

Creating a better tomorrow: Aviva's climate goals

Our plan is to become a **Net Zero carbon emissions company by 2040*** - the most demanding target of any major insurance company in the world

Targeting Net Zero on carbon emissions we produce ourselves by **2030**, from our suppliers by **2030** and from customers' and shareholders' investments by **2040**.

What we have done so far

- Do not insure any fossil fuel companies
- Aviva offers a range of Funds designated as Article 8 or Light Green Funds under the Sustainable Finance Disclosure Regulations.
- Aviva Group Biodiversity policy launched - supported by five Aviva bee hives in Cork and Dublin
- Continue to use 100% renewable electricity in our offices

By end of 2022

- Publish our Climate Transition Plan

By 2025

- **25% cut in carbon intensity of investments**
- 100% of fleet converted to fully electric
- Aviva investors will invest £2.5bn in low carbon and renewable energy infrastructure and deliver £1bn of carbon transition loan

By 2030

- **60% cut in carbon intensity of investments**
- Net Zero operations
- Net Zero supply chain
- £100m committed to nature-based solutions by Aviva Group

By 2040

- **Net Zero company with Net Zero carbon investment**
