

Lifetime mortgage

Variable Individual Gilt Early Repayment Charges

Available to customers who applied for their lifetime mortgage on or before 23 January 2022.

Your lifetime mortgage is designed to be repaid when you (and the second borrower if you have a joint lifetime mortgage) die or need long-term care, subject to the terms and conditions. But circumstances can change, and you may find that you want to repay your loan in full at an earlier date. If you need to do this, you may have to pay an early repayment charge.

We currently offer a Fixed Percentage and a Variable Gilt Index early repayment charge. This booklet covers the Variable Individual Gilt early repayment charge, and in it we explain:

- Why we make this early repayment charge
- When you would need to pay it – or not
- How the early repayment charge works
- How to check how much the early repayment charge will be.

The Variable Individual Gilt early repayment charge is no longer available to new lifetime mortgages. If you already have a lifetime mortgage which completed using the Variable Individual Gilt early repayment charge, it will also apply to any further money you borrow from us after the initial loan.

Fixed Percentage - Early Repayment Charge

If you would like more information on our Fixed Percentage early repayment charge:

- Speak to your equity release adviser
- Give us a call on **0800 158 4177** (calls may be recorded or monitored)
- Download a copy from our website at aviva.co.uk/adviser/documents/view/pf011601c.pdf

Variable Gilt Index - Early Repayment Charge

If you would like more information on our Variable Gilt Index early repayment charge:

- Speak to your equity release adviser
- Give us a call on **0800 158 4177** (calls may be recorded or monitored)
- Download a copy from our website at aviva.co.uk/adviser/documents/view/pf011612c.pdf

Why is there an early repayment charge?

Lifetime mortgages are usually repaid when the borrower dies or needs long-term care. We use relevant statistics to determine when we might expect loans to be repaid and set our rates and fees accordingly. If a loan is repaid early we may need to recover our costs. For example, the transaction costs of reinvesting the money or the cost of changes in long-term interest rates.

When we don't make an early repayment charge

In certain circumstances we **don't** apply an early repayment charge. They're summarised below and you can find more information in your lifetime mortgage terms and conditions.

1. If you are joint borrowers and your lifetime mortgage is repaid within 3 years of the date on which the first of the borrowers dies or needs long-term care. This feature is available on lifetime mortgages applied for on or after 28 April 2014.
2. When the lifetime mortgage is repaid because you and all borrowers have either died or meet our long-term care criteria.
3. You move to a new property and we agree you can transfer your lifetime mortgage to that property.
4. If you want to move to a new property that doesn't meet our current lending criteria, but you're eligible for downsizing protection.
5. You want to sell part of your property and we give our consent.
6. You'd like someone to move into the property with you as a joint borrower and for the lifetime mortgage to be repayable when the last person dies or goes into long-term care.
7. If you're making voluntary partial repayments up to a maximum of 10% per year of the total amount borrowed, you won't pay an early repayment charge on these repayments. This feature is available on lifetime mortgages applied for on or after 28th April 2014.
8. The gilt, that's been assigned to your lifetime mortgage, has expired.
9. If the gilt yield on the repayment date is the same, or higher, than it was on the completion date of your initial loan and each subsequent loan (if you have taken further borrowing).

Why we use gilts

A 'gilt' is another word for a UK government bond. The government issues these to raise money for public spending. The term 'gilt' or 'gilt-edged security' refers to their primary characteristic as an investment: their security.

The interest rate on your lifetime mortgage is fixed at the start, but as the loan is designed to last for the rest of your life, we need an independent guide to what's likely to happen to interest rates over the same timescale. Gilts give a good indication of long-term interest rates, which is why we use changes in gilt yields (the rate of return the government offers on its gilts) to calculate early repayment charges. There are two advantages of this:

1. Gilts are impartial and transparent. They're a truly independent guide as Aviva has no say in whether gilt yields rise or fall.
2. You won't have to pay an early repayment charge if gilt yields have remained the same or risen. But if gilt yields fall this would mean we'd lose out when reinvesting, so then we would make an early repayment charge.

How the Variable Individual Gilt early repayment charge works

To work out if we need to apply an early repayment charge, and how much the early repayment charge will be, we use UK government bonds (gilts). Gilt yields are published daily in the Financial Times.

When you complete your lifetime mortgage, your loan will be assigned an individual gilt. The gilt name will be shown on your completion letter. To check if an early repayment charge will apply, we look at the movement in the gilt yield of the individual gilt assigned to your loan on the date the lifetime mortgage completed and on the date you choose to repay.

- If the gilt yield is the same or higher than it was at completion, there is no early repayment charge to pay.
- If the gilt yield has fallen by 0.125% or more we'll make an early repayment charge unless one or more of the exemptions apply, as described on page 2 under 'When we don't make an early repayment charge'.

The early repayment charge won't be more than 25% of the total amount you've borrowed for any lifetime mortgages taken on or after 15th March 2004.

If, after taking out your initial loan, you apply for additional borrowing or take withdrawals from your cash reserve, the early repayment charge you will pay is dependent on how long you've had the loan (or loans) and how much the gilt yield has fallen.

Three important documents you must read to understand the early repayment charge

The following three documents will have been sent to you when you first completed your lifetime mortgage and for any further borrowing you've since taken.

- **Offer Document** – This document would have been sent to you after you applied for your lifetime mortgage and if you later applied for additional borrowing. It tells you how much you're able to borrow and the interest rate being offered to you. We also would have sent an early repayment charge table with the Offer document. This table is important to read and understand because it tells you the early repayment charge applicable for each year of your loan and for the different percentage falls in gilt yields.
- **Terms and conditions** – The Terms and Conditions are sent to you with your Offer document and provide more information on early repayment charges. They explain why we apply an early repayment charge, how we calculate it and instances when an early repayment charge won't apply.
- **Completion Letter** – This letter is sent when your application is complete. It shows the specific gilt linked to your loan. It will also tell you the gilt redemption percentage based on the day you receive your money. The specific gilt and gilt redemption percentage shown in this letter are crucial for calculating whether an early repayment charge is applicable and how much it will be.

The gilt yield will rise and fall with market conditions. What happens to the gilt yield determines whether or not there is an early repayment charge.

How to check if an early repayment charge applies and how much it will be

If you're considering repaying your lifetime mortgage early, you can find out if an early repayment charge applies and how much you would need to pay in a number of ways:

- Online with **MyAviva**. Your current early repayment charge is shown at all times, alongside other ways you can manage your lifetime mortgage online. To register for MyAviva go to direct.aviva.co.uk/MyAccount/login
- Call us on **0800 158 4177** to ask for an early repayment charge quote.
- If you like you can **work out the early repayment charge yourself**. We show how to do it in the next section of this guide.

Work out your early repayment charge in 5 steps

To work out the early repayment charge you'll need:

- **Completion letter** - if you have more than one loan you'll need the letter for each loan. If you can't find your completion letter, call us on **0800 158 4177** (calls may be recorded or monitored).
- **Early repayment charge table** we sent you with your lifetime mortgage offer. If you have more than one loan you'll need the early repayment charge table for each loan.

Step 1 - Check the completion date, gilt name and the gilt yield

- Check the completion date on your completion letter so you know how many years you've had your loan.
- Check the gilt name and the gilt yield on the completion letter.

NOTE: If you have more than one loan you'll need the completion letter for each loan.

Step 2 - Find your early repayment charge table

You'll need the **early repayment charge table** we sent you with your lifetime mortgage offer.

Step 3 - Find out today's gilt yield for your gilt

- You'll need to register on the **Tradeweb** website.
- You can register on Tradeweb free of charge in a few simple steps by using this address: reports.tradeweb.com/account/register/.
- Once registered, you can find out the **gilt yield for your gilt** today (which you've identified from your completion letter in Step 1)
- You can give us a call on the number at the top of this page if you need help with this and we can talk you through how to register and use the site.

Step 4 - Work out the change in gilt yield

- You'll need to work out the **change in gilt yield** between the date your loan was completed (Step 1) and today's date (Step 3).

Step 5 - Calculate the early repayment charge

- Use the **early repayment charge table** (Step 2) to find out what the early repayment charge amount will be.

Example repayments

To help you work out your repayments we've included three examples.

- See Example 1 on the following page if you've borrowed only your initial loan and you've not made any voluntary or mandatory partial repayments.
- Use Example 2 on page 8 if you've borrowed only your initial loan and you've made either voluntary or mandatory partial repayments
- Use Example 3 on page 11 if you've taken out more than one loan, for example additional borrowing or cash reserve release since your initial loan.

Example 1 - One initial loan only and made no voluntary or mandatory partial repayments

You've released an initial lump sum of £22,069 and you've taken no further loans.

Step 1 - Check the completion date, gilt name and the gilt yield on your completion letter

- Completion date is: **26/07/2019**
- Gilt name is: **UKT 1.5 07/47**
- Giltyield is: **1.36%**

Lifetime Mortgage – release of funds

I am pleased to tell you that your loan has been advanced.

The cash payment was paid to our legal adviser's account on **26th July 2019**.

You don't need to make any regular repayment. The total amount you owe must be repaid, usually from the sale of your home, when you die or leave your home because you need long-term care. You can make voluntary partial repayments and this is explained in your offer document and the terms and conditions booklet sent to you previously.

Rates specific to your loan

The interest rate of 4.33% per annum compound will be calculated on the total amount borrowed of £22,069.00.

The redemption yield for the **UKT 1.5 07/47** gilt on the date your loan was advanced was **1.36%**.

For further details, please refer to the Lifetime Mortgage terms and conditions booklet sent to you previously.

Step 2 - Find your Early repayment charge table

Lifestyle Lump Sum Max

Single Borrowers age 60-64 - Reference Gilt: UKT 1.5 07/47

UKT 1.5 07/47	12/02/2021	GB00BDCHBW80	Conventional	1.500	22/07/2047	109.260	109.359448	1.095558	22.017604	0.099448
UKT 1.5 07/47	15/02/2021	GB00BDCHBW80	Conventional	1.500	22/07/2047	107.710	107.813591	1.160428	21.970106	0.103591
UKT 1.5 07/47	16/02/2021	GB00BDCHBW80	Conventional	1.500	22/07/2047	106.620	106.727735	1.206688	21.935295	0.107735
UKT 1.5 07/47	17/02/2021	GB00BDCHBW80	Conventional	1.500	22/07/2047	108.120	108.231878	1.143095	21.976595	0.111878
UKT 1.5 07/47	18/02/2021	GB00BDCHBW80	Conventional	1.500	22/07/2047	107.100	107.216022	1.186183	21.944031	0.116022
UKT 1.5 07/47	19/02/2021	GB00BDCHBW80	Conventional	1.500	22/07/2047	105.680	105.808453	1.246934	21.893569	0.128453

Step 4 - Work out the change in gilt yield

Work out the change in gilt yield between the date your loan was completed (Step 1) and today's date (Step 3)

Step 5 - Calculate the early repayment charge

Round your gilt yield fall to the nearest 0.25%.

1. In this case study, the **yield fall is 0.48%**, so rounding this to the nearest 0.25% takes you to a 0.50% fall (as 0.48 is nearer to 0.50 than 0.25).
2. If repaying on 2nd February 2021 – you're repaying in **Year 2** (26/07/2019 to 25/07/2020 = 1 complete year, so now you're in year 2).

Gilt yields can change daily as they are affected by market conditions external to Aviva. They can rise and fall, which has a direct impact on any early repayment charge you may have to pay.

Lifestyle Lump Sum Max

11	£0.00	£2,656.42	£5,312.83	£5,415.04	£5,517.25	£5,517.25	£5,517.25	£5,517.25	£5,517.25
12	£0.00	£2,635.05	£5,270.10	£5,393.68	£5,517.25	£5,517.25	£5,517.25	£5,517.25	£5,517.25
13	£0.00	£2,610.40	£5,220.80	£5,369.02	£5,517.25	£5,517.25	£5,517.25	£5,517.25	£5,517.25
14	£0.00	£2,582.42	£5,164.84	£5,341.04	£5,517.25	£5,517.25	£5,517.25	£5,517.25	£5,517.25
15	£0.00	£2,551.24	£5,102.48	£5,309.86	£5,517.25	£5,517.25	£5,517.25	£5,517.25	£5,517.25
16	£0.00	£2,517.01	£5,034.01	£5,275.63	£5,517.25	£5,517.25	£5,517.25	£5,517.25	£5,517.25

The early repayment charge = £2,734.70

Example 2 - One initial loan and you've made voluntary and/or mandatory partial repayments

- You've taken out a Lifestyle Flexible Option product for £30,000.00 and have only the one loan.
- You've made voluntary partial repayments. You should use the early repayment charge table we sent to you with your most recent voluntary partial repayment to find out what the early repayment charge will be. This is because we use the loan amount to calculate the early repayment charge and by making voluntary partial repayments, this will reduce the loan amount used to calculate the early repayment charge.

Step 1 - Check the completion date, gilt name and the gilt yield

- Completion date is: **21/09/2020**
- Gilt name is: **UKT 3.25 01/44**
- Gilt yield is: **0.72%**

Lifetime Mortgage – release of funds

I am pleased to tell you that your loan has been advanced.

The cash payment was paid to our legal adviser's account **21st September 2020**.

You don't need to make any regular repayments. The total amount you owe must be repaid, usually from the sale of your home, when you die or leave your home because you need long-term care. You can make voluntary partial repayments and this is explained in your offer document and the terms and conditions booklet sent to you previously.

Rates specific to your loan

The interest rate of 2.41% per annum compound will be calculated on the total amount borrowed of £30,000.00.

The redemption yield for the **UKT 3.25 01/44** gilt on the date your loan was advanced was **0.72%**.

For further details, please refer to the Lifetime Mortgage terms and conditions booklet sent to you previously.

Your agreed reserve

Your agreed reserve amount is £40,000.00.

Step 2 - Find your Early repayment charge table

- As you've made voluntary partial repayments (VPRs), you need the early repayment charge table we sent to you following your most recent repayment, as it will show a lower loan amount. An example is shown below.
- Before you made voluntary partial repayments, the loan amount used to calculate your early repayment charge was £30,0000 (as shown on your completion letter), meaning the maximum early repayment charge you could pay was £7,500.
- As you've made voluntary partial repayments, the amount used to calculate your early repayment charge is £29,503.04 and the maximum early repayment charge would be £7,375.76, as shown in the Maximum charge column in the table below.

Early repayment charge table

This table shows the early repayment charge you'll have to pay at various times throughout your lifetime mortgage, if the redemption yield has fallen. The early repayment charge will never be more than the amount shown in the "Maximum Charge" column.

Lifestyle Flexible Option

Step 3 - Find out today's gilt yield for your gilt

Once registered on Tradeweb, you can find out the gilt yield for your gilt (**UKT 3.25 01/44**) today.

We use the figure from close of business the previous working day e.g. if repaying on 23rd February 2021, we use the yield at close of business on 22/02/2021 **1.2142%**.

Gilt Name	Close of Business Date	ISIN	Type	Coupon	Maturity	Clean Price	Dirty Price	Yield	Mod Duration	Accrued Interest

Step 4 - Work out the change in gilt yield

Work out the change in gilt yield between the date your loan was completed (Step 1) and today's date (Step 3)

Step 5 - Calculate the early repayment charge

As the gilt yield has gone up since the completion day, there is no early repayment charge today.

NOTE - Gilt yields can change daily as they are affected by market conditions external to Aviva. They can rise and fall, which has a direct impact on any early repayment charge you may have to pay.

Example 3 - You've taken more than one loan

- You've taken out the Lifestyle Flexible Option product:
 - Main loan of £108,078
 - Additional Borrowing of £10,504
 - Reserve Release of £20,000
- Each loan has its own early repayment charge calculation, so you'll need the completion letters and early repayment charge tables for each loan.

Step 1 - Check the completion date, gilt name and the gilt yield

Main Loan

- Completion date is: **07/06/2018**
- Gilt name is: **4.75% Treasury 2038**
- Gilt yield is: **1.80%**

Additional Borrowing

- Completion date is: **15/10/2018**
- Gilt name is: **4.5% Treasury 2034**
- Gilt yield is: **1.90%**

Reserve Release

- Completion date is: **20/11/2020**
- Gilt name is: **UKT 4.25 03/36**
- Gilt yield is: **0.65%**

Main loan

Lifetime Mortgage – release of funds

I am pleased to tell you that your loan has been advanced.

The cash payment was paid to our legal adviser's account on **7th June 2018**.

You don't need to make any regular repayments. The total amount you owe must be repaid, usually from the sale of your home, when you die or leave your home because you need long-term care. You can make voluntary partial repayments and this is explained in your offer document and the terms and conditions booklet sent to you previously.

Rates specific to your loan

The interest rate of 3.74% per annum compound will be calculated on the total amount borrowed of £108,078.00.

The redemption yield for the **4.75% Treasury 2038** gilt on the date your loan was advanced was **1.80%**.

For further details, please refer to the Lifetime Mortgage terms and conditions booklet sent to you previously.

Additional Borrowing

15th October 2018

Dear Mr and Mrs Gibson

Additional Borrowing – Completion

I am pleased to tell you that your additional borrowing has been issued.

Rates specific to your additional borrowing

The interest rate of 5.12% per annum compound will be calculated on your additional borrowing amount of 10,504.00.

The redemption yield for the 4.5% Treasury 2034 gilt on the date your additional borrowing was advanced was 1.90%.

For further details, please refer to your additional borrowing offer document sent to you previously.

Your agreed reserve

Your agreed reserve is now £20,000.00.

Reserve Release

20th November 2020

Dear Mr and Mrs Gibson

Lifetime Mortgage

I am pleased to tell you that your reserve release has been issued today.

The cash payment will be paid to your nominated bank account within the next 5 working days.

You won't make any monthly repayments during the lifetime of this mortgage.

Please find enclosed a Gilt table for this release. The Gilt table details what early repayment charges may be applicable, if you decide to repay your lifetime mortgage early.

Rates specific to this release

The interest rate of 3.3900% per annum compound will be calculated on this release of £20,000.00.

The redemption yield for the UKT 4.25 03/36 gilt on the date this release was issued was 0.65%.

For further details, please refer to your Lifetime Mortgage terms and conditions booklet.

Your agreed reserve

Your agreed reserve amount is now £0.00.

Step 2 - Find your Early repayment charge table for each loan

Early repayment charge table

This table shows the early repayment charge you'll have to pay at various times throughout your lifetime mortgage, if the redemption yield has fallen. The early repayment charge will never be more than the amount shown in the "Maximum Charge" column.

Step 4 - Work out the change in gilt yield

Work out the change in gilt yield between the dates your loans were advanced to completed (Step 1) and today's date (Step 3) .

Step 5 - Calculate the early repayment charge

Use the Early repayment charge table for each loan to find out what the early repayment charge amount will be. Round your gilt yield fall to the nearest 0.25%.

Main Loan

The **yield fall is 0.73%**, so rounding this to the nearest 0.25%, takes you to a **0.75% fall** (0.73 is nearer to 0.75 than 0.50).

If repaying on 23rd Feb 2021 – you're repaying in **Year 3** (07/06/2018 to 06/06/2020 = 2 complete years, so now you're in year 3).

There is not a 0.75% column on the early repayment charge table, so you need to add together the amount in the 0.5% fall column and the amount in the 1.0% fall column and divide by 2.

The early repayment charge for the main loan = £17,742.32

$$[(£11,828.21 + 23,656.42)/2]$$

Additional Borrowing

The **yield fall is 0.97%**, so rounding this to the nearest 0.25% takes you to a 1.0% fall (0.97 is nearer to 1.0 than 0.75).

If repaying on 23rd Feb 2021 – you're repaying in **Year 3**

The early repayment charge for the additional borrowing = £1,745.72

Reserve Release

As the gilt yield has gone up since the completion day, there is no early repayment charge.

Main loan

Early repayment charge table

This table shows the early repayment charge you'll have to pay at various times throughout your lifetime mortgage, if the redemption yield has fallen. The early repayment charge will never be more than the amount shown in the "Maximum Charge" column.

Total early repayment charge if the lifetime mortgage was to be repaid on 23rd February 2021:

£17,742.32 (early repayment charge for the main loan) + **£1,745.72** (early repayment charge for the additional borrowing) + **£0.00** (early repayment charge for the reserve release) **Total = £19,488.04**

FAQs

I can't find my completion letter, where can I find the information I need to work out my early repayment charge?

You can give us a call on **0800 158 4177** and we'll be able to send you a copy of your completion letter and we can also tell you the information you need over the phone.

I've moved home and transferred my lifetime mortgage to my new home, what documents would I need to be able to find the information to work out if an early repayment charge applies to me?

To find the gilt name and gilt yield on the completion day

When you moved and transferred your lifetime mortgage to your new property, you kept the same gilt name and the gilt yield at completion from when you first took your lifetime mortgage, or any further borrowing (if this applies to you).

This information will be on the completion letters we sent you when you first took your lifetime mortgage, or further borrowing.

Early repayment charge table

If you moved to a property of lower value, you may have had to make a 'mandatory partial repayment'. Therefore, you need to use the early repayment charge table we sent you with the moving property offer.

If you're able to make voluntary partial repayments and you've made repayments, you need to use the early repayment charge table sent to you when you made the voluntary partial repayment.

The early repayment charge table I received with my offer has percentages and not amounts, how should I calculate my early repayment charge?

You'll need your completion letter and in addition to the information that you obtained in Step 1 (in the examples on the pages above), you'll also need to know your **loan amount**. This is the amount you initially borrowed from us when you took your lifetime mortgage.

Once you know how much the gilt yield has fallen by and how many years you've had your lifetime mortgage, you can find the relevant percentage in the early repayment charge table and multiply this percentage by the loan amount.

Flexible Cash Release Plan – release of funds

I am pleased to inform you that your loan has been advanced.

The cash payment was paid to our legal adviser's account on **8th April 2004**.

Rates specific to your loan

The interest rate of 7.29% per annum compound will be calculated on the total amount borrowed of **£16,500.00**.

The redemption yield for the **4.25% Treasury 2032** gilt on the date your loan was advanced was **4.72%**.

Please refer to the loan agreement and Personalised Illustration of the Flexible Cash Release Plan sent previously for full details.

If you were repaying today e.g. 23rd February 2021 and you took your loan 8th April 2004, you've had your loan for **16 complete years**. Find '16' on the early repayment charge table in the column titled 'Complete Years from Loan Commencement'

The gilt yield at close of business on 22nd February 2021 was 0.80%. This is a fall of 3.92% (4.72% on completion day – 0.80% today), so we use the **4% fall** column (as 3.92% is nearer to 4% than 3.75%).

Find the 4% column on the early repayment charge table.

28	0.0%	6.4%	12.7%	19.4%	26.1%	33.1%	40.1%	47.4%	54.7%

The fall in gilt yields will be calculated to the nearest 0.25%. The fee for a fall not shown in this table will be the mid-point between the next highest and the next lowest fall shown.

This means your early repayment charge will be 68.9% x your initial loan amount:

$$\pounds 16,500 \times 68.9\% = \pounds 11,368.50$$

How do I find out when I will no longer be charged an early repayment charge?

Once the gilt that's been assigned to your lifetime mortgage has expired, you won't have to pay an early repayment charge. There are a few places where you can find the date the gilt expires:

- You can give us a call on **0800 158 4177** and we'll be able to tell you this.
- You can register for MyAviva to see this information clearly displayed for you in the 'Early repayment' tab. Click on the heading – How much will it cost to repay my loan early? (see example below).
- You can find this in your annual statement, which is also available to view in MyAviva by clicking on the 'Documents' tab (see example below).
- You can find this in Section 13 of your offer document, which we sent you when you took your lifetime mortgage (see example below).
- This is also detailed on the Tradeweb website in the 'Maturity' column.

If you've borrowed more money from us, the expiry dates for an early repayment charge could be different for your different loans.

How to check when you will no longer be charged an early repayment charge on MyAviva

How much will it cost to repay my loan early? Hide

Your loan doesn't need to be repaid until you die or move into long-term care. Find out more about repaying early by calling us on 0800 151 2553.

Early repayment charges can change daily. The values shown are correct as of 08/02/2016. Any loan taken today won't show until the next working day.

Total cost to repay early: £107,084.90

The information below shows you any loans you have with us including the interest rate and the amount owed for each loan. You can find out more about how we calculate interest below. The values shown are correct as of 08/02/2016. Any loan taken today won't show until the next working day.

Type of loan	Date loan taken	Early repayment charge	Date early repayment charge no longer applies	Early repayment admin charge
Initial Loan	25/07/2014	£14,494.85	07/06/2032	£0.00
Total		£14,494.85		£0.00

Annual Statement

Your Index-linked Lifetime Mortgage statement
For 15 November 2021 to 14 November 2022

About your loan

- You took out your loan on 15 November 2004. The balance brought forward from the previous statement period is £147,919.13.

New interest charged

- The effective interest rate for the statement period was 10.12%. The amount of interest at the minimum rate was £7,233.24 and the amount for the Retail Price Index increase was £7,735.16.

Early repayment charges

- If your loan was repaid on 14 November 2022 there would be an early repayment charge of £9,900.00. We would also charge an administration fee of £50.00.
- The early repayment charge is linked to gilt yields, (gilts are UK government bonds). These can change daily and they can go up as well as down.

If you'd like more information about how our early repayment charges work, we have a guide called 'Our variable individual gilt-based early repayment charges explained'. You can get a copy from your financial adviser, visit aviva.co.uk/adviser/documents/view/pf011231c.pdf, or give us a call.

Charges and fees

The charges shown in this statement will only apply if you decide to pay back your Lifetime Mortgage early.

Your total early repayment charge can change daily – going up, down or may even be zero. So, get in touch if you're thinking of paying it back.

There won't be an early repayment charge:

- If the Lifetime Mortgage is repaid following your death, or you meet our long-term care criteria.
- after 26 January 2035 when this charge no longer applies.

Section 13 – Offer

13. What happens if you do not want this mortgage any more?

Early repayment charges

You can repay this lifetime mortgage at any time but if you do so you may have to pay an early repayment charge at the same time. We calculate this charge based on the movement in gilt redemption yields between the date the lifetime mortgage completed and the date you are quoted an early repayment charge. A gilt is a Government security and a number of different gilts are available. The specific gilt associated with your lifetime mortgage is chosen to reflect its expected term. You will incur an early repayment charge if the gilt yield is lower on the date you are quoted an early repayment charge than on the date the lifetime mortgage completed. Where we quote you an early repayment charge it will be valid for 3 working days, including the day the figure is quoted. This is explained more fully in your terms and conditions booklet.

The maximum charge you could pay is £27,020. The lower gilt yields fall, the higher your repayment costs will be.

Cash examples of charges if you repay the mortgage early

	This is the charge you could pay if gilt yields fall by 1%	This is the charge you could pay if gilt yields fall by 2%	This is the charge you could pay if gilt yields fall by 3%
If you repay in year 1	£23,292.97	£27,019.50	£27,019.50
If you repay in year 11	£23,941.61	£27,019.50	£27,019.50
If you repay in year 21	£21,913.21	£27,019.50	£27,019.50

You are able to move home and take your lifetime mortgage with you, subject to your new property meeting our lending criteria at the time. If the new property is not acceptable, you will have to repay the lifetime mortgage. You may also have to pay an early repayment charge. This is more fully explained in your terms and conditions booklet.

Circumstances in which early repayment charges do not apply

- You repay after 7 December 2038.
- You repay before this date and gilt yields have not fallen. This is explained further in your terms and conditions booklet.
- You have died or you have left your home because you need long-term care.
- You are moving property and transferring your lifetime mortgage to the new property.
- If you have a joint lifetime mortgage and you repay within three years of the date that one of you has died or the date that you notify us that one of you needs long-term care.

How we assess your need for long-term care is more fully explained in your terms and conditions booklet.

Where to find more information

Three ways to find out more information about Equity Release options:

1. Contact our support team on

0800 158 4177

Monday to Friday 9am to 5pm

Closed bank holidays

2. Visit [aviva.co.uk](https://www.aviva.co.uk)

3. Contact your financial adviser

Need this in a different format?

Please get in touch if you'd prefer this brochure (**PF011231**) in large font, braille or as audio.
