

Lifetime mortgages as individual as your customers

We recognise our customers as individuals who have ever-changing needs, which is why our lifetime mortgage offers solutions which are flexible.

Here's our quick guide on the flexible options available to our new and existing customers who applied for their lifetime mortgage on or after 28 April 2014.

Voluntary partial repayments

- The number of repayments is unlimited.
- A customer can make a payment as soon as the day after completion of their initial loan, reserve release or additional borrowing.
- The minimum repayment amount is £50.
- There is no obligation to pay any amount.
- We will accept payment by debit card over the phone.
- The maximum a customer can pay each year without the potential for an early repayment charge is 10% of the total amount borrowed.
- The repayment will be applied to the most recent loan first.

Need some more money?

A customer could access more money, either by using their reserve or applying for additional borrowing.

- The number of times a customer can request more money is unlimited.
- The minimum reserve transaction is £500
- The minimum additional borrowing loan is £5000.
- A customer can access their reserve as soon as the day after completion via a phone call.
- The reserve funds can be in the customer's bank account the same day or
- The customer can request the money on a specific day, up to 14 days in advance.
- Interest only starts from the day the money is paid out.

If a customer has used all their reserve, or did not set one up, they will need to apply through our Additional Borrowing process, even if they have repaid some of their loan.

The loan repayment terms can help your customers reduce the amount of interest they have to pay, so they can actively manage their lifetime mortgage balance alongside their other assets and commitments.
