

## **DENIOS**

### Hazardous Materials Storage and Handling

We can provide storage and handling solutions for hazardous materials through our Specialist Partner DENIOS. These solutions are available to Aviva customers at preferential rates.

Many businesses of all sizes and industries work with hazardous materials regularly. The manner in which these materials are stored and handled is critical to help prevent significant harm or damage resulting from either ignition or spillage.

#### Services

- Design, manufacture and supply hazardous materials storage and handling solutions.

#### Benefits

- Protect your employees, your facilities, and the environment responsibly.
- Reduce the risk of costly and dangerous accidents.
- Helps meet your regulatory responsibilities under Health and Safety regulation.
- Supports your own business resilience reducing downtime in the event of a major incident.
