Dear Client Title, Surname OR Sir/Madam

Client Reference Number:

Changes to Aviva Investors Funds

As part of our ongoing commitment to our clients' we constantly review our fund range to ensure that all the information we provide about our funds is as clear and appropriate as possible. We are therefore writing to inform you of our intention to clarify some aspects of our fund objectives.

This letter is for your information as an investor in our funds. We recommend you take the time to review the changes. You do not need to respond to us unless you want to take action.

We are changing the way we describe the investment policy of our funds, as detailed in the Appendix to this letter for the funds you invest in. This is not a change to the way the funds are run, it is just designed to make the funds' aims and strategies clearer. The following summarises and explains these changes.

The new investment policy wording better describes the funds' overall strategy and the types of investment the manager will look for. The overall investment objectives are nearly always long-term, meaning fund performance should be judged over five years or more.

We also set out how environmental, social and governance (ESG) criteria are integrated into the investment process and considered alongside a range of financial metrics and research. We also actively engage with companies and use voting rights with the aim of positively influencing company behaviour. Further information on how we integrate ESG and the limited exclusions we have is available on our website and in the Prospectus.

We have introduced a "Performance and Risk Measurement" section which explains how fund performance is compared against a benchmark index, which is usually a financial index, and we explain why the benchmark or index has been selected for performance and risk measurement. This also introduces "tracking error" for the equity funds. This is a risk measure indicating the likely consistency between the fund's returns and the returns of the index. In general, the lower the tracking error, the more consistent the fund's returns are relative to the index, and vice-versa.

Please note that these clarifications will not result in any change to the investment strategy or risk profile of the funds and are being made to more clearly describe how the funds are managed. Full details of these clarifications for the funds you invest in are in the Appendix.

Is any action required?

This letter is for information purposes and you are not required to take any action. We are providing you with 30 days' advance notice of the changes to the funds in order that you have time to consider them and time to take action, should you wish to do so, before the changes become effective on 7 August 2019. For further details and clarification please refer to the funds' Key Investor Information Documents (KIID) and Prospectus which are available at <https://www.avivainvestors.com/amms>.

If you have any queries on the changes we are making, which are not covered here, please contact your financial adviser or our Customer Service Team on 0800 051 2003* or internationally on +44 1268 44 8219**.

We recommend that you speak to your financial adviser before making any investment decisions. You should not interpret anything in this letter as financial advice. If you do not have a financial adviser then you can obtain details of independent financial advisers in your area by visiting www.unbiased.co.uk.

Thank you for investing with Aviva Investors.

Yours sincerely,

This includes engagement with the occupiers of properties to reduce energy consumption and waste, and to increase community engagement. Identification of ESG risks does not preclude investment in or the continued holding of an asset, as our ability to mitigate risks through active management of assets is also taken into account, and the Investment Manager retains discretion over the investments that are selected for the Master Fund. Aviva Investors’ investment policy includes limited ESG restrictions, and further</p>

information on how we integrate Responsible Investment and these restrictions into our investment approach, and how we engage with companies is available on our website and in the Prospectus.

Investors may wish to refer to the Key Investor Information Document (KIID) and Prospectus for the Master Fund for full details of its investment objective and the investments it can make.

Performance and Risk Measurement:

The Fund's performance is compared against the Investment Association UK Direct Property Sector (the "Sector"). The Sector is an industry benchmark made up of funds which meet the Sector criteria, which includes investing at least 70% of their assets directly in UK property on average over 5 year rolling periods. The Sector also includes funds whose policy is to dedicate investment into one of the funds which meet the Sector criteria, which is the case for the Fund.

The Sector has been selected as a benchmark for performance and risk measurement because the Fund will be managed in line with the criteria of the Sector, and it is an independent measure of the performance of investment funds which are comparable to those of the Fund. It is therefore an appropriate comparator for the Fund's performance.
