

## SelectaDNA

### Security Marking

We can provide property security marking solutions through our Specialist Partner, SelectaDNA. These solutions are available to Aviva customers at preferential rates.

Deterrence can be an effective way to combat theft. Whether on tools, plant, equipment, laptops or smartphones, the use of marking solutions can make property harder to sell on and therefore a less likely target for thieves.

SelectaDNA are an award-winning, leading supplier of security marking and asset identification solutions which deter theft and help recover stolen property. SelectaDNA hold ISO9001, ISO4001, and ISO27001 accreditations for its quality, environmental and information security management systems.

### Services

- SelectaDNA property marking kits and visible marking
- SelectaDNA intruder spray system
- BikeRegister.com security marking and registration kits

### Benefits

- Security marking is easy to implement
- It can be an effective theft deterrent at a low cost
- Range of versatile products including DNA forensic marking and intruder spray systems
- If property is indeed lost or stolen, if found can be traced back to you by the Gardai.
- Can reduce the risk of disruption caused by theft, including loss of trading, loss of data and the negative impact on staff
