What is Professional Indemnity Insurance?

Professional indemnity insurance is important for businesses that offer professional advice, design or consultancy services. It is sometimes called “errors and omissions” insurance and covers you in the event that you make a mistake, give wrong advice or provide poor service that causes financial loss to a client or customer who then claims for compensation. Even if your business has done nothing wrong, professional indemnity insurance will cover the legal costs necessary to defend you against allegations and protect your business’ reputation.

Professional indemnity cover is on a “claims made” basis and only covers you for claims first made against you during the period of insurance.

- Liability arising from services as part of a joint venture
- Cover for the rectification costs of lost or damaged documents or data
- Legal defence costs and claims for compensation arising from mistakes in your work for a client or you fail in your duty of care as a professional
- an employee commits a dishonest or fraudulent act
- You have used material about an individual that causes offence or breaches their confidentiality
- Breach of contract
- Breach of statute
- Representation at official proceedings relating to issues which may later become a claim.

What’s not covered

- Claims and circumstances known at the inception of cover
- Insolvency or bankruptcy of the Insured
- The most we will pay for claims brought in Canada or the United States of America is your cover limit, inclusive of legal costs and expenses
- Claims caused by computer viruses
- £250 excess will be deducted from each and every claim.

NOTE

Cover is currently not available for professions which are required to hold compulsory professional indemnity insurance (such as accountants, architects, solicitors or surveyors) or require design & build cover.
