Dear Client Title, Surname OR Sir/Madam

Client Reference Number:

Changes to Aviva Investors Funds

As part of our ongoing commitment to our clients' we constantly review our fund range to ensure that all the information we provide about our funds is as clear and appropriate as possible. We are therefore writing to inform you of our intention to clarify some aspects of our fund objectives.

This letter is for your information as an investor in our funds. We recommend you take the time to review the changes. You do not need to respond to us unless you want to take action.

We are changing the way we describe the investment policy of our funds, as detailed in the Appendix to this letter for the funds you invest in. This is not a change to the way the funds are run, it is just designed to make the funds' aims and strategies clearer. The following summarises and explains these changes.

The new investment policy wording better describes the funds' overall strategy and the types of investment the manager will look for. The overall investment objectives are nearly always long-term, meaning fund performance should be judged over five years or more.

We also set out how environmental, social and governance (ESG) criteria are integrated into the investment process and considered alongside a range of financial metrics and research. We also actively engage with companies and use voting rights with the aim of positively influencing company behaviour. Further information on how we integrate ESG and the limited exclusions we have is available on our website and in the Prospectus.

We have introduced a "Performance and Risk Measurement" section which explains how fund performance is compared against a benchmark index, which is usually a financial index, and we explain why the benchmark or index has been selected for performance and risk measurement. This also introduces "tracking error" for the equity funds. This is a risk measure indicating the likely consistency between the fund's returns and the returns of the index. In general, the lower the tracking error, the more consistent the fund's returns are relative to the index, and vice-versa.

Issued by Aviva Investors UK Fund Services Limited. Registered in England No. 1973412. Authorised and regulated by the Financial Conduct Authority. Firm Reference No. 119310. Registered address: St Helen's, 1 Undershaft, London EC3P 3DQ. An Aviva company. www.avivainvestors.com 19617 UK 08/2019

Aviva Investors: [Public](#)

Please note that these clarifications will not result in any change to the investment strategy or risk profile of the funds and are being made to more clearly describe how the funds are managed. Full details of these clarifications for the funds you invest in are in the Appendix.

Is any action required?

This letter is for information purposes and you are not required to take any action. We are providing you with 30 days' advance notice of the changes to the funds in order that you have time to consider them and time to take action, should you wish to do so, before the changes become effective on 7 August 2019. For further details and clarification please refer to the funds' Key Investor Information Documents (KIID) and Prospectus which are available at <https://www.avivainvestors.com/amms>.

If you have any queries on the changes we are making, which are not covered here, please contact your financial adviser or our Customer Service Team on 0800 051 2003* or internationally on +44 1268 44 8219**.

We recommend that you speak to your financial adviser before making any investment decisions. You should not interpret anything in this letter as financial advice. If you do not have a financial adviser then you can obtain details of independent financial advisers in your area by visiting www.unbiased.co.uk.

Thank you for investing with Aviva Investors.

Yours sincerely,

A handwritten signature in black ink that reads "Iain Buckle". The signature is written in a cursive style and is positioned above a horizontal line.

Iain Buckle
Head of UK Management Companies

Appendix - Aviva Investors Multi-Strategy Target Return Fund

Previous	New
<p data-bbox="204 271 775 297">Aviva Investors Multi-Strategy Target Return</p> <p data-bbox="204 331 475 358">Investment Objective</p> <p data-bbox="204 392 823 696">To deliver a positive return over rolling three year periods regardless of the prevailing stock market environment. The Fund aims to generate a positive return, on average 5% per annum above the Bank of England Base Rate before the deduction of charges, over rolling three-year periods. In seeking to target this level of return the Fund also aims to manage volatility to a target of less than half the volatility of global equities, measured over the same rolling three-year periods.</p> <p data-bbox="204 730 823 909">These aims, however, are not guaranteed and it may not always be possible to achieve positive returns or to achieve the target level of volatility over rolling three-year periods, or over any period of investment. Consequently, investors' capital is at risk.</p> <p data-bbox="204 943 432 969">Investment Policy</p> <p data-bbox="204 1003 823 1182">In aiming to achieve the investment objective the Fund may invest globally in any of the following financial instruments: transferable securities, money market instruments, fixed interest securities, units in collective investment schemes, derivatives, forwards and deposits.</p> <p data-bbox="204 1216 823 1704">The Fund will make significant use of derivative instruments including: futures, options, swaps, swaptions and forwards. The Fund may take both long and synthetic short positions and derivative usage may include but is not limited to derivatives on interest rates, inflation rates, bonds, credit, equity, financial indices, volatility, dividend payments and currencies. Derivatives usage may be for the purposes of hedging, efficient portfolio management, or investment purposes and may be exchange traded or traded off exchange through market counterparties. The use of derivative instruments as part of the investment policy will mean that the Fund may, from time to time, have substantial holdings in liquid assets including deposits and money market instruments.</p>	<p data-bbox="850 271 1422 297">Aviva Investors Multi-Strategy Target Return</p> <p data-bbox="850 331 1121 358">Investment Objective</p> <p data-bbox="850 392 1422 880">To deliver a positive return over rolling three-year periods regardless of the prevailing stock market environment. The Fund aims to generate a positive return, on average 5% per annum above the Bank of England Base Rate before the deduction of charges, over rolling three-year periods. In seeking to target this level of return the Fund also aims to manage volatility to a target of less than half the volatility of global equities, measured over the same rolling three-year periods. These aims, however, are not guaranteed and it may not always be possible to achieve positive returns or to achieve the target level of volatility over rolling three-year periods, or over any period of investment. Consequently, investors' capital is at risk.</p> <p data-bbox="850 913 1078 940">Investment Policy</p> <p data-bbox="850 974 1070 1001">Core Investment:</p> <p data-bbox="850 1034 1422 1368">The Fund invests across a broad range of global asset classes (including emerging markets) that may include shares of companies, bonds (both corporate and government), cash, commodities, indirectly in property, and currencies. Other funds (including funds managed by Aviva Investors companies) may also be used to gain exposure to these asset classes. The Fund will make significant use of derivative instruments for investment purposes including: futures, options, swaps, swaptions and forwards.</p> <p data-bbox="850 1402 959 1429">Strategy</p> <p data-bbox="850 1462 1422 1919">The Fund is actively managed and may take both long and synthetic short positions and derivative usage may include but is not limited to derivatives on interest rates, inflation rates, bonds, credit, equity, financial indices, volatility, dividend payments and currencies. Derivatives usage may be for the purposes of hedging, efficient portfolio management, or investment purposes and may be exchange traded or traded off exchange through market counterparties. The use of derivative instruments as part of the investment policy will mean that the Fund may, from time to time, have substantial holdings in liquid assets including deposits and money market instruments.</p>

Environmental, Social and Governance (ESG) factors:

ESG factors are integrated into the investment process and are considered alongside a range of financial metrics and research, but the Investment Manager retains discretion over which investments are selected. We also actively engage with companies and use voting rights with the aim of positively influencing company behaviour and helping to create competitive returns. In addition, the Fund has limited exclusions based on Aviva Investors' UK Responsible Investment policy. Further information on how we integrate ESG and the Aviva Investors UK Responsible Investment policy into our investment approach, and how we engage with companies is available on our website and in the Prospectus.

Performance and Risk:

The Fund aims to generate returns which exceeds the Bank of England base rate, which has been chosen as the market standard indicator of the risk-free rate of return. The Fund targets 5% above this rate because that is the level of outperformance that the Investment Manager believes to be realistic for this strategy alongside the volatility aim.

The Fund is managed to a defined risk target - linked to the volatility of Global Equities.

Volatility measures how much the returns of the Fund may fluctuate and is an indicator of the level of risk taken by the Investment Manager. The Fund is expected to operate with a volatility no greater than 50% of that of Global Equities, however, there may be times where the Fund operates above this target. The Index we use to represent Global Equities is the MSCI® All Country World Index GBP (the Index). The Fund's Volatility is compared against the Index's monthly volatility, annualised, over 3-year rolling periods.

*The Index comprises large and medium sized companies, as determined by their market capitalisation (total market value of a company's outstanding shares), from both developed and emerging markets, and the index is designed to provide a broad measure of global equity market performance.

The Index has been selected as a benchmark due to the broad range of companies that it represents, and it is therefore an appropriate measure of the volatility of Global Equities.
