

Aviva Multi-Asset Funds (MAFs)

Actively managed by Aviva Investors

Aviva Investors manage c. €87 billion in Multi-Asset Funds worldwide and c. €2.2 billion in assets in Ireland alone, having been involved in multi-asset investing for over 35 years. Their investment decisions are made by their 50+ strong team of experienced professionals who are focused on multi-asset investing¹. When considering investments to include in the fund, as well as analysing traditional criteria (for example when looking at equities they look at factors such as profitability, sector and economic conditions), they also consider Environment, Social and Governance criteria such as impact on the environment, company culture, and corporate governance.^{2,3}

Fund overview

The MAFs range aims to meet the requirements of investors with varying attitudes to risk. Each fund is constructed using three distinct asset classes: Growth, Defensive and Uncorrelated. Aviva investors manage the allocation between these asset classes in order to help manage risk and deliver enhanced returns, while also determining underlying exposures of each asset class.

Growth assets	Assets to drive returns: Equities, High Yield Bonds, Emerging Market Bonds
Defensive assets	Assets to offer protection: Government Bonds, Investment Grade Corporate Bonds, Cash
Uncorrelated assets	Assets with low correlation to equities: Absolute Return, Alternative assets
