Peter Thomas Schwicht

Chair and Independent Non-Executive Director. A member of the Board since June 2012.

Mr Schwicht obtained a Business Economics degree from the University of Mannheim in Germany after having studied business, tax and accounting in Hamburg, Norway and the USA and was an employee of JPMorgan Asset Management from 1987 until October 2014. Prior to his retirement Mr Schwicht was the Chief Executive of Investment Management - EMEA, JPMorgan Asset Management. He had previously held positions as the Head of the Continental Europe Institutional business and the Investment Management Country Head for Institutional and Retail business in Germany where he first developed the business and then went on to expand this throughout Continental Europe. Mr Schwicht is currently a Director of several JPMorgan-managed Luxembourg-domiciled investment funds.

Jacques Elvinger

Non-Executive Director. A member of the Board since January 2009.

Mr Elvinger became a member of the Luxembourg Bar in 1984 and has been a partner of the Luxembourg law firm Elvinger Hoss Prussen since 1987. Mr Elvinger practices general corporate and banking law and specialises in the field of investment and pension funds. He is a member of the High Committee for the Development of the Financial Sector instituted by the Luxembourg Government. He is also a member of the Advisory Committees to the Luxembourg Commission for the Supervision of the Financial Sector in the area of investment funds. Mr Elvinger currently holds a number of board mandates with Luxembourg investment funds including several JPMorgan-managed Luxembourg-domiciled investment funds.

Massimo Greco

Executive Director. A member of the Board since November 2015.

Mr Greco, Managing Director, is Vice Chair of JPMorgan Asset Management EMEA, based in Milan. He took on his current responsibilities in April 2023, having previously been responsible for JPMorgan Asset Management's Global Funds business in Europe. Mr Greco has been a JPMorgan employee since 1992, initially with the Investment Banking unit, moving to Asset Management in 1998. Mr Greco holds a degree in Economics from the University of Turin and an MBA (Major in Finance) from the Anderson Graduate School of Management at UCLA. Mr Greco is a Member of the Board of JPMorgan Asset Management (Europe) S.à.r.l. as well as other Luxembourg-domiciled SICAVs and is the Vice-President of the European Fund and Asset Management Association (EFAMA).

John Li How Cheong

Independent Non-Executive Director. A member of the Board since June 2012.

Mr Li is a fellow of the Institute of Chartered Accountants in England & Wales. Mr Li moved to Luxembourg in 1987 and has since been working in the financial sector. Mr Li was a Partner at KPMG Luxembourg for more than 20 years during which he was Managing Partner for 8 years before taking on the role of Chairman of the Supervisory Board for 3 years. Mr Li was also a member of the Global Investment Management Practice of KPMG. During these years Mr Li's experience included auditing and advising clients such as banks, investment funds, insurance companies from Europe, US, Japan and Asia offering Mr Li an extensive experience in dealing with international companies. Mr Li is a board member of the Institut Luxembourgeois des Administrateurs. Mr Li currently holds a number of board mandates with financial institutions including several JPMorgan-managed Luxembourg-domiciled investment funds.

Marion Mulvey

Independent Non-Executive Director. A member of the Board since June 2020.

Ms Mulvey acted as Co-CAO and Head of Asset Management Operations in EMEA for J.P. Morgan Asset Management from January 2014 through to January 2023, with additional responsibility for Regulatory Transaction reporting and Fee Billing. Ms Mulvey joined J.P. Morgan in 2014 from Citigroup, where her last role was as Product Head for the Alternatives Fund Administration business in EMEA. She spent 13 years with that business in total and also held a number of senior operational roles including Head of Fund Accounting in EMEA. Previously, Ms Mulvey worked at Salomon Smith Barney for 3 years, managing the European Equity Product Control team. She trained as a Chartered Accountant holding roles both in private practice and as an Audit Manager in the financial services audit department at KPMG. Ms Mulvey is a Fellow of the Institute of Chartered Accountants in Ireland. She is also a Chartered Director. Ms Mulvey currently holds a number of board mandates with financial institutions including several JPMorgan-managed Luxembourg-domiciled investment funds.

Martin Porter

Independent Non-Executive Director. A member of the Board since November 2019.

Mr Porter joined Robert Fleming Asset Management in 1984 and ran equity portfolios in both London and Japan. During his tenure in Japan, he became a holding board director of Jardine Fleming, responsible for the Japanese business. Returning to the UK in 2000, he took up the role of Chief Investment Officer, Equity and Balanced of Fleming Asset Management, before becoming Global Head of Equities of J.P. Morgan Asset Management, a position he held from 2003 to 2016 when he retired. Mr Porter is currently a Director of several JPMorgan-managed Luxembourg-domiciled investment funds.

Daniel Watkins

Executive Director. A member of the Board since December 2014.

Mr Watkins is the Chief Executive Officer of Asia Pacific, J.P. Morgan Asset Management. He is responsible for overseeing the Asset Management Asia Pacific business, which operates in seven locations and includes more than 1,400 employees. Mr Watkins is a member of the Asset Management Operating Committee and the firm-wide Asia Pacific Management team. Mr Watkins has been an employee since 1997. Prior to taking his current role in 2019, he was Deputy CEO of JPMorgan Asset Management Europe and Global Head of AM Client Services and Business Platform. Mr Watkins has also held a number of positions at JPMorgan namely Head of Europe COO and Global IM Operations, Head of the European Operations Team, Head of the European Transfer Agency, Head of Luxembourg Operations, manager of European Transfer Agency and London Investment Operations and manager of the Flemings Investment Operations Teams. Mr Watkins obtained a BA in Politics from the University of York and is a qualified Financial Advisor. Mr Watkins is currently a Director of several JPMorgan-managed Luxembourg-domiciled investment funds and also several Asia Pacific legal entities.

The Board of Directors (the "Board") is pleased to present the Audited Annual Report of JPMorgan Funds (the "Fund") for the year ended 30 June 2025, and considers that taken as a whole they are fair and balanced and provide the information necessary for Shareholders to assess the Fund's position and performance.

Structure of the Fund

The Fund is a variable capital open-ended investment company, organised as a "Société Anonyme", under the laws of the Grand Duchy of Luxembourg. The Board has appointed JPMorgan Asset Management (Europe) S.à r.l. (JPMAE) as Management Company of the Fund. The Fund is organised as an "umbrella" with a number of Sub-Funds each of which has its own investment objective, policies and restrictions.

The objective of the Fund is to place the money available to it in transferable securities and other permitted assets of any kind, in accordance with the Fund's Prospectus, with the purpose of spreading investment risks and affording Shareholders the results of the management of their portfolios.

The Fund qualifies as an Undertaking for Collective Investment in Transferable Securities (UCITS) under the EC Directive 2009/65/EC of 13 July 2009 and is subject to the Luxembourg law of 17 December 2010, as amended, on undertakings for collective investment. The Fund may therefore be offered for sale in European Union Member States, subject to notification in countries other than the Grand Duchy of Luxembourg. In addition, applications to register the Fund and its Sub-Funds may be made in other countries.

The Fund currently has 93 Sub-Funds. All of the Sub-Funds and Share Classes are registered for offer and distribution in the Grand Duchy of Luxembourg and a number of the Sub-Funds and Share Classes are registered for distribution in the following jurisdictions: Austria, Belgium, Chile, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Italy, Jersey, Korea, Liechtenstein, Macau, Malta, The Netherlands, Norway, Peru, Poland, Portugal, Singapore, Slovakia, Spain, Sweden, Switzerland, Taiwan, United Arab Emirates and the United Kingdom. During the year there were neither any new registrations nor any de-registrations.

Role and Responsibility of the Board

The responsibility of the Board is governed exclusively by Luxembourg law. With respect to the annual accounts of the Fund, the duties of the Directors are governed by the law of 10 December 2010 on, inter alia, the accounting and annual accounts of undertakings for collective investment and by the law of 17 December 2010, as amended, relating to undertakings for collective investment.

A management agreement between the Fund and JPMorgan Asset Management (Europe) S.à r.l. sets out the matters over which the Management Company has authority under Chapter 15 of the Law of 17 December 2010. This includes management of the Fund's assets and the provision of administration, registration, domiciliation agent and marketing services. All other matters are reserved for approval by the Board and a schedule setting out such matters for clarity is in place between the Board and the Management Company. The matters reserved for the Board include determination of each Sub-Fund's investment objective and policies, investment restrictions and powers, amendments to the Prospectus, reviewing and approving key investment and financial data, including the annual accounts, as well as the appointment of, and review of the services provided by, the Management Company, Auditor and Depositary.

Prior to each Board meeting the Directors receive detailed and timely information allowing them to be prepared for the items under discussion during the meeting. For each quarterly meeting the Board requests, and receives, reports from, amongst others, the Management Company, the investment managers, risk management as well as proposals for changes to existing Sub-Funds or proposals to launch new ones as appropriate. Senior representatives of each of these functions attend Board meetings by invitation to enable the Directors to question the reports presented to them.

The Directors take decisions in the interests of the Fund and its Shareholders as a whole and refrain from taking part in any deliberation or decision which creates a conflict of interest between their personal interests and those of the Fund and its Shareholders. The subject of conflicts of interest is documented in the Prospectus and the Management Company's policy on conflicts of interest is available for inspection on the website:

<https://am.jpmorgan.com/content/dam/jpm-am-aem/emea/lu/en/communications/lux-communication/conflicts-of-interest-ce-en.pdf>

The Board can take independent professional advice if necessary and at the Fund's expense.

Board Composition

The Board is chaired by Mr Schwicht and consists of four Independent Non-Executive Directors, one Non-Executive Director and two Executive Directors.

The Board defines an Executive Director as someone who is employed by JPMorgan Chase & Co or any of its affiliates, a Non-Executive Director as someone who has a business, family or other relationship with the Fund or JPMorgan Chase & Co or any of its affiliates, and an Independent Non-Executive Director as someone who is free of any business, family or other relationship with the Fund or JPMorgan Chase & Co or any of its affiliates. All Board meetings require a majority of Non-Executive Directors to be in attendance.

In appointing a Director, the Board takes into account the relative mix and composition of the Board, which as a whole has a breadth of investment knowledge, financial skills, as well as legal and other experience relevant to the Fund's business.

The Board does not limit the number of years of Directors' service and it does take into account the nature and requirements of the fund industry and of the Fund's business when making recommendation to Shareholders that Directors be elected. The terms of each Director's appointment are set out in a contract for services and these are available at the Fund's registered office for inspection.

Induction and Training

All new Directors will receive an induction incorporating relevant information regarding the Fund and their duties and responsibilities as a Director. In addition, the Board takes active steps to keep up to date with developments relevant to the Fund and have ensured that a formal training programme is in place.

Board Evaluation

The Board carries out a biennial review of its performance.

Board Remuneration

The Board believes that the remuneration of its members should reflect the responsibilities and experience of the Board as a whole and be fair and appropriate given the size, complexity and investment objectives of the Fund. The remuneration is reviewed on an annual basis. The Chair is paid USD 103,994 and the other Directors USD 82,784 per annum. All Executive Directors have agreed to waive their remuneration. No element of the remuneration paid by the Fund to the Directors is performance related.

Board Meetings and Committees

The Board meets quarterly but if necessary additional meetings will be arranged. Given the scope and nature of the business of the Fund, the Board does not currently consider it necessary to have a formal Audit Committee, but established a Remuneration Committee in December 2022. In addition, where there are specific matters that need further consideration, a Sub-Committee of the Board could be formed for the specific purpose. Such circumstances could be where the Board requests some amendments to the Prospectus and where it is not appropriate to wait till the next quarterly Board meeting for this to be approved. These Sub-Committee meetings are usually formed of a minimum of two Directors.

There were eight Board meetings held during the year. Four of these were quarterly Board meetings where, amongst other matters, the agenda included those items highlighted under the section above called 'Role and Responsibility of the Board' and four were ad hoc Board meetings. There was also one Remuneration Committee meeting. In addition to the Board meeting where the Auditors present the report on the audit of the Fund accounts, the Non-Executive Directors also meet with them annually without the Executive Directors being in attendance.

Internal Control

Investment management and all administrative services are provided by the Management Company and custody of assets is provided by J.P. Morgan SE - Luxembourg Branch. The Board's system of internal control therefore mainly comprises monitoring the services provided by the Management Company and the Depositary, including the operational and compliance controls established by them to meet the Fund's obligations to Shareholders as set out in the Prospectus, Articles of Incorporation as well as all relevant regulations. The Management Company formally reports to the Board on a quarterly basis on the various activities it is responsible for and in addition shall inform the Board without delay of any material administrative or accounting matters.

Corporate Governance and ALFI Code of Conduct

The Board is responsible for ensuring that a high level of corporate governance is met and considers that the Fund has complied with the best practices in the Luxembourg funds industry.

In particular the Board has adopted the ALFI Code of Conduct (the "Code") which sets out principles of good governance. These principles are set out below:

1. The Board should adopt clear and transparent standards of corporate governance;
2. The Board should have good professional standing and appropriate experience and use best efforts to ensure that it is collectively competent to fulfil its responsibilities;
3. The Board should act fairly and independently in the best interests of the investors;
4. The Board should act with due care and diligence in the performance of its duties;
5. The Board should ensure compliance with all applicable laws and regulations and with the Fund's constitutional documents;
6. The Board should ensure that investors are properly informed, are fairly and equitably treated, and receive the benefits and services to which they are entitled;
7. The Board should ensure that an effective risk management process and appropriate internal controls are in place;
8. The Board should identify and manage fairly and effectively, to the best of its ability, any actual, potential or apparent conflict of interest and ensure appropriate disclosure;
9. The Board should ensure that Shareholder rights are exercised in a considered way and in the best interests of the Fund;
10. The Board should ensure that the remuneration of the Board members is reasonable and fair and adequately disclosed;
11. The Board should integrate as appropriate sustainability standards and objectives including environmental, social and governance (ESG) criteria in its business model and operations.

The Board considers that the Fund has been in compliance with the principles of the Code in all material aspects throughout the financial year ended 30 June 2025. The Board undertakes an annual review of ongoing compliance with the principles of the Code.

Proxy Voting Policy

The Board delegates responsibility for proxy voting to the Management Company. The Management Company manages the voting rights of the shares entrusted in a prudent and diligent manner, based exclusively on the reasonable judgement of what will best serve the financial interests of clients. So far as is practicable, the Management Company will vote at all of the meetings called by companies in which they are invested.

A copy of the global proxy voting guidelines is available from the Fund's registered office upon request or on the website:

<https://am.jpmorgan.com/content/dam/jpm-am-aem/global/en/institutional/communications/lux-communication/corporate-governance-principles-and-voting-guidelines.pdf>

Environmental Social Governance ("ESG")

In accordance with Article 11(1) of Regulation (EU) 2019/2088, for financial products promoting environmental or social characteristics and objectives, details of these are shown in Appendix 13.

Directors and Officers Indemnity Insurance

The Fund's Articles of Incorporation indemnify the Directors against expenses reasonably incurred in connection with any claim against them arising in the course of their duties or responsibilities as long as they have not acted fraudulently or dishonestly. To protect Shareholders against any such claim, the Board has taken out Directors and Officers Indemnity Insurance which indemnifies the Directors against certain liabilities arising in the course of their duties and responsibilities but does not cover against any fraudulent or dishonest actions on their part.

Auditor

PricewaterhouseCoopers Assurance, Société coopérative, are the appointed Auditor of the Fund. The provision of audit services was last put to competitive tender in 2016. The Board reviewed the services of PwC in 2023 and decided that, subject to any other influencing factor, they should continue to be proposed to the Shareholders to be appointed as Auditor.

Annual General Meetings

The next Annual General Meeting of the Fund will be held on 19 November 2025 at the Registered Office of the Fund to consider matters relating to the year ending on 30 June 2025. At this meeting Shareholders will be requested to consider the usual matters at such meetings including:

1. The adoption of the Financial Statements and approval of the allocation of the results;
2. The approval of Directors' fees;
3. The election of certain Directors;
4. The election of the Auditor; and
5. The discharge of Directors duties.

No special business is being proposed by the Board.

Discharge of Directors

One of the resolutions in the AGM is, as required under Luxembourg Law, for Shareholders to vote on the discharge the Directors of their duties for the fiscal year in question. This discharge is only valid where the annual accounts contain no omission or false information concealing the real financial situation of the Fund.

Privacy Policy

The Management Company complies with a privacy policy that has been issued by J.P. Morgan Asset Management which can be accessed at www.jpmorgan.com/emea-privacy-policy. This policy was updated during the year to comply with the General Data Protection Regulation.

Significant Events

Please refer to Notes 19 and 20 and Appendix 12 for details of the significant events during the year and after the year end.

Board of Directors

Luxembourg, 16 October 2025

Market Review for 12 months ending 30 June 2025

Equities

Market Review

The period over the last 12 months was marked by significant volatility and strategic shifts across global equity markets, influenced by geopolitical events, economic data and central bank policies. The second half of 2024 was influenced by the US Presidential election, reduced expectations for 2025 rate cuts and concerns over global trade tensions. Despite this volatility, the year concluded strongly for global stocks. In the United States, the new Republican administration's policies led to growing uncertainty, affecting corporate and consumer confidence. The "America First" approach amplified challenges for economic growth globally, particularly impacting US tech stocks, which faced scrutiny due to multiyear outperformance and lofty valuations. Tariff-related headlines dominated the first quarter, with new tariffs on imports from Mexico, Canada and China, as well as on steel, aluminium and autos, affecting market sentiment. Business expectations fell, and the Federal Reserve maintained interest rates, expressing concern over downside risks to growth.

In the second quarter of 2025, the 'Liberation Day' tariff announcement triggered a sharp selloff, but the US administration's pause on reciprocal tariffs and a trade deal with China helped markets recover. Developed market equities delivered strong returns, with mega-cap tech stocks rebounding after underperforming in Q1. The Federal Reserve kept interest rates steady, revising growth expectations lower and inflation forecasts higher due to tariff impacts.

Overall, the first half of 2025 was characterised by significant policy-driven volatility, with varying impacts across regions and sectors. European markets showed resilience, while emerging markets benefited from easing trade tensions and currency movements. The global economic outlook remained cautious, with central banks closely monitoring inflation and growth dynamics.

Outlook

The US economy looked strong entering 2025, but that momentum appears to have faded. Whilst the earnings growth from the US is still expected to be resilient, uncertainty around trade and other aspects of the US administration's policy agenda is leading to a 'wait and see' attitude from both businesses and households, which could curb investment and make consumers a little more cautious. Meanwhile, Europe has sprung into action with meaningful fiscal support, which could boost growth prospects for years to come. Underneath the geopolitical noise, it is clear the fabric of the global economy is changing, with significant consequences for the distribution of growth and potentially inflation.

Fixed Income

Market Review

In the third quarter of 2024, monetary policy easing cycles commenced across many developed market economies. In a quarter punctuated by bouts of equity market volatility, a string of disappointing US economic data releases added momentum to the prospect of interest rate cuts, and fixed income markets were buoyant as bonds showcased their diversification benefits. The economy appeared to recover its momentum in the fourth quarter and progress towards inflation targets slowed. After a decisive Trump victory in the US Presidential election in November an initially exuberant market response gave way to caution as investors absorbed the potentially inflationary policy implications, and most fixed income markets retreated. Moving into 2025, the theme of US exceptionalism lost some of its lustre across in the first half the year. Global term premia rose as many government policies remained titled towards fiscal stimulus, which caused mounting concerns over debt sustainability. The expected pace of developed market central bank interest rate cuts slowed as uncertainty over the economic impact of trade and fiscal policy remained elevated, though officials maintained a bias to ease monetary policy.

Outlook

In our June Investment Quarterly meeting, we increased the probability of our sub-trend growth base case from 60% to 65%, as we saw US policy changes gradually impacting the global economy and more expansionary fiscal policy outside the US contributing to global growth stability. Tariff-generated inflation should remain contained, and although higher prices are anticipated to dampen consumption later this year, private sector balance sheets are strong, and we reduced our probability of recession from 20% to 15%. Tail risks remain balanced - we see a 10% risk of a downturn resulting in crisis, and a 10% risk of re-acceleration to above trend growth. With a yield near 7% and spreads ~300bps for USHY; and >5% yield and spreads of >300bps for EHY, the high yield market offers attractive upside/downside return potential, a similar tone to the beginning of the year that has proven out thus far given high yield's year-to-date returns despite a significant increase in volatility.

Money Markets

Market Review

The Sub-Funds were managed with high levels of daily and weekly liquid assets. Weighted average maturity profiles lengthened throughout the period, as central banks completed their interest rate hiking cycles and markets began to price cuts. Yields however began to fall, particularly on the EUR products, in line with prevailing interest rates.

Outlook

We expect these Sub-Funds to maintain their long maturity profiles with central banks expected to maintain, or reduce rates over the coming year.

Multi-Manager Alternatives

Market Review

In a year marked by rapid shifts in global economic dynamics, changing consumer behaviours, technological advancements, trade tensions and simmering inflationary pressures, our strategy demonstrated resilience by outperforming the broader hedge fund index. The Long/Short Equities sub-strategy was the largest contributor, capitalising on opportunities in Europe and the US, particularly in the industrials and information technology sectors. Gains within the Relative Value sub-strategy were driven by convertible bond arbitrage and statistical arbitrage trades, while the Credit sub-strategy benefited from the structured and corporate credit portfolio. The Event Driven sub-strategy also added modest gains, highlighted by shareholder engagement trades. The only strategy that detracted was the Opportunistic/Macro sub-strategy, which faced challenges, particularly in the CTA and quant macro book, amidst

geopolitical tensions and commodity price fluctuations, though the reinsurance segment provided a counterbalance. Over the past year, we enhanced our manager line-up by adding specialist sub-delegates for new alpha sources like statistical arbitrage and catastrophe bonds, centring our portfolio on high-conviction, uncorrelated managers, complemented by a satellite of specialist sub-delegates for tactical allocations.

Outlook

We expect levels of dispersion, volatility and interest rates to remain elevated, which is broadly supportive of alternative alpha and leads to particular conviction in relative value opportunities over the next 12 months. The portfolio is well positioned to deliver idiosyncratic returns in line with its objective while providing much needed diversification to traditional markets. Continued uncertainty around tariffs and monetary policy decisions is likely to drive persistent volatility and recurrent dislocations, creating attractive opportunities to be tactical and deliver alpha across liquid alternatives strategies.

Convertibles

Market Review

Convertible bonds (CBs) have demonstrated strong performance compared to traditional asset classes, including broader equities and global investment-grade and high-yield corporate bonds. This performance has been observed over a period marked by optimism related to the US elections and potential pro-growth policies from the new administration last year, followed by increased volatility in the first half of this year due to uncertainties around tariff policies and ongoing conflicts in the Middle East.

Outlook

The outlook for the CB market remains optimistic. This optimism is largely driven by refinancing activities, as a significant portion of CBs issued during the pandemic era are reaching maturity. Additionally, interest rates are expected to stay relatively high, making CBs an attractive financing option due to their lower coupon rates compared to traditional debt instruments. This environment is likely to support continued interest and investment in CBs.

Diversified Risk strategy

Market Review

The Diversified Risk strategy experienced some softness during this period with mixed performance across the underlying styles.

At the style level, value has been the main detractor from performance, primarily due to equity value. Momentum and carry styles have also negatively impacted performance. In contrast, the quality style has contributed positively. Key positive contributors include equity relative value momentum, credit carry and FX momentum. However, equity trend, fixed income trend and FX carry have lagged.

Outlook

Despite the prevailing uncertainty, we believe that alternative risk premia remain a valuable source of portfolio diversification. We maintain a positive outlook for the strategy, supported by favourable spreads for single-stock equity factors and a conducive environment for carry-based macro factors.

Funds of Funds

We maintain a neutral view on equities and continue to hold a cautious stance on duration and see opportunity in credit, particularly US High Yield. Although spreads are narrow compared to historic levels, fundamentals and technical remain supportive and all-in yields are attractive.

Audit report

To the Shareholders of
JPMORGAN FUNDS

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of JPMORGAN FUNDS (the "Fund") and of each of its sub-funds as at 30 June 2025, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the Combined Statement of Net Assets as at 30 June 2025;
- the Combined Statement of Operations and Changes in net Assets for the year then ended;
- the Schedule of Investments as at 30 June 2025; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

PricewaterhouseCoopers Assurance, Société coopérative, 2 rue Gerhard Mercator, L-2182 Luxembourg
T : +352 494848 1, F : +352 494848 2900, www.pwc.lu

Cabinet de révision agréé. Expert-comptable (autorisation ministérielle n°10181659)
R.C.S. Luxembourg B294273 - TVA LU36559370

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

Luxembourg, 16 October 2025

(2) This Sub-Fund was suspended on 28 February 2022 and the values shown are indicative NAVs as at 30 June 2025. Please refer to Note 2 for further details. The "Cash at bank and at Brokers" includes the balance of Russian Roubles that, under Russian sanctions, is held in a restricted "S" account preventing the Fund from utilising or transferring it. To reflect this restriction the RUB balance is offset by a corresponding entry within "Other Liabilities".

* Please refer to Note 4a), 4b), 4d) and 4e). To the extent that actual operating costs exceed the capped percentage, the amount borne by the Management Company will be separately disclosed as a "Fee Waiver" in the Combined Statement of Net Assets and the Combined Statement of Operations and Changes in Net Assets.

** Other liabilities are principally comprised of Directors' fees, audit and tax related fees and expenses, registration, publication, mailing, printing, legal and marketing expenses.

1. Organisation

JPMorgan Funds (the “Fund” or the “SICAV”) is an investment company incorporated on 14 April 1969 under the name Multi-Trust Fund S.A.. The name of the SICAV was changed to Fleming International Fund on 3 July 1984, to Fleming Flagship Fund on 19 October 1988, to Fleming Funds on 2 June 2000, to JPMorgan Fleming Funds on 19 November 2001 and then to JPMorgan Funds on 12 September 2005.

It is organised under Part I of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment, as amended, as a Société Anonyme qualifying as a Société d'Investissement à Capital Variable (SICAV). As at 30 June 2025, it is comprised of 93 Sub-Funds, each relating to a separate investment portfolio consisting of securities, cash and other instruments.

JPMorgan Asset Management (Europe) S.à r.l. was appointed by the SICAV to act as Management Company.

The SICAV is registered with the Registre de Commerce et des Sociétés of Luxembourg, under number B 8478.

The Sub-Funds may contain different Share Classes which may differ in the minimum subscription amount, minimum holding amount and/or eligibility requirements, reference currency, the fees and expenses and the dividend policy applicable to them, as described in the Sub-Fund Prospectus. Certain Share Classes may charge a Performance Fee and are redenominated by the inclusion of “(perf)” in the name of the Share Class. Within each Sub-Fund, individual Share Classes may have a currency of denomination that differs from the currency of denomination of the Sub-Fund. The currency of denomination for each Share Class is indicated by a suffix in the name of the Share Class.

2. Significant Accounting Policies

The Financial Statements are prepared in accordance with Luxembourg regulations (under Luxembourg GAAP) relating to Undertakings for Collective Investment under the going concern basis of accounting.

There has been no significant change in market conditions and, as at the date of this report, the suspension remains in place for both JPMorgan Funds - Russia Fund and JPMorgan Funds - Emerging Europe Equity Fund. The last official Net Asset Value (NAV) per Share published was on 25 February 2022. The suspension applies to all types of deals in Shares (except stock transfers) and these two Sub-Funds refuse to accept requests to buy, switch or redeem Shares while these two Sub-Funds are suspended. However, stock transfers (i.e. transfer of ownership) will be allowed. With effect from 17 February 2023, JPMorgan Funds - Emerging Europe Equity Fund was split into two Sub-Funds, (i) the impacted Sub-Fund where illiquid assets are hosted and (ii) JPMorgan Funds - Emerging Europe Equity II Fund into which the liquid assets have been transferred. JPMorgan Funds - Emerging Europe Equity II Fund has since merged into JPMorgan Funds - Middle East, Africa and Emerging Europe Opportunities Fund with effect from 14 December 2023. The NAV, Statement of Net Assets, Statement of Operations and Changes in Net Assets and Schedules of Investment of the two suspended Sub-Funds presented as at 30 June 2025 are indicative and represent an internal estimate of the value of the Sub-Funds' assets taking into account the Management Company's inability to trade Russian assets both onshore and offshore, lack of relevant price discovery and market uncertainty. These are not the official NAVs; the official NAV calculation is still suspended and Shareholders cannot subscribe into nor redeem from these two Sub-Funds.

a) Investment Valuation

For all Sub-Funds, except Money Market Funds, transferable securities which are admitted to an official exchange listing or dealt in on another regulated market are valued on the basis of the latest available price prevailing at the time of calculating the net asset value.

If securities are listed or dealt in on several exchanges or markets, the latest available price, or if appropriate, the average price on the principal exchange or market will be applied.

Transferable securities not admitted to an official exchange listing nor dealt in on another regulated market are valued at the latest available price. Those securities for which no price is available or for which the latest available price is not representative are valued on the basis of their reasonably foreseeable sales price determined with prudence and in good faith by the Board of Directors. As at 30 June 2025, securities which were fair valued are identified with an asterisk (*) in the Schedule of Investments.

Shares or Units in UCITS or other UCIs are valued at the latest available price or net asset value, as reported or provided by such funds or their agents.

Liquid assets and money market instruments are valued at market values plus any accrued interest.

Under a Variable NAV Sub-Fund (VNAV), all investments are valued at the latest available price prevailing on the valuation date.

JPMorgan Funds - EUR Money Market VNAV Fund and JPMorgan Funds - USD Money Market VNAV Fund qualify as Variable Net Asset Value Money Market Fund (“VNAV MMF”) under the Money Market Fund regulation (Regulation (EU) 2017/1131).

The assets of VNAV MMF are valued by using mark-to-market prices whenever possible. Where use of mark-to-market prices is not possible or the market data are not of sufficient quality, assets of VNAV MMF are valued conservatively by using mark-to-model. The model accurately estimates the value by considering the up-to-date factors as trading volume, issue size, market risk, interest rate risk and credit risk of each concerned assets.

For the Money Market Funds (MMFs), securitisations, Asset-Backed Commercial Papers and money market instruments are valued at mark-to-market. Where the value of the assets of the Sub-Funds cannot be calculated following the mark-to-market; a) shares or units in MMFs shall be valued at their last available net asset value as reported by such MMFs; b) the value of any cash on hand or on deposit and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid, and not yet received shall be deemed to be the full amount thereof, unless, however, the same is unlikely to be paid or received in full, in which case the value thereof shall be determined conservatively using mark to model.

The Financial Statements are presented on the basis of the net asset values of the Sub-Funds calculated on 30 June 2025, the last business day of the year ended 30 June 2025. In accordance with the Prospectus, the net asset values were calculated using the latest exchange rates at the time of calculation.

In managing the daily priced funds, the Board's principle is to ensure that portfolios are appropriately valued to give equal treatment to Shareholders and in this context the Management Company has implemented a Fair Value Committee to address any potential valuation concerns. In line with this, outside of the security level fair valuations detailed within the Schedule of Investments, no adjustments were made on 30 June 2025 as the portfolio value at the valuation point represents the same value since closure of the portfolios' relevant underlying markets.

b) Swing Pricing Adjustment

To protect the interests of Shareholders, a Sub-Fund's NAV may be adjusted to compensate for dilutions that can arise in connection with flows of cash into or out of a Sub-Fund.

These adjustments are normally applied on any Valuation Day when the net volume of all subscriptions and redemptions in a Sub-Fund's Shares exceeds a certain threshold. The adjustments will seek to reflect the anticipated transaction costs which the Sub-Fund will incur when buying or selling assets. The NAV will be adjusted upward when cash net inflows exceed the pre-determined threshold and downward when the net outflows exceed the threshold.

In normal market conditions, for any given Valuation Day, the adjustment will never be larger than 2% of what the NAV would otherwise be. The SICAV Board has delegated to the Management Company all necessary powers to increase the maximum swing factor applied to Sub-Funds from 2% up to a maximum of 5% in exceptional market circumstances. The Management Company will promptly notify the SICAV Board and the CSSF in the event where swing factors increase beyond 2%. During the year, no Sub-Fund has applied a swing factor exceeding 2%. The swing factors typically include the estimated dealing costs, stamp duty and other taxes and market bid/offer spreads. The price adjustment applicable to a specific Sub-Fund is available on request from the Management Company at its registered office.

The Management Company makes, and periodically reviews, the operational decisions about swing pricing, including the thresholds that trigger it, the extent of the adjustment in each case, and which Sub-Funds will and will not be subject to swing pricing at any given time.

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2025

The official Net Asset Value per Share as at year end, disclosed in the Statistical Information section of this report may therefore include a swing pricing adjustment, which would not be recognised in the Combined Statement of Net Assets and in the Combined Statement of Operations and Changes in Net Assets.

During the year, the swing pricing mechanism was applied across all Sub-Funds except for JPMorgan Funds - Emerging Europe Equity Fund, JPMorgan Funds - Europe Small Cap Fund, JPMorgan Funds - Italy Flexible Bond Fund, JPMorgan Funds - Managed Reserves Fund, JPMorgan Funds - Russia Fund and JPMorgan Funds - Total Emerging Markets Income Fund due to net flows not reaching the swing threshold and JPMorgan Funds - EUR Money Market VNAV Fund, JPMorgan Funds - Global Multi-Strategy Income Fund and JPMorgan Funds - USD Money Market VNAV Fund, due to Prospectus restriction.

As at the year end, Swing Pricing adjustments have been applied to the Sub-Funds JPMorgan Funds - Climate Change Solutions Fund, JPMorgan Funds - Europe Dynamic Fund, JPMorgan Funds - Europe Sustainable Small Cap Equity Fund, JPMorgan Funds - Global Research Enhanced Index Equity Paris Aligned Fund, JPMorgan Funds - Euro Aggregate Bond Fund, JPMorgan Funds - Euro Corporate Bond Fund, JPMorgan Funds - Global Aggregate Bond Fund, JPMorgan Funds - Global Government Bond Fund, JPMorgan Funds - Global Short Duration Bond Fund and JPMorgan Funds - US Aggregate Bond Fund.

Similarly, in order to protect the interests of Shareholders in a Sub-Fund that is being merged, the Management Company may adjust the final Net Asset Value per Share of the merging Sub-Fund, or make other appropriate adjustments in order to neutralise for the Sub-Fund being merged, the impact of any pricing adjustment made through the swing pricing mechanism in the absorbing Sub-Fund as a result of cash inflows or outflows in the absorbing Sub-Fund on the merger date.

The Management Company may consider it appropriate to waive the swing pricing adjustment to the Net Asset Value per Share of a Sub-Fund where it is seeking to attract inflows so that the Sub-Fund reaches a certain size. If such a decision is taken the Management Company will compensate the impacted Sub-Fund for the corresponding amount of the Swing Pricing waiver to protect the Sub-Fund from suffering dilution of the net asset value. Where this happens Shareholders will subscribe at a net asset value that will not have been adjusted upwards as would have been the case if the swing pricing mechanism had been applied. The Management Company did not waive the application of Swing Pricing during this year.

c) Realised and Unrealised Gains or Losses on Investments

Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). For trades into other collective investment schemes, transactions are accounted for on receipt of the trade confirmation from the underlying transfer agents.

Realised gains or losses on sales of investments are calculated on the average book cost. The associated foreign exchange movement between the date of purchase and date of sale of investments is included in realised gains or losses on investments. Unrealised gains or losses on holdings of investments are calculated on the total book cost and include the associated unrealised gains or losses on foreign exchange.

d) Income Recognition

Interest income is accrued daily and includes the amortisation of premiums and accretion of discounts, where applicable. Bank interest income is recognised on an accrual basis. Dividend income is accrued on the ex-dividend date. This income is shown net of any withholding taxes and adjusted accordingly when tax reclaims apply. Dividend income received from currently sanctioned Russian securities, are fair valued, to recognise the inability of the Sub-Funds to repatriate the proceeds. The securities lending income is accounted for on a cash basis on the 16th day of each month following the month that the revenue was generated, net of lending fees paid to the lending agent. An element of the securities lending income will include the proceeds related to the re-investment of cash collateral, if any.

e) Conversion of Foreign Currencies

The books and records of each Sub-Fund are denominated in the base currency of the corresponding Sub-Fund. Amounts denominated in other currencies are translated into the base currency on the following basis: (i) investment valuations and other assets and liabilities initially expressed in other currencies are converted each business day into the base currency using currency exchange rates prevailing on each such business day; (ii) purchases and sales of foreign investments, income and expenses are converted into the base currency using currency exchange rates prevailing on the respective dates of such transactions.

Net realised and unrealised gains or losses on foreign exchange transactions represent: (i) foreign exchange gains or losses from the sale and holding of foreign currencies and foreign cash equivalents; (ii) gains or losses between trade date and settlement date on securities transactions and forward currency exchange contracts; (iii) gains or losses arising from the difference between amounts of dividends and interest recorded and the amounts actually received and (iv) gains and losses arising from the foreign exchange difference between the amounts of expenses accrued and the amounts actually paid.

The resulting gains and losses on translation, if any, would be included in "Net realised gain/(loss) on currency exchange" or in the "Net change in unrealised appreciation/(depreciation) on currency exchange" in the Statement of Operations and Changes in Net Assets.

f) Forward Currency Exchange Contracts

Unrealised gains or losses on outstanding forward currency exchange contracts are valued on the basis of currency exchange rates prevailing at the relevant valuation date. The changes in such amounts are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Forward currency exchange contracts". When a contract is closed, the Realised Gain/(Loss) is recorded under "Net realised gain/(loss) on Forward currency exchange contracts" in the Combined Statement of Operations and Changes in Net Assets. Unrealised gains or losses are recorded under "Unrealised gain/(loss) on forward currency exchange contracts" in the Combined Statement of Net Assets.

g) Financial Futures Contracts on Securities and Indices

Regulated financial futures contracts are valued at the exchange quoted settlement price. Initial margin deposits are made upon entering into the contracts and can be either in cash or securities. During the period the contracts are open, changes in the value of the contracts are recognised as unrealised gains or losses by "marking-to-market" on a daily basis to reflect the market value of the contracts at the end of each business day's trading. Variation margin payments are made or received, depending upon whether losses or gains are incurred. The frequency of those margin payments may differ depending on where the contract is traded. When a contract is closed, the SICAV records a realised gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the initial cost of the contract in "Net realised gain/(loss) on Financial futures contracts" in the Combined Statement of Operations and Changes in Net Assets.

Unrealised gains or losses are recorded under "Unrealised gain/(loss) on financial futures contracts" in the Combined Statement of Net Assets. The changes in such amounts are recorded under "Net change in unrealised appreciation/(depreciation) on Financial futures contracts" in the Combined Statement of Operations and Changes in Net Assets.

h) Option Contracts

The SICAV writes options on securities, futures and currencies. These options are settled in cash and subject the SICAV to unlimited risk of loss. The SICAV, however, is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

Option contracts purchased are recorded as investments; option contracts written or sold are recorded as liabilities. When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

For options on futures, where the investment manager is based in the United Kingdom, variation margin payments are made or received daily, depending upon whether losses or gains are incurred on the underlying financial futures contracts.

The market values are recorded under "Options purchased/written contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are recorded under "Net change in unrealised appreciation/(depreciation) on Options contracts" in the Combined Statement of Operations and Changes in Net Assets. When a contract is closed, the Realised Gain/(Loss) is recorded under "Net realised gain/(loss) on Options contracts" in the Combined Statement of Operations and Changes in Net Assets.

i) To Be Announced Securities ("TBA")

TBAs are related to mortgage-backed securities issued by government sponsored agencies. These agencies usually pool mortgage loans and sell interests in the pools created. TBAs relate to future pools of these agencies that are bought and sold for future settlement for which either the interest rate or the maturity date is not yet fixed. TBAs are separately disclosed in the Schedule of Investments.

Certain Sub-Funds may enter into Dollar Rolls, principally using TBAs, in which the Sub-Funds sell mortgage-backed securities for delivery in the current month and simultaneously contract to repurchase similar, but not identical, securities at an agreed-upon price on a fixed date. The Sub-Funds account for such Dollar Rolls as purchases and sales and receive compensation as consideration for entering into the commitment to repurchase. The Sub-Funds must maintain liquid securities having a value not less than the repurchase price (including accrued interest) for such Dollar Rolls. The market value of the securities that the Sub-Funds are required to purchase may decline below the agreed upon repurchase price of those securities.

The Sub-Funds had TBA Dollar Rolls outstanding as at 30 June 2025, which are included in "Investment in to be announced contracts at market value", "Open short positions on to be announced contracts at market value", "Receivables on sale of to be announced contracts" and "Payables on purchase of to be announced contracts" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on to be announced contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on to be announced contracts" in the Combined Statement of Operations and Changes in Net Assets.

j) Interest Rate Swap Contracts

An interest rate swap contract is a bilateral agreement in which each of the parties agree to exchange a series of interest payments for another series of interest payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The interest on interest rate swap contracts is recorded under "Interest on swap contracts" in the Combined Statement of Operations and Changes in Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

k) Total Return Swap Contracts

The SICAV may enter into swap contracts in which the SICAV and the counterparty agree to exchange payments where one or both parties pay the returns generated by a security, instrument, basket or index thereof. The payments made by the SICAV to the counterparty and vice versa are calculated by reference to a specific security, basket of securities, index, or instruments and an agreed upon notional amount. Any such underlying security or instrument must be a transferable security and any such index must be an index of a regulated market.

A total return swap contract will exchange the total performance on a specific basket of securities, selected by the Investment Manager against a reference rate plus a spread. The total performance includes interest, dividends, gains or losses on the underlying securities during the contract period according to the type of underlying. The risk of this type of instrument will depend on the uncertain evolution, at the time of the contract conclusion, of the performance of the underlying. These underlying securities are listed on a primary exchange.

The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers. The relevant indices include, but are not limited to, currencies, interest rates, prices and total return on interest rates indices, fixed income indices and stock indices.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in such amounts are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the Realised Gain/(Loss) is recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

l) Credit Default Swap Contracts

A credit default swap contract is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

m) Commodity Index Swap Contracts

A commodity index swap contract is a bilateral agreement in which each of the parties agree to exchange the total return of a specified commodity index against money market rate plus fees.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

n) Inflation Rate Swap Contracts

An inflation rate swap contract is a bilateral agreement in which each of the parties agrees to exchange a predetermined fixed rate for an inflation-linked payment based on a notional amount that serves as a computation basis and that is usually not exchanged until the end of the term. Inflation rate swap contracts are marked to market at each NAV calculation date. The estimated market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The income from inflation rate swap contracts is recorded under "Interest on swap contracts" in the Combined Statement of Operations and Changes in Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2025

a) Consolidation of Mauritian Subsidiary

All income, expenses, receivables, payables and investments of JPMorgan SICAV Investment Company (Mauritius) Limited (the "Subsidiary"), a wholly-owned subsidiary of JPMorgan Funds - India Fund, are consolidated into the Combined Statement of Net Assets and the Combined Statement of Operations and Changes in Net Assets of JPMorgan Funds - India Fund. Intercompany balances are eliminated on consolidation. During the year to 30 June 2021, all securities held by the Subsidiary were transferred under the direct ownership of JPMorgan Funds - India Fund. As at 30 June 2025, the subsidiary no longer holds any securities, only a small residual cash balance as it is still in the liquidation process.

The Directors of JPMorgan SICAV Investment Company (Mauritius) Limited and its sole Shareholder, JPMorgan Funds, have resolved, via written resolutions, to wind up JPMorgan SICAV Investment Company (Mauritius) Limited. The resolution of the sole Shareholder was accepted by the Mauritian Registrar of Companies on 5 May 2021 after which the liquidator assumed control of JPMorgan SICAV Investment Company (Mauritius) Limited. The Subsidiary will remain consolidated into JPMorgan Funds - India Fund until the liquidation process has been completed.

Whilst Indian securities listed on an Indian stock exchange were held through the Mauritius subsidiary, interests and dividends received were not subject to taxation. Interests and dividends on securities listed on an Indian stock exchange held directly in India by JPMorgan Funds - India Fund are subject to tax at a rate of 20% (plus surcharge and education tax). Capital gains on disposal of such investments is subject to tax at rates of 0% to 15% (plus surcharge and education tax) in respect of listed securities depending on the length of time the relevant investment has been held.

3. Reference Currency and Exchange Rates

The reference currency of the SICAV as reflected in the combined statements is USD.

For the preparation of the Financial Statements the principal exchange rates applied for the year ended 30 June 2025 are the latest exchange rates at the time of the NAV calculation:

1 USD =	1.5280 AUD	1 USD =	21.1128 CZK	1 USD =	340.8432 HUF	1 USD =	3.6186 PLN
1 USD =	1.3673 CAD	1 USD =	0.8534 EUR	1 USD =	144.3700 JPY	1 USD =	9.5093 SEK
1 USD =	0.7976 CHF	1 USD =	0.7309 GBP	1 USD =	10.1229 NOK	1 USD =	1.2749 SGD
1 USD =	7.1637 CNH	1 USD =	7.8500 HKD	1 USD =	1.6484 NZD		

4. Fees and Expenses

a) Capped Expense Ratio

The maximum total fees and expenses to be borne by Shareholders on a Share Class of any Sub-Fund will not exceed a capped percentage of the total net assets attributable to that Share Class. These capped fees and expenses comprise the Management Fees, Sub-Investment Manager Fee, Distribution Fees and other Operating and Administrative Expenses; it does not cover performance fees, if any.

No other costs are charged to these Share Classes and the Management Company absorbs any difference that may arise between the actual costs of the operations of these Share Classes and the capped percentage.

This capped annual rate of fees and expenses is categorised as a Capped Expense Ratio as shown in Appendix 1. The actual fees and expenses charged to each Share Class are detailed in the Appendix.

b) Management Fees

The SICAV pays to the Management Company management fees calculated as a percentage of the average daily net assets of each Sub-Fund or Share Class under its management ("Management Fees"). The Management Fees are accrued daily and payable monthly in arrears at a maximum rate as specified in the Prospectus.

Sub-Funds may invest in UCITS, other UCIs and closed ended investment undertakings qualifying as transferable securities within the meaning of UCITS rules (including investment trusts) (the "Undertakings") managed by an affiliate of JPMorgan Chase & Co., double-charging of management fees will either be avoided or rebated. However, if the underlying investment charges higher management fees, the difference may be charged to the investing Sub-Fund. If the underlying affiliate undertaking combines management and other fees and charges into a single total expense ratio, such as in exchange traded funds, the whole total expense ratio will be waived. Where a Sub-Fund invests in undertakings not affiliated with JPMorgan Chase & Co. the fee shown in Sub-Fund Descriptions section of the Prospectus may be charged regardless of any fees reflected in the price of the shares or units of the underlying undertaking.

The Management Company has resolved to waive the Management Fees and Distribution Fee for JPMorgan Funds - Russia Fund and JPMorgan Funds - Emerging Europe Equity Fund during the period the Sub-Funds are suspended.

The Management Company can vary the management fees, at any time and for intervals as short as a single day, to any amount between zero and the stated maximum. For X and Y Share Classes, this fee is not charged at the Share Class level; instead, the applicable JPMorgan Chase & Co. entity collects a fee for these services directly from the Shareholder.

c) Sub-Investment Manager fees

For Multi-Manager Sub-Funds, in addition to the annual management fees, there are Sub-Investment Management fees. This fee goes to pay the Sub-Investment Managers who handle the day-to-day management of their assigned portions of the Sub-Fund portfolio. Where a Sub-Fund invests in Undertakings managed by investment managers which are not members of JPMorgan Chase & Co. group, the Management fees, as specified in the Prospectus, may be charged regardless of any fees reflected in the price of the shares or units of the Undertakings.

d) Distribution Fees

The Management Company typically uses some or all of this fee to compensate Distributors for their services in connection with marketing and distributing the D and T Share Classes. The Management Company can vary this fee, at any time and for intervals as short as a single day, to any amount between zero and the stated maximum.

e) Operating and Administrative Expenses

The SICAV bears all its ordinary operating and administrative expenses at the rates set out in the Prospectus ("Operating and Administrative Expenses") to meet all fixed and variable costs, charges, fees and other expenses incurred in the operation and administration of the SICAV from time to time. This fee is capped for each Share Class and will not exceed the amount stated in Sub-Fund Descriptions section of the Prospectus. The Management Company will bear any operating and administrative expenses that exceed the maximum rate specified.

Where a Sub-Fund invests primarily in UCITS and other UCIs managed by an affiliate of JPMorgan Chase & Co. and where specifically stated for a Sub-Fund in Sub-Fund Descriptions section of the Prospectus, double-charging of operating and administrative expenses will be avoided by a rebate to the Sub-Fund of the operating and administrative expenses (or equivalent) charged to the underlying UCITS or other UCIs. Where a Sub-Fund invests in undertakings not affiliated with JPMorgan Chase & Co. the fee shown in Sub-Fund Descriptions section of the Prospectus may be charged regardless of any fees reflected in the price of the shares or units of the underlying undertaking.

The Operating and Administrative Expenses cover:

i) A "Fund Servicing Fee" paid to the Management Company for the services that the Management Company provides to the SICAV. The Fund Servicing Fee will be reviewed annually and will not exceed 0.10% per annum, except for JPMorgan Funds - Global Research Enhanced Index Equity Fund where it will not exceed 0.05% per annum and all C2, I2 and X2 Share Classes, where it will not exceed 0.06%.

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2025

ii) Expenses directly contracted by the SICAV ("Direct Fund Expenses") and expenses directly contracted by the Management Company on behalf of the SICAV ("Indirect Fund Expenses") as detailed in the Prospectus.

f) Performance Fees

As set out in the Prospectus, the Management Company is entitled to receive from the net assets of certain Sub-Funds or Share Classes, an annual performance-based incentive fee (the "Performance Fee") if the performance of the Sub-Fund exceeds the return from the benchmark, subject to the operation of a Claw-Back Mechanism or of a High Water Mark as defined in the Prospectus and as specified in the Prospectus for each Sub-Fund. On each Valuation Day, an accrual for the previous Valuation Day's Performance Fee is made, when appropriate, and the performance fee accrual, if any, becomes payable to the Management Company on the last Dealing Day of the Financial year, or under any of the following circumstances: on very significant orders for switching or redemption (applies to those Shares only) and when a Sub-Fund is merged or liquidated. Pursuant to the provisions of the relevant Investment Management Agreement, the Investment Manager may be entitled to receive the whole or part of the Performance Fee from the Management Company.

On each Valuation Day, the net asset value of each Share Class of each Sub-Fund for which a Performance Fee applies, which includes an accrual for all fees and expenses (including the Management Fees, and the Operating and Administrative Expenses to be borne by the relevant Share Class at the rate set out in the Prospectus), is adjusted for any dividend distributions and for subscriptions and redemptions dealt with on that Valuation Day, if any, and any Performance Fee accrued through that day in respect of such Share Class is added back (the "Adjusted net asset value"). For purposes of calculating the Performance Fee, the "Share Class Return" is computed on each Valuation Day, as the difference between the net asset value (adjusted by adding back any accrued Performance Fee) on such day and the Adjusted net asset value on the previous Valuation Day, expressed as a return based on the previous Valuation Day's Adjusted net asset value for that Share Class.

The following table includes performance fee information for Share Classes that were charged during the reporting year. Any other Share Classes subject to performance fees that are not included in the table below did not incur performance fees charges during the reporting year.

	Sub-Fund Currency	Performance Fee	Percentage of Share Class average net assets
JPMorgan Funds - Euroland Dynamic Fund

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2025

Claw-Back mechanism

The Claw-Back mechanism may accrue a Performance Fee where there is negative return, provided that the performance exceeds the Performance Fee Benchmark return since the last time a Performance Fee was paid.

High Water Mark Method

The High Water Mark mechanism introduces an additional requirement that a Performance Fee may only be accrued where the Net Asset Value per Share is higher than the greater of the Net Asset Value per Share at launch of the Share Class, and the Net Asset Value per Share at which the last Performance Fee was paid.

As at 30 June 2025, Performance Fee rates and benchmarks on all Share Classes with the suffix “(perf)” are as follows:

Sub-Fund	Applicable Share Classes	Performance Fee Rate	Performance Benchmark
<i>Claw-Back Mechanism method</i>			
JPMorgan Funds - Emerging Markets Small Cap Fund	All	10%	MSCI Emerging Markets Small Cap Index (Total Return Net)

5. Distribution Policy

Share Classes suffixed “(acc)”

Share Classes with the suffix “(acc)” are accumulation Share Classes and will not normally pay dividends.

Distribution Share Classes will normally pay dividends as described below.

Share Classes suffixed “(dist)”

It is intended that all those Share Classes with the suffix “(dist)” will, if appropriate, pay reportable income annually and will have “UK Reporting Fund Status”. Payment of dividends on these Share Classes will normally be made in September of each year.

Share Classes suffixed “(div)”

Share Classes with the suffix “(div)” will normally pay quarterly dividends which are calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund’s portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio’s expected yield.

Investors should be aware that “(div)” Share Classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Management Fees and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Share Classes with the suffix “(div)” in issue at the dividend record date will be eligible for any dividends which will normally be paid in the currency of the relevant Share Class.

Share Classes suffixed “(mth)”

Share Classes with the suffix “(mth)” will be available to Shareholders subscribing, and remaining subscribed, through specific Asian distribution networks and to other distributors at the sole discretion of the Management Company. Share Classes with the suffix “(mth)” will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund’s portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio’s expected yield. Investors should be aware that “(mth)” Share Classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Management Fees and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Dividend payments for these Share Classes will normally be made to Shareholders each month and will be paid in the currency of the relevant Share Class. The Management Company reserves the right to fix a minimum amount per Share Class, below which the actual payment of the dividend would not be economically efficient for the SICAV. These payments will be deferred to the following month or reinvested in further Shares of the same Share Class and not paid directly to the Shareholders. The net asset value of “(mth)” Share Classes may fluctuate more than other Share Classes due to more frequent distribution of income.

Share Classes suffixed “(fix)”

Share Classes with the suffix “(fix)” will normally pay a quarterly fixed dividend based on a total amount per Share per annum as defined in the Prospectus. Share Classes with the suffix “(fix)” may be closed, liquidated, not pay a dividend or reduce the dividend amount payable if the payment of the dividend is believed not to be in the best interests of all Shareholders collectively in the Share Class.

Share Classes suffixed “(irc)”

Share Classes with the suffix “(irc)” will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be variable and will be calculated by the Management Company based on: the estimated gross annual yield of the relevant Sub-Fund’s portfolio attributable to that Share Class, which is revised at least semi-annually; and the addition or deduction of the estimated interest rate carry depending on whether such carry is positive or negative respectively. The interest rate carry is calculated using the average daily differential of the one month FX forward rate and the spot rate between these two currencies of the preceding calendar month.

Share Classes suffixed “(icdiv)”

Share Classes with the suffix “(icdiv)” will pay a dividend that is expected to include a distribution from capital as well as the gains of the Share Class. It sets a predetermined annual percentage of NAV per Share to be paid as a monthly dividend that is not linked to income or capital gains. Payments are likely to exceed the increase in the NAV per Share from the net income and realised and/or unrealised capital gains of the Share Class resulting in erosion of the amount invested. The annual percentage is based on prevailing investor demand in the region where the Share Class is distributed and Sub-Fund level considerations. The percentage may be changed at the discretion of the Management Company. The latest dividend yield of the Share Class can be found on the website (www.jpmorganassetmanagement.lu).

This Share Class is available only to investors purchasing and holding Shares through specific Asian distribution networks, and to other investors at the discretion of the Management Company. Shareholders should be aware that, during periods of negative performance, the dividend will normally continue to be paid and the value of the investment may fall more rapidly. It may not be possible to maintain the initial / prevailing dividend payment indefinitely and it may be reduced. If the value of the NAV falls to 1.00 in the Sub-Fund’s Base Currency, the Share Class will be fully redeemed by the Management Company at the next practicable opportunity. Investors in these Share Classes may have to pay tax on payments out of capital which may be tax inefficient. Investors should consult with their tax advisors.

Other Information

Shareholders should note that, where the dividend rate is in excess of the investment income of the Share Class, dividends will be paid out of the capital attributed to the Share Class, as well as from realised and unrealised capital gains. This may be tax inefficient for Shareholders in certain countries. Shareholders should consult their local tax adviser about their own position. Share Classes with the suffix “(div)”, “(fix)” and “(mth)” do not distribute the reportable income in accordance with the United Kingdom tax legislation relating to offshore funds. The (dist) Share Classes of JPMorgan Funds - Russia Fund and JPMorgan Funds - Emerging Europe Equity Fund normally pay an annual distribution in September based on reportable income. Should the Sub-Funds still be suspended on that date, the annual dividend will not be declared.

Details of the dividends distributed during the year ended 30 June 2025 are available on the website:

<https://am.jpmorgan.com/lu/en/asset-management/adv/products/fund-explorer/sicavs>

6. Taxation

The SICAV is not subject to taxation in Luxembourg on its income, profits or gains. The SICAV is not subject to net wealth tax in Luxembourg. The only tax to which the SICAV in Luxembourg is subject is the subscription tax (“Taxe d’Abonnement”), up to a rate of 0.05% per annum based on the net asset value attributed to each Share Class at the end of the relevant quarter, calculated and paid quarterly. A reduced tax rate of 0.01% per annum of the net assets will be applicable to Share Classes as identified in Appendix 6. The 0.01% and 0.05% rates described above, as appropriate, are not applicable for the portion of the assets of the SICAV invested in other Luxembourg collective investment undertakings which are themselves already subject to the Taxe d’Abonnement.

No stamp duty, capital duty or other tax is payable in Luxembourg upon the issue of the Shares of the SICAV. No tax is payable on realised or unrealised capital appreciation of the assets of the SICAV in the Grand Duchy of Luxembourg. Although the SICAV’s realised capital gains, whether short or long-term, are not expected to become taxable in another country, the Shareholders must be aware and recognise that such a possibility is not totally excluded. The regular income of the SICAV from some of its securities, as well as interest earned on cash deposits in certain countries, may be subject to withholding taxes at varying rates, which normally cannot be recovered.

Dividends, interest and capital gains on security investments held by any Sub-Fund may be subject to non-recoverable withholding tax and Capital Gains Tax of varying rates in the source countries.

7. Statement of Changes in Investments

A list, specifying for each investment within each Sub-Fund the total purchases and sales which occurred during the financial year, may be obtained free of charge upon request at the registered office of the SICAV. Additional information on investments within each Sub-Fund’s portfolio is available to Shareholders at the registered office of the SICAV.

8. Value of Financial Instruments and Associated Risks

The SICAV entered into forward currency exchange contracts, financial futures contracts, options and swaps which, to varying degrees, represent a market risk in excess of the amount reflected on the Combined Statement of Net Assets. The amount of the contracts represents the extent of the SICAV’s participation in these financial instruments. Market risks associated with such contracts arise due to the possible movements in foreign exchange rates, indices, and security values underlying these instruments. Associated risks are set out in the Prospectus.

In emerging and less developed markets, in which some of the Sub-Funds will invest, the legal, judicial and regulatory infrastructure is still developing and there is much legal uncertainty both for local market participants and their overseas counterparts. Some markets may carry higher risks for investors who should therefore ensure that, before investing, they understand the risks involved and are satisfied that an investment is suitable as part of their portfolio. In some markets there may be no secure method of delivery against payment which would minimise the exposure to counterparty risk. It may be necessary to make payment on a purchase or delivery on a sale before receipt of the securities or, as the case may be, sale proceeds.

9. Collateral Received with Respect to Financial Techniques and Financial Derivative Instruments

Assets received from counterparties in securities lending activities and OTC derivative transactions other than currency forwards constitute collateral.

The SICAV will only enter into transactions with counterparties which the Management Company believes to be creditworthy. Approved counterparties will typically have a public rating of A- or above. Counterparties will comply with prudential rules considered by the CSF as equivalent to EU prudential rules. The counterparty does not have discretion over the composition or management of a Sub-Fund’s portfolio or over the underlying of financial derivative instruments used by a Sub-Fund. Counterparty approval is not required in relation to any investment decision made by a Sub-Fund.

Collateral may be offset against gross counterparty exposure provided it meets a range of standards, including those for liquidity, valuation, issuer credit quality, correlation and diversification. In offsetting collateral its value is reduced by a percentage (a “haircut”) which provides, inter alia, for short term fluctuations in the value of the exposure and of the collateral. Collateral levels are maintained to ensure that net counterparty exposure does not exceed the limits per counterparty as set out in the Prospectus. If any, collateral is received in the form of securities and cash. Non-cash collateral received is not sold or pledged.

Collateral received with respect to financial derivative instruments is shown in Appendix 8.

10. Securities Lending

The SICAV may lend portions of its securities portfolio to third parties for the purpose of generating additional income or for reducing costs, to the maximum extent allowed by and within the limits set forth in (i) article 11 of the Grand Ducal regulation of 8 February 2008 relating to certain definitions of the Luxembourg Law, (ii) CSF Circular 08/356 relating to the rules applicable to Undertakings for Collective Investment when they use certain techniques and instruments relating to transferable securities and money market instruments, (iii) CSF circular 14/592 relating to ESMA Guidelines on ETFs and other UCITS issues and (iv) any other applicable laws, regulations, circulars or CSF positions.

Borrowers of securities lent by participating Sub-Funds are approved by the Management Company after appropriate assessment of such borrowers’ status and financial standing. 90% of any incremental income earned from securities lending is accrued to the applicable Sub-Fund, whilst the remaining 10% income is paid to J.P. Morgan SE - Luxembourg Branch for its role as securities lending agent for the SICAV. The income earned from the securities lending program is detailed in the Combined Statement of Operations and Changes in Net Assets.

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2025

As at 30 June 2025, the SICAV valuation of securities on loan is USD 3,591,500,972 as detailed below and received collateral with a market value of USD 3,816,933,017.

Sub-Fund	Market Value of Securities Lent USD	Cash Collateral** USD	Non Cash Collateral* USD	Base Currency	Lending Income (Gross) Base Currency	Lending Agent Fee Base Currency	Lending Income (Net) Base Currency

* The securities received as collateral are in the form of government securities (US, UK, Eurozone and other government securities). These securities are issued and guaranteed as to principal and interest by the governments of the relevant countries.

** Cash collateral may be reinvested into Reverse Repurchase Transactions with high quality government bonds as collateral. Income earned is recorded under the "Securities Lending Income" in the Combined Statement of Operations and Changes in Net Assets.

11. Transactions with Connected Parties

All transactions with connected parties were carried out on an arm's length basis.

JPMorgan Chase & Co. and its affiliates are counterparties for all securities lending activity and for certain forward foreign exchange contracts, financial futures contracts and swaps contracts. The Management Company, Registrar and Transfer Agent, Global Distributor and Domiciliary Agent, Investment Managers, Depository, Corporate, Administrative and Listing Agent and other related Agents of the SICAV are considered as connected parties as they are affiliated entities of JPMorgan Chase & Co. In addition, Elvinger Hoss Prussen, société anonyme (of which Mr Jacques Elvinger who is on the Board of Directors of the SICAV, is a partner) has been compensated USD 99,134 for the year for legal services to the SICAV.

The following is a summary of transactions entered into during the year between the SICAV (on behalf of authorised Sub-Funds in Hong Kong) and the Manager and/or its Connected Persons. Connected Persons of the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the Securities & Futures Commission of Hong Kong. All such transactions were entered into in the ordinary course of business and on normal commercial terms. For details of the Management Fees payable to the Management Company, please refer to Note 4, Fees and Expenses. The fees of the Investment Manager and Delegate Investment Manager of the Sub-Funds which are authorised in Hong Kong are borne by the Management Company.

13. Commission Sharing Arrangements

The Investment Managers may enter into commission sharing arrangements only where there is a direct and identifiable benefit to the clients of the Investment Managers, including the SICAV, and where the Investment Managers are satisfied that the transactions generating the shared commissions are made in good faith, in strict compliance with applicable regulatory requirements and in the best interests of the SICAV and the Shareholders. Any such arrangements must be made by the Investment Manager on terms commensurate with best market practice. Due to their local regulatory rights, certain Investment Managers may make use of soft commission to pay for research or execution services. Other jurisdictions may have other arrangements in place to pay for such services in accordance with local regulatory obligations.

Where JPMorgan Asset Management (UK) Limited is the investment manager, all costs associated with the purchase of external research are paid directly by JPMorgan Asset Management (UK) Limited.

14. Information for German Registered Shareholders

A list, specifying for each investment within each Sub-Fund the total purchases and sales which occurred during the financial year, may be obtained free of charge upon request at the registered office of the SICAV and at the office of the German paying and information agent, JPMorgan Asset Management (Europe) S.à r.l., Frankfurt Branch, Taunustor 1, D-60310, Frankfurt am Main, Germany. Additional information on investments within each Sub-Fund's portfolio is available to Shareholders at the registered office of the SICAV and at the office of the German paying and information agent.

15. Information for Investors in Switzerland

Representative in Switzerland: JPMorgan Asset Management (Switzerland) LLC, Dreikönigstrasse 37, 8002 Zürich.

Paying Agent in Switzerland: J.P. Morgan (Suisse) SA, 8, rue de la Confédération, 1204 Geneva.

The Prospectus, the Key Information Documents, the articles of incorporation, the annual and semi-annual financial report as well as a list of the purchases and sales which the SICAV has undertaken during the financial year may be obtained free of charge from the representative.

17. Directors' Fees

The only remuneration paid to Directors is an annual fee. This is waived by Mr Daniel Watkins and Mr Massimo Greco. The Directors' fees for the year amounted to USD 435,132 of which USD 103,994 was due to the Chairman.

18. Transaction Costs

For the year ended 30 June 2025, the SICAV incurred transaction costs which have been defined as brokerage fees included with the "Net realised gain/(loss) for the year" in the Combined Statement of Operations and Changes in Net Assets relating to purchase or sale of transferable securities, derivatives (except OTC derivatives), money market instruments or other eligible assets. The SICAV also incurred transaction costs charged by the depositary agent included within "Depositary, corporate, administration and domiciliary agency fees" in the Combined Statement of Operations and Changes in Net Assets relating to purchase and sale of transferable securities as follows:

Sub-Fund	Base Currency	Depositary Transaction Costs and Brokerage Fees (in Base Currency)

(4) This Sub-Fund was liquidated on 11 December 2024.

(5) This Sub-Fund was liquidated on 25 June 2025.

(6) This Sub-Fund was renamed from JPMorgan Funds - Global Bond Opportunities Sustainable Fund on 12 May 2025.

For fixed income securities, transaction costs are not separately identifiable from the purchase price of the security and therefore cannot be disclosed separately.

19. Significant Events during the Year

a) Sub-Fund Liquidations

JPMorgan Funds - Sustainable Infrastructure Fund was liquidated on 11 December 2024.

JPMorgan Funds - Emerging Markets Social Advancement Fund was liquidated on 10 April 2025.

JPMorgan Funds - APAC Managed Reserves Fund was liquidated on 25 June 2025.

b) Sub-Fund Name Change

JPMorgan Funds - Global Bond Opportunities Sustainable Fund was renamed JPMorgan Funds - Global Bond Opportunities ESG Fund on 12 May 2025.

c) *JPMorgan Funds - Russia Fund and JPMorgan Funds - Emerging Europe Equity Fund*
On 2 October 2024 the Russian government and the Central Bank of Russia resolved that all domestically issued shares of Russian Companies held by foreign funds, including JPMorgan Funds - Russia Fund and JPMorgan Funds - Emerging Europe Equity Fund, in 'type S' accounts at local Russian sub-custodians be transferred from the nominee holder accounts of the local custodians at the Russian central securities depository, the National Settlement Depository (NSD) into new type "S" nominee holder accounts directly at the registrar of each individual issuer. The accounts at the registrars were opened in the name of the local sub-custodian as client accounts and as 'type S' accounts. It is however to be noted that the sub-custody chain now includes entities which are agents of the various issuers and whose performance is established by their agreements with issuers. The registrars are neither central securities depositories subject to public rules nor are they delegates or agents of the custodian or sub-custodian of JPMorgan Funds and are, therefore, external parties outside the chain of custodial oversight and responsibility. Cash holdings were not affected by this decision.

20. Significant Events after the Year-End

a) <i>Sub-Fund restructuring</i>		
On 1 July 2025 JPMorgan Funds - China Bond Opportunities Fund was restructured as follows:		
	Up to 30 June 2025	From 1 July 2025

¹Related Party Fund.

This Sub-Fund has been suspended from trading since 28 February 2022 in order to protect the best interests of Shareholders in the Sub-Fund. As a result, the last official Net Asset Value (NAV) per Share published was on 25 February 2022. The NAV reported here is an indicative NAV as at 30 June 2025 and is not an official NAV; the official NAV calculation is still suspended and Shareholders cannot subscribe into nor redeem from the Sub-Fund. An indicative NAV is an internal estimate of the value of the Sub-Fund's assets taking into account the Investment Manager's inability to trade Russian assets both onshore and offshore, lack of relevant pricing sources and market uncertainty.

This Sub-Fund has been suspended from trading since 28 February 2022 in order to protect the best interests of Shareholders in the Sub-Fund. As a result, the last official Net Asset Value (NAV) per Share published was on 25 February 2022. The NAV reported here is an indicative NAV as at 30 June 2025 and is not an official NAV; the official NAV calculation is still suspended and Shareholders cannot subscribe into nor redeem from the Sub-Fund. An indicative NAV is an internal estimate of the value of the Sub-Fund's assets taking into account the Investment Manager's inability to trade Russian assets both onshore and offshore, lack of relevant pricing sources and market uncertainty.
