfer fees and other fees and expenses incurred in relation to preparing, translating, printing, publishing and distributing the Prospectus, annual and semi-annual reports and other documents to the Shareholders, the costs and expenses of obtaining authorisations or registrations of the Sub-Fund with any regulatory authority in any jurisdiction, professional fees and expenses, annual audit fees and Directors’ fees.

The Fixed Rate excludes withholding, stamp duty or other taxes on the investments of the Sub-Fund, commissions and brokerage fees incurred with respect to the Sub-Fund’s investments, interest on borrowings and bank charges incurred in negotiating, effecting or varying the terms of such borrowings, any commissions charged by intermediaries in relation to an investment in Shares of the Sub-Fund, any out-of-pocket expenses incurred by any of the service providers on behalf of the Sub-Fund, the establishment and organisation costs of the Fund set out in Part 2 of the Prospectus and such extraordinary or exceptional costs and expenses (if any) as may

arise from time to time, such as material litigation in relation to the Fund. Such additional fees, costs or expenses shall be paid out of the assets of the Sub-Fund.

Any other fees and expenses payable out of the assets of the Sub-Fund are set out in Part 2 of the Prospectus.

Preliminary Charge

No preliminary charge will be payable on the issue of Shares in the Sub-Fund.

Exchange Charge

None.

Redemption Charge

None.

Liquidity Fees

The Sub-Fund may charge liquidity fees (by applying an anti-dilution levy) as further described in the Liquidity Management Procedures section in part 2 of the Prospectus.

Investment Objective and Policies

The investment objective of the Sub-Fund is to provide an investment return with a low level of capital volatility whilst maintaining liquidity. The performance of the Sub-Fund will be benchmarked against the SONIA rate.¹

In order to achieve its investment objective, the Sub-Fund is actively managed and will invest in a diversified portfolio of short term debt and debt related instruments which are primarily denominated in Sterling but may also be denominated in other currencies and hedged back to Sterling, and which are traded on the Markets listed in Appendix II of the Prospectus or which are traded on such Markets within a year of being issued. No less than 80% of the Sub-Fund's investments will be denominated in Sterling. The Sub-Fund's investments will include fixed or floating rate instruments including but not limited to commercial paper, floating rate notes, certificates of deposit, freely transferable promissory notes, debentures, asset-backed securities and bonds. The maximum final maturity for fixed rate securities is up to 10 years in respect of each individual issue. The investments shall be issued or guaranteed as to principal or interest by sovereign governments, their agencies and instrumentalities, supranational entities and EU and non-EU corporations and financial institutions, who are incorporated or domiciled in, or listed or dealt on a Market located in those jurisdictions listed in Appendix II hereto or in securities of issuers that, while not located in those jurisdictions, conduct substantial business in them as determined by the Investment Manager, including (i) companies which have substantial assets in those jurisdictions or (ii) companies which derive a substantial portion of their total revenues from either goods and services produced in, or sales made in, those jurisdictions.

The Investment Manager intends to manage the Sub-Fund in accordance with the ESG Considerations as detailed further below. The Sub-Fund seeks to promote, among other characteristics, environmental or social characteristics in line with Article 8 of Regulation (EU) 2019/2088, the Sustainable Finance Disclosure Regulation (the "SFDR").

The investment policy is to invest in a portfolio of gilts, corporate bonds, asset backed securities and money market instruments. The Investment Manager intends where possible, to manage the Sub-Fund according to the restrictions imposed by the rating agency in order to maintain an overall credit rating of Aaa.

Investment Restrictions

The general investment restrictions as set out in Appendix V of the Prospectus shall apply.

The Directors may from time to time impose such further investment restrictions as shall be compatible with or in the interests of Shareholders, in order to comply with the laws and regulations of the countries where Shareholders are located. In such instances an updated prospectus will be issued, in accordance with the requirements of the Central Bank.

¹ The SONIA rate is the Sterling Overnight Index Average rate which is the average effective overnight interest rate for unsecured transactions in which British banks borrow sterling overnight from other financial institutions and institutional investors. This benchmark has been selected as a comparator for performance measurement because it is representative of the level of return that is achievable by investing in liquid money market securities.

Borrowing Limits

The Sub-Fund may borrow up to 10% of the Sub-Fund's net assets on a temporary basis at any time for the account of the Sub-Fund. The Fund may not lend to, or act as guarantor on behalf of third parties.

Efficient Portfolio Management

Subject to the Regulations and to the conditions and limits laid down by the Central Bank from time to time, the Sub-Fund may utilise currency forwards and swaps dealt in on a Market listed in Appendix II of the Prospectus and/or over the counter derivatives "OTCs" which will be used solely for the purposes of hedging exchange rate risks inherent in investments of the Sub-Fund. The underlying of such derivative instruments will be foreign exchange rates, and currencies.

The Sub-Fund may also utilise repurchase agreements and reverse repurchase agreements which shall be within the conditions and the limits laid down by the Central Bank. The purpose of investing in the repurchase agreements is (i) the reduction of risk, (ii) reduction of costs, and/ or (iii) the generation of additional capital or income to the Sub-Fund with no, or with an acceptably low level of, risk. The Sub-Fund may also enter into reverse repurchase agreements for liquidity management purposes and to generate additional capital or income to the Sub-Fund provided that it is within the conditions and limits laid down by the Central Bank.

Under the Regulations, the Sub-Fund may utilise financial derivative instruments subject to the following terms and conditions:-

1. The global exposure of the Sub-Fund relating to financial derivative instruments must not exceed its total net asset value calculated using the commitment approach;
2. The position exposure to the underlying assets of financial derivative instruments including embedded financial derivative instruments in transferable securities or money market instruments when combined where relevant with positions resulting from direct instruments must not exceed the investment limits specified under the heading Investment Restrictions above; and
3. Investments in OTCs may be made provided that the counterparties to OTCs are institutions subject to prudential supervision and belonging to categories approved by the Central Bank.

Further information on the use of financial derivative instruments and techniques and instruments for Efficient Portfolio Management is set out in Part 2 of the Prospectus.

Risk Management Process

The Fund on behalf of the Sub-Fund employs a risk management process which helps it to accurately measure monitor and manage the various risks associated with financial derivative instruments.

The Fund will on request, provide supplementary information to Shareholders relating to the

risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk characteristics of the main categories of investments in financial derivative instruments.

The Sub-Fund will only utilise financial derivative instruments which have been included in the risk management process report that has been prepared and submitted to the Central Bank in accordance with the Central Bank's requirements.

Sustainability Disclosures

This Sub-Fund promotes environmental and social characteristics however does not have a sustainable investment objective.

To be eligible for investment, all investment that are selected as part of the Investment Manager's ESG analysis must follow good governance practices and not be excluded by the Investment Manager's ESG Baseline Exclusions Policy or other issuer screening criteria. It may however not be possible to perform ESG analysis on investments used for hedging and efficient portfolio management purposes.

The Investment Manager actively engages with companies and use voting rights with the aim of positively influencing company behaviour and helping to generate competitive returns. The Investment Manager integrates qualitative and quantitative data on adverse sustainability impacts into its investment processes.

The ESG analysis and considerations described are incorporated into the investment process but may not always have a material impact on investments in the Sub-Fund.

Further information regarding how the Investment Manager integrates ESG into its investment approach (including information on its ESG Baseline Exclusions Policy) and how it engages with companies is available in the Responsible Investment Philosophy section of the Prospectus and on the Manager's website at <https://www.avivainvestors.com/en-gb/about/responsible-investment/policies-and-documents/>.

Rating Award

The Fund has obtained an AA Af rating from Fitch Ratings Inc. for the Sub-Fund. When awarding this rating Fitch Ratings take into account, inter alia, the Sub-Fund's portfolio quality, its counterparties and management, operating procedures and controls, regulatory compliance and market price risk relative to the Sub-Fund's published objectives. The Directors intend to operate the Sub-Fund in accordance with Fitch Rating's requirements to maintain the rating award.

Profile of Typical Investor

The Sub Fund is suitable for investors who are prepared to hold an investment for at least 3 to 6 months in order to obtain higher returns than those available from a traditional money market fund and who are seeking to invest cash reserves to maximise income consistent with the preservation of capital through investment in the securities of the Sub Fund denominated in sterling. The Sub-Fund is an Ultra Short Duration bond fund which aims to offer medium term cash investors (typically at least three to six months) higher returns than those available from a traditional money market fund for only a moderate increase in credit and liquidity risk. The level of an investment will determine the class of Shares an investor may subscribe for.

Risk Factors

The general risk factors as set out in Part 2 of the Prospectus shall apply. In addition to the general risk factors outlined in Part 2 of the Prospectus, investors should also note that subscription for Shares of the Sub-Fund is not the same as placing funds on deposit with a bank or other deposit-taking body. The value of the Sub-Fund may be affected by the creditworthiness of issuers of the Sub-Fund's investments and, notwithstanding the policy of the Sub-Fund of investing in short term instruments, may also be affected by substantial adverse movements in interest rates.

Dividend Policy for all Share Classes

The Shares of the Sub-Fund are accumulation Shares and therefore carry no right to any dividend. The net income attributable to the Shares shall be retained within the Sub-Fund and the value of the Shares shall rise accordingly.

Investment Objective and Policies

The investment objective of the Sub-Fund is to offer returns in line with money market rates and preserve the value of the investment. The performance of the Sub-Fund will be benchmarked against the Euro Short Term Rate.²

The Sub-Fund is a VNAV Short Term Money Market Fund. The Sub-Fund is actively managed and its investments will include fixed or floating rate instruments including but not limited to commercial paper, term deposits, floating rate notes, certificates of deposit, freely transferable promissory notes, debentures, asset-backed securities and bonds. The investments shall be denominated in Euro and all of the Sub-Fund's assets may be invested in the above-listed investments which are issued or guaranteed as to principal or interest by sovereign governments, their agencies and instrumentalities, supranational entities and EU and non-EU corporations and financial institutions who are incorporated or domiciled in, or listed or dealt on a Market located in those jurisdictions listed in Appendix II hereto or in securities of issuers that, while not located in those jurisdictions, conduct substantial business in them as determined by the Investment Manager, including (i) companies which have substantial assets in those jurisdictions or (ii) companies which derive a substantial portion of their total revenues from either goods and services produced in, or sales made in, those jurisdictions.

The Investment Manager intends to manage the Sub-Fund according to its classification as a Short Term Money Market Fund and the restrictions imposed by recognised rating agencies in order to maintain an overall credit rating of Aaa which may include where applicable ensuring that the Sub-Fund's investments may have such ratings as may be required from time to time by the relevant rating agency to maintain the credit rating, or if unrated, be deemed to be of comparable quality by the Investment Manager.

The Investment Manager intends to manage the Sub-Fund in accordance with the ESG Considerations as detailed further below. The Sub-Fund seeks to promote, among other characteristics, environmental or social characteristics in line with Article 8 of Regulation (EU) 2019/2088, the Sustainable Finance Disclosure Regulation (the "SFDR").

The weighted average maturity of the Sub-Fund's investments will not exceed 60 days and in any event the Sub-Fund's investments will have a residual maturity until the legal redemption date not exceeding 397 days. When calculating the weighted average maturity of investments, the maturity of a floating rate instrument shall be deemed to be its next interest readjustment date (which shall be at least every 397 days). The weighted average life of the Sub-Fund's investments will not exceed 120 days.

In accordance with Regulation 17 (7) of the Money Market Fund Regulation, the Sub-Fund may invest up to 100% of its assets in different money market instruments issued or guaranteed separately or jointly by the European Union, the national, regional and local administrations or their central banks, the European Central Bank, the European Investment Bank, the European Investment Fund, the European Stability Mechanism, the European Financial Stability Facility, a central authority or central bank of a third country, the International Monetary Fund, the

The Sub-Fund may invest up to 10% of its Net Asset Value in other Short Term Money Market Funds.

The Sub-Fund may also hold ancillary liquid assets such as bank deposits.

The Sub-Fund is subject to and managed in accordance with the portfolio rules of Article 24 of the Money Market Fund Regulation.

Investment Restrictions

The investment restrictions are as prescribed in the Money Market Fund Regulation as set out in Appendix IV of the Prospectus.

The Sub-Fund may not invest more than 10% of its Net Asset Value in other Short Term Money Market Funds and no more than 5% of its Net Asset Value may be invested in the units or shares of any single Short Term Money Market Fund.

The Directors may from time to time impose such further investment restrictions as shall be compatible with or in the interests of Shareholders, in order to comply with the laws and regulations of the countries where Shareholders are located. In such instances an updated prospectus will be issued, in accordance with the requirements of the Central Bank.

Borrowing Limits

The Sub-Fund may not borrow cash. The Sub-Fund may not lend to, or act as guarantor on behalf of third parties.

Efficient Portfolio Management

The Sub-Fund may utilise repurchase agreements and reverse repurchase agreements, that fulfil the conditions of Article 14 and Article 15 of the Money Market Fund Regulation respectively.

Further information on the use of financial derivatives instruments and techniques and instruments for Efficient Portfolio Management is set out in Part 2 of the Prospectus. Any derivative instruments utilised will be used solely for the purposes of hedging interest rate or exchange rate risks inherent in other investments of the Sub-Fund. The underlying of such derivative instruments will be interest rates, foreign exchange rates, currencies or indices representing one of those categories.

Sustainability Disclosures

This Sub-Fund promotes environmental and social characteristics however does not have a sustainable investment objective.

To be eligible for investment, all investment that are selected as part of the Investment Manager's ESG analysis must follow good governance practices and not be excluded by the Investment Manager's ESG Baseline Exclusions Policy or other issuer screening criteria. The Investment Manager integrates qualitative and quantitative data on adverse sustainability impacts into its investment processes.

The ESG analysis and considerations described are incorporated into the investment process but may not always have a material impact on investments in the Sub-Fund.

Further information regarding how the Investment Manager integrates ESG into its investment approach (including information on its ESG Baseline Exclusions Policy) and how it engages with companies is available in the Responsible Investment Philosophy section of the Prospectus and on the Manager's website at <https://www.avivainvestors.com/engb/about/responsible-investment/policies-and-documents/>.

Rating Award

The Fund has obtained an 'Aaa-mf' money market rating from Moody's Investors Service ("Moody's") for the Sub-Fund. When awarding this rating Moody's take into account, inter alia, the Sub-Fund's portfolio quality, its counterparties and management, operating procedures and controls, regulatory compliance and market price risk relative to the Sub-Fund's published objectives. The Directors intend to operate the Sub-Fund in accordance with Moody's requirements to maintain the rating award. The rating was solicited or financed by the Sub-Fund or its Investment Manager.

Profile of Typical Investor

A typical investor is an institutional investor looking for a low risk return based upon Euro denominated money market instruments. The Sub-Fund is suited to short term investors who are looking for a highly liquid fund. Through its daily liquidity facility, the Sub-Fund is structured to give investors easy access to their cash whenever required.

The level of an investment will determine the class of Shares an investor may subscribe for.

Risk Factors

The general risk factors as set out in Part 2 of the Prospectus shall apply. In addition to the general risk factors outlined in Part 2 of the Prospectus, investors should also note that the Sub-Fund is not a guaranteed investment. A subscription for Shares of the Sub Fund is not the same as placing funds on deposit with a bank or other deposit-taking body and the principal invested in the Sub-Fund is capable of fluctuation. The Sub-Fund does not rely on external support for guaranteeing the liquidity of the Sub-Fund or stabilising the NAV per share. The risk of loss of the principal shall be borne by the Shareholder. The value of the Sub Fund may be affected by the creditworthiness of issuers of the Sub Fund's investments and, notwithstanding the

policy of the Sub Fund of investing in short term instruments, may also be affected by substantial adverse movements in interest rates.

Dividend Policy for Class 1- 9 and Class W (Distributing) Shares

The Directors intend to declare all or substantially all of the net income of the Sub-Fund attributable to the Shares on each Dealing Day as a dividend to Shareholders of the Shares on the register of members as at the close of business on the relevant Dealing Day. Dividends of the Sub-Fund's net income attributable to those Shares will be declared daily and payable monthly on or about the first Business Day of each following month. For this purpose, net income (from the time immediately preceding determination thereof) shall consist of interest and dividends earned by the Sub-Fund and realised profits on the disposal / valuation of investments as may be lawfully distributed less realised losses (including fees and expenses) of the Sub-Fund. No dividends shall be paid out of the capital of the Sub-Fund.

Notwithstanding the above, the Directors may, at their discretion and if they consider it to be in the best interests of Shareholders of the Sub-Fund or relevant class of Shares, determine not to declare all or substantially all of the net income of the Sub Fund attributable to the Shares on a Dealing Day as a dividend to Shareholders of the Shares. In the event that the Directors determine not to declare all or substantially all of the net income of the Sub Fund attributable to the Shares on a Dealing Day as a dividend to Shareholders of the Shares, any distributable net income not declared will remain in the Sub-Fund's assets and will be reflected in the Net Asset Value of the Shares.

Dividends payable to Shareholders of distributing Shares will be re-invested each month by subscription for additional Shares in the Sub-Fund unless Shareholders specifically request that dividends be paid by telegraphic transfer. Additional Shares will be issued to Shareholders at a price calculated in the same way as for other issues of the Shares on the same date. There is no minimum of such further Shares which may be so subscribed.

In the case of Shareholders who request the redemption of part of their Shares, the payment to them of accrued dividends on those Shares will, if the date of redemption is other than the first Business Day of any month, be made (together with the dividend entitlement on the balance of the Shareholder's holding of Shares) on the second Business Day of the next month following the redemption. In the case of Shareholders who request the redemption of all of their Shares and the payment to them of accrued dividends, such dividends will be paid at the time of such redemption.

Dividend Policy for Class W (Accumulating) Shares

Dividends will not be paid on Class W (Accumulating) Shares as such class is an accumulating share class. The net income (if any) attributable to the Class W (Accumulating) Shares shall be retained within the Sub-Fund and the value of the Shares will vary accordingly.

Fees and Expenses

The Manager shall be entitled to receive out of the assets of the Sub-Fund different fees for each class of Shares as set out below.

Class of Shares	Annual Charges and Expenses
Class 1	0.20% of the Net Asset Value of the Class 1 Shares
Class 2	0.15% of the Net Asset Value of the Class 2 Shares
Class 3	0.10% of the Net Asset Value of the Class 3 Shares
Class 5	None
Class 6	0.20% of the Net Asset Value of the Class 6 Shares
Class 7	0.15% of the Net Asset Value of the Class 7 Shares
Class 8	0.10% of the Net Asset Value of the Class 8 Shares
Class 9	None
Class W (Accumulating)	0.50% of the Net Asset Value of the Class W (Accumulating) Shares
Class W (Distributing)	0.50% of the Net Asset Value of the Class W (Distributing) Shares

The fees payable to the Depositary, the Administrator, the Investment Manager and the Distributor shall be paid by the Manager out of its fee.

The total fees and expenses of the Sub-Fund to be borne by each class of Shares will currently be limited by the Manager to an amount equivalent to the fees payable to the Manager as set out above (the "Fixed Rate"). The Manager will absorb (directly by first the waiver of its fees and to the extent necessary reimbursing the other operating costs of each class of Shares), any additional fees, ordinary costs or expenses over the Fixed Rate that may arise in respect of the actual cost of management and operation of the Sub-Fund attributable to each class of Shares.

The Manager may from time to time elect to increase the Fixed Rate of any class of Shares (provided that it may not increase the aggregate fees payable to itself and the Investment Manager as set out above without prior Shareholder approval) by notice to the Fund, and the Fund will notify the holders of the relevant class of Shares if the Fixed Rate is to be increased and the increase shall take effect 90 days after such notice has been given by the Fund.

Fees will be accrued on each Dealing Day, be payable monthly in arrears and be calculated with reference to the average net assets of the Sub-Fund on a monthly basis (i.e. which equals the aggregate of the net assets of the Sub-Fund on each Dealing Day during a calendar month divided by the number of Dealing Days in that calendar month). The Manager and the Investment Manager shall also be entitled to be repaid all of its reasonable costs and out of pocket expenses out of the assets of the Sub-Fund. No performance fees will be payable by the Sub-Fund to the Manager or the Investment Manager.

The Fixed Rate covers all other fees, costs and expenses connected with the management and operation of the Sub-Fund including, but not limited to, investment management, administration, registration, transfer agency, custody, sub-custody (which fees will be at normal commercial rates) and transfer fees and other fees and expenses incurred in relation to preparing, translating, printing, publishing and distributing the Prospectus, annual and semi-annual reports and other documents to the Shareholders, the costs and expenses of obtaining authorisations or registrations of the Sub-Fund with any regulatory authority in any jurisdiction, professional fees and expenses, annual audit fees and Directors' fees.

The Fixed Rate excludes withholding, stamp duty or other taxes on the investments of the Sub-Fund, commissions and brokerage fees incurred with respect to the Sub-Fund's investments, interest on borrowings and bank charges incurred in negotiating, effecting or varying the terms of such borrowings, any commissions charged by intermediaries in relation to an investment in Shares of the Sub-Fund, any out-of-pocket expenses incurred by any of the service providers on behalf of the Sub-Fund, the establishment and organisation costs of the Fund set out in Part 2 of the Prospectus and such extraordinary or exceptional costs and expenses (if any) as may arise from time to time, such as material litigation in relation to the Fund. Such additional fees, costs or expenses shall be paid out of the assets of the Sub-Fund.

Any other fees and expenses payable out of the assets of the Sub-Fund are set out in Part 2 of the Prospectus.

Preliminary Charge

No preliminary charge will be payable on the issue of Shares in the Sub-Fund.

Exchange Charge

None.

Redemption Charge

None.

AVIVA INVESTORS STERLING GOVERNMENT LIQUIDITY FUND

Investment Objective and Policies

The investment objective of the Sub-Fund is to offer returns in line with money market rates and preserve the value of the investment.

The Sub-Fund is actively managed and will endeavour to achieve its objective by investing primarily in short term government securities and securities issued by agencies or bodies explicitly guaranteed by the UK Government. The Sub-Fund may also hold such instruments as collateral received under reverse repurchase agreements. The performance of the Sub-Fund will be benchmarked against the SONIA rate.³

The Sub-Fund will invest in a diversified portfolio of Sterling denominated government debt and deposits. The Sub-Fund is a LVNAV Short Term Money Market Fund and its investments will include fixed or floating rate instruments including but not limited to Treasury bills, UK Government debt securities, Repurchase agreements that are at all times fully secured against UK Government securities, and overnight deposits with the UK Debt Management Office. The investments shall be denominated in Sterling and may be issued or guaranteed as to principal or interest by the UK government and its agencies and instrumentalities.

The investment policy is to invest in a portfolio of Treasury Bills, UK Government securities, Repurchase Agreements that are at all times fully secured against UK Government Securities, and overnight deposits with the Debt Management Office. Cash may be held on an ancillary basis. The Investment Manager intends to manage the Sub-Fund according to its classification as a Short Term Money Market Fund and the restrictions imposed by the rating agency in order to maintain an overall credit rating of Aaa.

The weighted average maturity of the Sub-Fund's investments will not exceed 60 days and in any event the Sub-Fund's investments will have a residual maturity until the legal redemption date not exceeding 397 days. When calculating the weighted average maturity of investments, the maturity of a floating rate instrument shall be deemed to be its next interest readjustment date. The weighted average life of the Sub-Fund's investments will not exceed 120 days.

In accordance with Regulation 17 (7) of the Money Market Fund Regulation, the Sub-Fund may invest up to 100% of its assets in different money market instruments issued or guaranteed separately or jointly by the European Union, the national, regional and local administrations or their central banks, the European Central Bank, the European Investment Bank, the European Investment Fund, the European Stability Mechanism, the European Financial Stability Facility, a central authority or central bank of a third country, the International Monetary Fund, the International Bank for Reconstruction and Development, the Council of Europe Development Bank, the European Bank for Reconstruction and Development, the Bank for International Settlements, or any other relevant international financial institution or organisation to which one or more Member States belong.

The Sub-Fund may invest up to 10% of its Net Asset Value in other Short Term Money Market

³ The SONIA rate is the Sterling Overnight Index Average rate which is the average effective overnight interest rate for unsecured transactions in which British banks borrow sterling overnight from other financial institutions and institutional investors. This benchmark has been selected as a comparator for performance measurement because it is representative of the level of return that is achievable by investing in liquid money market securities.

Funds.

The Sub-Fund is subject to and managed in accordance with the portfolio rules of Article 24 of the Money Market Fund Regulation.

Investment Restrictions

The investment restrictions are as prescribed in the Money Market Fund Regulation as set out in Appendix IV of the Prospectus.

The Sub-Fund may not invest more than 10% of its Net Asset Value in other Short Term Money Market Funds and no more than 5% of its Net Asset Value may be invested in the units or shares of any single Short Term Money Market Fund.

The Directors may from time to time impose such further investment restrictions as shall be compatible with or in the interests of Shareholders, in order to comply with the laws and regulations of the countries where Shareholders are located. In such instances an updated prospectus will be issued, in accordance with the requirements of the Central Bank.

Borrowing Limits

The Sub-Fund may not borrow cash. The Sub-Fund may not lend to, or act as guarantor on behalf of third parties.

Efficient Portfolio Management

Subject to the Regulations and to the conditions within the limits laid down by the Central Bank from time to time, the Sub-Fund may invest in financial derivative instruments dealt in on a Market listed in Appendix II of the Prospectus and/or over the counter derivatives “OTCs” which will be used solely for the purposes of hedging interest rate or exchange rate risks inherent in other investments of the Sub-Fund. The underlying of such derivative instruments will be interest rates, foreign exchange rates, currencies or indices representing one of those categories. Use of financial derivative instruments is subject to the conditions and limits laid down by the Central Bank and the requirements of the MMFR.

Before utilising financial derivative instruments, the Fund on behalf of the Sub-Fund shall file with the Central Bank a risk management process report. The Fund will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments in financial derivative instruments.

Under the Regulations, the Sub-Fund may utilise financial derivative instruments subject to the following terms and conditions:-

1. The global exposure of the Sub-Fund relating to financial derivative instruments must not exceed its total net asset value;
2. The position exposure to the underlying assets of financial derivative instruments including embedded financial derivative instruments in transferable securities or money

market instruments when combined where relevant with positions resulting from direct instruments must not exceed the investment limits specified under the heading Investment Restrictions above.

3. Investments in OTCs may be made provided that the counterparties to OTCs are institutions subject to prudential supervision and belonging to categories approved by the Central Bank.

The Sub-Fund may also utilise repurchase agreements and reverse repurchase agreements, that fulfil the conditions of Article 14 and Article 15 respectively of the Money Market Fund Regulation respectively.

Further information on the use of financial derivatives instruments and techniques and instruments for Efficient Portfolio Management is set out in Part 2 of the Prospectus.

Sustainability Disclosure

Sustainability Risk indicators are considered alongside a range of financial and non-financial research, and the sustainability risks or impacts are weighed against all other inputs when considering an investment decision, with no specific limits imposed. Therefore the Investment Manager retains discretion over which investments are selected. Where practicable, the Investment Manager also seeks to apply the Baseline ESG Exclusions when selecting investments.

The Investment Manager actively engages with issuers with the aim of positively influencing behaviour and helping to create competitive returns.

In addition, the Sub-Fund has limited exclusions based on the Investment Manager's Sustainability Risk Policy.

This Sub-Fund does not have a sustainable investment objective and the Investment Manager will consider the adverse impacts of an investment to the extent they are financially material. For further information please refer to the sustainability disclosures section of the prospectus and the website www.avivainvestors.com.

The investments underlying this sub-fund do not take into account the EU criteria for environmentally sustainable economic activities.

Rating Award

The Fund has obtained an "Aaa-mf" money market rating from Moody's Investors Service ("Moody's") for the Sub-Fund. When awarding this rating Moody's take into account, inter alia, the Sub-Fund's portfolio quality, its counterparties and management, operating procedures and controls, regulatory compliance and market price risk relative to the Sub-Fund's published objectives. The Directors intend to operate the Sub-Fund in accordance with Moody's requirements to maintain the rating awards. The rating was solicited or financed by the Sub-Fund or the Investment Manager.

Profile of Typical Investor

A typical investor is an institutional investor looking for a low risk return based upon Sterling denominated government debt and deposits. The Sub-Fund is suited to short term investors who are looking for a highly liquid fund. Through its daily liquidity facility, the Sub-Fund is structured to give investors easy access to their cash whenever required.

The level and duration of an investment will determine the class of Shares an investor may subscribe for.

Liquidity Management Procedures

The Sub-Fund will be managed in accordance with the Liquidity Management Procedures for LVNAV Short Term Money Market Funds as described in Part 2 of the Prospectus.

Risk Factors

The general risk factors as set out in Part 2 of the Prospectus shall apply. **In addition to the general risk factors outlined in Part 2 of the Prospectus, investors should also note that the Sub-Fund is not a guaranteed investment. A subscription for Shares of the Sub-Fund is not the same as placing funds on deposit with a bank or other deposit-taking body and the principal invested in the Sub-Fund is capable of fluctuation. The Sub-Fund does not rely on external support for guaranteeing the liquidity of the Sub-Fund or stabilising the NAV per share. The risk of loss of the principal shall be borne by the Shareholder. The value of the Sub-Fund may be affected by the creditworthiness of issuers of the Sub-Fund's investments and, notwithstanding the policy of the Sub-Fund of investing in short term instruments, may also be affected by substantial adverse movements in interest rates.**

Dividend Policy for Class 1 – 4 Shares and Class W (Distributing) Shares

The Directors intend to declare all or substantially all of the net income of the Sub-Fund attributable to the Class 1-4 Shares on each Dealing Day as a dividend to Shareholders of the Shares on the register of members as at the close of business on the relevant Dealing Day. Dividends of the Sub-Fund's net income attributable to those Shares will be declared daily and payable monthly on or about the first Business Day of each following month. For this purpose, net income (from the time immediately preceding determination thereof) shall consist of interest and dividends earned by the Sub-Fund. The Directors may at their discretion adjust dividends to take account of realised and unrealised profits on the disposal / valuation of investments as may be lawfully distributed less realised/ unrealised losses (including fees and expenses) of the Sub-Fund. No dividends shall be paid out of the capital of the Sub-Fund.

Notwithstanding the above, the Directors may, at their discretion and if they consider it to be in the best interests of Shareholders of the Sub-Fund or relevant class of Shares, determine not to declare all or substantially all of the net income of the Sub Fund attributable to the Shares on a Dealing Day as a dividend to Shareholders of the Shares. In the event that the Directors determine not to declare all or substantially all of the net income of the Sub Fund attributable to the Shares on a Dealing Day as a dividend to Shareholders of the Shares, any distributable

net income not declared will remain in the Sub-Fund's assets and will be reflected in the Net Asset Value of the Shares.

Dividends payable to Shareholders of distributing Shares will be re-invested each month by subscription for additional Shares in the Sub-Fund unless Shareholders specifically request that dividends be paid by telegraphic transfer. Additional Shares will be issued to Shareholders at a price calculated in the same way as for other issues of the Shares on the same date. There is no minimum of such further Shares which may be so subscribed.

In the case of Shareholders who request the redemption of part of their Shares, the payment to them of accrued dividends on those Shares will, if the date of redemption is other than the first Business Day of any month, be made (together with the dividend entitlement on the balance of the Shareholder's holding of Shares) on the second Business Day of the next month following the redemption. In the case of Shareholders who request the redemption of all of their Shares and the payment to them of accrued dividends, such dividends will be paid at the time of such redemption.

Dividend Policy for Class 5-8 and Class W (Accumulating) Shares

Dividends will not be paid on Classes 5 – 8 or Class W (Accumulating) as such classes are accumulating share classes. The net income (if any) attributable to the Class 5 – 8 Shares and Class W (Accumulating) shall be retained within the Sub-Fund and the value of the Shares will vary accordingly.

Investment Objective and Policies

The investment objective of the Sub-Fund is to offer returns in line with money market rates and to preserve the value of the investment.

The performance of the Sub-Fund will be benchmarked against the Secured Overnight Financing Rate (SOFR).⁴

The Sub-Fund is an LVNAV Short Term Money Market Fund. The Sub-Fund is actively managed and its investments will include fixed or floating rate instruments including but not limited to commercial paper, term deposits, floating rate notes, certificates of deposit, freely transferable promissory notes, debentures, asset-backed securities and bonds. The investments shall be denominated in US Dollars and all of the Sub-Fund's assets may be invested in the above-listed investments which are issued or guaranteed as to principal or interest by sovereign governments, their agencies and instrumentalities, supranational entities and US and non US corporations and financial institutions who are incorporated or domiciled in, or listed or dealt on a Market located in those jurisdictions listed in Appendix II hereto or in securities of issuers that, while not located in those jurisdictions, conduct substantial business in them as determined by the Investment Manager, including (i) companies which have substantial assets in those jurisdictions or (ii) companies which derive a substantial portion of their total revenues from either goods and services produced in, or sales made in, those jurisdictions.

The Investment Manager intends to manage the Sub-Fund according to its classification as a Short Term Money Market Fund and the restrictions imposed by recognised rating agencies in order to maintain an overall credit rating of Aaa which may include where applicable ensuring that the Sub-Fund's investments may have such ratings as may be required from time to time by the relevant rating agency to maintain the credit rating, or if unrated, be deemed to be of comparable quality by the Investment Manager.

The Investment Manager intends to manage the Sub-Fund in accordance with the ESG Considerations as detailed further below. The Sub-Fund seeks to promote, among other characteristics, environmental or social characteristics in line with Article 8 of Regulation (EU) 2019/2088, the Sustainable Finance Disclosure Regulation (the "SFDR").

In accordance with Regulation 17 (7) of the Money Market Fund Regulation, the Sub-Fund may invest up to 100% of its assets in different money market instruments issued or guaranteed separately or jointly by the European Union, the national, regional and local administrations or their central banks, the European Central Bank, the European Investment Bank, the European Investment Fund, the European Stability Mechanism, the European Financial Stability Facility, a central authority or central bank of a third country, the International Monetary Fund, the International Bank for Reconstruction and Development, the Council of Europe Development Bank, the European Bank for Reconstruction and Development, the Bank for International

Settlements, or any other relevant international financial institution or organisation to which one or more Member States belong.

The weighted average maturity of the Sub-Fund's investments will not exceed 60 days and in any event the Sub-Fund's investments will have a residual maturity until the legal redemption date not exceeding 397 days. When calculating the weighted average maturity of investments, the maturity of a floating rate instrument shall be deemed to be its next interest readjustment date (which shall be at least every 397 days). The weighted average life of the Sub-Fund's investments will not exceed 120 days.

The Sub-Fund may invest up to 10% of its Net Asset Value in other Short Term Money Market Funds.

The Sub-Fund may also hold ancillary liquid assets such as bank deposits.

The Sub-Fund is subject to and managed in accordance with the portfolio rules of Article 24 of the Money Market Fund Regulation.

Investment Restrictions

The investment restrictions are as prescribed in the Money Market Fund Regulation as set out in Appendix IV of the Prospectus.

The Sub-Fund may not invest more than 10% of its Net Asset Value in other Short Term Money Market Funds and no more than 5% of its Net Asset Value may be invested in the units or shares of any single Short Term Money Market Fund.

The Directors may from time to time impose such further investment restrictions as shall be compatible with or in the interests of Shareholders, in order to comply with the laws and regulations of the countries where Shareholders are located. In such instances an updated prospectus will be issued, in accordance with the requirements of the Central Bank.

Borrowing Limits

The Sub-Fund may not borrow cash. The Sub-Fund may not lend to, or act as guarantor on behalf of third parties.

Efficient Portfolio Management

Subject to the Regulations and to the conditions within the limits laid down by the Central Bank from time to time, the Sub-Fund may invest in financial derivative instruments dealt in on a Market listed in Appendix II of the Prospectus and/or over the counter derivatives "OTCs" which will be used solely for the purposes of hedging interest rate or exchange rate risks inherent in other investments of the Sub-Fund. The underlying of such derivative instruments will be interest rates, foreign exchange rates, currencies or indices representing one of those categories. Use of financial derivative instruments is subject to the conditions and limits laid down by the Central Bank and the requirements of the MMFR.

Before utilising financial derivative instruments, the Fund on behalf of the Sub-Fund shall file with the Central Bank a risk management process report. The Fund will, on request, provide

supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments in financial derivative instruments.

Under the Regulations, the Sub-Fund may utilise financial derivative instruments subject to the following terms and conditions:-

1. The global exposure of the Sub-Fund relating to financial derivative instruments must not exceed its total net asset value;
2. The position exposure to the underlying assets of financial derivative instruments including embedded financial derivative instruments in transferable securities or money market instruments when combined where relevant with positions resulting from direct instruments must not exceed the investment limits specified under the heading Investment Restrictions above.
3. Investments in OTCs may be made provided that the counterparties to OTCs are institutions subject to prudential supervision and belonging to categories approved by the Central Bank.

The Sub-Fund may also utilise repurchase agreements and reverse repurchase agreements, that fulfil the conditions of Article 14 and Article 15 respectively of the Money Market Fund Regulation respectively.

Further information on the use of financial derivatives instruments, reverse repurchase agreements and repurchase agreements is set out in Part 2 of the Prospectus.

Sustainability Disclosures

This Sub-Fund promotes environmental and social characteristics however does not have a sustainable investment objective.

To be eligible for investment, all investment that are selected as part of the Investment Manager's ESG analysis must follow good governance practices and not be excluded by the Investment Manager's ESG Baseline Exclusions Policy or other issuer screening criteria. It may however not be possible to perform ESG analysis on investments used for hedging and efficient portfolio management purposes.

The Investment Manager actively engages with companies and use voting rights with the aim of positively influencing company behaviour and helping to generate competitive returns. The Investment Manager integrates qualitative and quantitative data on adverse sustainability impacts into its investment processes.

The ESG analysis and considerations described are incorporated into the investment process but may not always have a material impact on investments in the Sub-Fund.

Further information regarding how the Investment Manager integrates ESG into its investment approach (including information on its ESG Baseline Exclusions Policy) and how it engages with companies is available in the Responsible Investment Philosophy section of the

Prospectus and on the Manager's website at <https://www.avivainvestors.com/en-gb/about/responsible-investment/policies-and-documents/>.

Rating Award

The Fund has obtained an “Aaa-mf” money market rating from Moody’s Investors Service (“Moody’s”) and an AAAMmf rating from Fitch Ratings (“Fitch”) for the Sub-Fund. When awarding this rating Moody’s and Fitch take into account, inter alia, the Sub-Fund's portfolio quality, its counterparties and management, operating procedures and controls, regulatory compliance and market price risk relative to the Sub-Fund's published objectives. The Directors intend to operate the Sub-Fund in accordance with Moody's and Fitch’s requirements to maintain the rating awards. The rating was solicited or financed by the Sub-Fund or its Investment Manager.

Liquidity Management Procedures

The Sub-Fund will be managed in accordance with the Liquidity Management Procedures for LVNAV Short Term Money Market Funds as described in Part 2 of the Prospectus.

Profile of Typical Investor

A typical investor is an institutional investor looking for a low risk return based upon US money market instruments. The Sub-Fund is suited to short-term cash investors who are looking for a highly liquid fund. Through its daily liquidity facility, the Sub-Fund is structured to give investors easy access to their cash whenever required.

Risk Factors

The general risk factors as set out in Part 2 of the Prospectus shall apply. **In addition to the general risk factors outlined in Part 2 of the Prospectus, investors should also note that the Sub-Fund is not a guaranteed investment. A subscription for Shares of the Sub Fund is not the same as placing funds on deposit with a bank or other deposit-taking body and the principal invested in the Sub-Fund is capable of fluctuation. The Sub-Fund does not rely on external support for guaranteeing the liquidity of the Sub-Fund or stabilising the NAV per share. The risk of loss of the principal shall be borne by the Shareholder. The value of the Sub Fund may be affected by the creditworthiness of issuers of the Sub Fund's investments and, notwithstanding the policy of the Sub Fund of investing in short term instruments, may also be affected by substantial adverse movements in interest rates or default by the issuer of securities held by the Fund.**

Dividend Policy for Class 1-4 and Class W (Distributing) Shares

The Directors intend to declare all or substantially all of the net income of the Sub-Fund attributable to the Shares on each Dealing Day as a dividend to Shareholders of the Shares on the register of members as at the close of business on the relevant Dealing Day. Dividends of the Sub-Fund’s net income attributable to those Shares will be declared daily and payable monthly on or about the first Business Day of each following month. For this purpose, net income (from the time immediately preceding determination thereof) shall consist of interest and dividends earned by the Sub-Fund. The Directors may at their discretion adjust dividends to take account of realised and unrealised profits on the disposal / valuation of investments as

may be lawfully distributed less realised/ unrealised losses (including fees and expenses) of the Sub-Fund. No dividends shall be paid out of the capital of the Sub-Fund.

Notwithstanding the above, the Directors may, at their discretion and if they consider it to be in the best interests of Shareholders of the Sub-Fund or relevant class of Shares, determine not to declare all or substantially all of the net income of the Sub Fund attributable to the Shares on a Dealing Day as a dividend to Shareholders of the Shares. In the event that the Directors determine not to declare all or substantially all of the net income of the Sub Fund attributable to the Shares on a Dealing Day as a dividend to Shareholders of the Shares, any distributable net income not declared will remain in the Sub-Fund's assets and will be reflected in the Net Asset Value of the Shares.

Dividends payable to Shareholders of distributing Shares will be re-invested each month by subscription for additional Shares in the Sub-Fund unless Shareholders specifically request that dividends be paid by telegraphic transfer. Additional Shares will be issued to Shareholders at a price calculated in the same way as for other issues of the Shares on the same date. There is no minimum of such further Shares which may be so subscribed.

In the case of Shareholders who request the redemption of part of their Shares, the payment to them of accrued dividends on those Shares will, if the date of redemption is other than the first Business Day of any month, be made (together with the dividend entitlement on the balance of the Shareholder's holding of Shares) on the second Business Day of the next month following the redemption. In the case of Shareholders who request the redemption of all of their Shares and the payment to them of accrued dividends, such dividends will be paid at the time of such redemption.

Dividend Policy for Class 5-8 and Class W (Accumulating) Shares

Dividends will not be paid on Classes 5-8 or Class W (Accumulating) as such classes are accumulating share classes. The net income (if any) attributable to the Class 5-8 and Class W (Accumulating) Shares shall be retained within the Sub-Fund and the value of the Shares will vary accordingly.

Furthermore, on the Dealing Day immediately following any day on which there has been a Valuation Deviation the Valuation Point shall also be 1.00 p.m. (Irish time) on the same Dealing Day.

Fees and Expenses

The Manager shall be entitled to receive out of the assets of the Sub-Fund different fees for each class of Shares as set out below.

Class of Shares	Annual Charges and Expenses
Class 1	0.20% of the Net Asset Value of the Class 1 Shares
Class 2	0.15% of the Net Asset Value of the Class 2 Shares
Class 3	0.10% of the Net Asset Value of the Class 3 Shares
Class 4	0.00% of the Net Asset Value of the Class 4 Shares
Class 5	0.20% of the Net Asset Value of the Class 5 Shares
Class 6	0.15% of the Net Asset Value of the Class 6 Shares
Class 7	0.10% of the Net Asset Value of the Class 7 Shares
Class 8	0.00% of the Net Asset Value of the Class 8 Shares
Class W (Accumulating)	0.50% of the Net Asset Value of the Class W (Accumulating) Shares
Class W (Distributing)	0.50% of the Net Asset Value of the Class W (Distributing) Shares

The fees payable to the Depositary, the Administrator, the Investment Manager and the

Distributor shall be paid by the Manager out of its fee.

The total fees and expenses of the Sub-Fund to be borne by each class of Share will currently be limited by the Manager to an amount equivalent to the fees payable to the Manager as set out above (the “Fixed Rate”). The Manager will absorb (directly by first the waiver of its fees and to the extent necessary reimbursing the other operating costs of each class of Shares), any additional fees, ordinary costs or expenses over the Fixed Rate that may arise in respect of the actual cost of management and operation of the Sub-Fund attributable to each class of Share. The Manager may from time to time elect to increase the Fixed Rate of any class of Shares (provided that it may not increase the aggregate fees payable to itself and the Investment Manager as set out above without prior Shareholder approval) by notice to the Fund, and the Fund will notify the holders of the relevant class of Shares if the Fixed Rate is to be increased and the increase shall take effect 90 days after such notice has been given by the Fund.

Fees will be accrued on each Dealing Day, be payable monthly in arrears and be calculated with reference to the average net assets of the Sub-Fund on a monthly basis (i.e. which equals the aggregate of the net assets of the Sub-Fund on each Dealing Day during a calendar month divided by the number of Dealing Days in that calendar month). The Manager and the Investment Manager shall also be entitled to be repaid all of its reasonable costs and out of pocket expenses out of the assets of the Sub-Fund. No performance fees will be payable by the Sub-Fund to the Manager or the Investment Manager.

The Fixed Rate covers all other fees, costs and expenses connected with the management and operation of the Sub-Fund including, but not limited to, investment management, administration, registration, transfer agency, custody, sub-custody (which fees will be at normal commercial rates) and transfer fees and other fees and expenses incurred in relation to preparing, translating, printing, publishing and distributing the Prospectus, annual and semi-annual reports and other documents to the Shareholders, the costs and expenses of obtaining authorisations or registrations of the Sub-Fund with any regulatory authority in any jurisdiction, professional fees and expenses, annual audit fees and Directors’ fees.

The Fixed Rate excludes withholding, stamp duty or other taxes on the investments of the Sub-Fund, commissions and brokerage fees incurred with respect to the Sub-Fund’s investments, interest on borrowings and bank charges incurred in negotiating, effecting or varying the terms of such borrowings, any commissions charged by intermediaries in relation to an investment in Shares of the Sub-Fund, any out-of-pocket expenses incurred by any of the service providers on behalf of the Sub-Fund, the establishment and organisation costs of the Fund set out in Part 2 of the Prospectus and such extraordinary or exceptional costs and expenses (if any) as may arise from time to time, such as material litigation in relation to the Fund. Such additional fees, costs or expenses shall be paid out of the assets of the Sub-Fund.

Any other fees and expenses payable out of the assets of the Sub-Fund are set out in Part 2 of the Prospectus.

Preliminary Charge

No preliminary charge will be payable on the issue of Shares in the Sub-Fund.

Exchange Charge

None.

Redemption Charge

The sub-fund may charge liquidity fees (by applying an anti-dilution levy) as further described in the liquidity management procedures section in part 2 of the prospectus.

AVIVA INVESTORS STERLING STANDARD LIQUIDITY FUND

Investment Objective and Policies

The investment objective of the Sub-Fund is to offer returns in line with money market rates and to preserve the value of the investment. The performance of the Sub-Fund will be benchmarked against the SONIA rate.⁵

The Sub-Fund is actively managed and will endeavour to achieve its objective by investing in a diversified portfolio of high grade Sterling denominated short term debt and debt related instruments described below which are traded on the Markets listed in Appendix II of the Prospectus or which are to be traded on such Markets within a year of being issued.

The Sub-Fund is a VNAV standard Money Market Fund and its investments will include fixed or floating rate instruments including commercial paper, term deposits, floating rate notes, certificates of deposit, freely transferable promissory notes, debentures, asset-backed securities, credit-linked notes and bonds. The investments shall be denominated in Sterling but may also be denominated in other currencies and hedged back to Sterling, and may be issued or guaranteed as to principal or interest by sovereign governments, their agencies and instrumentalities, supranational entities and EU and non EU corporations and financial institutions who are incorporated or domiciled in, or listed or dealt on a Market located in those jurisdictions listed in Appendix II hereto or in securities of issuers that, while not located in those jurisdictions, conduct substantial business in them as determined by the Investment Manager, including (i) companies which have substantial assets in those jurisdictions or (ii) companies which derive a substantial portion of their total revenues from either goods and services produced in, or sales made in, those jurisdictions.

The Investment Manager intends where possible, to manage the Sub-Fund according to the restrictions imposed by Fitch Ratings Inc. in order to maintain an overall credit rating of AAAs.

The Investment Manager intends to manage the Sub-Fund in accordance with the ESG Considerations as detailed further below. The Sub-Fund seeks to promote, among other characteristics, environmental or social characteristics in line with Article 8 of Regulation (EU) 2019/2088, the Sustainable Finance Disclosure Regulation (the “SFDR”).

In accordance with Regulation 17 (7) of the Money Market Fund Regulation, the Sub-Fund may invest up to 100% of its assets in different money market instruments issued or guaranteed separately or jointly by the European Union, the national, regional and local administrations or their central banks, the European Central Bank, the European Investment Bank, the European Investment Fund, the European Stability Mechanism, the European Financial Stability Facility, a central authority or central bank of a third country, the International Monetary Fund, the International Bank for Reconstruction and Development, the Council of Europe Development Bank, the European Bank for Reconstruction and Development, the Bank for International Settlements, or any other relevant international financial institution or organisation to which one or more Member States belong.

⁵ The SONIA rate is the Sterling Overnight Index Average rate which is the average effective overnight interest rate for unsecured transactions in which British banks borrow sterling overnight from other financial institutions and institutional investors. This benchmark has been selected as a comparator for performance measurement because it is representative of the level of return that is achievable by investing in liquid money market securities.

The Sub-Fund may invest up to 10% of its Net Asset Value in Short Term Money Market Funds.

The Sub-Fund may also hold ancillary liquid assets such as bank deposits.

The weighted average maturity of the Sub-Fund's investments will not exceed 180 days and in any event the Sub-Fund's investments will have a residual maturity until the legal redemption date not exceeding 2 years provided that the time remaining until the next interest rate reset date is 397 days or less. When calculating the weighted average maturity of investments, the maturity of a floating rate instrument shall be deemed to be its next interest readjustment date. The weighted average life of the Sub-Fund's investments will not exceed 365 days.

The Sub-Fund is subject to and managed in accordance with the portfolio rules of Article 25 of the Money Market Fund Regulation.

Investment Restrictions

The investment restrictions are as prescribed in the Money Market Fund Regulation as set out in Appendix IV of the Prospectus.

The Sub-Fund may not invest more than 10% of its Net Asset Value in Short Term Money Market Funds and no more than 5% of its Net Asset Value may be invested in the units or shares of any single Short Term Money Market Fund.

The Directors may from time to time impose such further investment restrictions as shall be compatible with or in the interests of Shareholders, in order to comply with the laws and regulations of the countries where Shareholders are located. In such instances an updated prospectus will be issued, in accordance with the requirements of the Central Bank.

Borrowing Limits

The Sub-Fund may not borrow cash. The Sub-Fund may not lend to, or act as guarantor on behalf of third parties.

Efficient Portfolio Management

Subject to the Regulations and to the conditions within the limits laid down by the Central Bank from time to time, the Sub-Fund may invest in financial derivative instruments that are exchange traded, dealt on a Market listed in Appendix II of the Prospectus, and/or over the counter derivatives "OTCs" which will be used solely for the purposes of hedging interest rate (including duration) and exchange rate risks inherent in other investments of the Sub-Fund. The underlying of such derivative instruments will be interest rates, foreign exchange rates, currencies or indices representing one of those categories. Use of financial derivative instruments is subject to the conditions and limits laid down by the Central Bank and the requirements of the MMFR.

The Sub-Fund may also utilise repurchase agreements and reverse repurchase agreements which shall be within the conditions and the limits laid down by the Central Bank. The purpose of investing in the repurchase agreements is (i) the reduction of risk, (ii) reduction of costs, and/ or (iii) the generation of additional capital or income to the Sub-Fund with no, or with an acceptably low level of risk. The Sub-Fund may also enter into reverse repurchase agreements

for liquidity management purposes and to generate additional capital or income to the Sub-Fund provided that it is within the conditions and limits laid down by the Central Bank.

Under the Regulations, the Sub-Fund may utilise financial derivative instruments subject to the following terms and conditions:-

1. The global exposure of the Sub-Fund relating to financial derivative instruments must not exceed its total net asset value;
2. The position exposure to the underlying assets of financial derivative instruments including embedded financial derivative instruments in transferable securities or money market instruments when combined where relevant with positions resulting from direct instruments must not exceed the investment limits specified under the heading Investment Restrictions above.
3. Investments in OTCs may be made provided that the counterparties to OTCs are institutions subject to prudential supervision and belonging to categories approved by the Central Bank.

The Sub-Fund may also utilise repurchase agreements and reverse repurchase agreements that fulfil the conditions of Article 14 and Article 15 respectively of the Money Market Fund Regulation respectively.

Further information on the use of financial derivatives instruments, reverse repurchase agreements and repurchase agreements is set out in Part 2 of the Prospectus.

Risk Management Process

The Manager on behalf of the Sub-Fund employs a risk management process which helps it to accurately measure monitor and manage the various risks associated with financial derivative instruments.

The Manager will on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments in financial derivative instruments.

The Sub-Fund will only utilise financial derivative instruments which have been included in the risk management process report that has prepared and submitted to the Central Bank in accordance with their requirements.

Sustainability Disclosures

This Sub-Fund promotes environmental and social characteristics however does not have a sustainable investment objective.

Rating Award

The Sub-Fund has obtained an AA+ rating from Fitch Ratings Inc. for the Sub-Fund. When awarding this rating Fitch Ratings take into account, inter alia, the Sub-Fund's portfolio quality, its counterparties and management, operating procedures and controls, regulatory compliance and market price risk relative to the Sub-Fund's published objectives. The Directors intend to operate the Sub-Fund in accordance with Fitch Rating's requirements to maintain the rating award. The rating was solicited or financed by the Sub-Fund or its Investment Manager.

Profile of Typical Investor

A typical investor is an institutional investor looking for a low risk return based upon Sterling denominated government debt and deposits. The Sub-Fund is suitable for investors who are looking for a highly liquid fund. Through its daily liquidity facility, the Sub-Fund is structured to give investors easy access to their cash whenever required.

The level and duration of an investment will determine the class of Shares an investor may subscribe for.

Risk Factors

The general risk factors as set out in Part 2 of the Prospectus shall apply. **In addition to the general risk factors outlined in Part 2 of the Prospectus, investors should also note that the Sub-Fund is not a guaranteed investment. A subscription for Shares of the Sub Fund is not the same as placing funds on deposit with a bank or other deposit-taking body and the principal invested in the Sub-Fund is capable of fluctuation. The risk of loss of the principal invested shall be borne by the Shareholder. The value of the Sub Fund may be affected by the creditworthiness of issuers of the Sub Fund's investments and, notwithstanding the policy of the Sub Fund of investing in short term instruments, may also be affected by substantial adverse movements in interest rates or default by the issuer of securities held by the Sub-Fund.**

Dividend Policy

The Shares of the Sub-Fund are accumulation Shares and therefore carry no right to any

dividend. The net income attributable to the Shares shall be retained within the Sub-Fund and the value of the Shares shall rise accordingly.

Class W (Accumulating)	£500,000	£500,000	None

Class 8 Shares are only available to those investors who have a separate investment mandate with the Investment Manager or any of its affiliates.

The Directors may for each relevant Class of Shares waive such Minimum Initial Subscription and/or Minimum Holding amounts in their absolute discretion.

Dealing Deadline

1 p.m. (Irish time) on each Dealing Day except in the case of any Dealing Day occurring on 24 December and/or on 31 December in each calendar year, on which Dealing Days the Dealing Deadline shall be 12 p.m. (Irish time).

The Investment Manager reserves the right to advance the time of the Dealing Deadline for subscriptions and redemptions on any Business Day such as a Business Day when the principal bond markets close early in advance of a holiday customarily observed by participants in such markets or in the case of the happening of an event outside the control of the Fund which precipitates the early closing of the principal bond markets. Prior notification of the revised Dealing Deadlines will be sent by email or by post to Shareholders unless it is not possible to do so in the case of the happening of an event outside the control of the Fund.

The Investment Manager reserves the right to alter the Dealing Deadline for subscriptions and redemptions. Prior notification of the revised Dealing Deadline shall be sent by email or by post to Shareholders in the event that the revised Dealing Deadline is in place on a temporary basis. If introduced on a permanent basis, the Prospectus will be updated and Shareholders will be notified in advance of such changes.

Minimum Fund Size

£10,000,000.

Issue Price for Class 5-8 Shares and Class W (Accumulating) Shares

The Issue Price per Share of the relevant Class shall be £1,000.0000 during the Initial Offer Period, and thereafter the Net Asset Value per Share of the relevant Class on the relevant Dealing Day.

Offer Period for Class 5-8 Shares

The Initial Offer Period for each of Class 5-8 Shares will run from 9.00 a.m. (Irish Time) on 30 August 2022 to 5.00 p.m. (Irish Time) on 30 August 2023 or such a shorter or longer period as the Directors may determine on behalf of the Sub-Fund (in accordance with the requirements of the Central Bank) and notify to the Administrator for a class. Where the offer period is shortened or extended, the Fund will notify the Central Bank, where required, in accordance with the Central Banks requirements. After the Initial Offer Period, shares will be continuously available for subscriptions on any dealing day.

Offer Period for Class W (Accumulating) Shares

The Initial Offer Period for Class W (Accumulating) Shares will run from 9.00 am (Irish Time) on 3 October 2023 to 5.00 pm (Irish Time) on 3 April 2024 or such a shorter or longer period for each Class as the Directors may determine on behalf of the Sub-Fund (in accordance with the requirements of the Central Bank) and notify to the Administrator for a class. Where the offer period is shortened or extended, the Fund will notify the Central Bank, where required, in accordance with the Central Banks requirements. After the Initial Offer Period, shares will be continuously available for subscriptions on any dealing day.

Minimum Initial Subscription and Minimum Holding

The Minimum Initial Subscription and Minimum Holding in respect of each class of Shares shall be as set out above, or such lower amount as the Directors may from time to time determine.

Settlement Date for Class 1-8 Shares

In the case of subscription(s), a completed Subscription Form (and in the case of an initial investment, a completed Application Form) must have been received and accepted by the Fund care of the Administrator before the Dealing Deadline for the relevant Dealing Day, unless otherwise approved by the Directors and provided the completed Subscription Form is received before the relevant Valuation Point. Cleared funds must be received by the Valuation Point on the Business Day following the relevant Dealing Day. If cleared funds are not received by the Valuation Point on the Business Day following the relevant Dealing Day, then any interest costs and/or directly related charges will be reimbursed by the subscriber unless otherwise agreed by the Directors at their absolute discretion.

In the case of redemptions, proceeds will usually be paid by telegraphic transfer to a specified account at the Shareholder's risk on the Business Day following the relevant Dealing Day (and in any event no later than 10 Business Days) after the receipt of the relevant duly signed

redemption documentation.

Settlement Date for Class W (Accumulating) Shares

In the case of subscription(s), a completed Subscription Form (and in the case of an initial investment, a completed Application Form) must have been received and accepted by the Fund care of the Administrator before the Dealing Deadline for the relevant Dealing Day unless otherwise approved by the Directors and provided the completed Subscription Form is received before the relevant Valuation Point. Cleared funds must be received by the Fund's close of bank business on the Business Day following the relevant Dealing Day. If cleared funds are not received by the Fund's close of bank business on the Business Day following the relevant Dealing Day, then any interest costs and/or directly related charges will be reimbursed by the subscriber unless otherwise agreed by the Directors at their absolute discretion.

In the case of redemptions, proceeds will usually be paid by telegraphic transfer to a specified account at the Shareholder's risk on the Business Day following the relevant Dealing Day (and in any event no later than 10 Business Days) after the receipt of the relevant duly signed redemption documentation.

Valuation Point

1 p.m. (Irish time) on each Dealing Day.

Fees and Expenses

The Manager shall be entitled to receive out of the assets of the Sub-Fund different fees for each class of Shares as set out below.

Class of Shares	Annual Charges and Expenses
Class 5	0.20% of the Net Asset Value of the Class 5 Shares
Class 6	0.15% of the Net Asset Value of the Class 6 Shares
Class 7	0.10% of the Net Asset Value of the Class 7 Shares
Class 8	None
Class W (Accumulating)	0.50% of the Net Asset Value of the Class W (Accumulating) Shares

The Directors reserve the right to reduce or waive the above charges from time to time.

The fees payable to the Depositary, the Administrator, the Investment Manager and the Distributor shall be paid by the Manager out of its fee.

The total fees and expenses of the Sub-Fund to be borne by each class of Shares will currently be limited by the Manager to an amount equivalent to the fees payable to the Manager as set out above (the "Fixed Rate"). The Manager will absorb (directly by first the waiver of its fees and to the extent necessary reimbursing the other operating costs of each class of Shares), any additional fees, ordinary costs or expenses over the Fixed Rate that may arise in respect of the actual cost of management and operation of the Sub-Fund attributable to each class of Shares. The Manager may from time to time elect to increase the Fixed Rate of any class of Shares

(provided that it may not increase the aggregate fees payable to itself and the Investment Manager as set out above without prior Shareholder approval) by notice to the Sub-Fund, and the Sub-Fund will notify the holders of the relevant Class of Shares if the Fixed Rate is to be increased and the increase shall take effect 90 days after such notice has been given by the Sub-Fund.

Fees will be accrued on each Dealing Day, be payable monthly in arrears and be calculated with reference to the average net assets of the Sub-Fund on a monthly basis (i.e. which equals the aggregate of the net assets of the Sub-Fund on each Dealing Day during a calendar month divided by the number of Dealing Days in that calendar month). The Manager and the Investment Manager shall also be entitled to be repaid all of its reasonable costs and out of pocket expenses out of the assets of the Sub-Fund. No performance fees will be payable by the Sub-Fund to the Manager or the Investment Manager.

The Fixed Rate covers all other fees, costs and expenses connected with the management and operation of the Sub-Fund including, but not limited to, investment management, administration, registration, transfer agency, custody, sub-custody (which fees will be at normal commercial rates) and transfer fees and other fees and expenses incurred in relation to preparing, translating, printing, publishing and distributing the Prospectus, annual and semi-annual reports and other documents to the Shareholders, the costs and expenses of obtaining authorisations or registrations of the Sub-Fund with any regulatory authority in any jurisdiction, professional fees and expenses, annual audit fees and Directors' fees.

The Fixed Rate excludes withholding, stamp duty or other taxes on the investments of the Sub-Fund, commissions and brokerage fees incurred with respect to the Sub-Fund's investments, interest on borrowings and bank charges incurred in negotiating, effecting or varying the terms of such borrowings, any commissions charged by intermediaries in relation to an investment in Shares of the Sub-Fund, any out-of-pocket expenses incurred by any of the service providers on behalf of the Sub-Fund, the establishment and organisation costs of the Sub-Fund set out in Part 2 of the Prospectus and such extraordinary or exceptional costs and expenses (if any) as may arise from time to time, such as material litigation in relation to the Sub-Fund. Such additional fees, costs or expenses shall be paid out of the assets of the Sub-Fund.

Any other fees and expenses payable out of the assets of the Sub-Fund are set out in Part 2 of the Prospectus.

Preliminary Charge

No preliminary charge will be payable on the issue of Shares in the Sub-Fund.

Exchange Charge

None.

Redemption Charge

None.

Mrs McClellan has over 15 years of experience in the Financial Services sector having spent 10 years in Group Finance at Aviva plc before joining Aviva Investors in 2012. Prior to the interim COO role Mrs McClellan was the Director of Global Funds Services and Controls Operations performing independent monitoring and operational processes that manage and oversee our regulated funds business and deliver compliance with specific regulations such as financial crime, CASS, MiFID II and data protection. She has a track record of delivering change as well as significant process and control improvement across multiple regulations, asset classes, and

geographies. Before joining Aviva, she was at PricewaterhouseCoopers, with experience in multi-national audit and transaction services in the UK and Romania. Ms McClellan holds a BA (Hons) in Banking & Finance from Loughborough University and is a member of the Institute of Chartered Accountants in England and Wales (ICAEW).

Investment Manager and Distributor

The Manager has delegated the powers of investment management of some or all of the assets of each Sub-Fund to Aviva Investors Global Services Limited in accordance with the Investment Management Agreement. In addition, Aviva Investors Global Services Limited also acts as a Distributor of Shares in the Fund.

Aviva Investors Global Services Limited whose principal office is situated at St Helen's, 1 Undershaft, London EC3P 3DQ, United Kingdom is a company established under the laws of England and Wales and is a wholly owned subsidiary of Aviva Investment Holdings Limited. Aviva Investors Global Services Limited is regulated in the UK by the Financial Services Authority and is also registered with the U.S. Securities and Exchanges Commission. As at 31 March 2023 the Aviva Investors group of companies had €257,560,480,847 in assets under management. Aviva Investors Global Services Limited has been managing mutual funds since 1970.

In respect of the Sterling Liquidity Plus Fund, the Manager conducts some of the portfolio management activities through its French branch and delegates the remainder of the portfolio management activities to the Investment Manager.

The Investment Manager may delegate some or all of its duties and obligations in respect of one or all of the Sub-Funds to one or more sub-investment managers whose fees will be discharged by the Investment Manager and not by the relevant Sub-Fund(s). Details of all such sub-investment managers appointed by the Investment Manager will be provided to Shareholders on request and will be disclosed in the periodic reports of the Fund.

Depository

The Fund has appointed J.P. Morgan SE, Dublin Branch to act as the depository of the Fund's assets pursuant to the Depositary Agreement. The Depositary is a Societas Europaea incorporated in Germany. The principal activity of the Depositary is to act as the depository of the assets of collective investment schemes. The Depositary is authorised by the Central Bank.

The duty of the Depositary is to provide safekeeping, oversight and asset verification services in respect of the assets of the Fund and each Sub-Fund in accordance with the provisions of the Regulations.

The Depositary will be obliged, inter alia, to ensure that the sale, issue, repurchase and cancellation of Shares in the Fund is carried out in accordance with the Regulations and the Articles of Association. The Depositary will carry out the instructions of the Fund, unless they conflict with the Regulations or the Articles of Association. The Depositary is also obliged to enquire into the conduct of the Fund in each financial year and report thereon to Shareholders.

Pursuant to the Depositary Agreement, the Depositary will be liable for loss of financial

instruments held in custody or in the custody of any sub-custodian, unless it can prove that loss has arisen as a result of an external event beyond its control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary. The Depositary shall also be liable for all other losses suffered as a result of the Depositary's negligent or intentional failure to fulfil its obligations under the Regulations.

Under the Depositary Agreement, the Depositary has power to delegate the whole or any part of its depositary functions, however, its liability will not be affected by the fact that it has entrusted to a third party some or all of the assets in its safekeeping. The list of sub delegates appointed by the Depositary is set out in Appendix III hereto. The use of particular sub delegates will depend on the markets in which the Fund invests. No conflicts arise as a result of such delegation.

Potential conflicts of interest affecting the Depositary and its delegates may arise from time to time, including, without limitation, where the Depositary or a delegate has an interest in the outcome of a service or an activity provided to the Fund, or a transaction carried out on behalf of the Fund, which is distinct from the Fund's interest, or where the Depositary or a delegate has an interest in the outcome of a service or activity provided to another client or group of clients which is in conflict with the Fund's interests. From time to time conflicts may also arise between the Depositary and its delegates or affiliates, such as where an appointed delegate is an affiliated group company and is providing a product or service to the Fund and has a financial or business interest in such product or service. The Depositary maintains a conflict of interest policy to address such conflicts.

Where a conflict or potential conflict of interest arises, the Depositary will have regard to its obligations to the Fund, applicable law, and its conflicts of interest policy. Up-to-date information regarding the duties of the Depositary, any conflicts of interest that may arise and the Depositary's delegation arrangements (including a description of any safe keeping functions, the list of delegates and sub-delegates and any conflicts of interest that may arise from such delegation) will be made available to investors by the Fund on request.

Administrator

The Manager has appointed J.P. Morgan Administration Services (Ireland) Limited to act as administrator, registrar and transfer agent of the Fund with responsibility for performing the day to day administration of the Fund, including the calculation of the Net Asset Value. The Administrator is a private company limited by shares incorporated in Ireland on 28 May 1990 under registration number 159676 and is engaged in the provision of fund administration, accounting, registration, transfer agency and related shareholders services to collective investment schemes and investment funds. The Administrator is a wholly owned subsidiary of J.P. Morgan Bank (Ireland) plc, which is itself an ultimate subsidiary of J.P. Morgan Chase & Co, incorporated in the United States. The Administrator is authorised by the Central Bank under the Investment Intermediaries Act, 1995 (as amended). The Administrator's registered office is at 200 Capital Dock, 79 Sir John Rogerson's Quay, Dublin 2, D02 RK57, Ireland.

The Administrator has been appointed to administer the day to day operations and business of the Fund, including processing subscriptions, redemptions, computing the Net Asset Value and the Net Asset Value per Share, maintaining books and records, disbursing payments, establishing and maintaining accounts on behalf of the Fund and any other matters usually performed for the administration of a fund, including the calculation of the Performance Fee.

The Administrator will keep the accounts of the Fund in accordance with international financial reporting standards. The Administrator will also maintain the register of Shareholders.

The Administrator is a service provider to the Fund and will not have any responsibility or authority to make investment decisions, nor render investment advice, with respect to the assets of the Fund. The Administrator has no responsibility for monitoring compliance by the Fund or the Investment Manager with any investment policies or restrictions to which they are subject. The Administrator is responsible and liable only for the administration services that it provides to the Fund pursuant to the Administration Agreement. The Administrator accepts no responsibility or liability for any losses suffered by the Fund as a result of any breach of such policies or restrictions by the Fund or the Investment Manager.

Investment Objective and Policies

The Articles provide that the investment objective and policies for each Sub-Fund will be formulated by the Directors at the time of the creation of that Sub-Fund. Details of the investment objective and policies for each Sub-Fund of the Fund appear in the relevant section of Part 1 for the relevant Sub-Fund.

Any change in the investment objective or material change to the investment policies of a Sub-Fund may only be made with the approval of an ordinary resolution of the Shareholders of the Sub-Fund. In the event of a change of investment objective and/or policies of a Sub-Fund, the Manager will ensure that a reasonable notification period must be given to each Shareholder of the Sub-Fund to enable a Shareholder to have its Shares redeemed prior to the implementation of such change.

In the event that the Fund utilises financial derivative instruments for a sub-fund, the Fund will upon request provide information to Shareholders on the risk management methods employed in respect of the relevant Sub-Fund including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments.

Efficient Portfolio Management

Subject to the Regulations and to the conditions within the limits laid down by the Central Bank from time to time, the Fund, on behalf of a Sub-Fund may employ techniques and instruments including financial derivative instruments solely for the purposes of (i) the reduction of risk, (ii) the reduction of costs, and/ or (iii) the generation of additional capital or income for the Fund with no, or with an acceptably low level of, risk subject to the provisions set out in the relevant section of Part 1 for the relevant Sub-Fund. Where the Sub-Fund utilises financial derivatives instruments, such instruments will be dealt in on a regulated market specified in the Articles and/or over the counter derivatives “OTCs”.

The following is a description of the types of financial derivative instruments which may be used by a Sub-Fund where provided for in relevant section of Part 1 relating to such Sub-Fund:

- **Currency Swaps**

In a standard swap transaction, two parties agree to exchange returns (or differentials in rates of return) calculated with respect to a notional amount, e.g. the return on or increase in value of a particular dollar amount invested at a particular interest rate, in a particular foreign

currency. Swaps in which a Sub-Fund may invest include currency swaps. A currency swap is an agreement negotiated between two parties to exchange the return on cash for the return on varying currencies.

- **Currency Forwards**

A forward contract locks in the price at which an asset may be purchased or sold on a future date. A Sub-Fund may buy and sell currencies on a spot and forward basis, subject to the limits and restrictions adopted by the Central Bank from time to time to reduce the risks of adverse changes in exchange rates. A forward currency exchange contract, which involves an obligation to purchase or sell a specific currency at a future date at a price set at the time of the contract, reduces a Sub-Fund's exposure to changes in the value of the currency it will deliver and increases its exposure to changes in the value of the currency it will receive for the duration of the contract. A contract to sell currency would limit any potential gain, which might be realised if the value of the hedged currency increases.

- **Futures**

Futures are contracts to buy or sell a standard quantity of a specific asset (or, in some cases, receive or pay cash based on the performance of an underlying asset, instrument or index) at a pre-determined future date and at a price agreed through a transaction undertaken on an exchange. Futures contracts allow investors to hedge against market risk or gain exposure to the underlying market (where permitted by the investment policies and restrictions for a Sub-Fund). Since these contracts are marked-to-market daily, investors can, by closing out their position, exit from their obligation to buy or sell the underlying assets prior to the contract's delivery date.

- **Options**

The seller (writer) of a call option which is covered (i.e. the writer holds the underlying security) assumes the risk of a decline in the market price of the underlying security below the purchase price of the underlying security less the premium received, and gives up the opportunity for gain on the underlying security above the exercise price of the option. The seller of an uncovered call option assumes the risk of a theoretically-unlimited increase in the market price of the underlying security above the exercise price of the option. The securities necessary to satisfy the exercise of the call option may be unavailable for purchase except at much higher prices. Purchasing securities to satisfy the exercise of the call option can itself cause the price of the securities to rise further, sometimes by a significant amount, thereby exacerbating the loss. The buyer of a call option assumes the risk of losing its entire investment in the call option. The seller (writer) of a put option which is covered (i.e. the writer has a short position in the underlying security) assumes the risk of an increase in the market price of the underlying security above the sales price (in establishing the short position) of the underlying security plus the premium received, and gives up the opportunity for gain on the underlying security below the exercise price of the option. The seller of an uncovered put option assumes the risk of a decline in the market price of the underlying security below the exercise price of the option. The buyer of a put option assumes the risk of losing its entire investment in the put option.

A Sub-Fund may enter into these contracts to hedge against exchange risk. Suitable hedging transactions may not be available in all circumstances and there can be no assurance that the

Sub-Fund will engage in such transactions at any given time or from time to time.

Operational Costs/Fees

Direct and indirect operational costs and/or fees arising from the use of techniques and instruments for Efficient Portfolio Management purposes on behalf of a Sub-Fund may be deducted and the Manager will ensure that the balance of such revenue is delivered to the relevant Sub-Fund. These costs and/or fees will be charged at normal commercial rates and will not include hidden revenue.

Where applicable, the entities to which such direct and indirect operational costs and/or fees have been paid during the annual period to the relevant accounting year end of the Fund (including whether such entities are related to the Fund or Depositary) will be disclosed in the annual report for such period.

Collateral Policy – Money Market Funds

1. Repurchase Agreements

1.1. Where a Money Market Fund enters into a repurchase agreement, it shall be in accordance with the following conditions:

- a) The repurchase agreement will be used on a temporary basis, for no more than 7 working days and shall only be used for liquidity management purposes and not for investment purposes other than as referred to in point (c);
- b) The counterparty receiving the assets transferred by the Money Market Fund as collateral under the repurchase agreement shall be prohibited from selling, investing, pledging or otherwise transferring those assets without the prior consent of the Money Market Fund;
- c) The cash received by the Money Market Fund as part of the repurchase agreement must be able to be:
 - i. placed on deposits in accordance with (f) of Article 50 of the UCITS V Directive; or
 - ii. invested in assets referred to Article 15 (6) of the Money Market Fund Regulation, but shall not otherwise be invested in eligible assets as referred to in Article 9 of the Money Market Fund Regulation, transferred or otherwise reused;
- d) the cash received by the Money Market Fund as part of the repurchase agreement does not exceed 10% of its assets;
- e) the Money Market Fund has the right to terminate the agreement at any time upon giving prior notice of no more than 2 working days.

2. Reverse Repurchase Agreements

- 2.1. Where a Money Market Fund enters into a reverse repurchase agreement, it shall be in accordance with the following conditions:
- a) the Money Market Fund has the right to terminate the agreement at any time upon giving prior notice of no more than 2 working days;
 - b) the market value of the assets received as part of the reverse repurchase agreement is at all times at least equal to the value of the cash paid out.
- 2.2. The assets received by a Money Market Fund as part of a reverse repurchase agreement shall not be sold, reinvested, pledged or otherwise transferred.
- 2.3. Securitisations (as defined in Article 4(1)(61) of Regulation EU 575/2013) and ABCPs shall not be received by a Money Market Fund as part of a reverse repurchase agreement.
- 2.4. The assets received by a Money Market Fund as part of a reverse repurchase agreement shall be sufficiently diversified with a maximum exposure to a given issuer of 15% of the Money Market Fund's Net Asset Value, except where those assets take the form of money market instruments that fulfil the requirements of Article 17(7) of the Money Market Fund Regulation. In addition, the assets received by a Money Market Fund as part of a reverse repurchase agreement shall be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty.
- 2.5. Where a Money Market Fund enters into a reverse repurchase agreement it shall ensure that it is able to recall the full amount of cash at any time on either an accrued basis or a mark-to-market basis. When cash is recallable at any time on a mark-to-market basis, the mark-to-market value of the reverse repurchase agreement shall be used for calculation of the Net Asset Value of the Money Market Fund.
- 2.6. By way of derogation from paragraph 2.2. above, a Money Market Fund may receive as part of a reverse repurchase agreement, liquid transferable securities or money market instruments other than those that fulfil the requirements set out in Article 10 provided that those assets comply with one of the following conditions:
- a) They are issued or guaranteed by the European Union, a central authority or central bank of a Member State, the European Central Bank, the European Investment Bank, the European Stability Mechanism or the European Financial Stability Facility provided that a favourable assessment has been received pursuant to Articles 19 to 22 of the Money Market Fund Regulation.
 - b) They are issued or guaranteed by a central authority or central bank of a third country, provided that a favourable assessment has been received pursuant to Article 19 to 22 of the Money Market Fund Regulation.

The assets received as part of the reverse repurchase agreement in accordance with the first subparagraph of this paragraph shall fulfil the requirements of Article 17(7) of the Money Market Fund Regulation.

Collateral Policy – Non Money Market Funds

1. Permitted Types of Collateral

1.1. Non-Cash Collateral

- 1.1.1. **Liquidity:** Non-cash collateral should be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation. Collateral received should also comply with the provisions of Regulation 74 of the UCITS Regulations (sections 5.1-5.3 in the section entitled “Investment Restrictions, General Provisions” above);
- 1.1.2. **Valuation:** Collateral should be valued on at least a daily basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place;
- 1.1.3. **Issuer credit quality:** Collateral received should be of high quality. The Fund shall ensure that:
 - (a) where the issuer was subject to a credit rating by an agency registered and supervised by ESMA that rating shall be taken into account by the Fund in the credit assessment process;
 - (b) where an issuer is downgraded below the two highest short-term credit ratings by the credit rating agency referred to in (i) this shall result in a new credit assessment being conducted of the issuer by the Fund without delay
- 1.1.4. **Correlation:** Collateral received should be issued by an entity that is independent from the counterparty and is not expected to display a high correlation with the performance of the counterparty;
- 1.1.6 **Diversification (asset concentration):**
 - (a) Subject to (b) below collateral should be sufficiently diversified in terms of country, markets and issuers with a maximum exposure to a given issuer of 20% of the Net Asset Value of the relevant Sub-Fund. When a Sub-Fund is exposed to different counterparties, the different baskets of collateral should be aggregated to calculate the 20% limit of exposure to a single issuer;
 - (b) A Sub-Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a Member State, one or more of its local authorities, a third country, or a public international body to which one or more Member States belong. Such a Sub-Fund should receive securities from at least 6 different issues, but securities from any single issue should not account for more than 30% of a Sub-Fund's Net Value.
- 1.1.7 **Immediately available:** Collateral received should be capable of being fully enforced by the Fund at any time without reference to or approval from the relevant counterparty; and

1.1.8 Non-cash collateral received cannot be sold, pledged or reinvested by the Fund.

1.2. **Cash collateral**

1.2.1 Reinvestment of cash collateral must be in accordance with the following requirements:

1.2.2 cash received as collateral may only be invested in the following:

(a) deposits with a credit institution authorised in the European Economic Area (EEA) (EU Member States, Norway, Iceland, Liechtenstein), a credit institution authorised within a signatory state, other than an EU Member State or a Member State of EEA, to the Basle Capital Convergence Agreement of July 1988 (Switzerland, Canada, Japan, United States, UK) or a credit institution authorised in Jersey, Guernsey, the Isle of Man, Australia or New Zealand (the **Relevant Institutions**);

(b) high quality government bonds;

(c) reverse repurchase agreements provided the transactions are with credit institutions subject to prudential supervision and the Fund is able to recall at any time the full amount of cash on an accrued basis;

(d) short-term money market funds as defined in the ESMA Guidelines on a Common Definition of European Money Market Funds (ref CESR/10-049);

1.2.3 invested cash collateral must be diversified in accordance with the requirements in section (A) 1.1.5 above;

1.2.4 invested cash collateral may not be placed on deposit with the counterparty or a related entity.

2. **Level of collateral required**

Unless otherwise specified in respect of a Sub-Fund in Part 1 of this Prospectus, the levels of collateral required are as follows:

Repurchase agreements	at least 100% of the exposure to the counterparty
Reverse repurchase agreements	at least 100% of the exposure to the counterparty
Lending of portfolio securities	at least 100% of the exposure to the counterparty
OTC derivatives	Such collateral to ensure, in any event, that counterparty exposure is managed within the limits set out in Investment Restrictions above

3. **Haircut policy**

In advance of entering into OTC derivative transactions, repurchase and reverse repurchase

agreements, the Investment Manager will determine what, if any, haircut may be required and is acceptable for each class of asset to be received as collateral, which will be set out in the agreement with the relevant counterparty or otherwise documented at the time of entering into such agreement. Such haircut will take into account the characteristics of the asset such as the credit standing or price volatility of the assets received as collateral and, where applicable, the outcome of any stress test performed in accordance with the Central Bank's requirements.

In the event that a Sub-Fund may enter into a securities lending transaction, the Investment Manager does not intend to apply a haircut to any non-cash assets received as collateral but instead, in accordance with market practice, intends to operate a policy of over-collateralisation whereby collateral will be marked to market on an on-going basis. Counterparties may be required to post additional collateral from time to time.

Securities Financing Transactions

Subject to the requirements of the Central Bank, and, in the case of Money Market Funds, the Money Market Fund Regulation, and where specified in the relevant section of Part 1 for each Sub-Fund, each Sub-Fund may engage in repurchase agreements, reverse repurchase agreements and/or (save in the case of Money Market Funds) securities lending (**Securities Financing Transactions**) for efficient portfolio management purposes. The assets that can be subject to Securities Financing Transactions are the assets described in the investment policy for each Sub-Fund. The expected proportion of assets under management and the maximum proportion of assets under management that may be subject to reverse repurchase agreements is set out in the table below.

	Expected Proportion of AUM subject to Securities Financing Transactions	Maximum Proportion of AUM subject to Securities Financing Transactions	
Reverse Repurchase Agreements	Between 0%-100% of Net Asset Value of the relevant Sub-Fund but in normal market conditions, the typical expected proportion of AUM would be the following:	100% of the Net Asset Value of the relevant Sub-Fund	
	Aviva Investors Sterling Government Liquidity Fund		90% of Net Asset Value
	Aviva Investors Sterling Liquidity Fund		15% of Net Asset Value
	Aviva Investors Sterling Liquidity Plus Fund		10% of Net Asset Value
	Aviva Investors Euro Liquidity Fund		10% of Net Asset Value
	Aviva Investors US Dollar Liquidity Fund		15% of Net Asset Value
	Aviva Investors Sterling Standard Liquidity Fund		15% of Net Asset Value

Counterparties to the Sub-Funds may include central counterparties authorised or recognised by ESMA, credit institutions or entities that have an investment grade credit rating or are indemnified by an institution that has an investment grade credit rating. The Investment Manager will only select counterparties that are in a position to value transactions at least daily and to provide weekly valuations to the Investment Manager. The Sub-Funds may adopt collateral arrangements as described under the Collateral Policy section above in order to reduce exposure to any counterparties to Securities Financing Transactions. Cash will be valued at par value, other securities will be valued on a mark-to-market basis. Assets and collateral subject to Securities Financing Transactions will be held by the Depositary on behalf of the relevant Sub-Fund. The re-use of collateral is not permitted by the Sub-Funds. All proceeds of Securities Financing Transactions shall be allocated to the relevant Sub-Fund minus any reasonable costs borne by the Investment Manager, or fees and costs of third party agents which are not related to the Investment Manager, which shall be at normal commercial rates.

Borrowing and Lending Powers

A Sub-Fund (that is not a Money Market Fund) may borrow up to 10 per cent of its net assets, provided this borrowing is on a temporary basis for the purpose of meeting redemption requests or defraying operational expenses. The Depositary may give a charge over the assets of the Fund in order to secure borrowings. Credit balances (e.g. cash) may not be offset against borrowings when determining the percentage of borrowings outstanding. Without prejudice to the powers of the Fund to invest in transferable securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. A Sub-Fund may acquire debt securities and securities which are not fully paid.

A Sub-Fund may acquire foreign currency by means of a back-to-back loan agreement. Foreign currency obtained in this manner is not classed as borrowings for the purposes of the borrowing restriction provided that the offsetting deposit is denominated in the Base Currency of the Sub-Fund and equals or exceeds the value of the foreign currency loan outstanding. However, where foreign currency borrowings exceed the value of the back-to-back deposit, the Manager will ensure that any excess is regarded as borrowing for the purpose of this restriction.

Dividend Policy

The Directors decide the dividend policy and arrangements relating to each Sub-Fund and details are set out where applicable in the relevant section of Part 1 for the relevant Sub-Fund.

The Directors intend to operate a distribution policy designed to enable certain Sub-Funds to qualify as distributing funds for the purposes of United Kingdom taxation. In relation to these Sub-Funds, the Directors intend to distribute sufficient surplus net income to enable the relevant Sub-Fund to qualify as a distributing fund for the purposes of United Kingdom taxation as outlined in Part 1.

Under the Articles, the Directors are entitled to declare dividends as appear to the Directors to be justified out of the profits of the relevant Sub-Fund being: (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less charges and expenses and/or (ii) realised and unrealised capital gains on the disposal/ valuation of investments and other funds less realised and unrealised accumulated capital losses of the relevant Sub-Fund.

Where the Directors consider the following action to be in the best interest of Shareholders, the Directors may temporarily or permanently alter the distribution policy of a class of distributing Shares to reflect that of accumulating Shares and, where the alteration is temporary, may revert back to the original distribution policy of the relevant class of distributing Shares where the Directors deem it appropriate to do so having regard to market conditions.

In the event that the Directors determine to change the dividend policy for a class of Shares on a permanent basis (to accumulating/distributing as appropriate), full details will be provided in an updated Prospectus and all relevant Shareholders will be notified in advance.

The Directors will be obliged and entitled to deduct an amount in respect of Irish taxation from any dividend payable to a Shareholder in any Sub-Fund who is or is deemed to be a Taxable Irish Person and pay such sum to the Irish tax authorities. Dividends not claimed within six years from their due date will lapse and revert to the relevant Sub-Fund.

Liquidity Management Procedures – LVNAV Sub-Funds

The Manager applies the following liquidity management procedures for each LVNAV Sub-Fund in order to ensure that there is sufficient liquidity available in those Sub-Funds to meet the weekly liquidity thresholds applicable in accordance with the Money Market Fund Regulation.

If the proportion of weekly maturing assets within the portfolio of a LVNAV Sub-Fund falls below (i) 30% of the total assets of that Sub-Fund, and the net daily redemptions on a single Dealing Day exceed 10% of the total assets of that Sub-Fund, the Investment Manager shall immediately inform the board of directors of the Manager. A documented assessment shall be completed of the situation to determine the appropriate course of action having regard to the interests of Shareholders of the relevant Sub-Fund together with the supporting rationale for that course of action. Following this assessment, the Manager, in conjunction with the Investment Manager shall consider, and if appropriate apply, one or more of the measures described below:

- (a) application of an Anti-Dilution Levy for such LVNAV Sub-Fund on any redemption requests so that the cost incurred by the Sub-Fund to achieve liquidity to settle that redemption request and to ensure that Shareholders remaining in the Sub-Fund are not unfairly disadvantaged when other Shareholders redeem Shares during the period that the weekly liquidity is exceeded;
- (b) impose a limit on the amount of Shares to be redeemed on any one Dealing Day to a maximum of 10 % of the Shares in the Sub-Fund for any period up to 15 Business Days;
- (c) suspend redemptions for any period up to 15 Business Days; or
- (d) take no immediate action other than fulfilling the obligations laid down in Money Market Fund Regulation.

If the proportion of weekly maturing assets within the portfolio of a LVNAV Sub-Fund falls below 10% of the total assets of that Sub-Fund, the Investment Manager shall immediately inform the board of directors of the Manager. A documented assessment shall be completed of the situation to determine the appropriate course of action having regard to the interests of

Shareholders of the relevant Sub-Fund together with the supporting rationale for that course of action. Following this assessment, the Manger, in conjunction with the Investment Manager shall consider, and apply one or more of the measures described below and document the reasons for its choice:

- (a) application of an Anti-Dilution Levy for such LVNAV Sub-Fund on any redemption requests so that the cost incurred by the Sub-Fund to achieve liquidity to settle that redemption request and to ensure that Shareholders remaining in the Sub-Fund are not unfairly disadvantaged when other Shareholders redeem Shares during the period that the weekly liquidity is exceeded; or
- (b) suspend redemptions for any period up to 15 Business Days.

Internal Credit Quality Assessment Procedures – Money Market Funds

Internal Credit Quality Assessment Procedures

The Investment Manager's analysts monitor holdings by reading regulatory filings, financial report and accounts, monitoring relevant security and industry news and events (through, for example, Bloomberg (or equivalent) and street (market) research), maintaining robust financial models, and keeping dialogue with management teams (earnings conference calls, phone calls, on-site visits, etc.) to continuously monitor portfolio holdings. This helps the Investment Manager stay dynamic with its investment recommendations and helps ensure the relevant Sub-Funds' portfolios incorporate the securities with the optimal risk/return profile.

Internal rating

The internal rating conveys probability of default and loss given default over a two year horizon. To establish this rating, analysts conduct a detailed review of the company, including understanding key risks in the company's business model, financials and financial policies, and ESG factors (as described below). The credit fundamental review process can be broadly separated into assessing the business risks inherent in the company's operating model and the resultant financial risks. The Investment Manager does not rely on external credit ratings, and therefore undertakes internal rating assignments to act as an independent assessment of an issuer's credit quality.

The review of financials is driven by detailed analysis of published statements and discussions with management with respect to financial policies, recent performance indicators and future performance outlook. Specific factors will vary across industries but will likely involve a mix of solvency/leverage measures, size and profitability measures, among other factors. Both cash flow and balance sheet risks are evaluated and important.

It is important to note that while the internal rating captures an assessment of borrower worthiness at a point in time there is a forward looking aspect to the rating, as the analyst will include their best estimate of where the fundamentals are heading over the time horizon, given all available information. The internal rating captures where the analyst sees the issuer heading in the long-term.

The internal rating is expressed on a scale comparable to those used in the rating agencies, with iAAA being the highest, and iC- the lowest.

Fundamental ("F" score)

The factors driving the F score are similar to those considered by the internal rating, though the F score conveys the marginal change in fundamentals, therefore reflecting a six month time horizon. There may be periods where these two measures are at odds, as an analyst may see long-term improvements in an issuer who is subject to shorter-term cyclical deterioration. F scores provide the analyst's view of the direction and magnitude of change in underlying fundamentals at the issuer level over a six to twelve month time horizon. It is scored on a scale of 1 to 5, with 1 being an expected sharp deterioration and 5 being an expected sharp improvement.

Subscriptions and Redemptions Account

The Fund has established an Umbrella Cash Account through which all subscription, redemptions, dividends or cash distributions payable to or from a Sub-Fund are channelled and managed.

The Umbrella Cash Account is an asset of the Fund held in the name of the Depositary. As an asset of the Fund, the Depositary is subject to specific requirements in respect of the Umbrella Cash Account under the UCITS Regulations and is also subject to specific requirements in respect of the Umbrella Cash Account pursuant to the Central Bank's own requirements for such accounts. These obligations include the requirement for the Depositary to have clear oversight and monitor the Fund's cash flows as well as be informed about all payments made by or on behalf of investors upon the subscription of Shares in a Sub Fund. In addition, the Fund, the Administrator and the Depositary have a policy in place in respect of the maintenance and monitoring of the Umbrella Cash Account which is reviewed at least annually and provides for daily reconciliation of the Umbrella Cash Account against the Fund's records.

As the Umbrella Cash Account is maintained at the level of the Fund rather than each Sub-Fund, investors should be aware of the following risk which reflect the fact that the Fund is an umbrella fund with a number of Sub-Funds:

-subscription monies received in respect of a Sub-Fund in advance of the issue of Shares will be held in the Umbrella Cash Account in the name of the Depositary on behalf of the Fund and will be treated as an asset of the relevant Sub-Fund. Investors will be unsecured creditors of the relevant Sub-Fund with respect to the amount subscribed and held in the Umbrella Cash Account until Shares are issued on the Dealing Day. As such, investors will not benefit from any appreciation in the Net Asset Value of the relevant Sub-Fund or any other Shareholder rights (including dividend entitlement) until such time as Shares are issued on the relevant Dealing Day. In the event of an insolvency of the Fund or the Sub-Fund, there is no guarantee that the Fund or the Sub-Fund will have sufficient funds to pay unsecured creditors in full.

-issues of Shares and the payment of redemption proceeds and dividends in respect of a particular Sub-Fund is subject to receipt by the Administrator of the subscription documents (with the original, where required, to follow by post) and compliance with all anti-money laundering/ financial crime procedures and any further particulars detailed in the section entitled "Share Dealings" of this Prospectus. Notwithstanding this, redeeming Shareholders will cease to be Shareholders, with regard to the redeemed Shares, and will be unsecured creditors of the particular Sub-Fund, from the relevant Dealing Day. Pending redemptions and

distributions, including blocked redemptions or distributions, will, pending payment to the relevant Shareholder, be held in the Umbrella Cash Account in the name of the Depositary on behalf of the Fund. Redeeming Shareholders and Shareholders entitled to such distributions will be unsecured creditors of the relevant Sub-Fund, and will not benefit from any appreciation in the Net Asset Value of the Sub-Fund or any other Shareholder rights (including further dividend entitlement), with respect to the redemption or distribution amount held in the Umbrella Cash Subscriptions and Redemptions Account. In the event of an insolvency of the relevant Sub-Fund or the Fund, there is no guarantee that the Sub-Fund or the Fund will have sufficient funds to pay unsecured creditors in full. Redeeming Shareholders and Shareholders entitled to distributions should ensure that any outstanding documentation and information is provided to the Administrator promptly. Failure to do so is at such Shareholder's own risk.

- in the event of the insolvency of another Sub-Fund of the Fund (the **Insolvent Fund**), recovery of any amounts held in the Umbrella Cash Subscriptions and Redemptions Account to which another Sub-Fund is entitled (the **Entitled Fund**), but which may have transferred to the Insolvent Fund as a result of the operation of the Umbrella Cash Subscriptions and Redemptions Account, will be subject to the principles of Irish insolvency law and the terms and conditions for the Umbrella Cash Subscriptions and Redemptions Account. There may be delays in effecting and / or disputes as to the recovery of such amounts, and the Insolvent Fund may have insufficient funds to repay amounts due to the Entitled Fund.

RISK FACTORS

Persons considering purchasing Shares should inform themselves as to (i) the legal requirements within their own countries for the purchase of Shares, (ii) any foreign exchange restrictions which may be applicable and (iii) the income and other tax consequences of purchase and redemption of Shares.

General

The investments of a Sub-Fund in securities are subject to normal market fluctuations and other risks inherent in investing in securities. The value of investments and the income from them, and therefore the value of and income from Shares relating to each Sub-Fund can go down as well as up and an investor may not get back the amount he invests. Changes in exchange rates between currencies or the conversion from one currency to another may also cause the value of the investments to diminish or increase. The value of Shares expressed in a currency other than the Base Currency will be subject to exchange rate risk in relation to the Base Currency.

Segregated Liability between the Funds

Each Sub-Fund is a segregated portfolio of assets and will accordingly bear its own liabilities and will be solely liable to third parties for all of the liabilities of the relevant Sub-Fund. While the provisions of the Companies Act 2014 provide for segregated liability between Sub-Funds, these provisions have yet to be tested in foreign courts, in particular, in satisfying local creditor claims. At the date of this Prospectus, the Directors are not aware of any such existing or contingent liability.

Control of Investments

The Fund and the Investment Manager will not have control over the activities of any company or collective investment scheme invested in by a Sub-Fund. Managers of collective investment schemes and companies in which a Sub-Fund may invest may manage the collective investment schemes or be managed in a manner not anticipated by the Fund or the Investment Manager.

Conflict of Interest Risk

Subject to the Regulations, and, in the case of Money Market funds, the MMFR, a Sub-Fund may invest a portion of its assets in unquoted investments. The Fund may consult the Manager and/or the Investment Manager with respect to the valuation of unquoted investments. There is an inherent conflict of interest between the involvement of the Manager and the Investment Manager in determining the valuation price of a Sub-Fund's unquoted investments and the Manager's and the Investment Manager's other responsibilities. Furthermore, as the fees of the Manager and the Investment Manager are based on the Net Asset Value, if the Net Asset Value increases so too does the fees payable to such parties and accordingly there is a conflict of interest for the Manager and the Investment Manager in determining the valuation price of a Sub-Fund's investments.

Withholding Tax

The income and gains of a Sub-Fund from its assets may suffer withholding tax which may not be reclaimable in the countries where such income and gains arise. If this position changes in the future and the application of a lower rate results in a repayment to the relevant Sub-Fund, the Net Asset Value will not be re-stated and the benefit will be allocated to the existing Shareholders rateably at the time of repayment.

Stocklending Risk

Subject to the Regulations, a Sub-Fund (that is not a Money Market Fund), where specified in the relevant section of Part 1, may enter into stocklending arrangements for Efficient Portfolio Management purposes and there are risks in the exposure to market movements if recourse has to be had to collateral, or if there is fraud or negligence on the part of the Depositary, Investment Manager or lending agent. In addition there is an operational risk associated with marking to market daily valuations and there are the potential stability risks of providers of collateral. The principal risk in such stocklending arrangements is the insolvency or default of the borrower. In this event the Sub-Fund could experience delays in recovering its securities and such event could possibly result in capital losses. As with any extensions of credit, there are risks of delay and recovery. For securities lending made with connected persons of the Depositary, it must be made on arm's length commercial terms and the Depositary's written consent is required. Investors should refer to the section entitled "Portfolio Transactions and Conflicts of Interest" below for further details.

Collateral Risk

Cash received as collateral may be invested in other eligible securities, including shares of a short term money market fund in accordance with the requirements of the Central Bank, and, in the case of a Money Market Fund, the requirements set out in the Money Market Fund Regulation. Investing this cash subjects that investment, as well as any securities loaned, to market appreciation or depreciation and the risks associated with such investments, such as failure or default of the issuer of the relevant security.

Repurchase Agreements

Subject to the conditions and limits set out in the Central Bank UCITS Regulations, and, in the case of a Money Market Fund, the requirements set out in the Money Market Fund Regulation, a Sub-Fund may enter into repurchase agreements, where specified in the relevant section of Part 1 for each Sub-Fund. The value of the security purchased may be more or less than the price at which the counterparty has agreed to purchase the security. If the other party to a repurchase agreement should default, the Sub-Fund might suffer a loss to the extent that the proceeds from the sale of the underlying securities and other collateral held by the Fund in connection with the repurchased repurchase agreement are less than the repurchase price. In addition, in the event of bankruptcy or similar proceedings of the other party to the repurchase agreement or its failure to repurchase the securities as agreed, the Sub-Fund could suffer losses, including loss of interest on or principal of the security and costs associated with delay and enforcement of the repurchase agreement.

Reverse Repurchase Agreements

Reverse repurchase transactions involve risks in that (a) in the event of the failure of the counterparty with which cash of a Sub-Fund has been placed there is the risk that collateral received may realise less than the cash placed out, whether because of inaccurate pricing of the collateral, adverse market movements, a deterioration in the credit rating of issuers of the collateral, or the illiquidity of the market in which the collateral is traded; and that (b) (i) locking cash in transactions of excessive size or duration, (ii) delays in recovering cash placed out, or (iii) difficulty in realising collateral may restrict the ability of the Sub-Fund to meet redemption requests, security purchases or, more generally, reinvestment.

Derivatives Risk

While the prudent use of financial derivative instruments can be beneficial, it can also involve risks different from, and in certain cases greater than, the risks presented by more traditional investments. The use of techniques and instruments also involves certain special risks, including (1) dependence on the ability to predict movements in the prices of securities being hedged and movements in interest rates, (2) imperfect correlation between the hedging instruments and the securities or market sectors being hedged, (3) the fact that skills needed to use these instruments are different from those needed to select the Sub-Fund's securities and (4) the possible absence of a liquid market for any particular instrument at any particular time, and (5) possible impediments to Effective Portfolio Management.

Futures

Transactions in futures involve the obligation to make, or to take, delivery of the underlying asset of the contract at a future date, or in some cases to settle the Fund's position with cash. They may carry a higher degree of risk. The gearing or leverage often obtainable in futures (where applicable) trading means that a small deposit or down payment can lead to large losses as well as gains. It also means that a relatively small market movement can lead to a proportionately much larger movement in the value of the Fund's investment, and this can work against the Fund as well as for the Fund. Futures transactions have a contingent liability, and investors should be aware of the implications of this, in particular the margining requirements.

Options

The seller (writer) of a call option which is covered (i.e. the writer holds the underlying security) assumes the risk of a decline in the market price of the underlying security below the purchase price of the underlying security less the premium received, and gives up the opportunity for gain on the underlying security above the exercise price of the option. The seller of an uncovered call option assumes the risk of a theoretically-unlimited increase in the market price of the underlying security above the exercise price of the option. The securities necessary to satisfy the exercise of the call option may be unavailable for purchase except at much higher prices. Purchasing securities to satisfy the exercise of the call option can itself cause the price of the securities to rise further, sometimes by a significant amount, thereby exacerbating the loss. The buyer of a call option assumes the risk of losing its entire investment in the call option. The seller (writer) of a put option which is covered (i.e. the writer has a short position in the underlying security) assumes the risk of an increase in the market price of the underlying security above the sales price (in establishing the short position) of the underlying security plus the premium received, and gives up the opportunity for gain on the underlying

security below the exercise price of the option. The seller of an uncovered put option assumes the risk of a decline in the market price of the underlying security below the exercise price of the option. The buyer of a put option assumes the risk of losing its entire investment in the put option.

Sustainability Risk

When considering Sustainability Risks, the Investment Manager primarily relies on its in-house Environmental, Social & Governance (ESG) analysis and climate risk indicators to categorise the potential level of Sustainability Risks in a Sub-Fund. Sustainability Risks may arise in respect of an issuer itself, its affiliates or in its supply chain and/or apply to a particular economic sector, geographic area or political region. Environmental risks, including risks arising from climate change, may be associated with events or conditions affecting the natural environment. Social risks may be internal or external to an issuer and may be associated with employees, local communities or customers of companies or populations of countries and/or regions. Governance risks may be associated with the quality, effectiveness and process for the oversight of day to day management of companies, or the governance structures of countries or regions. The level of Sustainability Risk may fluctuate depending on which counterparties and issuers the Investment Manager identifies. A Sub-Fund may be exposed to Sustainability Risks which may impact the value of its investments and may negatively impact upon the Net Asset Value and returns of the Sub-Fund.

Currency Risk

The Fund may from time to time utilise techniques and instruments to seek to protect (hedge) against currency fluctuations either on a spot basis or by buying currency exchange forward or swap contracts. Currency spot, forward or swap contracts do not eliminate fluctuations in the prices of a Sub-Fund's securities or in foreign exchange rates, or prevent loss if the prices of a Sub-Fund's securities should decline. Although these transactions are intended to minimise the risk of loss due to a decline in the value of hedged currency, they also limit any potential gain that might be realised should the value of the hedged currency increase. The precise matching of the relevant contract amounts and the value of the securities involved will not generally be possible because the future value of such securities will change as a consequence of market movements in the value of such securities between the date when the relevant contract is entered into and the date when it matures. The successful execution of a hedging strategy which matches exactly the profile of the investments of any Sub-Fund cannot be assured. It may not be possible to hedge against generally anticipated exchange rate fluctuations at a price sufficient to protect the assets from the anticipated decline in value of the portfolio positions as a result of such fluctuations. In addition, a Sub-Fund may be exposed to credit risks with regard to counterparties with whom the Fund trades as well as risks relating to settlement default. Such risks could result in substantial losses to a Sub-Fund.

Cyber Security Risk

The Fund and its service providers' use of internet, technology and information systems may expose the Fund and the Sub-Funds to potential risks linked to cyber security breaches of those technological or information systems. Cyber security breaches, amongst other things, could allow an unauthorized party to gain access to proprietary information, customer data, or fund assets, or cause a Sub-Fund and/or its service providers to suffer data corruption or lose operational functionality.

Suspension of Redemptions

A LVNAV Money Market Fund or a Public Debt CNAV Money Market Fund will cease to be treated as such a Money Market Fund, in accordance with the Money Market Fund Regulations, when the period of suspension of redemptions exceeds 15 days in a 90 day period.

Pandemic Risk

An outbreak of an infectious disease, pandemic or any other serious public health concern could occur in any one or more jurisdictions in which a Sub-Fund may invest, leading to changes in regional and global economic conditions and cycles which may have a negative impact on the Fund's investments and consequently its Net Asset Value. Any such outbreak may also have an adverse effect on the wider global economy and/or markets, such as the ability of exchanges to trade securities and clear and settle transactions, which may negatively impact a Sub-Fund's investments more generally. In addition a serious outbreak of infectious disease may also be a force majeure event under contracts that the Fund or a Sub-Fund has entered into thereby relieving a counterparty of the timely performance of the services such counterparties have contracted to provide to a Fund or a Sub-Fund (the nature of the services will vary depending on the agreement in question).

Additional risk factors (if any) in respect of each Sub-Fund are set out the relevant section of Part 1 for the relevant Sub-Fund.

SHARE DEALINGS

SUBSCRIPTION FOR SHARES

Purchases of Shares

Issues of Shares will normally be made with effect from a Dealing Day in respect of applications received on or prior to the Dealing Deadline. Dealing Days and Dealing Deadlines relating to each Sub-Fund are specified in the relevant section of Part 1 for each Sub-Fund. Applications for the issue of Shares may be submitted in writing, by facsimile, by telephone to the Fund care of the Administrator, or in certain circumstances by other electronic methods where specifically agreed to in advance by the Fund, provided in each case that an Application Form and any supporting documentation required with regard to anti-money laundering matters/ financial crime or otherwise, shall be submitted in the case of an initial application for Shares (with the original documentation, where required, to follow by post). In the case of retail investors, subscription requests must be sent through an independent financial adviser or other intermediary. However, this should not result in such investors paying more fees than otherwise would have been paid for a direct investment.

Applications received after the Dealing Deadline for the relevant Dealing Day shall, unless the Directors shall otherwise agree and provided they are received before the Valuation Point for the relevant Dealing Day, be deemed to have been received by the next Dealing Deadline. Applications will be irrevocable unless the Directors otherwise agree.

The Minimum Initial Subscription for Shares of each Sub-Fund that may be subscribed for by each investor on initial application is set out in the relevant section of Part 1 for the relevant Sub-Fund. Thereafter, existing Shareholders may make subscriptions for additional Shares of that Sub-Fund in the Minimum Additional Subscription (if any).

Fractions of not less than 0.001 of a Share may be issued. Subscription monies representing smaller fractions of Shares will not be returned to the applicant but will be retained as part of the assets of the relevant Sub-Fund.

The Application Form contains certain conditions regarding the application procedure for Shares in the Fund and certain indemnities in favour of the Fund, the Administrator, the Depositary, the Manager, the Investment Manager and the other Shareholders for any loss suffered by them as a result of certain applicants acquiring or holding Shares.

If an application is rejected, the Administrator at the risk of the applicant will return application monies or the balance thereof by telegraphic transfer to the account from which it was paid within 10 Business Days (as specified in the relevant section of Part 1 for each Sub-Fund) of the rejection, at the cost and risk of the applicant.

Issue Price

During the Initial Offer Period for each Sub-Fund, the Initial Issue Price for Shares in the relevant Sub-Fund shall be the amount set out in the relevant section of Part 1 for the relevant Sub-Fund.

The issue price at which Shares of any Sub-Fund will be issued on a Dealing Day after the Initial Offer Period is calculated by ascertaining the Net Asset Value per Share of the relevant class on the relevant Dealing Day.

The Administrator may, in calculating the issue price, include in the issue price in respect of each Sub-Fund, for its own account, a charge sufficient to cover stamp duties and taxation (if any) in respect of the issue of Shares or certificates and delivery and insurance costs in respect of certificates.

No Preliminary Charge will be payable on the issue of Shares of the Fund.

Payment for Shares

Payment in respect of the issue of Shares must be made by the relevant Settlement Date by telegraphic transfer in cleared funds in the Base Currency of the relevant Sub-Fund. The Directors or their delegates may, at their discretion, accept payment in other currencies, but such payments will be converted into the relevant Base Currency at the then prevailing exchange rate available to the Administrator and only the net proceeds (after deducting the conversion expenses) will be applied towards payment of the subscription monies. This may result in a delay in processing the application.

If payment in full has not been received by the Settlement Date, or in the event of non-clearance of funds, all or part of any allotment of Shares made in respect of such application may, at the discretion of the Directors, be cancelled, or, alternatively, the Directors may treat the application as an application for such number of Shares as may be purchased with such payment on the Dealing Day next following receipt of payment in full or of cleared funds. In such cases the Fund may charge the applicant for any resulting loss incurred by the relevant Sub-Fund.

In Specie Issues

The Directors may in their absolute discretion, provided that they are satisfied that no material prejudice would result to any existing Shareholder and subject to the provisions of the Companies Acts 2014, allot Shares in any Sub-Fund against the vesting in the Depositary on behalf of the Fund of investments which would form part of the assets of the relevant Sub-Fund. The number of Shares to be issued in this way shall be the number which would on the day the investments are vested in the Depositary on behalf of the Fund have been issued for cash against the payment of a sum equal to the value of the investments. The value of the investments to be vested shall be on such basis as the Directors may decide, but such value cannot exceed the highest amount at which they would be valued by applying the valuation methods described below under the heading “Calculation of Net Asset Value/ Valuation of Assets.”

Anti-Money Laundering Provisions

Measures provided for in the Criminal Justice (Money Laundering and Terrorist Financing) Act, 2010, as amended and the Criminal Justice (Terrorist Offences) Act, 2005 which are aimed towards the prevention of money laundering, require detailed verification of each applicant’s identity; for example an individual may be required to produce a copy of his passport or

identification card together with evidence of his address such as a utility bill or bank statement and his date of birth. In the case of corporate applicants this may require production of a certified copy of the certificate of incorporation (and any change of name), memorandum and articles of association (or equivalent) and the names, occupations, dates of birth and residential and business address of the directors and beneficial owners of the Fund.

The Administrator, Manager and the Fund reserve the right to request such information as is necessary to verify the identity of an applicant. In the event of delay or failure by the applicant to produce any information required for verification purposes, the Administrator may refuse to accept the application and return all subscription monies. If an application is rejected, and where appropriate to do so, the Administrator will return application monies or the balance thereof by telegraphic transfer to the account from which it was paid at the cost and risk of the applicant.

Depending on the circumstances of each application, a detailed verification may not be required where: (a) the applicant makes payment from an account held in the applicant's name at a recognised financial institution, or (b) the application is made through a recognised intermediary, or (c) investment is made by a recognised intermediary or financial institution. These exceptions will only apply if the financial institution or intermediary referred to above is located in a country, which has equivalent anti-money laundering legislation to that in place in Ireland and the Fund will make the ultimate decision whether the detailed verification is required. Applicants may contact the Administrator or the Fund in order to determine whether they meet the above exceptions. The Fund or the Manager will make the ultimate decision whether the detailed verification is required.

In accordance with section 54 of the Criminal Justice (Money Laundering and Terrorist Financing) Act, 2010, as amended, The Administrator and the Fund reserve the right to request additional information and documentation in respect of keeping Investor information and documentation up to date. In the event of delay or failure by the applicant to produce any information or documentation required for ongoing verification purposes, the Administrator and the Fund may refuse to accept subscriptions, or permit, process, or release the investor's investment.

FATCA

Due to tax regulations which are implemented as a result of the Irish government entering into an intergovernmental agreement with the United States, there is a requirement to share tax information, where applicable, with overseas tax authorities. As a financial institution, the Fund is obliged to comply with Irish legislation, and is obliged to collect details of all Shareholders' tax residency and taxpayer identification numbers and any other information as directed by the Office of the Revenue Commissioners. The Fund will pass such information to the Office of the Revenue Commissioners, who will in turn exchange this information with the United States.

The extent to which the Fund is able to report to the Office of the Revenue Commissioners will depend on each affected Shareholder in the Fund providing the Fund or its delegate with any information that the Fund determines is necessary to satisfy such obligations.

By signing the Application Form to subscribe for Shares in the Fund, each affected Shareholder is agreeing to provide such information upon request from the Fund or its delegate. The Fund may exercise its right to redeem completely an affected Shareholder if the Shareholder fails to

provide the Fund with the information the Fund requests to satisfy its obligations under FATCA. Shareholders are encouraged to consult with their own tax advisers regarding the possible implications of FATCA on their interest in the Fund.

Limitations on Purchases

Shares may not be issued or sold by the Fund during any period when the calculation of the Net Asset Value of the relevant Sub-Fund is suspended in the manner described under “Suspension of Calculation of Net Asset Value” below. Applicants for Shares will be notified of such postponement and, unless withdrawn, their applications will be considered as at the next Dealing Day following the ending of such suspension.

The Fund, at its discretion, reserves the right to refuse to accept any application for initial or subsequent subscriptions, or to compulsorily redeem Shares held by any Shareholder, without giving any reason where the Fund suspects market timing. Without limiting the foregoing, and as further described below, the Fund may not be used as a vehicle for frequent trading in response to short term market fluctuations (so called “market timing”). Accordingly, the Fund may reject any subscriptions (or may compulsorily redeem Shares) from any investor that it determines is engaged in market timing or other activity which it believes is harmful to the Fund or any Sub-Fund.

Shares may not be directly or indirectly offered or sold in the United States or purchased or held by or for U.S. Persons except in a transaction which does not violate United States securities laws.

REDEMPTION OF SHARES

Redemptions of Shares

Requests for the redemption of Shares should be made to the Fund care of the Administrator in writing, by facsimile, by telephone, or by other electronic methods where specifically agreed to in advance by the Fund, and must quote the relevant account number, the relevant Sub-Fund(s) and class of Shares (if applicable), and be signed by or on behalf of the Shareholder before payment of redemption proceeds can be made. In the case of retail investors, redemption requests must be sent through an independent financial adviser or other intermediary. However, this should not result in such investors paying more fees than otherwise would have been paid for a direct investment.

Requests received on or prior to the relevant Dealing Deadline will, subject as mentioned in this section, normally be dealt with on the relevant Dealing Day. Redemption requests received after the Dealing Deadline shall, unless the Directors shall otherwise agree and provided they are received before the relevant Valuation Point, be treated as having been received by the following Dealing Deadline. Redemption requests made by facsimile or telephone as set out above must be followed by subsequent confirmation in writing.

A redemption request will not be capable of withdrawal after acceptance by the Administrator. If requested, the Directors may, in their absolute discretion and subject to the prior approval of the Depositary, agree to designate additional Dealing Days and Valuation Points for the redemption of Shares relating to any Sub-Fund which will be open to all Shareholders.

The Directors or their delegates may decline to effect a redemption request which would have the effect of reducing the value of any holding of Shares relating to any Sub-Fund below the Minimum Holding for that class of Shares of that Sub-Fund. Any redemption request having such an effect may be treated by the Fund as a request to redeem the Shareholder's entire holding of that class of Shares.

The Administrator will not accept redemption requests, which are incomplete, until all the necessary information is obtained.

Redemption Price

The price at which Shares will be redeemed on a Dealing Day is also calculated by ascertaining the Net Asset Value per Share of the relevant class on the relevant Dealing Day. The method of establishing the Net Asset Value of any Sub-Fund and the Net Asset Value per Share of any class of Shares in a Sub-Fund is set out in the Articles as described herein under the heading "Calculation of Net Asset Value/Valuation of Assets" below.

No Redemption Charge will be payable on the redemption of Shares in the Fund.

When a redemption request has been submitted by an investor who is or is deemed to be a Taxable Irish Person or is acting on behalf of a Taxable Irish Person, the Fund shall deduct from the redemption proceeds an amount which is equal to the tax payable by the Fund to the Irish Revenue Commissioners in respect of the relevant transaction.

If redemption requests in respect of any Shares are received by the Fund the implementation on any Dealing Day of which will, in the opinion of the Directors, necessitate the breaking of deposits at a penalty, the redemption price attributable to such Shares will be reduced by a proportionate part of such reduction in value or penalty, which, will be suffered by the relevant Sub-Fund in such manner, as the Directors may consider fair and equitable and is approved by the Depositary. Alternatively, the Directors may arrange for the Fund to borrow monies in accordance with the "Borrowing and Lending Powers" section set out above and the costs of such borrowing will be apportioned as aforesaid to such extent as the Directors may consider fair and equitable. The Directors consider that the provisions of this paragraph shall only be utilised in exceptional circumstances.

Payment of Redemption Proceeds

The amount due on redemption of Shares will be paid by telegraphic transfer to an account nominated by the Shareholder in the Base Currency of the relevant Sub-Fund (or in such other currency as the Directors shall determine) by the Settlement Date. Payment of redemption proceeds will be made to the registered Shareholder or in favour of the joint registered Shareholders as appropriate. Third party payments are not permitted. The proceeds of the redemption of the Shares will only be paid on receipt by the Administrator of the Application Form and any supporting anti-money laundering/ financial crime or related documentation (with the original documentation, where required, to follow by post) as the Fund or the Administrator may require.

The Fund will be required to withhold Irish tax on redemption monies, at the applicable rate, unless it has received from the Shareholder a Relevant Declaration in the prescribed form, (the

Subscription Agreement, Finance Act Declaration and supporting documentation should be remitted by post thereafter) confirming that the Shareholder is not an Irish Resident and not an Irish Ordinary Resident investor in respect of whom it is necessary to deduct tax.

Limitations on Redemptions

The Fund may not redeem Shares of any Sub-Fund during any period when the calculation of the Net Asset Value of the relevant Sub-Fund is suspended in the manner described under “Suspension of Calculation of Net Asset Value” below. Applicants for redemptions of Shares will be notified of such postponement and, unless withdrawn, their applications will be considered as at the next Dealing Day following the ending of such suspension.

The Directors are entitled to limit the number of Shares of any Sub-Fund repurchased on any Dealing Day to Shares representing 10 per cent of the total Net Asset Value of that Sub-Fund on that Dealing Day (for LVNAV Sub-Funds, such gate may apply for up to 15 Business Days at a time). In this event, the limitation will apply *pro rata* so that all Shareholders wishing to have Shares of that Sub-Fund redeemed on that Dealing Day realise the same proportion of such Shares. Shares not redeemed, but which would otherwise have been redeemed, will be carried forward for redemption on the next Dealing Day. If requests for redemption are so carried forward, the Administrator will inform the Shareholders affected.

The Articles contain special provisions where a redemption request received from a Shareholder would result in Shares representing more than five per cent of the Net Asset Value of any Sub-Fund being redeemed by the Fund on any Dealing Day. In such a case, the Fund may satisfy the redemption request by a distribution of investments of the relevant Sub-Fund in specie provided that such a distribution would not be prejudicial to the interests of the remaining Shareholders of that Sub-Fund. Where the Shareholder requesting such redemption receives notice of the Fund’s intention to elect to satisfy the redemption request by such a distribution of assets that Shareholder may require the Fund instead of transferring those assets to arrange for their sale and the payment of the proceeds of sale to that Shareholder less any costs incurred in connection with such sale.

The Articles provide that the Fund cannot effect a redemption of Shares, if after payment of any amount in connection with such redemption, the Net Asset Value of the issued share capital of the Fund would be equal to or less than Euro 40,000 or its foreign currency equivalent. This will not apply to a redemption request accepted by the Directors in contemplation of the dissolution of the Fund.

The Fund, at its discretion, reserves the right to refuse to accept any request for redemption, or to compulsorily redeem Shares held by any Shareholder, without giving any reason where the Fund suspects market timing. Without limiting the foregoing, and as further described below, the Fund may not be used as a vehicle for frequent trading in response to short term market fluctuations (so called “market timing”). Accordingly, the Fund may reject any redemption requests (or may compulsorily redeem Shares) from any investor that it determines is engaged in market timing or other activity which it believes is harmful to the Fund or any Sub-Fund.

Mandatory Redemptions

The Fund may compulsorily repurchase all of the Shares of any Sub-Fund if the Net Asset Value of the relevant Sub-Fund is less than the Minimum Fund Size of the relevant Sub-Fund, details of which are set out in the relevant section of Part 1 for each Sub-Fund.

The Fund reserves the right to redeem any Shares which are or become owned, directly or indirectly, by a U.S. Person (unless pursuant to an exemption under U.S. securities laws), by any person who appears to be in breach of any law or requirement of any country or governmental authority or by virtue of which such person is not qualified to hold such Shares, or by any person or person in circumstances which might result in the relevant Sub-Fund incurring any liability to taxation or suffering any other pecuniary legal or material administrative disadvantages or being in breach of any law or regulation which the relevant Sub-Fund might not otherwise have incurred, suffered or breached. In particular, the Fund may exercise its right to redeem completely an affected Shareholder if the Shareholder fails to provide the Fund with the information the Fund requests to satisfy its obligations under FATCA.

Where Taxable Irish Persons acquire and hold Shares, the Fund shall, where necessary for the collection of Irish Tax, redeem and cancel Shares held by a person who is or is deemed to be a Taxable Irish Person or is acting on behalf of a Taxable Irish Person on the occurrence of a chargeable event for taxation purposes and to pay the proceeds thereof to the Irish Revenue Commissioners.

Exchange of Shares

Shareholders will be able to apply to exchange on any Dealing Day all or part of their holding of Shares of any class in any Sub-Fund (the “First Class”) for Shares in a corresponding class in another Sub-Fund which are being offered at that time (the “New Class”) provided that all the criteria for applying for Shares in the New Class have been met and by giving notice to the Administrator on or prior to the Dealing Deadline for the relevant Dealing Day. Unless otherwise determined by the Directors, a Shareholder may exchange Shares of one class in any Sub-Fund for Shares in another class of the same Sub-Fund. The Directors may however at their discretion agree to accept requests for exchange received after the relevant Dealing Deadline provided they are received prior to the relevant Valuation Point. The general provisions and procedures relating to the issue and redemption of Shares will apply equally to exchanges save in relation to charges payable details of which are set out below and in Part 1 for the relevant Sub-Fund.

When requesting the exchange of Shares as an initial investment in a Sub-Fund, Shareholders should ensure that the value of the Shares exchanged is equal to or exceeds the Minimum Initial Subscription for the relevant New Class specified in the relevant section of Part 1 for the relevant Sub-Fund. In the case of an exchange of a partial holding only, the value of the remaining holding must also be at least equal to the Minimum Holding for the First Class.

The number of Shares of the New Class to be issued will be calculated in accordance with the following formula:

$$S = \frac{[R \times (RP \times ER)] - F}{SP}$$

where:

R	=	the number of Shares of the First Class to be exchanged;
S	=	the number of Shares of the New Class to be issued;
RP	=	the redemption price per Share of the First Class as at the Valuation Point for the relevant Dealing Day;
ER	=	in the case of an exchange of Shares designated in the same Base Currency is 1. In any other case, it is the currency conversion factor determined by the Directors at the Valuation Point for the relevant Dealing Day as representing the effective rate of exchange applicable to the transfer of assets relating to the First and New Classes of Shares after adjusting such rate as may be necessary to reflect the effective costs of making such transfer;
SP	=	the issue price per Share of the New Class as at the Valuation Point for the applicable Dealing Day; and
F	=	the Exchange Charge (if any) payable on the exchange of Shares.

An Exchange Charge of up to 2% of the redemption price of the Shares being exchanged may be charged by the Fund on the exchange of Shares but it is the intention of the Directors that such charge (if any) should not exceed such amount as is set out in Part I for the relevant Sub-Fund.

Where there is an exchange of Shares, Shares of the New Class will be allotted and issued in respect of and in proportion to the Shares of the First Class in the proportion S to R.

In certain circumstances, at the discretion of the Directors, Shareholders will be deemed to have exchanged their Shares in one class of Shares for Shares in another Class of Shares where the Sub-Fund operates a tier mechanism between Share Classes (for example Share Classes 4 to 7 of the Aviva Investors Sterling Liquidity Fund). In such an event the above provisions will apply except that the Shareholders will not be required to submit an exchange request and the “Exchange Charge” will be waived.

Limitations on Exchange

Shares may not be exchanged for Shares of a different class during any period when the calculation of the Net Asset Value of the relevant Sub-Fund or Sub-Funds is suspended in the manner described under “Suspension of Calculation of Net Asset Value” below. Applicants for exchange of Shares will be notified of such postponement and, unless withdrawn, their applications will be considered as at the next Dealing Day following the ending of such suspension.

The Fund, at its discretion, reserves the right to refuse to accept any application for exchange, or to compulsorily redeem Shares held by any Shareholder, without giving any reason where the Fund suspects market timing. Without limiting the foregoing, and as further described below, the Fund may not be used as a vehicle for frequent trading in response to short term market fluctuations (so called “market timing”). Accordingly, the Fund may reject any exchange requests (or may compulsorily redeem Shares) from any investor that it determines is engaged in market timing or other activity which it believes is harmful to the Fund or any

Sub-Fund.

Calculation of Net Asset Value/Valuation of Assets

General

Where there is more than one class of Shares in a Sub-Fund in issue, the Net Asset Value per Share of any class is calculated by the Directors or their delegate by ascertaining the Net Asset Value of the relevant Sub-Fund as at the Valuation Point for that Sub-Fund for the relevant Dealing Day (to which the Directors or their delegate may apply a provision for duties and charges) and determining the amount of the Net Asset Value which is attributable to the relevant class of Shares. The Net Asset Value per Share of the relevant class is calculated by dividing that proportion of the Net Asset Value of the Sub-Fund which is attributable to the relevant class by the total number of Shares of the relevant class in issue at the relevant Valuation Point. The Valuation Point for each Sub-Fund is set out in Part 1 for the relevant Sub-Fund. The Net Asset Value per Share is the resulting sum rounded to the nearest seven decimal places (or such other amount as may be determined by the Directors at their discretion).

The Articles provide for the method of valuation of the assets and liabilities of each Sub-Fund and of the Net Asset Value of each Fund. Pursuant to the terms of the Management Agreement, the Directors have, among other things, delegated to the Manager all of their powers relating to the valuation of assets and liabilities of each Sub-Fund.

Calculation of Net Asset Value per share for LVNAV Money Market Funds

Any LVNAV Money Market Fund shall calculate a constant Net Asset Value per share as the difference between the sum of all of its assets valued in accordance with the amortised cost method as described below and the sum of all its liabilities divided by the number of its outstanding shares. The constant Net Asset Value per Share of a LVNAV Money Market Fund shall be rounded to the nearest percentage point or its equivalent when the constant Net Asset Value is published in a currency unit.

The constant Net Asset Value per Share shall be calculated at least daily. The difference between the constant Net Asset Value per Share and the Net Asset Value per share calculated in accordance with Article 30 of the Money Market Fund Regulation shall be monitored and published daily on www.avivainvestors.com.

Where the constant Net Asset Value per Share deviates from the Net Asset Value per Share as calculated using the methodology for Variable NAV Money Market Funds (as provided for below) by more than 20 basis points any following subscriptions and redemptions in the Fund shall be undertaken at a price that is equal to the NAV per share calculated in accordance with the Variable NAV MMF valuation while (i) such 20 basis point deviation subsists or (ii) such deviation does decrease below 20 basis points but is above 15 basis points and in the case of (ii) the Manager deems it to be in the best interests of the Sub-Fund as a whole to continue to use the Variable NAV MMF Valuation.

Calculation of Net Asset Value per share for Variable NAV Money Market Funds

Any variable Money Market Fund shall calculate the Net Asset Value per Share as the difference between the sum of all assets of the Money Market Fund and the sum of all liabilities

of the Money Market Fund valued in accordance with the mark-to-market or mark-to-model, or both divided by the number of outstanding shares of the Money Market Fund. The Net Asset Value per Share shall be rounded to the nearest basis point or its equivalent when the Net Asset Value is published in a currency unit. The Net Asset Value per Share shall be calculated and published at least daily.

Interim Dealing Cycles – Money Market Funds

The Fund may offer intra-day dealing for Money Market Funds through Interim Dealing Cycles within which subscriptions and redemptions may be accepted for execution in that Interim Dealing Cycle where provided for in the relevant section of the Prospectus for a LVNAV Sub-Fund.

Where Interim Dealing Cycles are offered to investors, it is done so at the discretion of the Manager. The Manager may, in its absolute discretion, run more or less Interim Dealing Cycles for a particular Class or Sub-Fund. Interim Dealing Cycles will be immediately suspended in the event of a Valuation Deviation. In addition to the calculation of Net Asset Value of an LVNAV MMF and review for a Valuation Deviation at each Valuation Point, the Net Asset Value will be subject to intra-day checks during Interim Dealing Cycles and at the Dealing Deadline to protect against undetected Valuation Deviations. The Manager, and its delegates, continually monitor for market and credit risks which may give rise to such a Valuation Deviation.

Shareholders should note that Interim Dealing Cycles may be impacted by operational and settlement challenges and accordingly are subject to change. The number and/or time of Interim Dealing Cycles on any Dealing Day may vary as a result of such challenges. Subscriptions, Share transfers and redemptions may be included in a later Interim Dealing Cycle or at the Dealing Deadline for a Dealing Day if, for any reason, their application was not processed in time for the intended Interim Dealing Cycle.

Valuation of Money Market Funds

1. The assets of Money Market Funds shall be valued at the relevant Valuation Point using mark-to-market whenever possible subject to the derogation set out in paragraphs 4 and 5 below.
2. When using mark-to-market, the assets of the Money Market Fund shall be valued at the more prudent side of bid and offer unless the asset can be closed out at mid-market. The Manager will only use good quality market data and such data shall be assessed by the Manager on the basis of all of the following factors:
 - The number and quality of the counterparties;
 - The volume and turnover in the market of the asset of the Money Market Fund;
 - The issue size and the portion of the issue that the Money Market Fund plans to buy or sell.
3. Where use of mark-to-market is not possible or the market data is not of sufficient quality, an asset of a Money Market Fund shall be valued conservatively by using mark-to-model. The model shall accurately estimate the intrinsic value of the asset of a Money Market Fund, based on all of the following up-to-date key factors:

- The volume and turnover in the market of that asset;
- The issue size and the portion of the issue that the Money Market Fund plans to buy or sell;
- Market risk, interest rate risk, credit risk attached to the asset.

When using the mark-to-model, the amortised cost method shall not be used.

4. By way of a derogation from the above, the assets of LVNAV Money Market Sub-Funds that have a residual maturity of up to 75 days will be valued using amortised cost method.
5. The amortised cost method shall only be used for valuing an asset of a LVNAV Money Market Fund in circumstances where the price of that asset calculated in accordance with the paragraphs 1,2 and 3 does not deviate from the price of that asset calculated in accordance with the amortised cost method by more than 10 basis points. In the event of such deviation, the price of that asset shall be calculated in accordance with paragraphs 1, 2 and 3 (as applicable).

General Valuation – Non Money market Funds

Money market instruments in a non-money market Sub-Fund may be valued by the Directors or their delegates at their amortised cost, in accordance with the Central Bank's requirements.

Subject to the foregoing, any investments owned or contracted for by a Sub-Fund which are listed or dealt in on a Market the value thereof shall be based on the "latest mid-market price", being the mean price between bid and offer prices for such security last available as at the relevant Valuation Point. Where such Investment is listed or dealt in on more than one Market the Manager shall select the Market which constitutes the main market for the foregoing purposes. Investments listed or traded on a regulated market but acquired at a premium or at a discount outside the relevant market may be valued taking into account the level of premium or discount at the date of valuation.

The Articles also provide that the value of any investment which is not listed or dealt in on a Market or of any investment which is normally listed or dealt in on a Market but in respect of which (i) the Manager (as the Fund's delegate) shall determine that the amortised cost method of valuation is not appropriate and (ii) the middle market price is currently unavailable or the current price of which does not in the opinion of the Manager represent fair market value shall be the probable realisation value thereof estimated with care and in good faith by the Manager or a competent person appointed by the Manager, in each case approved, for such purpose, by the Depositary. In determining the probable realisation value of any such investment, a certified valuation thereof provided by a competent independent person or, in the absence of any independent person, the Investment Manager, who in each case shall have been approved for such purposes by the Depositary, shall be sufficient.

The Articles also provide that valuations of units or shares or other similar participation in any collective investment scheme, which provides for the units or shares or other similar participation therein to be redeemed at the option of the holder out of the assets of that undertaking, shall be valued at the last available net asset value per unit or share or other similar participation as at the relevant Valuation Point or if bid and offer prices are published at the

last available bid price.

The Articles further provide that the value of any cash in hand or on deposit, prepaid expenses, cash dividends and interest declared or accrued and not yet received as at a Valuation Point shall be deemed to be the face value thereof with interest accrued where applicable, unless in any case the Directors are of the opinion that the same is unlikely to be paid or received in full in which case the value thereof shall be arrived at after making such discount as the Directors may consider appropriate in such case to reflect the true value thereof as at any Valuation Point.

The value of any demand notes, promissory notes and accounts receivable shall be deemed to be the face value or full amount thereof after making such discount as the Manager may consider appropriate to reflect the true current value thereof as at the relevant Valuation Point.

Certificates of deposit, treasury bills, bank acceptances, trade bills and other negotiable instruments shall each be valued by reference to the best price available for certificates of deposit, treasury bills, bank acceptances, trade bills and other negotiable instruments of like maturity, amount and credit risk at the relevant Valuation Point.

Forward foreign exchange contracts shall be valued by reference to the price as at the relevant Valuation Point at which a new forward contract of the same size and maturity could be undertaken, or, if unavailable, at the settlement price provided by the counterparty. The value of any exchange traded futures contracts, share price index futures contracts and options and other derivatives contracts which are dealt in on a Market shall be the settlement price as determined by the Market in question as at the relevant Valuation Point, provided that where it is not the practice for the relevant Market to quote a settlement price or such settlement price is not available for any reason as at the relevant Valuation Point, such value shall be the probable realisation value thereof estimated with care and in good faith by the Administrator or another competent person provided that the Administrator or such other competent person have been approved for such purpose by the Depositary.

The value of any off-exchange derivative contracts shall be the quotation from the counterparty to such contracts at the Valuation Point and shall be valued at least daily. The valuation will be verified at least weekly by a party independent of the counterparty, who has been approved for such purpose by the Depositary.

Any value expressed otherwise than in the Base Currency of the relevant Sub-Fund (whether of any investment or cash) and any non-Base Currency borrowing shall be converted into the Base Currency at the rate (whether official or otherwise) which the Manager shall determine to be appropriate in the circumstances.

Notwithstanding any of the foregoing, the Manager may with the approval of the Depositary adjust the value of any investment or other asset if, having regard to currency, applicable rate of interest, anticipated rate of dividend, maturity, marketability, liquidity and/or such other considerations as they may deem relevant, they consider that such adjustment is required to reflect the fair value thereof as at the relevant Valuation Point.

If in any case a particular value is not ascertainable as above provided or if the Directors shall consider that some other method of valuation better reflects the fair value of the relevant investment, then in such case the method of valuation of the relevant investment shall be such as the Manager shall determine, such method of valuation to be approved by the Depositary

and the rationale used shall be clearly documented.

Suspension of Calculation of Net Asset Value

The Directors may at any time temporarily suspend the calculation of the Net Asset Value of any Sub-Fund and the issue, redemption and exchange of Shares and the payment of redemption proceeds during:

- (i) any period when any of the Markets on which a substantial portion of the investments of the relevant Sub-Fund from time to time are quoted is closed, otherwise than for ordinary holidays, or during which dealings therein are restricted or suspended; or
- (ii) any period when, as a result of political, economic, military or monetary events or any circumstances outside the control, responsibility and power of the Directors, disposal or valuation of a substantial portion of the investments of the relevant Sub-Fund is not reasonably practicable without this being seriously detrimental to the interests of Shareholders of the relevant Sub-Fund or if, in the opinion of the Directors, the Net Asset Value of the Sub-Fund cannot be fairly calculated; or
- (iii) any breakdown in the means of communication normally employed in determining the price of a substantial portion of the investments of the relevant Sub-Fund or when for any other reason the current prices on any Market of any of the investments of the relevant Sub-Fund cannot be promptly and accurately ascertained; or
- (iv) any period during which any transfer of funds involved in the realisation or acquisition of investments of the relevant Sub-Fund cannot, in the opinion of the Directors, be effected at normal prices or rates of exchange; or
- (v) any period when the Fund is unable to repatriate funds required for the purpose of making payments due on the redemption of Shares in the relevant Sub-Fund; or
- (vi) any period when the Directors consider it to be in the best interest of the relevant Sub-Fund; or
- (vii) when any other reason makes it impracticable to determine the value of a meaningful portion of the investments of the Fund or any Sub-Fund.

Where possible, all reasonable steps will be taken to bring any period of suspension to an end as soon as possible.

Shareholders who have requested issue or redemptions of Shares of any class or exchanges of Shares of one class to another will be notified of any such suspension in such manner as may be directed by the Directors and, unless withdrawn but subject to the limitation referred to above, their requests will be dealt with on the first relevant Dealing Day after the suspension is lifted. Any such suspension will be notified without delay and in any event on the same Business Day to the Central Bank and will be communicated without delay to the competent authorities in the Member States in which it markets its Shares.

Form of Shares and Transfer of Shares

Shares will be issued in registered form. Contract notes providing details of the trade will normally be issued within three Business Days of the relevant Dealing Day. Written confirmations of ownership evidencing entry in the register will be issued within 30 days of the relevant Dealing Day upon receipt of all documentation required by the Administrator.

Shares in each Sub-Fund will be transferable by instrument in writing in common form or in

any other form approved by the Directors and signed by (or, in the case of a transfer by a body corporate, signed on behalf of or sealed by) the transferor. Transferees will be required to complete an Application Form and provide any other documentation reasonably required by the Fund or the Administrator. In the case of the death of one of joint Shareholders, the survivor or survivors will be the only person or persons recognised by the Fund as having any title to or interest in the Shares registered in the names of such joint Shareholders.

Shares may not be transferred to (i) a U.S. Person; or (ii) any person who, by holding Shares, would be in breach of any law or requirement of any country or governmental authority or by virtue of which such person is not qualified to hold such Shares or if the holding of the Shares by any person is unlawful or if the person or entity is resident in a country in which the sale of the shares of the Fund to the public is not authorized; or (iii) might result in the relevant Sub-Fund incurring any liability to taxation or suffering pecuniary legal or material administrative disadvantages or being in breach of any law or regulation which the relevant Sub-Fund might not otherwise have incurred, suffered (including without limitation, where a Shareholder fails to provide the Fund with information required to satisfy the obligations under any tax requirements or regulations or any automatic exchange of information obligations or other similar requirements of the Fund, the Depositary, the Administrator, the Manager, the Investment Manager or any delegate thereof, or where the Directors suspect market timing) or might result in the relevant Sub-Fund, the Fund, the Manager, the Investment Manager or Investment Manager's group of companies being required to comply with registration or filing requirements in any jurisdiction with which it would not otherwise be required to comply or is otherwise prohibited by the Articles; or (iv) a minor or a person of unsound mind, any transfer unless the transferee of such Shares would following such transfer be the holder of Shares equal to or greater than the Minimum Initial Subscription; or (v) any person in circumstances where as a result of such transfer the transferor or transferee would hold less than the Minimum Holding and any person where in respect of such transfer in regard to which any payment of taxation remains outstanding. Registration of any transfer may be refused by the Directors if, following the transfer, either transferor or transferee would hold Shares having a value less than the Minimum Holding for that class of Shares specified in the relevant section of Part 1 for the relevant Sub-Fund

If the transferor is or is deemed to be or is acting on behalf of a Taxable Irish Person, the Fund is entitled to redeem and cancel a sufficient portion of the transferor's Shares as will enable the Fund to pay the tax payable in respect of the transfer to the Revenue Commissioners in Ireland.

Notification of Prices

The Net Asset Value per Share of each class of Shares in each Sub-Fund will be available from the Administrator.

The Net Asset Value per Share as calculated on any Dealing Day with respect to each class of Shares in each Sub-Fund will be published on www.avivainvestors.com.

CHARGES AND EXPENSES

Particulars of the charges and expenses (including performance fees, if any) payable to the Manager and the Investment Manager out of the assets of each Sub-Fund are set out in the relevant section of Part 1 for each Sub-Fund. The Manager shall pay out of such fee the fees, charges and expenses payable to the Depositary, the Administrator, the Distributor and the Directors, including the charges and expenses of sub-custodians which will be at normal commercial rates and all other annual charges and expenses of each Sub-Fund on the terms provided for in the relevant section of Part 1 for each Sub-Fund.

The Fund may pay or procure the payment out of the assets of each Sub-Fund, the charges and expenses payable to the Manager, the Investment Manager, the Depositary, the Administrator, any Distributor, the charges and expenses of sub-custodians which will be at normal commercial rates, the charges and expenses of the Directors, any charges in respect of circulating details of the Net Asset Value, stamp duties, taxes, company secretarial fees, any costs incurred in respect of meetings of Shareholders, distribution costs, investment transaction charges, costs incurred in respect of the distribution of income to Shareholders, the charges and expenses of any paying agent or representative appointed in compliance with the requirements of another jurisdiction, any amount payable under indemnity provisions contained in the Articles or any agreement with any appointee of the Fund, all sums payable in respect of directors' and officers' liability insurance cover, brokerage or other expenses of acquiring and disposing of investments, the charges and expenses of the auditors, tax and legal advisers and registering the Fund for sale in other jurisdictions. The costs of printing and distributing this Prospectus, reports, accounts and any explanatory memoranda, any necessary translation fees, the costs of publishing prices and any costs incurred as a result of periodic updates of the Prospectus, or of a change in law or the introduction of any new law (including any costs incurred as a result of compliance with any applicable code, whether or not having the force of law) will also be paid by the Fund.

Alternatively, the Manager may in its own discretion discharge such costs listed in the above paragraph out of their own fees. In such circumstances details will be set out in the relevant section of Part 1 for each Sub-Fund.

Such fees, charges and duties will be charged to the Sub-Fund in respect of which they were incurred or, where an expense is not considered by the Directors to be attributable to any one Sub-Fund, the expense will be allocated by the Directors with the approval of the Depositary, in such manner and on such basis as the Directors in their discretion deem fair and equitable. In the case of any fees, charges or expenses of a regular or recurring nature, such as audit fees, the Directors may calculate such fees, charges and expenses on an estimated figure for yearly or other periods in advance and accrue the same in equal proportions over any period.

The Directors will be entitled to be reimbursed for their reasonable out of pocket expenses incurred in discharging their duties as directors.

The cost of establishing the Fund, the initial Sub-Fund, obtaining authorisation from any authority, listing the Shares on Euronext Dublin, filing fees, the preparation and printing of this Prospectus, and the fees of all professionals relating to it were borne by the Fund and have been amortised. The cost of establishing the Aviva Investors Euro Liquidity Fund, the Aviva

Investors Sterling Liquidity Plus Fund and Aviva Investors Sterling Government Liquidity Fund, obtaining authorisation from any authority, listing the Shares on Euronext Dublin, filing fees, the preparation and printing of this Prospectus, and the fees of all professionals relating to it were borne by the relevant Sub-Fund and have been amortised.

In relation to the Aviva Investors US Dollar Liquidity Fund and the Aviva Investors Sterling Standard Liquidity Fund, the cost of establishing the relevant Sub-Fund, obtaining authorisation from the Central Bank, listing the Shares on Euronext Dublin where relevant, filing fees, the preparation and printing of the revised Prospectus, and the fees of all professionals relating to the relevant Sub-Fund amount to approximately £50,000 (including VAT) and will be borne by the relevant Sub-Fund and will be amortised over the first five accounting periods of the Sub-Fund's existence.

Unless otherwise determined at the time of establishment of the relevant Sub-Fund, the cost of establishing subsequent Sub-Funds will be charged to the relevant Sub-Fund.

Portfolio Transactions and Conflicts of Interest

Subject to the provisions of this section, the Manager, the Investment Manager, the Administrator, the Depositary and the Directors and any of their respective subsidiaries, affiliates, associates, agents or delegates (each a “Connected Person”) may contract or enter into any financial, banking or other transaction with one another or with the Fund. This includes, without limitation, investment by the Fund in securities of any Connected Person or investment by any Connected Persons in any company or bodies any of whose investments form part of the assets comprised in any Sub-Fund or be interested in any such contract or transactions. In addition, any Connected Person may invest in and deal in Shares relating to any Sub-Fund or any property of the kind included in the property of any Sub-Fund for their respective individual accounts or for the account of someone else.

Any cash of the Fund may be deposited, subject to the provisions of the Central Bank Acts 1942 to 2010, with any Connected Person or invested in certificates of deposit or banking instruments issued by any Connected Person. Banking and similar transactions may also be undertaken with or through a Connected Person.

Any Connected Person may also deal as agent or principal in the sale or purchase of securities and other investments to or from the Fund. There will be no obligation on the part of any Connected Person to account to the Fund or to Shareholders for any benefits so arising, and any such benefits may be retained by the relevant party, provided that such transactions are carried out as if effected on normal commercial terms negotiated at arm's length, are consistent with the best interests of the Shareholders and:

- (a) a certified valuation of such transaction by a person approved by the Depositary (or in the case of any such transaction entered into by the Depositary, the Directors) as independent and competent has been obtained; or
- (b) such transaction has been executed on best terms reasonably available on an organised investment exchange under its rules; or
- (c) where (a) and (b) are not reasonably practicable, such transaction has been executed on terms which the Depositary is (or in the case of any such transaction entered into by the

Depository, the Directors are) satisfied conform with the principle that such transactions be carried out as if effected on normal commercial terms negotiated at arm's length.

Conflicts of Interests may arise as part of the use of techniques and instruments for Efficient Portfolio Management purposes. If any such conflict arises, the Manager will have regard to its obligations under the Management Agreement and the Investment Manager will have regard to its obligations under the Investment Management Agreement to act in the best interest of the Fund and the Shareholders. At all times the Manager and the Investment Manager will strive to ensure that such Efficient Portfolio Management transactions are effected on terms which are not less favourable to the Fund than if the potential conflict had not existed.

The Manager and the Investment Manager may each also, in the course of its business, have potential conflicts of interest with the Fund in circumstances other than those referred to above. The Manager will have regard to its obligations under the Management Agreement and the Investment Manager will have regard to its obligations under the Investment Management Agreement and, in particular, to their respective obligations to act in the best interests of the Fund so far as practicable, having regard to their respective obligations to other clients when undertaking any investments where conflicts of interest may arise and will ensure that such conflicts are resolved fairly as between the Fund, the Sub-Funds and other clients. The Investment Manager will ensure that investment opportunities are allocated on a fair and equitable basis between the Fund and its other clients. In the event that a conflict of interest does arise the directors of the Manager and the Investment Manager will endeavour to ensure that such conflicts are resolved fairly.

Soft Commissions

It is not intended that any soft commission arrangements will be entered into in relation to any Sub-Fund.

Remuneration Policy

Scope

The Manager's remuneration policy applies to the employees and in particular the identified staff of the Manager.

Remuneration Principles

The Manager's employees' remuneration is designed in a way that is consistent with and promotes sound and effective risk management and does not encourage risk taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the funds that the Manager manages. The Manager's remuneration policy is in line with the business strategy, objectives, values and interests of the Manager, of the funds that it manages and of the investors in such funds, and includes measures to avoid conflicts of interest. The Manager has established its remuneration committee as a sub-committee of the board of directors of the Manager to determine the annual bonus pool, approve individual performance bonuses and to ensure that the application of the remuneration policy is in line with the applicable regulation in Luxembourg (the "Remuneration Committee").

The total remuneration of an individual consists mainly of some or all of the following remuneration structures:

- Basic salary
- Discretionary bonus
- Long term incentive plan awards
- Benefits (including Pensions)

The remuneration structure is determined in a way that the fixed component represents a sufficiently high proportion of the total remuneration allowing the Manager to operate a fully flexible bonus policy, including the possibility to pay no variable remuneration component.

Bonus pools and target calculations are based on the performance of the Manager as a business. Performance is measured over a multiyear period appropriate to the holding period recommended to the investors of the funds managed by the Manager in order to ensure that the assessment process is based on the longer-term performance of the funds and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period. Performance assessments include both financial and non-financial metrics. Individual bonuses are recommended by line managers, based on performance-, risk- and other parameters, and approved by the Remuneration Committee.

The Remuneration Committee performs a review of the prior year's bonus allocation and determines, based on the risk adjusted performance and the information available, if some or all of the deferred part of the bonus should be reduced. In addition, the Remuneration Committee has the right, in appropriate circumstances, to require reimbursement of any annual performance bonus or long-term incentive payment from individuals. The remuneration in shares will be disappplied for staff working in control functions.

Details of the Manager's up-to-date remuneration policy, including, but not limited to, the composition of its Remuneration Committee and a description of how remuneration and benefits are calculated, are available at <https://www.avivainvestors.com/en-gb/institutional/investing-with-us/asset-classes/liquidity.html>. A hard copy version of the Manager's remuneration policy will be made available free of charge upon request at the

Manager's registered office.

Infringement Policy

The Fund has in place appropriate procedures for the reporting of infringements internally through a specific, independent and autonomous channel, in compliance with the Regulations.

TAXATION

General

The following statements on taxation are by way of a general guide to potential investors are based on advice received by the Fund regarding the law and practice in force in the relevant jurisdiction at the date of this document and do not constitute legal or tax advice. As is the case with any investment, there can be no guarantee that the tax position or proposed tax position prevailing at the time an investment in the Fund is made will endure indefinitely as the basis for, and rates of, taxation can fluctuate.

Prospective Shareholders should familiarise themselves with and, where appropriate, take advice on the laws and regulations (such as those relating to taxation and exchange controls) applicable to the subscription for, and the holding and redemption of, Shares in the places of their citizenship, residence and domicile.

Irish Taxation

Tax on Income and Capital Gains

The Fund

On the basis that the Fund is a UCITS it is outside the scope of Part 27 Chapter 1B of the Taxes Consolidation Act 1997 TCA dealing with Irish real estate funds.

The Directors have been advised that the Fund will only be subject to tax on chargeable events in respect of Shareholders who are Taxable Irish Persons (generally persons who are resident or ordinarily resident in Ireland for tax purposes)(see relevant Irish tax definitions for more details).

A chargeable event occurs on, for example:

- (a) a payment of any kind to a Shareholder by the Fund;
- (b) a transfer of Shares; and
- (c) on the eighth anniversary of a Shareholder acquiring Shares and every subsequent eight anniversaries;

but does not include for example any transaction in relation to Shares held in a clearing system recognised by the Irish Revenue Commissioners certain transfers arising as a result of an amalgamation or reconstruction of fund vehicles and certain transfers between spouses or former spouses.

If a Shareholder is not a Taxable Irish Person at the time a chargeable event arises no Irish tax will be payable on that chargeable event in respect of that Shareholder.

Where tax is payable on a chargeable event, subject to the comments below, it is a liability of the Fund which is recoverable by deduction or, in the case of a transfer and on the eight year rolling chargeable event by cancellation or appropriation of Shares from the relevant Shareholders. In certain circumstances, and only after notification by the Fund to a Shareholder, the tax payable on the eight year rolling chargeable event can at the election of the Fund become a liability of the Shareholder rather than the Fund. In such circumstances the Shareholder must file an Irish tax return and pay the appropriate tax (at the rates set out below) to the Irish Revenue Commissioners.

In the absence of the appropriate declaration being received by the Fund that a Shareholder is not a Taxable Irish Person or if the Fund has information that would reasonably suggest that a declaration is incorrect, and in the absence of written notice of approval from the Revenue Commissioners to the effect that the requirement to have been provided with such declaration is deemed to have been complied with (or following the withdrawal of, or failure to meet any conditions attaching to such approval), the Fund will be obliged to pay tax on the occasion of a chargeable event (even if, in fact, the Shareholder is neither resident nor ordinarily resident in Ireland). Where the chargeable event is an income distribution tax will be deducted at the rate of 41% or at the rate of 25% where the Shareholder is a company and the appropriate declaration has been made, on the amount of the distribution. Where the chargeable event occurs on any other payment to a Shareholder, not being a company which has made the appropriate declaration, on a transfer of Shares and on the eight year rolling chargeable event, tax will be deducted at the rate of 41% on the increase in value of the shares since their acquisition. Tax will be deducted at the rate of 25% on such transfers where the Shareholder is a company and the appropriate declaration has been made. In respect of the eight year rolling chargeable event, there is a mechanism for obtaining a refund of tax where the Shares are subsequently disposed of for a lesser value.

Where a Shareholder holds Shares in a nominee capacity, a declaration is required from the Shareholder that, to the best of its knowledge and belief, the beneficial owner is neither resident nor ordinarily resident in Ireland if a tax liability is not to arise on a chargeable event.

An anti-avoidance provision increases the 41% rate of tax to 60% (80% where details of the payment/disposal are not correctly included in the individual's tax return) if, under the terms of an investment in a Sub-Fund, the investor or certain persons associated with the investor have an ability to influence the selection of the assets of the Sub-Fund.

Other than in the circumstances described above the Fund will have no liability to Irish taxation on income or chargeable gains.

Shareholders

Shareholders who are neither resident nor ordinarily resident in Ireland in respect of whom the appropriate declarations have been made (or in respect of whom written notice of approval from the Revenue Commissioners has been obtained by the Fund to the effect that the requirement to have been provided with such declaration from that Shareholder or class of shareholders to which the Shareholder belongs is deemed to have been complied with) will not be subject to tax on any distributions from the Fund or any gain arising on redemption or transfer of their Shares provided the Shares are not held through a branch or agency in Ireland. No tax will be deducted from any payments made by the Fund to those Shareholders who are not Taxable Irish Persons.

Shareholders who are Irish resident or ordinarily resident or who hold their Shares through a branch or agency in Ireland may have a liability under the self-assessment system to pay tax or further tax on any distribution or gain arising from their holdings of Shares. In particular where the Fund has elected not to deduct tax at the occasion of the eight year rolling chargeable event a Shareholder will have an obligation to file a self-assessment tax return and pay the appropriate amount of tax to the Irish Revenue Commissioners. Certain Irish resident an ordinarily resident Shareholders will be exempt from exit tax on distributions and gains on redemptions by the Fund provided the appropriate declaration is in place.

Refunds of tax where a relevant declaration could be made but was not in place at the time of a chargeable event are generally not available except in the case of certain corporate Shareholders within the charge to Irish corporation tax.

Stamp Duty

No Irish stamp duty will be payable on the subscription, transfer or redemption of Shares provided that no application for Shares or redemption or redemption of Shares is satisfied by an in specie transfer of any Irish situated property.

Capital Acquisitions Tax

No Irish gift tax or inheritance tax (capital acquisitions tax) liability will arise on a gift or inheritance of Shares provided that:-

- (a) at the date of the disposition the transferor is neither domiciled nor ordinarily resident in Ireland and at the date of the gift or inheritance the transferee of the Shares is neither domiciled nor ordinarily resident in Ireland; and
- (b) the Shares are comprised in the disposition at the date of the gift or inheritance and the valuation date.

Other Irish Tax Matters

The income and/or gains of the Fund from its securities and assets may suffer withholding tax in the countries where such income and/or gains arise. The Fund may not be able to benefit from reduced rates of withholding tax in double taxation agreements between Ireland and such countries. If this position changes in the future and the application of a lower rate results in repayment to the Fund, the Net Asset Value of the relevant Sub-Fund will not be restated and the benefit will be allocated to the existing Shareholders in the relevant Sub-Fund rateably at the time of repayment.

Relevant Irish Tax Definitions

Irish residence and ordinary residence for tax purposes:

- (i) Residence - Company

Prior to Finance Act 2014, company residence was determined with regard to the long-established common law rules based on central management and control. These rules were

significantly revised in Finance Act 2014 to provide that a company incorporated in the State will be regarded as resident for tax purposes in the State, unless it is treated as resident in a treaty partner country by virtue of a double taxation treaty. While the common law rule based on central management and control remains in place, it is subject to the statutory rule for determining company residence based on incorporation in the State set out in the revised section 23A of the TCA.

The incorporation rule for determining the tax residence of a company incorporated in the State applies to companies incorporated on or after 1 January 2015. For companies incorporated in the State before this date, a transition period applied until 31 December 2020.

(ii) Residence - Individual

An individual will be regarded as being resident in Ireland for a tax year if s/he:

1. spends 183 days or more in the State in that tax year; or
2. has a combined presence of 280 days in the State, taking into account the number of days spent in the State in that tax year together with the number of days spent in the State in the preceding year.

Presence in a tax year by an individual of not more than 30 days in the State will not be reckoned for the purpose of applying the two year test. **From 1 January 2009, presence in the State for a day means the personal presence of an individual at any time during the day.**

(iii) Ordinary Residence - Individual

The term “ordinary residence” as distinct from “residence”, relates to a person’s normal pattern of life and denotes residence in a place with some degree of continuity.

An individual who has been resident in the State for three consecutive tax years becomes ordinarily resident with effect from the commencement of the fourth tax year.

An individual who has been ordinarily resident in the State ceases to be ordinarily resident at the end of the third consecutive tax year in which s/he is not resident. Thus, an individual who is resident and ordinarily resident in the State in 2022 and departs from the State in that tax year will remain ordinarily resident up to the end of the tax year in 2025.

(iv) Intermediary

This means a person who:-

- (a) carries on a business which consists of, or includes, the receipt of payments from an investment undertaking resident in Ireland on behalf of other persons; or
- (b) holds units or shares in an investment undertaking on behalf of other persons.

Other Jurisdictions

As Shareholders are no doubt aware, the tax consequences of any investment can vary considerably from one jurisdiction to another, and ultimately will depend on the tax regime of the jurisdictions within which a person is tax resident. Therefore the Directors strongly recommend that Shareholders obtain tax advice from an appropriate source in relation to the tax liability arising from the holding of Shares in the Fund and any investment returns from those Shares. It is the Directors' intention to manage the affairs of the Fund so that it does not become resident outside of Ireland for tax purposes.

Irish reporting financial institutions, which may include the Fund have reporting obligations in respect of certain investors under FATCA as implemented pursuant to the Ireland – US intergovernmental agreement and/or the OECD's Common Reporting Standard (see below).

Information exchange and the implementation of FATCA in Ireland

With effect from 1 July 2014 the Fund is obliged to report certain information in respect of U.S. investors in the Fund to the Irish Revenue Commissioners who will then share that information with the U.S. tax authorities.

The Foreign Account Tax Compliance provisions of the U.S. Hiring Incentives to Restore Employment Act of 2010 (**FATCA**), which imposes a 30% US withholding tax on certain 'withholdable payments' made on or after 1 July 2014 unless the payee enters into and complies with an agreement with the U.S. Internal Revenue Service (**IRS**) to collect and provide to the IRS substantial information regarding direct and indirect owners and account holders.

On 21 December 2012, Ireland signed an Intergovernmental Agreement (**IGA**) with the United States to Improve International Tax Compliance and to Implement FATCA. Under this agreement, Ireland agreed to implement legislation to collect certain information in connection with FATCA and the Irish and U.S. tax authorities have agreed to automatically exchange this information. The IGA provides for the annual automatic exchange of information in relation to accounts and investments held by certain U.S. persons in a broad category of Irish financial institutions and vice versa.

Under the IGA and the Financial Accounts Reporting (United States of America) Regulations 2014 (as amended) (the **Irish Regulations**) implementing the information disclosure obligations Irish financial institutions such as the Fund are required to report certain information with respect to U.S. account holders to the Revenue Commissioners. The Revenue Commissioners will automatically provide that information annually to the IRS. The Fund (and/or the Administrator, the Manager or the Investment Manager on behalf of the Fund) must obtain the necessary information from investors required to satisfy the reporting requirements whether under the IGA, the Irish Regulations or any other applicable legislation published in connection with FATCA and such information is being sought as part of the application process for shares in the Fund. It should be noted that the Irish Regulations require the collection of information and filing of returns with the Irish Revenue Commissioners regardless as to whether the Fund holds any U.S. assets or has any U.S. investors.

If a Shareholder causes the Fund to suffer a withholding for or on account of FATCA (FATCA Deduction) or other financial penalty, cost, expense or liability, the Fund may compulsorily

redeem any Shares of such Shareholder and/or take any actions required to ensure that such FATCA Deduction or other financial penalty, cost, expense or liability is economically born by such shareholder. While the IGA and Irish Regulations should serve to reduce the burden of compliance with FATCA, and accordingly the risk of a FATCA withholding on payments to the Fund in respect of its assets, no assurance can be given in this regard. As such, Shareholders should obtain independent tax advice in relation to the potential impact of FATCA before investing.

Common Reporting Standard (CRS)

The goal of the CRS is to provide for the annual automatic exchange between governments of financial account information reported to them by local Financial Institutions (FIs) relating to account holders tax resident in other participating countries to assist in the efficient collection of tax. The OECD, in developing the CRS, have used FATCA concepts and as such the Standard is broadly similar to the FATCA requirements, albeit with numerous alterations. It has resulted in a significantly higher number of reportable persons due to the increased instances of potentially in-scope accounts and the inclusion of multiple jurisdictions to which accounts must be reported.

Ireland is a signatory jurisdiction to a Multilateral Competent Authority Agreement on the automatic exchange of financial account information in respect of CRS while section 891F and 891G of the TCA contain measures necessary to implement the CRS internationally and across the European Union, respectively. The Returns of Certain Information by Reporting Financial Institutions Regulations 2015 (the **CRS Regulations**), gave effect to the CRS from 1 January 2016.

Directive 2014/107/EU on Administrative Cooperation in the Field of Taxation (“DAC II”) implements CRS in a European context and creates a mandatory obligation for all EU Member States to exchange financial account information in respect of residents in other EU Member States on an annual basis. Section 891G of the TCA contained measures necessary to implement the DAC II. The Mandatory Automatic Exchange of Information in the Field of Taxation Regulations 2015 (together with the CRS Regulations, the “Regulations”), gave effect to DAC II from 1 January 2016.

Under the Regulations reporting financial institutions, are required to collect certain information on accountholders and on certain Controlling Persons in the case of the accountholder(s) being an Entity, as defined for CRS purposes, (e.g. name, address, jurisdiction of residence, TIN, date and place of birth (as appropriate), the account number and the account balance or value at the end of each calendar year) to identify accounts which are reportable to the Irish tax authorities. The Irish tax authorities shall in turn exchange such information with their counterparts in participating jurisdictions. Further information in relation to CRS and DAC II can be found on the Automatic Exchange of Information (AEOI) webpage on www.revenue.ie

Information for UK Shareholders

This information is a general summary of tax laws and practices; Shareholders should not consider it to be legal or tax advice, or as a guarantee of any particular tax result. The information is current as of the date of this Prospectus but may become out of date. The Fund recommends that Shareholders consult an investment advisor and a tax advisor before

investing. Except as noted otherwise, this information applies only to entities that pay taxes in the UK, and may not apply to all of them.

General UK Tax Information

Controlled foreign fund rules

Under the UK Taxation (International and Other Provisions Act) 2010, there can be tax on UK tax resident companies that have a direct or indirect interest in 25% or more of the profits of a company that is based in a low-tax jurisdiction but controlled by UK residents.

Attribution of gains of non-resident companies

Under the UK Taxation of Chargeable Gains Act 1992, any company outside the UK that would be considered a close company if it were inside the UK can trigger tax implications for its owners. Specifically, any UK tax resident investor who owns, either individually or together with closely connected persons, 25% or more of such a company, could be liable, in proportion to their ownership of the company, for taxes on capital gains from a fund investment held by the company.

Investment transactions

It is the intention of the Fund that all assets held by the Sub-Funds will be held for investment purposes and not for the purposes of trading. Furthermore, it is considered that the majority of investments held by the Sub-Funds should meet the definition of an “investment transaction” as defined by The Investment Transaction (Tax) Regulations 2014.

Income

Distributions paid by a Sub-Fund to UK tax residents will be taxed as dividends unless the Sub-Fund’s investment in debt (or similar) securities exceeds more than 60% of its total investments in which case the distribution will be taxed as yearly interest where paid to UK tax resident individuals and as income falling in the loan relationship regime where paid to UK tax resident corporates.

Shareholders subject to corporation tax will generally not have to pay tax on dividends (to the extent that the dividends are not recategorised as loan relationship income as described above) unless certain anti-avoidance provisions apply.

Reporting Funds Regime

In 2009, the UK Government enacted The Offshore Funds (Tax) Regulations 2009 (**the Regulations**) by Statutory Instrument 2009/3001. This provides the framework for the taxation of investments by UK tax resident investors in offshore funds. The Regulations operate at a share class level, and effectively operate by reference to whether a share class of an offshore fund elects to be a Reporting Fund. All share classes which do not elect to be a Reporting Fund are regarded as Non-Reporting Funds.

Under the Regulations, Shareholders in a Reporting Fund are subject to tax on their share of the UK Reporting Fund’s income attributable to their shareholding, whether or not distributed.

Any gains made on the disposal of their holdings are subject to capital gains tax in the case of UK tax resident individuals, and, in the case of UK tax resident companies, corporation tax under either the chargeable gains regime or the loan relationship regime (depending on the underlying investments of the offshore fund as described above).

Shareholders in a Non-Reporting Fund will be assessed to tax only on distributions received in respect of their shareholding. However, on disposal of shares in a Non-Reporting Fund, any gain will, in the case of UK tax resident individuals, be charged to income tax at the shareholder's marginal rate of income tax rather than to capital gains tax and, in the case of UK tax resident companies, any gains will be taxed as income rather than as chargeable gains irrespective of whether or not the investment in the Non-Reporting Fund meets the condition to be treated as a loan relationship.

Shareholders are advised to obtain independent tax advice to ensure that they are aware of the implications of investing in share classes which do or do not have UK Reporting Fund Status. Shareholders should note the information listed below.

Application of the Regulations

Under the Regulations, each share class of each Sub-Fund is considered a separate offshore fund.

GENERAL INFORMATION

Reports and Accounts

The Fund's year end is 31 March in each year and the semi-annual period is 30 September in each year. The annual report and audited accounts of the Fund in English will be made available to Shareholders within four months after the conclusion of each accounting year and at least 21 days before the general meeting of the Fund at which they are to be submitted for approval. The Fund will also make available a semi-annual report and unaudited accounts to Shareholders within two months after 30 September in each year. Audited accounts will be sent to prospective investors on request.

Such reports and accounts will contain a statement of the Net Asset Value of each Sub-Fund and of the investments comprised therein as at the year end or the end of such semi-annual period.

Incorporation and Share Capital

The Fund was incorporated and registered in Ireland under the Companies Act 2014 and the Regulations as an umbrella open-ended investment company with segregated liability between Sub-Funds and with variable capital on 10 May 2002 with registered number 356697.

The authorised share capital of the Fund is 1,000,000,000,000 Shares of no par value initially designated as unclassified shares.

The issued share capital of the Fund as at 30 June 2013 was 9,790,477,268.24 Shares comprising:

- (i) 6,847,547,734.16 Shares representing interests in Aviva Investors Sterling Liquidity Fund;
- (ii) 296,648,042.208 Shares representing interests in Aviva Investors Sterling Liquidity Plus Fund;
- (iii) 53,303,834.042 Shares representing interests in Aviva Investors Sterling Core Liquidity Fund;
- (iv) 1,339,842,576.41 Shares representing interests in Aviva Investors Euro Liquidity Fund; and
- (v) 1,253,135,081.43 Shares representing interests in Aviva Investors Sterling Government Liquidity Fund;

The unclassified shares are available for issue as Shares. The issue price is payable in full on acceptance. There are no rights of pre-emption attaching to the Shares in the Fund.

Memorandum and Articles of Association

Clause 2 of the Memorandum of Association provides that the sole object of the Fund is the collective investment in transferable securities and/or other liquid financial assets of capital raised from the public operating on the principle of risk-spreading in accordance with the Regulations.

The Articles contain provisions to the following effect:

- a) ***Directors' Authority to Allot Shares.*** The Directors are generally and unconditionally authorised to exercise all powers of the Fund to allot relevant securities, including fractions thereof, up to an amount equal to the authorised but as yet unissued share capital of the Fund expired;
- b) ***Variation of rights.*** The rights attached to any class may be varied or abrogated with the consent in writing of the holders of three-fourths in number of the issued Shares of that class, or with the sanction of a special resolution passed at a separate general meeting of the holders of the Shares of the class, and may be so varied or abrogated either whilst the Fund is a going concern or during or in contemplation of a winding-up. The quorum at any such separate general meeting, other than an adjourned meeting, shall be two persons holding or representing at least one third in nominal value of the issued Shares of the class in question and the quorum at an adjourned meeting shall be one person holding Shares of the class in question or his proxy;
- c) ***Voting Rights.*** Subject to disenfranchisement in the event of non-compliance with any notice requiring disclosure of the beneficial ownership of Shares and subject to any rights or restrictions for the time being attached to any class or classes of Shares, on a show of hands, every holder who is present in person or by proxy shall have one vote and the holder(s) of subscriber shares present in person or by proxy shall have one vote in respect of all the subscriber shares in issue and on a poll every holder present in person or by proxy shall have one vote for every Share of which he is the holder and every holder of a subscriber share present in person or by proxy shall have one vote in respect of his holding of subscriber shares. Holders who hold a fraction of a Share may not exercise any voting rights, whether on a show of hands or on a poll, in respect of such fraction of a Share;
- d) ***Alteration of Share Capital.*** The Fund may from time to time by ordinary resolution increase the share capital by such amount and/or number as the resolution may prescribe;

The Fund may also by ordinary resolution:

- i) consolidate and divide all or any of its share capital into Shares of larger amount;
 - ii) subdivide its Shares, or any of them, into Shares of smaller amount or value;
 - iii) cancel any Shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person and reduce the amount of its authorised share capital by the amount of the Shares so cancelled; or
 - iv) redenominate the currency of any class of Shares.
- e) ***Directors' Interests.*** Provided that the nature and extent of his/ her interest shall be disclosed as set out below, no Director or intending Director shall be disqualified by his/ her office from contracting with the Fund nor shall any such contract or any contract or arrangement entered into by or on behalf of any other company in which any Director shall

be in any way interested be avoided nor shall any Director so contracting or being so interested be liable to account to the Fund for any profit realised by any such contract or arrangement by reason of such Director holding that office or of the fiduciary relationship thereby established.

The nature of a Director's interest must be declared by him at the meeting of the Directors at which the question of entering into the contract or arrangement is first taken into consideration, or if the Director was not at the date of that meeting interested in the proposed contract or arrangement at the next meeting of the Directors held after he/ she became so interested, and in a case where the Director becomes interested in a contract or arrangement after it is made, at the first meeting of the Directors held after he/ she becomes so interested.

A Director shall not vote at a meeting of the Directors or of any committee established by the Directors on any resolution concerning a matter in which he/ she has, directly or indirectly, an interest which is material (other than an interest arising by virtue of his/ her interest in Shares or debentures or other securities or otherwise in or through the Fund) or a duty which conflicts or may conflict with the interests of the Fund. A Director shall not be counted in the quorum present at a meeting in relation to any such resolution on which he/ she is not entitled to vote.

- f) ***Borrowing Powers.*** Subject to the Regulations, the Directors may exercise all the powers of the Fund to borrow or raise money and to mortgage or charge its undertaking, property and assets (both present and future) and uncalled capital or any part thereof and to issue other securities, whether outright or as collateral security for any debt, liability or obligation of the Fund provided that all such borrowings shall be within the limits and conditions laid down by the Central Bank;
- g) ***Delegation to Committee.*** The Directors may delegate any of their powers to any committee whether or not consisting of Directors. Any such delegation may be made subject to any conditions the Directors may impose, and either collaterally with or to the exclusion of their own powers and may be revoked. Subject to any such conditions, the proceedings of a committee with two or more members shall be governed by the provisions of the Articles of Association regulating the proceedings of Directors so far as they are capable of applying;
- h) ***Retirement of Directors.*** The Directors shall not be required to retire by rotation or by virtue of their attaining a certain age;
- i) ***Directors' Remuneration.*** Unless and until otherwise determined from time to time by the Fund in general meeting, the ordinary remuneration of each Director shall be determined from time to time by resolution of the Directors.
- j) ***Transfer of Shares.*** Subject to the restrictions set out below, the Shares of any holder may be transferred by instrument in writing in any usual or common form or any other form, which the Directors may approve.

The Directors in their absolute discretion and without assigning any reason therefor may decline to register any transfer of a Share to (i) a U.S. Person; or (ii) any person who, by holding Shares, would be in breach of any law or requirement of any country or

governmental authority or by virtue of which such person is not qualified to hold such Shares or if the holding of the Shares by any person is unlawful or if the person or entity is resident in a country in which the sale of the shares of the Fund to the public is not authorized; or (iii) might result in a Sub-Fund incurring any liability to taxation or suffering pecuniary legal or material administrative disadvantages or being in breach of any law or regulation which the relevant Sub-Fund might not otherwise have incurred, suffered (including without limitation, where a Shareholder fails to provide the Fund with information required to satisfy the obligations under any tax requirements or regulations or any automatic exchange of information obligations or other similar requirements of the Fund, the Depositary, the Administrator, the Investment Manager or any delegate thereof, or where the Directors suspect market timing) or might result in the relevant Sub-Fund, the Fund, Investment Manager or Investment Manager's group of companies being required to comply with registration or filing requirements in any jurisdiction with which it would not otherwise be required to comply or is otherwise prohibited by the Articles; or (iv) any transfer to or by a minor or a person of unsound mind; or (v) any transfer unless the transferee of such Shares would following such transfer be the holder of Shares with a value at the then current subscription price equal to or greater than the Minimum Initial Subscription; or (vi) any transfer in circumstances where as a result of such transfer the transferor or transferee would hold less than the Minimum Holding and any transfer in regard to which any payment of taxation remains outstanding.

The Directors may decline to recognise any instrument of transfer unless it is accompanied by the certificate for the Shares to which it relates (if issued), is in respect of one class of Shares only, is in favour of not more than four transferees and is lodged at the registered office or at such other place as the Directors may appoint;

- k) ***Right of Redemption.*** Shareholders have the right to request the Fund to repurchase their Shares in accordance with the provisions of the Articles of Association;
- l) ***Dividends.*** The Articles of Association permit the Directors to declare such dividends on any class of Shares as appear to the Directors to be justified by the profits of the relevant Sub-Fund. The Directors may satisfy any dividend due to holders of Shares in whole or in part by distributing to them in specie any of the assets of the relevant Sub-Fund and, in particular, any investments to which the relevant Sub-Fund is entitled. A holder may require the Directors instead of transferring any assets in specie to him, to arrange for a sale of the assets and for payment to the holder of the net proceeds of same. Any dividend unclaimed for six years from the date of declaration of such dividend shall be forfeited and shall revert to the relevant Sub-Fund;
- m) ***Funds.*** The Directors are required to establish a separate portfolio of assets for each Sub-Fund created by the Fund from time to time, to which the following shall apply:-
 - i) for each Sub-Fund the Fund shall keep separate books and records in which all transactions relating to the relevant Sub-Fund shall be recorded and, in particular, the proceeds from the allotment and issue of Shares of each class in the Sub-Fund, the investments and the liabilities and income and expenditure attributable thereto shall be applied or charged to such Sub-Fund subject to the provisions of the Articles;
 - ii) any asset derived from any other asset(s) (whether cash or otherwise) comprised in any Sub-Fund, shall be applied in the books and records of the Fund to the same Sub-Fund

as the asset from which it was derived and any increase or diminution in the value of such an asset shall be applied to the relevant Sub-Fund;

- iii) in the event that there are any assets of the Fund which the Directors do not consider are attributable to a particular Sub-Fund or Sub-Funds, the Directors shall, with the approval of the Depositary, allocate such assets to and among any one or more of the Sub-Funds in such manner and on such basis as they, in their discretion, deem fair and equitable; and the Directors shall have the power to and may at any time and from time to time, with the approval of the Depositary, vary the basis in relation to assets previously allocated;
- iv) each Sub-Fund shall be charged with the liabilities, expenses, costs, charges or reserves of the Fund in respect of or attributable to that Sub-Fund and any such liabilities, expenses, costs, charges, or reserves of the Fund not attributable to any particular Sub-Fund or Sub-Funds shall be allocated and charged by the Directors, with the approval of the Depositary, in such manner and on such basis as the Directors, in their sole and absolute discretion deem fair and equitable, and the Directors shall have the power to and may at any time and from time to time, with the approval of the Depositary, vary such basis including, where circumstances so permit, the re-allocation of such liabilities, expenses, costs, charges and reserves;
- v) in the event that any Asset attributable to a Sub-Fund is taken in execution of a liability not attributable to that Sub-Fund, the provisions of section 1407 of the Companies Act 2014 shall apply;
- n) **Fund Exchanges.** Subject to the provisions of the Articles of Association, a Shareholder holding Shares in any class in a Sub-Fund on any Dealing Day shall have the right from time to time to exchange all or any of such Shares for Shares of another class (such class being either an existing class or a class agreed by the Directors to be brought into existence with effect from that Dealing Day);
- o) **Winding up.** The Articles contain provisions to the following effect:
 - i) If the Fund shall be wound up the liquidator shall, subject to the provisions of the Companies Act 2014, apply the assets of each Sub-Fund in such manner and order as he thinks fit in satisfaction of creditors' claims relating to that Sub-Fund;
 - ii) Following the deduction of the estimate expenses relating to the winding up and liquidation, the assets available for distribution amongst the holders shall be applied as follows: first the proportion of the assets in a Sub-Fund attributable to each class of Share shall be distributed to the holders of Shares in the relevant class in the proportion that the number of Shares held by each holder bears to the total number of Shares relating to each such class of Shares in issue as at the date of commencement to wind up; secondly, in payment to the holder(s) of the subscriber shares of sums up to the nominal amount paid thereon out of the assets of the Fund not attributable to any class of Share. In the event that there are insufficient assets to enable such payment in full to be made, no recourse shall be had to the assets of the Fund attributable to each class of Share; and thirdly, any balance then remaining and not attributable to any of the classes of Shares shall be apportioned pro-rata as between the classes of Shares based on the Net Asset Value attributable to each class of Shares as at the date of

commencement to wind up and the amount so apportioned to a class shall be distributed to holders pro-rata to the number of Shares in that class of Shares held by them;

- iii) A Sub-Fund may be wound up pursuant to Section 1407 of the Companies Act and in such event the provisions in this paragraph (o) shall apply mutatis mutandis in respect of the Sub-Fund;
 - iv) If the Fund shall be wound up (whether the liquidation is voluntary, under supervision or by the court) the liquidator may, with the authority of a special resolution of the relevant holders and any other sanction required by the Companies Act 2014, divide among the holders of Shares of any class or classes within a Sub-Fund in specie the whole or any part of the assets of the Fund relating to that Sub-Fund, and whether or not the assets shall consist of property of a single kind, and may for such purposes set such value as he deems fair upon any one or more class or classes of property, and may determine how such division shall be carried out as between all the holders of Shares of the Sub-Fund or the holders of different classes of Shares in a Sub-Fund. The liquidator may, with the like authority, vest any part of the assets in trustees upon such trusts for the benefit of holders as the liquidator, with the like authority, shall think fit, and the liquidation of the Fund may be closed and the Fund dissolved, but so that no holder shall be compelled to accept any assets in respect of which there is a liability. A holder may require the liquidator instead of transferring any asset in specie to him/her to arrange for a sale of the assets with the costs of the sale charged to that Shareholder and for payment to the holder of the net proceeds of same.
- p) **Share Qualification.** The Articles do not contain a share qualification for Directors.
- q) **Termination of Sub-Funds.** Any Sub-Fund may be terminated by the Directors in their sole and absolute discretion by notice in writing to the Depositary in any of the following events:-
- i) if at any time the Net Asset Value of the relevant Sub-Fund shall be less than the Minimum Fund Size; or
 - ii) if any Sub-Fund shall cease to be authorised or otherwise officially approved; or
 - iii) if any law shall be passed which renders it illegal or in the opinion of the Directors impracticable or inadvisable to continue the relevant Sub-Fund; or
 - iv) if there is a change in material aspects of the business or in the economic or political situation relation to a Fund which the Directors consider would have material adverse consequences on the Shareholders and/or the investments of the Fund; or
 - v) if the Directors consider that it is in the best interests of the Shareholders of the Fund; or
 - vi) if there is any material change in the tax status of the Fund or any Sub-Fund or if there is a change in material aspects of the business or in the economic or political situation relating to a Fund which the Directors consider would have material adverse consequences on the Shareholders and/or the investments of the Fund.

The Directors shall give notice of termination of a Sub-Fund to the Shareholders of the relevant Sub-Fund and by such notice fix the date at which such termination is to take effect, which date shall be for such period after the service of such notice as the Directors shall in their sole and absolute discretion determine.

Data Protection Notice

In the course of business, the Fund will collect, record, store, adapt, transfer and otherwise process information by which prospective investors or investors may be directly or indirectly identified. The Fund is a data controller within the meaning of Data Protection Legislation and will hold any personal data provided by investors in accordance with Data Protection Legislation.

The Fund and/or any of its delegates or service providers may process prospective investor's personal data for any one or more of the following purposes and legal bases:

- to operate the Sub-Funds, including managing and administering a Shareholder's investment in the relevant Fund on an on-going basis which enables the Fund to satisfy its contractual duties and obligations to the Shareholder);
- to comply with any applicable legal, tax or regulatory obligations on the Fund, for example, under the Companies Acts 2014 and anti-money laundering and counter-terrorism legislation;
- for any other legitimate business interests' of the Fund or a third party to whom personal data is disclosed, where such interests are not overridden by the interests of the investor, including for statistical analysis and market research purposes; or
- for any other specific purposes where investors have given their specific consent and where processing of personal data is based on consent, the investors will have the right to withdraw it at any time.

The Fund and/or any of its delegates or service providers may disclose or transfer personal data, whether in Ireland or elsewhere (including entities situated in countries outside of the EEA), to other delegates, duly appointed agents and service providers of the Fund (and any of their respective related, associated or affiliated companies or sub-delegates) and to third parties including advisers, regulatory bodies, taxation authorities, auditors, technology providers for the purposes specified above.

The Fund will not keep personal data for longer than is necessary for the purpose(s) for which it was collected. In determining appropriate retention periods, the Fund shall have regard to the Statute of Limitations Act 1957, as amended, and any statutory obligations to retain information, including anti-money laundering, counter-terrorism, tax legislation. The Fund will take all reasonable steps to destroy or erase the data from its systems when they are no longer required.

Where specific processing is based on an investor's consent, that investor has the right to withdraw it at any time. Investors have the right to request access to their personal data kept by the Fund and the right to rectification or erasure of their data; to restrict or object to processing of their data, and to data portability, subject to any restrictions imposed by Data

Protection Legislation and any statutory obligation to retain information.

The Fund and/or any of its delegates and service providers will not transfer personal data to a country outside of the EEA unless that country ensures an adequate level of data protection or appropriate safeguards are in place. The European Commission has prepared a list of countries that are deemed to provide an adequate level of data protection which, to date, includes Switzerland, Guernsey, Argentina, the Isle of Man, Faroe Islands, Jersey, Andorra, Israel, New Zealand and Uruguay. Further countries may be added to this list by the European Commission at any time. The US is also deemed to provide an adequate level of protection where the US recipient of the data is privacy shield-certified. If a third country does not provide an adequate level of data protection, then the Fund and/or any of its delegates and service providers will ensure it puts in place appropriate safeguards such as the model clauses (which are standardised contractual clauses, approved by the European Commission) or binding corporate rules, or relies on one of the derogations provided for in Data Protection Legislation.

Where processing is carried out on behalf of the Fund, the Fund shall engage a data processor, within the meaning of Data Protection Legislation, which implements appropriate technical and organisational security measures in a manner that such processing meets the requirements of Data Protection Legislation, and ensures the protection of the rights of investors. The Fund will enter into a written contract with the data processor which will set out the data processor's specific mandatory obligations laid down in Data Protection Legislation, including to process personal data only in accordance with the documented instructions from the Fund.

As part of the Fund's business and ongoing monitoring, the Fund may from time to time carry out automated decision-making in relation to investors, including, for example, profiling of investors in the context of anti-money laundering/ financial crime reviews, and this may result in an investor being identified to the revenue authorities, law enforcement authorities and to other entities where required by law, and the Fund terminating its relationship with the investor.

Investors are required to provide their personal data for statutory and contractual purposes. Failure to provide the required personal data will result in the Fund being unable to permit, process, or release the investor's investment in the Sub-Funds and this may result in the Fund terminating its relationship with the investor. Investors have a right to lodge a complaint with the Data Protection Commission if they are unhappy with how the Fund is handling their data.

Any questions about the operation of the Fund's data protection policy should be referred in the first instance to the Manager at, Aviva Investors Luxembourg, 2 rue du Fort Bourbon, 1st Floor PO Box 1375 L-1013 Luxembourg.

Litigation and Arbitration

Since incorporation the Fund has not been involved in any litigation or arbitration nor are the Directors aware of any pending or threatened litigation or arbitration.

Directors' Interests

- a) There are no service contracts in existence between the Fund and any of its Directors, nor are any such contracts proposed;

- b) At the date of this Prospectus, no Director has any interest, direct or indirect, in any assets which have been or are proposed to be acquired or disposed of by, or issued to, the Fund and save as provided in (d) below no Director is materially interested in any contract or arrangement subsisting at the date hereof which is unusual in its nature and conditions or significant in relation to the business of the Fund;
- c) At the date of this Prospectus neither the Directors nor any Person Closely Associated have any beneficial interest in the share capital of the Fund or any options in respect of such capital;
- d) Anthony Callcott is a Director of the Fund and is an officer of the Investment Manager.

Material Contracts

The following contracts have been entered into otherwise than in the ordinary course of the business intended to be carried on by the Fund and are or may be material:

- a) **The Depositary Agreement** dated 1 November 2019 (effective at 00.01 on 4 November 2019) between the Fund and the Depositary. This Agreement provides that the appointment of the Depositary will continue unless and until terminated by either party giving to the other not less than 90 days' written notice although in certain circumstances this Agreement may be terminated immediately by either party provided that the appointment of the Depositary shall continue in force until a replacement Depositary approved by the Central Bank has been appointed and provided further that if within a period of 90 days from the date on which the Depositary notifies the Fund of its desire to retire or from the date on which the Fund notifies the Depositary of its intention to remove the Depositary, no replacement Depositary shall have been appointed, the Fund shall, arrange for an EGM of the Shareholders to be convened at which an ordinary resolution to wind up the Fund shall be considered in order to wind up or otherwise dissolve the Fund and the appointment of the Depositary may be terminated only upon the revocation of the authorisation of the Fund. Pursuant to this Agreement the Depositary shall be liable to the Fund and the Shareholders for any loss suffered by them as a result of its negligent or intentional failure to properly fulfil its obligations under the Regulations. The Depositary shall, in the case of a loss of financial instruments held in custody, return securities of identical type or the corresponding amount to the relevant Fund without undue delay. Subject to and without prejudice to the general liability of the Depositary pursuant to the Depositary Agreement, the Fund shall indemnify and keep indemnified and hold harmless the Depositary and each of its directors, officers, servants, employees and agents from and against any and all actions, proceedings, claims, demands, losses, damages, costs and expenses (including legal and professional fees and expenses arising therefrom or incidental thereto and including any loss suffered or incurred by the Depositary arising out of the failure of a settlement system to effect a settlement) other than actions, proceedings, losses, damages, costs and expenses of any nature suffered or incurred as a result of the negligent or intentional failure of the Depositary to perform its obligations pursuant to the UCITS Directive (or a loss of financial instruments held in custody) which may be made or brought against or directly or indirectly suffered or incurred by the Depositary or any of its directors, officers, servants, employees arising out of or in connection with the performance or non-performance of the Depositary's duties under the Depositary Agreement. Subject to and without prejudice to the general liability of the Depositary pursuant to the Depositary

Agreement, the Depositary shall not be liable to the Fund or the Shareholders or any other person for consequential, indirect or special damages or losses arising out of or in connection with the performance or non-performance by the Depositary of its duties and obligations under this Agreement.

- b) **The Administration Agreement** dated 1 November 2019 (effective at 00.01 on 4 November 2019) between the Manager, the Fund and the Administrator; this Agreement provides that the appointment of the Administrator shall be in effect for an initial term of three (3) years. Following the Initial Term the Agreement will continue unless and until terminated by either party giving to the other not less than 90 days' written notice although in certain circumstances the Agreement may be terminated forthwith by notice in writing by either party to the other; this Agreement contains certain indemnities in favour of the Administrator which are restricted to exclude matters arising by reason of fraud, negligence, material breach of contract or wilful misconduct by the Administrator or any of its directors, officers or employees in the performance of its obligations or duties and certain provisions regarding its legal responsibilities and limitations thereon.
- c) **The Management Agreement** dated 7 June 2018 (effective at 00.01 on 8 June 2018) between the Fund and the Manager; this agreement provides for the appointment of the Manager as the Fund's management company within the meaning of the UCITS Regulations. The Fund has delegated to the Manager the day to day management of the Fund's affairs and more generally entrusted the Manager with the widest and maximum representation powers which are necessary or will be useful for the Manager to perform any of its duties pursuant to the Management Agreement. The Fund has agreed to indemnify the Manager in respect of costs, expenses, losses, damages, liabilities, demands, charges and claims of any kind or nature whatsoever that may be incurred by the Manager or made against it as a consequence of certain breaches by the Fund, arising out of any action, properly taken or omitted by the Manager in accordance with the Management Agreement and/or in accordance with instructions from the Fund or as a result of non-payment by the Fund of any amounts falling due, save to the extent that the matter in question arose due to the negligence, fraud, recklessness or wilful misconduct of the Manager or any of its delegates, agents, officers or employees. Either party to the Management Agreement may terminate it on the giving of at least six months prior written notice and earlier termination may occur in the event of a material breach, insolvency related reasons or where required by any applicable law, regulation or regulatory authority.
- d) **The Investment Management Agreement** dated 2 January 2019 between the Manager, the Fund and the Investment Manager; this Agreement provides that the appointment of the Investment Manager will continue in force unless and until terminated by the Manager or the Investment Manager given to the other not less than 90 days' written notice although in certain circumstances the Agreement may be terminated forthwith by notice in writing by one party to the others; the Agreement contains certain indemnities in favour of the Investment Manager which are restricted to exclude matters arising by reasons of the fraud, negligence or wilful default of the Investment Manager in the performance or non-performance of its duties.
- e) **The Distribution Agreement** dated 5 June 2002 as supplemented by a Supplemental Distribution Agreement dated 7 June 2018 (effective at 00.01 on 8 June 2018) between the Manager, the Fund and the Distributor; this Agreement provides that the

appointment of the Distributor will continue in full force and effect unless and until terminated by the Fund or the Distributor given to the other not less than 90 days' written notice although in certain circumstances the Agreement may be terminated forthwith by notice in writing by either party to the other; the Agreement contains certain indemnities in favour of the Distributor which are restricted to exclude matters arising by reasons of the fraud, bad faith, negligence or wilful default of the Distributor on the performance of its duties.

Please refer to the relevant section of Part 1 for each Sub-Fund for details of relevant material contracts (if any) in respect of a Sub-Fund.

Miscellaneous

AVIVA INVESTORS' RESPONSIBLE INVESTMENT PHILOSOPHY

The Investment Manager's responsible investment philosophy is to invest in the transition to a more sustainable future and, in particular, to promote the relative merits of engagement over divestment. The Investment Manager will therefore seek to identify and invest in companies that are either focused on delivering sustainability solutions, exhibit the highest standards of corporate behaviour (when measured against national and international norms, see below) or are transitioning and evolving to become more sustainable and responsible.

The Investment Manager believes that for the Sub-Funds that it manages adopting a purely exclusions-based approach or simply investing in today's sustainability leaders would limit the Investment Manager's ability to shape a sustainable future and not help to enable the transition to a low carbon economy. Real change requires a radical overhaul of the world's economy and industries and investors must be willing to support and be fully engaged in the transition from "brown" to "green." Creating a "better tomorrow" means we must play our part as investors in helping "today's world" become better. The Investment Manager also notes that the rise of ESG investing with a narrow focus on "green" companies has in many cases triggered inflated valuations which may ultimately undermine sustainability objectives and generate suboptimal outcomes for clients.

The Investment Manager aims to identify both sustainability leaders and corporate and sovereign entities that have the potential and commitment to improve. It does this utilising a suite of ESG data tools alongside qualitative research generated by the Investment Manager's large, dedicated team of in-house ESG specialists. The Investment Manager will help catalyse and drive the required transition by using a variety of levers, including voting, engagement and what it calls "macro stewardship," which is engaging with regulators, governments and other entities to "change the rules of the game," in favour of those businesses that are providing solutions to sustainability problems or supporting the transition to a sustainable future.

How the Investment Manager considers adverse sustainability impacts.

The Investment Manager recognises that certain investment decisions may cause or contribute to negative effects on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery ("adverse sustainability impacts"). In the context of the Sustainable Finance Disclosure Regulation (SFDR), the most significant adverse sustainability impacts on sustainability factors that are material or likely to be material are referred to as principal adverse impacts ("PAI").

The SFDR implementing regulation (Regulatory Technical Standards) provides for 14 mandatory PAI indicators for corporate issuers and a smaller selection of mandatory indicators for government debt and real estate assets. These mandatory indicators range from carbon emissions, fossil fuel exposures and waste levels to gender diversity, due diligence on human rights and exposure to controversial weapons. In addition, SFDR also proposes a large number of voluntary environmental and social indicators from which asset managers subject to SFDR must select two as a minimum. The voluntary indicators selected by the Investment Manager can be found in the Investment Manager's PAI Statement available on its website noted below.

The Investment Manager integrates qualitative and quantitative data on PAIs into its investment processes. While the PAIs of investment decisions are currently not considered at entity level, i.e., by neither the Management Company nor the Investment Manager in accordance with the requirements of article 4(1)(a) SFDR, the Investment Manager has decided to integrate the consideration of PAIs into its responsible investment philosophy for Sub-Funds managed by the Investment Manager, which are subject to Article 8 SFDR (“Article 8 Sub-Funds”). The investment teams have access to data and analytical tools relating to the PAI indicators and consider all mandatory and selected voluntary indicators as part of the investment process for Article 8 Sub-Funds.

The Investment Manager’s PAI Statement is available on its website here: <https://www.avivainvestors.com/en-gb/capabilities/sustainable-finance-disclosure-regulation/>.

The Investment Manager’s ESG approach

ESG considerations are made throughout the investment process but the following key ESG factors apply as part of the ESG process applicable to the Article 8 Sub-funds managed by the Investment Manager.

- 1) The ESG Baseline Exclusions Policy
- 2) Climate Engagement Escalation Programme (CEEP)
- 3) Corporate Good Governance Qualitative Assessment
- 4) Approved Issuer Process
- 5) Continual review of fund and issuer ESG performance
- 6) Engagement with held issuers to promote positive sustainable outcomes and to support the investment decision making process.

The above ESG factors, as well as other ESG considerations, will impact the Article 8 Sub-Funds to a varying degree depending on each Sub-Fund’s particular investment objective and/or investment policy, and may not be applicable to certain Sub-Funds which are not Article 8 as noted herein.

1. The ESG Baseline Exclusions Policy (BEP)

There are specific sectors and economic activities where the Investment Manager considers the harm caused to the climate, planet and people to be so severe, that providing equity and debt funding is fundamentally misaligned with its Responsible Investment Philosophy and corporate values. In these cases the Investment Manager forgoes the opportunity to engage, and actively excludes companies and industries from the Sub-Funds’ investment universe.

The products, services and behaviours that the Investment Manager considers to be fundamentally misaligned to its core values predominantly focuses on issuers that meet the following criteria:

- Manufacture products that cause undue human suffering or fatalities when used as intended and are subject to widely accepted conventions and norms that have been developed to control their use;

- Manufacture products that cause unmitigated environmental harm and are inconsistent with the widely accepted conventions and norms; or
- Demonstrate poor corporate behaviour that is deemed to be in violation of widely accepted conventions and norms.

*NPT: UN Treaty on Non-Proliferation of Nuclear Weapons (1970)

** The UN Global Compact (UNGC) is a corporate sustainability initiative that calls on businesses to align with universal principles on corruption, human rights, labour and environmental issues and to take strategic action to advance broader societal goals, such as the UN Sustainable Development Goals. It is a collaboration between a growing number (currently c.13,000) of companies. Aviva Investors typically excludes such companies where, after conducting our research and/or engagement, our analysis suggests that the company has not committed to and/or taken appropriate remedial action to resolve the issue. That consideration will be partially informed by MSCI data.

The BEP screens are reviewed regularly for relevance and effectiveness. If Aviva Investors introduces new screens, or makes revisions to the criteria of existing screens, for example, changes to the applicable revenue thresholds, the description of these and any impacts will be available in the Investment Manager's BEP Policy and on their website. Changes will only be made at the Investment Managers discretion when they are consistent with fund investment objectives. From 1 January 2023, full descriptions of each Sub-Fund's applicable ESG characteristics, including the exclusions that apply will be available on the website and in the Prospectus will be updated accordingly. Any material changes to the exclusions policy will be pre-notified to investors and fully reflected in an updated Prospectus.

Further details on Baseline ESG Exclusions is available in the Investment Manager's Baseline Exclusions Policy at <https://www.avivainvestors.com/en-ie/about/responsible-investment/policies-and-documents/>, which will be updated to reflect the above exclusions.

2. Climate Engagement Escalation Program

The Investment Manager considers climate change to be the greatest systemic challenge facing society, the global economy and individual companies. Failure to act will have catastrophic and pervasive consequences, including for capital markets and asset valuations. Consequently, climate considerations, with respect to physical and transition risk, are embedded within our

fundamental investment processes, macroeconomic outlook, asset allocation, portfolio construction and active ownership approach.

The Investment Manager recognises that for its engagement approach to have impact, it must be accompanied by a robust escalation process. There are a number of escalation tools available to the Sub-Funds managed by the Investment Manager as investors including the ultimate sanction of divestment. The Climate Engagement Escalation Program includes companies from the oil and gas, metals and mining and utilities sectors that substantially contribute to total global carbon emissions. Its stipulations include:

1. Adoption of a 2050 net zero goal (1.5-degree alignment)
2. Commitment to the Science Based Targets Initiative framework
3. Integration of climate goals into business strategy including capital expenditure framework
4. Setting of short- and medium-term climate targets and milestones
5. Alignment of management incentives to climate goals
6. Reporting on progress using the TCFD framework
7. Prohibition of direct and indirect lobbying deemed contrary to the company's public climate commitments

The responsiveness of the companies in scope will be determined by a qualitative assessment of progress against the Investment Manager's climate engagement framework and quantitative improvements against its proprietary climate transition risk model.

Progress will be monitored on a six-monthly basis, at which point the Investment Manager will determine the need for escalation. This may include votes against directors, the filing of shareholder proposals, and working with aligned stakeholder groups to apply further pressure. Companies that fail to make sufficient progress at the conclusion of the program will trigger full divestment.

3. Corporate Good Governance Qualitative Assessment

The Investment Manager's aim is for all Article 8 Sub-Funds which it manages to invest in companies that are part of the ESG assessment that follow good governance practices, such as having sound management structures in place, maintaining good employee relations, remunerating staff fairly, and complying with tax regulations. The Investment Manager will avoid investments in companies that fail to protect the basic rights of investors and employees, that are involved in tax evasion, corruption or other governance scandals (and fail to take adequate remedial action).

Specifically, in addition to alignment with the standards set out in its voting policy (<https://www.avivainvestors.com/content/dam/avivainvestors/main/assets/about/responsibleinvestment/our-approach-to-responsible-investment/downloads/2021-voting-policy.pdf>), the Investment Manager will only invest in companies that maintain governance practices in line with national standards. The Investment Manager also expects companies to act in accordance with the UN Guiding Principles and the OECD Guidelines for Multinational Enterprises.

A qualitative ESG assessment forms part of the Investment Manager's research process, based on its knowledge of the company, together with a combination of MSCI governance and controversies data points.

For asset-backed securities holdings, good governance is applied via compliance with the Securitisation Regulation and appropriate due diligence on the securities contractual arrangements and structure. Asset-backed securities are not corporate investments in the specific sense of this SFDR good governance concept and so follow a different process to the wider investment processes described for the other investments of the Sub-Fund.

4. Approved Issuer Process

An ESG assessment is included alongside the Internal Credit Quality Assessment Procedures in the Approved Issuer Process from which the investment portfolio is constructed and actively managed.

Before an investment can be included on the approved issuer list there must be a consensus view in terms of the appropriateness of that investment. ESG analysis is conducted to inform of the ESG quality of an issuer, where data is available. The issuer may not pass the approval process and be eligible for investment if material ESG risks are identified. These risks could include sufficiently poor governance relative to peers or involvement in egregious ESG controversies lacking sufficient remediation.

Asset-backed securities are approved at issuance by the credit analyst and portfolio managers and are subject to compliance with the Securitisation Regulation. An ESG assessment will be captured as part of this process as disclosures improve and the industry advances in an approach to ESG assessment for asset-backed securities.

5. Continual review of fund and issuer ESG performance

The Sub-Funds and issuer ESG performance is regularly monitored reviewed by portfolio managers alongside credit analysts and ESG analysts. This process recognises that ESG assessments can change over time after an issuer has been approved. This process aims to assess past performance, identify ESG risks on a forward-looking basis and to take remedial actions such as engagement or applying temporary investment restrictions if ESG characteristics fall short of standards expected. This assessment is supported by quantitative ESG data provided by third parties as well as qualitative opinion formed by portfolio managers, credit analysts and ESG analysts. The reviews also provide opportunity to promote consideration of specific ESG characteristics of issuers, including but not limited to, climate strategies, responsible lending practices, biodiversity impacts, and remediation of ESG controversies. The application and materiality of these characteristics will vary depending on the business activities of the underlying issuers.

6. Issuer Engagement

As part of the Investment Manager's ongoing stewardship responsibilities, they seek to engage with issuers where they have identified opportunities to promote better sustainability and governance related outcomes. Engagement may arise in response to controversies or where the Investment Manager has identified ESG characteristics of the issuer fall below standards that they expect. Engagement also provides portfolio managers, credit analyst and ESG analysts to

better understand the ESG profile of an issuer on a forward looking basis.

Summary

The Investment Manager believes its combined approach as detailed above will maximise the real-world impacts of the Sub-Fund's investments while generating positive financial returns for shareholders. Financing and driving change is the very essence of responsible investment and underpins the Investment Manager's ESG philosophy and approach.

More information on the Investment Manager's Responsible Investment Philosophy can be found on <https://www.avivainvestors.com/en-gb/about/responsible-investment/policies-and-documents/>.

Sustainability Disclosures Under Regulation (EU) 2019/2088

The Management Company and the Fund are subject to the SFDR.

As a result of the requirements of SFDR, the Management Company is obliged to make certain disclosures in respect of its approach to the integration of sustainability risks as well as Sub-Fund specific disclosures on the likely impacts of sustainability risks on the returns of each Sub-Fund.

Integration of Sustainability Risks

The Management Company is required, under Article 6 of SFDR, to describe the manner in which sustainability risks are integrated into its decision-making process. As the Management Company delegates investment management of the Sub-Funds to the Investment Manager, its policy on the integration of sustainability risks relies on the application of the Investment Managers' own Sustainability Risk Policy in respect of each Sub-Fund.

The Investment Manager recognises its duty as a trusted agent of the Shareholders' assets to endeavour to protect, maintain and grow the long-term value of their investments. Consistent with those obligations, the Investment Manager maintains a deep conviction that environmental, social and governance (ESG) factors and sustainability risks can have a material impact on investment returns.

As a founder signatory to the United Nations Principles for Responsible Investment ("UN PRI"), the Investment Manager has, for many years, used an integrated approach to the assessment of ESG factors and sustainability risks. This approach continues to evolve as markets have developed, resulting in access to more accurate information to help identify, measure and manage these factors and risks.

As further detailed in the Investment Manager's Sustainability Risk Policy, the approach to responsible investing and the integration of sustainability risks are taken into account in a number of ways, and this approach is tailored to each asset class and strategy.

ESG factors and sustainability risk indicators are integrated into each stage of the investment process and are considered alongside a range of financial and non-financial research. This is carried out in a number of ways, including:

- Risk integration and identification: ESG and sustainability related characteristics, risks or impacts are identified and weighed against all other inputs when considering an investment decision, with no specific limits imposed, therefore the Investment Manager retains discretion over which investments are selected.
- Stewardship: The Investment Manager actively engages with companies and uses voting rights, as applicable, with the aim of positively influencing company behaviour and helping to generate competitive returns.
- Exclusions: The Investment Manager applies baseline ESG exclusions to investment in controversial weapons and civilian firearms. For further information on these exclusions and thresholds please see the Baseline ESG Exclusions Policy on the website: <http://www.avivainvestors.com/en-lu/about/responsibleinvestment/>.
- Please note, where additional specific exclusions may apply this will be disclosed in the relevant Sub-Fund descriptions.

Taxonomy Regulation Disclosures

The Article 8 Sub-Funds promote environmental and social characteristics, but do not have a specific objective to invest in “sustainable investments” as defined by SFDR. At the date of this prospectus, there are no Sub-Funds that intend to make taxonomy-aligned investments that directly contribute to the environmental objectives as set out by the Taxonomy Regulation. Therefore, the Investment Manager considers that at least 0% of the Fund’s investments are aligned with the EU taxonomy.

Unless stated otherwise in the relevant investment objectives and policy of a Sub-Fund, the investments underlying the Sub-Funds do not take into account the EU criteria for environmentally sustainable economic activities.

APPENDIX IV

PERMITTED INVESTMENTS AND INVESTMENT RESTRICTIONS FOR SUB-FUNDS THAT ARE MONEY MARKET FUNDS

1. Eligible Assets

A Money Market Fund shall only invest in one or more of the following categories of financial assets and only under the conditions specified in the Money Market Fund Regulation.

- I. Money Market Instruments
- II. Eligible securitisations and asset-backed commercial paper (“ABCPs”)
- III. Deposits with credit institutions
- IV. Financial Derivative Instruments
- V. Repurchase Agreements that fulfil the conditions set out in Article 14 of the Money Market Fund Regulation
- VI. Reverse repurchase agreements that fulfil the conditions set out in Article 15 of the Money Market Fund Regulation
- VII. Units or shares of other Money Market Funds

2. Investment Restrictions

- I. A Money Market Fund shall invest no more than:
 - a) 5% of its assets in money market instruments, securitisations and ABCPs issued by the same body;
 - b) 10% of its assets in deposits made with the same credit institution, unless the structure of the banking sector in the Member State in which the Money Market Fund is domiciled is such that there are insufficient viable credit institutions to meet that diversification requirement and it is not economically feasible for the Money Market Fund to make deposits in another Member State, in which case up to 15% of its assets may be deposited with the same credit institution.
- II. By way of derogation from point (a) of paragraph 2(I) above, a VNAV Money Market Fund may invest up to 10% of its assets in money market instruments, securitisations and ABCPs issued by the same body provided that the total value of such money market instruments, securitisations and ABCPs held by

the VNAV Money Market Fund in each issuing body in which it invests more than 5% of its assets does not exceed 40 % of the value of its assets.

- III. The aggregate of all of a Money Market Fund's exposures to securitisations and ABCPs shall not exceed 15% of the assets of the Money Market Funds.

As from the date of application of the delegated act referred to in Article 11(4), the aggregate of all of an Money Market Fund's exposures to securitisations and ABCPs shall not exceed 20% of the assets of the Money Market Fund, whereby up to 15 % of the assets of the Money Market Fund may be invested in securitisations and ABCPs that do not comply with the criteria for the identification of STS securitisations and ABCPs.

- IV. The aggregate risk exposure of a Money Market Fund to the same counterparty to OTC derivative transactions which fulfil the conditions set out in Article 13 of the Money Market Fund Regulation shall not exceed 5% of the assets of the Money Market Fund.
- V. The cash received by the Money Market Fund as part of the repurchase agreement does not exceed 10% of its assets.
- VI. The aggregate amount of cash provided to the same counterparty of a Money Market Fund in reverse repurchase agreements shall not exceed 15% of the assets of the Money Market Fund.
- VII. Notwithstanding paragraphs 2(I) and 2(IV) above, an Money Market Fund shall not combine, where to do so would result in an investment of more than 15% of its assets in a single body, any of the following:
- a) investments in money market instruments, securitisations and ABCPs issued by that body;
 - b) deposits made with that body;
 - c) OTC financial derivative instruments giving counterparty risk exposure to that body.
- VIII. By way of derogation from the diversification requirement provided for in paragraph 2 (VII), where the structure of the financial market in the Member State in which the Money Market Fund is domiciled is such that there are insufficient viable financial institutions to meet that diversification requirement and it is not economically feasible for the Money Market Fund to use financial institutions in another Member State, the Money Market Fund may combine the types of investments referred to in points (a) to (c) up to a maximum investment of 20% of its assets in a single body.
- IX. An Money Market Fund may invest up to 100% of its assets in different money market instruments issued or guaranteed separately or jointly by the Union, the national, regional and local administrations of the Member States or their central banks, the European Central Bank, the European Investment Bank, the European Investment Fund, the European Stability Mechanism, the European Financial Stability Facility, a central authority or central bank of a third country, the International Monetary Fund, the International Bank for

Reconstruction and Development, the Council of Europe Development Bank, the European Bank for Reconstruction and Development, the Bank for International Settlements, or any other relevant international financial institution or organisation to which one or more Member States belong.

- X. Paragraph 2 (IX) shall only apply where all of the following requirements are met:
- a) the Money Market Fund holds money market instruments from at least six different issues by the issuer;
 - b) the Money Market Fund limits the investment in money market instruments from the same issue to a maximum of 30% of its assets;
 - c) the Money Market Fund makes express reference, in its fund rules or instruments of incorporation, to all administrations, institutions or organisations referred to in the first subparagraph that issue or guarantee separately or jointly money market instruments in which it intends to invest more than 5% of its assets;
 - d) the Money Market Fund includes a prominent statement in its prospectus and marketing communications drawing attention to the use of the derogation and indicating all administrations, institutions or organisations referred to in the first subparagraph that issue or guarantee separately or jointly money market instruments in which it intends to invest more than 5% of its assets.
- XI. Notwithstanding the individual limits laid down in paragraph 2(I), a Money Market Fund may invest no more than 10% of its assets in bonds issued by a single credit institution that has its registered office in a Member State and is subject by law to special public supervision designed to protect bond-holders. In particular, sums deriving from the issue of those bonds shall be invested in accordance with the law in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in the event of failure of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of the accrued interest.
- XII. Where an Money Market Fund invests more than 5% of its assets in the bonds referred to in paragraph 2(XI) issued by a single issuer, the total value of those investments shall not exceed 40% of the value of the assets of the Money Market Fund.
- XIII. Notwithstanding the individual limits laid down in paragraph 2(I), the Money Market Fund may invest no more than 20% of its assets in bonds issued by a single credit institution where the requirements set out in point (f) of Article 10(1) or point (c) of Article 11(1) of Delegated Regulation (EU) 2015/61 are met, including any possible investment in assets referred to in paragraph 2(XI).
- XIV. Where a Money Market Fund invests more than 5% of its assets in the bonds referred to in paragraph 2(XIII) issued by a single issuer, the total value of those investments shall not exceed 60% of the value of the assets of the Money Market Fund, including any possible investment in assets referred to in paragraph 2(XI), respecting the limits set out therein.

- XV. Companies which are included in the same group for the purposes of consolidated accounts under Directive 2013/34/EU of the European Parliament and of the Council or in accordance with recognised international accounting rules, shall be regarded as a single body for the purpose of calculating the limits referred to in paragraphs 2(I) to 2(VIII).

3. Eligible units or shares of Money Market Funds

- I. A Money Market Fund may acquire the units or shares of any other Money Market Fund ('targeted MMF') provided that all of the following conditions are fulfilled:
- a) no more than 10% of the assets of the targeted MMF are able, according to its fund rules or instruments of incorporation, to be invested in aggregate in units or shares of other Money Market Funds;
 - b) the targeted MMF does not hold units or shares in the acquiring Money Market Fund.
- II. A Money Market Fund whose units or shares have been acquired shall not invest in the acquiring Money Market Fund during the period in which the acquiring Money Market Fund holds units or shares in it.
- III. A Money Market Fund may acquire the units or shares of other Money Market Funds, provided that no more than 5% of its assets are invested in units or shares of a single Money Market Fund.
- IV. A Money Market Fund may, in aggregate, invest no more than 17.5% of its assets in units or shares of other Money Market Funds.
- V. Units or shares of other Money Market Funds shall be eligible for investment by an MMF provided that all of the following conditions are fulfilled:
- a) the targeted MMF is authorised under the Money Market Fund Regulation;
 - b) where the targeted MMF is managed, whether directly or under a delegation, by the same manager as that of the acquiring Money Market Fund or by any other company to which the manager of the acquiring Money Market Fund is linked by common management or control, or by a substantial direct or indirect holding, the manager of the targeted MMF, or that other company, is prohibited from charging subscription or redemption fees on account of the investment by the acquiring Money Market Fund in the units or shares of the targeted MMF;
- VI. Short-term Money Market Funds may only invest in units or shares of other short-term Money Market Funds.
- VII. Standard MMFs may invest in units or shares of Short-Term Money Market Funds and Standard Money Market Funds.

APPENDIX V

PERMITTED INVESTMENTS AND RESTRICTIONS FOR SUB-FUNDS THAT ARE NOT MONEY MARKET FUNDS

Investment Restrictions

The investment restrictions applying to each Sub-Fund under the Regulations are set out below. These are however, subject to the qualifications and exemptions contained in the Regulations. Any additional investment restrictions for a Sub-Fund will be formulated by the Directors at the time of creation of such Sub-Fund.

It is intended that the Fund should have the power to avail of any change in the law, regulation or guidelines which would permit investment in assets and securities on a wider basis.

1. Permitted Investments

Investments of a Sub-Fund are confined to:

- (a) transferable securities and money market instruments, as prescribed in the Regulations, which are either admitted to official listing on a stock exchange in an EU Member State or non-EU Member State or which are dealt on a market which is regulated, operates regularly, is recognised and open to the public in an EU Member State or non-EU Member State.
- (b) Recently issued transferable securities which will be admitted to official listing on a stock exchange or other market (as described above) within a year.
- (c) Money market instruments, as defined in the Regulations, other than those dealt on a regulated market.
- (d) Units of UCITS.
- (e) Shares or units of non-UCITS as set out in the Central Bank's Guidance.
- (f) Deposits with credit institutions as prescribed in the UCITS Regulations and/or the Central Bank UCITS Regulations
- (g) Financial derivative instruments as prescribed in the UCITS Regulations and/or the Central Bank UCITS Regulations.

2. Investment Limits

- (a) A Sub-Fund may invest no more than 10% of its net assets in transferable securities and money market instruments other than those referred to in paragraph 1.

- (b) A Sub-Fund may invest no more than 10% of its net assets in recently issued transferable securities which will be admitted to official listing on a stock exchange or other market (as described in Appendix II) within a year. This restriction will not apply in relation to investment by a Sub-Fund in certain US securities known as Rule 144A securities provided that:
- (1) the securities are issued with an undertaking to register with the US Securities and Exchanges Commission within one year of issue; and
 - (2) the securities are not illiquid securities i.e. they may be realised by the Sub-Fund within seven days at the price, or approximately at the price, at which they are valued by the Sub-Fund.
- (c) A Sub-Fund may invest no more than 10% of its net assets in transferable securities or money market instruments issued by the same body provided that the total value of transferable securities and money market instruments held in the issuing bodies in each of which it invests more than 5% is less than 40%.
- (d) Subject to the prior approval of the Central Bank, the limit of 10%, as referred to in paragraph 2(c), is raised to 25% in the case of bonds that are issued by a credit institution which has its registered office in an EU Member State and is subject by law to special public supervision designed to protect bond-holders. If a Sub-Fund invests more than 5% of its net assets in these bonds issued by one issuer, the total value of these investments may not exceed 80% of the net asset value of the relevant Sub-Fund.
- (e) The limit of 10% as referred to in paragraph 2(c), is raised to 35% if the transferable securities or money market instruments are issued or guaranteed by an EU Member State or its local authorities or by a non-EU Member State or public international body of which one or more EU Member States are members.
- (f) The transferable securities and money market instruments referred to in paragraph 2(d) and 2(e) shall not be taken into account for the purpose of applying the limit of 40% referred to in paragraph 2(c).
- (g) A Sub-Fund may not invest more than 20% of its net assets in deposits made with the same credit institution.

Deposits with any one credit institution, other than:

- A credit institution authorised in an EU member state the or EEA (Norway, Iceland, Liechtenstein)
- A credit institution authorised within a signatory State (other than any EU or EEA Member State) to the Basle Capital Convergence Agreement of July 1988 (Switzerland, Canada, Japan, United States, UK); or
- A credit institution authorised in Jersey, Guernsey, the Isle of Man, Australia or New Zealand;

held as ancillary liquidity, must not exceed 10% of its net assets.

This limit may be raised to 20% in the case of deposits made with the Depositary.

- (h) The risk exposure of a Sub-Fund to a counterparty to an over-the-counter (“OTC”) derivative may not exceed 5% of its net assets.

This limit is raised to 10% in the case of credit institutions authorised in the EU or EEA or credit institutions authorised within a signatory state (other than an EU or EEA Member State) to the Basle Capital Convergence Agreement of July, 1988 or a credit institution authorised in Jersey, Guernsey, the Isle of Man, Australia or New Zealand.

- (i) Notwithstanding paragraphs (c), (h) and (g) above, a combination of two or more of the following issued by, or made or undertaken with, the same body may not exceed 20% of the net assets of a Sub-Fund:

- (1) investments in transferable securities or money market instruments;
- (2) deposits, and/or
- (3) counterparty risk exposures arising from OTC derivatives transactions.

- (j) The limits referred to in paragraphs (c), (d), (e), (g), (h) and (i) above may not be combined, so that exposure to a single body shall not exceed 35% of its net assets.

- (k) Group companies are regarded as a single issuer for the purposes of paragraphs (c), (d), (e), (g), (h) and (i). However, a limit of 20% of the net assets of a Sub-Fund may be applied to investment in transferable securities and money market instruments within the same group.

- (l) A Sub-Fund may invest up to 100% of its net assets in different transferable securities and money market instruments issued or guaranteed by any EU Member State, its local authorities, non-EU Member States or public international bodies of which one or more EU Member States are members:

The following are permitted issuers for the purposes of this investment restriction (l):

OECD Governments, (provided the relevant issues are investment grade)
Government of Singapore
European Investment Bank
European Bank for Reconstruction and Development
International Finance Corporation
International Monetary Fund
Euratom
The Asian Development Bank
European Central Bank
Council of Europe
Eurofima
African Development Bank

International Bank for Reconstruction and Development (The World Bank)
 The Inter-American Development Bank
 European Union
 Federal National Mortgage Association (Fannie Mae)
 Federal Home Loan Mortgage Corporation (Freddie Mac)
 Government National Mortgage Association (Ginnie Mae)
 Student Loan Marketing Association (Sallie Mae)
 Federal Home Loan Bank
 Federal Farm Credit Bank
 Tennessee Valley Authority
 Straight-A Funding LLC

A Sub-Fund must hold securities from at least 6 different issues, with securities from any one issue not exceeding 30% of its net assets.

- (m) may not invest more than 5% of the net assets of each Sub-Fund in warrants;
- (n) a Sub-Fund may not invest in gold, real estate or commodities, or warrants or options or like instruments in respect thereof.

3. Investment in Collective Investment Schemes (CIS)

- (a) A Sub-Fund may not invest more than 10% of its net assets in any one CIS and may not invest, in total, more than 10% of its net assets in CIS.
- (b) Investment in non-UCITS may not, in aggregate, exceed 10% of net assets.
- (c) The CIS are prohibited from investing more than 10% of net assets in other open-ended CIS.
- (d) When a Sub-Fund invests in the units of other CIS that are managed, directly or by delegation, by the Manager or the Investment Manager or by any other company with which the Manager or the Investment Manager is linked by common management or control, or by a substantial direct or indirect holding, that management company or other company may not charge subscription, conversion or redemption fees on account of the UCITS investment in the units of such other CIS.
- (e) Where a commission (including a rebated commission) is received by the Manager or the Investment Manager by virtue of an investment in the units of another CIS, this commission must be paid into the property of the relevant Sub-Fund.

4. Index Tracking Fund

- (a) A Sub-Fund may invest up to 20% of its net assets in shares and/or debt securities issued by the same body where the investment policy of the Sub-Fund is to replicate an index which satisfies the criteria set out in the Central Bank UCITS Regulations and is recognised by the Central Bank.

- (b) The limit in 4(a) may be raised to 35%, and applied to a single issuer, where this is justified by exceptional market conditions.

5. General Provisions

- (a) An investment company, or management company acting in connection with all of the CIS it manages, may not acquire any shares carrying voting rights which would enable it to exercise significant influence over the management of an issuing body.
- (b) A Sub-Fund may acquire no more than:
 - (1) 10% of the non-voting shares of any single issuing body;
 - (2) 10% of the debt securities of any single issuing body;
 - (3) 25% of the units of any single CIS;
 - (4) 10% of the money market instruments of any single issuing body.

The limits laid down in paragraphs 5(b) 2, 5(b) 3 and 5(b) 4 above may be disregarded at the time of acquisition if at that time the gross amount of the debt securities or of the money market instruments, or the net amount of the securities in issue cannot be calculated.

- (c) 5(a) and 5(b) shall not be applicable to:
 - (1) transferable securities and money market instruments issued or guaranteed by an EU Member State or its local authorities;
 - (2) transferable securities and money market instruments issued or guaranteed by a non-EU Member State;
 - (3) transferable securities and money market instruments issued by public international bodies of which one or more EU Member States are members;
 - (4) shares held by a Sub-Fund in the capital of a company incorporated in a non-EU member State which invests its assets mainly in the securities of issuing bodies having their registered offices in that State, where under the legislation of that State such a holding represents the only way in which the Sub-Fund can invest in the securities of issuing bodies of that State. This waiver is applicable only if in its investment policies the company from the non-EU Member State complies with the limits laid down in paragraphs 2(c)-(k), 3(a), (b) and 5(a), (b), (d), (e) and provided that where these limits are exceeded, paragraphs 5(e) and 5(f) below are observed;
 - (5) shares held by an investment company or investment companies in the capital of subsidiary companies carrying on only the business of management, advice or marketing in the country where the subsidiary is located, in regard to the redemption of shares at Shareholders' request exclusively on their behalf.
- (d) A Sub-Fund need not comply with the investment restrictions herein when exercising subscription rights attaching to transferable securities or money market instruments which form part of their assets.

- (e) the Central Bank may allow recently authorised Sub-Funds to derogate from the provisions of paragraphs 2(c)-(l), 3(a) and (b), 4(a) and (b) for six months following the date of their authorisation, provided they observe the principle of risk spreading.
- (f) If the limits laid down herein are exceeded for reasons beyond the control of a Sub-Fund, or as a result of the exercise of subscription rights, the Sub-Fund must adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interests of its Shareholders.
- (g) A Sub-Fund may not carry out uncovered sales of:
 - (1) transferable securities;
 - (2) money market instruments;
 - (3) units of CIS; or
 - (4) financial derivative instruments.
- (h) A Sub-Fund may hold ancillary liquid assets.

6. Financial Derivative Instruments (FDIs)

- (a) A Sub-Fund's global exposure (as prescribed in the Central Bank UCITS Regulations) relating to FDI must not exceed its total net asset value.
- (b) Position exposure to the underlying assets of FDI, including embedded FDI in transferable securities or money market instruments, when combined where relevant with positions resulting from direct investments, may not exceed the investment limits set out in the Central Bank UCITS Regulations and/or UCITS Regulations. (This provision does not apply in the case of index based FDI provided the underlying index is one which meets with the criteria set out in the Central Bank UCITS Regulations.)
- (c) A Sub-Fund may invest in FDIs dealt over-the-counter (**OTC**) provided that the counterparties to the OTC transactions are institutions subject to prudential supervision and belonging to categories approved by the Central Bank
- (d) Investment in FDIs are subject to the conditions and limits laid down by the Central Bank.

APPENDIX VI

DISCLOSURES UNDER ARTICLE 8 OF REGULATION (EU 2019/2088)

Template pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

Yes

No

It will make a minimum of **sustainable investments with an environmental objective:** ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It will make a minimum of **sustainable investments with a social objective:** ____%

It **promotes Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promotes E/S characteristics, but **will not make any sustainable investments**

What environmental and/or social characteristics are promoted by this financial product?

The Investment Manager manages the Sub-Fund in accordance with the ESG Considerations as detailed further below. The Sub-Fund seeks to promote, among other characteristics, environmental or social characteristics in line with Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (the "SFDR"). This Sub-Fund promotes environmental and social characteristics however does not have a sustainable investment objective. To be eligible for investment, all investments that are selected as part of the Investment Manager's ESG analysis must follow good governance practices and not be excluded by the Investment Manager's ESG Baseline Exclusions Policy or other issuer screening criteria.

The below criteria are binding on the investment process to ensure underlying investments are inclusive of those securities promoting environmental characteristics:

The exclusions detailed below will be applied to this universe.

- Thermal Coal;
- Non-conventional fossil fuels (arctic oil and tar sands).

The below criteria are binding on the investment process to ensure underlying investments are inclusive of those securities promoting social characteristics:

The exclusions detailed below will be applied to this universe.

- Controversial weapons including nuclear weapons;
- Breaches of principles of the United Nations Global Compact (“UNGC”);
- Civilian firearms; and
- Tobacco.

The exclusions will be based on:

a) a maximum acceptable percentage of estimated revenue derived from the specific activities, the maximum acceptable percentage of revenue thresholds are:

- Controversial weapons* 0%
- Thermal Coal** 5%
- Non-conventional fossil fuels (arctic oil and tar sands)** at 10%
- Breaches of principles of the UN Global Compact; and
- Tobacco producers at 0% and tobacco distribution or sale at 25%

* where companies are involved in, among others, development, development, production, use, maintenance, offering for sale, distribution, import or export, storage or transportation of nuclear weapons, where this supplies nuclear states outside of the UN Treaty on Non-Proliferation of Nuclear Weapons (1970).

** For these exceptions, where companies have an approved SBTi (Science Based Target) which has a classification of 1.5°C or well below 2°C this exclusion will not apply.

b) MSCI’s controversy screening data to identify very severe failings of the UN Global Compact since 1 January 2019. An Aviva Investors ESG Analyst qualitative assessment is additive to this process to confirm if the failings are irredeemable based on company behaviours since the controversy.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

For further details of our baseline exclusions policy see our website.

Sustainability indicators
measure how the environmental or social characteristics promoted by the financial product are attained.

- ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

The sustainability indicators reported on for this Sub-Fund will include, but not be limited to:

1. Portfolio metric of any revenue derived from excluded activity (e.g. thermal coal)
2. UNGC ‘severe’ and ‘very severe’ incidents avoided and commentary on any exceptions

- ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

Not applicable

- ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable

--- How have the indicators for adverse impacts on sustainability factors been taken into account?

Not applicable

--- How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Does this financial product consider principal adverse impacts on sustainability factors?

☒ Yes, _____

☐ No

The Sub-Fund does consider the following three PAIs indicators which are excluded in accordance with certain revenue thresholds, as detailed in the Investment Manager's ESG Baseline Exclusions Policy

1. Controversial Weapons
2. Violations of UN Global Compact Principles and OECD Guidelines
3. Companies active in the Fossil Fuel sector

More broadly, the Investment Manager considers these indicators alongside all other relevant ESG and financial metrics that inform its assessment of sustainability risk. For more information on how Aviva Investors integrates PAIs, please consult Aviva Investors Liquid Markets – Principle Adverse Impact Statement which is available at - EU Sustainable Finance Disclosure Regulation (SFDR) - Aviva Investors.

Information on how the Investment Manager considers PAIs will be available in the Fund's annual report in a dedicated section.

What investment strategy does this financial product follow?

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

The investment objective of the Fund is to offer returns in line with money market rates and to preserve the value of the investment.

The Fund is a Short-Term Low-Volatility Net Asset Value (LVNAV) Money Market Fund. The Fund is actively managed and will seek to invest in a diversified portfolio of high-grade Sterling denominated short term fixed or floating rate debt and debt related instruments including but not limited to commercial paper, term deposits, floating rate notes, certificates of deposit, freely transferable promissory notes, debentures, asset-backed securities and bonds. These can be issued from markets around the world but will typically be priced in Sterling. Investments which are not priced in Sterling will be hedged back to Sterling. The Fund may invest up to 10% of its Net Asset Value in other Short Term Money Market Funds. The Fund will maintain a portfolio with a weighted average maturity of 60 days or less. Investments will have a maximum final legal maturity not exceeding 397 days.

The Sub-Fund seeks to promote environmental and social characteristics. ESG considerations, and an evaluation of Sustainability Risks and good governance principles are integrated into the investment process when selecting investments for the Sub-Fund. The investments, where it is possible, will be aligned with the environmental/social characteristics of the Sub-Fund, and will be selected based on specific ESG investment criteria outlined within the Prospectus. There may on occasion be investments used for hedging and efficient portfolio management purposes which are not possible to be aligned with the environmental or social characteristics described. The Fund does not have a sustainable investment objective, and the Investment Manager will consider adverse impacts of an investment to the extent they are financially material or covered by Aviva Investors' Principle Adverse Sustainability Impacts Statement.

● ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The below criteria are binding on the investment process:

- A. Our firm-wide Baseline Exclusions Policy excludes issuers or securities that have a maximum acceptable threshold of estimated revenue from the specific activities and MSCI UN Global Compact data with ESG Analyst assessment:
 - Controversial weapons
 - Coal
 - Non-conventional fossil fuels (arctic oil and tar sands)
 - Breaches of principles of the UN Global Compact; and
 - Tobacco.
- B. The Aviva Climate Engagement Escalation Programme

● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

There is no commitment to a minimum rate target to reduce the scope of the investments considered prior to the application of the Investment Manager's investment strategy.

Issuers that meet the criteria of the Investment Manager's ESG exclusion policy described above are excluded. The percentage of investments that are excluded from the Sub-Fund's investment universe will vary over time and be minimal given the nature of the investment universe and the approved issuer process incorporating an ESG assessment.

Good governance
practices include sound management structures, employee relations, remuneration of staff and tax compliance.

● **What is the policy to assess good governance practices of the investee companies?**

The Investment Manager’s policy considers global best practice guidelines such as the ICGN Global Corporate Governance Principles and the G20/OECD Principles of Corporate Governance but are also informed by the Investment Manager’s investment philosophy and numerous years of stewardship and voting experience.

The Sub-Fund will not invest in securities from issuers that are in violation of the international norms and conventions set out by the United Nations Global Compact Principles. Investment in securities from issuers that fail to protect the basic rights of investors and employees through sound management practices or that are involved in tax evasion, corruption, or other governance scandals, will be avoided, unless they have taken adequate remedial action.

The good governance criteria as outlined in the SFDR will be met through a combination of the UNGC (as part of the Investment Manager’s ESG Baseline Exclusions Policy noted above) and a qualitative assessment as part of the investment analyst research process. Good governance indicators form a substantial component of the Investment Manager’s ESG scoring tools and ESG research.

Aviva Investors’ ESG function, comprising governance and responsible investment specialists, provide analysis to support the Investment Manager’s investment teams and help them in building a robust assessment of good governance practices.

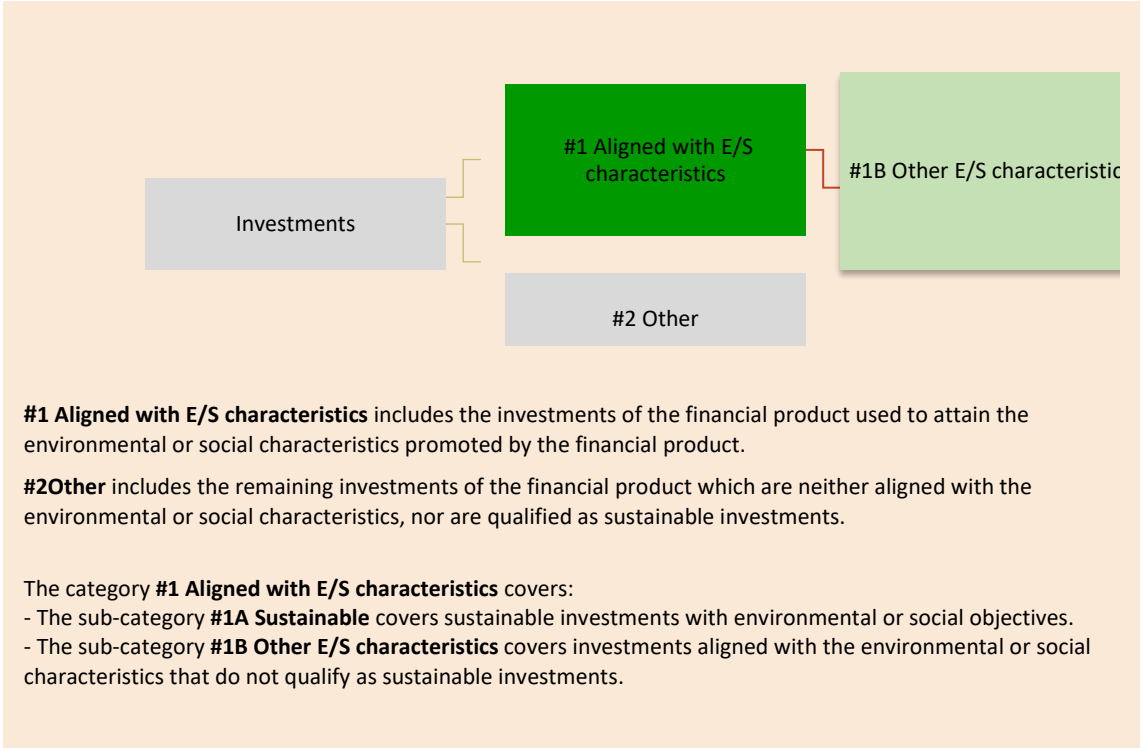

Asset allocation
describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- turnover** reflecting the share of revenue from green activities of investee companies
- capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure** (OpEx) reflecting green operational activities of investee companies.

What is the asset allocation planned for this financial product?

It is expected that at least 60% of investments will be aligned with the environmental/social characteristics of the Sub-Fund in #1 where possible, however some assets will have no viable ESG data in instances where no viable quantitative data is available.

For liquidity management purposes, the Sub-Fund may also hold ancillary liquid assets within the meaning of point 10 listed under “Permitted Securities and Transaction” of section “General Investment Restrictions and Eligible Assets for UCITS Fund” of the prospectus, invest on an ancillary basis in eligible deposits within the meaning of point 9 of the same section referred to above, money market instruments or money market funds. All such investments qualify under “#2 Other”. Under unfavourable market circumstances during which the investment strategy would become impossible to continue implementing and the Sub-Fund would no longer be able to achieve its investment objective, the Sub-Fund may, on a temporary basis, invest up to 100% of

its net assets in such assets. For the avoidance of doubt, investment in such assets is not part of the Core Investment policy of the Sub-Fund.

The Sub-Fund may also hold investments in financial techniques and instruments and derivatives used for hedging and efficient portfolio management purposes, which would fall within “#2 Other”.

Amongst the investments aligned with the environmental/social characteristics of the Sub-Fund, there will be no sustainable investments, therefore all such investments will fall within the category #1B Other E/S characteristics.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

N/A - Where derivatives are used for investment purposes, for hedging or for efficient portfolio management, they are not deemed to attain the environmental or social characteristics the Sub-Fund promotes.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not make sustainable investments and the percentage of Taxonomy alignment of the Sub-Fund’s portfolio is currently 0%.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?**

<input type="checkbox"/>	Yes:
<input type="checkbox"/>	In fossil gas
<input type="checkbox"/>	In nuclear energy
<input checked="" type="checkbox"/>	No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **What is the minimum share of investments in transitional and enabling activities?**

The percentage of investments in transitional and enabling activities is currently 0%.

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

Not applicable

What is the minimum share of socially sustainable investments?

Not applicable

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

There may on occasion be investments in financial techniques and instruments and derivatives used for hedging or efficient portfolio management purposes or liquidity holding purposes (such as ancillary liquid assets, eligible deposits, money market instruments, money market funds) which would fall within “#2 Other”. However, given the nature of the Sub-Fund “#2 Other” investments, it is not possible to apply environmental and/or social safeguard tests to such investments.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

- **How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?**

Not applicable

- **How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?**

Not applicable

- **How does the designated index differ from a relevant broad market index?**

Not applicable

- **Where can the methodology used for the calculation of the designated index be found?**

Not applicable

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

with a social objective

It promotes E/S characteristics, but **will not make any sustainable investments**

What environmental and/or social characteristics are promoted by this financial product?

The Investment Manager manages the Sub-Fund in accordance with the ESG Considerations as detailed further below. The Sub-Fund seeks to promote, among other characteristics, environmental or social characteristics in line with Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (the "SFDR"). This Sub-Fund promotes environmental and social characteristics however does not have a sustainable investment objective. To be eligible for investment, all investments that are selected as part of the Investment Manager's ESG analysis must follow good governance practices and not be excluded by the Investment Manager's ESG Baseline Exclusions Policy or other issuer screening criteria.

The below criteria are binding on the investment process to ensure underlying investments are inclusive of those securities promoting environmental characteristics:

The exclusions detailed below will be applied to this universe.

- Thermal Coal;
- Non-conventional fossil fuels (arctic oil and tar sands).

The below criteria are binding on the investment process to ensure underlying investments are inclusive of those securities promoting social characteristics:

The exclusions detailed below will be applied to this universe.

- Controversial weapons including nuclear weapons;
- Breaches of principles of the United Nations Global Compact (“UNGC”);
- Civilian firearms; and
- Tobacco.

The exclusions will be based on:

a) a maximum acceptable percentage of estimated revenue derived from the specific activities, the maximum acceptable percentage of revenue thresholds are:

- Controversial weapons* 0%
- Thermal Coal** 5%
- Non-conventional fossil fuels (arctic oil and tar sands)** at 10%
- Breaches of principles of the UN Global Compact; and
- Tobacco producers at 0% and tobacco distribution or sale at 25%

* where companies are involved in, among others, development, development, production, use, maintenance, offering for sale, distribution, import or export, storage or transportation of nuclear weapons, where this supplies nuclear states outside of the UN Treaty on Non-Proliferation of Nuclear Weapons (1970).

** For these exceptions, where companies have an approved SBTi (Science Based Target) which has a classification of 1.5°C or well below 2°C this exclusion will not apply.

b) MSCI’s controversy screening data to identify very severe failings of the UN Global Compact since 1 January 2019. An Aviva Investors ESG Analyst qualitative assessment is additive to this process to confirm if the failings are irredeemable based on company behaviours since the controversy.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

environmental or social
characteristics promoted
by the financial product
are attained.

- ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

The sustainability indicators reported on for this Sub-Fund will include, but not be limited to:

1. Portfolio metric of any revenue derived from excluded activity (e.g. thermal coal)
2. UNGC ‘severe’ and ‘very severe’ incidents avoided and commentary on any exceptions

- ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Does this financial product consider principal adverse impacts on sustainability factors?

☒ Yes, _____

☐ No

The Sub-Fund does consider the following three PAIs indicators which are excluded in accordance with certain revenue thresholds, as detailed in the Investment Manager’s ESG Baseline Exclusions Policy

1. Controversial Weapons
2. Violations of UN Global Compact Principles and OECD Guidelines
3. Companies active in the Fossil Fuel sector

More broadly, the Investment Manager considers these indicators alongside all other relevant ESG and financial metrics that inform its assessment of sustainability risk. For more information on how Aviva Investors integrates PAIs, please consult Aviva Investors Liquid Markets – Principle Adverse Impact Statement which is available at - EU Sustainable Finance Disclosure Regulation (SFDR) - Aviva Investors.

Information on how the Investment Manager considers PAIs will be available in the Fund’s annual report in a dedicated section.

What investment strategy does this financial product follow?

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

The investment objective of the Sub-Fund is to provide an investment return with a low level of capital volatility whilst maintaining liquidity.

The Sub-Fund is actively managed and will invest in a diversified portfolio of short-term debt and debt related instruments which are primarily denominated in Sterling but may also be denominated in other currencies and hedged back to Sterling. No less than 80% of the Sub-Fund's investments will be denominated in Sterling. The Sub-Fund's investments will include fixed or floating rate instruments including but not limited to commercial paper, floating rate notes, certificates of deposit, freely transferable promissory notes, debentures, asset backed securities and bonds. These can be issued from markets around the world and may also invest in gilts and money market instruments.

The Sub-Fund seeks to promote environmental and social characteristics. ESG considerations, and an evaluation of Sustainability Risks and good governance principles are integrated into the investment process when selecting investments for the Sub-Fund. The investments, where it is possible, will be aligned with the environmental/social characteristics of the Sub-Fund, and will be selected based on specific ESG investment criteria outlined within the Prospectus. There may on occasion be investments used for hedging and efficient portfolio management purposes which are not possible to be aligned with the environmental or social characteristics described.

The Sub-Fund does not have a sustainable investment objective, and the Investment Manager will consider adverse impacts of an investment to the extent they are financially material or covered by Aviva Investors' Principle Adverse Sustainability Impacts Statement.

What investment strategy does this financial product follow?

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

The investment objective of the Sub-Fund is to offer returns in line with money market rates and preserve the value of the investment. The performance of the Sub-Fund will be benchmarked against the Euro Short Term Rate.

The Sub-Fund is a Short-Term Variable Net Asset Value (VNAV) Money Market Fund. The Sub-Fund is actively managed and will seek to invest in fixed and floating rate instruments including but not limited to commercial paper, term deposits, floating rate notes, certificates of deposit, freely transferable promissory notes, debentures, asset-backed securities and bonds, which are issued or guaranteed as to principal or interest by sovereign governments, their agencies and instrumentalities, supranational entities and EU and non-EU corporations and financial institutions. These can be issued from markets around the world but shall be priced in Euro. The Sub-Fund may invest up to 10% of its Net Asset Value in other Short Term Money Market Funds. The Sub-Fund will maintain a portfolio with a weighted average life maturity of 60 days or less. Investments will have a maximum final legal maturity of 397 days.

The Sub-Fund seeks to promote environmental and social characteristics. practices include sound management structures, employee relations, remuneration of staff and tax compliance.

● **What is the policy to assess good governance practices of the investee companies?**

The Investment Manager’s policy considers global best practice guidelines such as the ICGN Global Corporate Governance Principles and the G20/OECD Principles of Corporate Governance but are also informed by the Investment Manager’s investment philosophy and numerous years of stewardship and voting experience.

The Sub-Fund will not invest in securities from issuers that are in violation of the international norms and conventions set out by the United Nations Global Compact Principles. Investment in securities from issuers that fail to protect the basic rights of investors and employees through sound management practices or that are involved in tax evasion, corruption, or other governance scandals, will be avoided, unless they have taken adequate remedial action.

The good governance criteria as outlined in the SFDR will be met through a combination of the UNGC (as part of the Investment Manager’s ESG Baseline Exclusions Policy noted above) and a qualitative assessment as part of the investment analyst research process. Good governance indicators form a substantial component of the Investment Manager’s ESG scoring tools and ESG research.

Aviva Investors’ ESG function, comprising governance and responsible investment specialists, provide analysis to support the Investment Manager’s investment teams and help them in building a robust assessment of good governance practices.

Asset allocation
describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

What is the asset allocation planned for this financial product?

It is expected that at least 60% of investments will be aligned with the environmental/social characteristics of the Sub-Fund in #1 where possible, however some assets will have no viable ESG data in instances where no viable quantitative data is available.

For liquidity management purposes, the Sub-Fund may also hold ancillary liquid assets within the meaning of point 10 listed under “Permitted Securities and Transaction” of section “General Investment Restrictions and Eligible Assets for UCITS Fund” of the prospectus, invest on an ancillary basis in eligible deposits within the meaning of point 9 of the same section referred to above, money market instruments or money market funds. All such investments qualify under “#2 Other”. Under unfavourable market circumstances during which the investment strategy would become impossible to continue implementing and the Sub-Fund would no longer be able to achieve its investment objective, the Sub-Fund may, on a temporary basis, invest up to 100% of

its net assets in such assets. For the avoidance of doubt, investment in such assets is not part of the Core Investment policy of the Sub-Fund.

The Sub-Fund may also hold investments in financial techniques and instruments and derivatives used for hedging and efficient portfolio management purposes, which would fall within “#2 Other”.

Amongst the investments aligned with the environmental/social characteristics of the Sub-Fund, there will be no sustainable investments, therefore all such investments will fall within the category #1B Other E/S characteristics.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

N/A - Where derivatives are used for investment purposes, for hedging or for efficient portfolio management, they are not deemed to attain the environmental or social characteristics the Sub-Fund promotes.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not make sustainable investments and the percentage of Taxonomy alignment of the Sub-Fund’s portfolio is currently 0%.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

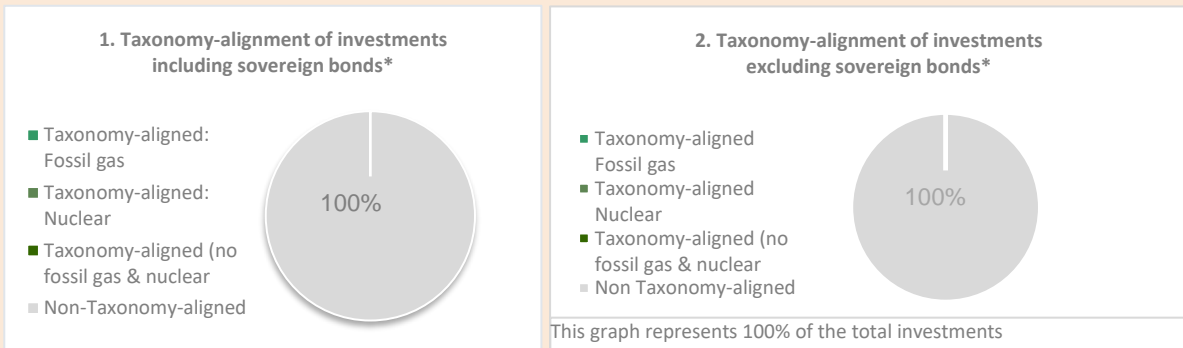

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

● **What is the minimum share of investments in transitional and enabling activities?**

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The percentage of investments in transitional and enabling activities is currently 0%.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

Not applicable

What is the minimum share of socially sustainable investments?

Not applicable

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

There may on occasion be investments in financial techniques and instruments and derivatives used for hedging or efficient portfolio management purposes or liquidity holding purposes (such as ancillary liquid assets, eligible deposits, money market instruments, money market funds) which would fall within “#2 Other”. However, given the nature of the Sub-Fund “#2 Other” investments, it is not possible to apply environmental and/or social safeguard tests to such investments.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

What environmental and/or social characteristics are promoted by this financial product?

The Investment Manager manages the Sub-Fund in accordance with the ESG Considerations as detailed further below. The Sub-Fund seeks to promote, among other characteristics, environmental or social characteristics in line with Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (the "SFDR"). This Sub-Fund promotes environmental and social characteristics however does not have a sustainable investment objective. To be eligible for investment, all investments that are selected as part of the Investment Manager's ESG analysis must follow good governance practices and not be excluded by the Investment Manager's ESG Baseline Exclusions Policy or other issuer screening criteria.

The below criteria are binding on the investment process to ensure underlying investments are inclusive of those securities promoting environmental characteristics:

The exclusions detailed below will be applied to this universe.

- Thermal Coal;
- Non-conventional fossil fuels (arctic oil and tar sands).

The below criteria are binding on the investment process to ensure underlying investments are inclusive of those securities promoting social characteristics:

The exclusions detailed below will be applied to this universe.

- Controversial weapons including nuclear weapons;
- Breaches of principles of the United Nations Global Compact (“UNGC”);
- Civilian firearms; and
- Tobacco.

The exclusions will be based on:

a) a maximum acceptable percentage of estimated revenue derived from the specific activities, the maximum acceptable percentage of revenue thresholds are:

- Controversial weapons* 0%
- Thermal Coal** 5%
- Non-conventional fossil fuels (arctic oil and tar sands)** at 10%
- Breaches of principles of the UN Global Compact; and
- Tobacco producers at 0% and tobacco distribution or sale at 25%

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Does this financial product consider principal adverse impacts on sustainability factors?

☒ Yes, _____

☐ No

The Sub-Fund does consider the following three PAIs indicators which are excluded in accordance with certain revenue thresholds, as detailed in the Investment Manager's ESG Baseline Exclusions Policy

1. Controversial Weapons
2. Violations of UN Global Compact Principles and OECD Guidelines
3. Companies active in the Fossil Fuel sector

More broadly, the Investment Manager considers these indicators alongside all other relevant ESG and financial metrics that inform its assessment of sustainability risk. For more information on how Aviva Investors integrates PAIs, please consult Aviva Investors Liquid Markets – Principle Adverse Impact Statement which is available at - EU Sustainable Finance Disclosure Regulation (SFDR) - Aviva Investors.

Information on how the Investment Manager considers PAIs will be available in the Fund's annual report in a dedicated section.

What investment strategy does this financial product follow?

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

The investment objective of the Sub-Fund is to offer returns in line with money market rates and preserve the value of the investment. The performance of the Fund will be benchmarked against the Secured Overnight Financing Rate (SOFR).

The Sub-Fund is an LVNAV Short Term Money Market Fund. The Sub-Fund is actively managed and its investments will include fixed or floating rate instruments including but not limited to commercial paper, term deposits, floating rate notes, certificates of deposit, freely transferable promissory notes, debentures, asset-backed securities and bonds. These can be issued or guaranteed as to principal or interest by sovereign governments, their agencies and instrumentalities, supranational entities and US and non-US corporations and financial institutions. These investments can be issued from markets around the world but will be priced in US Dollars. The Sub-Fund may invest up to 10% of its Net Asset Value in other Short Term Money Market Funds. The Sub-Fund may also hold ancillary liquid assets such as bank deposits. The Investment Manager intends to manage the Sub-Fund according to its classification as a Short Term Money Market Fund and the restrictions imposed by recognized rating agencies in order to maintain an overall credit rating of Aaa which may include where applicable ensuring that the Sub-Fund's investments may have such ratings as may be required from time to time by the relevant rating agency to maintain the credit rating, or if unrated, be deemed to be of comparable quality by the Investment Manager.

The Sub-Fund's investments will have an average weighted maturity of 60 days or less. The maximum residual maturity until legal redemption of investments will be 397 days.

The Sub-Fund seeks to promote environmental and social characteristics. ESG considerations, and an evaluation of Sustainability Risks and good governance principles are integrated into the investment process when selecting investments for the Sub-Fund. The investments, where it is possible, will be aligned with the environmental/social characteristics of the Sub-Fund, and will be selected based on specific ESG investment criteria outlined within the Prospectus. There may on occasion be investments used for hedging and efficient portfolio management purposes which are not possible to be aligned with the environmental or social characteristics described.

The Sub-Fund does not have a sustainable investment objective, and the Investment Manager will consider adverse impacts of an investment to the extent they are financially material or covered by Aviva Investors' Principle Adverse Sustainability Impacts Statement.

- ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The below criteria are binding on the investment process:

- A. Our firm-wide Baseline Exclusions Policy excludes issuers or securities that have a maximum acceptable threshold of estimated revenue from the specific activities and MSCI UN Global Compact data with ESG Analyst assessment:
 - Controversial weapons
 - Coal
 - Non-conventional fossil fuels (arctic oil and tar sands)
 - Breaches of principles of the UN Global Compact; and
 - Tobacco.
- B. The Aviva Climate Engagement Escalation Programme

- ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

There is no commitment to a minimum rate target to reduce the scope of the investments considered prior to the application of the Investment Manager's investment strategy.

Issuers that meet the criteria of the Investment Manager's ESG exclusion policy described above are excluded. The percentage of investments that are excluded from the Sub-Fund's investment universe will vary over time and be minimal given the nature of the investment universe and the approved issuer process incorporating an ESG assessment.

Good governance

practices include sound management structures, employee relations, remuneration of staff and tax compliance.

What is the policy to assess good governance practices of the investee companies?

The Investment Manager's policy considers global best practice guidelines such as the ICGN Global Corporate Governance Principles and the G20/OECD Principles of Corporate Governance but are also informed by the Investment Manager's investment philosophy and numerous years of stewardship and voting experience.

The Sub-Fund will not invest in securities from issuers that are in violation of the international norms and conventions set out by the United Nations Global Compact Principles. What investment strategy does this financial product follow?

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

The investment objective of the Sub-Fund is to offer returns in line with money market rates and to preserve the value of the investment. The performance of the Sub-Fund will be benchmarked against the SONIA rate.

The Sub-Fund is actively managed and will endeavor to achieve this objective by investing in a diversified portfolio of high-grade Sterling denominated short term debt and debt related instruments described below which are traded on the Markets listed in Appendix II of the Prospectus or which are to be traded on such Markets within a year of being issued.

The Sub-Fund is a VNAV standard Money Market Fund and its investments will include fixed or floating rate instruments including commercial paper, term deposits, floating rate notes, certificates of deposit, freely transferable promissory notes, debentures, asset-backed securities, credit-linked notes and bonds. The investments shall be denominated in Sterling but may also be denominated in other currencies and hedged back to Sterling, and may be issued or guaranteed as to principal or interest by sovereign governments, their agencies and instrumentalities, supranational entities and EU and non EU corporations and financial institutions who are incorporated or domiciled in, or listed or dealt on a Market located in those jurisdictions listed in Appendix II hereto or in securities of issuers that, while not located in those jurisdictions, conduct substantial business in them as determined by the Investment Manager, including (i) companies which have substantial assets in those jurisdictions or (ii) companies which derive a substantial portion of their total revenues from either goods and services produced in, or sales made in, those jurisdictions.

The Investment Manager intends where possible, to manage the Sub-Fund according to the restrictions imposed by the rating agency in order to maintain an overall credit rating of AAAf.

The Sub-Fund promotes environmental and social characteristics however does not have a sustainable investment objective. To be eligible for investment, all investments that are selected as part of the Investment Manager's ESG analysis must follow good governance practices and not be excluded by the Investment Manager's ESG Baseline Exclusions Policy or other issuer screening criteria. It may however not be possible to perform ESG analysis on investments used for hedging and efficient portfolio management purposes. The Investment Manager integrates qualitative and quantitative data on adverse sustainability impacts into its investment processes. The ESG analysis and considerations described are incorporated into the investment process but may not always have a material impact on investments in the Sub-Fund.

● ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

 - Breaches of principles of the UN Global Compact; and
 - Tobacco.
- B. The Aviva Climate Engagement Escalation Programme

● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

There is no commitment to a minimum rate target to reduce the scope of the investments considered prior to the application of the Investment Manager's investment strategy.

Issuers that meet the criteria of the Investment Manager's ESG exclusion policy described above are excluded. The percentage of investments that are excluded from the Sub-Fund's investment universe will vary over time and be minimal given the nature of the investment universe and the approved issuer process incorporating an ESG assessment.

Good governance

practices include sound management structures, employee relations, remuneration of staff and tax compliance.

What is the policy to assess good governance practices of the investee companies?

The Investment Manager's policy considers global best practice guidelines such as the ICGN Global Corporate Governance Principles and the G20/OECD Principles of Corporate Governance but are also informed by the Investment Manager's investment philosophy and numerous years of stewardship and voting experience.

The Sub-Fund will not invest in securities from issuers that are in violation of the international norms and conventions set out by the United Nations Global Compact Principles. Investment in securities from issuers that fail to protect the basic rights of investors and employees through sound management practices or that are involved in tax evasion, corruption, or other governance scandals, will be avoided, unless they have taken adequate remedial action.

The good governance criteria as outlined in the SFDR will be met through a combination of the UNGC (as part of the Investment Manager's ESG Baseline Exclusions Policy noted above) and a qualitative assessment as part of the investment analyst research process. Good governance indicators form a substantial component of the Investment Manager's ESG scoring tools and ESG research.

Aviva Investors' ESG function, comprising governance and responsible investment specialists, provide analysis to support the Investment Manager's investment teams and help them in building a robust assessment of good governance practices.

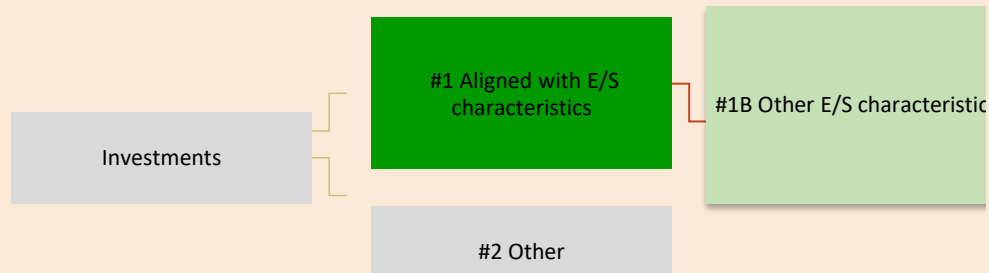

Asset allocation

describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- turnover** reflecting the share of revenue from green activities of investee companies
- capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure** (OpEx) reflecting green operational activities of investee companies.

What is the asset allocation planned for this financial product?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

It is expected that at least 60% of investments will be aligned with the environmental/social characteristics of the Sub-Fund in #1 where possible, however some assets will have no viable ESG data in instances where no viable quantitative data is available.

For liquidity management purposes, the Sub-Fund may also hold ancillary liquid assets within the meaning of point 10 listed under "Permitted Securities and Transaction" of section "General Investment Restrictions and Eligible Assets for UCITS Fund" of the prospectus, invest on an ancillary basis in eligible deposits within the meaning of point 9 of the same section referred to above, money market instruments or money market funds. All such investments qualify under "#2

Other". Under unfavourable market circumstances during which the investment strategy would become impossible to continue implementing and the Sub-Fund would no longer be able to achieve its investment objective, the Sub-Fund may, on a temporary basis, invest up to 100% of its net assets in such assets. For the avoidance of doubt, investment in such assets is not part of the Core Investment policy of the Sub-Fund.

The Sub-Fund may also hold investments in financial techniques and instruments and derivatives used for hedging and efficient portfolio management purposes, which would fall within "#2 Other".

Amongst the investments aligned with the environmental/social characteristics of the Sub-Fund, there will be no sustainable investments, therefore all such investments will fall within the category #1B Other E/S characteristics.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

N/A - Where derivatives are used for investment purposes, for hedging or for efficient portfolio management, they are not deemed to attain the environmental or social characteristics the Sub-Fund promotes.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not make sustainable investments and the percentage of Taxonomy alignment of the Sub-Fund's portfolio is currently 0%.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?**

Yes:

In fossil gas

In nuclear energy

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **What is the minimum share of investments in transitional and enabling activities?**

The percentage of investments in transitional and enabling activities is currently 0%.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

Not applicable

What is the minimum share of socially sustainable investments?

Not applicable

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

There may on occasion be investments in financial techniques and instruments and derivatives used for hedging or efficient portfolio management purposes or liquidity holding purposes (such as ancillary liquid assets, eligible deposits, money market instruments, money market funds) which would fall within “#2 Other”. However, given the nature of the Sub-Fund “#2 Other” investments, it is not possible to apply environmental and/or social safeguard tests to such investments.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?**

Not applicable

- **How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?**

Not applicable

- **How does the designated index differ from a relevant broad market index?**

Not applicable

- **Where can the methodology used for the calculation of the designated index be found?**

Not applicable
